(iii) Count packs, round, intermediate shaped, or long varieties, when the number of potatoes is designated on the container, the size shall not vary more than 1 ounce under or 1 ounce over the count size specified on the container.

(c) In order to allow for variations, other than size, incident to proper grading and handling, not more than a total of 5%, by weight, of the potatoes in any lot may fail to meet the requirements of this grade relating to external and internal defects, provided that not more than ⅘ of this amount, or 2%, shall be allowed for potatoes which are frozen or affected by southern bacterial wilt, ring rot, late blight, soft rot, or wet breakdown, including therein not more than ⅛ of 1% for potatoes which are frozen or affected by soft rot or wet breakdown.

(d) In order to allow for variations incident to proper sizing, the following tolerances shall be allowed:

(i) Not more than 5% of the potatoes in any lot may fail to meet the specified minimum size or weight. In addition, not more than 10% may fail to meet any specified maximum size or weight.

(ii) When a number of potatoes per package is specified, the number of potatoes in individual packages shall not vary more than 5% from the number specified.

(8) Individual containers intended for use in connection with the distribution of potatoes packed under the "Michigan seal of quality" grade must meet the following requirements:

(a) Shall be new, clean, and a type recognized as a suitable shipping container for potatoes.

(b) Shall bear upon them in plain sight, readily visible letters and figures not less than ¼ of an inch in height:

(i) Grade.

(ii) Size classification (large or extra large) or numerical count.

(iii) Variety.

(iv) Net contents.

(v) Name of person who first packed or authorized the packing of the potatoes or the name under which such packer is engaged in business.

(vi) Explicit address to permit ready location of such packer.

(c) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations, provided that the averages for the entire lot are within the tolerances specified for the grade:

(i) For packages which contain more than 15 pounds, when a tolerance of 10% or more is provided, individual packages in the lot shall have not more than 1½ times the tolerance specified, and when a tolerance of less than 10% is provided, individual packages in the lot shall have not more than double the tolerance specified, except that for potatoes which are frozen or affected by soft rot or wet breakdown, en route or at destination, not more than 1/10 of the packages may contain not more than 4 times the tolerance specified, and except that at least 1 defective and 1 off-size potato may be permitted in any package.

(ii) For packages which contain 15 pounds or less, individual packages in the lot are not restricted as to percentage of defects and off-size; provided that not more than 1/10 of the packages may have more than 1 potato which is frozen or affected by soft rot or wet breakdown.

(9) Any "person" who produces or supplies potatoes to be packed under the "Michigan seal of quality" and any person grading, packing, holding, transporting, distributing, or offering for sale potatoes under the "Michigan seal of quality" shall be subject to the following provisions governing the maintenance of potato quality:

(a) Coolers, holding rooms, and any other facility in which potatoes are held, stored, or in any manner maintained for periods longer than required for normal movement of potatoes shall:

(i) Be constructed, maintained, and operated in compliance with Michigan laws and regulations governing food establishments, food handling, and sanitation;

(ii) Not be used for commodities or products not compatible with food products; and

(iii) Be free from objectionable odors and from molds.

(10) Definitions:

(a) "Fairly well matured" means that not more than 10%, by weight, of the individual potatoes in the lot have more than ¼ of the skin missing or feathered.

(b) "Well shaped" means that the potato has the normal shape for the variety and is not pointed, dumbbell shaped, or otherwise ill-formed.

(c) "Clean" means that the individual potato has been washed or cleaned equally as well by other approved methods, is fairly bright, individual potato is

practically free from dirt or staining, and practically no loose dirt or other foreign matter is present in the container.

(d) "Fairly clean" means that the individual potato is reasonably free from dirt or staining and not more than a slight amount of loose dirt or other foreign matter is present in the container.

(e) "Soft rot or wet breakdown" means any soft, mushy, or leaky condition of the tissue such as slimy soft rot, leak, or wet breakdown.

(f) "Damage" means any defect which materially affects the edible or shipping quality, or the internal or external appearance of the individual potato, or any external defect which cannot be removed without a loss of more than 5% of the total weight of the potato including peel covering the defective area. Any 1 of the following defects, or any combination of defects the seriousness of which exceeds the maximum allowed for any 1 defect, shall be considered as damage:

(i) Dirt or other foreign matter when the individual potato is more than slightly dirty or slightly stained, or when more than a moderate amount of loose dirt or other foreign matter is present in the container.

(ii) Sunburn when the discoloration extends into the flesh to such an extent that it cannot be removed without a loss of more than 5% of the total weight of the potato including peel covering the affected area.

(iii) Greening caused by exposure to natural or artificial light when the appearance of the individual potato is materially affected by yellowish or greenish surface discoloration, or when discoloration extends into the flesh of the potato and cannot be removed without a loss of more than 5% of the total weight of the potato including peel covering the defective area.

(iv) Second growth which materially affects the appearance of the individual potato.

(v) Growth cracks which materially affect the appearance of the individual potato.

(vi) Air cracks which are deep, or shallow air cracks which materially affect the appearance of the individual potato.

(vii) Hollowheart which materially affects the internal appearance of the potato cut longitudinally.

(viii) Internal discoloration, any part of which affects the vascular ring or occurs between the ring and the skin of the potato when the discoloration cannot be removed without a loss of more than 5% of the total weight of the potato including peel covering the defective area, or discoloration occurring entirely within the area bounded by the vascular ring when there is more than the equivalent of 3 scattered light brown spots ⅛ inch in diameter in a round or intermediate type potato 2¼ inches in diameter or in a long type potato 8 ounces in weight, or correspondingly lesser or greater numbers of spots on smaller or larger potatoes.

(ix) External discoloration when the appearance of the potato is materially affected.

(x) Shriveling when the potato is more than moderately shriveled, spongy, or flabby.

(xi) Sprouting when more than 5% of the potatoes in the lot have external sprouts over ½ inch in length, or when the removal of an ingrown sprout causes a loss of more than 5% of the total weight of the potato including peel covering the defective area.

(xii) Scab when surface scab shows no pronounced contrast with the background color of the potato and the aggregate area exceeds 5% of the surface, or when surface scab shows a pronounced contrast with the background color and

the aggregate area exceeds 3% of the surface; when pitted scab affects the appearance of the potato to a greater extent than the amount of surface scab permitted or causes a loss of more than 5% of the total weight of the potato including peel covering the defective area; or when russet scab materially affects the appearance of the potato.

(xiii) Rhizoctonia when the appearance of the potato is materially affected, or when the surface is materially caked with black scurf.

(xiv) Dried stems when pliable or over ⅛ inch in diameter and over 2½ inches long, or when stiff and over ⅛ inch in diameter and over 1 inch long.

(xv) Insects, larvae, or worms when present inside the potato, or when any hole caused by them or by grass root or similar injury in a round or intermediate type potato 2½ inches in diameter, or in a long type potato 8 ounces in weight, is more than ¾ inch long or when the aggregate length of all holes in such potatoes is more than 1¼ inches, or correspondingly shorter or longer holes in smaller or larger potatoes, or when other types of injury materially affect the appearance of the potato or cannot be removed without a loss of more than 5% of the total weight of the potato including peel covering the defective area.

(xvi) Mechanical or other means when cuts, shatter bruises, or other bruises, punctures, or other injuries materially affect the appearance of the potato or cannot be removed without a loss of more than 5% of the total weight of the potato including peel covering the defective area.

History: 1954 ACS 41, p. 5, Eff. Feb. 14, 1965; 1954 ACS 52, p. 30, Eff. Nov. 15, 1967.

REGULATION NO. 540. WEIGHTS AND MEASURES

R 285.540.1—R 285.540.21 Rescinded.

History: 1954 ACS 44, pp. 17-24, Eff. Nov. 14, 1965; rescinded 1954 ACS 75, p. 9, Eff. May 22, 1973.

REGULATION NO. 541. SMOKED FISH

(By authority conferred on the director of agriculture by section 5 of Act No. 193 of the Public Acts of 1895, as amended, and section 2 of Act No. 344 of the Public Acts of 1917, being §§289.85 and 289.202 of the Michigan Compiled Laws)

R 285.541.1 Raw product quality.

Rule 1. All fish, fish products, and ingredients shall be clean and wholesome and free from any deterioration, spoilage, adulteration, or foreign odors, and shall be processed, handled, stored, prepared, and transported so as to be safe for human consumption. All fish after evisceration or manual puncturing shall be immediately cooled and maintained so the external and internal temperatures of the fish are at 36 degrees Fahrenheit or below. "Safe" means that there is convincing evidence that establishes with reasonable certainty that no harm will result from the intended use of the product.

History: 1954 ACS 44, p. 24, Eff. Nov. 14, 1965.

R 285.541.2 Process time and temperature.

Rule 2. All smoking shall be accomplished so that the internal temperature of the coldest part of the fish shall remain at 180 degrees Fahrenheit for not less than 30 minutes. An automatic mechanical device, in conjunction with an appropriate heat-sensitive, nonheat conducting probe inserted into the thickest flesh portion of 1 of the largest fish being smoked, shall be used to accurately record process time and internal temperature of each lot. Such records shall not be used for more than 1 day's operation and shall show date, including month, day, and year. Each

smokehouse load shall be given a lot number that corresponds to a record of thermal process time and temperature.

History: 1954 ACS 44, p. 24, Eff. Nov. 14, 1965.

R 285.541.3 Salt content of finished product.

Rule 3. All smoked fish shall be processed so that the water phase portion of the finished product shall have a salt (sodium chloride) content of not less than 5%; specifically, the quotient of the salt content of the finished product when divided by the sum of the salt and moisture contents multiplied by a factor of 100, which shall yield a number of at least 5. The determination of salt and moisture content is to be made using the loin muscles of the fish excluding bones and skin.

History: 1954 ACS 44, p. 24, Eff. Nov. 14, 1965.

R 285.541.4 Refrigeration.

Rule 4. The following requirements shall apply to refrigeration of all fish:

(a) All fish shall be maintained under refrigeration so that the external and internal temperatures of the fish are at 36 degrees Fahrenheit or below at all times from the time of being eviscerated or manually punctured, including brining time, excluding time necessary for smoking operations.

(b) After processing the fish either shall be immediately cooled to 36 degrees Fahrenheit and shall remain at this temperature or below through all storage, marketing, and sales channels, or shall be immediately cooled and frozen and remain frozen through all storage, marketing, and sales channels. The term "frozen" means an internal temperature of 26 degrees Fahrenheit or less in the fish product. Each holding device for storage of fish shall be equipped with an accurate thermometer.

(c) Every person or firm responsible for handling fish from time of evisceration or manual puncturing to consumer shall have and use an accurate thermometer to check for compliance with temperature requirements in these rules.

History: 1954 ACS 44, p. 25, Eff. Nov. 14, 1965.

R 285.541.5 Sterilization.

Rule 5. Any smoked fish product which will support growth of pathogenic microorganisms that is vacuum packaged in a container which is subsequently sealed to exclude oxygen shall be processed in this container to a time and temperature to sterilize the product from pathogenic microorganisms.

History: 1954 ACS 44, p. 25, Eff. Nov. 14, 1965.

R 285.541.6 Packaging.

Rule 6. All packages, cartons, and wrappers used to ship, wrap, or hold unfrozen smoked fish in any way at any time shall be single service, new materials, and never reused. All packaging materials must permit the diffusion of air into the product. Extreme care shall be taken to avoid contamination of the product during cooling and packaging operations. All packages shall be labeled in accordance with R 285.541.7.

History: 1954 ACS 44, p. 25, Eff. Nov. 14, 1965.

R 285.541.7 Labeling.

Rule 7. The following requirements shall apply to the labeling of all smoked fish:

(a) Every package, box, wrapper, or other container (including retail display cases of bulk lots) used to transport, hold, or wrap unfrozen smoked fish in any way at any time shall be labeled as indicated below, including packages sold from a labeled bulk display and wrapped at time of sale:

(i) Name of such article of food.

(ii) Name and address of manufacturer, distributor, jobber, or retail merchant with an established business.

(iii) True net contents (as required by Act No. 193 of the Public Acts of 1895, as amended, and Act No. 283 of the Public Acts of 1964).

(iv) Lot code number that identifies period when processed and packaged, as required in R 285.541.2.

(v) Warning statement "Perishable—Keep under refrigeration at 36 degrees Fahrenheit or below."

(vi) Warning statement "Not to be sold or consumed after _____," the blank to be filled with date including month, day, and year, this date to be not more than 14 days after date of smoking.

(b) The labeling requirements for frozen smoked fish are the same as for unfrozen smoked fish with the exception of subdivision (a)(v) and (a)(vi). These statements shall be replaced with the warnings: "Perishable: Keep frozen. Thaw in refrigerator," and "After thawing, keep refrigerated at 36 degrees Fahrenheit or below."

(c) All label statements shall appear in a conspicuous place in a distinctive and plain manner, in plain English words and numerals. All statements shall be permanently affixed to each separate and distinct package or container.

History: 1954 ACS 44, p. 25, Eff. Nov. 14, 1965.

R 285.541.8 Wholesale sale.

Rule 8. When product is sold other than at retail:

(a) All sales shall be accompanied by an invoice or record of sale.

(b) Each invoice shall include the lot number, expiration date, and warning statement, "Perishable—Keep under refrigeration at 36 degrees Fahrenheit or below."

(c) Copies of all invoices or other adequate records shall be maintained to identify consignments or distribution of designated coded lots.

History: 1954 ACS 44, p. 25, Eff. Nov. 14, 1965.

R 285.541.9 Transfer of date code prohibited.

Rule 9. No smoked fish product shall be sold under any expiration date code other than the original expiration date code the processor assigned to the product.

History: 1954 ACS 44, p. 26, Eff. Nov. 14, 1965.

R 285.541.10 Records.

Rule 10. All process time and temperature records and all records of sales as required in these rules shall be made available to inspectors and shall be retained at the place of business for a period of not less than 6 months.

History: 1954 ACS 44, p. 26, Eff. Nov. 14, 1965.

R 285.541.11 Advertising.

Rule 11. Any reference to these rules in labeling, advertising, or other sales promotions is prohibited.

History: 1954 ACS 44, p. 26, Eff. Nov. 14, 1965.

REGULATION NO. 542. GREENHOUSE LEAF LETTUCE FOR SALE UNDER SEAL OF QUALITY

(By authority conferred on the commission of agriculture by sections 5 and 14 of Act No. 70 of the Public Acts of 1961, being §§289.635 and 289.644 of the Michigan Compiled Laws)

R 285.542.1 Source.

Rule 1. Only greenhouse leaf lettuce produced, packed, and processed within the state may be identified with Michigan seal of quality.

History: 1954 ACS 47, p. 11, Eff. Aug. 14, 1966.

R 285.542.2 Grade.

Rule 2. Each lot of greenhouse leaf lettuce identified as Michigan seal of quality shall be graded in accordance with the standards as set forth in these rules.

History: 1954 ACS 47, p. 11, Eff. Aug. 14, 1966.

R 285.542.3 Seals.

Rule 3. The Michigan seal of quality label, tag, or other device bearing the official emblem shall be obtained only at sources approved by the Michigan department of agriculture and at a cost as set forth in the established schedule of fees. The Michigan seal of quality is available for use in marketing greenhouse leaf lettuce to any person, firm, or corporation who complies with these rules and any instructions issued therewith.

History: 1954 ACS 47, p. 11, Eff. Aug. 14, 1966.

R 285.542.4 Agreements and permits.

Rule 4. No person, firm, or corporation shall use the Michigan seal of quality in connection with the grading and labeling of greenhouse leaf lettuce unless there is in force an official written agreement between the applicant and the Michigan department of agriculture. The director shall issue a permit to make an imprint on tags, labels, and other devices of the Michigan seal of quality emblem for greenhouse leaf lettuce to manufacturers who sign an official agreement with the Michigan department of agriculture. Agreements and permits shall be renewed annually upon request prior to date of expiration and shall be in effect unless the holders are otherwise notified by the director.

History: 1954 ACS 47, p. 12, Eff. Aug. 14, 1966.

R 285.542.5 Penalties.

Rule 5. A violation of any of the applicable laws and rules shall be grounds for revocation of the permit to use the Michigan seal of quality and subject the violator to other penalties as prescribed by law.

History: 1954 ACS 47, p. 12, Eff. Aug. 14, 1966.

R 285.542.6 Standards of quality.

Rule 6. The grade for greenhouse leaf lettuce shall be Michigan seal of quality and the standards for such grade to which the seal can be affixed are as follows:

(a) Individual greenhouse leaf lettuce plants shall be:

(i) Well grown.

(ii) Fairly well trimmed.

(iii) Free from decay.

(iv) Free from damage caused by coarse stems, bleached or discolored leaves, spray-burn, dirt, wilting, freezing, disease, insects, or other means.

(b) All leaf lettuce plants in each package shall have similar varietal characteristics and meet all of the standards of quality for individual leaf lettuce plants.

(c) Size, unless otherwise specified, shall meet the following requirements:

(i) The minimum length of individual plants shall not be less than 7 inches.

(ii) The maximum length of individual plants shall not be more than 14 inches.

(d) Uniformity of packing:

(i) There shall not be more variation than 4 inches in length of plants within a container.

(ii) Plants shall be placed in the container with tips at the end of the container, but not touching, with butts toward the middle. Care should be taken to pack plants in layers, alternately, and parallel to the greatest dimension of the container.

(e) Containers of approximately 20½ x 10 x 8 inches inside dimensions shall contain 8¾ pounds minimum net weight of dry leaf lettuce.

History: 1954 ACS 47, p. 12, Eff. Aug. 14, 1968.

R 285.542.7 Tolerances for defects.

Rule 7. Greenhouse leaf lettuce to which the Michigan seal of quality emblem has been affixed shall meet the following requirements:

(a) Not more than 10%, by count, of the plants of leaf letuce in any lot may fail to meet the requirements of the grade, but

(b) Not more than ½ of this amount, or 5%, shall be allowed for serious damage, including in this latter amount not more than 1% for plants affected by decay.

History: 1954 ACS 47, p. 12, Eff. Aug. 14, 1968.

R 285.542.8 Tolerances for size.

Rule 8. In order to allow for variations incident to proper sizing, the following tolerances by count shall be allowed: When size is designated by minimum and maximum length, not more than 5% of the plants in any lot may be shorter than the designated minimum and not more than 10% may be longer than the designated maximum.

History: 1954 ACS 47, p. 12, Eff. Aug. 14, 1968.

R 285.542.9 Packages.

Rule 9. All containers intended for use in connection with the distribution of greenhouse leaf lettuce packed under the Michigan seal of quality must meet the following requirements:

(a) Shipping containers:

(i) Shall be new, clean, and a type recognized as a suitable shipping container for greenhouse leaf lettuce.

(ii) Shall bear upon them in plain sight and in plain letters on 1 outside end or side, the name of the person who first packed or authorized the packing of the leaf lettuce, or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer and in figures not less than ¼ of an inch in height.

(b) Consumer packages:

(i) Shall be new and of a type recognized as a consumer package for leaf lettuce.

(ii) Shall bear upon them in plain sight and in plain letters the name of the person who first packed or authorized the packing of the leaf lettuce, or the name under which such packer is engaged in business, together with a sufficiently

explicit address to permit ready location of such packer and in figures not less than ⅛ inch in height.

(c) Application of tolerances. The contents of individual packages in the lot based on sample inspection are subject to the following limitations, providing the averages for the entire lot are within the tolerance specified:

(i) For packages which contain more than 15 plants and a tolerance of 10% or more is provided, individual packages in any lot shall have not more than 1½ times the tolerance specified.

(ii) For packages which contain more than 15 plants and a tolerance of less than 10% is provided, and for packages which contain 15 plants or less, individual packages in any lot shall have not more than double the tolerance specified, except that at least 1 defective and 1 off-size plant may be permitted in any package.

History: 1954 ACS 47, p. 12, Eff. Aug. 14, 1966.

R 285.542.10 Practices and facilities.

Rule 10. Any person who produces or supplies leaf lettuce to be packed under the Michigan seal of quality and any person grading, packing, holding, transporting, distributing, or offering for sale leaf lettuce under the Michigan seal of quality shall be subject to the following provisions governing the conservation of leaf lettuce quality: Coolers, holding rooms, and any other facility in which leaf lettuce is held, stored, or in any manner maintained for periods longer than required for normal movement of fresh leaf lettuce shall:

(a) Be constructed, maintained, and operated in compliance with Michigan laws and rules governing food establishments, food handling, and sanitation.

(b) Not to be used for commodities and products not compatible with food products.

(c) Be free from objectionable odors and from molds.

History: 1954 ACS 47, p. 13, Eff. Aug. 14, 1966.

R 285.542.11 Definitions.

Rule 11. As used in these rules:

(a) "Similar varietal characteristics" means that the plants in any container are of the same general type.

(b) "Well grown" means that the plant is not stunted or poorly developed.

(c) "Fairly well trimmed" means that the stem is trimmed off to within ¾ inch of the point of attachment of the first whorl of leaves and that leaves which are materially bleached or discolored have been removed.

(d) "Damage" means any specific defect described in these rules or an equally objectionable variation of this defect, any other defect, or any combination of defects, which materially detracts from the appearance or the edible or shipping quality of the leaf lettuce. The following specific defect shall be considered as damage: Stems when more than 3½ inches in length, measured from the end of the butt to the point of attachment of the last whorl of leaves.

(e) "Serious damage" means any defect, or any combination of defects, which seriously detracts from the appearance or the edible or shipping quality of the lettuce.

History: 1954 ACS 47, p. 13, Eff. Aug. 14, 1966.

REGULATION NO. 543. GREENHOUSE TOMATOES FOR SALE UNDER SEAL OF QUALITY

(By authority conferred on the commission of agriculture by sections 5 and 14 of Act No. 70 of the Public Acts of 1961, and sections 9 and 177 of Act No. 380 of the

Public Acts of 1965, being §§289.635, 289.644, 16.109, and 16.277 of the Michigan Compiled Laws)

R 285.543.1 Source.

Rule 1. Only greenhouse tomatoes produced, packed, and processed within the state may be identified with Michigan seal of quality.

History: 1954 ACS 48, p. 11, Eff. Nov. 14, 1966.

R 285.543.2 Grade.

Rule 2. Each lot of greenhouse tomatoes identified as Michigan seal of quality shall be graded in accordance with the standards as set forth in these rules.

History: 1954 ACS 48, p. 11, Eff. Nov. 14, 1966.

R 285.543.3 Seals.

Rule 3. The Michigan seal of quality label, tag, or other device bearing the official emblem shall be obtained only at sources approved by the Michigan department of agriculture and at a cost as set forth in the established schedule of fees. The Michigan seal of quality is available for use in marketing greenhouse tomatoes to any person, firm, or corporation who complies with these rules and any instructions issued therewith.

History: 1954 ACS 48, p. 11, Eff. Nov. 14, 1966.

R 285.543.4 Agreements and permits.

Rule 4. (1) No person, firm, or corporation shall use the Michigan seal of quality in connection with the grading and labeling of greenhouse tomatoes, unless there is in force an official written agreement between the applicant and the Michigan department of agriculture. The director shall issue a permit to make an imprint on tags, labels, and other devices of the Michigan seal of quality emblem for greenhouse tomatoes to manufacturers who sign an official agreement with the Michigan department of agriculture.

(2) Agreements and permits shall expire 1 year after date of issuance. Agreements or permits shall be renewed annually upon request prior to date of expiration and shall be in effect unless the holders are otherwise notified by the director.

History: 1954 ACS 48, p. 11, Eff. Nov. 14, 1966.

R 285.543.5 Penalties.

Rule 5. A violation of any of the applicable laws and rules shall be grounds for revocation of the permit to use the Michigan seal of quality and subjects the violator to other penalties as prescribed by law.

History: 1954 ACS 48, p. 11, Eff. Nov. 14, 1966.

R 285.543.6 Standards of quality.

Rule 6. Michigan seal of quality grade shall consist of greenhouse tomatoes:

(a) Of similar varietal characteristics.

(b) Which are mature but not overripe or soft.

(c) Fairly well formed.

(d) Free from decay, freezing injury, and damage caused by bruises, cuts, shriveling, sunscald, puffiness, catfaces, growth cracks, scars, disease, insects, mechanical, or other means.

History: 1954 ACS 48, p. 11, Eff. Nov. 14, 1966.

R 285.543.7 Tolerances.

Rule 7. Tomatoes to which the Michigan seal of quality emblem has been affixed shall meet the following requirements by weight:

(a) Not more than 10% of the tomatoes in any lot may fail to meet the requirements of the grade, but

(b) Not more than ½ of this amount, or 5%, shall be allowed for serious damage, included in this latter amount not more than 1% for tomatoes which are soft or affected by decay.

History: 1954 ACS 48, p. 11, Eff. Nov. 14, 1966.

R 285.543.8 Packages.

Rule 8. All containers intended for use in connection with the distribution of tomatoes packed under the Michigan seal of quality must meet the following requirements:

(a) Shipping containers:

(i) Shall be new, clean, and a type recognized as a suitable shipping container for tomatoes.

(ii) Shall bear upon them in plain sight and in plain letters on 1 outside end or side, the name of the person who first packed or authorized the packing of the tomatoes, or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer, and in figures not less than ¼ of an inch in height the number of tomatoes in the container expressed in numerical count or net weight.

(b) Consumer packages:

(i) Shall be new, clean, and of a type recognized as a consumer package for tomatoes.

(ii) Shall bear upon them in plain sight and in plain letters the name of the person who first packed or authorized the packing of the tomatoes, or the name under which such packer is engaged in business, together with a sufficiently explicit address to permit ready location of such packer and in figures not less than ⅛ inch in height.

(c) Application of tolerances: The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations, providing the average for the entire lot is within the tolerances specified:

(i) For a tolerance of 10% or more, individual packages in any lot shall have not more than 1½ times the tolerances specified, except that when the packages contain 15 specimens or less, any individual package shall have not more than double tolerance specified, except that at least 1 defective and 1 off-size specimen may be permitted in any package.

(ii) For a tolerance of less than 10%, individual packages in any lot shall have not more than double the tolerance specified, except that at least 1 defective and 1 off-size specimen may be permitted in any package.

(d) Size classification: The size of tomatoes may be specified in accordance with 1 of the following classifications:

(i) "Small" under 3⅛ ounces.

(ii) "Medium" from 3⅛ ounces to 9 ounces.

(iii) "Large" over 9 ounces.

(e) Standard pack: Tomatoes shall be fairly uniform in size when packed in containers. "Fairly uniform in size" means that not more than 10%, by weight, of the tomatoes in any container may vary more than the following from the applicable size classification:

(i) Four ounces for "medium," "small to medium," or "medium to large."

(ii) Six ounces for "large" size.

History: 1954 ACS 48, p. 12, Eff. Nov. 14, 1966.

R 285.543.9 Practices and facilities.

Rule 9. (1) Any person who produces or supplies tomatoes to be packed under the Michigan seal of quality and any person grading, packing, holding, transporting, distributing, or offering for sale tomatoes under the Michigan seal of quality shall be subject to subrule (2) governing the conservation of tomato quality.

(2) Coolers, holding rooms, and any other facility in which tomatoes are held, stored, or in any manner maintained for periods longer than required for normal movement of fresh tomatoes shall:

(a) Be constructed, maintained, and operated in compliance with Michigan laws and rules governing food establishments, food handling, and sanitation.

(b) Not be used for commodities or products not compatible with food products.

(c) Be free from objectionable odors and from molds.

History: 1954 ACS 48, p. 12, Eff. Nov. 14, 1966.

R 285.543.10 Definitions.

Rule 10. As used in these rules:

(a) "Similar varietal characteristics" means that the tomatoes are alike as to character of color (bright red varieties shall not be mixed with varieties having a purplish tinge).

(b) "Mature" means that the contents of 2 or more seed cavities have developed a jellylike consistency and the seeds are well developed. External color shows at least a definite break from green to pink or red color.

(c) "Soft" means that the tomato yields readily to slight pressure.

(d) "Fairly well formed" means that the tomato is not decidedly kidney-shaped, lopsided, elongated, angular or otherwise decidedly deformed.

(e) "Damage" means any specific defect described in this rule; or an equally objectionable variation of any 1 of these defects, any other defect, or any combination of defects which materially detracts from the appearance of the edible or shipping quality of the tomato. The following specific defects shall be considered as damage:

(i) Puffiness when the open space in 1 or more locules materially detracts from the appearance of the tomato when cut through the center at right angles to a line running from the stem to the blossom end.

(ii) Catfaces when scars are rough or deep, when channels are very deep or wide, when channels extend into a locule, or when the appearance of the tomato is affected to a greater extent than that of a small size tomato with a fairly smooth catface on an area equivalent to that of a circle ⅜ inch in diameter; a medium size tomato with ½ inch area; or a large size tomato with ¾ inch area.

(iii) Growth cracks (radiating from or concentric to the stem scar) when not well healed, when more than ⅛ inch in depth, or when affecting the appearance or shipping quality of the tomato to a greater extent than that of a tomato 5 ounces in weight having any individual radial crack ½ inch in length, or having more than 1 inch aggregate length of all radial cracks measured from the edge of the stem scar.

(iv) Scars (other than catfaces) when the appearance of the tomato is affected to a greater extent than that of a tomato 5 ounces in weight having a scar with no depth which has an area equivalent to that of a circle ¾ inch in diameter.

(v) Cuts, not well healed, not shallow, or which affect the appearance or shipping quality of the tomato to a greater extent than that of a tomato 5 ounces in weight having a cut ½ inch in length.

(f) "Serious damage" means any specific defect described in this rule; or an equally objectionable variation of any 1 of these defects, any other defect, or any combination of defects, which seriously detracts from the appearance or the edible or shipping quality of the tomato. The following specific defects shall be considered as serious damage:

(i) Puffiness when the open space in 1 or more locules seriously detracts from the appearance of the tomato when cut through the center at right angles to a line running from the stem to the blossom end.

(ii) Catfaces when channels extend into the locule, when the wall has been weakened to the extent that slight pressure will cause the tomato to leak, or when the appearance of the tomato is affected to a greater extent than that of a tomato 5 ounces in weight having a fairly smooth catface with an area equivalent to that of a circle 1 inch in diameter.

(iii) Growth cracks (radiating from or concentric to the stem scar) when not well healed, when more than ⅛ inch in depth, or when affecting the appearance or shipping quality of the tomato to a greater extent than that of a tomato 5 ounces in weight having individual radial cracks 1 inch in length, or having more than a 2½ inch aggregate length of all radial cracks, measured from the edge of the stem scar.

(iv) Scars (other than catfaces) when the appearance of the tomato is affected to a greater extent than that of a tomato 5 ounces in weight having a scar with no depth which has an area equivalent to that of a circle 1 inch in diameter.

(v) Cuts, not well healed, not shallow, or which affect the appearance or shipping quality of the tomato to a greater extent than that of a tomato 5 ounces in weight having a cut ½ inch in length.

REGULATION NO. 544. SWEET CHERRIES FOR SALE UNDER SEAL OF QUALITY

(By authority conferred on the commission of agriculture by sections 5 and 14 of Act No. 70 of the Public Acts of 1961, and sections 9 and 177 of Act No. 380 of the Public Acts of 1965, being §§289.635, 289.644, 16.109, and 16.277 of the Michigan Compiled Laws)

R 285.544.1 Definitions.

Rule 1. (1) "Similar varietal characteristics" means that the cherries in any container are similar in shape and color.

(2) "Mature" means that the cherries have reached the stage of growth which will insure proper completion of the ripening process.

(3) "Fairly well colored" means that the cherries show characteristic color for mature cherries of the variety.

(4) "Well formed" means that the cherries have the normal shape characteristic of the variety, except that mature well developed doubles shall be considered well formed when each of the halves is approximately evenly formed.

(5) "Clean" means that the cherries are practically free from dirt, dust, spray residue, or other foreign material.

(6) "Damage" means any defect which materially affects the appearance, the edible or shipping quality of the individual cherry, or the general appearance of the cherries in the container. Any 1 of the following defects, or any combination of

defects the seriousness of which exceeds the maximum allowed for any 1 defect, shall be considered as damage:

(a) Cracks within the stem cavity when deep or not well healed, or when the appearance is affected to a greater extent than that of a cherry which has a superficial well healed crack 1/16 inch in width extending 1/2 the greatest circumference of the stem cavity.

(b) Cracks outside the stem cavity when deep or not well healed, or when the crack has weakened the cherry to the extent that it is likely to split or break in the process of proper grading, packing, or handling, or when materially affecting the appearance.

(c) Hail injury when deep or not well healed, or when the aggregate area exceeds the area of a circle 3/16 inch in diameter.

(d) Insects when scale or more than 1 scale mark is present, or when the appearance is materially affected by any insect.

(e) Limb rubs when affecting the appearance of the cherry to a greater extent than the amount of scarring permitted.

(f) Pulled stems when the skin or flesh is torn, or when the cherry is leaking.

(g) Russeting when affecting the appearance of the cherry to a greater extent than the amount of scarring permitted.

(h) Scars when excessively deep or rough or dark colored and the aggregate area exceeds the area of a circle 3/16 inch in diameter, or when smooth or fairly smooth, light colored, and superficial and the aggregate area exceeds the area of a circle 1/4 inch in diameter.

(i) Skin breaks when not well healed or when the appearance of the cherry is materially affected.

(j) Sutures when excessively deep or when affecting the shape of the cherry to the extent that it is not well formed.

(7) "Diameter" means the greatest dimension measured at right angles to a line from the stem to the blossom end of the cherry.

(8) "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the cherry. Seriously damaged cherries include the following conditions:

(a) Decay.

(b) Wormy cherries or cherries with worm holes.

(c) Skin breaks which are not well healed.

(d) Cracks which are not well healed.

(e) Pulled stems with skin or flesh of cherry torn or which causes the cherry to leak.

History: 1954 ACS 51, p. 14, Eff. Aug. 15, 1967.

R 285.544.2 Source and grade.

Rule 2. (1) Only sweet cherries produced, packed, and processed within the state of Michigan may be identified with the Michigan seal of quality.

(2) Each lot of sweet cherries identified with the Michigan seal of quality shall be graded in accordance with standards set forth in these rules.

History: 1954 ACS 51, p. 15, Eff. Aug. 15, 1967.

R 285.544.3 Seal of quality.

Rule 3. The Michigan seal of quality label, tag, or other device bearing the official emblem shall be obtained only at sources approved by the Michigan department of agriculture and at a cost as set forth in the established schedule of fees. The Michigan seal of quality is available for use in marketing sweet cherries

to any person, firm, or corporation who complies with these rules and any instructions issued therewith.

History: 1954 ACS 51, p. 15, Eff. Aug. 15, 1967.

R 285.544.4 Agreements and permits.

Rule 4. No person, firm, or corporation shall use the Michigan seal of quality in connection with the grading and labeling of sweet cherries unless there is in force an official written agreement between the applicant and the Michigan department of agriculture. The director shall issue a permit to make an imprint on tags, labels, and other devices of the Michigan seal of quality emblem for sweet cherries to manufacturers who sign an official agreement with the Michigan department of agriculture. Agreements and permits shall be renewed annually upon request prior to date of expiration and shall be in effect unless the holders are otherwise notified by the director.

History: 1954 ACS 51, p. 15, Eff. Aug. 15, 1967.

R 285.544.5 Penalties.

Rule 5. A violation of any of the applicable laws and rules is a ground for revocation of the permit to use the Michigan seal of quality and subjects the violator to other penalties as prescribed by law.

History: 1954 ACS 51, p. 16, Eff. Aug. 15, 1967.

R 285.544.6 Standards of quality.

Rule 6. The grade for sweet cherries shall be Michigan seal of quality and the standards for such grade to which the seal may be affixed are as follows:

(a) Individual sweet cherries shall consist of cherries of similar varietal characteristics which are mature, but not soft, overripe or shriveled, and which are fairly well colored, well formed, clean, and free from decay, worms or worm holes, undeveloped doubles and sunscald, and free from damage caused by bruises, cracks, disease, hail, other insects, limb rubs, pulled stems, russeting, scars, skin breaks, sunburn, sutures, or mechanical or other means.

(b) The minimum diameter of each cherry shall be not less than ¾ inch. In addition, the cherries in any container so marked with the minimum diameter shall not vary in diameter between the fruits in the container more than ¼ inch, except that 10%, by count, of the cherries in any 1 container may be below the size marked and 5% may be allowed for oversize.

(c) When containers of loose cherries are marked with a row size designation, at least 50% of the cherries in the container shall be of a size no smaller than the row size marked; however, none of the cherries in such containers shall be more than 2 sizes smaller than that marked on the container, except that 15%, by count, of the cherries in any container may be below this minimum size requirement. The row size number shall be deemed to be that number of cherries of uniform size whose aggregate width will equal 11½ inches.

(d) In order to allow for variation incident to proper grading and handling, not more than 10%, by count, of the cherries in any lot may fail to meet the requirements of the grade, but not more than ⅓ of this amount, or 5%, shall be allowed for defects causing serious damage, including therein not more than 1% for cherries affected by decay. In addition, when cherries are packed with stems attached, not more than 20%, by count, in any lot may be allowed for cherries with stems detached. When cherries are packed with stems detached, not more than 5%, by count, in any lot, may be allowed for cherries with stems attached.

History: 1954 ACS 51, p. 16, Eff. Aug. 15, 1967.

R 285.544.7 Containers.

Rule 7. Containers intended for use in connection with the distribution of sweet cherries under the Michigan seal of quality shall:

(a) Be new, clean, and of a type recognized as a suitable container for sweet cherries.

(b) Bear in plain sight and in plain letters on 1 end or side the name of the person who first packed or authorized the packing of the sweet cherries, or the name under which the packer is engaged in business, together with a sufficiently explicit address to permit ready location of the packer, and in figures not less than ¼ inch in height, the minimum diameter in inches or fractions thereof, or the row size designation followed by the term "row," of the sweet cherries in the container in like size letters or type, and the net contents either in quarts, pints, or net weight in pounds.

History: 1954 ACS 51, p. 16, Eff. Aug. 15, 1967.

R 285.544.8 Tolerances.

Rule 8. The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations if the averages for the entire lot are within the tolerances specified for the grade:

(a) For a tolerance of 10% or more, individual packages in any lot may contain not more than 1½ times the tolerance specified, except that when the package contains 1 pound or less, individual packages may contain not more than double the tolerance specified.

(b) For a tolerance of less than 10%, individual packages in any lot may contain not more than double the tolerances specified, except that at least 1 defective and 1 off-size specimen may be permitted in any package.

History: 1954 ACS 51, p. 16, Eff. Aug. 15, 1967.

REGULATION NO. 545. MUSHROOMS FOR SALE UNDER SEAL OF QUALITY

(By authority conferred on the commission of agriculture by sections 5 and 14 of Act No. 70 of the Public Acts of 1961, and sections 9 and 177 of Act No. 380 of the Public Acts of 1965, being §§289.635, 289.644, 16.109, and 16.277 of the Michigan Compiled Laws)

R 285.545.1 Definitions.

Rule 1. As used in these rules:

(a) "Mature" means that a mushroom is firm and well developed; the veil area may be stretched but not broken.

(b) "Well shaped" means that a mushroom cap is not flattened, scalloped, indented, or otherwise deformed.

(c) "Well trimmed" means that a stem is smoothly cut, free from rough fleshy butts, the flared portion of the butt is removed and the remaining portion of the stem does not exceed the depth of the cap.

(d) "Open veils" means that the cap has expanded to the extent that the protective covering or veil joining the margin of the cap to the stem has broken and exposed the gills or underside of the cap.

(e) "Spots" means pitted or discolored areas.

(f) "Damage" means any specific defect described in these rules or an equally objectionable variation of any 1 of these defects, any other defect, or any combination of defects which materially detracts from the appearance or the edible or marketing quality of the individual mushroom or of the mushrooms in the lot. The following specific defects are considered as damage:

(b) Well shaped.
(c) Well trimmed.
(d) Free from open veils, disease, spots, insect injury, and decay, and from damage by any cause.

History: 1954 ACS 52, p. 31, Eff. Nov. 15, 1967.

R 285.545.8 Size.

Rule 8. Mushrooms packed in pint capacity containers shall be packed 5 to 14 count per container. Mushrooms packed in quart capacity containers shall be packed 8 to 19 count per container.

History: 1954 ACS 52, p. 31, Eff. Nov. 15, 1967.

R 285.545.9 Tolerances by weight.

Rule 9. Mushrooms identified by the Michigan seal of quality shall meet the following requirements:

(a) At shipping point: Not more than 5% of the mushrooms by weight in any lot may fail to meet the requirements of the grade, but not more than ⅛ of this amount or 1% shall be allowed for mushrooms affected by disease, spots, or decay.

(b) En route or at destination: 10% for mushrooms in any lot which have open veils, 5% for mushrooms in any lot which fail to meet the remaining requirements of this grade but not more than ⅛ of this latter amount or 1% shall be allowed for mushrooms affected by disease, spots, or decay.

History: 1954 ACS 52, p. 32, Eff. Nov. 15, 1967.

R 285.545.10 Tolerances for packages in a lot.

Rule 10. The contents of individual packages in a lot, based on sample inspection, are subject to the following limitations:

(a) For a tolerance of 10% or more, individual packages in a lot shall have not more than 1½ times the tolerance specified, if the average for the entire lot is within the tolerance specified for the grade.

(b) For a tolerance of less than 10%, individual packages in a lot shall have not more than double the tolerance specified, except that at least 1 defective and 1 off-size specimen may be permitted in any package, and the average for the entire lot shall be within the tolerance specified for the grade.

History: 1954 ACS 52, p. 32, Eff. Nov. 15, 1967.

CANNED MUSHROOMS

R 285.545.11 Canned mushrooms; product description.

Rule 11. "Canned mushrooms" means the product prepared from the sound, succulent, fresh mushroom by proper trimming, washing, and sorting. This product is packed with the addition of water in hermetically sealed containers and sufficiently processed by heat to assure preservation. Salt may be added in a quantity sufficient to season the product.

History: 1954 ACS 52, p. 32, Eff. Nov. 15, 1967.

R 285.545.12 Canned mushrooms; standards of quality.

Rule 12. Michigan seal of quality grade of canned mushrooms shall consist of mushrooms known to the industry as white or cream type.

History: 1954 ACS 52, p. 32, Eff. Nov. 15, 1967.

R 285.545.13 Canned mushrooms; stems and pieces.

Rule 13. Stems and pieces are predominantly cut or broken portions of the caps and stems and may contain units of any of the other styles of canned mushrooms.

History: 1954 ACS 52, p. 32, Eff. Nov. 15, 1967.

R 285.545.14 Canned mushrooms; color.

Rule 14. The color of the surface of the individual caps of canned mushrooms may be dark cream, which color may possess a gray or brown cast that does not seriously affect the overall color appearance of the product. With respect to the style of stems and pieces, the color of the gills of the sliced units shall not be darker than tarnish gray.

History: 1954 ACS 52, p. 32, Eff. Nov. 15, 1967.

R 285.545.15 Canned mushrooms; defects.

Rule 15. (1) The product shall be fairly free from defects which means the product does not exceed 10% by weight damage, including 2% by weight of serious damage. Defect refers to the degree of freedom of canned mushrooms from units which are damaged or seriously damaged.

(2) "Damaged" means damaged by discoloration, pathological injury, mechanical injury, or damaged by other means to such extent that the appearance or eating quality of the unit is materially affected.

(3) "Seriously damaged" means damaged to such extent that the appearance or eating quality of the unit is seriously affected.

History: 1954 ACS 52, p. 32, Eff. Nov. 15, 1967.

R 285.545.16 Canned mushrooms; character.

Rule 16. Character refers to the tenderness and texture of canned mushrooms. The product shall have fairly good character which means the units are reasonably tender, may be slightly soft, and are reasonably free from fibrous or rubbery units.

History: 1954 ACS 52, p. 32, Eff. Nov. 15, 1967.

R 285.545.17 Canned mushrooms; drained weight.

Rule 17. The drained weight of canned mushrooms shall meet good commercial practices.

History: 1954 ACS 52, p. 32, Eff. Nov. 15, 1967.

REGULATION NO. 546. APPLES FOR SALE UNDER SEAL OF QUALITY

(By authority conferred on the commission of agriculture by sections 5 and 14 of Act No. 70 of the Public Acts of 1961, and sections 9 and 177 of Act No. 380 of the Public Acts of 1965, being §§289.635, 289.644, 16.109, and 16.277 of the Michigan Compiled Laws)

R 285.546.1 Definitions.

Rule 1. (1) "Mature" means that the apples have reached the stage of development which will insure the proper completion of the ripening process. Before a mature apple becomes overripe it will show varying degrees of firmness,

depending upon the stage of the ripening process. The following terms are used for describing different stages of firmness of apples:

(a) "Hard" means apples with a tenacious flesh and starchy flavor.

(b) "Firm" means apples with a tenacious flesh but which are becoming crisp with a slightly starchy flavor, except the Delicious variety.

(c) "Firm ripe" means apples with crisp flesh except that the flesh of the Gano, Ben Davis, and Rome Beauty varieties may be slightly mealy.

(d) "Ripe" means apples with mealy flesh and soon to become soft for the variety.

(2) "Overripe" means apples which are dead ripe, with flesh very mealy or soft, and past commercial utility.

(3) "Carefully handpicked" means that the apples do not show evidence of rough handling or of having been on the ground.

(4) "Clean" means that the apples are free from excessive dirt, dust, spray residue and other foreign material.

(5) "Fairly well formed" means that the apple may be slightly abnormal in shape but not to an extent which detracts materially from its appearance.

(6) "Injury" means any specific defect defined in this subrule; or an equally objectionable variation of any 1 of these defects, any other defect, or any combination of defects, which more than slightly detracts from the appearance, or the edible or shipping quality of the apple. The following specific defects shall be considered as injury:

(a) Russeting in the stem cavity or calyx basin which cannot be seen when the apple is placed stem end or calyx end down on a flat surface shall not be considered in determining whether or not an apple is injured by russeting. Smooth net-like russeting outside of the stem cavity or calyx basin shall be considered as injury when an aggregate area of more than 10% of the surface is covered, and the color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russeting when the appearance is affected to a greater extent than the above amount permitted.

(b) Sunburn or sprayburn, when the discolored area does not blend into the normal color of the fruit.

(c) Dark brown or black limb rubs which affect a total area of more than ¼ inch in diameter, except that light brown limb rubs of a russet character shall be considered under the definition of injury by russeting.

(d) Hail marks, drought spots, other similar depressions or scars; when the skin is broken, whether healed or unhealed; when there is appreciable discoloration of the surface; when any surface indentation exceeds 1/16 inch in depth; when any surface indentation exceeds ⅛ inch in diameter; or when the aggregate affected area of such spots exceeds ½ inch in diameter.

(e) Disease:

(i) Cedar rust infection which affects a total area of more than 3/16 inch in diameter.

(ii) Sooty blotch or fly speck which is thinly scattered over more than 5% of the surface, or dark, heavily concentrated spots which affect an area of more than ¼ inch in diameter.

(iii) Red skin spots which are thinly scattered over more than 1/16 of the surface, or dark, heavily concentrated spots which affect an area of more than ¼ inch in diameter.

(f) Insects:

(i) Any healed sting or healed stings which affect a total area of more than ⅛ inch in diameter including any encircling discolored rings.

(ii) Worm holes.

(7) "Damage" means any specific defect defined in this subrule or an equally objectionable variation of any 1 of these defects, any other defect, or any combination of defects, which materially detracts from the appearance, or the edible or shipping quality of the apple. The following specific defects shall be considered as damage:

(a) Russeting in the stem cavity or calyx basin which cannot be seen when the apple is placed stem end or calyx end down on a flat surface shall be considered in determining whether or not an apple is damaged by russeting, except that excessively rough or bark-like russeting in the stem cavity or calyx basin shall be considered as damage when the appearance of the apple is materially affected. The following types and amounts of russeting outside of the stem cavity or calyx basin shall be considered as damage:

(i) Russeting which is excessively rough on Roxbury Russet and other similar varieties.

(ii) Smooth net-like russeting, when an aggregate area of more than 15% of the surface is covered, and the color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous net-like russeting when the appearance is affected to a greater extent than the above amount permitted.

(iii) Smooth solid russeting, when an aggregate area of more than 5% of the surface is covered, and the pattern and color of the russeting shows no very pronounced contrast with the background color of the apple, or lesser amounts of more conspicuous solid russeting when the appearance is affected to a greater extent than the above amount permitted.

(iv) Slightly rough russeting which covers an aggregate area of more than ½ inch in diameter.

(v) Rough russeting which covers an aggregate area of more than ¼ inch in diameter.

(b) Sunburn or sprayburn which has caused blistering or cracking of the skin, or when the discolored area does not blend into the normal color of the fruit unless the injury can be classed as russeting.

(c) Limb rubs which affect a total area of more than ½ inch in diameter, except that light brown limb rubs of a russet character shall be considered under the definition of damage by russeting.

(d) Hail marks, drought spots and other similar depressions or scars:

(i) When an unhealed mark is present.

(ii) When any surface indentation exceeds ⅛ inch in depth.

(iii) When the skin has not been broken and the aggregate affected area exceeds ½ inch in diameter.

(iv) When the skin has been broken and well healed, and the aggregate affected area exceeds ¼ inch in diameter.

(e) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of ¼ inch.

(f) Invisible water core existing around the core and extending to water core in the vascular bundles; or surrounding the vascular bundles when the affected areas surrounding 3 or more vascular bundles meet or coalesce; or existing in more than slight degree outside the circular area formed by the vascular bundles.

(g) Diseases:

(i) Scab spots which affect a total area of more than ¼ inch in diameter.

(ii) Cedar rust infection which affects a total area of more than ¼ inch in diameter.

(iii) Sooty blotch or fly speck which is thinly scattered over more than ⅒ of the

surface, or dark, heavily concentrated spots which affect an area of more than ½ inch in diameter.

(iv) Red skin spots which are thinly scattered over more than 1/10 of the surface, or dark, heavily concentrated spots which affect an area of more than ½ inch in diameter.

(h) Insects:

(i) Any healed sting or healed stings which affect a total area of more than 3/16 inch in diameter including any encircling discolored rings.

(ii) Worm holes.

(8) "Serious damage" means any specific defect defined in this subrule, or an equally objectionable variation of any 1 of these defects, any other defect, or any combination of defects which seriously detracts from the appearance, or the edible or shipping quality of the apple. The following specific defects shall be considered as serious damage:

(a) The following types and amounts of russeting shall be considered as serious damage: Smooth solid russeting, when more than ½ of the surface in the aggregate is covered, including any russeting in the stem cavity or calyx basin, or slightly rough, or excessively rough or bark-like russeting, which detracts from the appearance of the fruit to a greater extent than the amount of smooth solid russeting permitted. However, any amount of russeting shall be permitted on Roxbury Russet and other similar varieties.

(b) Sunburn or sprayburn which seriously detracts from the appearance of the fruit.

(c) Limb rubs which affect more than 1/10 of the surface in the aggregate.

(d) Hail marks, drought spots, or scars, if they materially deform or disfigure the fruit, or if such defects affect more than 1/10 of the surface in the aggregate. However, no hail marks which are unhealed shall be permitted and not more than an aggregate area of ½ inch shall be allowed for well healed hail marks where the skin has been broken.

(e) Stem or calyx cracks which are not well healed, or well healed stem or calyx cracks which exceed an aggregate length of ½ inch.

(f) Visible water core which affects an area of more than ½ inch in diameter.

(g) Diseases:

(i) Scab spots which affect a total area of more than ¾ inch in diameter.

(ii) Cedar rust infection which affects a total area of more than ¾ inch in diameter.

(iii) Sooty blotch or fly speck which affects more than ⅓ of the surface.

(iv) Red skin spots which affect more than ⅓ of the surface.

(v) Bitter pit or Jonathan spot which is thinly scattered over more than 1/10 of the surface and does not materially deform or disfigure the fruit.

(h) Insects:

(i) Healed stings which affect a total area of more than ¼ inch in diameter including any encircling discolored rings.

(ii) Worm holes.

(9) "Seriously deformed" means that the apple is so badly misshapen that its appearance is seriously affected.

(10) "Diameter," when measuring for minimum size, means the greatest dimension of the apple measured at right angles to a line from stem to blossom end. "Diameter," when measuring for maximum size, means the smallest dimension of the apple determined by passing the apple through a round opening in any position.

(11) "Fairly tight" means that apples are of the proper size for molds and cell compartments in which they are packed, and that molds or cells are filled in such

Digitized by Google

a way that no more than slight movement of apples within molds or cells is possible. The top layer of apples, or any pad or space filler over the top layer of apples shall be not more than ¾ inch below the top edge of the carton.

(12) "Fairly well filled" means that the net weight of apples in containers ranging from 2,100 to 2,900 cubic inch capacity is not less than 37 pounds for Cortland, Gravenstein, Jonathan, McIntosh and Golden Delicious varieties and not less than 40 pounds for all other varieties.

(13) "Area" means the area of a circle of the specified diameter.

(14) "Damage by water core" means externally invisible water core existing around the core and extending to water core in the vascular bundles; or surrounding the vascular bundles when the affected areas surrounding 3 or more vascular bundles meet or coalesce; or existing in more than slight degree outside the circular area formed by the vascular bundles; or any externally visible water core.

(15) "U.S. condition standards for export" means that:

(a) Not more than 5% of the apples in any lot shall be further advanced in maturity than firm ripe.

(b) Not more than 5% of the apples in any lot shall be damaged by storage scab.

(c) Not more than a total of 5% of the apples in any lot shall be affected by scald, internal breakdown, freezing injury, or decay; or damaged by water core, bitter pit, Jonathan spot, or other condition factors, except that:

(i) Not more than a total of 2% shall be allowed for apples affected by decay and soft scald;

(ii) Not more than 2% shall be allowed for apples affected by internal breakdown; and

(iii) Not more than 2% shall be allowed for apples affected by slight scald.

(d) Container packs shall comply with packing requirements specified in R 285.545.13.

(e) Any lot of apples shall be considered as meeting the U.S. condition standards for export if the entire lot averages within the requirements specified. However, no package in any lot shall have more than double the percentages specified, except that for packages which contain 10 pounds or less, individual packages in any lot may have not more than 3 times the tolerance or 1 apple (whichever is the greater amount).

History: 1954 ACS 53, p. 7, Eff. Feb. 14, 1968.

R 285.546.2 Source, condition, and grade.

Rule 2. (1) Only apples produced, packed, and processed within the state of Michigan may be identified with the Michigan seal of quality.

(2) Each lot of apples identified with the Michigan seal of quality shall be graded in accordance with standards set forth in these rules.

(3) Each lot of apples shall be accompanied by a federal-state inspection certificate denoting compliance with seal of quality grade.

(4) The grade for Michigan seal of quality shall be a combination of U.S. extra fancy and U.S. fancy grades, and U.S. condition standards for export shall be applied to apples packed under the Michigan seal of quality. When packing this combination grade, at least 50% of the apples in any lot shall meet the requirements of the higher grade.

History: 1954 ACS 53, p. 10, Eff. Feb. 14, 1968.

R 285.546.3 Seal of quality.

Rule 3. The Michigan seal of quality label, tag, or other device bearing the official emblem shall be obtained only at sources approved by the Michigan

department of agriculture and at a cost as set forth in the established schedule of fees. The Michigan seal of quality is available for use in marketing apples to any person, firm, or corporation who complies with these rules and any instructions issued therewith.

History: 1954 ACS 53, p. 10, Eff. Feb. 14, 1968.

R 285.546.4 Agreements and permits.

Rule 4. No person, firm, or corporation shall use the Michigan seal of quality in connection with the grading and labeling of apples unless there is in force an official written agreement between the applicant and the Michigan department of agriculture. The director shall issue a permit to make an imprint on tags, labels, and other devices of the Michigan seal of quality for apples to manufacturers who sign an official agreement with the Michigan department of agriculture. Agreements and permits shall be renewed annually upon request prior to date of expiration and shall be in effect unless the holders are otherwise notified by the director.

History: 1954 ACS 53, p. 10, Eff. Feb. 14, 1968.

R 285.546.5 Penalties.

Rule 5. A violation of any of the applicable laws and rules shall be grounds for revocation of the permit to use the Michigan seal of quality and subjects the violator to other penalties as prescribed by law.

History: 1954 ACS 53, p. 10, Eff. Feb. 14, 1968.

R 285.546.6 Standards of quality; U.S. extra fancy.

Rule 6. "U.S. extra fancy" consists of apples of 1 variety which are mature but not overripe, carefully handpicked, clean, fairly well formed; free from decay, internal browning, internal breakdown, scald, scab, bitter pit, Jonathan spot, freezing injury, visible water core, and broken skins and bruises except those which are slight and incident to proper handling and packing. The apples are also free from injury caused by smooth net-like russeting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, disease, insects, or other means; and free from damage by smooth solid, slightly rough or rough russeting, or stem or calyx cracks. Each apple of this grade has the amount of color specified in table 1 for the variety.

History: 1954 ACS 53, p. 10, Eff. Feb. 14, 1968.

R 285.546.7 Standards of quality; U.S. fancy.

Rule 7. "U.S. fancy" consists of apples of 1 variety which are mature but not overripe, carefully handpicked, clean, fairly well formed; free from decay, internal browning, internal breakdown, bitter pit, Jonathan spot, scald, freezing injury, visible water core, and broken skins and bruises except those which are incident to proper handling and packing. The apples are also free from damage caused by russeting, sunburn or sprayburn, limb rubs, hail, drought spots, scars, stem or calyx cracks, disease, insects, or damage by other means. Each apple of this grade has the amount of color specified in table 1 for the variety.

History: 1954 ACS 53, p. 11, Eff. Feb. 14, 1968.

R 285.546.8 Color.

Rule 8. (1) In addition to the requirement specified for the grades set forth in R 285.546.6 and R 285.546.7, apples of these grades shall have the percentage of color specified for the variety in table 1 appearing in this section.

(2) For the solid red varieties the percentage stated refers to the area of the surface which shall be covered with a good shade of solid red characteristic of the variety. However, an apple having color of a lighter shade of solid red or striped red than that considered as a good shade of red characteristic of the variety may be admitted to a grade, if it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of good red color characteristic of the variety required for the grade.

(3) For the striped red varieties the percentage stated refers to the area of the surface in which the stripes of a good shade of red characteristic of the variety shall predominate over stripes of lighter red, green, or yellow. However, an apple having color of a lighter shade than that considered as a good shade of red characteristic of the variety may be admitted to a grade, if it has sufficient additional area covered so that the apple has as good an appearance as one with the minimum percentage of stripes of a good red characteristic of the variety required for the grade.

(4) Faded brown stripes shall not be considered as color except in the case of the Gray Baldwin variety.

TABLE 1

Color for Michigan Seal of Quality Grade for Apples by Variety

Variety	U.S. Extra Fancy	U.S. Fancy
	Percent	Percent
Solid Red:		
Winesap	66	40
Red Sport Varieties[1]	66	40
Striped or Partially Red:		
Jonathan	66	33
McIntosh	50	33
Cortland	50	33
Rome Beauty	50	33
Stayman	50	33
Delicious	50	25
Turley	50	25
Northern Spy	50	25
Golden Delicious[2]		

Any other variety not listed shall have the same color requirements specified for U.S. grades of apples by variety.

[1]When Red Sport varieties are specified as such, they shall meet the color requirements specified for Red Sport variety.

[2]Seventy-five percent or more of the surface of the apple shall show white or light green predominating over the green color.

History: 1954 ACS 53, p. 11, Eff. Feb. 14, 1968.

R 285.546.9 Tolerances.

Rule 9. (1) Apples to which the Michigan seal of quality emblem has been affixed shall meet the following requirements:

(a) Defects: 10% of the apples in any lot may fail to meet the requirements of the grade, but not more than ½ of this amount, or 5% shall be allowed for apples which are seriously damaged, including therein not more than 1% for apples affected by decay or internal breakdown.

(b) When applying the foregoing tolerances to combination grades no part of any tolerance shall be allowed to reduce, for the lot as a whole, the 50% of apples

Digitized by Google

of the higher grade required in the combination but individual containers shall have not less than 40% of the higher grade.

(c) Size:

(i) When size is designated by the numerical count for a container, not more than 5% of the apples in the lot may vary more than ¼ inch in diameter.

(ii) When size is designated by minimum or maximum diameter, not more than 5% of the apples in any lot may be smaller than the designated minimum and not more than 10% may be larger than the designated maximum.

History: 1954 ACS 53, p. 12, Eff. Feb. 14, 1968.

R 285.546.10 Application of tolerances.

Rule 10. The contents of individual packages in the lot based on sample inspection are subject to the following limitations if the average for the entire lot is within the tolerances specified for the grade:

(a) Packages which contain more than 10 pounds shall have not more than 1½ times a specified tolerance of 10% or more and not more than double a tolerance of less than 10%, except that at least 1 apple which is seriously damaged by insects or affected by decay or internal breakdown may be permitted in any package.

(b) Packages which contain 10 pounds or less shall have not over 10% of the packages with more than 3 times the tolerance specified, except that at least 1 defective apple may be permitted in any package. However, not more than 1 apple or more than 6% (whichever is the larger amount) may be seriously damaged by insects or affected by decay or internal breakdown.

History: 1954 ACS 53, p. 12, Eff. Feb. 14, 1968.

R 285.546.11 Calculation of percentages.

Rule 11. (1) When the numerical count is marked on the container, percentages shall be calculated on the basis of count.

(2) When the minimum diameter or minimum and maximum diameters are marked on the container, percentages shall be calculated on the basis of weight.

(3) When the apples are in bulk, percentages shall be calculated on the basis of weight.

History: 1954 ACS 53, p. 12, Eff. Feb. 14, 1968.

R 285.546.12 Condition after storage or transit.

Rule 12. Decay, scald, or any other deterioration which may have developed on apples after they have been in storage or transit shall be considered as affecting condition and not the grade.

History: 1954 ACS 53, p. 12, Eff. Feb. 14, 1968.

R 285.546.13 Packing.

Rule 13. (1) Apples tray packed or cell packed in cartons shall be arranged according to approved and recognized methods. Packs shall be at least fairly tight or fairly well filled.

(2) Closed cartons containing apples not tray or cell packed shall be fairly well filled or the pack shall be sufficiently tight to prevent any appreciable movement of the apples.

(3) Packs in wooden boxes or baskets shall be sufficiently tight to prevent any appreciable movement of apples within containers when the packages are closed. Each wrapped apple shall be completely enclosed by its individual wrapper.

(4) Apples on the shown face of any container shall be reasonably representative of size, color, and quality of the contents.

(5) Tolerances: In order to allow for variations incident to proper packing, not more than 10% of the containers in any lot may fail to meet these requirements.

(6) Two or more varieties may be packed in the same container.

History: 1954 ACS 53, p. 12, Eff. Feb. 14, 1968.

R 285.546.14 Marking.

Rule 14. (1) The numerical count or the minimum diameter of the apples packed in a closed container shall be indicated on the container.

(2) When the numerical count is not shown, the minimum diameter shall be plainly stamped, stenciled, or otherwise marked on the container in terms of whole inches, or whole inches and not less than ⅛ inch fractions thereof, in accordance with the facts.

(3) "Minimum," or its abbreviation, when following a diameter size marking, means that the apples are of the size marked or larger.

History: 1954 ACS 53, p. 13, Eff. Feb. 14, 1968.

R 285.546.15 Coolers, holding rooms, and storage facilities.

Rule 15. Coolers, holding rooms, and any other facility in which apples are held, stored, or in any manner maintained for periods longer than required for normal movement of fresh apples shall:

(a) Be constructed, maintained, and operated in compliance with Michigan laws and rules governing food establishments, food handling, and sanitation.

(b) Not be used for commodities and products not compatible with food products.

(c) Be free from objectionable odors and from molds.

(d) Be maintained in a sanitary condition.

History: 1954 ACS 53, p. 13, Eff. Feb. 14, 1968.

REGULATION NO. 547. HAZARDOUS SUBSTANCES

(By authority conferred on the director of agriculture by section 9 of Act No. 188 of the Public Acts of 1965, being §286.459 of the Michigan Compiled Laws)

R 285.547.1 Federal regulations.

Rule 1. Pursuant to the provisions of Act No. 188 of the Public Acts of 1965, section 9, the regulations, including all supplements and amendments thereto, promulgated by the United States department of health, education, and welfare, food and drug administration, effective February, 1965, and all amendments through December 1, 1966, under the hazardous substances labeling act, except as otherwise specifically defined or described in said Act No. 188, shall be the regulations under the Michigan hazardous substances labeling act and are hereby adopted.

History: 1954 ACS 59, p. 32, Eff. Aug. 14, 1969.

REGULATION NO. 548. SALE OF CHERRIES SUSPENDED IN LIQUID

(By authority conferred on the director of agriculture by sections 8 and 23 of Act No. 283 of the Public Acts of 1964, as amended, being §§290.608 and 290.623 of the Michigan Compiled Laws)

R 285.548.1 Quantity determinations.

Rule 1. When a person, firm, or corporation purchases cherries by volume suspended in liquid, the quantity determination shall be made as follows:

Digitized by Google

(a) Cherries shall be held in a tank containing sufficient liquid to at least entirely cover the cherries at the time of measurement. The determination shall be made only after the cherries have been transported a distance of at least ½ mile in the tank, or have reached a constant level.

(b) The determination shall be made at the time custody of the cherries is transferred from the grower to the buyer or an agent of the buyer.

(c) The determination shall be made using a standardized cherry measurement tank and a calibrated gauge rod, both of which shall meet the requirements of these rules.

(d) The determination shall be made only when the cherry measurement tank is in a level condition.

(e) The determination shall be made and recorded in terms of cubic feet and decimal fractions of a cubic foot, with no conversion to weight allowed.

History: 1954 ACS 63, p. 6, Eff. Aug. 14, 1970; 1954 ACS 76, p. 8, Eff. Aug. 21, 1973.

R 285.548.2 Cherry measurement tanks.

Rule 2. (1) A cherry measurement tank shall be designed to be in a normal operating position when it is in level.

(2) A tank shall be of the center reading type; that is, it shall be so designed that a gauge rod, when properly positioned for use, will be approximately in the vertical axis of the tank centrally positioned with respect to the tank walls.

(3) A tank shall be rectangular or square in design but its length shall not exceed its width by more than ⅓.

(4) The cross sectional area of a tank shall be constant at any level and the tank shall be so constructed that under any condition of lading it will not be distorted sufficiently to cause a change in the capacity at any level equal to more than 16 cubic inches. This requirement prescribes a limit on permissible distortion only, and is not to be construed as a secondary, additional tolerance.

(5) A tank shall be of such material, design, and construction that under normal handling it will maintain its rectangular or square design and required accuracy for a reasonable length of time.

(6) A tank shall be conspicuously and permanently marked to indicate the cubic capacity of the tank per inch depth throughout its measurement range.

(7) A tank manufactured and offered for sale after the effective date of these rules shall be marked with the name and address of the manufacturer.

(8) The maintenance and acceptance tolerance on a tank with a capacity of 30 cubic feet or less shall be 150 cubic inches in excess or deficiency; that is, the cubical content at any point in the tank within the measurement range shall not differ more than 150 cubic inches from a calculated volume determined by multiplying the depth of the tank from that point by the indicated cubical capacity of the tank per inch depth, except as provided for in subrule (9).

(9) The maintenance tolerance for a tank now in use for the determination of volume measurement shall be 1% excess or deficiency within the measurement range; however, a tank that does not meet all of the requirements in this rule shall not be used after January 1, 1973.

History: 1954 ACS 63, p. 6, Eff. Aug. 14, 1970.

R 285.548.3 Cherry gauge rods.

Rule 3. (1) The indicating means shall consist of a calibrated gauge rod and level indicating plate.

(2) The rod shall be of rigid design, made of stainless steel smoothly finished with the probe and tapered to ½ inch, and, when properly seated in position, shall

touch the bottom of the holding tank being measured. The rod shall be graduated throughout an interval corresponding to the range within which readings of the cherry level are to be made.

(3) On a rod the spacing of the graduation center to center shall be not more than .0625 (1/16) inch and not less than .03125 (1/32) inch. The graduation shall be not less than .005 inch in width and the clear interval between adjacent edges of successive graduations shall be not less than .015625 (1/64) inch. The graduations shall be designated in inches, 0.5 inches, 0.1 inches, and 0.02 inches.

(4) The level indicating plate assembly shall consist of a rigid plate and a slider tube designed to move up and down the calibrated gauge rod. The rigid plate shall be a perforated round disk of stainless steel, 10 inches in diameter, with the perforations not exceeding 3/8 inch in diameter. The plate shall be permanently attached to the slider tube. The slider assembly shall move freely on the gauge rod without slip and shall weigh 4 pounds, plus or minus 1/10 of 1%.

History: 1954 ACS 63, p. 7, Eff. Aug. 14, 1970.

R 285.548.4 Price and delivery tickets.

Rule 4. (1) The price of cherries in liquid shall be established on a cubic foot basis, with no conversion to weight allowed.

(2) A delivery ticket in duplicate shall be issued by the receiver for each lot of cherries received. The original shall be retained by the receiver and a copy given to the grower. A delivery ticket shall bear the following:

(a) Name and address of receiver.

(b) Name and address of grower.

(c) Date of receival.

(d) Cubical content of the tank per 1 inch depth.

(e) Depth of the cherries contained in the tank to the nearest .02 of an inch.

(f) Total cubic feet of cherries and decimal fraction thereof contained in the tank.

(g) Signature of the person making the quantity determination.

History: 1954 ACS 63, p. 7, Eff. Aug. 14, 1970; 1954 ACS 76, p. 8, Eff. Aug. 21, 1973.

R 285.548.9 Rescission.

Rule 9. Regulations Nos. 504, 509, 511, 512, 516, 517, 519, 524 and 526, being R 285.504, R 285.509, R 285.511, R 285.512, R 285.516, R 285.517, R 285.519, R 285.524 and R 285.526 of the Michigan Administrative Code and appearing on pages 1528 to 1531, 1534, 1536, 1547 and 1550 of the 1954 volume of the Code, and Regulation No. 529, being R 285.529.1 to R 285.529.4 of the Michigan Administrative Code and appearing on pages 1188 and 1189 of the 1959 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 63, p. 8, Eff. Aug. 14, 1970.

REGULATION NO. 549. NONALCOHOLIC BEVERAGES

(By authority conferred on the commission of agriculture by sections 15 and 23 of Act No. 39 of the Public Acts of 1968, and section 9 of Act No. 380 of the Public Acts of 1965, being §§289.715, 289.723, and 16.109 of the Michigan Compiled Laws)

R 285.549.1 Definitions of beverages and sweeteners.

Rule 1. (1) As used in these rules:

(a) "Beverage" means fruit juice, fruit juice reconstituted, combined fruit juice, dilute fruit juice or fruit flavored beverage, cereal beverage, artificially sweetened

beverage, artificially sweetened beverage with nutritive sweetener added, imitation beverage and potable water. It may be heat-treated, chilled, canned or frozen.

(b) "Nonalcoholic beverage" means a beverage containing less than ½ of 1% alcohol.

(c) "Water" means potable water intended for, used for, or sold for use as a beverage or component thereof for human consumption and which conforms to the United States public health service regulations for potable water with respect to bacteriological purity.

(d) "Nutritive sweetener" means sucrose, sugar syrup, corn syrup, fructose, invert sugar syrup, dextrose, dried corn syrup, glucose syrup, or dried glucose syrup.

(e) "Nonnutritive artificial sweetener" includes, but is not limited to, saccharin and the harmless salts thereof.

History: 1954 ACS 63, p. 8, Eff. Aug. 14, 1970.

R 285.549.2 Definitions of flavors and colors.

Rule 2. (1) "Natural flavor" means a flavor derived from natural sources, such as fruits, vegetables, leaves, roots, barks, or berries, and which may contain ethyl alcohol or other suitable vehicle or solvent.

(2) "True fruit flavor" means a natural flavor derived from and limited to essence, extract, concentrate or oil of the fruit named.

(3) "Artificial flavor" means a synthetically produced flavor containing any sapid or aromatic constituent.

(4) "Natural color" means a harmless coloring material found in nature which is derived by extraction or other method from natural sources or synthesized to be identical with naturally occurring materials.

(5) "Artificial color" means a harmless coloring material not found in nature which is manufactured by a process of synthesis or similar artifice.

History: 1954 ACS 63, p. 8, Eff. Aug. 14, 1970.

R 285.549.3 Definitions; miscellaneous.

Rule 3. (1) "Dietary supplement" means vitamins and minerals used to supplement a person's diet.

(2) "Chemical preservative" means a chemical that tends to prevent or retard deterioration of the beverage to which it is added.

(3) "Label" means a display of printed or graphic matter on the immediate container or on a wraparound carrier that obscures the labeling on the individual container.

(4) "Principal display panel" means that part of the label most likely to be displayed under customary conditions.

(5) "Area of principal display panel" means the area of the side or surface of the package which bears the principal display panel. In the case of cartons, this is 1 side excluding the gable; in the case of bottles or cans, this is 40% of the product of the height times the circumference, excluding flanges, tops, heels, and necks of bottles.

History: 1954 ACS 63, p. 8, Eff. Aug. 14, 1970.

R 285.549.5 Exemptions.

Rule 5. A nonalcoholic noncarbonated beverage specially prepared for infants is exempt from these rules when manufactured, sold, advertised, or offered for sale for such purpose.

History: 1954 ACS 63, p. 9, Eff. Aug. 14, 1970.

R 285.549.7 Compliance with federal regulations.

Rule 7. (1) A nonalcoholic noncarbonated beverage, for which a standard of identity has been established by regulation under the federal food, drug and cosmetic act and which is in existence on the effective date of these rules, shall be manufactured, packaged, and labeled to conform to the provisions of the federal standard.

(2) A nonalcoholic nutritively sweetened or unsweetened carbonated beverage, for which a standard of identity has been established by regulation under the federal food, drug and cosmetic act and which is in existence on the effective date of these rules, shall comply with the provisions of the federal standard.

History: 1954 ACS 63, p. 9, Eff. Aug. 14, 1970.

R 285.549.9 Dilute fruit juices.

Rule 9. (1) "Fruit juice from concentrate" means the beverage composed of water and concentrated fruit juice if the concentrated juice is reconstituted to a reasonable average natural strength. Single strength fruit juice may be added. Juice from 1 or more fruits may be used. It may contain an added nutritive sweetener and a preservative.

(2) The name of the beverage is "_____ juice from concentrate," the blank to be filled with the name of the fruit. If more than 1 fruit is used the names shall appear in order of descending predominance. "From concentrate" shall be in letters at least ½ the height of those in the name of the fruit juice.

(3) When a sweetener is used "sweetened" or "_____ added," the blank to be filled with the name of the sweetener used shall be added immediately preceding or immediately following the name of the beverage.

(4) When a preservative is added, the preservative shall be declared by name and qualified as a preservative in a statement immediately following the name of the beverage, with no intervening printed or graphic material.

History: 1954 ACS 63, p. 9, Eff. Aug. 14, 1970.

R 285.549.10 Combined fruit juices.

Rule 10. (1) "Combined fruit juice" means the beverage composed of juice from 2 or more fruits, 1 of which is a concentrated juice, blended with water to restore the concentrated juice to a reasonable average natural strength. It may contain an added nutritive sweetener and a preservative.

(2) The name of the beverage is the names of the fruits in order of descending predominance, with the statement of ingredients immediately following, or "combined fruit juice" or "mixed fruit juice" preceded or followed by the names of the fruits.

(3) The ingredients shall be listed in order of descending predominance.

History: 1954 ACS 63, p. 9, Eff. Aug. 14, 1970.

R 285.549.11 Fruit juice-drinks.

Rule 11. (1) "Fruit juice-drink" means the beverage composed of fruit juice or concentrated fruit juice or both from 1 or more fruits blended with water. It shall contain a minimum of 50% juice (average single strength equivalent) except cranberry juice-drink, which shall contain a minimum of 25% cranberry juice, and cherry juice-drink, which shall contain a minimum of 30% cherry juice.

(2) It may contain nutritive sweetener, true juice flavor derived from the fruit named, acidifying agents including lemon juice or concentrated lemon juice, or both, dietary supplement and preservative.

(3) The name of the beverage is "_____ juice-drink," the blank to be filled with the name of the fruit on 1 line, with "juice-drink" in letters at least ½ the height of those in the name of the fruit on a separate line immediately below.

(4) The label shall bear a complete list of ingredients by common name in order of descending predominance.

History: 1954 ACS 63, p. 9, Eff. Aug. 14, 1970; 1954 ACS 68, p. 11, Eff. June 17, 1971.

R 285.549.12 Fruit nectar.

Rule 12. (1) "Fruit nectar" means the beverage composed of pureed whole fruit blended with water with or without added fruit juice or concentrated fruit juice, or both; or composed of fruit juice or concentrated fruit juice, or both, and fruit pulp, blended with water. It shall contain a minimum of 40% juice (average single strength equivalent) of the fruit used except apricot nectar, which shall contain a minimum of 35% apricot juice; guava, 25% guava juice; papaya, 33% papaya juice; and orange, 50% orange juice.

(2) It may contain nutritive sweeteners, true fruit flavor derived from the fruit named, acidifying agents including lemon juice or concentrated lemon juice, or both, dietary supplement and preservative.

(3) The name of the beverage is "_____ nectar," the blank to be filled with the name of the fruit used.

(4) The label shall bear a complete list of ingredients by common name in order of descending predominance.

History: 1954 ACS 63, p. 9, Eff. Aug. 14, 1970.

R 285.549.13 Fruit ades.

Rule 13. (1) "Fruit ade" means the beverage composed of fruit juice or concentrated fruit juice, or both, blended with water. It shall contain a minimum of 25% juice (average single strength equivalent) of the fruit named except cranberry ade, lemonade, limeade, and lemon-lime ade, which shall contain a minimum of 10% juice.

(2) It may contain nutritive sweetener, true fruit flavor, acidifying agents including lemon juice or concentrated lemon juice, or both, dietary supplement, natural or artificial color and preservative.

(3) The name of the beverage is "_____ ade," the blank to be filled with the name of the fruit. Where more than 1 fruit is used, the names shall appear in order of descending predominance.

(4) The label shall bear a complete list of ingredients by common name in order of descending predominance.

History: 1954 ACS 63, p. 10, Eff. Aug. 14, 1970.

R 285.549.14 Fruit punches.

Rule 14. (1) "Fruit punch" means the beverage composed of 2 or more fruit juices or concentrated fruit juices, or both, blended with water. It shall contain a minimum of 10% juice (average single strength equivalent) of the fruits used.

(2) It may contain nutritive sweetener, true fruit flavor, natural flavor, acidifying agent, stabilizer, emulsifier, buffering salt, dietary supplement, natural or artificial color and preservative.

(3) The name of the beverage is "fruit punch" or "_____ punch," the blank to be filled with the name of the fruits used or with a term descriptive of the beverage.

History: 1954 ACS 63, p. 10, Eff. Aug. 14, 1970.

R 285.549.15 Fruit drinks.

Rule 15. (1) "Fruit drink" means the beverage composed of fruit juice, concentrated fruit juice, or both, from 1 or more fruits, blended with water. It shall contain a minimum of 10% juice (average single strength equivalent) except cranberry drink, lemon drink, lime drink, and lemon-lime drink, which shall contain a minimum of 6% juice (average single strength equivalent).

(2) It may contain nutritive sweetener, true fruit flavor, natural flavor, acidifying agent, stabilizer, emulsifier, buffering salt, dietary supplement, natural or artificial color and preservative.

(3) The name of the beverage is "_____ drink," the blank to be filled with the name of the fruit from which juice is derived. Where more than 1 fruit juice is used, the names shall appear in order of descending predominance.

(4) The label shall bear a complete list of ingredients by common name in order of descending predominance.

History: 1954 ACS 63, p. 10, Eff. Aug. 14, 1970.

R 285.549.16 Punches.

Rule 16. (1) "Punch" means the beverage meeting requirements for fruit punch in all respects except juice content. It shall contain less than 10% fruit juice (average single strength equivalent) of the fruits from which juice is derived.

(2) The name of the beverage is "fruit flavored punch"; "_____ flavored punch," the blank to be filled with the name of the predominant flavor; or "_____ punch," the blank to be filled with a coined name or descriptive name other than the name of a fruit.

(3) The label shall bear a complete list of ingredients by common name in order of descending predominance.

History: 1954 ACS 63, p. 10, Eff. Aug. 14, 1970.

R 285.549.17 Fruit flavored drinks.

Rule 17. (1) "Fruit flavored drink" means the beverage meeting the requirements for fruit drink in all respects except juice content. It shall contain less than 10% fruit juice, except cranberry flavored drink, lemon flavored drink, lime flavored drink and lemon-lime flavored drink, which shall contain less than 6% fruit juice.

(2) The name of the beverage is "_____ flavored drink," the blank to be filled with the name of the fruit from which juice is derived.

(3) The label shall bear a complete list of ingredients by common name in order of descending predominance.

History: 1954 ACS 63, p. 11, Eff. Aug. 14, 1970.

R 285.549.18 Imitation beverages.

Rule 18. (1) A nonalcoholic beverage similar to but not complying with a standard herein provided is an imitation.

(2) The name of the beverage is "imitation _____," the blank to be filled with the name of the standardized beverage imitated.

(3) The label shall bear a complete list of ingredients by common name in order of descending predominance.

History: 1954 ACS 63, p. 11, Eff. Aug. 14, 1970.

R 285.549.20 Artificially sweetened nonalcoholic beverages.

herein for the similar nutritively sweetened beverage except for the sweetener. It shall be sweetened with nonnutritive artificial sweetener. It shall not contain added nutritive sweetener. It may contain substances safe for use in dietary foods.

(2) The name of the beverage is "artificially sweetened" followed or preceded by the name of the similar nutritively sweetened beverage, with the words "artificially sweetened" in letters at least ½ the height of those in the words of the rest of the product identity.

(3) The label shall bear:

(a) A complete list of ingredients by common name in order of descending predominance, including the name of the artificial sweetener.

(b) A warning statement on the artificial sweetener separated from the list of ingredients, such as "contains _____, a nonnutritive artificial sweetener which should be used only by persons who must restrict their intake of ordinary sweets," the blanks to be filled with the amount and name of the artificial sweetener.

(c) A declaration of the fat, protein, available carbohydrates and caloric content.

History: 1954 ACS 63, p. 11, Eff. Aug. 14, 1970.

R 285.549.21 Artificially and nutritively sweetened nonalcoholic beverages.

Rule 21. (1) "Artificially and nutritively sweetened nonalcoholic carbonated or noncarbonated beverage" means a beverage which complies with the standard provided herein for the similar artificially sweetened beverage except it shall contain an added nutritive sweetener.

(2) The name of the beverage is the name that would identify the similar nutritively sweetened beverage followed or preceded by "artificially sweetened and contains _____," the blank to be filled with the name of the nutritive sweetener; "artificially and nutritively sweetened"; or "artificial and nutritive sweeteners added" in letters at least ½ the height of those in the other words in the product identity.

(3) The label shall bear the statement "Contains sugar(s)," a complete list of ingredients in order of descending predominance; and in a separate paragraph the following information: (a) caloric content per fluid ounce, (b) carbohydrate content per fluid ounce, (c) percentage of nonnutritive sweetener plus the statement "Contains _____ mg. _____ per ounce, a nonnutritive artificial sweetener," the blanks to be filled with the number of milligrams per fluid ounce and the name of the artificial sweetener, and (d) a statement of warning to diabetics of the presence of sugar. The statement "Contains sugar" may be omitted where these words are used as a part of the name of the beverage.

History: 1954 ACS 63, p. 11, Eff. Aug. 14, 1970.

R 285.549.22 Nonalcoholic cereal beverages.

Rule 22. (1) "Nonalcoholic cereal beverage" means the beverage composed of water blended with barley, malt, hops or other cereal and which may contain added nutritive sweetener and dietary supplement.

(2) The name of the beverage is "_____, a nonalcoholic cereal beverage" or "_____, a nonalcoholic malt beverage," the blank to be filled with a descriptive or coined name. The name shall not include the word "brew," "bru" or any term that would indicate the presence of alcohol.

(3) The label shall bear a complete list of ingredients by common name in order of descending predominance.

R 285.549.24 Labels; product names, ingredients, and processors.

Rule 24. Each container of a beverage for which a standard of identity is provided herein shall bear in addition to requirements under other applicable laws:

(a) Name of the product. The product shall be identified by the name provided in this regulation. Unless otherwise specified the words in the name shall be in letters of the same size and color on a background of contrasting color and shall appear on the principal display panel.

(b) Ingredient information. A declaration of optional ingredients required by the provision of a standard shall appear immediately preceding or immediately following the product identity. Where a complete list of ingredients is required, the list, in order of descending predominance, may appear on any information panel. It shall be complete on that 1 panel.

(c) Identification of manufacturer, packer or distributor by name and address, including city, state and zip code, on any information panel. The street address shall be included if not listed in a current local directory. In case of a corporation only the corporate name will satisfy this requirement. The name of 1 division may be added. If the company identified is not the manufacturer it shall be qualified to reveal the connection with the beverage, as "packed for," "distributed by," or similar terminology that states the facts. The principal place of business of the manufacturer, packer or distributor will satisfy the address requirement.

History: 1954 ACS 63, p. 12, Eff. Aug. 14, 1970.

R 285.549.25 Labels; miscellaneous requirements.

Rule 25. (1) On a label bearing a declaration of vitamin enrichment, a statement shall appear showing the amount of the specific vitamin in a specified serving of the beverage and its relation to the minimum or recommended daily requirement or allowance.

(2) Where a container bears more than 1 principal display panel, information required on the principal display panel shall appear on each principal display panel.

(3) On a container of a beverage packaged for distribution in another country as well as in the United States, the required information shall appear on the label in the English language. It may be shown in a foreign language at locations other than the principal display panel.

(4) When reference is made to a beverage for which a standard of identity has been established by these rules, the beverage shall be identified, as herein provided, on menus and in any advertising media.

History: 1954 ACS 63, p. 12, Eff. Aug. 14, 1970.

R 285.549.29 Rescission.

Rule 29. Regulation No. 503 governing "the manufacture and sale of soft drinks," being R 285.503 of the Michigan Administrative Code and appearing on page 1528 of the 1954 volume of the Code, and Regulation No. 535 entitled "nonalcoholic noncarbonated beverages," being R 285.535.1 to R 285.535.3 of the Michigan Administrative Code and appearing on pages 3116 to 3119 of the 1964-65 Annual Supplements to the Code, are rescinded.

PART 1. GENERAL PROVISIONS

R 285.551.1 Applicability.

Rule 1. These rules apply to packages and to commodities in package form, but do not apply to:

(a) An inner wrapping not intended to be individually sold to a customer.

(b) An auxiliary container or outer wrapping used to deliver a package of commodity to a retail customer if the container or wrapping bears no printed matter pertaining to any particular commodity.

(c) A container used for a retail tray pack display when the container itself is not intended to be sold, for example, the tray that is used to display individual envelopes of seasonings, gravies and the like.

(d) A commodity put up in variable weights and sizes contained in a bulk display and intended to be weighed or measured at time of sale and where the method of sale is clearly indicated in close proximity to the quantity of the commodity being sold.

(e) An open carrier and transparent wrapper or carrier for a container when the wrapper or carrier does not bear any written, printed or graphic matter obscuring the label information required by these rules.

History: 1954 ACS 75, p. 9, Eff. May 22, 1973.

R 285.551.4 Definitions in act and L, M.

Rule 4. (1) The terms defined in Act No. 283 of the Public Acts of 1964, as amended, being §§290.601 to 290.634 of the Michigan Compiled Laws, have the same meaning when used in these rules.

(2) "Label" means any written, printed or graphic matter affixed to, applied to, attached to, blown into, formed, molded into, embossed on or appearing upon or adjacent to a consumer commodity or a package containing a consumer commodity, for purposes of branding, identifying or giving any information with respect to the commodity or to the contents of the package. An inspector's tag or other nonpromotional matter affixed to or appearing upon a consumer commodity shall not be deemed to be a label requiring the repetition of label information required by these rules.

(3) "Multi-unit package" means a package containing 2 or more individual packages of the same commodity, in the same quantity, with the individual packages intended to be sold as a part of the multi-unit package but capable of being individually sold in full compliance with these rules.

History: 1954 ACS 75, p. 9, Eff. May 22, 1973.

R 285.551.6 Definitions; P to R.

Rule 6. (1) "Person" means an individual, partnership, company, corporation, association, society, or other entity.

(2) "Principal display panel" means that part of a label designed to be most likely displayed, presented, shown or examined under normal and customary conditions of display and purchase. The principal display panel shall be large enough to accommodate all mandatory label information required to be placed thereon by these rules with clarity and conspicuousness, without obscuring design or vignettes and without crowding. Where a principal display panel appears more than once on a package, all requirements pertaining to the principal display panel shall pertain to all principal display panels.

(3) "Random package" means a package that is 1 of a lot, shipment or delivery of packages of the same consumer commodity with varying weights; that is, packages of the same consumer commodity with no fixed pattern of weight.

History: 1954 ACS 75, p. 9, Eff. May 22, 1973.

R 285.551.9 Rescission.

Rule 9. Regulation No. 540, entitled "Weights and Measures," being R 285.540.1 to R 285.540.21 of the Michigan Administrative Code and appearing on pages 3126 to 3132 of the 1964-65 Annual Supplements to the Code, is rescinded.

History: 1954 ACS 75, p. 9, Eff. May 22, 1973.

PART 2. DECLARATIONS ON PACKAGES

R 285.551.11 Declaration of identity; consumer and nonconsumer package.

Rule 11. (1) A declaration of identity on a consumer package shall appear on the principal display panel and shall positively identify the commodity in the package in terms of the name now or hereafter specified in or required by any applicable law, its common or usual name, generic term or appropriately descriptive term.

(2) The declaration on a consumer package shall appear generally parallel to the base on which the package rests as it is designed to be displayed.

(3) The declaration on a nonconsumer package shall appear on the outside of a package and shall identify the commodity in the package by its common or usual name, description, generic term or the like.

History: 1954 ACS 75, p. 9, Eff. May 22, 1973.

R 285.551.13 Declaration of responsibility; consumer and nonconsumer packages.

Rule 13. (1) A package kept, offered, exposed for sale or sold at any place other than on the premises where packed shall specify conspicuously on the label of the package the name and address of the manufacturer, packer or distributor. The name shall be the actual corporate name, or when not incorporated, the name under which the business is conducted. The address shall include street address, city, state and zip code; however, the street address may be omitted if this is shown in a current city directory or telephone directory.

(2) If a person manufactures, packs or distributes a commodity at a place other than his principal place of business, the label may state the principal place of business or the actual place where the commodity is manufactured, packed, or distributed, unless the statement of the principal place of business would be misleading.

(3) Where the commodity is not manufactured by the person whose name appears on the label, the name shall be qualified by a phrase that reveals the connection the person has with the commodity, such as "Manufactured for and packed by _____," "Distributed by _____," "Packed by _____," "Packed for _____" or any other words of similar import that express the facts.

History: 1954 ACS 75, p. 10, Eff. May 22, 1973.

R 285.551.15 Declaration of quantity on consumer packages.

Rule 15. Where these rules require the quantity declaration to be in terms of the largest whole unit, the declaration shall be in terms of the largest whole unit of weight or measure, with any remainder expressed in 1 of the following ways:

(a) Common or decimal fractions of the largest whole unit.

(b) The next smaller whole unit, or units, with any further remainder in terms of common or decimal fractions of the smallest unit present in the quantity declaration.

History: 1954 ACS 75, p. 10, Eff. May 22, 1973.

R 285.551.16 Net quantity.

Rule 16. (1) A declaration of net quantity of the commodity in the package, exclusive of wrappers and any other material packed with the commodity, shall appear on the principal display panel of a consumer package and shall be in terms of the largest whole unit unless otherwise specified in these rules. (See R 285.551.21 to R 285.551.25.)

(2) The term "net weight" shall be used in conjunction with the declaration of quantity in terms of weight. The term may precede or follow the declaration of weight.

(3) The declaration of quantity may appear on 1 or more lines of print or type.

History: 1954 ACS 75, p. 10, Eff. May 22, 1973.

R 285.551.17 Generic terms.

Rule 17. (1) The declaration of the quantity of a particular commodity shall be expressed in terms of liquid measure if the commodity is liquid; or in terms of weight, if the commodity is solid, semisolid, viscous or a mixture of solid and liquid; or in terms of numerical count. If there exists a firmly established general consumer usage and trade custom with respect to the terms used in expressing a declaration of quantity of a particular commodity, the declaration of quantity may be expressed in its traditional terms if the traditional declaration gives accurate and adequate information as to the quantity of the commodity.

(2) A declaration of quantity in terms of weight shall be combined with appropriate declaration of the measure, count and size of the individual units, unless a declaration of weight alone is fully informative.

(3) A declaration of quantity in terms of measure shall be combined with appropriate declaration of the weight, count and size of the individual units, unless a declaration of measure alone is fully informative.

(4) A declaration of quantity in terms of count shall be combined with appropriate declaration of the weight, measure, and size of the individual units, unless a declaration of count alone is fully informative.

History: 1954 ACS 75, p. 10, Eff. May 22, 1973.

R 285.551.18 Quantitative terms.

Rule 18. (1) A declaration of quantity:

(a) In units of weight, shall be in terms of the avoirdupois pound or ounce.

(b) In units of liquid measure, shall be in terms of the United States gallon of 231 cubic inches or liquid quart, liquid pint or fluid ounce subdivisions of the gallon and shall express the volume at 68 degrees Fahrenheit except in the case of:

(i) Petroleum products, for which the declaration shall express the volume at 60 degrees Fahrenheit.

(ii) A commodity that is normally sold and consumed while frozen, for which the declaration shall express the volume at the frozen temperature.

(iii) A commodity that is normally sold in the refrigerated state, for which the declaration shall express the volume at 40 degrees Fahrenheit.

(c) In units of linear measure, shall be in terms of the yard, foot or inch.

(d) In units of area measure, shall be in terms of the square yard, square foot or square inch.

(e) In units of dry measure, shall be in terms of the United States bushel of 2,150.42 cubic inches or peck, dry quart and dry pint subdivisions of the bushel.

(f) In units of cubic measure, shall be in terms of the cubic yard, cubic foot or cubic inch.

(2) In the case of a commodity packed for export shipment, the declaration of quantity may be in terms of the metric system of weight or measure.

History: 1954 ACS 75, p. 11, Eff. May 22, 1973.

R 285.551.19 Abbreviations.

Rule 19. The following abbreviations, and none other, may be employed in the quantity statement on a package of commodity. Periods and plural forms are optional. Normally neither periods nor plural forms are used.

avoirdupois	avdp	quart	qt
cubic	cu	square	sq
feet or foot	ft	weight	wt
fluid	fl	yard	yd
gallon	gal	cubic centimeter	cc
inch	in	gram	g
liquid	liq	kilogram	kg
ounce	oz	microgram	mcg
pint	pt	milligram	mg
pound	lb	milliliter	ml

History: 1954 ACS 75, p. 11, Eff. May 22, 1973.

R 285.551.20 Ambiguous terms.

Rule 20. When the term "ounce" is employed in a declaration of liquid quantity, the declaration shall identify the particular meaning of the term by use of the term "fluid"; however, this distinction may be omitted when, by association of terms, the proper meaning is obvious; for example, 1 pint 4 ounces. When the declaration of quantity is in terms of the dry pint or dry quart, the declaration shall include the word "dry."

History: 1954 ACS 75, p. 11, Eff. May 22, 1973.

R 285.551.21 Units of less than 1.

Rule 21. (1) The declaration of quantity for units of less than 1 foot, 1 square foot, 1 pound or 1 pint shall be expressed in terms of:

(a) Inches and fractions of inches, in the case of length measure of less than 1 foot.

(b) Square inches and fractions of square inches, in the case of area measure of less than 1 square foot.

(c) Ounces and fractions of ounces, in the case of weight of less than 1 pound.

(d) Ounces and fractions of ounces, in the case of fluid measure of less than 1 pint.

(2) The quantity declaration appearing on a random package may be expressed in terms of decimal fractions of the largest appropriate unit, the fraction being carried out to not more than 2 decimal places.

History: 1954 ACS 75, p. 11, Eff. May 22, 1973.

R 285.551.22 Units of 4 or more.

Rule 22. A declaration of quantity for units of 4 feet or more, 4 square feet or more, 4 pounds or more or 1 gallon or more shall be expressed in terms of:

(a) In the case of length measure of 4 feet or more:

(i) Feet followed in parentheses by a declaration of yards and common or decimal fractions of the yard.

(ii) Feet followed in parentheses by a declaration of yards, with any remainder in terms of feet and inches.

(b) The largest whole unit, in the case of area measure of 4 square feet or more, weight of 4 pounds or more or fluid measure of 1 gallon or more.

History: 1954 ACS 75, p. 11, Eff. May 22, 1973.

R 285.551.23 Units of 1 to less than 4; dual quantity declarations.

Rule 23. (1) The declaration of quantity on a package containing 1 pound or more but less than 4 pounds shall be expressed in ounces, followed by a declaration in parentheses, expressed in terms of the largest whole unit. The quantity declaration appearing on a random package may be expressed in terms of pounds and decimal fractions of the pound carried out to not more than 2 decimal places.

(2) The declaration on a package containing 1 pint or more but less than 1 gallon, shall be expressed in ounces, followed by a declaration in parentheses, expressed in terms of the largest whole unit.

(3) The declaration on a package containing 1 foot or more but less than 4 feet shall be expressed in inches followed by a declaration in parentheses, expressed in terms of the largest whole unit.

(4) The declaration on a package containing 1 square foot but less than 4 square feet, shall be expressed in square inches followed by a declaration in parentheses, expressed in terms of the largest whole unit.

History: 1954 ACS 75, p. 12, Eff. May 22, 1973.

R 285.551.24 Bidimensional commodities.

Rule 24. The declaration for bidimensional commodities, including roll-type commodities, shall be expressed:

(a) If less than 1 square foot, in terms of linear inches and fractions of linear inches.

(b) If at least 1 square foot but less than 4 square feet, in terms of square inches followed in parentheses, by a declaration of both the length and width, each being in terms of the largest whole unit; however:

(i) A square inch declaration is not required for a bidimensional commodity 4 inches or less in width.

(ii) A dimension of less than 2 feet may be stated in inches, in parentheses.

(iii) A commodity consisting of usable individual units except a roll-type commodity with individual usable units created by perforations, requires a declaration of unit area but not a declaration of total area of all such units.

(c) If 4 square feet or more, in terms of square feet followed, in parentheses, by a declaration of the length and width in terms of the largest whole unit; however:

(i) A declaration in square feet is not required for a bidimensional commodity 4 inches or less in width.

(ii) A dimension of less than 2 feet may be stated in inches, in parentheses.

(iii) A declaration in square feet is not required for a commodity for which the length and width measurements are critical in terms of end use if the label on the commodity clearly presents the length and width measurements; for example, tablecloths or bedsheets.

History: 1954 ACS 75, p. 12, Eff. May 22, 1973.

R 285.551.25 Count and ply.

Rule 25. (1) If the commodity is in individually usable units of 1 or more components or ply, the quantity declaration shall include the number of plies and the total number of usable units. This is in addition to the other applicable quantity declaration requirements of this regulation.

(2) Roll-type commodities, when perforated so as to identify the individual usable units, shall not be deemed to be made up of usable units. However, roll-type commodities shall be labeled in terms of:

(a) Total area measurement.

(b) Number of plies.

(c) Count of usable units.

(d) Dimensions of a single usable unit.

History: 1954 ACS 75, p. 12, Eff. May 22, 1973.

R 285.551.26 Fractions.

Rule 26. A statement of net quantity of contents of a consumer commodity may contain common or decimal fractions. A common fraction shall be in terms of halves, quarters, eighths, sixteenths, or thirty-seconds. A common fraction shall be reduced to its lowest terms; a decimal fraction shall be carried out to not more than 2 places, except that:

(a) If there exists an established general consumer usage and trade custom of employing different common fractions in the net quantity declaration of a particular commodity, they may be employed.

(b) If linear measurements are required in terms of yards or feet, common fractions may be in terms of thirds.

History: 1954 ACS 75, p. 12, Eff. May 22, 1973.

R 285.551.27 Supplementary declarations.

Rule 27. (1) The required quantity declaration may be supplemented by 1 or more declarations of weight, measure or count, but such declarations shall appear other than on a principal display panel.

(2) A separate statement of the net quantity of contents in terms of the metric system is not regarded as a supplemental statement, and a statement of quantity in terms of the metric system of weight or measure may also appear on the principal display panel or on other panels.

(3) A declaration of quantity shall not be qualified by the addition of the words "when packed," "minimum," "not less than" or words of similar import nor shall any unit of weight, measure or count be qualified by any term that tends to exaggerate the amount of commodity, for example "jumbo," "giant," "full" or words of similar import.

History: 1954 ACS 75, p. 13, Eff. May 22, 1973.

R 285.551.28 Declaration of quantity on nonconsumer packages.

Rule 28. (1) A nonconsumer package shall bear a declaration of the net quantity of contents on the outside. The declaration shall be in terms of the largest whole unit.

(2) The average quantity of contents in the package of a particular lot, shipment or delivery at least shall equal the declared quantity and an unreasonable shortage in any package shall not be permitted even though overages in other packages in the same shipment, delivery or lot compensate for the shortage.

(3) The declaration of the quantity of a particular commodity shall be expressed in terms of liquid measure if the commodity is liquid; or in terms of weight if the commodity is solid, semisolid, viscous or a mixture of solid and liquid; or in terms of numerical count. If there exists a firmly established general consumer usage and trade custom with respect to the terms used in expressing a declaration of quantity of a particular commodity, the declaration of quantity

may be expressed in its traditional terms if the traditional declaration gives accurate and adequate information as to the quantity of the commodity.

History: 1954 ACS 75, p. 13, Eff. May 22, 1973.

R 285.551.29 Units of weight and measure on a nonconsumer package.

Rule 29. (1) A declaration of quantity on a nonconsumer package:

(a) In units of weight, shall be in terms of the avoirdupois pound or ounce.

(b) In units of liquid measure, shall be in terms of the United States gallon of 231 cubic inches or liquid quart, liquid pint or fluid ounce subdivisions of the gallon and shall express the volume at 68 degrees Fahrenheit except in the case of:

(i) Petroleum products, for which the declaration shall express the volume at 60 degrees Fahrenheit.

(ii) A commodity that is normally sold and consumed while frozen, for which the declaration shall express the volume at frozen temperature.

(iii) A commodity that is normally sold in the refrigerated state, for which the declaration shall express the volume at 40 degrees Fahrenheit.

(c) In units of linear measure, shall be in terms of the yard, foot or inch.

(d) In units of area measure, shall be in terms of the square yard, square foot or square inch.

(e) In units of dry measure, shall be in terms of the United States bushel of 2,150.42 cubic inches, or peck, dry quart and dry pint subdivisions of the bushel.

(f) In units of cubic measure, shall be in terms of the cubic yard, cubic foot or cubic inch.

(2) Nothing in this rule shall prohibit the labeling of a nonconsumer package in terms of units of the metric system.

History: 1954 ACS 75, p. 13, Eff. May 22, 1973.

R 285.551.30 Abbreviations; package of nonconsumer commodity.

Rule 30. A generally accepted abbreviation of a unit name may be employed in the quantity statement on a package of a nonconsumer commodity.

History: 1954 ACS 75, p. 13, Eff. May 22, 1973.

PART 3. PROMINENCE AND PLACEMENT OF DECLARATIONS

R 285.551.41 Consumer packages; English language; location.

Rule 41. (1) All information required to appear on a consumer package shall be in the English language and shall be prominent, definite, and plain and shall be conspicuous as to size and style of letters and numbers and as to color of letters and numbers in contrast to color of background.

(2) The declaration of quantity of the contents of a consumer package shall appear in the bottom 30% of the principal display panel except as provided for cylindrical containers in subrule (4) of R 285.551.51 and as provided for small packages in subrule (1) of R 285.551.74.

(3) The declaration of quantity shall be in a color that contrasts conspicuously with its background, except that a declaration of net quantity blown, formed or molded on a glass or plastic surface shall not be required to be presented in a contrasting color if no required label information is on the surface in a contrasting color.

(4) The area above and below the quantity declaration shall be free of printed information by a space equal to at least the height of the lettering in the declaration. The area to the left and right of the quantity declaration shall be free of printed information by a space equal to twice the width of the letter "N" of the style and size of type used in the declaration.

(5) The quantity declaration shall be presented in such a manner as to be generally parallel to the declaration of identity and to the base on which the package rests as it is designed to be displayed.

History: 1954 ACS 75, p. 14, Eff. May 22, 1973.

R 285.551.42 Consumer packages; area of principal display panel.

Rule 42. (1) The square inch area of the principal display panel:

(a) On a rectangular container, shall be the product of the height times the width of that 1 entire side which properly can be considered to be the principal display panel.

(b) On a cylindrical or nearly cylindrical container, shall be 40% of the product of the height of the container times the circumference.

(c) On any other shaped container, shall be 40% of the total surface of the container, unless the container presents an obvious principal display panel, for example, the top of a triangular or circular package of cheese or the top of a can of shoe polish, in which case the area shall consist of the entire surface.

(2) Determination of the principal display panel shall exclude the top, bottom, flanges at the top and bottom of a can and shoulder, neck and heel of a bottle and jar.

History: 1954 ACS 75, p. 14, Eff. May 22, 1973.

R 285.551.43 Consumer packages; numbers and letters.

Rule 43. (1) A declaration of quantity shall be in a style of type or lettering as to be boldly, clearly and conspicuously presented with respect to other type, lettering or graphic material on the package except that a declaration of net quantity blown, formed or molded on a glass or plastic surface is permissible when all label information is blown, formed or molded on the surface. Any required information that is in hand lettering or hand script shall be entirely clear and equal to printing in legibility.

(2) The height of a letter or number in the quantity declaration shall be not less than that shown in table 1 with respect to the square inch area of the panel. A number or letter shall be not more than 3 times as high as it is wide. The height of each number of a common fraction shall meet ⅛ the minimum height standards.

TABLE 1

Minimum Height of Numbers and Letters

Square Inch Area of Principal Display Panel	Minimum Height of Numbers & Letters	Minimum Height: Label Information Blown, Formed, or Molded on Surface of Container
5 square inches and less	1/16 inch	⅛ inch
Greater than 5 square inches and not greater than 25 square inches	⅛ inch	3/16 inch
Greater than 25 square inches and not greater than 100 square inches	3/16 inch	¼ inch
Greater than 100 square inches and not greater than 400 square inches	¼ inch	5/16 inch
Greater than 400 square inches	½ inch	9/16 inch

History: 1954 ACS 75, p. 14, Eff. May 22, 1973.

R 285.551.44 Nonconsumer package; English language; legibility.

Rule 44. All information required to appear on a nonconsumer package shall be clearly stated in the English language. Any required information that is either in hand lettering or hand script shall be entirely clear and equal to printing in legibility.

History: 1954 ACS 75, p. 15, Eff. May 22, 1973.

PART 4. SPECIFIC CONSUMER COMMODITIES AND PACKAGES

R 285.551.51 Declarations on packages, cartons, and containers.

Rule 51. (1) For an individual package affixed to a display card or for a commodity and display card together comprising a package, the type size of the quantity declaration is governed by the dimensions of the display card.

(2) When a carton containing 12 eggs has been designed so as to permit division in half by the retail purchaser, the required quantity declaration shall be so positioned as to have its context destroyed when the carton is divided.

(3) The declaration of quantity on an aerosol container and on a similar pressurized package shall disclose the net quantity of the commodity, including propellant, in terms of weight, that will be expelled when the instructions for use as shown on the container are followed.

(4) In the case of a cylindrical or nearly cylindrical container, information required to appear on the principal display panel shall appear within that 40% of the circumference which is most likely to be displayed, presented, shown or examined under customary conditions of display for retail sale.

(5) Nothing in these rules shall be deemed to preclude the continued use of reusable (returnable) glass containers. Glass containers ordered after the effective date of these rules shall conform to all requirements of these rules.

History: 1954 ACS 75, p. 15, Eff. May 22, 1973.

R 285.551.52 Declarations on multi-unit package; combination package; variety package.

Rule 52. (1) A package containing more than 1 individual commodity in package form of the same commodity shall bear on the outside of the package a declaration of:

(a) The number of individual units.

(b) The quantity of each individual unit.

(c) The total quantity of the contents of the multi-unit package.

(2) Any such declaration of total quantity shall not be required to include the parenthetical quantity statement of a dual quantity declaration.

(3) A package containing individual units of dissimilar commodities, for example, an antiquing kit, shall bear on the label of the package a quantity declaration for each unit.

(4) A package containing individual units of reasonably similar commodities; for example, a seasonal gift package or a variety package of cereal shall bear on the label of the package a declaration of the total quantity of commodity in the package.

History: 1954 ACS 75, p. 15, Eff. May 22, 1973.

R 285.551.53 Declarations of quantity on container type commodities.

Rule 53. A declaration of quantity on a container type commodity shall be expressed as follows: Commodities designed and sold at retail to be used as containers for other materials or objects, such as bags, cups, boxes and pans, shall be labeled with a declaration of net quantity as follows:

(i) For a bag type commodity, in terms of count followed by linear dimensions of the bag, whether packaged in a perforated roll or otherwise. When the unit bag is characterized by 2 dimensions because of the absence of a gusset, the width and length will be expressed in inches, except that a dimension of 2 feet or more will be expressed in feet with any remainder in terms of inches or common or decimal fractions of the foot, for example, "25 bags, 17 in x 20 in" or "100 bags, 20 in x 2 ft 6 in" or "50 bags, 20 in x 2½ ft." When the unit bag is gusseted, the dimensions will be expressed as width, depth and length, in terms of inches, except that any dimension of 2 feet or more shall be expressed in feet with any remainder in terms of inches or the common or decimal fractions of the foot, for example, "25 bags, 17 in x 4 in x 20 in" or "100 bags, 20 in x 12 in x 2½ ft."

(ii) For any other square, oblong, rectangular or similarly shaped container, in terms of count followed by length, width and depth, except depth need not be listed when less than 2 inches, for example, "2 cake pans, 8 in x 8 in" or "roasting pan, 12 in x 8 in x 3 in."

(iii) For a circular or other generally round shaped container, in terms of count followed by diameter and depth, except depth need not be listed when less than 2 inches, for example, "4 pie pans, 8 in diameter" or "2 cake pans, 8 in diameter x 4 in."

History: 1954 ACS 75, p. 15, Eff. May 22, 1973.

R 285.551.54 Declaration of function and quantity.

Rule 54. (1) When the functional use of a container is related by label references, in standard terms of measure, to the capability of holding a specific quantity of substance or class of substances, the references shall be a part of the net quantity statement and shall specify capacity as follows:

(a) For a container intended to be used for liquids, semisolids, viscous materials or mixtures of solids and liquids, the expressed capacity of liquid measure shall be stated in terms of the largest whole unit, with a remainder in terms of the common or decimal fraction of that unit, for example, "freezer boxes—4 boxes, 1-qt capacity, 5 in x 4 in x 3 in."

(b) For a container intended to be used for solids, the expressed capacity of dry measure shall be stated in terms of the largest whole unit with a remainder in terms of the common or decimal fraction of that unit, for example, "leaf bags—8 bags, 6-bushel capacity, 3 ft x 5 ft."

(c) For a container used as a liner for another more permanent container, the expressed capacity shall be stated in the same terms normally used to express the capacity of the more permanent container, for example, "garbage can liners—10 liners, 2 ft x 6 in x 3 ft 9 in, fits up to 30-gallon cans."

(2) Notwithstanding the requirements of this rule, the net quantity statement for containers such as cups shall be listed in terms of count and liquid capacity per unit, for example, "24 cups, 6 fl oz capacity." For purposes of this subrule, the use of the terms "capacity," "diameter" and "fluid" is optional.

History: 1954 ACS 75, p. 16, Eff. May 22, 1973.

R 285.551.56 Delivery tickets to accompany truckloads of commodities.

Rule 56. (1) A delivery of any produce, coal, coke, sand, gravel or any other commodity, product, or merchandise sold in bulk form by weight, measure, or count in truckload or partial truckload quantity shall be accompanied by duplicate delivery tickets, which shall clearly state, in ink or other indelible substance, the name and address of the vendor, the name and address of the purchaser, identity of merchandise being delivered and the net quantity of the

delivery. The gross weight and tare weight from which the net weight is computed each shall be expressed in pounds. One of these tickets shall be retained by the vendor and the other shall be delivered to the purchaser at the time of delivery.

(2) This rule does not apply to a delivery where the weight, measure or count is to be determined at the time of delivery. The person determining the weight, measure or count shall furnish to the vendor or to the purchaser a delivery ticket containing the information required by this rule.

(3) This rule does not apply when weight, measure, or count is determined by a governmental unit or agency.

History: 1954 ACS 75, p. 16, Eff. May 22, 1973.

R 285.551.58 Roofing and roofing materials.

Rule 58. Roofing and roofing materials shall be sold either by the "square" or by "square foot." "Square" means the quantity of roofing or roofing material that, when applied according to directions or instructions of the manufacturer, will cover an area of 100 square feet exclusive of side laps or side joints. In case of roofing or roofing material of corrugated design, the side lap or side joint shall be 1 full corrugation. "Square foot" means the quantity of roofing or roofing material that, when applied according to the directions or instructions of the manufacturer, will cover 1 square foot exclusive of side laps or side joints.

History: 1954 ACS 75, p. 17, Eff. May 22, 1973.

PART 5. EXEMPTIONS AND VARIATIONS

R 285.551.61 Wearing apparel.

Rule 61. Wearing apparel, including nontextile apparel and accessories such as leather goods and footwear sold as single-unit items, or if normally sold in pairs, such as hosiery, gloves, and shoes sold as single-unit pairs, are exempt from the requirement for a net quantity statement by count, as required by R 285.551.17.

History: 1954 ACS 75, p. 17, Eff. May 22, 1973.

R 285.551.62 Textiles.

Rule 62. (1) Bedsheets, blankets, pillowcases, comforters, quilts, bedspreads, mattress covers and pads, afghans, throws, dresser and other furniture scarfs, tablecloths and napkins, flags, curtains, drapes, dish towels, dish cloths, towels, face cloths, utility cloths, bath mats, carpets and rugs, pot holders, fixture and appliance covers, nonrectangular diapers, slip covers and other similar items are exempt from the requirement of R 285.551.17, except as provided in this rule.

(2) The quantity statement for a fitted sheet and mattress cover shall state, in inches, the length and width of the mattress for which the item is designed, such as "twin," "double" or "king," for example, "twin fitted sheet for 39 x 75 in mattress."

(3) The quantity statement for a flat sheet shall state the size designation of the mattress for which the sheet is designed, such as "twin," "double" or "king." The quantity statement also shall state, in inches, the length and width of the mattress for which the sheet is designed, followed in parentheses by a statement, in inches, of the length and width of the sheet before hemming, for example, "double flat sheet for 54 x 75 in mattress (81 x 104 in before hemming)."

(4) The quantity statement for a pillowcase shall state the size designation of the pillow for which the pillowcase is designed, such as "youth," "standard" and "queen." The quantity statement also shall state, in inches, the length and width of the pillow for which the pillowcase is designed, followed in parentheses by a

statement, in inches, of the length and width of the pillowcase before hemming, for example, "standard pillowcase for 20 x 26 in pillow (42 x 36 in before hemming)."

(5) The quantity statement for a blanket, comforter, quilt, bedspread, mattress pad, afghan and throw shall state in inches, the length and width of the finished item. The quantity statement also may state the length of any ornamentation and the size designation of the mattress for which the item is designed, such as "twin," "double" or "king."

(6) The quantity statement for a tablecloth and napkin shall state, in inches, the length and width of the finished item. The quantity statement also may state parenthetically, in inches, the length and width of the item before hemming and properly identified as such.

(7) The quantity statement for a curtain, drape, flag and furniture scarf shall state, in inches, the length and width of the finished item. The quantity statement also may state, in inches, the length of any ornamentation, in parentheses.

(8) The quantity statement for a carpet and rug shall state, in feet, with any remainder in common or decimal fractions of the foot or in inches, the length and width of the item. The quantity statement also may state, in inches, the length of any ornamentation, in parentheses.

(9) The quantity statement for a woven dish towel, dish cloth, towel, face cloth, utility cloth or bath mat and the like shall state, in inches, the length and width of the item. The quantity statement for such an item, when knitted, need not state the dimensions.

(10) The quantity statement for textile products such as a pot holder, fixture and appliance cover, nonrectangular diaper or slip cover and the like, shall be stated in terms of count and may include size designations and dimensions.

(11) The quantity statement for other than rectangular textile products identified in subrules (1) to (9) shall state the geometric shape of the product and the dimensions which are customarily used in describing such geometric shape, for example, "oval tablecloth 54 x 42 in" representing the maximum length and width in this case.

(12) The quantity statement for a package of remnants of textile products of assorted sizes, when sold by count, shall be accompanied by the term "irregular dimensions" and the minimum size of such remnants.

(13) The following variations from declared dimensions for textiles are permitted:

(a) For an item with no declared dimension less than 24 inches, a minus variation greater than 3% of the declared dimension and a plus variation greater than 6% of the declared dimension are considered unreasonable.

(b) For an item with a declared dimension less than 24 inches, a minus variation greater than 6% of the declared dimension and a plus variation greater than 12% of the declared dimension are considered unreasonable.

History: 1954 ACS 75, p. 17, Eff. May 22, 1973.

R 285.551.63 Sewing threads, handicraft threads, and yarns.

Rule 63. Sewing and handicraft threads, yarns and industrial threads, including cordage and twine, are exempt from the length measure requirements of subdivision (a) of R 285.551.22. However, the net quantity statement:

(a) For sewing and handicraft thread shall be expressed in terms of yards.

(b) For yarn shall be expressed in terms of weight.

(c) For industrial thread, including cordage and twine, shall be marked to show its net measure in terms of yards or its net weight in terms of avoirdupois pounds or ounces, except that ready-wound bobbins which are not sold separately shall

not be required to be individually marked, but the package containing such bobbins shall be marked to show the number of bobbins contained therein and the net yards of thread on each bobbin.

History: 1954 ACS 75, p. 18, Eff. May 22, 1973.

R 285.551.64 Requirements for exempted packages.

Rule 64. (1) When a consumer commodity or package of consumer commodity is exempted from the requirements of dual quantity declaration, the net quantity declaration required to appear on the package shall be in terms of the largest whole unit, except as provided by R 285.551.52(1)(c).

(2) A random package bearing a label conspicuously declaring the net weight, the price per pound and the total price is exempt from the type size, dual declaration, placement and free area requirements of these rules.

(3) In case of a random package packed at one place for subsequent sale at another place, the price per unit of weight and the total selling price need not appear on the package provided the price per unit of weight and the total selling price appear on the package at the time it is offered or exposed for sale at retail.

(4) The exemptions provided in subrules (2) and (3) shall apply to uniform weight packages of cheese and cheese products labeled in the same manner and by the same type equipment as random packages.

History: 1954 ACS 75, p. 18, Eff. May 22, 1973.

R 285.551.65 Small confections and foods.

Rule 65. (1) Individually wrapped pieces of candy and other confectionery of less than ½ ounce net weight per individual piece are exempt from the labeling requirements of these rules when:

(a) The container in which the confectionery is shipped complies with labeling requirements of these rules.

(b) The confectionery items are sold in bags or boxes and the bags or boxes bear a declaration that meets the requirements of these rules.

(2) Individual serving size packages of food containing less than ½ ounce or less than ½ fluid ounce for use in restaurants, institutions, and passenger carriers and not intended for sale at retail are exempt from the declaration of net quantity of contents required by these rules.

History: 1954 ACS 75, p. 18, Eff. May 22, 1973.

R 285.551.66 Tobacco.

Rule 66. (1) An individual cut, plug or twist of tobacco or individual cigar that is shipped or delivered in a container that complies with the labeling requirements of these rules is exempt from such labeling requirements.

(2) A carton of cigarettes or small cigars containing 10 individual packages of 20, labeled in accordance with requirements of these rules, is exempt from location requirements in R 285.551.41(2), height requirements in R 285.551.43(2), and multi-unit package requirements in R 285.551.52, but the carton shall bear a declaration of the net quantity of the commodity in the package.

History: 1954 ACS 75, p. 19, Eff. May 22, 1973.

R 285.551.67 Packages labeled to federal law specifications.

Rule 67. A package of meat or meat products, poultry or poultry products, tobacco or tobacco products, insecticides, fungicides, rodenticides, alcoholic beverages or seeds is exempt from the requirements of dual quantity declarations

of weight, fluid measure, length and area in R 285.551.23; the location requirements in R 285.551.41; and height requirements in R 285.551.43, when quantity labeling requirements for these products are specified in federal law, so as to follow reasonably sound principles of providing consumer information.

History: 1954 ACS 75, p. 19, Eff. May 22, 1973.

R 285.551.68 Dairy products.

Rule 68. Fluid dairy products, ice cream and frozen desserts:

(a) When packaged in ½ liquid pint and ½ gallon containers, are exempt from the requirements for stating net contents of 8 fluid ounces and 64 fluid ounces, which may be expressed as ½ pint and ½ gallon, respectively.

(b) When packaged in 1 liquid pint, 1 liquid quart and ½ gallon containers, are exempt from the dual net contents declaration requirements of R 285.551.23.

(c) When measured by and packaged in glass or plastic containers of ½ liquid pint, 1 liquid pint, 1 liquid quart, ½ gallon and 1 gallon measure containers as defined in measure container code of national bureau of standards handbook 44 are exempt from the requirement of R 285.551.41 that the declaration of net contents be located in the bottom 30% of the principal display panel. National bureau of standards handbook 44 is a United States department of commerce publication adopted by section 8 of Act No. 283 of the Public Acts of 1964, as amended, being §290.608 of the Michigan Compiled Laws. This publication is for sale by Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (SD Catalog No. C13.11:44/4), price $2.00.

(d) Milk or milk products measured by and packaged in glass or plastic containers of ½ liquid pint, 1 liquid pint, 1 liquid quart, ½ gallon and 1 gallon capacities are exempt from the location requirement in R 285.551.41(2) when other required label information is conspicuously displayed on the cap or outside closure and the required net quantity of contents declaration is conspicuously blown, formed, molded, or permanently applied on or above the shoulder of the container.

History: 1954 ACS 75, p. 19, Eff. May 22, 1973.

R 285.551.69 Fruit juice beverages; imitations; drinking water.

Rule 69. Single strength and less than single strength fruit juice beverages, imitations thereof and drinking water:

(a) Packaged in glass, plastic or fluid milk-type paper containers of 8 or 64 fluid ounce capacity, are exempt from the liquid measurement requirement in R 285.551.18 to the extent that the net contents may be expressed as ½ pint and ½ gallon, respectively.

(b) Packaged in glass, plastic or fluid milk-type paper containers of 1 pint, 1 quart and ½ gallon capacities are exempt from the dual net contents declaration requirements in R 285.551.23.

(c) Packaged in glass or plastic containers of ½ pint, 1 pint, 1 quart, ½ gallon and 1 gallon capacities are exempt from the location requirement in R 285.551.41(2) when other required label information is conspicuously displayed on the cap or outside closure and the required net quantity of contents declaration is conspicuously blown, formed, molded or permanently applied on or above the shoulder of the container.

History: 1954 ACS 75, p. 19, Eff. May 22, 1973.

R 285.551.70 Soft drink bottles and multi-unit packages.

Rule 70. (1) Bottles of soft drinks are exempt from the placement requirements for the declaration of:

(a) Identity, when the declaration appears on the bottle closure.

(b) Quantity, when the declaration is blown, formed or molded on or above the shoulder of the container and when all other information required by these rules appears only on the bottle closure.

(2) Multi-unit packages of soft drinks are exempt from the requirement for a declaration of:

(a) Responsibility (names and addresses) when the declaration appears on the individual units and is not obscured by the multi-unit packaging, or when the outside container bears a statement to the effect that such declaration will be found on the individual units inside.

(b) Identity, when the declaration appears on the individual units and is not obscured by the multi-unit packaging.

History: 1954 ACS 75, p. 19, Eff. May 22, 1973.

R 285.551.71 Butter and margarine.

Rule 71. (1) Butter packaged in 4 ounce, 8 ounce and 1 pound units with continuous label copy wrapping is exempt from the statement of identity requirement in R 285.551.11(2) and the net quantity requirement in R 285.551.41(5) that these declarations appear generally parallel to the base of the package.

(2) Butter packaged in 8 ounce and 1 pound units is exempt from the location requirement in R 285.551.41(2).

(3) Butter packaged in 1 pound units is exempt from the dual quantity declaration requirement in R 285.551.23(1).

(4) Margarine in 1 pound rectangular packages, except for packages containing whipped or soft margarine or packages containing more than 4 sticks, is exempt from net quantity location requirement in R 285.551.41(2) and dual quantity declaration in R 285.551.23(1).

History: 1954 ACS 75, p. 20, Eff. May 22, 1973.

R 285.551.72 Eggs.

Rule 72. A carton containing 12 eggs is exempt from location of net quantity declaration requirement in R 285.551.41(2). When an egg carton is designed to permit division in half, each half is exempt from labeling requirements of these rules if the undivided carton conforms to all such labeling requirements.

History: 1954 ACS 75, p. 20, Eff. May 22, 1973.

R 285.551.73 Flour.

Rule 73. (1) Wheat flour packaged in units of 2, 5, 10, 25, 50, or 100 pounds is exempt from requirements of the location of the net quantity declaration in R 285.551.41(2). Wheat flour packaged in units of 2 pounds is exempt from dual quantity declaration requirement in R 285.551.23.

(2) Corn flour packaged in conventional 5, 10, 25, 50, or 100 pound bags is exempt from the requirements of the location of net quantity declaration in R 285.551.41(2).

History: 1954 ACS 75, p. 20, Eff. May 22, 1973.

R 285.551.74 Small, decorative, and combination packages.

Rule 74. (1) The declaration of quantity need not appear in the bottom 30% of a principal display panel of 5 square inches or less if that declaration satisfies the other requirements of these rules.

(2) The principal display panel of a decorative cosmetic container of the "cartridge," "pill box," "compact" or "pencil" variety and of a decorative cosmetic container with a capacity of ¼ ounce or less, may be a tear-away tag or tape affixed to the decorative container and bearing the mandatory label information as required by these rules.

(3) Combination packages are exempt from the location of the net quantity declaration requirement in R 285.551.41(2), free area requirement in R 285.551.41(4) and the height requirement in R 285.551.43(2).

History: 1954 ACS 75, p. 20, Eff. May 22, 1973.

R 285.551.75 Drugs.

Rule 75. A prescription and an insulin-containing drug subject to the federal food, drug, and cosmetic act are exempt from this regulation.

History: 1954 ACS 75, p. 20, Eff. May 22, 1973.

R 285.551.76 Camera film.

Rule 76. Camera film packaged and labeled for retail sale is exempt from the net quantity statement requirements of this regulation which specify how measurement of commodities should be expressed, in R 285.551.18(d); however:

(a) The net quantity of contents on a package of movie film and bulk still film shall be expressed in terms of the number of lineal feet of usable film contained therein.

(b) The net quantity of contents on packages of still film shall be expressed in terms of the number of exposures the contents will provide. The declaration may also include the length and width measurements of the individual exposures expressed in millimeters or inches, for example, "36 exposures, 36 x 24 mm" or "12 exposures, 2¼ x 2¼ in."

History: 1954 ACS 75, p. 20, Eff. May 22, 1973.

R 285.551.77 Paints.

Rule 77. Paint, varnish, lacquer, thinner, remover, oil, resin, and solvent are exempt from the dual quantity declaration requirement in R 285.551.23(2) when packed in 1 liquid pint and 1 liquid quart units.

History: 1954 ACS 75, p. 21, Eff. May 22, 1973.

R 285.551.78 Motor oils and antifreeze.

Rule 78. (1) Motor oil, when packed in 1 liquid quart units, is exempt from the dual quantity declaration requirement in R 285.551.23(2). Motor oil in 1 liquid quart, 1 gallon, 1¼ gallon, 2 gallon and 2¼ gallon units, bearing the principal display panel on the body of the container, is exempt from the identity requirement in R 285.551.11(1) to the extent that the SAE grade is required to appear on the principal display panel if the SAE grade appears on the can lid and is expressed in letters and numerals in type size of at least ¼ inch.

(2) Antifreeze is exempt from the dual quantity declaration requirement in R 285.551.23(2) when packed in 1 liquid quart units, in metal and plastic containers.

History: 1954 ACS 75, p. 21, Eff. May 22, 1973.

R 285.551.79 Textiles.

Rule 79. Variety packages of textiles which are required by R 285.551.17 to provide a combination declaration stating the quantity of each individual unit are exempt from the location of the net quantity declaration requirement in R 285.551.41(2), the free area requirement in R 285.551.41(4) and the height requirement in R 285.551.43(2).

History: 1954 ACS 75, p. 21, Eff. May 22, 1973.

R 285.551.81 Exemption from sealing or marking of devices.

Rule 81. The following weights and measures are exempt from the sealing and marking requirements of section 14 of Act No. 283 of the Public Acts of 1964, as amended, being §290.614 of the Michigan Compiled Laws:

(a) Measure containers.
(b) Milk bottles.
(c) Lubricating-oil bottles.
(d) Berry baskets and boxes.

History: 1954 ACS 75, p. 21, Eff. May 22, 1973.

R 285.551.83 Packaging variations.

Rule 83. (1) A variation from the declared net weight, measure, or count is permitted when caused by unavoidable deviations in weighing, measuring or counting the contents of individual packages that occur in good packaging practice. A variation is not permitted to the extent that the average of the quantities in the packages of a particular commodity, or a lot of the commodity, that is kept, offered, or exposed for sale or sold, is below the quantity stated; and an unreasonable shortage in any package is not permitted, even though overages in other packages in the same shipment, delivery or lot compensate for the shortage. A variation above the declared quantity shall not be unreasonably large.

(2) A variation from the declared weight or measure is permitted when caused by ordinary and customary exposure to conditions that normally occur in good distribution practice and that unavoidably result in change of weight or measure, but only after the commodity is introduced into intrastate commerce. "Introduced into intrastate commerce" means the time and the place at which the first sale and delivery of a package is made in this state:

(a) Directly to the purchaser or to his agent.

(b) To a common carrier for shipment to the purchaser. So long as a shipment, delivery or lot of packages of a particular commodity remains in possession or under control of the packager or the person who introduces the package into intrastate commerce, exposure variations are not permitted.

(3) The magnitude of a variation permitted under this rule, in case of a shipment, delivery or lot, shall be determined by the facts in the individual case.

R 285.552.1 Definitions.

Rule 1. As used in these rules:

(a) "Soft rot or wet breakdown" means a soft, mushy or leaky condition of the tissue of potatoes such as slimy soft rot, leak or wet breakdown following freezing injury.

(b) "Seriously damaged" means that the removal of sunburn or greening would cause a loss of more than 10% of the total weight of the potato.

History: 1954 ACS 77, p. 11, Eff. Dec. 6, 1973.

R 285.552.2 Labeling; containers; standards.

Rule 2. A person, firm, or corporation packing ungraded potatoes for sale for table use shall package them as follows:

(a) A container shall be labeled "unclassified."

(b) The word "unclassified" shall be in vivid red (NBS color no. 11) letters on a brilliant yellow (NBS color no. 83) background on the top ⅓ of the bag. The national bureau of standards centroid color charts, standard sample no. 2106, will be used for color reference. Color charts are available for viewing at Michigan state university. The lettering shall be in the English language, conspicuous as to style of letters and in contrast to color of background. The yellow background shall extend beyond the lettering, top, bottom, and sides, to a point ½ the size of the letters in the word "unclassified."

(c) The word "unclassified" shall be as large as the largest lettered word on the package and in no case less than 1 inch in height.

(d) Unclassified potatoes shall be packaged in brown paper or clear plastic bags with only the information specified by Act No. 220 of the Public Acts of 1929 for unclassified potatoes appearing on the bag.

(e) A lot designated as unclassified shall contain not more than 2%, by weight, of the potatoes affected by soft rot or wet breakdown.

(f) A lot designated as unclassified shall contain not more than 10%, by weight, of potatoes which are seriously damaged by sunburn or greening.

History: 1954 ACS 77, p. 11, Eff. Dec. 6, 1973.

R 285.552.3 Exemption.

Rule 3. These rules do not apply to a grower or his employees in the sale of potatoes grown by himself when made direct to the consumer.

History: 1954 ACS 77, p. 12, Eff. Dec. 6, 1973.

REGULATION NO. 553. FOOD ESTABLISHMENTS

(By authority conferred on the department of agriculture by section 23 of Act No. 39 of the Public Acts of 1968, being §289.723 of the Michigan Compiled Laws)

R 285.553.1 Definitions.

Rule 1. (1) "Act" means Act No. 39 of the Public Acts of 1968, as amended, being §289.701 et seq. of the Michigan Compiled Laws. Terms defined in the act have the same meanings when used in these rules.

(2) "Establishment" means a place where food is manufactured, handled, stored, prepared, offered for sale, or sold. The term includes bakeries, bottling plants, seasonal and municipal fruit and vegetable markets, grain elevators, farm crop storages, feed mills, frozen food plants, grocery stores, supermarkets, food warehouses, gas stations, and canning and preserving plants.

History: 1954 ACS 85, p. 6, Eff. Sept. 25, 1975.

R 285.553.2 Exemptions.

Rule 2. These rules do not apply to a roadside stand or a stand at or tributary to fairgrounds, circus grounds, carnivals, parks, and resorts when operated for less than 2 weeks during any 12-month period or to a food service establishment subject to Act No. 269 of the Public Acts of 1968, being §§325.801 to 325.813 of the Michigan Compiled Laws.

History: 1954 ACS 85, p. 6, Eff. Sept. 25, 1975.

R 285.553.3 Establishment grounds.

Rule 3. (1) The grounds about an establishment under the control of the operator shall be free from conditions which may result in the contamination of food, including, but not limited to, the following:

(a) Improperly stored equipment, litter, waste, refuse, and uncut weeds or grass within the immediate vicinity of the establishment buildings or structures that may constitute an attractant, breeding place, or harborage for rodents, insects, and other pests.

(b) Excessively dusty roads, yards, or parking lots that may constitute a source of contamination in areas where food is exposed.

(c) Inadequately drained areas that may contribute contamination to food products through seepage or foot-borne filth and by providing a breeding place for insects or micro-organisms.

(2) If the establishment grounds are bordered by grounds not under the operator's control and are of the kind described in subrule (1), the establishment shall exercise care in the plant by inspection, extermination, or other means to effect exclusion of pests, dirt, and other filth that may be a source of food contamination.

History: 1954 ACS 85, p. 6, Eff. Sept. 25, 1975.

R 285.553.4 Establishment construction and design.

Rule 4. Establishment building and structures shall be suitable in size, construction, design, and location of work areas to facilitate maintenance and sanitary operations for storage and food processing. The establishment and facilities shall provide:

(a) Sufficient space for such placement of equipment and storage of materials as is necessary for sanitary operations and production of safe food. Floors, walls, ceilings, bins, elevators, conveyors, and boots in the establishment shall be of such construction as to be cleanable and shall be kept clean and in good repair. Fixtures, ducts, and pipes shall not be suspended over working areas so that drip or condensate may contaminate foods, raw materials, or food contact surfaces. Aisles or working spaces between equipment, and between equipment and walls, shall be unobstructed and of sufficient width to permit employees to perform their duties without contamination of food or food contact surfaces with clothing or personal contact.

(b) Separation by partition, location, or other effective means for those operations, economic poison storage areas, or other material storage areas, which operations, economic poisons, or materials may cause contamination of food products with undesirable micro-organisms, chemicals, filth, or other extraneous material.

(c) Adequate lighting to all areas where food or food ingredients are examined, processed, or stored, and to hand washing areas, dressing, and locker rooms, toilet rooms, and where equipment and utensils are cleaned. Light bulbs, fixtures, skylights, or other glass suspended over exposed food in any step of preparation

shall be of the safety type or otherwise protected to prevent food contamination in case of breakage.

(d) Adequate ventilation or control equipment to minimize odors and noxious fumes, dust or vapors, including steam, in areas where they may contaminate food. Ventilation or control equipment shall not create conditions that may contribute to food contamination by airborne contaminants.

(e) Where necessary, effective screening or other protection against birds, animals, and vermin, including, but not limited to, insects and rodents.

History: 1954 ACS 85, p. 6, Eff. Sept. 25, 1975.

R 285.553.5 Equipment and controls.

Rule 5. (1) All establishment equipment and utensils shall be suitable for their intended use, so designed and of such material and workmanship as to be cleanable and properly maintained.

(2) The design, construction, and use of equipment and utensils shall preclude the adulteration of food with lubricants, fuel, metal fragments, contaminated water, rodents, birds or any other contaminants. All equipment shall be so installed as to be easily cleanable and maintained and located within the production area, thereby eliminating daily product cross contamination and facilitating the cleaning of the equipment and all adjacent spaces.

History: 1954 ACS 85, p. 7, Eff. Sept. 25, 1975.

R 285.553.6 Sanitary facilities and controls.

Rule 6. An establishment shall be equipped with adequate sanitary facilities and accommodations including, but not limited to, those prescribed in R 285.553.7 to R 285.553.12.

History: 1954 ACS 85, p. 7, Eff. Sept. 25, 1975.

R 285.553.7 Water supply.

Rule 7. The water supply shall be sufficient for the operations intended and shall be derived from an approved source. Any water or ice that contacts foods or food contact surfaces shall be safe and of adequate sanitary quality. Hot and cold running water at a suitable temperature and under pressure of at least 30 psi as needed shall be provided in all areas where the processing of food, the cleaning of equipment, utensils, or containers, or employee sanitary facilities require.

History: 1954 ACS 85, p. 7, Eff. Sept. 25, 1975.

R 285.553.8 Sewage disposal.

Rule 8. All sewage and liquid waste shall be disposed of in a public or municipal sewerage system, or, in the absence thereof, in an approved septic tank system or by some other acceptable method which does not create a nuisance, insanitary condition, or public health hazard.

History: 1954 ACS 85, p. 7, Eff. Sept. 25, 1975.

R 285.553.9 Plumbing.

Rule 9. Plumbing shall be of adequate size and design and adequately installed and maintained to:

(a) Carry sufficient quantities of water to required locations throughout the establishment.

(b) Properly convey sewage and liquid waste from the establishment.

(c) Not constitute a source of contamination to foods, food products or ingredients, water supplies, equipment, or utensils, or create an insanitary condition.

(d) Provide adequate floor drainage in all areas where floors are subject to flooding type cleaning or where normal operations release or discharge water or other liquid waste on the floors. The food preparation area shall be provided with adequate floor drainings to accomplish in-place cleanup and sanitizing of food handling equipment.

History: 1954 ACS 85, p. 7, Eff. Sept. 25, 1975.

R 285.553.10 Toilet facilities and rest rooms.

Rule 10. (1) An establishment shall provide its employees with adequate, completely enclosed toilet rooms and conveniently located associated hand washing facilities. Toilet rooms shall be furnished with toilet tissue. The facilities shall be maintained in a sanitary condition and kept in good repair at all times. Doors to toilet rooms shall be self-closing and shall not open directly into areas where food is exposed to airborne contamination. All toilet facilities shall be power vented to outside air. Signs shall be posted directing employees to wash their hands with soap or detergents after using toilet.

(2) Welfare areas provided for storage of street clothing and lunch areas for employees' use shall be located separate from any processing procedural areas to inhibit possible cross-contamination.

History: 1954 ACS 85, p. 7, Eff. Sept. 25, 1975.

R 285.553.11 Hand washing facilities.

Rule 11. Adequate and convenient facilities for hand washing shall be provided. The knee pedal type operation or similar devices are recommended and, where appropriate, hand sanitizing shall be provided at each location in the establishment where good sanitary practices require employees to wash, sanitize, and dry their hands. The facilities shall be furnished with hot and cold or tempered running water, effective hand cleaning and sanitizing preparations, disposable sanitary towel service or suitable drying devices, and easily cleanable waste receptacles.

History: 1954 ACS 85, p. 8, Eff. Sept. 25, 1975.

R 285.553.12 Rubbish and offal disposal.

Rule 12. Rubbish and offal shall be so conveyed, stored, and disposed of as to minimize the development of odor, prevent waste from becoming an attractant and harborage or breeding place for vermin, and prevent contamination of food, food contact surfaces, ground surfaces, and water supplies.

History: 1954 ACS 85, p. 8, Eff. Sept. 25, 1975.

R 285.553.13 General maintenance.

Rule 13. Buildings, fixtures, and other physical facilities of the establishment shall be kept in good repair and shall be maintained in a sanitary condition. Cleaning operations shall be conducted in such a manner as to minimize contamination of food and food contact surfaces. Detergents, sanitizers, and other supplies used in cleaning and sanitizing procedures shall be free of significant microbiological contamination, and shall be safe and effective for their intended use. Only such toxic materials as are required to maintain sanitary conditions, for use in laboratory testing procedures, for establishment and equipment maintenance and operation, or in manufacturing or processing operations shall be used

or stored in an establishment. When these materials are offered for sale, they shall be properly labeled and displayed completely separate and apart from any food or food container.

History: 1954 ACS 85, p. 8, Eff. Sept. 25, 1975.

R 285.553.14 Animals, birds, and vermin control.

Rule 14. Live birds or animals shall not be permitted in an establishment, except that a guide dog accompanying a blind person may be permitted in selling areas, and birds and animals may be permitted in the same building if caged or otherwise restrained and located a safe distance from all food operations as to eliminate the possibility of contamination by any means. Persons employed in the food area of an establishment shall not care for or handle any such birds or animals while on duty. Effective measures shall be taken to exclude pests from the processing and storage areas and to protect against the contamination of foods in or on the premises by animals, birds, and vermin, including, but not limited to, rodents and insects. The use of insecticides or rodenticides is permitted only under such precautions and restrictions as will prevent the contamination of food or packaging materials with illegal residues.

History: 1954 ACS 85, p. 8, Eff. Sept. 25, 1975.

R 285.553.15 Sanitation of equipment and utensils.

Rule 15. (1) All utensils and product contact surfaces of equipment shall be cleaned as frequently as necessary to prevent contamination of food and food products. Nonproduct contact surfaces of equipment used in the operation of food establishments shall be cleaned as frequently as necessary to minimize accumulation of dust, dirt, food particles, and other debris. Single service articles, such as utensils intended for one-time use, paper cups, paper towels, et cetera, shall be stored in appropriate containers and handled, dispensed, used, and disposed of in a manner that prevents contamination of food or food contact surfaces. Where necessary to prevent the introduction of undesirable microbiological organisms into food products, all utensils and product contact surfaces of equipment used in an establishment shall be cleaned and sanitized prior to use and following any interruption during which the utensils and contact surfaces may have become contaminated. Where equipment and utensils are used in a continuous production operation, the contact surfaces shall be cleaned and sanitized on a predetermined schedule using adequate methods for cleaning and sanitizing. Sanitizing agents shall be effective and safe under conditions of use. Any facility, procedure, machine, or device may be acceptable for cleaning and sanitizing equipment and utensils if it is established that the facility, procedure, machine, or device routinely renders equipment and utensils clean and provides adequate sanitizing treatment.

(2) A returnable reuseable glass or plastic bottle shall be washed in a minimum of 3.5% caustic solution at 140 degrees Fahrenheit or above for at least 5 minutes, and shall be properly rinsed to avoid any product contamination before reuse.

(3) Containers made of any materials to be reused for food shall be so constructed as to be cleaned easily and sanitized properly.

(4) New containers or nonreturnable containers shall be clean and free from any foreign material.

History: 1954 ACS 85, p. 8, Eff. Sept. 25, 1975.

R 285.553.16 Storage and handling of cleaned portable equipment and utensils.

Rule 16. Cleaned and sanitized portable equipment and utensils with product contact surfaces shall be stored in such a location and manner that product contact surfaces are protected from splash, dust, and other contamination.

History: 1954 ACS 85, p. 9, Eff. Sept. 25, 1975.

R 285.553.17 Economic poisons and other hazardous substances.

Rule 17. Economic poisons and other hazardous substances and operations which incorporate these materials, and the products so treated, shall be separated by partition, location, or other effective means so as to eliminate the possibility of contamination of food products.

History: 1954 ACS 85, p. 9, Eff. Sept. 25, 1975.

R 285.553.18 Sanitation of operations.

Rule 18. (1) All operations in the receiving, inspecting, transporting, packaging, segregating, preparing, processing, and food storing areas shall be conducted in accordance with good sanitation principles. Overall sanitation of an establishment shall be under the supervision of an individual assigned responsibility for this function. All reasonable precautions shall be taken to assure that production procedures do not contribute contamination, such as filth, harmful chemicals, undesirable micro-organisms, or any other objectionable material, to the processed product.

(2) Raw material and ingredients shall be inspected and segregated as necessary to assure that they are clean, wholesome, and fit for processing into human food, and stored under conditions that protect against contamination and minimize deterioration. Raw materials shall be washed or cleaned as necessary to remove soil or other contamination. Water used for washing, rinsing, or conveying of food products shall be of approved quality and shall not be reused for washing, rinsing, or conveying products in a manner that may result in contamination of food products.

(3) Containers and carriers of raw ingredients shall be inspected on receipt to assure that their condition has not contributed to the contamination or deterioration of the products.

(4) When ice is used in contact with food products, it shall be made from potable water and shall be used only if it has been manufactured in compliance with adequate standards and stored, transported, and handled in a sanitary manner.

(5) Food processing areas and equipment used for processing human food shall not be used to process animal feed or inedible products, unless there is no possibility of contamination of the human food.

(6) Processing equipment shall be maintained in a sanitary condition through frequent cleaning, including sanitization where necessary. Insofar as necessary, equipment shall be taken apart for thorough cleaning.

History: 1954 ACS 85, p. 9, Eff. Sept. 25, 1975.

R 285.553.19 Protection from contamination.

Rule 19. All food processing, packaging, storage, and transporting of food shall be conducted under such conditions and controls as are necessary to minimize the potential for undesirable bacterial or other microbiological growth, toxin formation, or deterioration or contamination of the processed product, ingredients, or containers. This requires careful monitoring of such physical factors as time, temperature, humidity, pressure, and flow-rate, and such pro-

cessing operations as freezing, dehydration, heat processing, and refrigeration to assure that mechanical breakdowns, time delays, temperature fluctuations, and other factors do not contribute to the decomposition or contamination of the processed products.

History: 1954 ACS 85, p. 9, Eff. Sept. 25, 1975.

R 285.553.20 Testing.

Rule 20. Chemical, microbiological, or extraneous material testing procedures shall be utilized where necessary to identify sanitation failures or food contamination, and all foods and ingredients that may have become contaminated shall be rejected or treated or processed to eliminate the contamination where this may be properly accomplished.

History: 1954 ACS 85, p. 10, Eff. Sept. 25, 1975.

R 285.553.21 Packaging.

Rule 21. Packaging processes and materials shall not transmit contaminants or objectionable substances to the products, shall conform to any applicable food additive regulation, and shall provide adequate protection from contamination.

History: 1954 ACS 85, p. 10, Eff. Sept. 25, 1975.

R 285.553.22 Identification codes.

Rule 22. Meaningful coding of products sold or otherwise distributed from a manufacturing, processing, packing, or repacking activity shall be utilized to enable positive lot identification to facilitate, where necessary, the segregation of specific food lots that may have become contaminated or otherwise unfit for their intended use. Records shall be retained for a period of time that exceeds the shelf life of the product, except that they need not be retained more than 2 years.

History: 1954 ACS 85, p. 10, Eff. Sept. 25, 1975.

R 285.553.23 Handling and storage.

Rule 23. All food and drink shall be clean and wholesome, and shall be manufactured, handled, stored, prepared, transported, offered for sale, or sold so as to be safe for human consumption. Potentially hazardous food or drink shall be stored or refrigerated at a temperature of 40 degrees Fahrenheit or below, or 140 degrees Fahrenheit or above, except smoked fish. All cooked, partially cooked, baked, or fried foods shall be kept at 140 degrees Fahrenheit or above, or 40 degrees Fahrenheit or below, and may not be displayed unless such requirements are maintained, except those products which do not, under good commercial practices, require heating or refrigeration. "Potentially hazardous food and drink" means any perishable food or drink which consists of any ingredients capable of supporting rapid and progressive growth of infections or toxigenic microorganisms. All coolers, refrigerators, freezers, barbeques, holding units, and other storage facilities shall be kept clean and sanitary. A reliable thermometer shall be maintained in each of the foregoing units. Spoiled, tainted, or toxic food, drink, or materials, unsafe or unfit for human consumption, shall not be stored or displayed along with food or drink for human consumption. All nonacid or low-acid hermetically sealed foods shall have been processed in a commercial food processing establishment. Frozen foods shall be stored, kept, displayed, or held at a temperature not to exceed 0 degrees Fahrenheit.

R 285.553.24 Personnel disease control.

Rule 24. A person affected by a disease in a communicable form, or while a carrier of such disease, or while affected with boils, sores, infected wounds, or other abnormal sources of microbiological contamination, shall not work in an establishment in any capacity in which there is a reasonable possibility of food or food ingredients becoming contaminated by the person, or of disease being transmitted by the person to other individuals.

History: 1954 ACS 85, p. 10, Eff. Sept. 25, 1975.

R 285.553.25 Personnel cleanliness.

Rule 25. All persons, while working in direct contact with food preparation or food ingredients, or surfaces coming into contact therewith, shall:

(a) Wear clean outer garments, maintain a high degree of personal cleanliness, and conform to hygienic practices while on duty to the extent necessary to prevent contamination of food products.

(b) Wash their hands thoroughly, and sanitize if necessary to prevent contamination, in an adequate hand washing facility before starting work, after each absence from the work station, and at any other time when the hands may have become soiled or contaminated.

(c) Remove from hands any jewelry that cannot be adequately sanitized and all insecure jewelry during periods where food is manipulated by hand.

(d) If gloves are used in food handling, maintain them in an intact, clean, and sanitary condition. Gloves shall be of an impermeable material, except where their usage would be inappropriate or incompatible with the work involved.

(e) Wear effective hair nets, headbands, or caps to constrain the hair properly.

(f) Not store clothing or other personal belongings, eat food or drink beverages, or use tobacco in any form in areas where food or food ingredients are exposed, or in areas used for washing equipment or utensils.

(g) Take any other necessary precautions to prevent contamination of foods with micro-organisms or foreign substances, including, but not limited to, perspiration, hair, cosmetics, tobacco, chemicals, and medicants.

History: 1954 ACS 85, p. 10, Eff. Sept. 25, 1975.

R 285.553.26 Rescission.

Rule 26. Regulation No. 533, being R 285.533 of the Michigan Administrative Code and appearing on pages 2817 to 2821 of the 1963 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 85, p. 11, Eff. Sept. 25, 1975.

REGULATION NO. 554. LAST DAY OF SALE

(By authority conferred on the department of agriculture by section 23 of Act No. 39 of the Public Acts of 1968, as amended, being §289.723 of the Michigan Compiled Laws)

R 285.554.1 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 39 of the Public Acts of 1968, as amended, being §289.701 et seq. of the Michigan Compiled Laws.

(b) "Date" means the recommended last day of sale.

(c) "Perishable food" means any food in package form which the manufacturer, packer, or retailer, in conjunction with the department, determines as

having a significant risk of spoilage, loss of value, or loss of palatability within 90 days of the date of packaging.

(d) "Prepackaged" means packaged prior to being displayed or offered for sale.

(2) Terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 93, p. 19, Eff. Sept. 23, 1977.

R 285.554.2 Exemptions.

Rule 2. (1) These rules do not apply to an individually packaged food item that is a component of a larger food item if the larger food item is identified with a date the same as or earlier than the date of that component.

(2) Perishable foods packaged under, and in compliance with, federal laws and regulations, if providing information equal to or greater than the information required by these rules, are exempt from the labeling requirements of these rules.

(3) Smoked fish under R 285.541.1 et seq. are exempt from these rules.

History: 1954 ACS 93, p. 19, Eff. Sept. 23, 1977.

R 285.554.3 Determination of date; factors; records; examination.

Rule 3. (1) A manufacturer, processor, packer, repacker, retailer, or other person who prepackages perishable food shall determine a date which allows a reasonable period after sale for consumption of the food without physical spoilage. This determination shall take into consideration the food quality and characteristics, packaging and other protective wrapping, coating or container, customary transportation and storage conditions, and usual retail storage and display conditions. The temperature and humidity of storage and display areas for perishable food, at all stages prior to retail sale, shall also be factors in determining the date.

(2) The determination of a reasonable period for consumption shall be based upon refrigeration temperatures of not more than 40 degrees Fahrenheit (4.4 degrees Celsius) or, if frozen, not more than 0 degrees Fahrenheit (-17.8 degrees Celsius), and upon other customary protective measures taken for that type of food after retail sale.

(3) A retailer who purchases prepackaged perishable food may, upon written agreement with the person prepackaging such food, determine, identify, and be responsible for the date placed on, or attached to, each package of such food.

(4) The person responsible for establishing the date for perishable food shall keep a record of the method of determination of that date. Such record shall be retained for not less than 6 months after the manufacturing period of the perishable food, and records shall be available during normal business hours for examination, upon request, by the state department of agriculture.

History: 1954 ACS 93, p. 19, Eff. Sept. 23, 1977.

R 285.554.4 Date designation and placement; exception.

Rule 4. (1) A person described in R 285.554.3(1) or (3) shall place on, or attach to, each package of regulated perishable food a date by the month and day. However, bakery products, with a shelf life of not more than 7 days, may be dated with the day of the week representing the last day of sale.

(2) The date may be displayed with or without explanatory terms. If explanatory terms are used, such terms shall be limited to 1 of the following: "Sell by _____," "Sell before _____," "Last date of sale _____," "Recommended last date of sale _____," or "Recommended sale date _____." Other meaningful terms may be used if specifically approved by the department.

(3) The date shall be designated by the first 3 letters of the month, followed by a numeral indicating the calendar day, or shall be designated by the calendar month represented numerically, followed by a numeral designating the calendar day. Such designations shall be separated by a period, slash, dash, or spacing. For example, September 9 shall be expressed as "SEP.09" or "9.09"; "Sep./09" or "9/09"; "Sep.—09" or "9—09"; or "Sep. 09" or "9 09." When a numeral designating a day numbered less than 10 is used, the number shall include a zero as the first digit; for example, 01 or 03.

(4) The date may include the year following the day if such year is expressed as a 2 or 4 digit number, separated as described in subrule (3).

(5) The date shall be printed, stamped, embossed, perforated, or otherwise shown on the package, label on the package, or tag attached to the package in a manner that is easily readable, and separated from other information, graphics, or lettering so as to be clearly visible to a prospective purchaser. The date shall not be superimposed on other required information or obscured by other information, pricing, or graphics. Regardless of the type size used, the date shall be easily readable.

History: 1954 ACS 93, p. 20, Eff. Sept. 23, 1977.

R 285.554.5 Sale after date; advertisement.

Rule 5. (1) Perishable foods shall not be offered for sale after the date unless such food is advertised to a prospective purchaser in a conspicuous manner as being offered for sale after the recommended last day of sale. The placement of a sign, sticker, or tag used for such advertising is acceptable if it is easily readable and clearly identifies the perishable food as having passed the recommended last day of sale.

(2) The retail or final seller is responsible for the proper advertisement of perishable food sold after the date.

History: 1954 ACS 93, p. 20, Eff. Sept. 23, 1977.

REGULATION NO. 555. ITEM PRICING

(By authority conferred on the director of agriculture by section 2 of Act No. 449 of the Public Acts of 1976, being §445.352 of the Michigan Compiled Laws)

R 285.555.1 Definitions.

Rule 1. (1) "Act" means Act No. 449 of the Public Acts of 1976, being §445.351 et seq. of the Michigan Compiled Laws.

(2) "Brand" as used in section 3 of the act means a product or products specifically assigned a characteristic identification by a particular seller or manufacturer, such as a trademark.

(3) "Conspicuous place in the retail store" as used in section 3 of the act means a location in which the greatest customer traffic normally occurs.

(4) "Motor vehicle parts" as used in section 3 of the act means those components of motor vehicles necessary to meet specifications of the manufacturer, but does not include expendable additives necessary for its operation, such as motor oil, transmission fluid, and gasoline.

(5) "Pattern" as used in section 1 of the act means a specific form or model.

(6) "Style" as used in section 1 of the act means any of several characteristics which are similar in shape, use, variety, or type, or meet a common identification standard.

(7) "Unpackaged food item" as used in section 3 of the act means any food item with or without a protective covering, which is not required to be labeled with a price prior to being offered for sale.

History: 1954 ACS 96, p. 65, Eff. Aug. 19, 1978.

R 285.555.2 Reduced price items.

Rule 2. (1) The retail sale of an item with a reduced total price, without the actual reduced price stamped upon or affixed to the item, is permitted if any of the following apply:

(a) The item is exempt under section 3(2) of Act No. 449 of the Public Acts of 1976.

(b) The item is part of 25 classes of items or individual items which are described in section 3(3), (4), and (5) of Act No. 449 of the Public Acts of 1976.

(c) The item is individually marked with the usual price, according to section 3(1) of Act No. 449 of the Public Acts of 1976, which is greater than the actual total price charged.

(2) The reduced price may be indicated by placards or other advertisements and the reduction of price may be expressed by percentage of reduction, total price reduction, or total price.

PLANT INDUSTRY DIVISION

REGULATION NO. 600. CHERRY PESTS

(By authority of Act No. 86 of the Public Acts of 1929, being §286.81 et seq. of the Michigan Compiled Laws)

R 285.600.1 Protection of cherry industry; control of cherry fruit flies and other cherry pests.

Rule 1. (1) The owner or person having charge of cherry trees or cherry orchards shall immediately following the emergence of the cherry fly in the locality in which his trees or orchards are located, cause the same to be sprayed according to the recommendations set forth in the most recent issue of the Michigan state college spraying calendar being extension bulletin no. 154 revised.

(2) When cherry trees are found to be infested with cherry fruit flies the property owner or his authorized agent must without delay proceed to control the infestation by 1 of the following methods:

(a) Pick the fruit from the infested trees and completely destroy same by burning in the presence of an authorized employee of the department.

(b) Pick the fruit and bury same 2 feet below the surface of the ground after covering with quick lime in the presence of an authorized employee of this department.

(c) Thoroughly spray infested trees with a solution of 2 pounds of 15% parathion under the supervision of an authorized employee of this department. Canning factories or any person or persons into whose possession infested cherries may come, are charged with and will be held responsible for the disposition of cherries containing cherry fruit fly maggots in the manner and form as above described.

(3) It is declared to be illegal for any person or persons operating any car, vessel, boat, truck, automobile, aircraft, wagon or other vehicle, to transport from 1 point to another within the state, cherries infested with the cherry fruit fly in any

living stage of its development, and it is further declared to be illegal for any canning factory, dealer, or other person to receive for canning or to can, or to have in possession with intent to can or sell, cherries infested with the cherry fruit fly.

History: 1944 AC, p. 24; 1944 ACS 34, p. 8; 1954 AC, p. 1551.

REGULATION NO. 601. RASPBERRY INSPECTION AND CERTIFICATION

(By authority of Act No. 189 of the Public Acts of 1931, being §286.201 et seq. of the Michigan Compiled Laws)

R 285.601.1 Raspberry plant inspection and certification.

Rule 1. (1) For intrastate movement: Orange rust and all diseases of the virus type are designated injurious systemic diseases, and the presence of any of them constitutes "infection" within the meaning of this rule. Raspberry inspection certificates showing that raspberry plants have been inspected twice during the previous growing season will be issued only:

(a) After plantings have been inspected and rogued twice during the previous summer with an interval of at least 30 days between inspections and not more than 2% of the plants have been found infected on the first inspection and not more than 1% on second inspection. Each block of plants will be considered separately in determining eligibility for certification.

(b) When all visibly infected plants have been eradicated and removed from the plantation at once by the owner to the satisfaction of the inspector.

(c) When each bundle, bale, box, or carload lot shall have attached to it a copy of a special certificate issued by the commissioner of agriculture which will show that the plants in the bundle, bale, box, or carload lot have been inspected and conform to the requirements of this rule. The department of agriculture reserves the right to return to the point of origin any raspberry plants apprehended in the state of Michigan without such a certificate.

(d) In order to control and eradicate above mentioned diseases and others affecting the raspberry, it is desirable that insofar as possible all raspberry plantations, regardless of the extent of area or whether or not the plants are to be sold, shipped, or transported, should have 2 inspections each season. The cooperation of all nurserymen and fruit growers is solicited.

(e) Whenever infected plants are known to exist, they shall be promptly destroyed without awaiting visit of the inspector. Raspberry plantations which have become unprofitable, owing to the presence of these or other diseases, neglect, or other causes, shall be promptly and carefully destroyed for the protection of the owner and his neighbors.

(2) For interstate movement: It has been determined by the department of agriculture that injurious systemic diseases of raspberry plants existing in other states constitute dangerous plant disease infections with reference to which the secretary of agriculture of the United States has not established a federal quarantine; therefore, under the authority conferred by the statutes of this state, the department orders that no raspberry plants shall be imported into the state of Michigan:

(a) Unless they have been inspected by an official state inspector of the state in which they were grown in conformity with rules substantially similar to those stated above for intrastate movement.

(b) Unless each bundle, bale, box, or carload lot shall have attached to it a copy of a special certificate from the said official inspector which will show that the plants in the bundle, bale, box, or carload lot have been inspected and do conform to the requirements of this rule. The department of agriculture reserves the right

REGULATION NO. 602. NURSERY STOCK LICENSES

R 285.602 Rescinded.

History: 1954 AC, p. 1553; rescinded 1954 ACS 69, p. 35, Eff. Oct. 4, 1971.

REGULATION NO. 605. DISPOSAL OF CHRISTMAS TREES

(By authority of Act No. 124 of the Public Acts of 1933, as amended, being §320.401 et seq. of the Michigan Compiled Laws)

R 285.605.1 Removal and disposal of Christmas trees, evergreen boughs, and other articles seized for failure to comply with law.

Rule 1. It is hereby directed that all Christmas trees, evergreen boughs, and other articles that shall be seized by reason of failure to comply with Act No. 124 of the Public Acts of 1933, as amended by Act No. 332 of the Public Acts of 1941, may be disposed of by gift to any recognized charitable institution of the state of Michigan, or destroyed as circumstances may dictate to the officer seizing such property.

History: 1944 AC, p. 28; 1954 AC, p. 1553.

REGULATION NO. 606. BLUEBERRY REGULATION

(By authority of section 23 of Act No. 189 of the Public Acts of 1931, as amended, being §286.223 of the Michigan Compiled Laws)

R 285.606.1 Blueberry nursery stock.

Rule 1. (1) Blueberry nursery stock offered for sale, sold, shipped, or otherwise transported into or within this state must be propagated from scionwood obtained from plants inspected and certified to be apparently free from "stunt" and other contagious plant diseases, provided such nursery stock and scionwood source plants shall be isolated more than 300 feet from uncertified plants.

(2) Fields of blueberry nursery stock and scionwood source plants to be certified must be inspected at least once during each growing season and must not contain more than a total of 1% "stunt" plants or plants otherwise infected with systemic plant diseases.

(3) When making inspections of blueberry nursery stock or scionwood source fields, plant industry division inspectors shall place a conspicuous distinguishing mark on each plant infected with "stunt" or other systemic diseases. Plants so marked must be removed from the ground by the grower within 10 days.

(4) Blueberry plants, scionwood, or cuttings shipped or transported into or within the state of Michigan must be accompanied by a valid certificate of inspection setting forth the fact that the plants, scionwood, or cuttings have been inspected and certified in accordance with the provisions of this rule.

History: 1944 ACS 28, p. 5; 1954 AC, p. 1553; 1954 ACS 23, p. 7, Eff. Aug. 12, 1960.

REGULATION NO. 607. TOMATO SEED CERTIFICATION

(By authority of section 22 of Act No. 189 of the Public Acts of 1931, as amended, being §286.222 of the Michigan Compiled Laws)

R 285.607.1 Tomato seed certification.

Rule 1. (1) Any producer of tomato seed in Michigan may secure inspection of the seed he produces provided he files proper application and complies with the requirements and regulations established for inspected and certified seed.

(2) Application in writing, on a prescribed form, for inspection must be made to the plant industry division prior to July 15 of each year.

(3) The applicant must agree to keep accurate records on his methods of production, and the amount of inspected and certified seed produced, and the names and addresses of the individual firms or companies to whom inspected and certified seed was sold, including the amount used by the producer, which are open to the Michigan department of agriculture.

(4) Payment of all charges for inspection shall be made to the Michigan department of agriculture, plant industry division. A charge of not more than $2.50 per acre or fraction thereof shall be made for each field inspection.

(5) Inspection:

(a) An inspection shall be made before first harvest. This will include an inspection of the fields and also of the extraction plant and the provisions made for the proper extraction, treatment, and handling of the seed. All diseased and weak or off-type plants observed in fields will be rogued out by the inspector at time of inspection.

(b) A second inspection may be made approximately 3 weeks after the first inspection at the option of the department.

(6) Standards for inspection. A field to be eligible for certification must be isolated by at least 30 feet or separated by an interplanting of another crop or by a permanent physical barrier such as a fence or drainage ditch from fields of any other variety or from fields of the same variety that do not comply with certification standards.

(a) Each field submitted for certification shall be considered as a separate unit.

(b) Not more than 1% of varietal mixture shall be tolerated.

(c) Fields shall not be accepted for certification in which over 1/10 of 1% of bacterial canker or 1/10 of 1% of bacterial spot are found at the time of inspection.

(d) Fields containing more than 1% of plants affected with Fusarium wilt at the time of inspection shall not be accepted for certification.

(e) Fields to be eligible for certification must at all times be reasonably free from any other seedborne diseases which cannot be effectively controlled by surface disinfection of the seed.

(f) A field must be disqualified at any time for any disease, insect, or other condition which in the judgment of the inspector may be of sufficient importance to disqualify it.

(g) All portable grinders which are used to prepare tomatoes for fermentation shall be thoroughly cleaned to avoid varietal mixtures.

(h) Seed shall not be certified unless fermented in its own juice for a suitable length of time or treated with acetic acid according to the methods approved by the Michigan department of agriculture.

(i) Fields shall not be accepted for inspection if they are neglected and so weedy or otherwise in such condition that a satisfactory inspection cannot be made.

(7) Official certificates and seals must be secured from the Michigan department of agriculture, plant industry division, and must be affixed to each container of certified seed offered for sale, sold, or shipped. Certificates and seals may be affixed to containers of certified seed by the grower only after permission to do so has been granted by the Michigan department of agriculture, plant industry division.

REGULATION NO. 608. WHITE PINE BLISTER RUST

R 285.608 Rescinded.

History: 1944 ACS 5, p. 5; 1954 AC, p. 1554; rescinded 1954 ACS 56, p. 6, Eff. Nov. 14, 1968.

REGULATION NO. 609. STRAWBERRY PLANTS

(By authority of Act No. 189 of the Public Acts of 1931, as amended, being §286.201 et seq. of the Michigan Compiled Laws)

R 285.609.1 Strawberry plant inspection and certification.

Rule 1. (1) Strawberry plants shall be considered eligible for inspection and certification provided the plants are taken from plantings that are:

(a) First year plantings.

(b) Well cultivated and maintained essentially free of weeds and grasses.

(c) Generally thrifty. Very thin plant stands may be disqualified.

(d) Planted on soil that has not been exposed to the Red Stele disease within the past 15 years.

(e) Maintained apparently free of insect pests, plant diseases and parasitic nematodes and within the standards established by this rule.

(2) The following combination of inspections shall be required as a prerequisite to certification:

(a) One or more inspections of the plants made on or about blossoming time or at such season of the year when soil temperature and moisture and growing conditions are proper for expression of the symptoms of the Red Stele disease caused by the fungus Phytophthora fragaria.

(b) One or more inspections made during the late summer or fall seasons for other insect pests, plant diseases, and nematodes.

(3) Certified plants must be apparently free of insect pests, plant diseases, and parasitic nematodes, and must originate from plantings in which the number of plants infested with certain pests do not exceed the tolerances herein provided:

(a) Red Stele—zero.

(b) Crimp (Foliar nematode disease)—zero.

(c) Root knot nematode—zero, provided that plantings not generally infested at the time of field inspection may be restricted at the discretion of the director subject to inspection at the grower's request and his expense, after the plants have been dug and graded.

(d) June yellows (Blakemore yellows)—1% provided visibly affected plants are rogued.

(e) Crinkle and virus yellows—zero.

(f) Aster yellows and witches broom—1%, provided infected plants are rogued.

(4) Only those strawberry plants that meet the foregoing certification requirements and have been produced in accordance with the following standards shall be certified to be "disease free" or "virus free" or "produced from 'virus free' stock" or "registered" or "foundation stock" or any other term or terms that may be so construed, and the use of any such terms in labeling, advertising or selling strawberry plants shall be restricted to plants so classified by the legally constituted plant regulatory official of the state of origin, provided that strawberry plant foundation stock utilized in Michigan shall mean plants determined to be free of known harmful virus diseases by the Michigan department of agriculture:

(a) Foundation stock approved by the plant regulatory official must be planted on a site approved by such official and shall be at all times isolated by at least

1,500 feet from other strawberry plants, either domesticated or wild, provided that enclosure of the planting site with an approved insect-proof screenhouse shall nullify the isolation requirement.

(b) The planting site shall not have been cropped in potatoes, tomatoes, or other solanaceous plants within the preceding 5 years.

(c) The soil of the planting site must be fumigated for the eradication of parasitic nematodes prior to planting.

(d) Fragaria vesca indicator plants must be planted in a border row around the planting or interplanted in a manner approved by the plant regulatory official.

(e) Insect vectors of viruses and other insect pests shall be controlled by the application of insecticide at prescribed intervals, using such formulations and quantities of materials as shall be approved by the plant regulatory official.

(f) Propagation of plants for special certification may continue from foundation stock for a maximum period of 2 years, provided that virus-infected plants are not found at the planting site.

(5) The requirements set forth within the provisions of subrules (1), (2), and (3) of this rule shall constitute the minimum for the certification of strawberry plants shipped or carried into or within Michigan, and plants so certified, shipped, or carried must be accompanied by a valid certificate of inspection issued by the legally constituted certifying agency of the state of origin.

REGULATION NO. 610. INSPECTION FEES

(By authority conferred on the commission of agriculture by sections 6, 21, and 22 of Act No. 189 of the Public Acts of 1931, as amended, and by section 178 of Act No. 380 of the Public Acts of 1965, being §§286.206, 286.221, 286.222, and 16.278 of the Michigan Compiled Laws)

R 285.610.1 Nursery stock, corm, and tuber inspection; fees.

Rule 1. Fees for field inspection of nursery stock as defined in section 2(d) of Act No. 189 of the Public Acts of 1931, as amended, being §286.202 of the Michigan Compiled Laws, and corms and tubers, except as hereinafter provided, shall be assessed at the rate of $9.00 for the first acre and $4.00 per acre for each additional acre, computed to the nearest whole acre. Fees for additional inspections required for certification in the same year shall be assessed at the rate of $4.00 per acre, computed to the nearest whole acre.

History: 1944 AC, p. 27; 1944 ACS 9, p. 31; 1944 ACS 29, p. 7; 1954 AC, p. 1556; 1954 ACS 15, p. 5, Eff. Aug. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 58, p. 18, Eff. May 15, 1969; 1954 ACS 85, p. 11, Eff. Dec. 10, 1975.

R 285.610.2 Native tree and plant inspection; fees.

Rule 2. Fees for inspection of native trees and plants shall be assessed at the rate of $8.00 per man-hour, computed to the nearest half hour. The minimum fee shall be $8.00. Fees for plant inspection other than nursery stock, where a charge by the acre is appropriate, shall be assessed at the rate of $9.00 for the first acre and $4.00 per acre for each additional acre, computed to the nearest whole acre.

History: 1944 AC, p. 27; 1944 ACS 9, p. 31; 1944 ACS 29, p. 7; 1954 AC, p. 1556; 1954 ACS 15, p. 5, Eff. Aug. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 58, p. 18, Eff. May 15, 1969; 1954 ACS 85, p. 11, Eff. Dec. 10, 1975.

R 285.610.3 Store shelf, heeling-in-grounds, warehouse, import, export, and other special inspections; fees.

Rule 3. Fees for store shelf, heeling-in-grounds, warehouse, import, export, and other special inspections shall be assessed at the rate of $8.00 per man-hour, computed to the nearest half hour.

History: 1944 AC, p. 27; 1944 ACS 9, p. 31; 1944 ACS 29, p. 7; 1954 AC, p. 1556; 1954 ACS 15, p. 5, Eff. Aug. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 58, p. 18, Eff. May 15, 1969; 1954 ACS 85, p. 11, Eff. Dec. 10, 1975.

REGULATION NO. 611. GLADIOLUS INSPECTION AND CERTIFICATION

(By authority conferred on the commission of agriculture by section 22 of Act No. 189 of the Public Acts of 1931, as amended, and section 178 of Act No. 380 of the Public Acts of 1965, being §§16.278 and 286.222 of the Michigan Compiled Laws)

R 285.611.1 Application for inspection.

Rule 1. A request for inspection and certification shall be made in writing to the plant industry division, on or before April 1 of the year in which the inspection services are to be performed.

History: 1944 ACS 10, p. 5; 1954 AC, p. 1557; 1954 ACS 3, p. 6, Eff. Aug. 15, 1955; 1954 ACS 16, p. 5, Eff. Nov. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 72, p. 7, Eff. Sept. 15, 1972.

Editor's note: Regulation No. 611, being former R 285.611 of the Michigan Administrative Code, was amended by 1954 ACS 72, p. 7, to appear as R 285.611.1 to R 285.611.8. For text and history of former R 285.611, see 1963 AACS, p. 2826.

R 285.611.2 Inspections required.

Rule 2. The following inspections are required for certification:

(a) One or more field inspections, 1 of which shall be made at or near blossoming time.

(b) One or more warehouse inspections after the corms are cleaned and cured.

History: 1944 ACS 10, p. 5; 1954 AC, p. 1557; 1954 ACS 3, p. 6, Eff. Aug. 15, 1955; 1954 ACS 16, p. 5, Eff. Nov. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 72, p. 7, Eff. Sept. 15, 1972.

R 285.611.3 Eligibility.

Rule 3. Gladiolus corms are eligible for inspection if:

(a) Grown in well cultivated plantings maintained essentially free of weeds and grasses.

(b) Identified in the field as to variety either by name stakes or similar device or by a planting chart made available to the inspector at the time of field inspection. Similar identification of varieties shall be available at the time of storage inspection. An intermixture of several varieties may be represented as "mixed."

(c) Free of the old roots and mother corms and cured so the husk is dry and moisture is not visible on the surface of the corm. Corms dug for early shipment and not thoroughly cured may be inspected and given the limited certification hereinafter provided.

(d) Of varieties approved by field inspection prior to submission for storage inspection.

History: 1944 ACS 10, p. 5; 1954 AC, p. 1557; 1954 ACS 3, p. 6, Eff. Aug. 15, 1955; 1954 ACS 16, p. 5, Eff. Nov. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 72, p. 7, Eff. Sept. 15, 1972.

R 285.611.4 Inspection procedure.

Rule 4. Field inspections shall be made of all plants of the varieties submitted for inspection. Not less than 10% of the corms of a variety submitted for storage inspection shall be examined.

History: 1944 ACS 10, p. 5; 1954 AC, p. 1557, 1954 ACS 3, p. 6, Eff. Aug. 15 1955; 1954 ACS 16, p. 5, Eff. Nov. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 72, p. 7, Eff. Sept. 15, 1972.

R 285.611.5 Field inspection standards.

Rule 5. (1) An aggregate tolerance of 1% shall be allowed per variety for diseases such as, but not limited to, white break mosaic and aster yellows or other virus diseases that seriously affect the true color, shape or size of the bloom or leaves or the vigor of the plant. The infected plants of a variety within the tolerance shall be rogued at the time of field inspection.

(2) A tolerance of 5% each shall be allowed per variety for bacterial blight and stemphyllium. A tolerance of 2% shall be allowed per variety for fusarium yellows.

History: 1944 ACS 10, p. 5, 1954 AC, p. 1557; 1954 ACS 3, p. 6, Eff. Aug. 15, 1955; 1954 ACS 16, p. 5, Eff. Nov. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 72, p. 7, Eff. Sept. 15, 1972.

R 285.611.6 Storage inspection standards.

Rule 6. (1) Only those varieties approved by 1 or more field inspections are eligible for storage inspection.

(2) A tolerance of 2% each shall be allowed per variety for sclerotinia, curvularia, fusarium, septoria and penicillium. A tolerance of 5% shall be allowed per variety for bacterial scab. A variety diseased in excess of these tolerances but not in excess of an aggregate of 10% may be resubmitted for a second storage inspection, the results of which shall be final. For certification an aggregate percentage of 8% shall be allowed for these diseases if the percentage of any one disease does not exceed the tolerances established herein and not more than 3% of the corms are infected with diseases other than bacterial scab.

(3) Corms infested with thrips shall not be certified but may be treated and resubmitted for inspection and certification.

History: 1944 ACS 10, p. 5; 1954 AC, p. 1557; 1954 ACS 3, p. 6, Eff. Aug. 15, 1955; 1954 ACS 16, p. 5, Eff. Nov. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 72, p. 7, Eff. Sept. 15, 1972.

R 285.611.7 Inspection certificate; use.

Rule 7. The inspection certificate shall be used in the sale or shipment of corms inspected and certified and not diseased in excess of the tolerances provided for certification. A certificate for corms not thoroughly cured, as provided in R 285.611.3(c) shall be used only where the corms have been inspected and certified within 30 days of sale or shipment. The corms may be resubmitted for storage inspection if not sold or shipped within the 30-day period.

History: 1944 ACS 10, p. 5; 1954 AC, p. 1557; 1954 ACS 3, p. 6, Eff. Aug. 15, 1955; 1954 ACS 16, p. 5, Eff. Nov. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 72, p. 8, Eff. Sept. 15, 1972.

R 285.611.8 Seizure of diseased corms.

Rule 8. Corms showing a percentage of disease of more than the foregoing tolerances and offered for sale may be seized, ordered resorted or returned to the grower, at the discretion of an official inspector of the plant industry division.

History: 1944 ACS 10, p. 5; 1954 AC, p. 1557; 1954 ACS 3, p. 6, Eff. Aug. 15, 1955; 1954 ACS 16, p. 5, Eff. Nov. 14, 1958; 1954 ACS 37, p. 9, Eff. Feb. 14, 1964; 1954 ACS 72, p. 8, Eff. Sept. 15, 1972.

REGULATION NO. 612. YELLOW RED VIROSIS

(By authority of Act No. 72 of the Public Acts of 1945, being §286.251 et seq. of the Michigan Compiled Laws)

R 285.612.1 Chokecherries declared public nuisance.

Rule 1. (1) In order to prevent the further introduction and spread of peach "X" disease (yellow red virosis) a serious contagious virus disease of chokecherries (Prunus virginiana) and peach and cherry trees, it is hereby necessary to order and declare chokecherries (Prunus virginiana) to be a public nuisance. Planting, possessing, growing, propagating, selling, or offering for sale plants, roots, or cuttings of chokecherries within distances of 500 feet of peach or cherry orchards and 1,000 feet of peach or cherry nursery stock is hereby prohibited, and any such plants now growing within the said distances must be eradicated.

(2) Any roots, cuttings, or plants now planted or growing within the said distances of peach or cherry orchards and peach or cherry nursery stock may be ordered destroyed by the director of agriculture or his inspectors.

History: 1944 ACS 22, p. 5; 1954 AC, p. 1558.

REGULATION NO. 613. DUTCH ELM DISEASE

(By authority conferred on the commission of agriculture by section 6 of Act No. 72 of the Public Acts of 1945, section 1 of Act No. 13 of the Public Acts of 1921, as amended, and section 178 of Act No. 380 of the Public Acts of 1965, being §§286.256, 285.1, and 16.278 of the Michigan Compiled Laws)

R 285.613.1 Definition of control area.

Rule 1. "Control area," as used in these rules, means an area in the state in which a political subdivision of the state or an organization representing a majority of the resident property owners in an unincorporated subdivision or like area is conducting a program for the control of the Dutch elm disease consisting of both sanitation and spraying for vector control in accordance with the recommendations of the Michigan agricultural experiment station.

History: 1944 ACS 26, p. 6; 1944 ACS 34, p. 9; 1954 AC, p. 1558; 1954 ACS 31, p. 12, Eff. Aug. 14, 1962; 1954 ACS 63, p. 13, Eff. Aug. 14, 1970.

R 285.613.2 Infected trees.

Rule 2. (1) Trees of all species and varieties of Ulmus, Zelkova and Planera infected with the fungus Ceratocystis ulmi in control areas are declared to be a public nuisance and all above ground portions shall be destroyed by burning or by burying under a minimum of 2 feet of earth within 10 days after discovery of such infection.

(2) It is unlawful to possess, sell, give away or transport into or within a control area all or any parts of trees infected with such fungus, except that wood, branches and roots of such trees may be transported to a safe place for burning or burial.

History: 1944 ACS 26, p. 6; 1944 ACS 34, p. 9; 1954 AC, p. 1558; 1954 ACS 31, p. 12, Eff. Aug. 14, 1962; 1954 ACS 63, p. 13, Eff. Aug. 14, 1970.

R 285.613.3 Dead and dying trees as breeding places.

Rule 3. Trees, or parts thereof with bark attached, of Ulmus, Zelkova or Planera in a dead or dying condition that may serve as breeding places for the small European elm bark beetle (Scolytus multistriatus) or the native elm bark beetle (Hylurgopinus rufipes) are declared public nuisances in control areas. Transportation into or within a control area or possession within a control area of such trees or parts thereof, except for immediate burning or burial as provided in R 285.613.2 shall be unlawful unless the bark has been completely removed.

History: 1944 ACS 26, p. 6; 1944 ACS 34, p. 9; 1954 AC, p. 1558; 1954 ACS 31, p. 12, Eff. Aug. 14, 1962; 1954 ACS 63, p. 13, Eff. Aug. 14, 1970.

R 285.613.4 Transportation of live trees.

Rule 4. Live trees of Ulmus, Zelkova or Planera with roots attached shipped or otherwise transported into or within the state shall first have been inspected while in full leaf by a state or federal plant regulatory officer and determined to be free of the symptoms of the Dutch elm disease and infestation by such bark beetles.

History: 1944 ACS 26, p. 6; 1944 ACS 34, p. 9; 1954 AC, p. 1558; 1954 ACS 31, p. 12, Eff. Aug. 14, 1962; 1954 ACS 63, p. 13, Eff. Aug. 14, 1970.

REGULATION NO. 614. OFFICIAL HEARINGS

R 285.614 Rescinded.

History: 1944 ACS 26, p. 6; rescinded 1944 ACS 38, p. 5.

REGULATION NO. 615. ALFALFA WEEVIL

(By authority of section 23 of Act No. 189 of the Public Acts of 1931, as amended, being §286.223 et seq. of the Michigan Compiled Laws)

R 285.615.1 Alfalfa weevil.

Rule 1. (1) Infested states: Arizona, California, Colorado, Connecticut, Delaware, Georgia, Idaho, Maryland, Montana, Nebraska, Nevada, New Jersey, New York, New Mexico, North Carolina, North Dakota, Oregon, Pennsylvania, South Carolina, South Dakota, Utah, Virginia, Washington, West Virginia, and Wyoming.

(2) Regulated products: Alfalfa hay or other hay of any kind and cereal straw.

(3) Regulations governing shipments:

(a) The importation directly or indirectly from the infested states into Michigan of alfalfa hay as such or other hay of any kind, or cereal straw, which has been grown or stored in the infested areas is prohibited, including their use as packing material or for any other purpose, except as hereinafter provided.

(b) The importation, directly or indirectly, into Michigan of alfalfa meal or chopped alfalfa hay grown, ground, or stored in the infested states, is hereby forbidden, except when accompanied by a certificate as hereinafter provided, and provided that all shipments of chopped alfalfa hay are made during the period from December 1 to March 15, inclusive.

(4) Regulations governing certification:

(a) Hay and straw named in subrule (2) may be admitted into Michigan where it has been inspected and certified by a duly authorized state or federal inspector to be free from the alfalfa weevil, and loaded in trucks, cars, or other vehicles free from infestation, to which is attached a valid copy of a certificate so certifying.

(b) Alfalfa meal: All certificates issued for shipment of alfalfa meal from the infested states must certify:

(i) That the mill or mills in which the product was ground are registered as accredited mills with the department of agriculture or other state quarantine officer of the state in which they are located, and that they are so constructed, situated, and managed, and that the products after being milled are so handled as to prevent the meal and containing bags from becoming infested with alfalfa weevil.

(ii) That the product was shipped immediately after being milled or that if stored before shipment, it was stored in a warehouse remote from growing alfalfa, alfalfa hay, or other hay, straw, or other means of contamination.

(iii) That it was sacked in new or re-cleaned sacks.

(iv) That the car or truck was thoroughly cleaned before being loaded.

(c) Chopped alfalfa hay: All certificates issued for shipments of chopped alfalfa hay from the infested states must certify:

(i) That the hay was chopped and shipped during the period from December 1 to March 15, inclusive.

(ii) That the hay was chopped and blown into the car through a blower making not less than 2,100 revolutions per minute, under the supervision of an authorized inspector at the state of origin.

(iii) That the car or truck was thoroughly cleaned before being loaded.

(d) Methyl bromide fumigation: Any regulated products mentioned in subrule

(2), when fumigated with methyl bromide at the rate of 2½ pounds retained for 12 hours, and under the supervision of a duly authorized state or federal inspector, and accompanied by a certificate to this effect, may be admitted into Michigan from the "infested states," provided it has been immediately loaded into trucks, cars, or other vehicles which have been previously found free from infestation with the alfalfa weevil.

(5) All certificates provided for in this quarantine must be in triplicate, and signed by the official inspector of the state of origin or his duly authorized representative. Immediately upon the issuance of a certificate, the original copy must be mailed to the Michigan state department of agriculture, Lansing, Michigan; the duplicate copy must be attached to each car, truck, or parcel of the regulated products; and the triplicate copy attached to the waybill. The certificate must show the name and address of the consignor, the name and address of the consignee, the date when the shipment was made, the number of the car or license number of the truck, and the name of the railroad or owner of the truck or other vehicle.

History: 1944 ACS 34, p. 5; 1954 AC, p. 1559; 1954 ACS 11, p. 5, Eff. Aug. 14, 1957; 1954 ACS 14, p. 6, Eff. May 14, 1958; 1954 ACS 23, p. 8, Eff. Aug. 12, 1960.

REGULATION NO. 617. BLACK STEM RUST

(By authority of section 19 of Act No. 189 of the Public Acts of 1931, as amended, being §286.219 of the Michigan Compiled Laws)

R 285.617.1 Black stem rust of small grains.

Rule 1. (1) All species and varieties of the genera Berberis, Mahonia and Mahoberberis and all living parts thereof determined by the director of agriculture to be susceptible alternate hosts for the black stem rust of small grains caused by Puccinia graminis are hereby declared to be a public nuisance and the growing, sale, distribution, transportation, or planting of such plants or living parts thereof is prohibited.

(2) Plants or living parts thereof taken for purposes of propagation of the species and varieties of the genera Berberis, Mahonia and Mahoberberis resistant to the black stem rust of small grains must be certified according to the following provisions before being propagated, transported, distributed, offered for sale, or sold:

(a) Rust-resistant plants of Berberis and Mahoberberis of not less than 2 seasons' growth on their own roots and Mahonia plants of 1 season's growth will be eligible for movement after certification; provided plants of Berberis and Mahoberberis of 1 season's growth may be received by a nurseryman so licensed under section 9 of Act No. 189 of the Public Acts of 1931, as amended, being §286.209 of the Michigan Compiled Laws, as amended by Act No. 255 of the Public Acts of 1955, from a source approved by the director of agriculture or the United States department of agriculture.

(b) Plants of Berberis and Mahoberberis of 1 season's growth received by a nurseryman from an approved source must be retained by the nurseryman for at least 2 growing seasons and must be maintained separate from certified plants or those eligible for certification.

(c) The transportation, distribution or sale of seeds and fruits of Berberis and Mahonia shall be restricted to those seeds and fruits obtained from plants certified to be rust-resistant by the director of agriculture or the United States department of agriculture. Such seeds or fruits must be accompanied by a certificate attesting to the rust-resistance of the parent plants when being transported, distributed or sold.

(3) Any nurseryman, person, firm, partnership, or corporation, upon making application in writing for the rust-resistant certification of plants or living parts thereof of Berberis, Mahonia, or Mahoberberis, shall furnish evidence of the source, species, and variety of the plants or parts thereof to be certified, and any other information deemed necessary by the director of agriculture for the proper identification, inspection, and certification of the plants or parts thereof.

History: 1954 ACS 11, p. 6, Eff. Aug. 14, 1957.

REGULATION NO. 618. DAHLIAS

(By authority of section 22 of Act No. 189 of the Public Acts of 1931, as amended, being §286.222 of the Michigan Compiled Laws)

R 285.618.1 Dahlia inspection and certification.

Rule 1. (1) A dahlia grower desiring inspection and certification of dahlia tubers must make written application for inspection by July 1 of the year in which the inspection services are to be performed.

(2) The applicant shall agree to pay for the services rendered at the following rate: $2.00 per acre or fraction thereof for each inspection, the fee for the first inspection in any 1 season to total not less than $5.00.

(3) Dahlia tubers shall be considered eligible for inspection and certification provided the tubers are:

(a) Grown in plantings that are well cultivated and maintained essentially free of weeds and grasses and are otherwise in a condition that will permit satisfactory inspection.

(b) Identified as to variety in the field either by name stakes or similar device or by a planting chart made available to the inspector at the time of field inspection.

(4) Inspection standards:

(a) One or more inspections annually shall be made at the discretion of the agency.

(b) Plants submitted for inspection and certification must be reasonably isolated from dahlia plantings not submitted or those containing stock varieties condemned the previous year.

(c) Stock varieties condemned in previous seasons may be submitted for certification if segregated and providing measures have been taken to eliminate the diseased or otherwise undesirable tubers.

(d) On the initial inspection each year, a variety having 10% or more of the plants exhibiting symptoms of systemic diseases will be ineligible for certification.

(e) A variety having more than 5% but less than 10% of the plants infected with systemic diseases at the time of the initial field inspection each year shall be restricted from certification and the grower given an opportunity to rogue the plants exhibiting such symptoms and to resubmit the variety for a second field inspection, the results of which shall be final.

(f) On any inspection, inspectors will not rogue varieties having more than 5% of the plants showing typical, recognizable symptoms of systemic diseases.

(g) Only those varieties apparently free of systemic diseases after inspection and roguing will be certified.

(5) The inspection certificate issued must be used only in conjunction with the sale, offering for sale, distribution, or shipment of dahlia tubers that have been inspected and approved in accordance with the provisions of this rule.

History: 1954 ACS 18, p. 34, Eff. May 15, 1959.

REGULATION NO. 619.
FRUIT TREE SCIONWOOD, UNDERSTOCK, AND NURSERY STOCK

(By authority conferred on the commission of agriculture by Act No. 189 of the Public Acts of 1931, as amended, and section 178 of Act No. 380 of the Public Acts of 1965, being §§286.201 to 286.206 and 16.278 of the Michigan Compiled Laws)

R 285.619.1 Scionwood certification.

Rule 1. Scionwood will be certified as virus-free when produced on a parent tree registered by the department of agriculture, hereinafter referred to as the department, as being virus-free, the virus-free characteristic of the registrant to be determined by the following procedures:

(a) At least 2 visual inspections during the growing season immediately prior to registration.

(b) Indexing, utilizing the following hosts or others shown by research to be efficacious:

(i) For cherry: Oriental flowering cherry, Montmorency cherry, the sweet cherry variety Sam.

(ii) For apple: Russian Clone R-12740-A, Virginia Crab, Spy 227, Malus Platycarpa (Long Ashton Clone).

(iii) For peach and plum: Oriental flowering cherry, Montmorency cherry.

History: 1954 ACS 19, p. 6, Eff. Aug. 14, 1959; 1954 ACS 52, p. 33, Eff. Nov. 15, 1967.

R 285.619.2 Scionwood orchards; location and plantings.

Rule 2. (1) The registrant shall be grown in a planting, hereinafter known as a scionwood orchard, isolated at least 500 feet from wild and cultivated bearing-age trees of the same genus not eligible for registration. A scionwood orchard shall be planted in a manner approved by the department and that will assure optimum cultural conditions. A planting chart of the scionwood orchard shall be furnished the department and all planting and maintenance records shall be made available for department inspection. Trees shall be planted so that branches of different varieties of the same fruit species do not intermingle. The trueness-to-name of a tree submitted for registration shall be established to the satisfaction of the department before scionwood is distributed from it.

(2) Scionwood from registered trees may be offered for sale or sold as "Michigan certified virus-free scionwood."

History: 1954 ACS 19, p. 6, Eff. Aug. 14, 1959; 1954 ACS 52, p. 33, Eff. Nov. 15, 1967.

R 285.619.3 Scionwood orchards; care; additions; removals.

Rule 3. (1) A scionwood orchard and the registered trees therein shall be cared for as follows:

(a) Clean cultivated at all times with the exception of a winter cover crop or mowed sod culture.

(b) Fertilized and pruned to assure maximum quality scionwood growth.

(c) Maintained in an insect pest and disease-free condition by intensive spraying and other control practices recommended by the department.

(2) Trees shall not be added to or removed from a scionwood orchard without prior notice to the department. Trees in the scionwood orchard determined to be undesirable by the department shall be removed by the owner or person in charge within 10 days of receipt of notice from the department.

History: 1954 ACS 19, p. 6, Eff. Aug. 14, 1959; 1954 ACS 52, p. 33, Eff. Nov. 15, 1967.

R 285.619.4 Parent tree registration.

Rule 4. A registered parent tree shall be assigned an identifying registration number by the department. Registration of a parent tree will be continued from year to year if the preceding requirements are met and biannual growing season inspections and indexing by the department show the tree to be free of virus diseases. Registered trees shall be indexed on indexing host plants at the discretion of the department.

History: 1954 ACS 19, p. 6, Eff. Aug. 14, 1959; 1954 ACS 52, p. 33, Eff. Nov. 15, 1967.

R 285.619.11 Understock parent tree certification.

Rule 11. (1) An understock seed source parent tree is considered registered when determined to be free of seed transmissible viruses by procedures established in R 285.619.1. Continuance of registration depends upon the registrant remaining virus-free as determined by procedures established in R 285.619.4.

(2) A clonal understock parent tree or stool bed is eligible for registration when it is the direct, own-rooted progeny of a registrant or when it is determined to be virus-free by the procedures established in R 285.619.1 and trueness-to-name has been established to the satisfaction of the department. A continuous row of a clone on its own roots established for layering or for cuttings is considered a stool bed and a unit for registration purposes. Continuance of registration depends upon the registrant remaining virus-free as determined by procedures established in R 285.619.4.

History: 1954 ACS 19, p. 6, Eff. Aug. 14, 1959; 1954 ACS 52, p. 34, Eff. Nov. 15, 1967.

R 285.619.21 Nursery stock, understock, and seed; designation.

Rule 21. (1) Finished fruit tree nursery stock, understocks or understock seed, when certified according to these rules, may be offered for sale or sold as:

(a) "Grown from certified virus-free scionwood" when produced from certified scionwood.

(b) "Michigan certified virus-free fruit trees" when produced from certified scionwood and understocks.

(c) "Michigan certified virus-free understocks" when produced from certified seed or clonal sources.

(2) The use of such terms as virus-free, grown from certified virus-free scionwood, certified virus-free, Michigan certified virus-free fruit trees, Michigan certified virus-free understocks, Michigan certified virus-free scionwood, and such other term or terms that may be so construed to describe fruit tree nursery stock, scionwood, understocks, or understock seed, shall be restricted to that nursery stock, scionwood, understocks, or understock seed so certified under these rules.

History: 1954 ACS 19, p. 6, Eff. Aug. 14, 1959; 1954 ACS 52, p. 34, Eff. Nov. 15, 1967.

R 285.619.22 Nursery stock, scionwood, understock, and seed; certification.

Rule 22. (1) Trueness-to-name inspection and certification by the department of finished nursery stock and clonal understocks of apple, cherry, or plum shall be a prerequisite for certification under these rules.

(2) Scionwood, understock seed, or understocks certified by the plant regulatory official of the state of origin by procedures comparable to those provided by these rules and acceptable to the department are considered certified.

History: 1954 ACS 19, p. 6, Eff. Aug. 14, 1959; 1954 ACS 52, p. 34, Eff. Nov. 15, 1967.

R 285.619.31 Fees.

Rule 31. The following annual fees shall be charged for registration and certification services, those for parent tree and stool bed registration being cumulative:

(a) Scionwood, understock, and understock seed parent tree registration.

(i) 50 trees or less $50.00
(ii) 51 to 200 trees ..... .50 per tree
(iii) 201 to 500 trees ..... .40 per tree
(iv) 501 to 1,000 trees ..... .30 per tree
(v) 1,001 and over ..... .20 per tree

(b) Clonal understock stool bed registration fees shall be charged in accordance with the foregoing schedule on the basis of the number of trees from the bed annually indexed or a minimum equivalent to 4 indexed trees per 100 feet of bed.

(c) Trueness-to-name certification fees shall be charged at the rate of $5.00 per man-hour of inspection time.

History: 1954 ACS 19, p. 6, Eff. Aug. 14, 1959; 1954 ACS 52, p. 34, Eff. Nov. 15, 1967.

REGULATION NO. 620. QUARANTINE

(By authority of section 23 of Act No. 189 of the Public Acts of 1931 and section 6 of Act No. 72 of the Public Acts of 1945, being §§286.223 and 286.256 of the Michigan Compiled Laws)

R 285.620.1 Quarantine; purpose.

Rule 1. (1) The director of agriculture when he shall find that there exists in any state, territory, or district or part thereof any dangerous insect pest or plant disease infestation with reference to which the secretary of agriculture of the United States has not established a quarantine may promulgate and enforce by this rule a quarantine prohibiting or restricting the transportation into, within, or through the state, or any portion thereof, from such other state, territory, or district, of any class of nursery stock, plant, fruit, seed, or other article of any character whatsoever, capable of carrying such plant disease or insect infestation.

(2) A quarantine shall recite the following:

(a) The dangerous plant pest involved by common name or scientific name, or both.

(b) Definitions of the terms used.

(c) The quarantined or regulated area by naming the state, territory, or district, or designated portions thereof, by recognized political subdivisions or legal land description.

(d) The classes or names of the nursery stock, plants, fruits, seeds, or other articles of any character, the movement of which is prohibited or restricted into or within Michigan.

(e) Any treatment, certification, or other action or condition that will permit the movement of restricted articles into or within this state from the quarantined area.

(f) Conditions of seizure, treatment, or destruction of prohibited or restricted articles moving into or within this state in violation of the quarantine or the return of such articles to the quarantined area.

History: 1954 ACS 19, p. 7, Eff. Aug. 14, 1959.

REGULATION NO. 623. FIELD SEED CERTIFICATION

(By authority conferred on the commission of agriculture by sections 2 and 3 of Act No. 221 of the Public Acts of 1959 and section 178 of Act No. 380 of the Public Acts of 1965, being §§286.72, 286.73, and 16.278 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 285.623.1 Designation of seed-certifying agency.

Rule 1. The Michigan crop improvement association is designated an official seed-certifying agency to assist and advise the director of the department of agriculture in certifying the varietal purity, quality, vitality, and disease-freedom of seeds of field crops in accordance with these rules and standards established in cooperation with the seed-certifying agency.

History: 1954 ACS 23, p. 9, Eff. Aug. 12, 1960; 1954 ACS 28, p. 34, Eff. May 15, 1961; 1954 ACS 30, p. 7, Eff. May 15, 1962; 1954 ACS 34, p. 13, Eff. May 15, 1963; 1954 ACS 44, p. 28, Eff. Nov. 14, 1965; 1954 ACS 52, p. 35, Eff. Nov. 15, 1967; 1954 ACS 68, p. 12, Eff. June 14, 1971.

R 285.623.2 Seed origin and list of varieties.

Rule 2. (1) Certified seed shall be the progeny of foundation seed as defined in the act.

(2) A list of varieties and hybrids eligible for certification shall be published and made available to the public by the director of the department of agriculture.

History: 1954 ACS 23, p. 10, Eff. Aug. 12, 1960; 1954 ACS 28, p. 34, Eff. May 15, 1961; 1954 ACS 68, p. 12, Eff. June 14, 1971.

R 285.623.3 Applications for inspection and certification.

Rule 3. An application for inspection and certification shall be made to the certifying agency on or before the dates specified by the certifying agency.

History: 1954 ACS 52, p. 35, Eff. Nov. 15, 1967; 1954 ACS 68, p. 12, Eff. June 14, 1971.

R 285.623.4 Production of certified seed; restrictions.

Rule 4. (1) The production of certified seed of more than 1 variety of a crop on the same farm shall be approved by the certifying agency.

(2) Certified seed shall not be produced on land which grew any of the following plants the previous year:

(a) An inseparable species having the same growing season, except when summer fallowing intervenes.

(b) Plants of another variety of the same species.

(c) Plants of the same variety unless such plants came from certified seed.

(3) The land crop history for small-seeded legumes is provided for in R 285.623.24 to R 285.623.26.

History: 1954 ACS 68, p. 12, Eff. June 14, 1971; 1954 ACS 96, p. 66, Eff. Aug. 19, 1978.

R 285.623.5 Field conditions.

Rule 5. (1) A field containing more than an occasional weed which produces seed not readily separable from the crop seed or weed growth that will impair seed quality, or prevent adequate field inspection is ineligible for certification. Field borders and weedy areas in the field may require mowing before harvest if in the judgment of the inspector such action is necessary.

(2) Crops submitted for certification shall be rogued of weeds, other varieties and other crop plants by the grower before field inspection.

(3) Crops which show lack of vigor, lack of uniformity, evidence of inadequate cultural care, which are weedy or are subject to other conditions detrimental to production of high quality seed are ineligible for certification.

(4) The seed of that portion of a crop to be field inspected which is less than 6 feet from an inseparable species, a variety of the same species, or the same variety grown from noncertified seed shall not be harvested for certification. An open-pollinated crop shall conform to isolations hereinafter prescribed.

History: 1954 ACS 68, p. 12, Eff. June 14, 1971.

R 285.623.6 Inspections and final certification.

Rule 6. (1) A field inspection shall be performed by the certifying agency when the identity of the variety, mixtures, weediness, disease, infection, vigor, and crop quality can best be determined, including, in the case of corn, factors affecting proper pollination.

(2) Seed submitted for certification shall be harvested and handled in such a manner as to avoid mixtures and shall be stored and processed in a place and in a manner approved by the certifying agency.

(3) Final certification by the official certifying agency shall be based upon inspection of a minimum representative sample of 5 pounds of cleaned seed. A composite sample of at least 1 pound of a small-seeded legume shall be submitted. The submitted sample of cleaned seed shall be representative of the entire lot of seed to be offered for sale.

(4) Analysis, examinations, and germination tests of seed shall be conducted in accordance with sections 2 to 4 of the rules of the association of official seed analysts effective July 1, 1965. These are available from the Michigan Department of Agriculture, P.O. Box 30017, Lewis Cass Building, Lansing, Michigan 48909, at no cost.

History: 1954 ACS 68, p. 12, Eff. June 14, 1971; 1954 ACS 96, p. 66, Eff. Aug. 19, 1978.

R 285.623.7 Containers and tags.

Rule 7. A bag or container of seed to be offered for sale or sold as certified, registered or foundation shall be identified as to variety. Seed offered for sale or sold as certified, registered or foundation shall be placed in new bags or containers and have attached thereto an official tag issued by the official certifying agency and be tagged or labeled in accordance with the provisions of Act No. 314 of the Public Acts of 1923, as amended, being §§286.51 to 286.63 of the Michigan Compiled Laws, and the standards herein established.

History: 1954 ACS 68, p. 13, Eff. June 14, 1971.

R 285.623.8 Grading and blending.

Rule 8. (1) Each variety shall be graded so as to conform to screen sizes as recommended by the official certifying agency and approved by the director of the department of agriculture.

(2) Two or more lots of certified seed of the same variety, strain, or hybrid may be blended with prior approval of the official certifying agency. The quality represented for the blend shall be that of the least desirable lot in the blend, unless 2 unrelated composite samples taken by the official certifying agency show the blend to be uniform.

History: 1954 ACS 68, p. 13, Eff. June 14, 1971.

R 285.623.11 Seed from out of state.

Rule 11. Seed produced in another state or country and sold and delivered in this state as certified, registered or foundation shall have been certified by a legally constituted agency of the state or country of origin in accordance with

rules and standards equivalent to those established herein. Seed of such origin represented or labeled as registered shall have been produced and certified in accordance with rules and standards equal to or better than those established for certified seed.

History: 1954 ACS 68, p. 13, Eff. June 14, 1971.

R 285.623.12 Interagency certification.

Rule 12. If the Michigan crop improvement association participates with another certifying agency in performing services required to certify the same lot or lots of seed, the standards for such interagency certification shall be those provided in these rules.

History: 1954 ACS 96, p. 67, Eff. Aug. 19, 1978.

R 285.623.15 Modification of standards.

Rule 15. The minimum quality standards for foundation and certified seed, other than those affecting genetic purity established in these rules, may be modified by the director of the department of agriculture when application of the standard would threaten continued normal propagation of a crop variety.

History: 1954 ACS 68, p. 13, Eff. June 14, 1971; 1954 ACS 84, p. 28, Eff. Sept. 18, 1975.

PART 2. INDIVIDUAL CROP STANDARDS

R 285.623.21 Field beans.

Rule 21. (1) Field standards for field bean seed shall be as follows:

Factor	Maximum Each Class	
	Foundation	Certified
Other varieties	.05%	.10%
Inseparable other crops	none	none
Bacterial bean blight (percent of plants infected)	0.001%	0.005%
Anthracnose or common bean mosaic	0.001%	0.005%

Field beans must be planted in not less than 18-inch rows to be eligible for certification.

(2) Seed standards for field bean seed shall be as follows:

Factor	Classes of Seed	
	Foundation	Certified
Pure seed (minimum)	99.0%	99.0%
Inert matter (maximum)	1.0%	1.0%
Weeds (maximum)	none	none
Other crops (maximum)	1 per 3 lbs.	1 per lb.
Other varieties— same crop (maximum)	.05%	.10%
Germination (minimum)		90.0%
Garden vegetable beans (minimum)		85.0%
*Badly damaged seed (maximum)		1.0%
Bacterial blight infected seed (maximum)	none	none

*Badly damaged refers to beans which are seriously injured or badly discolored by frost, weather, disease, insects or other causes to seriously affect the seed lot.

History: 1954 ACS 68, p. 13, Eff. June 14, 1971; 1954 ACS 84, p. 28, Eff. Sept. 18, 1975.

R 285.623.22 Soybeans.

Rule 22. (1) Field standards for soybean seed shall be as follows:

Factor	Maximum Each Class	
	Foundation	Certified
Other varieties	.05%	.10%
Inseparable seed plants:		
Corn (with kernels) and others	none	none

(2) Seed standards for soybean seed shall be as follows:

Factor	Classes of Seed	
	Foundation	Certified
Pure seed (minimum)	98.5%	98.5%
Inert matter (maximum)	1.5%	1.5%
Weeds (maximum)	none	none
Other crops (maximum)	1 per 3 lbs.	1 per lb.
Other varieties—		
same crop (maximum)	.05%	.10%
Germination (minimum)		80.0%

History: 1954 ACS 68, p. 14, Eff. June 14, 1971; 1954 ACS 84, p. 27, Eff. Sept. 18, 1975.

R 285.623.23 Small grains.

Rule 23. (1) Field standards for small grain seed shall be as follows:

Factor	Maximum Each Class	
	Foundation	Certified
Other varieties	.02%	.05%
*Inseparable other crops	1 per acre	5 per acre
Bunt	none	none
**Other smuts	0.5%	2.0%

*No rye, vetch, or winter barley is permitted in wheat.

**Seed from fields having more than 0.5% other smuts shall be treated with a fungicide approved by the director.

(2) Rye shall be 650 feet from fields which would be a source of contamination.

(3) Seed standards for small grain seed shall be as follows:

Factor	Classes of Seed	
	Foundation	Certified
*Pure seed (minimum)	99.0%	99.0%
Inert matter (maximum)	1.0%	1.0%
Weeds (maximum)	2 per lb.	2 per lb.
Corn cockle, chess, and noxious weeds (maximum)	none	none
Other crops—no rye or vetch allowed (maximum)	1 per 2 lbs.	2 per lb.
Other varieties—same crop (maximum)	.02%	.05%
Germination (minimum)		90.0%
Except rye which shall be		80.0%

*Minimum pure seed percentage of rye is 98.0%; with inert matter a minimum of 2.0%.

History: 1954 ACS 68, p. 14, Eff. June 14, 1971; 1954 ACS 84, p. 27, Eff. Sept. 18, 1975; 1954 ACS 96, p. 67, Eff. Aug. 19, 1978.

R 285.623.24 Red clover.

Rule 24. (1) Red clover seed shall be planted on land on which the same crop has not been previously grown for a minimum of 5 years for producing foundation seed and 2 years for producing certified seed. During the year immediately before seeding, the land shall be in a cultivated crop or fallow and shall be free of volunteer red clover plants as determined by field inspection. Manure or other contaminating amendments shall not be applied during the established and productive life of this stand.

(2) A portion of a field which is not to be inspected shall be mowed before flowering.

(3) Limitations on the age of stand and pedigree classes of seed through which a variety may be multiplied shall be specified by the originator, but shall not exceed those established by the certifying agency.

(4) Field standards for red clover seed shall be as follows:

Factor	Classes of Seed		
	Foundation		Certified
	Less than 5 acres	5 acres or more	
Other varieties (maximum)	none	none	0.2%
Sweet clover (maximum)	none	none	1 plant per acre
Isolation (from other red clover fields) (minimum)	900 ft.	900 ft.	165 ft.

(5) Seed standards for red clover seed shall be as follows:

Factor	Classes of Seed	
	Foundation	Certified
Pure seed (minimum)	99.0%	99.0%
Inert matter (maximum)	1.0%	1.0%
Weeds (maximum)	0.15%	0.2%
Prohibited noxious (maximum)	none	none
Docks, sheep sorrel and restricted noxious (maximum)	9 per lb.	45 per lb.
Other crops (maximum)	18 per lb.	0.2%
Sweet clover (maximum)	9 per lb.	45 per lb.
Other varieties (maximum)	0.1%	1.0%
Germination and hard seed (minimum)		85.0%

History: 1954 ACS 68, p. 15, Eff. June 14, 1971; 1954 ACS 84, p. 28, Eff. Sept. 18, 1975; 1954 ACS 96, p. 67, Eff. Aug. 19, 1978.

R 285.623.25 Birdsfoot trefoil.

Rule 25. (1) Birdsfoot trefoil seed shall be planted on land on which the same crop has not been previously grown for a minimum of 5 years for producing foundation seed and 2 years for producing certified seed. During the year immediately before seeding, the land shall have been in a cultivated crop or fallow and shall be free of volunteer birdsfoot trefoil plants as determined by field inspection. Manure or other contaminating amendments shall not be applied during the established and productive life of the stand.

(2) A portion of a field which is not to be inspected shall be mowed before flowering.

(3) Limitations on the age of stand and pedigree classes of seed through which a variety may be multiplied shall be specified by the originator, but shall not exceed those established by the certifying agency.

(4) Field standards for birdsfoot trefoil seed shall be as follows:

Factor	Classes of Seed: Foundation, Less than 5 acres	Foundation, 5 acres or more	Certified, Less than 5 acres	Certified, 5 acres or more
Other varieties (maximum)	0.1%	0.1%	0.2%	0.2%
Sweet clover (maximum)	none	none	1 plant per acre	1 plant per acre
Isolation from flowering plants of other varieties or uninspected plants (minimum)	900 ft.	600 ft.	330 ft.	165 ft.
Isolation between different seed classes of the same variety (minimum)	225 ft.	105 ft.	85 ft.	45 ft.

(5) Seed standards for birdsfoot trefoil seed shall be as follows:

Factor	Classes of Seed: Foundation	Certified
Pure seed (minimum)	98.0%	98.0%
Inert matter (maximum)	2.0%	2.0%
Weeds (maximum)	0.1%	0.2%
Prohibited noxious (maximum)	none	none
Docks, sheep sorrel, and restricted noxious (maximum)	27 per lb.	45 per lb.
Other crops (maximum)	0.1%	0.2%
Other varieties (maximum)	0.1%	1.0%
Sweet clover (maximum)	9 per lb.	45 per lb.
Germination (minimum)		80.0%
Germination less hard seed (minimum)		45.0%

History: 1954 ACS 88, p. 15, Eff. June 14, 1971; 1954 ACS 98, p. 68, Eff. Aug. 19, 1978.

R 285.623.26 Crownvetch.

Rule 26. (1) Crownvetch seed shall be planted on land on which the same crop has not been previously grown for a minimum of 5 years for producing foundation seed and 2 years for producing certified seed. During the year immediately before seeding, the land shall have been in a cultivated crop or fallow and shall be free of volunteer crownvetch plants as determined by field inspection. Manure or other contaminating amendments shall not be applied during the established and productive life of the stand.

(2) A portion of a field which is not to be inspected shall be mowed before flowering.

(3) Limitations on the age of stand and pedigree classes of seed through which a variety may be multiplied shall be specified by the originator, but shall not exceed those established by the certifying agency.

(4) Field standards for crownvetch seed shall be as follows:

Factor	Classes of Seed: Foundation, Less than 5 acres	Foundation, 5 acres or more	Certified, Less than 5 acres	Certified, 5 acres or more
Other varieties (maximum)	1 plant per acre	1 plant per acre	5 plants per acre	5 plants per acre
Sweet clover (maximum)	none	none	1 plant per acre	1 plant per acre
Isolation from flowering plants of other varieties or uninspected plants (minimum)	900 ft.	600 ft.	330 ft.	165 ft.
Isolation between different seed classes of the same variety (minimum)	225 ft.	150 ft.	85 ft.	45 ft.

(5) Seed standards for crownvetch seed shall be as follows:

Factor	Classes of Seed: Foundation	Certified
Pure seed (minimum)	98.0%	98.0%
Inert matter (maximum)	2.0%	2.0%
Weeds (maximum)	0.1%	0.5%
Prohibited noxious (maximum)	none	none
Restricted noxious (maximum)	27 per lb.	45 per lb.
Other crops (maximum)	0.1%	0.1%
Sweet clover (maximum)	9 per lb.	45 per lb.
Other varieties of the same crop (maximum)	0.1%	1.0%
Germination (minimum)		65.0%
Germination less hard seed (minimum)		35.0%

History: 1954 ACS 68, p. 16, Eff. June 14, 1971; 1954 ACS 84, p. 28, Eff. Sept. 18, 1975; 1954 ACS 98, p. 69, Eff. Aug. 19, 1978

R 285.623.27 Foundation corn; inbred lines.

Rule 27. (1) An inbred line is a relatively true breeding strain of corn resulting from at least 5 successive generations of controlled self-fertilization with selection.

(2) Inbred increase fields shall be isolated by at least 50 rods from other corn of like color or texture and by at least 80 rods from corn of a different color or texture. However, the isolation shall not apply when increase is by hand-pollination.

(3) Inbred lines are eligible for certification when used in the production of certified hybrids.

(4) Sources of inbred seed used in the production of inbred lines shall be the Michigan agricultural experiment station and other state agricultural experiment stations, the United States department of agriculture and such other sources of inbred lines as are acceptable to the official certifying agency and approved by the Michigan experiment station and the director of the department of agriculture.

(5) Fields shall be inspected by the certifying agency at least 4 times during the pollinating period. Roguing for off-type plants shall be performed before any pollen discharge. An inbred field having more than 0.1% definitely off-type plants or more than 1.0% of doubtful-type plants shall not be certified.

(6) A seed lot of an inbred line shall not have more than 0.1% definitely off-type ears or more than 0.2% ears with off-color kernels as determined by ear inspection or winter grow out test.

History: 1954 ACS 68, p. 16, Eff. June 14, 1971.

R 285.623.28 Foundation corn; single cross hybrids.

Rule 28. (1) A single cross hybrid shall consist of the first generation of a cross between 2 certified inbred lines.

(2) A single cross crossing field shall be isolated by at least 50 rods from other corn of like color or texture and 80 rods from corn of a different color or texture.

(3) The following field inspection standards shall be complied with:

(a) Fields shall be inspected by the certifying agency at least 4 times during the pollinating period.

(b) Seed parent plants capable of producing viable pollen should be detasseled.

(c) When 5% or more of the seed parent plants in a crossing field have apparently receptive silks, the field is ineligible for certification if shedders are in excess of 0.5% on any 1 inspection or exceed an accumulative total of more than 1.0% for any 3 consecutive inspections.

(d) A shedder shall be a seed parent plant having more than 1 lineal inch of tassel area with anthers shedding pollen.

(e) One or more seed parents growing in the same isolation and having in excess of 5% apparently receptive silks are ineligible for certification if 1 or more of the seed parents have over 0.5% shedders unless the plants in the area having excess receptive silks are destroyed.

(f) Roguing for off-type plants shall be performed before the time of pollen discharge.

(g) A crossing field in which more than 0.1% definitely off-type plants or more than 1.0% doubtful-type plants in the pollen parent have shed pollen shall not be certified.

(h) At the time of the last inspection the seed parent in a crossing field shall not contain more than 0.1% definitely off-type plants or 1.0% of doubtful-type plants.

(4) A seed lot of a single cross hybrid shall not have more than 0.1% definitely off-type ears or more than 0.2% ears with off-color kernels as determined by ear inspection or winter grow out test.

History: 1954 ACS 68, p. 17, Eff. June 14, 1971.

R 285.623.29 Commercial single cross, double cross, and 3-way hybrids.

Rule 29. (1) A double cross hybrid is the first generation of a cross between 2 single cross hybrids. A 3-way cross hybrid is the first generation of a cross between a single cross hybrid and an inbred line.

(2) A certified double cross or 3-way corn hybrid shall be produced from foundation seed (single cross or inbreds or both) which has been produced under inspection of the official seed-certifying agency or a seed-producing agency recommended by the Michigan experiment station together with the official certifying agency and approved by the director of the department of agriculture.

(3) The following isolation standards shall be complied with:

(a) A crossing field shall be so located that the seed parent is at least 40 rods from corn of a different color or texture. When the contaminating source is the same color or texture the distance can be modified by the size of the crossing field and by planting border rows of pollen parent in accordance with the following table:

	Field Size in Acres					
	9 or less	10-19	20-29	30-39	40 or more	Minimum Border Rows
Distance	40	38	36	34	33	2
(in rods)	35	33	31	29	28	4
of seed	30	28	26	24	23	6
rows	25	23	21	19	18	8
from	20	18	16	14	13	10
other	15	13	11	10	10	12
corn	10	9	7	4	4	14

(b) Border rows to offset lack of isolation distance shall be planted adjacent to the exposed side or sides of the crossing field and shall produce an abundance of viable pollen at the time the seed parent silks are receptive.

(c) Insufficient isolation distance can be offset by destroying a portion of the seed parent in a manner and at a time specified by the official certifying agency.

(d) Two or more hybrids may be produced in the same field if the same pollen parent is used.

(4) The following field inspection standards shall be complied with:

(a) The standards in this rule apply only when 5% or more of the seed parent plants have apparently receptive silks.

(b) Crossing fields shall be inspected by the official certifying agency at least 3 times during the pollinating period.

(c) A crossing field is ineligible if shedders, as defined in R 285.623.28(3)(d) are in excess of 1% at any 1 inspection or if an accumulative total of more than 2% shedders is found on any 3 consecutive inspections.

(d) Off-type plants shall be removed before pollen discharge.

(e) Corn harvested from crossing fields found to be ineligible for certification shall not be sold for seed purposes.

(5) The following seed inspection standards shall be complied with:

(a) Samples for moisture and germination determination shall be furnished to the official certifying agency after the seed has been dried and shelled by the producer.

(b) Seed shall have a moisture content of less than 14%, a minimum germination of 90% and a minimum purity of 99.0%.

R 285.627.1 Definitions.

Rule 1. As used in these rules:

(a) "Balled stock" means nursery stock removed from the growing site with a portion of the root system intact in a ball of the soil in which the plant was grown, the diameter and depth of such soil ball to be as specified in the publication entitled "American Standards for Nursery Stock," dated February 1, 1973, which is published by, and available from, the American Association of Nurserymen, 230 Southern Building, Washington, D.C. 20005, at a cost of $2.00. The publication may also be inspected at, or obtained from, the Michigan Department of Agriculture, Plant Industry Division, Lewis Cass Building, Post Office Box 30017, Lansing, Michigan 48909; the cost, when obtained from the department, is $2.00.

(b) "Container-grown stock" means nursery stock grown in a container, with a root system completely established in soil or other growing media.

(c) "Manufactured ball" means a bound ball of soil or other growing media in which the roots of nursery stock have been placed with the intended purpose of establishing a root system in the media.

(d) "Packaged nursery stock" means nursery stock prepared for merchandising with the roots wrapped in a moisture-holding media, other than soil, with no intention of establishing a root system in the media.

(e) "Potted stock" means nursery stock offered for sale with the root system in soil and in a rigid or semi-rigid container in which the plant was not grown and established.

History: 1954 ACS 31, p. 13, Eff. Aug. 14, 1962; 1954 ACS 92, p. 12, Eff. July 15, 1977.

R 285.627.2 Storage and display conditions.

Rule 2. (1) Balled stock, container-grown stock, potted stock, and nursery stock with manufactured balls shall be kept uniformly moist by surrounding or covering the root area with nontoxic, moisture-holding materials, or by irrigation sufficient to maintain the viability and vigor of the stock, and shall be kept under temperature and light intensity conditions that permit normal growth. Balled stock and stock with manufactured balls, displayed or stored on pavement or a similar moisture-impervious surface, shall be separated from that surface by at least a 4-inch layer of, or shall be surrounded by, peat, sawdust, shingletow, soil, or other similar moisture-holding material, which shall be kept moist at all times, or shall be kept under other conditions that will assure maintenance of moisture in the ball sufficient to preserve the vigor of the plant.

(2) Bare-root nursery stock shall be kept under conditions of temperature and moisture that maintain viability. Moisture shall be supplied to the root system by high humidity conditions in storage or by covering the roots with soil, sawdust, peat, shingletow, or other moisture-holding material not toxic to plants, which covering shall be kept moist at all times.

(3) Packaged nursery stock shall be stored and displayed under conditions that preserve the vitality of the plant and insure an adequate supply of moisture to the roots at all times.

History: 1954 ACS 31, p. 13, Eff. Aug. 14, 1962; 1954 ACS 92, p. 12, Eff. July 15, 1977.

R 285.627.3 Minimum indices of vitality.

Rule 3. (1) Woody stemmed deciduous nursery stock, such as fruit and shade trees, rose bushes, and flowering shrubs, shall have moist, green cambium tissue in the stem or stems and branches, and shall have viable buds or normal green, unwilted growth sufficient to permit the plant to live and grow in a form characteristic of the species or variety when planted and given reasonable care. In

the case of a rose bush, each stem shall show moist, green, undamaged cambium in at least the first 8 inches above the graft. Any single stem on a rose bush not meeting this specification shall disqualify the entire plant. However, a rose bush may be pruned to comply with this specification if at least 1 stem meeting the specification remains and the grade designation, if sold by grade, is changed accordingly. A packaged rose bush having more than 3 inches of etiolated growth from a bud shall not be sold or offered for sale.

(2) Hardy herbaceous biennials or perennials, when in a wilted, rotted, or similar condition indicative of subnormal vitality, shall not be sold or offered for sale.

(3) Nursery stock in a weakened condition, as evidenced by die-back or desiccation of foliage, or balled stock with broken or loose earthballs, broken manufactured balls, or root systems of a size smaller than established by the American standard for nursery stock, shall not be sold or offered for sale. Packaged nursery stock, potted stock, and nursery stock with manufactured balls shall meet the root spread standards established for bare-root stock.

(4) Nursery stock on display at sales outlets not meeting the foregoing minimum indices of vitality shall be restricted from sale and shall be removed from public view by the owner or person in charge.

History: 1954 ACS 31, p. 13, Eff. Aug. 14, 1962; 1954 ACS 92, p. 13, Eff. July 15, 1977.

REGULATION NO. 628. SEED POTATO CERTIFICATION

(By authority conferred on the commission of agriculture by section 2 of Act No. 221 of the Public Acts of 1959 and section 178 of Act No. 380 of the Public Acts of 1965, being §§286.72 and 16.278 of the Michigan Compiled Laws)

R 285.628.1 Definitions.

Rule 1. As used in these rules:

(a) "Seed potatoes eligible for certification" means potato varieties that the department of agriculture has listed in its published list of seeds eligible for certification under the provisions of section 4 of Act No. 221 of the Public Acts of 1959, as amended, being §286.74 of the Michigan Compiled Laws.

(b) "Certifiable seed potatoes" means seed potatoes eligible for certification as premier foundation, foundation, or certified seed that meet or exceed the standards established herein and are produced and stored as required by these rules.

(c) "Premier foundation seed" means the progeny of seed potatoes produced in a program of hill selection and clonal increase approved by the certifying agency.

(d) "Foundation seed" means the progeny of premier foundation seed or the progeny of foundation seed that meets all requirements for premier foundation seed, except the program of hill selection and clonal increase, when premier foundation seed is not available to a producer.

(e) "Certified seed" means the progeny of foundation seed or the progeny of seed produced in another state that is certified as foundation or better by an official seed-certifying agency in the other state using similar standards as herein established.

(f) "Seed lot" means all the seed potatoes of the same variety in or harvested from a field or stored together in a storage facility.

History: 1954 ACS 44, p. 28, Eff. Nov. 14, 1965; 1954 ACS 48, p. 14, Eff. Nov. 14, 1966; 1954 ACS 78, p. 18, Eff. Jan. 8, 1974.

Editor's note: Former Regulation No. 628, pertaining to weed killers in grape vineyards and deriving from 1954 ACS 31, p. 14, Eff May 1, 1962, expired by its own terms on October 1, 1962.

R 285.628.2 Designation of official seed-certifying agency.

Rule 2. The Michigan crop improvement association is designated as the official seed-certifying agency of the department of agriculture for the purpose of assisting and advising the department in carrying out the provisions of Act No. 221 of the Public Acts of 1959, as amended, being §§286.71 to 286.75 of the Michigan Compiled Laws, and these rules.

History: 1954 ACS 44, p. 28, Eff. Nov. 14, 1965; 1954 ACS 56, p. 7, Eff. Nov. 14, 1968; 1954 ACS 66, p. 8, Eff. Dec. 31, 1970; 1954 ACS 78, p. 19, Eff. Jan. 8, 1974.

R 285.628.3 Application.

Rule 3. A person may apply for certification of seed potatoes eligible for certification by filing a written application with the official seed-certifying agency on or before June 10 of each year.

History: 1954 ACS 78, p. 19, Eff. Jan. 8, 1974.

R 285.628.4 Conditions for certification.

Rule 4. A seed lot eligible for certification shall not be certified if any of the following conditions exist:

(a) Less than all acreage of the variety grown by the applicant is planted to premier foundation, foundation or certified seed and entered for inspection.

(b) The lot is planted less than 5 feet from other potatoes.

(c) The lot is grown in a field in which weeds, insect injury, spray damage, disease or any other factors that prevent adequate inspection or the production of certifiable seed potatoes are present.

(d) The lot is planted on land that has been exposed to infection from bacterial ring rot during the preceding growing season if for certified seed, and the preceding 2 growing seasons if for premier foundation or foundation seed potatoes, or the lot has been exposed to bacterial ring rot infection prior to, during or after being harvested.

(e) The lot is stored, graded or handled in storage facilities containing potatoes which were not field inspected or potatoes rejected for the presence of bacterial ring rot.

(f) Severe late blight, frost injury or any other condition that renders the lot undesirable for use as seed is present.

(g) Bacterial ring rot is present in the lot.

History: 1954 ACS 78, p. 19, Eff. Jan. 8, 1974.

R 285.628.5 Official seed-certifying agency; duties.

Rule 5. The official seed-certifying agency shall:

(a) Make 2 or more inspections of all fields of seed potatoes eligible for certification as foundation or certified seed and 3 or more inspections of all fields of seed potatoes eligible for certification as premier foundation seed, for which an application for such certification has been made, at times when plant growth and other conditions are optimum for varietal identification and disease expression.

(b) Make at least 1 digging time and 1 bin inspection of premier foundation and foundation seed lots previously approved on field inspection.

(c) Make at least 1 tuber inspection of certified seed lots previously approved on field inspections.

(d) Inspect storage facilities for certifiable seed potatoes.

(e) Collect or cause to be collected representative tuber samples of certifiable seed potatoes for winter testing and such other tests as may be required for certification.

(f) Issue certification tags for each container or bulk shipment of certifiable potatoes or upon request by an applicant, who has sold seed potatoes that must be shipped prior to the winter test results being known which are otherwise certifiable, issue certification tags for each container or bulk shipment that contains the statement that the potatoes were certified prior to the winter test results.

History: 1954 ACS 78, p. 19, Eff. Jan. 8, 1974.

R 285.628.6 Premier foundation and foundation seed.

Rule 6. Seed lots of premier foundation and foundation seed shall not be certified as such if any of the following exist:

(a) Less than all of the potato acreage on the farm producing such lots was planted with seed that had been certified.

(b) The following field inspection tolerances for diseases and varietal mix are exceeded:

Virus Diseases	First Inspection	Second Inspection	Third Inspection (Premier Foundation)
Leaf roll	0.25%	0.10%	0.05%
Mosaics	0.50%	0.25%	0.25%
Spindler tuber	0.25%	0.10%	0.10%
Yellow dwarf	0.01%	0.01%	None
Aggregate for above virus diseases	0.50%	0.25%	0.25%
Other Diseases			
Wilt	0.50%	0.50%	0.50%
Bacterial ring rot	None	None	None
Varietal mixture	0.10%	0.01%	0.01%

(c) The digging time or bin inspection discloses any distinguishable varietal mixture or more than 3% characteristic wilt discoloration in such lots.

(d) The tuber samples that are winter tested exceed the disease tolerances for virus leaf roll, rugose mosaics, spindle tuber and yellow dwarf which shall be an aggregate 2% for premier foundation and an aggregate 3% for foundation.

History: 1954 ACS 78, p. 20, Eff. Jan. 8, 1974.

R 285.628.7 Certified seed.

Rule 7. Seed lots of certified seed shall not be certified as such if any of the following exist:

(a) The following field inspection tolerances for diseases and varietal mix are exceeded:

Virus Diseases	First Inspection	Second Inspection
Leaf roll	1.00%	0.50%
Mosaics	2.00%	1.00%
Spindle tuber	1.00%	0.50%
Yellow dwarf	0.05%	0.05%
Aggregate for above virus diseases	2.00%	1.00%
Other Diseases		
Wilt	1.00%	1.00%
Bacterial ring rot	None	None
Varietal mixture	0.10%	0.10%

(b) The tuber inspection of seed lots discloses more than 0.10% distinguishable varietal mixture or more than 5% characteristic wilt discoloration.

(c) The tuber samples that are winter tested commencing in 1974 and each year thereafter exceed the tolerance of an aggregate of 6% for virus leaf roll, rugose mosaics, spindle tuber and yellow dwarf.

History: 1954 ACS 78, p. 20, Eff. Jan. 8, 1974.

R 285.628.8 Storage and equipment.

Rule 8. All equipment and storage facilities shall be thoroughly cleaned and disinfected with materials and by methods specified by the certifying agency and approved by the Michigan agricultural experimental station. Storage facilities in which premier foundation and certified seed are stored may contain only lots of potatoes that have passed field inspection or have been rejected for reasons other than exposure to or infection by bacterial ring rot if such lots are isolated from the certifiable seed potatoes.

History: 1954 ACS 78, p. 21, Eff. Jan. 8, 1974.

R 285.628.9 Shipping inspection.

Rule 9. The federal-state inspection service shall inspect at shipping time all certified seed lots for which certification tags have been issued to determine the grade of such lots and may also inspect premier foundation or foundation seed lots at that time to determine the grade of such lots. The official seed-certifying agency shall inspect all other premier foundation and foundation seed lots for which certification tags have been issued at shipping time to determine the grade of such lots.

History: 1954 ACS 78, p. 21, Eff. Jan. 8, 1974.

R 285.628.10 Shipping containers; bulk shipments.

Rule 10. Seed potatoes, except those shipped in bulk, when sold shall be packed in new, clean, unused containers and sealed as required by the certifying agency and approved by the director of agriculture. Containers for bulk shipment shall be properly cleaned. A certificate for bulk shipment issued by the certifying agency shall accompany each shipment in bulk. Seed potatoes for foreign export shall be packaged to comply with the requirements of the importing country.

History: 1954 ACS 78, p. 21, Eff. Jan. 8, 1974.

R 285.628.11 Grades and sizes.

Rule 11. Except as hereinafter provided, grades and sizes shall conform to the United States standards for grades of seed potatoes effective April 28, 1972, and available from the United States Department of Agriculture, Agricultural Marketing Service, Washington, D.C., or the Michigan Department of Agriculture, Lansing:

(a) Blue tag grade shall meet the requirements of the United States no. 1 seed potato grade except the allowance for sprouts may be exceeded after March 15 on seed potatoes grown the previous year if so specified by the seller, and after March 15 following the year of production pressure bruises will be allowed if not causing serious damage. Size shall be not less than 1⅛ inches nor more than 3¼ inches in diameter or 12 ounces in weight. Nematode injury means injury from root knot nematode or the presence of or injury from golden nematode or tuber rot nematode.

(b) Green tag grade shall meet the requirements of blue tag grade except the size shall be not less than 1¼ inches nor more than 3¾ inches in diameter or 16 ounces in weight.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-nc-sa-google

(c) Red tag grade shall be as agreed between seller and purchaser as to size and defects, except that damage by dry or moist fusarium type tuber rot shall not exceed 5% including not more then 2% serious damage by dry or moist fusarium type tuber rot and not more than 1% soft rot or wet breakdown.

History: 1954 ACS 44, p. 27, Eff. Nov. 14, 1965; 1954 ACS 66, p. 9, Eff. Dec. 31, 1970; 1954 ACS 78, p. 21, Eff. Jan. 8, 1974.

R 285.628.12 Grading.

Rule 12. Premier foundation seed shall be graded to comply with the Michigan blue tag grade. Foundation seed shipped interstate shall be graded to comply with the Michigan blue tag grade except that maximum size shall not exceed 3¼ inches in diameter or 14 ounces in weight. Foundation seed sold intrastate may be graded according to agreement between seller and purchaser as to size and defects.

History: 1954 ACS 44, p. 27, Eff. Nov. 14, 1965; 1954 ACS 48, p. 14, Eff. Nov. 14, 1966; 1954 ACS 56, p. 7, Eff. Nov. 14, 1968; 1954 ACS 66, p. 9, Eff. Dec. 31, 1970; 1954 ACS 78, p. 21, Eff. Jan. 8, 1974.

R 285.628.13 Modification of standards.

Rule 13. The director of the department of agriculture may modify the standards established herein for certifiable seed when due to weather, disease or any other factor the application of the standards would threaten the normal propagation of potato variety.

History: 1954 ACS 44, p. 27, Eff. Nov. 14, 1965; 1954 ACS 48, p. 14, Eff. Nov. 14, 1966; 1954 ACS 78, p. 21, Eff. Jan. 8, 1974.

R 285.628.14 Digging and bin inspection.

Rule 14. At least 1 digging time and 1 bin inspection shall be made on lots approved on field inspection. Lots of potatoes with the following defects shall not be approved as foundation seed:

(a) Severe late blight, frost injury, soft rot or any other condition that renders the lot undesirable for use as seed.

(b) Any distinguishable varietal mixture.

(c) More than 3% characteristic wilt discoloration.

(d) Bacterial ring rot.

History: 1954 ACS 44, p. 27, Eff. Nov. 14, 1965.

R 285.628.15 Shipping inspection.

Rule 15. Inspections shall be made by the official certifying agency.

History: 1954 ACS 44, p. 27, Eff. Nov. 14, 1965.

R 285.628.16 Grading.

Rule 16. Seed sold shall be graded according to agreement between seller and buyer.

History: 1954 ACS 44, p. 27, Eff. Nov. 14, 1965.

R 285.628.17 Test samples.

Rule 17. Representative tuber samples of premier foundation and foundation seed shall be collected and submitted for such tests as the certifying agency may require and shall consist of the following:

(a) One properly identified tuber from each hill selected from a variety for premier foundation seed.

(b) A representative sample of at least 300 tubers (1¼ inches to 2 inches) of each variety of foundation seed.

History: 1954 ACS 44, p. 27, Eff. Nov. 14, 1965; 1954 ACS 48, p. 14, Eff. Nov. 14, 1966; 1954 ACS 66, p. 9, Eff. Dec. 31, 1970.

R 285.628.21 Eligible planting stocks and isolation.

Rule 21. (1) Certified seed potatoes shall be the progeny of foundation seed produced in accordance with the provisions of these rules. Seed certified as foundation or better by an out-of-state certifying agency is eligible as planting stock if approved by the certifying agency.

(2) A planting of a variety submitted for certification shall be at least 5 feet from any other potatoes.

History: 1954 ACS 44, p. 27, Eff. Nov. 14, 1965; 1954 ACS 48, p. 14, Eff. Nov. 14, 1966; 1954 ACS 66, p. 10, Eff. Dec. 31, 1970.

R 285.628.22 Field inspection tolerances.

Rule 22. Field inspection tolerances shall be as follows:

Virus Diseases	First Inspection	Second Inspection
Leaf roll	1.00%	0.50%
Mosaics	2.00%	1.00%
Spindle tuber	1.00%	0.50%
Yellow dwarf	0.05%	0.05%
Aggregate for above virus diseases	2.00%	1.00%
Other Diseases		
Wilt	1.00%	1.00%
Bacterial ring rot	none	none
Varietal mixture	0.10%	0.10%

History: 1954 ACS 44, p. 28, Eff. Nov. 14, 1965.

R 285.628.23 Tuber inspection.

Rule 23. (1) At least 1 tuber inspection shall be made by the certifying agency of those lots of potatoes approved in field inspection.

(2) Potatoes grown for certification shall be stored under conditions which insure freedom from mixture with uncertified stock.

(3) Lots of potatoes with the following defects shall be refused certification:

(a) Severe late blight, frost injury, soft rot, or any other condition that renders the lot undesirable for seed.

(b) More than 0.1% distinguishable varietal mixture.

(c) More than 5% characteristic wilt discoloration.

(d) Bacterial ring rot.

History: 1954 ACS 44, p. 28, Eff. Nov. 14, 1965.

R 285.628.24 Shipping inspection.

Rule 24. A shipping-time inspection by the federal-state inspection service shall be required to determine conformity with the grades prescribed by these rules.

History: 1954 ACS 44, p. 28, Eff. Nov. 14, 1965.

R 285.628.25 Grades.

Rule 25. Grades shall conform to the following designated "U.S." grades, as promulgated by the United States department of agriculture, effective July 15, 1958, except that sunburn will be permitted in all grades:

(a) Michigan blue tag grade shall meet the requirements of U.S. no. 1 grade.

(b) Michigan red tag grade shall meet the requirements of U.S. no. 2 grade as to freezing injury, soft rot, wet breakdown, and dry rot, but meet the requirements of an agreement between seller and purchaser as to size and defects.

History: 1954 ACS 44, p. 28, Eff. Nov. 14, 1965; 1954 ACS 66, p. 10, Eff. Dec. 31, 1970.

R 285.628.26 Size.

Rule 26. (1) The minimum size or range of size may be specified with the grade in terms of diameter or weight of the individual potato, or in accordance with 1 of the following classifications:

(a) Size A:

(i) For round or intermediate shaped varieties, such as Irish Cobbler, Katahdin, Sebago, Pontiac, Kennebec, Green Mountain, or other similar varieties, the diameter of each potato shall be not less than 1⅞ inches, and not less than 60% of the potatoes in the lot shall be 2¼ inches or larger. The maximum size for Michigan certified blue tag seed shall be not over 3¼ inches. For the green and white tag grades the maximum size shall be 3¾ inches.

(ii) For long varieties such as Russet Burbank, Early Gem, White Rose, or other similar varieties each potato shall not be less than 1⅞ inches in diameter or more than 12 ounces in weight and not less than 40% of the potatoes in the lot shall be 6 ounces or more in weight.

(b) Size B: For all varieties the potatoes shall be from 1¼ to 2¼ inches in diameter, inclusive.

(c) Size C: For all varieties the potatoes shall be from 1 inch to 1½ inches in diameter, inclusive.

(2) Diameter means the greatest dimension at right angles to the longitudinal axis.

(3) Lot tolerances by weight for all grades shall be:

(a) 3% for sizes below 2¼-inch minimum.

(b) 5% for sizes 2¼-inch and larger minimum.

(c) 10% above any maximum specified.

(d) When a percentage of the potatoes is specified to be of a certain size and larger, individual packages containing 15 pounds or less shall have not less than ½ of the percentage specified and individual packages containing more than 15 pounds shall have not less than ¾ of the percentage specified.

History: 1954 ACS 44, p. 28, Eff. Nov. 14, 1965; 1954 ACS 48, p. 15, Eff. Nov. 14, 1966.

R 285.628.27 Rescission.

Rule 27. Department of agriculture regulation no. 624, as amended, being R 285.624 to R 285.626 of the Michigan Administrative Code, is rescinded.

History: 1954 ACS 44, p. 29, Eff. Nov. 14, 1965.

REGULATION NO. 629. WEED KILLERS IN GRAPE VINEYARDS

R 285.629 Expired.

History: 1954 ACS 31, p. 15, Eff. May 1, 1962; expired Oct. 1, 1962.

REGULATION NOS. 630, 631. WEED KILLERS IN GRAPE VINEYARDS

R 285.630, R 285.631 Expired.

REGULATION NO. 633. RESTRICTED USE PESTICIDES

(By authority conferred on the director of the department of agriculture by section 19 of Act No. 171 of the Public Acts of 1976, being §286.569 of the Michigan Compiled Laws)

R 285.633.1 Definitions.

Rule 1. (1) The terms defined in the act have the same meaning when used in these rules.

(2) "Act" means Act No. 171 of the Public Acts of 1976, being §286.551 et seq. of the Michigan Compiled Laws.

(3) "Domestic use" means application of a pesticide directly to humans or pets, or application of a pesticide in, on, or around all structures, vehicles, or areas associated with the household or home life, patient care areas of health-related institutions, or areas where children spend time.

History: 1954 ACS 71, p. 19, Eff. Mar. 23, 1972; 1954 ACS 95, p. 30, Eff. Apr. 11, 1978.

R 285.633.2 Restricted use pesticides.

Rule 2. (1) The director has determined that the following formulations, when used as pesticides, are serious hazards to man, warm blooded animals, or to the environment when used under normal accepted conditions of use and, therefore, are restricted use pesticides:

Active Ingredient	Formulation	Use Pattern
Acrolein	As sole active ingredient.	All uses.
Acrylonitrile	In combination with carbon tetrachloride.	All uses.
Aldicarb	As sole active ingredient.	Ornamental uses (indoor and outdoor).
Aldrin	All formulations.	All uses.
Allyl Alcohol	All formulations.	All uses.
Aluminum Phosphide	As sole active ingredient.	All uses.
Arsenicals	Inorganic insoluble (50% and above as the compound), including calcium arsenate, lead arsenate, magnesium arsenate, paris green.	All uses.
	Inorganic soluble including arsenic trioxide above 1.5% sodium arsenite above 2%, and sodium arsenate above 5%.	
Avitrol	All formulations.	All uses.
Azinphos Methyl	All liquids with a concentration greater than 13.5%.	All uses.
	All dusts and wettable powders.	All uses except when packaged in water soluble packets.
Calcium Cyanide	As sole active ingredient.	All uses.
Carbofuran	All formulations at 40% active ingredient and above.	All uses.
	All formulations at 10% active ingredient.	All domestic uses.

Active Ingredient	Formulation	Use Pattern
Carbon Disulfide	All formulations.	All uses.
Chloropicrin	All formulations above 2% active ingredient.	All uses.
Clonitralid	Wettable powder formulations.	All uses.
	As sole active ingredient in all formulations.	Molluscicide uses.
DDT	All formulations.	All uses.
Demeton	1% fertilizer formulation, 1.985% granular formulation.	All uses, including domestic uses.
	All granular formulations.	All uses.
	All emulsifiable products and solutions requiring dilution prior to use.	All uses.
Dicrotophos	All liquid formulations.	All uses.
Dieldrin	All formulations.	All uses.
Diquat Dibromide	All formulations.	All aquatic uses, except in small ponds such as farm ponds that have no outflow and are under the control of the user.
Disulfoton	All liquid formulations.	All uses.
	All granular formulations above 2% active ingredient.	Indoor use. Foliar and broadcast application to agricultural crops, except to seedbeds and transplant beds.
EPN	All formulations.	All uses.
Endrin	All formulations.	All uses.
Ethoprop	All formulations.	All uses.
Ethyl Parathion	All formulations.	All uses.
Ethylene Dibromide	As sole active ingredient or in combination with 1,3-dichloropropene, methyl bromide, chloropicrin, CC14, CS2, ethylene dichloride, methyl chloride, or sulfur dioxide.	Fumigant in an enclosed area.
	As sole active ingredient or in combination with lindane and chlordane.	Termite control.
Ethylene Dichloride	As sole active ingredient or in combination with CC14, ethylene dibromide, carbon disulfide, or sulfur dioxide.	All uses.
Fensulfothion	All liquid formulations.	All uses.
	Granular formulations 15% active ingredient and above.	All uses.
Fluoroacetamide/ 1081	All formulations.	All uses.
Fonofos	Liquid formulations at 44% active ingredient and above.	All uses.
Heptachlor	All formulations.	All uses.

Active Ingredient	Formulation	Use Pattern
Hydrocyanic Acid	All formulations.	All uses.
Mercury	All formulations.	All uses.
Methomyl	As sole active ingredient in 1% to 2.5% baits, except 1% fly bait.	Nondomestic outdoor agricultural crops, ornamentals, and turf.
		All other registered uses.
	All solutions requiring dilution prior to use.	All uses.
	90% wettable powder formulations that are not in water soluble bags.	All uses.
Methyl Bromide	All formulations.	All uses.
Methyl Parathion	All formulations.	All uses.
Mevinphos	All emulsifiable and liquid products requiring dilution prior to use.	All uses.
	Psycodid filter fly liquid formulations.	All uses.
	2% dusts.	All uses.
Monocrotophos	Liquid formulations 40% active ingredient and above.	All uses.
Nicotine (Alkaloid and Sulfate)	Liquid formulations at 40% active ingredient (alkaloid).	All uses.
	Liquid formulations at 40% active ingredient (sulfate).	Domestic uses.
	14% smoke generator.	All uses.
Paraquat (Dichloride) and Paraquat Bis (Methyl Sulfate)	All formulations and concentrations except pressurized spray formulation containing .44% paraquat bis (methyl sulfate) and 15% petroleum distillates as active ingredients.	All uses.
Phorate	All formulations at 1.25% active ingredient and above.	All uses.
Phosacetim	All formulations.	All uses.
Phosphamidon	All liquid formulations.	All uses.
	All dust formulations in combination with naled.	All uses.
Phosphorus (Elemental)	All formulations.	All uses.
Picloram	All formulations and concentrations except formulations labeled only for trunk injection, girdling or stump treatment.	All uses.
Sodium Cyanide	All formulations.	All uses.
Sodium Fluoroacetate	All solutions and dry baits.	All uses.
Strychnine	All formulations.	All uses.
Sulfotepp	Sprays and smoke generators.	All uses.
TDE	All formulations.	All uses.
TEPP	Emulsifiable formulations requiring dilution prior to use.	All uses.

Active Ingredient	Formulation	Use Pattern
Toxaphene	All liquid formulations.	Domestic uses.
	All formulations.	Aerial application.
		Direct application to aquatic environment.
		Application to field, fiber, and forage crops; deciduous fruit and nut crops.

(2) Notwithstanding any statement to the contrary, including statements on the labels or made by the manufacturer, a restricted use pesticide enumerated in these rules is declared to be restricted in relation to its purchase, distribution, sale, and use in this state.

(3) In addition to the pesticides enumerated in subrule (1), those pesticides classified by the environmental protection agency as restricted use in 40 C.F.R. §162.31 are adopted with all amendments as part of this rule. If there is conflict between restricted categories adopted as a result of inclusion in 40 C.F.R. §162.31 and the categories classified by these rules, the more restrictive rule shall prevail. Copies of the adopted matter may be obtained from the United States Environmental Protection Agency, Office of Pesticide Programs, Washington, D.C. 20460, at no cost, and from the Michigan Department of Agriculture, P.O. Box 30017, Lansing, Michigan 48909, at no cost.

History: 1954 ACS 71, p. 19, Eff. Mar. 23, 1972; 1954 ACS 95, p. 30, Eff. Apr. 11, 1978; 1954 ACS 96, p. 70, Eff. Aug. 19, 1978

R 285.633.3 Licenses; application.

Rule 3. (1) A person shall not sell, offer for sale, or otherwise distribute to the ultimate user a restricted use pesticide, unless a restricted use pesticide dealer's license is secured as provided in the act and these rules. A restricted use pesticide dealer shall sell those restricted pesticides as enumerated in R 285.633.2 only to users who exhibit full compliance with R 285.636.1 et seq. of the Michigan Administrative Code.

(2) A person in charge of each sales location or outlet shall apply, on a form prescribed by the director, for a license to sell restricted use pesticides for each location or outlet.

History: 1954 ACS 71, p. 20, Eff. Mar. 23, 1972; 1954 ACS 95, p. 33, Eff. Apr. 11, 1978.

R 285.633.4 License examinations.

Rule 4. (1) A person applying for a license to sell restricted use pesticides shall pass a written examination to determine his knowledge of the laws and rules governing the use and sale of pesticides and his responsibility in carrying on the business of a restricted use pesticides dealer. The examinations may be conducted at a time and place designated by the director. A score of 70 or above is required for passing. A score of less than 70 shall result in denial of a license.

(2) An applicant failing the examination may be granted a reexamination after an interview with a person or persons delegated by the director regarding his license application and a review of the examination.

History: 1954 ACS 71, p. 20, Eff. Mar. 23, 1972; 1954 ACS 95, p. 33, Eff. Apr. 11, 1978.

R 285.633.5 License renewals.

Rule 5. (1) A license expires on December 31 of each year and shall be renewed on or before January 1 of each year.

(2) A license may be renewed, on a form prescribed by the director, without an examination if the applicant meets all the qualifications set forth in the act and these rules, unless an examination is required on amendments to the act or these rules which set forth different or additional qualifications. The director may at his discretion require the reexamination of an applicant who fails to renew his license by January 1.

(3) An examination is required if the business is operated by a person who has not previously been examined.

History: 1954 ACS 71, p. 20, Eff. Mar. 23, 1972; 1954 ACS 95, p. 34, Eff. Apr. 11, 1978.

R 285.633.6 Restrictions and conditions of sales.

Rule 6. (1) The following restricted use pesticides shall be sold only to certified applicators who can exhibit certification credentials substantiating they have been certified in the designated specific categories, subcategories, or method of application established in R 285.636.3 and R 285.636.5 of the Michigan Administrative Code:

(a) Avitrol—Subcategories (7)(a) or (1)(a) or category (8).
(b) Calcium cyanides—Subcategory (7)(a), category (8), or fumigation.
(c) DDT—Subcategory (7)(c) or category (8).
(d) Fluoroacetamide—Subcategory (7)(a) or category (8).
(e) Hydrocyanic acid—Subcategory (7)(a), category (8), or fumigation.
(f) Methyl bromide—Fumigation.
(g) Sodium cyanide—Subcategory (7)(a), category (8), or fumigation.
(h) Sodium fluoroacetate—Subcategory (7)(a) or category (8).
(i) Strychnine—Subcategory (7)(a) or category (8).

(2) A licensed restricted use pesticides dealer shall provide each purchaser of restricted use pesticides, in addition to the registered label instructions for handling, use, and safety precautions, any other information required by the director relating to safe use to avoid hazards to man and the environment.

History: 1954 ACS 71, p. 21, Eff. Mar. 23, 1972; 1954 ACS 95, p. 34, Eff. Apr. 11, 1978.

R 285.633.7 Dealers' records and reports of sales of pesticides.

Rule 7. A licensed dealer shall keep a record, on forms supplied by the director, of each sale of restricted use pesticides. Such record shall be transmitted to the director monthly, and shall be due in the office of the director not later than the fifteenth day of the month following the month of sale.

History: 1954 ACS 71, p. 21, Eff. Mar. 23, 1972; 1954 ACS 95, p. 34, Eff. Apr. 11, 1978.

REGULATION NO. 634. COMMERCIAL FERTILIZERS

(By authority conferred on the director of agriculture by section 15 of Act No. 198 of the Public Acts of 1975, being §286.765 of the Michigan Compiled Laws)

R 285.634.1 Fertilizers for agricultural crop production.

Rule 1. Additional plant nutrients, other than nitrogen, phosphorus, and potassium, claimed to be present in any form or manner in agricultural fertilizers, shall be guaranteed on the elemental basis at levels not less than the following:

Boron	0.125% minimum	Iron	0.10% minimum
Calcium	1.00% minimum	Molybdenum	0.04% minimum
Magnesium	1.00% minimum	Sulfur	1.00% minimum
Manganese	1.00% minimum	Zinc	0.50% minimum or as a chelate at 0.125%
Copper	0.50% minimum or as a chelate at 0.10%		

History: 1954 ACS 87, p. 13, Eff. May 5, 1976.

R 285.634.2 Specialty fertilizers; micronutrient content.

Rule 2. Additional plant nutrients, other than nitrogen, phosphorus, and potassium, claimed to be present in any form or manner in specialty fertilizers, shall be guaranteed on the elemental basis at levels not less than the following:

Calcium	1.00%	Iron	0.10%
Magnesium	0.50%	Manganese	0.05%
Sulfur	1.00%	Molybdenum	0.0005%
Boron	0.02%	Zinc	0.05%
Copper	0.05%	Chlorine	0.10%

History: 1954 ACS 87, p. 13, Eff. May 5, 1976.

R 285.634.3 Placement of micronutrient guarantees on label.

Rule 3. Guarantees or claims for the additional plant nutrients listed in R 285.634.1 and R 285.634.2 are the only ones that will be accepted. Any of the elements guaranteed shall appear in the guaranteed analysis section of the label immediately following the guarantees for the primary nutrients of nitrogen, phosphorus, and potassium.

History: 1954 ACS 87, p. 13, Eff. May 5, 1976.

R 285.634.4 Slowly available plant nutrients.

Rule 4. (1) A fertilizer label shall not bear a statement that connotes or implies the presence of a slowly available plant nutrient, unless the nutrient is identified.

(2) When a fertilizer label implies or connotes that the nitrogen is slowly available through the use of words such as "organic," "organic nitrogen," "ureaform," "long lasting," or similar terms, the guaranteed analysis shall indicate the percentage of water insoluble nitrogen. This requirement shall not apply to manipulated animal and composted vegetable materials distributed as such and not mixed with other materials. The label shall not bear a reference to slowly available nitrogen when water insoluble nitrogen is less than 15% of the total nitrogen.

(3) The term "coated—slow release" may be accepted as descriptive of products and shall be allowed on labeling when the manufacturer can provide acceptable data substantiating the claim.

History: 1954 ACS 87, p. 13, Eff. May 5, 1976.

R 285.634.5 Specialty fertilizer labeling format.

Rule 5. The following information, if not appearing on the face or display side of a container in a readable and conspicuous form, shall occupy at least the upper third of a side of the container and shall be considered the label:

(a) Net weight.

(b) Brand name and grade.

(c) Guaranteed analysis:

Total nitrogen (N) ..... _____%

_____% Ammoniacal nitrogen (if claimed)

_____% Nitrate nitrogen (if claimed)

_____% Water insoluble nitrogen, (required when terms described in R 285.634.4 are used)

Available phosphoric acid (P_2O_5) ..... _____%

Soluble potash (K_2O) ..... _____%

Additional plant nutrients

(d) Sources of nutrients when shown.

(e) Potential acidity or basicity in terms of calcium carbonate equivalent per ton (if claimed).

(f) Name and address of the registrant.

History: 1954 ACS 87, p. 14, Eff. May 5, 1976.

R 285.634.6 Soil conditioners.

Rule 6. A registration shall not be issued for a product that represents itself by label or supplemental material, leaflets, or advertising to improve the physical nature of the soil by altering the soil structure, by making soil nutrients more available, or otherwise enhancing the soil media resulting in beneficial crop response, unless the manufacturer or distributor of the product can provide scientifically acceptable data from experimentation which give reasonable assurance that such benefits as claimed can be expected to occur and are of definitive benefit to plant growth.

History: 1954 ACS 87, p. 14, Eff. May 5, 1976.

R 285.634.7 Tonnage reporting.

Rule 7. Tonnage reports and fee payment shall be on a form provided by the director of the department of agriculture and shall be for the semiannual periods of January 1 to June 30, and July 1 to December 31, of each calendar year. The reports shall cover all fertilizers, soil conditioners, and peat products sold for soil application in this state.

History: 1954 ACS 87, p. 14, Eff. May 5, 1976.

R 285.634.8 Rescission.

Rule 8. Regulation No. 200, being R 285.200 of the Michigan Administrative Code and appearing on pages 3108 to 3111 of the 1964-65 Annual Supplements to the Code, is rescinded.

History: 1954 ACS 87, p. 14, Eff. May 5, 1976.

REGULATION NO. 635. COMMERCIAL FEED

(By authority conferred on the director of agriculture by section 11 of Act No. 120 of the Public Acts of 1975, being §287.531 of the Michigan Compiled Laws)

R 285.635.1 Definitions and terms.

Rule 1. (1) As used in these rules:

(a) "AAFCO" means the association of American feed control officials.

(b) "Act" means Act No. 120 of the Public Acts of 1975, being §287.521 et seq. of the Michigan Compiled Laws.

(c) "Director" means the director of the department of agriculture.

(d) "Pet" means any domesticated animal normally maintained in or near the household of the owner.

(e) "Pet food" means any commercial feed prepared and distributed for consumption by pets.

(f) "Principal display panel" is that portion of a label that is most likely to be displayed, presented, shown, or examined under normal and customary conditions for retail sale.

(2) Names and definitions for commercial feeds shall be the official definition of feed ingredients adopted by AAFCO, except as the director designates otherwise in specific cases. The terms used in reference to commercial feeds shall be the official feed terms adopted by AAFCO, except as the director designates

otherwise in specific cases. The names, definitions, and terms adopted by AAFCO shall be from their annual publication available from their treasurer.

History: 1954 ACS 87, p. 14, Eff. Mar. 17, 1976.

R 285.635.2 Label format.

Rule 2. Commercial feeds, except pet foods, shall be labeled with the information prescribed in these rules.

(a) The principal display panel shall show such information in the following general format:

(i) Net weight.

(ii) Product name and brand name.

(iii) If drugs are used, the following shall appear:

(A) The word "medicated" directly following or below the product name in type size not smaller than ½ the type size of the product name.

(B) The purpose of medication (claim statement).

(C) The required directions for use and precautionary statements or reference to their location if the detailed feeding directions and precautionary statements required by R 285.635.11 and R 285.635.12 appear elsewhere on the label.

(D) An active drug ingredient statement listing the active drug ingredients by their established name and the amounts pursuant to R 285.635.8(4).

(iv) The guaranteed analysis of the feed as required under section 5(1)(d) of the act, including the following items, unless exempted, and in the order listed:

(A) Minimum percentage of crude protein.

(B) Maximum or minimum percentage of equivalent protein from nonprotein nitrogen as required in R 285.635.8(5).

(C) Minimum percentage of crude fat.

(D) Maximum percentage of crude fiber.

(E) Minerals, to include in the following order: Minimum and maximum percentages of calcium (Ca), minimum percentages of phosphorus (P), minimum and maximum percentages of salt (NaCl), and other minerals.

(F) Vitamins in such terms as specified in R 285.635.8(3).

(G) Total sugars as invert in dried molasses products or in products being sold primarily for their molasses content.

(H) Exemptions to the above guaranteed analysis requirements consist of the following:

1. Guarantees for minerals are not required when specific label claims do not exist and when the commercial feed contains less than 6½% of total mineral elements.

2. Guarantees for vitamins are not required when the commercial feed is neither formulated for, nor represented in any manner as, a vitamin supplement.

3. Guarantees for crude protein, crude fat, and crude fiber are not required when the commercial feed is intended for purposes other than to furnish these substances or they are of minor significance relating to the primary purpose of the product, such as drug premixes, mineral or vitamin supplements, and molasses.

(b) The name of each ingredient as defined in the official definitions of feed ingredients published in the official publication of AAFCO, common or usual name, or one approved by the director, shall be used in the ingredient statement. Collective terms for the grouping of feed ingredients as defined in the official definitions of feed ingredients published in the official publication of AAFCO, in lieu of the individual ingredients, may be used if:

(i) Individual ingredients included in a collective term are not otherwise listed on the label.

(ii) The manufacturer provides the director, upon request, with a listing of individual ingredients within a defined group that are, or have been, used at manufacturing facilities distributing in or into the state.

(c) The name and principal mailing address of the manufacturer or person responsible for distributing the feed shall appear on the label. The principal mailing address shall include the street address, city, state and zip code; however, the street address may be omitted if it is shown in the current city directory or telephone directory.

(d) The information required in section 5(1)(a) to (e) of the act shall appear in its entirety on one side of the label or on one side of the container. The information required by section 5(1)(f) and (g) of the act shall be displayed in a prominent place on the label or container, but not necessarily on the same side as the above information. When the information required by section 5(1)(f) and (g) is placed on a different side of the label or container, it shall be referenced on the front side with a statement such as "see back of label for directions for use." None of the information required by section 5 of the act shall be subordinated or obscured by other statements or designs.

History: 1954 ACS 87, p. 15, Eff. Mar. 17, 1978.

R 285.635.3 Pet food label information.

Rule 3. Pet food shall be labeled with the information prescribed in this rule.

(a) The statement of net content and product name shall be on the principal display panel of the label. Other required information may be placed elsewhere on the label but shall be sufficiently conspicuous to render it easily readable.

(b) The label of a pet food shall specify the name and address of the place of business of the manufacturer, packer, or distributor of the pet food. The statement of the place of business shall include the street address, if any, of the place unless the street address is shown in a current city directory.

(c) The information required to appear in the "guaranteed analysis" shall be listed in the following order and in the form stipulated in R 285.635.8:

Crude protein (minimum)
Crude fat (minimum)
Crude fiber (maximum)
Moisture (maximum)
Additional guarantees shall follow moisture

(d) The maximum moisture in all canned pet foods shall be guaranteed and shall not exceed 78% of the natural moisture content of the constituent ingredients of the product, whichever is greater. Pet foods consisting principally of stew, gravy, sauce, broth, juice, or a milk replacer which are so labeled, may contain moisture in excess of 78%.

(e) Guarantees for minerals are not required if a pet food is neither formulated for, nor represented in any manner as, a mineral supplement. A guarantee as may be given or required shall be expressed as the element and in units of measurement established by a recognized authority on animal nutrition such as the national research council.

(f) Guarantees for vitamins are not required if a pet food is neither formulated for, nor represented in any manner as, a vitamin supplement. A guarantee as may be given or required shall be stated in units of measurement established by a recognized authority on animal nutrition such as the national research council.

(g) A vignette, graphic, or pictorial representation of a product on a pet food label shall not misrepresent the contents of the package.

(h) The words "dog food," "cat food," or similar designations shall appear conspicuously upon the principal display panel of a pet food label.

(i) The label of a pet food shall not contain an unqualified representation or claim, directly or indirectly, that the pet food therein contained or a recommended feeding thereof, is or meets the requisites of a complete, perfect, scientific, or balanced ration for the entire life cycle or any limited stage of the life cycle of a dog or cat unless the product or feeding contains 1 of the following:

(i) Ingredients in quantities sufficient to provide the estimated nutrient requirements for all stages or any limited stage of the life of a dog or cat, which have been established by a recognized authority on animal nutrition, such as the committee on animal nutrition of the national research council.

(ii) A combination of ingredients which, if fed to a normal animal as the only source of nourishment, shall provide satisfactorily for fertility of females, gestation and lactation, normal growth from weaning to maturity without supplementary feeding, and shall maintain the normal weight of an adult animal whether working or at rest and has had its capabilities in this regard demonstrated by adequate testing for the life cycle or for the specific stage of growth claimed. The testing shall be in accord with the protocol established by the association of American feed control officials.

History: 1954 ACS 92, p. 13, Eff. Sept. 15, 1977.

R 285.635.4 Pet food brand and product names.

Rule 4. The brand and product name on commercial pet foods shall comply with each of the following:

(a) A flavor designation shall not be used on a pet food label unless the designated flavor is detectable by a recognized test method, or is one the presence of which provides a characteristic distinguishable by a pet. Any flavor designation on a pet food label shall either conform to the name of its source as shown in the ingredient statement or the ingredient statement shall show the source of the flavor. The word "flavor" shall be printed in the same size type and with an equal degree of conspicuousness as the ingredient term or terms from which the flavor designation is derived. A distributor of pet food employing a flavor designation or claims on the labels of the product distributed by it shall, upon request, supply verification of the designation or claimed flavor.

(b) The designation "100%" or "all" or words of similar connotation shall not be used in the brand or product name of a pet food if it contains more than 1 ingredient. However, for the purpose of this subdivision, water sufficient for processing, required decharacterizing agents, and trace amounts of preservatives and condiments shall not be considered ingredients.

(c) The terms "meat" and "meat by-products" shall be qualified by designating the animal from which the meat and meat by-products are derived unless the meat and meat by-products are from cattle, swine, sheep, and goats. For example, "horsemeat" and "horsemeat by-products."

(d) The name of a pet food shall not be derived from 1 or more ingredients of a mixture to the exclusion of other ingredients and shall not be one representing any components of a mixture of a pet food product unless all components or ingredients are ingredients included in the name as specified by subdivisions (a), (e), or (f). The name of an ingredient or combination of ingredients may be used as a part of the product name if 1 of the following exists:

(i) The ingredient or combination of ingredients is present in sufficient quantity to impart a distinctive characteristic to the product or is presented in amounts which have a material bearing upon the price of the product or upon acceptance of the product by the purchaser thereof.

(ii) It does not constitute a representation that the ingredient or combination of ingredients is present to the exclusion of other ingredients.

(iii) It is not otherwise false or misleading.

(e) If an ingredient or combination of ingredients derived from animals, poultry, or fish constitutes 95% or more of the total weight of all ingredients of a pet food mixture, the name or names of such ingredient or ingredients may form a part of the product name of the pet food provided that where more than 1 ingredient is part of such product name, then all such ingredient names shall be in the same size, style, and color print.

(f) If an ingredient or combination of ingredients derived from animals, poultry, or fish constitutes at least 25% but less than 95% of the total weight of all ingredients of a pet food mixture, the name or names of such ingredient or ingredients may form a part of the product name of the pet food only if the product name also includes a primary descriptive term such as "meatballs" or "fishcakes" so that the product name describes the contents of the product in accordance with an established law, custom, or usage or so that the product name is not misleading. All such ingredient names and the primary descriptive term shall be in the same size, style, and color print.

(g) Contractions or coined names referring to ingredients shall not be used in the brand name of a pet food unless it is in compliance with subdivisions (a), (d), (e), or (f).

History: 1954 ACS 92, p. 14, Eff. Sept. 15, 1977.

R 285.635.5 Brand and product names.

Rule 5. The brand and product names on commercial feeds, except pet foods, shall comply with the following:

(a) The brand or product name shall be appropriate for the intended use of the feed and shall not be misleading. If the name indicates the feed is made for a specific use, the character of the feed shall conform therewith. A mixture labeled "dairy feed," for example, shall be suitable for that purpose.

(b) Commercial, registered brand, or trade names shall not be permitted in guarantees or ingredient listings.

(c) The name of a commercial feed shall not be derived from 1 or more ingredients of a mixture to the exclusion of other ingredients and shall not be one representing components of a mixture unless all components are included in the name. If any ingredient or combination of ingredients is intended to impart a distinctive characteristic to the product which is of significance to the purchaser, the name of that ingredient or combination of ingredients may be used as a part of the brand name or product name if the ingredient or combination of ingredients is listed in the ingredient statement and the brand or product name is not otherwise false or misleading.

(d) The word "protein" shall not be permitted in the product name of a feed that contains added nonprotein nitrogen.

(e) When the name carries a percentage value, it shall be understood to signify protein or equivalent protein content only, or both, even though it may not explicitly modify the percentage with the word "protein." Other percentage values may be permitted if they are followed by the proper description and conform to generally acceptable labeling practice. When a numeral is used in the brand name, except in mineral, vitamin, or other products where the protein guarantee is nil or unimportant, it shall be preceded by the word "number," or some other suitable designation.

(f) Single ingredient feeds shall have a product name in accordance with the designated definition of feed ingredients as recognized by AAFCO, unless the director designates otherwise.

(g) The word "vitamin," a contraction thereof, or any word suggesting vitamin may be used only in the name of a feed which is represented to be a vitamin supplement, and which is labeled with the minimum content of each vitamin declared, as specified in R 285.635.8(3).

(h) The term "mineralized" shall not be used in the name of a feed, except for "trace mineralized salt." When so used, the product shall contain significant amounts of trace minerals which are recognized as essential for animal nutrition.

History: 1954 ACS 87, p. 16, Eff. Mar. 17, 1976.

R 285.635.8 Expression of guarantees.

Rule 8. (1) The guarantees for crude protein, equivalent protein from non-protein nitrogen, crude fat, crude fiber, and mineral guarantees shall be in terms of percentage by weight.

(2) Commercial feeds containing 6½% or more of total mineral elements shall include in the guaranteed analysis the minimum and maximum percentages of calcium (Ca), the minimum percentage of phosphorus (P), and, if salt is added, the minimum and maximum percentage of salt (NaCl). Minerals, except salt (NaCl), shall be guaranteed in terms of percentage of the element. When calcium or salt guarantees, or both, are given in the guaranteed analysis, that fact shall be stated and conform to the following:

(a) When the minimum is 5.0% or less, the maximum shall not exceed the minimum by more than 1 percentage point.

(b) When the minimum is above 5.0%, the maximum shall not exceed the minimum by more than 20% and in no case shall the difference between maximum and minimum exceed 5 percentage points.

(3) Guarantees for minimum vitamin content of commercial feeds and feed supplements shall be stated on the label in milligrams per pound of feed, except that:

(a) Vitamin A, other than precursors of vitamin A, shall be stated in international units (IU) or United States Pharmacopeia (USP) per pound.

(b) Vitamin D, in products offered for poultry feeding, shall be stated in international chick units per pound. Vitamin D for other uses shall be stated in international units (IU) or United States Pharmacopeia (USP) per pound.

(c) Vitamin E shall be stated in international units (IU) or United States Pharmacopeia (USP) per pound.

(d) Guarantees for vitamin content on the label of a commercial feed shall state the guarantee as true vitamins, not compounds, with the exception of the compounds, pyridoxine hydrocholoride, choline chloride, thiamine, and d-pantothenic acid.

(e) Oils and premixes containing vitamin A or vitamin D, or both, may be labeled to show vitamin content in terms of units per gram.

(4) Guarantees for drugs shall be stated in terms of percent by weight, except:

(a) Antibiotics present at less than 2,000 grams per ton, total, of commercial feed shall be stated in grams per ton of commercial feed.

(b) Antibiotics present at 2,000 grams or more per ton, total, of commercial feed shall be stated in grams per ton of commercial feed.

(c) Labels for commercial feeds which are to be fed continuously as the sole ration containing growth promotion or feed efficiency levels of antibiotics, or both, are not required to make quantitative guarantees, except as specifically

noted in 21 C.F.R. part 121, chapter 1, for certain antibiotics wherein quantitative guarantees are required regardless of the level or purpose of the antibiotic.

(d) The term "milligrams per pound" may be used for drugs or antibiotics in those cases where a dosage is given in milligrams in the feed directions.

(5) Commercial feeds containing added nonprotein nitrogen shall be labeled as follows:

(a) Complete feeds, supplements, and concentrates containing added nonprotein nitrogen and containing more than 5% protein from natural sources shall be guaranteed as follows:

Crude protein, minimum, _____%
(This includes not more than _____%
equivalent protein from nonprotein nitrogen)

(b) Mixed feed concentrates and supplements containing less than 5% protein from natural sources may be guaranteed as follows:

Equivalent crude protein from nonprotein nitrogen, minimum, _____%

(c) Ingredient sources of nonprotein nitrogen such as urea, di-ammonium phosphate, ammonium polyphosphate solution, ammoniated rice hulls, or other basic nonprotein nitrogen ingredients defined by AAFCO shall be guaranteed as follows:

Nitrogen, minimum, _____%
Equivalent crude protein from nonprotein nitrogen,
minimum, _____%

(6) Mineral phosphatic materials for feeding purposes shall be labeled with the guarantee for minimum and maximum percentage of calcium, the minimum percentage of phosphorus, and the maximum percentage of fluorine.

History: 1954 ACS 87, p. 16, Eff. Mar. 17, 1976.

R 285.635.10 Ingredients.

Rule 10. (1) The name of each ingredient or collective term for the grouping of ingredients shall be the name as defined in the official definitions of feed ingredients as published in the official publication of AAFCO, or one approved by the director.

(2) The name of each ingredient shall be shown in letters or type of the same size.

(3) A reference to quality or grade of an ingredient shall not appear in the ingredient statement of a feed.

(4) The term "dehydrated" may precede the name of a product that has been artificially dried.

(5) A single ingredient product defined by AAFCO need not have an ingredient statement.

(6) When the word "iodized" is used in connection with a feed ingredient, the feed ingredient shall contain not less than 0.007% iodine, uniformly distributed.

History: 1954 ACS 87, p. 17, Eff. Mar. 17, 1976.

R 285.635.11 Directions for use; precautionary statements.

Rule 11. (1) Directions for use and precautionary statements on the labeling of commercial feeds and customer-formula feeds containing additives, including drugs, special purpose additives, or nonnutritive additives, shall:

(a) Be adequate to enable safe and effective use for the intended purposes by users without special knowledge of the purpose and use of the articles.

(b) Include all information prescribed by applicable regulations under the federal food, drug, and cosmetic act, 21 C.F.R. part 121 and part 558.

(2) Adequate directions for use and precautionary statements are required for feeds containing nonprotein nitrogen as specified in R 285.635.12.

(3) Adequate directions for use and precautionary statements necessary for safe and effective use are required on commercial feeds distributed to supply particular dietary needs or for supplementing or fortifying the usual diet or ration with a vitamin, mineral, or other dietary nutrient or compound.

History: 1954 ACS 87, p. 18, Eff. Mar. 17, 1976.

R 285.635.12 Nonprotein nitrogen.

Rule 12. (1) Urea and other nonprotein nitrogen products defined in the official publication of AAFCO are acceptable ingredients only in commercial feeds for ruminant animals as a source of equivalent crude protein and shall not be used in commercial feeds for other animals and birds.

(2) If the commercial feed contains more than 8.75% of equivalent crude protein from all forms of nonprotein nitrogen, added as such, or the equivalent crude protein from all forms of nonprotein nitrogen, added as such, exceeds ⅛ of the total crude protein, the label shall bear adequate directions for the safe use of feeds and a precautionary statement:

"CAUTION: USE AS DIRECTED"

The directions for use and the caution statement shall be in type of such size so placed on the label that they may be read and understood by ordinary persons under customary conditions of purchase and use.

(3) On labels such as those for medicated feeds which bear adequate feeding directions or warning statements, or both, the presence of added nonprotein nitrogen shall not require a duplication of the feeding directions or the precautionary statements as long as those statements include sufficient information to ensure the safe and effective use of this product due to the presence of nonprotein nitrogen.

History: 1954 ACS 87, p. 18, Eff. Mar. 17, 1976.

R 285.635.13 Drug and feed additives.

Rule 13. (1) Prior to approval of a license application, or approval of a label for commercial feed which contains additives (including drugs, other special purpose additives, or nonnutritive additives, or both), the manufacturer may be required to submit evidence to prove the safety and efficacy of the commercial feed when used according to the directions furnished on the label.

(2) Satisfactory evidence of safety and efficacy of a commercial feed is achieved when:

(a) The commercial feed contains such additives, the use of which conforms to the requirements of the applicable regulation in the food additives regulations, 21 C.F.R. part 121, chapter 1, or which are "prior sanctioned" or "generally recognized as safe" for such use.

(b) The commercial feed is itself a drug as defined in section 3(h) of the act and is generally recognized as safe and effective for the labeled use or is marketed subject to an application approved by the food and drug administration under 21 U.S.C. §512.

History: 1954 ACS 87, p. 18, Eff. Mar. 17, 1976.

R 285.635.14 Adulterants.

Rule 14. (1) For the purpose of section 8(1)(a) of the act, the term "poisonous or deleterious substances" includes, but is not limited to, the following:

(a) Fluorine and any mineral or mineral mixture which is to be used directly for the feeding of domestic animals and in which the fluorine exceeds 0.10% for cattle, 0.30% for sheep, 0.45% for swine, and 0.60% for poultry.

(b) Fluorine-bearing ingredients when used in such amounts that they raise the fluorine content of the total ration exclusive of hay and silages above 0.002% for cattle, 0.006% for sheep, 0.014% for swine, and 0.030% for poultry.

(c) Soybean meal, flakes, or pellets, or other vegetable meals, flakes, or pellets, which have been extracted with trichlorethylene or other chlorinated solvents.

(d) Sulfur dioxide, sulfurous acid, and salts of sulfurous acid when used in or on feeds or feed ingredients which are considered or reported to be a significant source of vitamin B1 (thiamine).

(2) Screenings or by-products of grains and seeds containing weed seeds, when used in commercial feed or sold as such to the ultimate consumer, shall be ground fine enough or otherwise treated to destroy the viability of such weed seeds so that the finished product does not contain any viable prohibited weed seeds per pound and not more than 90 viable restricted weed seeds per pound. Prohibited and restricted weed seeds shall be those defined in Act No. 329 of the Public Acts of 1965, as amended, being §286.701 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 87, p. 18, Eff. Mar. 17, 1976; 1954 ACS 92, p. 15, Eff. Sept. 15, 1977.

R 285.635.15 Good manufacturing practices.

Rule 15. For the purposes of enforcing section 8(f) of the act, the director adopts the following as current good manufacturing practices:

(a) The regulations prescribing good manufacturing practices for medicated feeds as published in 21 C.F.R. §§225.1 to 225.115.

(b) The regulations prescribing good manufacturing practices for medicated premixes as published in 21 C.F.R. §§226.1 to 226.115.

History: 1954 ACS 87, p. 19, Eff. Mar. 17, 1976.

R 285.635.16 Recall procedures.

Rule 16. When a voluntary recall that requires notification to the director pursuant to the act is initiated by a licensee, the notification may be oral if it is followed by a written notice to the director.

History: 1954 ACS 87, p. 19, Eff. Mar. 17, 1976.

R 285.635.17 Tonnage inspection fee.

Rule 17. The tonnage inspection fee determined in accordance with section 6(3) of Act No. 120 of the Public Acts of 1975, being §287.526(3) of the Michigan Compiled Laws, is established at 13 cents per ton.

History: 1954 ACS 92, p. 15, Eff. Sept. 15, 1977.

REGULATION NO. 636. PESTICIDE APPLICATORS

(By authority conferred on the director of the department of agriculture by section 19 of Act No. 171 of the Public Acts of 1976, being §286.569 of the Michigan Compiled Laws)

R 285.636.1 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 171 of the Public Acts of 1976, being §286.551 et seq. of the Michigan Compiled Laws.

(b) "Aerial application" means the application of a pesticide by aircraft.

Digitized by Google

(c) "Forest" means a concentration of trees and related vegetation in non-urban areas which is sparsely inhabited by, and infrequently used by, humans and which is characterized by natural terrain and drainage patterns.

(d) "Licensed commercial applicator" means the owner, operator, or manager of a licensed pesticide application business.

(e) "Pesticide advisory committee" means the pesticide advisory committee as provided by section 20 of the act.

(f) "Space fumigation" means the application of pesticide gases in sealed enclosures or structures, including, but not limited to, soil, stored grain facilities, "hot spot" fumigation (treatment of localized areas in a grain mass), railway cars, trucks, greenhouses, and other indoor areas.

(2) The terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 89, p. 9, Eff. Nov. 12, 1976.

R 285.636.2 Application for certification.

Rule 2. A "private applicator" or "commercial applicator" desiring to be certified pursuant to the act shall apply on a form prescribed by the director. The application shall be accompanied by the application fee prescribed by the act. Commercial applicators shall designate the category or categories of certification desired in accordance with R 285.636.3. An application pending after 1 year from the date on the application shall become void.

History: 1954 ACS 89, p. 10, Eff. Nov. 12, 1976.

R 285.636.3 Certification categories and subcategories for commercial applicators.

Rule 3. The following categories and subcategories of pesticide application for commercial applicators are established to include:

(1) Agricultural pest control:

(a) Field crops—Includes the application of pesticides on field crop lands for the production of such crops as cereal grains, feed grains, beans, soybeans, sugarbeets, and forage.

(b) Vegetable crops—Includes the application of pesticides on vegetable crop lands for the production of such crops as tomatoes, potatoes, snap beans, celery, onions, cucurbits, cole crops, and sweet crops.

(c) Fruit crops—Includes the application of pesticides to fruit crop lands for the production of tree and small fruit crops.

(d) Animal—Includes commercial applicators who use or supervise the use of pesticides on animals, including cattle, swine, sheep, horses, goats, other livestock, and poultry, and the use of pesticides on or in places where animals are confined. Doctors of veterinary medicine engaged in the business of applying pesticides for hire, publicly holding themselves out as pesticide applicators, or engaged in large-scale use of pesticides aside from normal practice, are included in this category.

(2) Forest pest control—Includes commercial applicators using or supervising the use of pesticides in forests, forest nurseries, and forest seed-producing areas.

Forest products—Commercial applicators using or supervising the use of pesticides for preserving wood products.

(3) Ornamental and turf pest control—Includes commercial applicators using or supervising the use of pesticides in the maintenance and production of ornamental trees, Christmas trees, shrubs, flowers, and turf, and the treatment of such areas for mosquito control.

(4) Seed treatment—Includes commercial applicators using or supervising the use of pesticides on seeds.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(5) Aquatic pest control—Includes commercial applicators using or supervising the use of pesticides purposefully applied to lakes, ponds, streams, marshes, or ditches, and tributaries which flow into them, or applied to surfaces contacting such bodies of water, but does not include applicators engaged in public health-related activities included in category (8).

(6) Right-of-way pest control—Includes commercial applicators using or supervising the application of pesticides in the maintenance of public roads, ditch banks, electric powerlines, pipelines, railway rights-of-way, parking lots, tennis courts, or similar non-crop areas.

(7) Industrial, institutional, structural, and health-related pest control:

(a) General pest control—Includes commercial applicators using or supervising the use of pesticides in, on, or around food-handling establishments; human dwellings; institutions, such as schools and hospitals; industrial establishments, including warehouses and grain elevators; and any other structure or adjacent areas, including public or private vehicles; and the use of pesticides for the treatment of such areas for mosquito control, or for the protection of stored, processed, or manufactured products, but not including applicators engaged in the control of wood-destroying organisms as described in subcategory (7)(b).

(b) Wood-destroying organisms—Includes commercial applicators using or supervising the use of pesticides in, on, or around structures for the control of such wood-destroying pests as termites, powder post beetles, carpenter ants, and wood-destroying fungi.

(c) Contractual public health pest control—Includes licensed commercial applicators performing a public health pest control service under contract by a governmental agency, and in so doing, using or supervising the use of pesticides to control pests having medical and public health significance.

(8) Public health pest control—Includes state, federal, or other governmental employees using or supervising the use of restricted-use pesticides in public health programs for the management and control of pests having medical and public health importance.

(9) Regulatory pest control—Includes state, federal, or other governmental employees using or supervising the use of restricted-use pesticides in the control of regulated pests.

(10) Demonstration and research pest control—Includes individuals who demonstrate to the public the proper use and techniques of application of restricted-use pesticides or supervise such demonstrations, and persons who conduct field research with pesticides, and in so doing, use or supervise the use of restricted-use pesticides.

History: 1954 ACS 89, p. 10, Eff. Nov. 12, 1976; 1954 ACS 99, p. 35, Eff. Apr. 18, 1979.

R 285.636.4 Standards for certification of commercial applicators.

Rule 4. Commercial applicators shall demonstrate a practical knowledge, by written examination, of the principles and practices of pest control and the safe use of pesticides, to include the general standards applicable to all categories and the standards specifically identified for each category or subcategory designated by the applicant as set forth in 40 C.F.R. §§171.4 and 171.6 and these rules. In addition, applicators applying pesticides by aircraft or employing space fumigation shall be examined on the additional standards specifically identified for the methods of application as specified in subdivision (b). Standards for certification shall be as follows:

(a) Subcategory standards:

(i) Field crops (R 285.636.3(1)(a)), vegetable crops (R 285.636.3(1)(b)), and fruit crops (R 285.636.3(1)(c))—Applicators shall demonstrate a practical knowledge of the relevant crops, associated pests, soil and water problems, preharvest intervals, reentry intervals, phytotoxicity, potential for environmental contamination and nontarget injury resulting from the use of pesticides in agricultural areas.

(ii) Forest products (R 285.636.3(2)(a))—Applicators shall demonstrate a practical knowledge of the principles and practices associated with the safe use of wood preservatives, and shall demonstrate a practical knowledge of wood-destroying organisms, types of formulations appropriate for their control, and methods of application. Since human exposure is frequently a potential problem, applicators shall demonstrate a practical knowledge of the specific factors which may lead to a hazardous condition.

(iii) General pest control (R 285.636.3(7)(a))—Applicators shall demonstrate a practical knowledge of a wide variety of pests, including their life cycles; types of formulations appropriate for their control; and methods of application that avoid the contamination of food, damage and contamination of habitat, and exposure of people and pets. Since human exposure, including the exposure of babies, children, pregnant women, and elderly people, is frequently a potential problem, applicators shall demonstrate a practical knowledge of the specific factors which may lead to a hazardous condition, including continuous exposure in the various situations encountered in this category. Because health-related pest control may involve outdoor applications, applicators shall also demonstrate a practical knowledge of environmental conditions particularly related to this activity.

(iv) Wood-destroying organisms (R 285.636.3(7)(b))—Applicators shall demonstrate a practical knowledge of wood-destroying organisms, including their life cycles, types of formulations appropriate for their control, and the methods of application that avoid the contamination of food, damage and contamination of habitat, and exposure of people and pets. Since human exposure, including the exposure of babies, children, pregnant women, and elderly people, is frequently a potential problem, applicators shall demonstrate a practical knowledge of the specific factors which may lead to a hazardous condition, including continuous exposure in the various situations encountered in this category.

(v) Contractual public health pest control (R 285.636.3(7)(c))—Applicators shall demonstrate a practical knowledge of the management and control of pests having medical and public health importance, including their life cycles and habitats, and methods of application that avoid the contamination of food and the exposure of people. These applicators shall have a practical knowledge of a great variety of environments, ranging from streams to those conditions found in buildings, and a practical knowledge of the employment of such non-chemical control methods as sanitation, waste disposal, and drainage.

(b) Additional standards:

(i) Aerial applicators—Applicators applying pesticides by aircraft shall demonstrate a practical knowledge of the techniques of aerial application and applicable federal aviation administration regulations. Practical knowledge is required concerning nontarget injury that may result from aerial application of pesticides.

(ii) Space fumigation—Applicators shall demonstrate a practical knowledge of the principles and methods of space fumigation. Practical knowledge is required concerning toxicity, the potential for environmental contamination, and the nontarget injury that may result from the use of pesticide gases.

(c) Administrative standards—Applicators requesting certification in a method of application which differs in part from 1 of the established categories set forth in

R 285.636.3 shall demonstrate a practical knowledge of such standards determined by the director as being applicable to the method of application described by the applicant. Such standards prescribed by the director shall include the general standards applicable to all categories and the standards specifically identified as appropriate for the applicant's method of application.

History: 1954 ACS 89, p. 11, Eff. Nov. 12, 1976; 1954 ACS 99, p. 36, Eff. Apr. 18, 1979.

R 285.636.5 Standards for certification of private applicators.

Rule 5. Private applicators shall demonstrate a practical knowledge of the principles and practices of pest control and the safe use of pesticides, including the standards for certification of private applicators set forth in 40 C.F.R. §§171.5 and 171.6. In addition, private applicators applying pesticides by aircraft or employing space fumigation shall demonstrate a practical knowledge of the additional standards specifically identified for those methods of application in R 285.636.4(b).

History: 1954 ACS 89, p. 12, Eff. Nov. 12, 1976; 1954 ACS 99, p. 37, Eff. Apr. 18, 1979.

R 285.636.6 Certification examinations.

Rule 6. (1) Certification examinations shall be conducted at a time and place designated by the director. A score of 70 or above is required for passing any written examination. A score of less than 70 on the general standards examination shall result in denial of certification. Failure of a category or method of application examination shall result in denial of certification for that category or method of application. A reexamination may be requested and shall be given.

(2) An oral fact-finding interview for private applicators, as provided by the act, shall consist of oral standardized questions developed by the Michigan state university cooperative extension service and approved by the pesticide advisory committee. Such questions shall address the standards of competency for private applicators set forth in the federal regulations (40 C.F.R. §§171.5 and 171.6). The oral fact-finding interview may restrict the applicator to use only a certain type of equipment or pesticide.

History: 1954 ACS 89, p. 12, Eff. Nov. 12, 1976.

R 285.636.7 Certificate of competence; issuance; expiration; renewal; replacement; certification in additional category or method.

Rule 7. (1) An applicant for certification who is found to be qualified under the act and these rules shall be issued a certificate of competence, which shall be valid, unless suspended or revoked for cause, to the third birthday of the applicant following the year of issuance. However, certificates issued prior to October 21, 1977, to private applicators and commercial applicators not required to be licensed, shall not expire earlier than October 21, 1980.

(2) A commercial applicator certificate shall show the categories and applicable methods of application in R 285.636.4(b) for which the person has demonstrated competence.

(3) A private applicator certificate shall show the applicable methods of application R 285.636.4(b) for which the person has demonstrated competence.

(4) A certificate may be renewed by application on a form prescribed by the director and accompanied by the application fee prescribed by the act and upon determination that the applicant has met the qualifications established by the act and these rules. To assure that certified applicators maintain competence in the use of pesticides, the director, as a condition for renewal, may require verifiable attendance at designated training meetings, or may require an examination on

changes in pesticide application technology or use patterns pertinent to the certification category, or may require both.

(5) Loss or theft of a certificate shall be reported to the director by the person to whom issued immediately upon discovery. A replacement shall be issued for a lost, stolen, or mutilated certificate upon receipt of an application on a form prescribed by the director and the application fee established by the act.

(6) A commercial applicator who, after initial certification, desires certification in an additional category or method of application may apply on a form prescribed by the director, accompanied by the application fee established by the act. Upon satisfactory completion of the examination for the category or method as required by R 285.636.6, and upon surrender of the certificate in possession, the applicant shall be issued a replacement certificate showing the additional category and the expiration date of the certificate replaced.

History: 1954 ACS 89, p. 12, Eff. Nov. 12, 1976.

R 285.636.8 Application for license.

Rule 8. (1) Application for license to engage in the business of applying pesticides shall be made on a form prescribed by the director. The applicant shall be a certified applicator or shall employ a certified applicator to apply or supervise the application of pesticides. The licensee shall notify the director of any changes relative to the status of a certified applicator named on the license application.

(2) A license application shall be accompanied by a certificate from an insurance company or an approved surplus lines company, authorized to do business in this state, setting forth the insurance limits prescribed in R 285.636.10.

(3) When using an assumed name, an application for an original license shall be accompanied by a registered assumed name certificate.

(4) A foreign corporation shall obtain a certificate of authority to transact business in the state of Michigan from the corporation and securities bureau of the department of commerce pursuant to Act No. 284 of the Public Acts of 1972, as amended, being §450.1101 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 89, p. 12, Eff. Nov. 12, 1976.

R 285.636.9 License renewals.

Rule 9. A license may be renewed on the form prescribed by the director if the applicant meets all of the qualifications set forth in the act and these rules.

History: 1954 ACS 89, p. 13, Eff. Nov. 12, 1976.

R 285.636.10 Financial responsibility.

Rule 10. (1) A licensed commercial applicator shall maintain general liability insurance, except as provided in R 285.636.10(5), during the licensing period or during the period of time necessary to span a seasonal operation.

(2) Minimum insurance coverage for persons engaged in aerial application or space fumigation shall be $100,000.00 for each occurrence, with a $300,000.00 annual aggregate for bodily injury and $100,000.00 property damage, or a combined single limit of $300,000.00 annual aggregate for bodily injury and property damage.

(3) Minimum insurance coverage for persons licensed in a category or subcategory described in R 285.636.3 shall be $100,000.00 for each occurrence, with a $300,000.00 annual aggregate for bodily injury and $50,000.00 property damage, or a combined single limit of $300,000.00 annual aggregate for bodily injury and property damage, except as prescribed in R 285.636.10(2).

(4) If an applicant is qualified for a license in 2 or more application categories with different minimum financial responsibilities, the greater requirement shall apply.

(5) A single general liability insurance policy, as prescribed in R 285.636.10(2) and (3), may be written to provide financial responsibility coverage for more than one licensed place of business owned and operated by the same person.

(6) If the required insurance coverage for a license expires or is canceled during the license period, the license shall be suspended and the licensee shall surrender the license to the director for the remainder of the licensing period, or until such time as the financial responsibility requirements are in compliance.

History: 1954 ACS 89, p. 13, Eff. Nov. 12, 1976.

R 285.636.11 Commercial applicator records.

Rule 11. All commercial applicators shall maintain a record of restricted use pesticide applications for a period of at least 2 years following the application. Such records shall show the name of the pesticide applied, amount used, purpose, date, place where applied, and the method and the rate of application. The applicator's records shall be made available upon request to an authorized representative of the director during normal business hours.

History: 1954 ACS 89, p. 13, Eff. Nov. 12, 1976.

R 285.636.12 Supervision of noncertified applicators.

Rule 12. (1) A certified applicator who functions in a supervisory role shall be responsible for the actions of any noncertified applicators under his instruction and control.

(2) A certified applicator shall provide verifiable instructions for the application of a restricted-use pesticide applied by a noncertified applicator under his control when the certified applicator is not required to be physically present. The instructions may be either oral or written and shall include instructions for contacting the certified applicator in the event he is needed.

(3) The certified applicator shall be physically present to supervise the application of a pesticide by a noncertified applicator if such presence is required by the label of the pesticide being applied.

(4) Each pilot applying pesticides from aircraft shall be certified pursuant to the applicable standards prescribed under R 285.636.4.

History: 1954 ACS 89, p. 13, Eff. Nov. 12, 1976; 1954 ACS 99, p. 37, Eff. Apr. 18, 1979.

R 285.636.13 Rescission.

Rule 13. Regulation No. 632, entitled "Economic Poisons Applicators," being R 285.632.1 to R 285.632.6 of the Michigan Administrative Code and appearing on pages 5462 to 5464 of the 1970-71 Annual Supplements to the Code, is rescinded.

History: 1954 ACS 89, p. 13, Eff. Nov. 12, 1976.

REGULATION NO. 714. SEED LAW IMPLEMENTATION

(By authority conferred on the director of agriculture by section 11 of Act No. 329 of the Public Acts of 1965, being §286.711 of the Michigan Compiled Laws)

R 285.714.1 Definitions.

Rule 1. When used in these rules, the terms defined in section 2 of Act No. 329 of the Public Acts of 1965, the Michigan seed law, and in R 285.714.2 to R 285.714.6 are applicable.

History: 1954 ACS 49, p. 7, Eff. Feb. 14, 1967.

R 285.714.2 Agricultural seed.

Rule 2. "Agricultural seed" means the following kinds of grass, forage, cereal, fiber, turfgrass, oil plant, and lawn seeds which are used for seeding purposes in Michigan:

Alfalfa-Medicago sativa L.
Barley-Hordeum vulgare L.
Bean, field-Phaseolus vulgaris L.
Bean, mung-Phaseolus aureus Roxb.
Beet, field-Beta vulgaris L.
Beet, sugar-Beta vulgaris L.
Bentgrass, colonial-Agrostis tenuis Sibth.
Bentgrass, creeping-Argrostis palustris Huds.
Bentgrass, velvet-Agrostis canina L.
Bermudagrass, common-Cynodon dactylon (L.) Pers.
Bermudagrass, giant-Cynodon sp.
Bluegrass, bulbous-Poa bulbosa L.
Bluegrass, Canada-Poa compressa L.
Bluegrass, glaucantha-Poa glaucantha Gaud.
Bluegrass, Kentucky-Poa pratenis L. (incl. all varieties.)
Bluegrass, Nevada-Poa nevadenis Vasey
Bluegrass, rough-Poa trivialis L.
Bluegrass, Texas-Poa, arachnifera Torr.
Bluegrass, wood-Poa nemoralis L.
Brome, field-Bromus arvensis L.
Brome, mountain-Bromus marginatus Nees.
Brome, smooth-Bromus inermis Leyss.
Broomcorn-Sorghum vulgare var. technicum (Koern.) Jav.
Buckwheat-Fagopyrum esculentum Moench (F. vulgare Hill.)
Burclover, California-Medicago hispida Gaertn.
Burclover, spotted-Medicago arabica (L.) DC.
Buttonclover-Medicago orbicularis (L.) All.
Canarygrass-Phalaris canariensis L.
Canarygrass, reed-Phalaris arundinacea L.
Castorbean-Ricinus communis L.
Clover, alsike-Trifolium hybridum L.
Clover, crimson-Trifolium incarnatum L.
Clover, Kenya-Trifolium semipilosum Fresn.
Clover, large hop-Trifolium procumbens L.
Clover, small hop (suckling)-Trifolium dubium Sibth.
Clover, ladino-Trifolium repens L.
Clover, red (medium or mammoth)-Trifolium pratense L.

Clover, strawberry-Trifolium fragiferum L.
Clover, white-Trifolium repens L. (also see Clover, Ladino.)
Corn, field-Zea mays L.
Corn, pop-Zea mays var. everta (Sturt.) Bailey
Cowpea-Vigna sinensis (Torner) Savi
Crested dogtail-Cynosurus cristatus L.
Crownvetch-Coronilla varia L.
Emmer-Triticum dicoccum Schrank.
Fescue, Chewings-Festuca rubra var. commutata Gaud.
Fescue, hair-Festuca capillata Lam.
Fescue, hard-Festuca ovina var. duriuscula (L.) Koch.
Fescue, meadow-Festuca elatior L.
Fescue, red-Festuca rubra L.
Fescue, sheep-Festuca ovina L.
Fescue, tall-Festuca arundinacea Schreb.
Flax-Linum usitatissimum L.
Hemp-Cannabis sativa L.
Indiangrass, yellow-Sorghastrum nutans (L.) Nash
Japanese lawngrass-Zoysia japonica Steud.
Lentil-Lens culinaris Medic.
Lespedeza, Korean-Lespedeza stipulacea Maxim.
Lespedeza, sericea or Chinese-Lespedeza cuneata (Dumont) D. Don (L. sericea (Thunb.) Miq.)
Lespedeza, Siberian-Lespedeza hedysaroides L.
Lespedeza, striate-Lespedeza striata (Thunb.) Hook and Arn.
Lupine, blue-Lupinus angustifolius L.
Lupine, white Lupinus albus L.
Lupine, yellow-Lupinus luteus L.
Millet, browntop-Panicum ramosum L.
Millet, foxtail-Setaria italica (L.) Beauv.
Millet, Japanese-Echinochloa crusgalli var. frumentacea (Roxb.) Wight.
Millet, pearl-Pennisetum glaucum (L.) R. Br.
Millet, proso-Panicum miliaceum L.
Oat-Avena Byzantine C. Koch, A. sativa L., A. nuda L.
Oatgrass, tall-Arrhenatherum elatius (L.) Mert. and Koch.
Orchardgrass-Dactylis glomerata L.
Pea, field-Pisum sativum var. arvense (L.) Poir.
Poe trivialis-(see Bluegrass, rough).
Rape, annual-Brassica napus var. annua Koch.
Rape, bird-Brassica campestris L.
Rape, turnip-Brassica campestris vars.
Rape, winter-Brassica napus var. biennis (Schubl. and Mart.) Reichb.
Redtop-Agrostis alba L.
Roughpea, Lathyrus hirsutus L.
Rye-Secale cereale L.
Ryegrass, annual or Italian-Lolium multiflorum Lam.
Ryegrass, perennial-Lolium perenne L.
Ryegrass, Wimmera-Lolium rigidum Gaud.
Safflower-Carthamus tinctorius L.
Sorghum-Sorghum vulgare Pers.
Sorghum-sudangrass hybrid-Sorghum vulgare x S. Sudanense
Sourclover-Melilotus Indica (L.) All.

Soybean-Glycine max (L.) Merrill (Soja max (L.) Piper).
Spelt-Triticum spelta L.
Sudangrass-Sorghum vulgare var. sudanense (Piper) Hitche.
Sugar Beet-Beta vulgaris.
Sunflower-Helianthus annuus L.
Sweetclover or Sweet clover, white-Melilotus alba Desr.
Sweetclover, yellow-Melilotus officinalis (L.) Lam.
Sweet vernalgrass-Anthoxanthum odoratum L.
Timothy-Phleum pratense L.
Trefoil, big-Lotus uliginosus Schkuhr.
Trefoil, birds-foot-Lotus corniculatus L.
Velvetgrass-Holcus lanatus L.
Vetch, common-Vicia sativa L.
Vetch, hairy-Vicia villosa Roth.
Vetch, Hungarian-Vicia pannonica Grantz.
Vetch, monantha-Vicia articulata Hornem. (V. monatha Desf.)
Vetch, narrowleaf-Vicia angustifolio (L.) Reich.
Vetch, purple-Vicia atropurpurea Desf.
Vetch, Woollypod-Vicia dasycarpa Ten.
Wheat, Common-Triticum aestivum L. (T. vulgare Vill.)
Wheat, club-Triticum compactum Host.
Wheat, durum-Triticum durum Desf.
Wheat, Polish-Triticum polonicum (L.)
Wheat, poulard-Triticum turgidum L.
Wheatgrass, beardless-Agropyron inerme (Scribn. & Smith) Rydb.
Wheatgrass, crested or fairway crested-Agropyron cristatum (L.) Gaertn.
Wheatgrass, crested or standard crested-Agropyron desertorum (Fisch.) Schult.
Wheatgrass, intermediate-Agropyron intermedium (Host) Beauv.
Wheatgrass, pubescent-Agropyron trichophorum (Link) Richt.
Wheatgrass, Siberian-Agropyron sibiricum (Willd.) Beauv.
Wheatgrass, slender-Agropyron pauciflorum (Schwein.) Hutchc, (A. trachycaulum Steud.)
Wheatgrass, streambank-Agropyron riparium Scribn. and Smith.
Wheatgrass, tall-Agropyron elongatum (Host) Beauv.
Wheatgrass, western-Agropyron smithii Rydb.
Wildrye, Canada-Elymus canadensis L.
Wildrye, Russian-Elymus junceus Fisch.
Zoysia japonica-(see Japanese lawngrass).
Zoysia matrella.

History: 1954 ACS 49, p. 7, Eff. Feb. 14, 1967.

R 285.714.3 Vegetable and herb seed.

Rule 3. "Vegetable and herb seed" means seeds of the following kinds grown for food, flavor, aromatic, or medicinal purposes in gardens or on truck farms and commonly known as vegetable or herb seed:

Angelica-Angelica archangelica
Anise-Pimpenella anisum
Artichoke-Cynara scolymus
Asparagus-Asparagus officinalis
Asparagusbean-Vigna sesquipedalis
Balm, lemon-Melissa officinalis
Basil, sweet-Ocimum basilicum
Bean, garden-Phaseolus vulgaris
Bean, lima-Phaseolus lunatus
Bean, runner-Phaseolus coccineus
Beet, garden-Beta vulgaris
Belladonna-Atropa belladonna
Blessed thistle-Cnicus benedictus
Borage-Borago officinalis

Broadbean-Vicia faba
Broccoli-Brassica oleracea
Brussels sprouts-Brassica oleracea
Burdock, great-Arctium lappa
Cabbage-Brassica oleracea
Cabbage, Chinese-Brassica oleracea
Cabbage, tronchuda-Brassica oleracea
Camomile-Anthemis nobilis
Cantaloupe-(See Muskmelon) Cucumis melo
Caraway-Carum carri
Cardoon-Cynara cardunculus
Carrot-Daucus carota
Castorbean-Ricinus communis
Catnip-Nepeta cataria
Cauliflower-Brassica oleracea
Celeriac-Apium graveolens
Celery-Apium graveolens
Chard, Swiss-Beta vulgaris
Chervil-Anthriscus cerifolium
Chicory-Cichorium intybus
Chives-Allium schoenophrasum
Citron-Citrullis vulgaris
Collards-Brassica oleracea
Coriander-Coriandrum sativum
Corn, sweet-Zea mays
Cornsalad-Valerianella locusta
Cowpea-Vigna sinensis
Cress, garden-Lepidium sativum
Cress, upland-Barbarea verna
Cress, water-Rorippa nasturtium aquaticum
Cucumber-Cucumis sativus
Cumin-Cuminum cyminum
Dandelion-Taraxacum officinale
Dandelion, Italian-Cicoria catalogna
Dill-Anethum graveolens
Eggplant-Solanum melongena
Endive-Cichorium endivia
Fennel-Foeniculum vulgare
Henbane-Hyoscyamus niger
Horehound-Marrubium vulgare
Kale-Brassica oleracea
Kale, Chinese-Brassica oleracea
Kale, Siberian-Brassica napus
Kohlrabi-Brassica oleracea
Lavender-Lavandula spica
Leek-Allium porrum
Lettuce-Lactuca sativa
Licorice-Gylcyrrhiza glabra
Lobelia-Lobelia inflata
Lovage-Levisticum officinale
Marjoram, sweet-Marjorana hortensis
Mercury-Chenopodium bonus henricus
Muskmelon-Cucumis melo
Mustard, spinach-Brassica perviridis
Nasturtium-Tropaeolum spp.
Okra-Hibiscus esculentus
Onion-Allium cepa
Onion, Welsh-Allium fistulosum
Origanum-Origanum vulgare
Pak-choi-Brassica chinensis
Parsley-Petroselinum crispum
Parsnip-Pastinaca satica
Pea, garden-Pisum sativum
Pepper, Capsicum spp.
Psyllium-Plantago psyllium
Pumpkin-Cucurbita spp.
Radish-Raphanus sativus
Rhubarb-Rheum rhaponticum
Roquette-Eruca sativa
Rosemary-Rosmarius officinalis
Rue-Ruta graveolens
Rutabaga-Brassica napus
Safflower-Carthamus tinctorius
Sage-Salvia officinalis
Salad burnet-Sanquisorba minor
Salsify-Tragopogon porrifolius
Savory, summer-Satureja hortensis
Sesame-Sesamum indicum
Sorrel-Rumex oleracea
Soybean-Glycine max, Soja max
Spinach-Spinacia oleracea
Spinach, New Zealand-Tetragonia expansa
Squash-Cucurbita spp.
Stramonium-Datura stramonium
Tansy-Tanacetum vulgare
Thyme-Thymus vulgaris
Tobacco-Nicotiana tabacum
Tomato-Lycopersicon esculentum
Tomato, husk-Physalis pubescens
Turnip-Brassica rapa
Watermelon-Citrullus vulgaris
Wormseed-Chenopodium ambrosioides
Wormwood-Artemisia absinthium

History: 1954 ACS 49, p. 9, Eff. Feb. 14, 1967; 1954 ACS 79, p. 28, Eff. May 22, 1974.

R 285.714.4 Flower seed.

Rule 4. "Flower seed" means the following kinds of flowers usually grown for their aromatic or decorative value, and are generally known and sold under the name of flowers:

Achillea-Achillea spp.
Adams needle yucca-Yucca filamentosa
Ageratum-Ageratum mexicanum
Alyssum-Alyssum spp.
Amaranthus-Amaranthus spp.
Anagallis-Anagallis spp.
Anchusa-Anchusa spp.
Anemone-Anemone spp.
Angel's eyes-Veronica chamaedrys
Angel's trumpet-Datura arborea
Arabis-Arabis alpina
Arenaria (sandworts)-Arenaria spp.
Arrowhead-Sagittaria spp.
Artemisia (wormwood)-Artemisia spp.
Artillery plant-Pilea microphylla
Arum-Arum spp.
Asparagus (fern, sprenger)-Asparagus spp.
Aster, China-Callistephus chinensis
Aubrietia-Aubrietia deltoides
Bachelor's buttons-Centaurea cyanus
Balloon-flower-Platycodon grandiflorum
Balloon-vine-Cardiospermum spp.
Balsam-Impatiens balsamina
Basketflower-Centaurea americana
Beard tongue-Pentstemon spp.
Bedstraw-Galium spp.
Begonia-Begonia spp.
Bellflower, carpathian-Campanula carpatica
Bellflower, cup and saucer-Campanula calycanthema
Bellflower, Chilean-Lapageria rosea
Bellflower, giant-Ostrowskia magnifica
Bellflower, Japanese-Platycodon spp.
Bellflower, peach-Campanula persicifolia
Bells of Ireland-Molucella laevis
Bellwort-Uvularia spp.
Bittersweet, false-Celastrus scandens
Blackberry lily-Belamcanda chinensis
Blessed thistle-Cnicus benedictus
Blister cress-Erysimum spp.
Bloodroot-Sanguinaria canadensis
Bluebell-Campanula rotoundifolia
Blue lace flower-Didiscus coerulea
Blue sage-Salvia patens
Browallia-Browallia spp.
Bugle-Ajuga spp.
Bugloss, cape-Anchusa capensis
Bugloss, Italian-Anchusa italica
Calceolaria-Calceolaria spp.
Calendula-Calendula officinalis
California poppy-Eschscholtzia californica
Calliopsis-Coreopsis spp.
Candytuft-Iberis spp.
Canterbury bells-Campanula spp.
Cape plumbago-Plumbago capensis
Cardinal climber-Ipomoea spp.
Carnation-Dianthus caryophyllus
Cathedral bells-Cobaea scandens
Celosia-Celosia argentea
Chilean bells-Lapageria lanceolata
Chinese forget-me-not-Cynoglossum amabile
Christmas cherry-Solanum pseudocapsicum
Chrysanthemum-Chrysanthemum spp.
Cineria, common-Senecio cruentus
Clarkia-Clarkia elegans
Clary-Salvia sclarea
Cleome-Cleome gigantea
Cohosh (baneberry)-Actaea spp.
Coleus-Coleus blumei
Columbine-Aquilegia spp.
Comfrey-Symphytum spp.
Coral bells-Heuchera sanguinea
Coreopsis, perennial-Coreopsis lanceolata
Cornflower-Centaurea cyanus
Corn poppy-Papaver rhoeas
Cosmos-Cosmos spp.
Creeping Jenny-Lysimachia nummularia
Crossandra-Crossandra infundibuliformis
Crosswort-Crucianella spp.
Crowfoot (buttercup)-Ranunculus spp.
Cupflower-Nierembergia spp.
Cupid's dart-Catananche coerulea
Cushion pink-Silene acaulis
Cyclamen-Cyclamen africanum
Cypress-Alternifolius gracilis
Cypress vine-Quamoclit spp.

Dahlia-Dahlia spp.
Daisy, African-Dimorphotheca aurantiaea
Daisy, African lilac-Arctosis grandis
Daisy, Arctic-Chrysanthemum arctica
Daisy, blue-Felicia amelloides
Daisy, English-Bellis perennis
Daisy, giant-Chrysanthemum uliginosum
Daisy, gloriosa-Echinacea purpurea
Daisy, Korean-Chrysanthemum corcanum
Daisy, monarch-Venidium fastuosum
Daisy, painted-Chrysanthemum coccineum
Daisy, Paris-Chrysanthemum frutescens
Daisy, shasta-Chrysanthemum maximum
Daisy, swan river-Brachycome iberidifolia
Daisy, tahoka-Machaeranthera tanacetifolia
Daisy, tidy tips-Layia elegans
Daisy, transvaal-Gerbera jamesoni
Delphinium-Delphinium spp.
Desmodium-Desmodium spp.
Diamond flower-Ionopsidium acaule
Dianthus-Dianthus spp.
Dracaena-Dracaena indivisa
Dusty miller-Centaurea spp.
Euphorbia-Euphorbia spp.
Everlasting pea-Lathyrus latifolius
Fairy bells-Disporum spp.
Fire pink-Silene virginica
Firethorn-Pyracantha coccinea
Fireweed-Epilobium augustifolium
Flax-Linum spp.
Fleabane-Erigeron spp.
Flower of an hour-Hibiscus trionum
Forget-me-not (dwarf)-Anchusa myosotidiflora
Foxglove-Digitalis spp.
Fuschia (eardrops)-Fuschia spp.
Gaillardia-Gaillardia spp.
Gay feather-Liatris spp.
Gazania, pied-Gazania slendens
Geranium-Geranium spp.
Geum-Geum spp.
Gilia-Gilia spp.
Gladiolus-Gladiolus spp.
Globe amaranth-Gomphrena globosa
Globe flower-Trollius caucasicus
Globe thistle-Echinops spp.
Gloxinia-Sinningia speciosa
Goats beard-Trapopogon spp.
Godetia-Godetia amoena, G. grandiflora
Golden seal-Hydrastis canadensis
Goldilocks-Linosyris vulgaris
Gourds, ornamental, various-Cucurbita spp.
Gypsophila-Gypsophila spp.
Hearts and honey vine-Ipomoea spp.
Helichrysum-Helichrysum monstrosum
Heliopsis-Heliopsis spp.
Heliotrope-Heliotropium spp.
Helipterum-Helipterum roseum
Hesperis-Hesperis spp.
Hibiscus-Hibiscus spp.
Hollyhock-Althea rosea
Horned rampion-Phyteuma spp.
Hounds tongue-Cynoglossum spp.
Hyacinth bean-Dolichos lablab
Iceland poppy-Papaver nudicaule
Iceplant-Cryophytum crystallinum
Impatiens sultani-Impatiens sultani
Incense plant-Humea elegans
Indian paint (gromwell)-Lithospermum canescens
Jack-in-the-pulpit-Arisaema triphyllum
Jacob's ladder-Polemonium caeruleum
Japanese iris-Iris kaempferi
Jerusalem oak-Chenopodium botrys
Jessamine-Jasminum spp.

R 285.714.5 Forest tree seed.

Rule 5. "Forest tree seed" means the following kinds of forest tree seeds usually grown in nurseries and forests in this state which are generally known and sold under the name of forest tree seeds:

Ash, black-Fraxinus nigra
Ash, green-Fraxinus pennsylvanica
Ash, green-Fraxinus pennsylvanica var. lanceolata (Borkh.) Sarg.
Ash, white-Fraxinus americana
Aspen, bigtooth-Populus grandidentata
Aspen, quaking-Populus tremuloides
Basswood, American-Tilia americana
Beech, American-Fagus grandifolia
Butternut-Umbellularia calfornica
Cedar-Juniper Virginiana
Cedar, Northern-Thuja occidentalis
Cherry, black-Prunus serotina
Chestnut, American-Castanea dentata
Cottonwood, eastern-Populus deltoides
Elm, American-Ulmus americana L.
Elm, rock-Ulmus thomasii
Elm, slippery-Ulmus rubra
Fir, balsam-Abies balsamea
Fir, douglas-Pseudotsuga menziesii var. menziesii
Fir, fraser-Abies fraseri
Fir, white-Abies concolor
Hemlock, eastern-Tsuga canadensis
Hickory, bitternut-Carya cordiformis
Hickory, pignut-Carya glabra
Hickory, shagbark-Carya ovata
Hickory, shellbark-Carya lacinoisa
Locust, black-Robinia pseudoacacia L.
Locust, honey-Gleditsia triacanthos L.
Maple, red-Acer rubrum L.
Maple, silver-Acer saccharinum L.
Maple, sugar-Acer saccharum
Oak, black-Quercus velutina
Oak, pin-Quercus ellipsoidalis
Oak, red-Quercus rubra
Oak, swamp white-Quercus bicolor
Oak, white-Quercus alba
Pine, Austrian-Pinus nigra
Pine, eastern white-Pinus strobus
Pine, jack-Pinus banksiana
Pine, red-Pinus resinosa
Pine, Scotch-Pinus sylvestris
Poplar, yellow-Liriodendron tulipifera
Spruce, black-Picea mariana
Spruce, blue-Picea pungens
Spruce, Colorado blue-Picea pungens var. glauca
Spruce, Norway-Picea abies (L.)
Spruce, white-Picea glauca
Sycamore, American-Platanus occidentalis
Tamarack-Larix laricina
Walnut, black-Juglans nigra

History: 1954 ACS 49, p. 11, Eff. Feb. 14, 1967.

R 285.714.6 Authentic hybrids.

Rule 6. "Authentic hybrids" as applied to "other agricultural, flower, or vegetable seed" referred to in section 2(22) of the act means the first generation seed reconstituted on each occasion by controlled pollination and by crossing 2 or more breeding stocks maintained either by inbreeding, or as clones, or recurrently made as hybrids and which will produce an assemblage of plants with uniform characteristics.

History: 1954 ACS 49, p. 12, Eff. Feb. 14, 1967.

R 285.714.7 Lawn seed information on labels.

Rule 7. For lawn seed mixtures the requirement of section 4(b) of the Michigan seed law as to information on the label or tag may be met by naming the kind, or kind and variety, of seed components in the order of their predominance under separate headings "fine textured grasses" and "coarse kinds." The following shall be named as "fine textured grasses" and all other kinds must be listed under "coarse kinds:"

Colonial bentgrass-Agrostis tenuis
Creeping bentgrass-Agrostis palustris Huds.
Velvet bentgrass-Agrostis canina
Kentucky bluegrass-Poa pratensis including all varieties.
Rough bluegrass-Poa trivialis
Wood bluegrass-Poa nemoralis
Canada bluegrass-Poa compressa
Red fescue-Festuca rubra
Chewings fescue-Festuca rubra var. commutata
Sheep fescue-Festuca ovina

History: 1954 ACS 49, p. 12, Eff. Feb. 14, 1967.

R 285.714.8 Treated seed labels.

Rule 8. Any seed or mixture thereof for seeding purposes that has been treated shall be labeled in type no smaller than 12 point to indicate that the seed has been treated and to show the name of any substance or process used in the treatment. Seeds treated with mercurials or with materials such as aldrin, demetron, dieldrin, endrin, heptachlor, and similar toxic substances shall be labeled to show a representation of a skull and crossbones at least twice the size of the type required followed by the words "poison" or "poison treated" and shall be printed in red on a background of distinctly contrasting color. A statement worded substantially as follows, "Do not use for food, feed, or oil purposes," shall follow the signal words "poison" or "poison treated."

History: 1954 ACS 49, p. 12, Eff. Feb. 14, 1967.

R 285.714.11 Vegetable and herb seed germination standards.

Rule 11. The following minimum germination standards including hard seeds shall apply for a vegetable and herb seed kinds listed. If a minimum standard is not given for a kind listed in R 285.714.3, the minimum germination shall be 60%.

R 285.714.13 Forest tree seed germination standards.

Rule 13. Forest tree seed except the species pinus, picea, and populus, that show no germination or distinctly weak vitality, or produce so few seedlings that it will be impossible to obtain a satisfactory stand in the area planted, using normal seeding rates, shall be considered as failing to meet germination standards and unfit for planting. The minimum germination standard for the species pinus, picea, and populus shall be 60%.

History: 1954 ACS 49, p. 14, Eff. Feb. 14, 1967.

R 285.714.15 Hermetically sealed containers.

Rule 15. A germination test for seed in hermetically sealed containers shall apply for a period of 36 months if the following conditions are met:

(a) The seed was packaged within 9 months after harvest.

(b) The container used does not allow water vapor penetration (WVP) through any wall, including the seals, greater than 0.05 grams of water per 24 hours per 100 square inches of surface at 100 degrees Fahrenheit with a relative humidity (RH) on 1 side of 90% and on the other side of 0%. Water vapor penetration is measured by the standards of the United States bureau of standards as:

Gm. H_2O/24 hr./100 sq. in./100 degrees Fahrenheit/90% RH V.0% RH.

(c) The seed in the container does not exceed the percentage of moisture, on a wet weight basis, as listed below:

Agricultural Seeds

Seeds	Percent	Seeds	Percent
Beet, field	7.5	Fescue, red	8.0
Beet, sugar	7.5	Ryegrass, annual	8.0
Bluegrass, Kentucky	6.0	Ryegrass, perennial	8.0

Muskmelon	6.0	All others	6.0

(d) The container is conspicuously labeled in not less than 8 point type to indicate:

(i) That the container is hermetically sealed.

(ii) That the seed has been preconditioned as to moisture content.

(iii) The calendar month and year in which the germination test was completed.

(e) The percentage of germination of vegetable seed at the time of packaging was equal to or above the standards in R 285.714.11.

History: 1954 ACS 79, p. 33, Eff. May 22, 1974.

R 285.714.21 Fees for testing seeds.

Rule 21. (1) The fees for testing bentgrass, bluegrass, bromegrass, canarygrass, fescues, orchardgrass and red top are $3.50 for each combined purity and noxious weed determination and $3.50 for each germination determination. The fees for testing any other agricultural, vegetable, flower or herb seed named in R 285.714.2, R 285.714.3, and R 285.714.4 are $2.50 for each combined purity and noxious weed determination and $2.50 for each germination determination.

(2) The fees for testing forest tree seeds defined in R 285.714.5 are $2.50 for purity and $3.50 for germination. All mixtures will be charged at the total of rates determined by each component up to but not exceeding the $15.00 maximum specified in subdivision (e) of section 11 of the act. Special determinations (tetrazolium, cold tests, soil or sand, embryo excision) will be charged at $6.00 per hour for analysts' time. The fee for testing seed samples for sod production (a special determination on bluegrass seed for bentgrass and poa annua) is $15.00 per sample.

History: 1954 ACS 49, p. 14, Eff. Feb. 14, 1967; 1954 ACS 79, p. 34, Eff. May 22, 1974.

R 285.714.31 Rescission.

Rule 31. REGULATION NO. 804. RACE TRACK IMPROVEMENT

R 285.804 Reimbursement to county fairs for race track improvement.

Rule 1. County fairs shall be eligible for reimbursement on a matching basis, but not to exceed a total of $2,500.00 to any 1 fair for the 3-year period of 1956, 1957, and 1958, for the purpose of repairing and otherwise making the race track more suitable and safe for racing at said county fair upon complying with the following requirements:

(a) File with the director of agriculture plans, specifications, or an adequate and complete description of the proposed project for repairing and improving the race track, together with a statement of the estimated cost thereof.

(b) Obtain the approval of the director of agriculture for reimbursement for ½ of the actual cost of the project, prior to commencement thereof.

(c) Submit to the director of agriculture a sworn statement showing completion of the project, together with 2 copies of receipts showing that all costs thereof have been paid in full.

History: 1954 ACS 7, p. 18, Eff. Aug. 14, 1956.

FAIRS DIVISION

REGULATION NO. 805. MATCHING ASSISTANCE TO FAIRS

(By authority conferred on the commission of agriculture by section 13 of Act No. 27 of the Public Acts of 1959, as amended, and sections 9 and 178 of Act No. 380 of the Public Acts of 1965, being §§431.43, 16.109, and 16.278 of the Michigan Compiled Laws)

R 285.805.1 Definitions.

Rule 1. As used in these rules:

(a) "Association" means a corporation organized under a law of this state and governed by an elected board of directors, or an association or board functioning under Act No. 11 of the Public Acts of 1929, being §§46.151 to 46.153 of the Michigan Compiled Laws, and which conducts a fair.

(b) "Commission" means the commission of agriculture.

(c) "Department" means the department of agriculture.

(d) "Director" means the director of agriculture.

(e) "Fair" means a competitive and educational exhibition of agricultural commodities and manufactured products for which premiums are paid, which is conducted by an association or state agency.

(f) "Fair buildings" means the buildings which are primarily used for fair purposes and which are owned by a fair association or a political subdivision.

(g) "Project" means each individual job or equipment rental on an application, giving a detailed description of the work to be done or equipment to be rented.

(h) "Race track" means a track used primarily for horse races, and may include the fence around the track, hubrail and infield.

(i) "Equipment" means the implements or apparatus used during the operation of a fair.

(j) "Grounds" means the land which is primarily used for fair purposes and which is owned by a fair association or a political subdivision.

History: 1954 ACS 20, p. 7, Eff. Nov. 14, 1959; 1954 ACS 26, p. 35, Eff. May 15, 1961; 1954 ACS 80, p. 10, Eff. June 19, 1974.

R 285.805.2 Qualifications for allotments.

Rule 2. (1) A fair shall have been conducted for a period of not less than 3 years before the time of application for matching assistance.

(2) Matching assistance may be made only to a fair association which does not receive state funds for building, race track, grounds improvement and equipment rental projects directly from any other source for the same project.

History: 1954 ACS 20, p. 8, Eff. Nov. 14, 1959; 1954 ACS 26, p. 35, Eff. May 15, 1961; 1954 ACS 80, p. 10, Eff. June 19, 1974.

R 285.805.3 Application and approval for allotments.

Rule 3. (1) The president and secretary of an association requesting funds shall file a proper application on forms provided by the department, in duplicate, with the director as follows:

(a) A complete description of each proposed project.

(b) An estimated cost of each project.

(2) Each application shall be accompanied by:

(a) A resolution passed by the fair's board of directors, or its duly authorized executive committee approving the application.

(b) Complete plans and specifications, where applicable, signed and sealed by a registered architect or registered professional engineer.

(3) The president or secretary shall submit such additional information as may be required by the director in considering the application.

(4) Projects not started within 12 months after written approval are void and shall be resubmitted on a new application.

(5) Any cost encumbered on a project, excluding charges for plans and specifications, prior to written approval from the department, renders that portion of the project ineligible for state funds.

History: 1954 ACS 20, p. 8, Eff. Nov. 14, 1959; 1954 ACS 26, p. 35, Eff. May 15, 1961; 1954 ACS 80, p. 10, Eff. June 19, 1974.

R 285.805.4 Completion of application.

Rule 4. (1) Within 120 days after completion of the project on application and acceptance by the fair board or authorized officials of the fair, the president and secretary of the fair shall submit the following to the department:

(a) Two copies of a sworn statement that all projects are completed and paid and that all state and local ordinances pertaining to building codes have been complied with.

(b) An itemized listing of materials and services for each project listed on the application other than that covered by a contract, listing items purchased and amounts paid for materials and services.

(c) An itemized listing of labor, other than that covered by a contract, listing the names and addresses of the payees, dates worked, hours worked, and amounts paid.

(d) Properly receipted itemized invoices pertaining to the project, including a copy of contracts where applicable.

(e) Notice of cancellation of any project not undertaken on the application.

(2) The fair association shall provide any additional information requested by the director necessary in the auditing of a project. Subdivisions (a) and (c) of subrule (1) shall be submitted on the forms provided by the department.

History: 1954 ACS 80, p. 11, Eff. June 19, 1974.

R 285.805.5 Final approval.

Rule 5. After the completion of the projects listed on the application, the department shall conduct an inspection of the completed projects to determine that:

(a) The projects comply with the description or plans submitted on the application.

(b) All services and material claimed for the project have been used in that project.

(c) The work has been performed in a manner satisfactory to the department.

History: 1954 ACS 80, p. 11, Eff. June 19, 1974.

R 285.805.6 Allotments.

Rule 6. (1) If the completed projects meet the requirements in R 285.805.5, the material submitted will be audited and the fair association reimbursed for ½ of the approval cost, not to exceed $4,000.00 in any 1 fiscal year, unless otherwise authorized by the legislature.

(2) State funds available to a fair association may be carried forward into the next or following fiscal year if projects have been approved by the department by June 15 and started by June 30 of the initial fiscal year.

History: 1954 ACS 80, p. 11, Eff. June 19, 1974.

REGULATION NO. 806. HARNESS RACES AT FAIRS

R 285.806.1, R. 285.806.2 Rescinded.

History: 1954 ACS 38, p. 47, Eff. May 15, 1964; rescinded 1954 ACS 62, p. 14, Eff. May 18, 1970.

REGULATION NO. 807. PURSES FOR MICHIGAN-BRED HORSES

R 285.807.1—R 285.807.4 Rescinded.

History: 1954 ACS 20, pp. 9, 10, Eff. Nov. 14, 1959; 1954 ACS 35, pp. 40, 41, Eff. Aug. 14, 1963; 1954 ACS 38, pp. 48, 49, Eff. May 15, 1964; rescinded 1954 ACS 72, p. 10, Eff. July 19, 1972.

REGULATION NO. 808. PAYMENT OF BREEDERS' AWARDS

(By authority of section 13 of Act No. 27 of the Public Acts of 1959, as amended, being §431.43 of the Michigan Compiled Laws)

R 285.808.1 Definitions.

Rule 1. (1) "Licensed track" shall mean an association licensed by the Michigan racing commission to conduct harness horse races in Michigan.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

(2) "Fair" shall mean any county, district or community fair approved to conduct harness horse races during its fair.

(3) "Michigan-bred horse" shall be a horse from a Michigan-owned mare at the time of breeding by a Michigan-owned sire standing in Michigan for a full calendar year. Mares shall be registered with the director of agriculture. Starting in 1965, all mares not previously registered must be registered prior to April 1 of each racing season.

(4) "Breeder" shall mean the person owning the mare at the time of breeding.

(5) "Director" shall mean the director of agriculture.

History: 1954 ACS 40, p. 5, Eff. Nov. 14, 1964.

R 285.808.2 Breeders' awards.

Rule 2. (1) The director of agriculture shall pay a breeder's award to the breeder of any Michigan-bred horse winning any race (every heat a race), in an amount equal to 10% of the gross purse.

(2) Rights to breeders' awards are not assignable and there shall be no obligation to the director of agriculture to pay said awards other than stipulated herein.

(3) Breeders' awards under this rule shall be paid by the Michigan department of agriculture to the breeders of winning Michigan-bred horses, provided the mare is Michigan-owned and registered with the director of agriculture.

(4) Payment of breeders' awards will be processed once each year at the close of the racing season, except that payment for races conducted at licensed tracks up to June 30 shall be processed immediately after June 30.

History: 1954 ACS 40, p. 5, Eff. Nov. 14, 1964.

R 285.808.3 Responsibilities.

Rule 3. (1) Licensed racing associations shall provide the director of agriculture copies of each day's race program at least once each week. The winner of each race shall be checked on said program and certified as being the true winner.

(2) The secretary of the fair shall provide the director of agriculture copies of each day's race program, along with the harness horse race result sheet (form FF-18), for the fair's races. The winner of each race shall be checked on said program and certified as being the true winner.

(3) In case of question of eligibility of a breeder to receive a breeder's award, the burden of proof of ownership of Michigan-bred mares, or compliance with the requirement that sires have stood in Michigan for the full calendar year, shall rest with the breeder.

History: 1954 ACS 40, p. 5, Eff. Nov. 14, 1964.

R 285.808.4 Penalties.

Rule 4. Any person claiming awards contrary to the provisions of these rules shall be ineligible for future breeders' awards in this state.

History: 1954 ACS 40, p. 5, Eff. Nov. 14, 1964.

REGULATION NO. 809. ALLOCATION OF MONEY FOR PAYMENT OF PREMIUMS

R 285.809 Rescinded.

History: 1954 ACS 40, p. 6, Eff. Nov. 14, 1964; rescinded 1954 ACS 55, p. 14, Eff. Aug. 14, 1968.

REGULATION NO. 810.
THOROUGHBRED BREEDERS' AWARDS AND STATE SUPPLEMENTS

(By authority conferred on the commission of agriculture by section 13 of Act No. 27 of the Public Acts of 1959, as amended, and sections 9 and 178 of Act No. 380 of the Public Acts of 1965, being §§431.43, 16.109, and 16.278 of the Michigan Compiled Laws)

R 285.810.1 Definitions.

Rule 1. (1) "Breeder" means a person or entity owning a mare at the time of foaling for the purpose of registration and eligibility for breeder's award. The lawful lessee of a mare at the time of foaling is deemed the owner of the mare.

(2) "Conditions" means the specification of terms under which a race is conducted.

(3) "Department" means the department of agriculture.

(4) "Director" means the director of the Michigan department of agriculture.

(5) "Foaling year" means the calendar year in which the mare foaled.

(6) "Gross purse" means the track purse plus the state supplement.

(7) "Michigan-bred horse" means a horse that meets the requirements of R 285.810.2.

(8) "Michigan thoroughbred breeders and owners association" means a non-profit corporation consisting of breeders and owners, organized for the purpose of bettering thoroughbred horses.

(9) "State supplement" means money allocated by the director from the state fund for a race conducted exclusively for Michigan-bred horses.

(10) "Thoroughbred racing association" means an association licensed by the Michigan racing commissioner to conduct thoroughbred horse races in Michigan.

(11) "Track purse" means the money offered by a thoroughbred racing association for 1 race, not including a state supplement.

History: 1954 ACS 72, p. 8, Eff. July 19, 1972; 1954 ACS 87, p. 19, Eff. June 15, 1976.

R 285.810.2 Eligibility of foals for breeders' awards and state supplements.

Rule 2. (1) Eligibility for breeders' awards and state supplements is established upon compliance with the following:

(a) Commencing in 1971, registration of a mare with the director by December 1 of the year the mare was bred.

(b) Commencing in 1974, a foal of 1972, and thereafter, by a mare which was in Michigan on December 1 of the year the mare was bred and remained in the state thereafter until foaling, and for not less than a total of 7 months of the foaling year.

(c) Notification of the director in writing within 30 days prior to the departure from Michigan of a registered mare, and within 30 days after the date the mare returns to Michigan.

(2) In the case of a breeder who has complied with all other rules, the director, after review of the circumstances involved, and a finding that the failure to comply was not deliberate, may waive the date requirements of subrule (1)(a), (b), or (c). To assist the director in determining the circumstances and merit of any requested exception or waiver, an advisory review panel is established consisting of the following 4 persons:

(a) The president or his designee of the thoroughbred breeders and owners association.

(b) The racing commissioner or his designee.

(c) The president or his designee of the horsemen's protective and benevolent association.

(d) A member of the department of agriculture designated by the director, who shall act as chairman.

(3) A certificate of eligibility shall be issued by the director for a Michigan-bred horse foaled in 1972 or thereafter. This certificate shall accompany the jockey club certificate at the time of entry in a race.

(4) The jockey club, inc., will be considered the official record in determining the eligibility of a Michigan-bred horse foaled before 1972.

History: 1954 ACS 72, p. 9, Eff. July 19, 1972; 1954 ACS 87, p. 20, Eff. June 15, 1976.

R 285.810.3 Eligibility of races for supplements.

Rule 3. (1) State supplements shall be allocated for the following races:

(a) Michigan-bred thoroughbred races approved by the director.

(b) The Michigan futurity.

(c) The Michigan-bred 2 year-old championship handicap or stake.

(d) Two Michigan-bred 3 year-old handicaps or stakes, 1 of which shall be run each year at each of the thoroughbred tracks operated by a licensed association.

(e) Two Michigan-bred 3 year-old and over handicaps or stakes, 1 of which shall be run each year at each of the thoroughbred tracks operated by a licensed association.

(2) State supplements shall be paid first for races specified under subdivisions (b) to (e) of subrule (1). If funds are not available to provide state supplements for all races approved by the director under subrule (1)(a), then he shall prorate available money at his discretion among the races so run.

(3) At least 1 Michigan-bred race shall be scheduled on each program.

(4) Each association licensed to conduct racing in Michigan shall not offer a lesser track purse (excluding state supplement) for a Michigan-bred race than the track purse offered for a non-Michigan-bred race that is comparable in the judgment of the director.

(5) If the programmed Michigan-bred race does not draw sufficient entries to run, the licensed racing association shall not run a non-Michigan-bred race as a substitute, but shall substitute an approved extra Michigan-bred race.

History: 1954 ACS 72, p. 9, Eff. July 19, 1972.

R 285.810.4 Conditions for races; allocations of state supplements.

Rule 4. (1) The racing association of the track, where Michigan-bred races are to be conducted, shall propose conditions and purses for all Michigan-bred races. The conditions of all Michigan-bred races are subject to the approval of the director. These conditions shall be submitted to the director at least 18 calendar days before the first race is conducted for each condition book.

(2) The allocation of state supplements shall be determined by the director with the advice of the racing commissioner, representative of licensed thoroughbred racing associations and the Michigan thoroughbred breeders and owners association.

(3) The director shall announce, no later than 14 calendar days after receiving the proposed racing conditions, his allocation of state supplements to purses for each of the approved Michigan-bred races in the condition book. If proposed conditions of the Michigan-bred races are not submitted to the director within the time fixed by subrule (1), he may allocate state supplements for Michigan-bred races at his discretion but state supplements may not be allocated later than 96 hours before the first race scheduled in each condition book. State supplements shall not be allocated to Michigan-bred races after races have been run.

History: 1954 ACS 72, p. 9, Eff. July 19, 1972.

R 285.810.5 Breeders' awards.

Rule 5. (1) The director shall pay a breeder's award to the breeder of Michigan-bred horses for each time such horses win at a licensed track in this state in an amount specified by the law. If more than 1 winner is declared, each breeder is entitled to a full breeder's award. A breeder's award shall not be paid for races won after the date of death of a breeder.

(2) A right to breeder's award is not assignable and the director is not obligated to pay breeders' awards other than as provided herein or in excess of available funds.

History: 1954 ACS 72, p. 10, Eff. July 19, 1972.

R 285.810.6 Payment of breeders' awards and state supplements.

Rule 6. (1) The racing commissioner shall certify to the director at the completion of racing in each condition book, the results of all races won by Michigan-bred horses and names of their owners and breeders.

(2) When eligibility of a breeder to receive a breeder's award is questioned, the burden of proof that a horse was Michigan-bred or is in compliance with these rules is on the breeder.

(3) State supplements may be paid to the owners of winning horses at least twice each year, after June 30 and after December 31 upon certification under R 285.810.6.

(4) Payment of breeders' awards shall be processed at least twice each year, after June 30 and after December 31.

History: 1954 ACS 72, p. 10, Eff. July 19, 1972.

R 285.810.7 Ineligibility for future breeders' awards and state supplements.

Rule 7. A person or entity willfully accepting and retaining a breeder's award or state supplement contrary to these rules is ineligible for future breeders' awards and state supplements in this state.

History: 1954 ACS 72, p. 10, Eff. July 19, 1972.

R 285.810.8 Rescission.

Rule 8. Regulation No. 807, entitled "Purses for Michigan-bred Horses at Licensed Tracks, State Allocations," being R 285.807.1 to R 285.807.4 of the Michigan Administrative Code and appearing on pages 3144 and 3145 of the 1964-65 Annual Supplements to the Code, is rescinded.

History: 1954 ACS 72, p. 10, Eff. July 19, 1972.

REGULATION NO. 811. PREMIUM ALLOTMENTS TO FAIRS AND SHOWS

(By authority conferred on the commission of agriculture by section 13 of Act No. 27 of the Public Acts of 1959, as amended, and sections 9 and 178 of Act No. 380 of the Public Acts of 1965, being §§431.43, 16.109, and 16.278 of the Michigan Compiled Laws)

R 285.811.1 Definitions.

Rule 1. As used in these rules:

(a) "Department" means the department of agriculture.

(b) "Commission" means the commission of agriculture.

(c) "Director" means the director of agriculture.

(d) "Association" means a corporation organized under and in compliance with a law of this state and governed by an elected board of directors, or an association

or board functioning under Act No. 11 of the Public Acts of 1929, being §§46.151 to 46.153 of the Michigan Compiled Laws, and which conducts a fair or show.

(e) "Fair" or "show" means a competitive and educational exhibition of agricultural commodities and manufactured products for which premiums are paid, which is conducted by an association or state agency.

(f) "Exhibit" means an article, item, or educational project entered for public display at a fair or show. Judging shall be during, or not more than 3 days prior to, the opening day of the fair or show. Carcass exhibits and parades may be judged and displayed at a different location. All exhibits shall be judged in competition; however, when there is only 1 entry in a class, the exhibit shall be judged against standards accepted by the association. An association may prescribe alternate arrival and release times for exhibits where adequate facilities are not available.

(g) "Premium" means a prize awarded for exhibits and includes money, ribbons, trophies, and similar items unless otherwise authorized by the commission.

(h) "Premium book or list" means the printed listing of the following: (1) classes identified and numbered in an orderly manner, (2) placing offered for each class, and (3) premium offered for each placing.

(i) "Supplement to the premium book or list" means an addition to the premium book or list submitted with the association's final reports. Each supplement shall be considered a part of the premium book or list for 1 fair season only and shall be included in future premium books or lists to qualify for state premiums.

History: 1954 ACS 55, p. 11, Eff. Aug. 14, 1968; 1954 ACS 79, p. 35, Eff. Mar. 27, 1974; 1954 ACS 93, p. 21, Eff. Oct. 14, 1977.

R 285.811.2 Qualifications for allotments.

Rule 2. (1) An association receiving an allotment shall not limit the entries of the entire fair or show to members of an association or organization.

(2) A fair shall have been conducted for a period of not less than 3 years before the time of application and approved by the commission for financial assistance.

(3) An allotment may be made only to an association which does not receive state funds for premiums directly from any other source.

History: 1954 ACS 55, p. 12, Eff. Aug. 14, 1968; 1954 ACS 62, p. 10, Eff. May 18, 1970; 1954 ACS 79, p. 35, Eff. Mar. 27, 1974; 1954 ACS 93, p. 21, Eff. Oct. 14, 1977.

R 285.811.3 Exhibits eligible for allotments.

Rule 3. All exhibits are eligible except those specifically covered by other department rules.

History: 1954 ACS 55, p. 12, Eff. Aug. 14, 1968; 1954 ACS 62, p. 10, Eff. May 18, 1970; 1954 ACS 79, p. 35, Eff. Mar. 27, 1974; 1954 ACS 93, p. 21, Eff. Oct. 14, 1977.

R 285.811.4 Application and approval for allotments.

Rule 4. (1) Commencing in 1979 the president and secretary of an association requesting state allotments for the payment of premiums shall submit to the department a properly completed application, provided by the county fairs section, on or before July 1 of the second calendar year preceding the fair or show.

(2) The department shall give written notice of approval or disapproval of an application on or before January 10 preceding a fair and not less than 60 days preceding a show.

(3) Any change relating to the original application shall be submitted to the county fairs section for department approval or disapproval not less than 15 days

before the start of the fair or show as listed on the application. Approval shall not be given after the fair or show has started.

History: 1954 ACS 55, p. 13, Eff. Aug. 14, 1968; 1954 ACS 62, p. 11, Eff. May 18, 1970; 1954 ACS 79, p. 35, Eff. Mar. 27, 1974; 1954 ACS 93, p. 21, Eff. Oct. 14, 1977; 1954 ACS 96, p. 33, Eff. Mar. 16, 1979.

R 285.811.5 Allotments and their use.

Rule 5. (1) The director may advance funds to an association making proper application under R 285.811.4 in an amount not to exceed 60% of the estimated premiums to be paid by the association. After audit, any overpayment to the association for premiums shall be remitted to the department on its request. The department shall send any balance of funds due to the association upon completion of the preliminary audit.

(2) Funds allotted shall be for the payment of not less than 75% of the premiums paid by the association. Premiums for eligible exhibits shall be paid by check directly to each exhibitor.

(3) The commission may approve grants to a regional or statewide agricultural commodity association for payment of premiums at a show sponsored by the association, if it is not connected with, or part of, a fair receiving state funds for such premiums. The use of grants by such an association shall comply with all other provisions of these rules governing the use of state funds, except that the grants may be used to pay the premiums under policy established by the commission for eligible exhibits.

History: 1954 ACS 55, p. 13, Eff. Aug. 14, 1968; 1954 ACS 62, p. 11, Eff. May 18, 1970; 1954 ACS 79, p. 35, Eff. Mar. 27, 1974; 1954 ACS 93, p. 21, Eff. Oct. 14, 1977.

R 285.811.5a Premium book.

Rule 5a. Two copies of the association premium book or list shall be submitted not less than 15 days prior to the opening day of the event to the county fairs section. Exception to this shall be submitted in writing to the county fair section requesting approval.

History: 1954 ACS 93, p. 22, Eff. Oct. 14, 1977.

R 285.811.6 Final reports.

Rule 6. (1) Within 120 days after the close of a fair or show, an association shall submit to the department, unless notified otherwise, all the following properly completed documents:

(a) Original premium statements.

(b) The association's cash disbursement statement, covering a fiscal year which includes the annual fair or show for which state allotments are being requested.

(c) Itemized ribbon and trophy invoices with cancelled checks.

(d) Breakdown of award invoices.

(e) Premium book supplements.

(2) The items prescribed in subdivisions (a), (b), and (d) of subrule (1) shall be submitted on forms provided by the department. The association shall supply the department any additional information required in the auditing of the report.

(3) The association shall keep all records pertaining to payment of premiums available for state auditors for not less than 4 years.

History: 1954 ACS 55, p. 14, Eff. Aug. 14, 1968; 1954 ACS 62, p. 12, Eff. May 18, 1970; 1954 ACS 79, p. 36, Eff. Mar. 27, 1974; 1954 ACS 93, p. 22, Eff. Oct. 14, 1977.

R 285.811.7 Verification of ownership of exhibits.

Rule 7. The director may check registration and ownership of exhibits at fairs and shows. The fairs and shows shall furnish the necessary help to assist in verification of registration and ownership of exhibits.

History: 1954 ACS 62, p. 12, Eff. May 18, 1970.

R 285.811.8 Noncompliance.

Rule 8. Noncompliance with these rules or any part thereof may result in denial of state funds for the current year or future years, or both.

History: 1954 ACS 93, p. 22, Eff. Oct. 14, 1977.

Editor's note: This rule was formerly numbered R 285.811.7, but has been renumbered as R 285.811.8 to avoid a conflict with an earlier rule numbered R 285.811.7.

R 285.811.9 Rescission.

Rule 9. Regulation No. 809 of the department governing the allocation of money to fairs for the payment of premiums, as amended, being R 285.809 of the Michigan Administrative Code and appearing on pages 3146 and 3147 of the 1964-65 Annual Supplements to the Code, is rescinded.

History: 1954 ACS 55, p. 14, Eff. Aug. 14, 1968.

REGULATION NO. 812. STATE AID FOR HARNESS HORSE RACING AT FAIRS

(By authority conferred on the commission of agriculture by section 13 of Act No. 27 of the Public Acts of 1959, as amended, and sections 9 and 178 of Act No. 380 of the Public Acts of 1965, being §§431.43, 16.109, and 16.278 of the Michigan Compiled Laws)

R 285.812.1 Definitions.

Rule 1. As used in these rules:

(a) "Department" means the Michigan department of agriculture.

(b) "Director" means the director of the department of agriculture.

(c) "Fair" means a county and Upper Peninsula state fair which conducts harness horse races.

History: 1954 ACS 62, p. 13, Eff. May 18, 1970; 1954 ACS 73, p. 7, Eff. Nov. 14, 1972.

R 285.812.2 Eligibility for state aid.

Rule 2. A fair to be eligible for state aid shall file its annual harness horse racing program, to be approved by the director, with the department by February 1 of each year and shall file the reports required by R 285.812.8.

History: 1954 ACS 62, p. 13, Eff. May 18, 1970; 1954 ACS 69, p. 36, Eff. Oct. 4, 1971; 1954 ACS 73, p. 7, Eff. Nov. 14, 1972.

R 285.812.3 Presiding judges.

Rule 3. (1) The department shall hire and approve presiding judges for harness horse races conducted at Michigan fairs. Only judges approved by the director shall preside at harness horse races at fairs.

(2) The director shall assign the presiding judges to the fairs which conduct harness horse racing.

(3) The presiding judge shall approve all associate judges and timers at each fair race meet and rule on the validity of all horses scratched at the fair to which he is assigned.

History: 1954 ACS 62, p. 13, May 18, 1970.

R 285.812.4 Track maintenance; equipment and head numbers.

Rule 4. (1) A race track over which harness horse races may be conducted shall be maintained in a manner so as to make harness horse racing safe. The track shall be adequately drained and kept in a smooth condition during the races and shall be sprinkled between races when necessary. The track condition shall be approved by a representative of the director before any races are conducted over it if purses are paid in part by funds allocated under these rules.

(2) An approved starting gate and starter shall be used in a harness horse race.

(3) A track shall use an approved photo finish equipment and photographer for all harness horse races. The track shall be reimbursed up to a maximum of $50.00 for each harness horse race program conducted at and during the fair for the payment of approved photo finish operation. Before releasing these state funds the fair shall submit to the director, within 15 days after completion of the harness race program, or June 30, whichever is sooner, receipted invoices and sworn statement covering such photo finish operations.

(4) All harness horse race entries shall be provided with head numbers or saddle pads, or both.

History: 1954 ACS 62, p. 13, Eff. May 18, 1970; 1954 ACS 73, p. 7, Eff. Nov. 14, 1972.

R 285.812.5 Allocations for state aid.

Rule 5. (1) Allocations to a fair for purses for harness horse races shall be made by the director before the races in the following manner:

(a) The allocation shall not exceed 75% of the purses offered by the fair.

(b) The allocation for a purse on an overnight race shall not exceed $1,000.00, except that if an overnight race is conditioned to exclude trotters that are 7 years old or older and pacers that are 6 years old or older, then the allocation shall not exceed $1,500.00.

(c) The allocation for a purse on an early closing 2-year-old filly and colt race shall not exceed $3,000.00; on an early closing 3-year-old filly and colt race, it shall not exceed $3,750.00.

(d) Any other early closing race shall be conditioned for horses 3 through 6 years old, and the allocation for a purse shall not exceed $1,500.00.

(e) The allocation for a purse on a Wolverine futurity race shall be made only after the amount of the purse to be paid by the fair has been determined by public auction conducted after reasonable public notice. The allocation for 3-year-old futurities shall not exceed 75% of the purses offered, and shall not exceed $18,750.00 for each race. Allocation for the Charles Coon memorial futurity shall not exceed $37,500.00 for each race.

(2) State aid shall be used only for the purse which it is allocated or returned to the director within 15 days following completion of the harness horse racing program for the fair.

(3) Any harness horse bred and sired outside of Michigan shall be ineligible to participate in state funds paid at any state, county, district, or community fair harness horse race contest, unless the director gives written permission therefor, or said horse has made 25 starts in betting races at Michigan pari-mutuel tracks, or has been owned by a Michigan resident for 24 consecutive months prior to such start, or was owned by a Michigan resident prior to September 1, 1971. The determining date for Michigan ownership shall be the date on which the United States trotting association processes the transfer of said horse.

(4) A harness horse race whose purse is paid in part or full by state funds may not bar a harness horse sired by a Michigan stallion if the Michigan sired harness horse conforms to the age, gait, sex, and earnings stipulated in the conditions of the race.

History: 1954 ACS 62, p. 13, Eff. May 18, 1970; 1954 ACS 69, p. 36, Eff. Oct. 4, 1971; 1954 ACS 73, p. 7, Eff. Nov. 14, 1972; 1954 ACS 82, p. 11, Eff. Feb. 5, 1975.

R 285.812.6 Split races.

Rule 6. (1) A fair, conducting a split race required under United States trotting association rules, shall not receive an additional allocation to the amounts described in R 285.812.5.

(2) Not more than 12 horses, with 6 wide per tier, shall be allowed to start a race on a ½-mile track.

History: 1954 ACS 62, p. 13, Eff. May 18, 1970; 1954 ACS 73, p. 7, Eff. Nov. 14, 1972.

R 285.812.6a Consumption of alcoholic beverages.

Rule 6a. A driver shall not drive in a fair harness race, whose purse is paid in part or full by state funds, while under the influence of alcohol. A driver shall submit to a breath analyzer test when directed by a representative of the director and if the results thereof show a reading of more than 0.05% of alcohol in the blood, the person shall not be permitted to drive and shall be in violation of these rules.

History: 1954 ACS 73, p. 7, Eff. Nov. 14, 1972.

R 285.812.7 Hearings.

Rule 7. In the event a provision of these rules or any other rules or state law related to a harness race program is violated, the director shall notify the horse's owner of the violation and shall hold a hearing thereon within 14 days from the date the violation is reported to the director. The owner or his representative may appear and be heard. From testimony taken the director shall render a decision on the eligibility of the owner, his representative, and the animal, or any of them, to participate in state funds paid at the fair or any future state, county, district, or community fair harness horse race.

History: 1954 ACS 62, p. 14, Eff. May 18, 1970; 1954 ACS 73, p. 8, Eff. Nov. 14, 1972.

R 285.812.8 Final reports and preservation of records.

Rule 8. (1) Within 15 days after completion of the harness race program, or June 30, whichever is sooner, an association shall submit to the director originals of the judges' sheets signed by the presiding judge and a sworn statement on forms provided by the director and a copy of the printed race program indicating the order of finish of the horses.

(2) The association shall supply the director any additional information required in the auditing of the report.

(3) Association records pertaining to the payment of purses shall be kept for the state auditors for not less than 3 years.

History: 1954 ACS 62, p. 14, Eff. May 18, 1970; 1954 ACS 73, p. 8, Eff. Nov. 14, 1972.

R 285.812.10 Rescission.

Rule 10. Regulation No. 801, as amended, and Regulation No. 806 of the department of agriculture, being R 285.801, R 285.806.1, and R 285.806.2 of the Michigan Administrative Code, and appearing on pages 3141 to 3143 of the 1964-65 Annual Supplements to the Code, are rescinded.

History: 1954 ACS 62, p. 14, Eff. May 18, 1970.

REGULATION NO. 813.
HARNESS HORSE RACE AND PULLING TEAM STIMULANTS AND DEPRESSANTS

(By authority conferred on the commission of agriculture by sections 13 and 18 of Act No. 27 of the Public Acts of 1959, as amended, sections 2 and 4 of Act No. 197 of the Public Acts of 1952, as amended, and section 178 of Act No. 380 of the Public Acts of 1965, being §§431.43, 431.48, 24.102, 24.104, and 16.278 of the Michigan Compiled Laws)

R 285.813.1 Definition of drugs.

Rule 1. As used in these rules, "drug" means:

(a) Any article recognized or for which the standards or specifications are prescribed in the official compendium consisting of the United States pharmacopoeia, homeopathic pharmacopoeia, of the United States or national formulary and supplements in effect on the effective date of these rules.

(b) Any article intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease in man or other animals.

(c) Any article, other than food, intended to affect the structure or any function of the body of man or other animals.

(d) Any article intended for use as a component of any article specified in subdivisions (a), (b) or (c); but does not include devices or their components, parts or accessories.

History: 1954 ACS 56, p. 7, Eff. Nov. 14, 1968.

R 285.813.2 Drugs; illegal use.

Rule 2. It is illegal to administer internally or externally a drug of a nature that could affect or alter the normal performance of a horse in a harness race or an animal entered in a pulling contest where state funds are used for any portion of the premiums offered.

History: 1954 ACS 56, p. 8, Eff. Nov. 14, 1968.

R 285.813.3 Collection of samples.

Rule 3. Saliva and urine samples may be obtained by the director of agriculture from any horse entered in a race or animal entered in a pulling contest. The director of agriculture or his representative may request the fair association to furnish necessary help to obtain saliva and urine samples. The department will pay the help at pre-established rates. Failure to provide sufficient help when requested shall result in forfeiture of all rights to state aid to the fair for these contests. The owner, trainer, groom, or other responsible representative of the owner shall be present when a saliva or urine specimen is taken from the animal, and shall remain until the sample is sealed in his presence. The official sample tag attached to the specimen shall be signed by the owner, trainer, groom, or other representative as witness of the taking of the specimen. Refusal or failure to sign the sample tag will in no way affect the validity of the specimen. Willful failure to be present at or refusal to allow the taking of a specimen, or any act or threat to impede or prevent or otherwise interfere therewith, shall be a violation of this rule. The saliva and urine samples shall be analyzed in the laboratories of the Michigan department of agriculture.

History: 1954 ACS 56, p. 8, Eff. Nov. 14, 1968.

R 285.813.4 Devices.

Rule 4. No electrical, mechanical, or other device shall be used for the purpose of stimulating or depressing an animal or affecting his speed or ability in a race or contest, nor shall anyone have such a device in his possession, where state funds are used for any portion of the premium offered. However, an ordinary whip with spur may be used in a harness horse race.

History: 1954 ACS 56, p. 8, Eff. Nov. 14, 1968.

R 285.813.5 Hearings.

Rule 5. The presence of a drug in the chemical analysis of saliva or urine samples shall be prima facie evidence that the drug has been administered to the

animal. The director of agriculture shall notify the fair association and the animal's owner of the findings and shall hold a hearing thereon, or on any violation of these rules, within 14 days from the date the test results are received by the director. The owner or his representative may appear and be heard. The owner of the animal and his representative and all animals, owned or leased to them, are ineligible to participate in or receive premiums offered at any county, district, or community fair where state funds are used for any portion of the premiums offered, pending an investigation and decision. From testimony taken the director of agriculture shall render a decision on the eligibility of the owner, his representative, and the animal, or any of them, to participate in state funds paid at any future state, county, district, or community fair harness horse race or pulling contest.

History: 1954 ACS 56, p. 8, Eff. Nov. 14, 1968.

REGULATION NO. 814. MICHIGAN FUTURITY RACES

(By authority conferred on the director of agriculture by section 13 of Act No. 27 of the Public Acts of 1959, as amended, being §431.43 of the Michigan Compiled Laws)

R 285.814.1 Definitions.

Rule 1. As used in these rules:

(a) "Commission" means the commission of agriculture.

(b) "Director" means the director of agriculture.

(c) "Fair" means a county, district or community fair which conducts harness horse racing for standardbred horses.

(d) "Futurity race" means a stake race in which the dams of the competing horses were nominated either when in foal or during the year of foaling.

(e) "Michigan futurity race" means a futurity race of 2- and 3-year-old Michigan bred standardbred horses.

History: 1954 ACS 63, p. 13, Eff. Aug. 14, 1970.

R 285.814.2 Kinds of futurity races.

Rule 2. (1) A Michigan futurity race will be comprised of 4 individual races as follows:

(a) One 2-year-old pace.

(b) One 2-year-old trot.

(c) One 3-year-old pace.

(d) One 3-year-old trot.

(2) Monies provided by the director for the special purses for these races will be divided equally among the 4 races.

History: 1954 ACS 63, p. 14, Eff. Aug. 14, 1970.

R 285.814.3 Race sites.

Rule 3. (1) The director will designate the fair to host the Michigan futurity races.

(2) The Michigan futurity races will not be held at the same fair at which the Wolverine futurity is held.

(3) If because of unfavorable weather or other unavoidable reason the Michigan futurity races are postponed, they will be rescheduled at the discretion of the director. The director may reschedule the races at another fair if the fair originally designated to host the futurity is unable to do so.

History: 1954 ACS 63, p. 14, Eff. Aug. 14, 1970.

R 285.814.4 Purse distributions.

Rule 4. (1) The Michigan futurity races shall be conducted under the 2 heat plan of racing.

(2) Each purse in the Michigan futurity races will be divided into 2 equal parts and divided among the winners of each heat in the following manner:

Five or more starters.....	45%	25%	15%	10%	5%
Four starters.....	50%	25%	15%	10%	
Three starters.....	50%	30%	20%		
Two starters.....	65%	35%			
One starter.....	100%				

(3) If there are 2 heat winners, the trophy will go to the winner standing best in the summary. If both winners are tied in the summary, the trophy will go to the winner of the fastest heat. In the event of a tie in both summary and time, the trophy will go to the winner of the second heat.

History: 1954 ACS 63, p. 14, Eff. Aug. 14, 1970.

R 285.814.5 Elimination heats.

Rule 5. (1) If more than 10 horses are declared to start on a 10-horse track or more than 12 horses are declared to start on a 12-horse track, the elimination heat system as hereinafter described will be used.

(2) The field of horses shall be divided by lot and a first elimination heat will race for 30% of the purse. The second elimination heat will race for 30% of the purse, and the horses who qualify for the main heat will race for 40% of the purse. The winner of the main heat shall be the race winner.

(3) If more horses are declared in to start than can be accommodated by 2 elimination heats, enough elimination heats will be added to take care of the additional horses. The percent of purse raced for in each elimination heat will be determined by dividing the number of elimination heats into 60. The main heat will be for 40% of the purse. If there are 3 or more qualifying heats, not more than 3 horses will qualify from each qualifying heat for the main heat.

History: 1954 ACS 63, p. 14, Eff. Aug. 14, 1970.

R 285.814.6 Final reports.

Rule 6. Within 60 days after completion of Michigan futurity races, a statement of the disposition of these special state funds shall be subscribed and sworn to by the authorized fair official and submitted to the director.

History: 1954 ACS 63, p. 14, Eff. Aug. 14, 1970.

R 285.814.7 Stallion registration.

Rule 7. A standardbred horse to be eligible for Michigan futurity races shall be sired by a standardbred sire that was owned exclusively by residents of this state and which was standing in this state the entire calendar year in which the service occurred. This stallion shall be registered, on forms provided by the director, with the director by January 1 in each year in which the stallion will be standing at service in this state if its foals are to be eligible for Michigan futurity races.

History: 1954 ACS 63, p. 14, Eff. Aug. 14, 1970.

R 285.814.9 Rescission.

Rule 9. Regulation No. 803 governing "Special Purses on Michigan Sired Colts," being R 285.803 of the Michigan Administrative Code and appearing on pages 370 to 373 of the 1957 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 63, p. 15, Eff. Aug. 14, 1970.

REGULATION NO. 815.
STATE AID FOR REGISTERED LIGHT HORSE RACES AT FAIRS

(By authority conferred on the director of agriculture by section 13 of Act No. 27 of the Public Acts of 1959, as amended, being §431.43 of the Michigan Compiled Laws)

R 285.815.1 Definitions.

Rule 1. As used in these rules:

(a) "Department" means the Michigan department of agriculture.

(b) "Director" means the director of the department of agriculture.

(c) "Fair" means a state or county fair incorporated under the appropriate law.

(d) "Jockey" means the race rider.

(e) "Race" means a race started in a field of horses from a starting gate.

(f) "Registered light horse" means a recognized light horse or pony breed as follows:

(i) Appaloosa
(ii) Arabian
(iii) Half-Arabian
(iv) Morgan
(v) Paint
(vi) Palomino
(vii) Pinto
(viii) Quarter
(ix) Thoroughbred
(x) Ponies of the Americas
(xi) Shetland
(xii) Hackney

(g) "State allocation" means money allocated by the director from state funds for a race conducted by a fair.

History: 1954 ACS 78, p. 22, Eff. Jan. 8, 1974.

R 285.815.2 Applications for state aid.

Rule 2. (1) Commencing in 1974, a fair desiring state aid for light horse races shall file its annual registered light horse racing program with the department by February 1 of each year, for approval by the director. In 1973 only, the annual registered light horse racing program shall be filed with the department within 30 days after the date these rules are filed with the secretary of state.

(2) Any change relating to the conditions of a race shall be approved by the department not less than 10 days before the start of the race.

History: 1954 ACS 78, p. 22, Eff. Jan. 8, 1974; 1954 ACS 84, p. 29, Eff. Aug. 16, 1975.

R 285.815.3 Presiding judges.

Rule 3. (1) The department shall hire and approve presiding judges for registered light horse races conducted at Michigan fairs. Only judges approved by the director shall preside at registered light horse races at fairs.

(2) A registered light horse association shall provide the director with a list of qualified judges for their breed prior to March 1 of each racing year.

(3) The director shall assign the presiding judges to the fairs which conduct registered light horse racing.

(4) The presiding judge shall approve associate judges and timers at each fair race meet and rule on the validity of horses scratched at the fair to which he is assigned.

(5) The presiding judge shall see that all department rules and breed association rules pertaining to registered light horse racing are properly carried out at the race meet where he is assigned.

History: 1954 ACS 78, p. 22, Eff. Jan. 8, 1974; 1954 ACS 84, p. 29, Eff. Aug. 16, 1975.

R 285.815.4 Track maintenance, equipment, and head numbers.

Rule 4. (1) A racetrack over which registered light horse races are conducted shall be maintained so as to make registered light horse racing safe. The track shall be adequately drained and kept in a smooth condition during the races and shall be sprinkled between races when necessary. The track condition shall be approved by a representative of the director before any races are conducted over it if purses are paid in part by funds allocated under these rules.

(2) A multiple stall starting gate (8 or 10 stall) and starter approved by the director shall be used in a registered light horse race.

(3) A fair shall use a photographer and photo finish equipment approved by the director for a registered light horse race.

(4) A registered light horse race entry shall be provided with a head number or saddle pad or both.

History: 1954 ACS 78, p. 22, Eff. Jan. 8, 1974.

R 285.815.5 Allocations of state aid.

Rule 5. (1) Allocations to a fair for purses for registered light horse races will be made by the director before the races as prescribed by law and will be 50% of the purse offered, but not more than $250.00 for each race.

(2) A registered light horse race whose purse is paid in part or full by state funds may not bar a registered light horse sired by a Michigan stallion if the Michigan sired registered light horse conforms to all the conditions of the race.

History: 1954 ACS 78, p. 23, Eff. Jan. 8, 1974.

R 285.815.6 Purse distribution.

Rule 6. A purse for a registered light horse race at a fair, which is paid in part or full by state funds, shall be divided as follows:

	1st Place	2nd Place	3rd Place	4th Place
Four or more starters	50%	25%	15%	10%
Three starters	55%	30%	15%	
Two starters	65%	35%		
One starter	100%			

History: 1954 ACS 78, p. 23, Eff. Jan. 8, 1974; 1954 ACS 84, p. 29, Eff. Aug. 16, 1975.

R 285.815.7 Split races.

Rule 7. A fair conducting a split race shall not receive an additional state allocation to that race.

History: 1954 ACS 78, p. 23, Eff. Jan. 8, 1974.

R 285.815.8 Entries.

Rule 8. (1) A fair shall provide at least 4 feet per horse at the narrowest point of the track in a race.

(2) An entry box will be closed when the starting gate is filled or 2 days before post time, whichever comes first. If 4 horses are not entered at the closing time, the box may be reopened 4 hours later for the same conditions for a period of 1 hour. Then, if the scheduled race fails to fill, a substitute race may be scheduled.

(3) At least 4 registered light horses are required to start a race, but less than 4 horses may start if 1 or more horses are scratched because of physical reasons substantiated by a veterinary certificate which certificate is submitted with the final report to the department.

History: 1954 ACS 78, p. 23, Eff. Jan. 8, 1974; 1954 ACS 84, p. 30, Eff. Aug. 16, 1975.

R 285.815.9 Racing rules for specific breeds.

Rule 9. A registered light horse breed association shall file with the director the current rules of racing for its programs for registered horses, and shall conduct any registered light horse races receiving any state funds under these rules, except where state law or rule provides otherwise.

History: 1954 ACS 78, p. 23, Eff. Jan. 8, 1974; 1954 ACS 84, p. 30, Eff. Aug. 16, 1975.

R 285.815.10 Jockeys' use of alcoholic beverages.

Rule 10. A jockey shall not ride in a registered light horse race at a fair, whose purse is paid in part or full by state funds, while under the influence of alcohol. A jockey shall submit to a breath analyzer test when directed by a representative of the director, and if the results show a reading of more than 0.05% of alcohol in the blood, the person shall not be permitted to ride and shall be in violation of these rules.

History: 1954 ACS 78, p. 23, Eff. Jan. 8, 1974.

R 285.815.11 Illegal use of drugs.

Rule 11. It is illegal to administer internally or externally a drug of a nature that could affect or alter the normal performance of a horse in a registered light horse race where state funds are used for any portion of the purses offered.

History: 1954 ACS 78, p. 23, Eff. Jan. 8, 1974.

R 285.815.12 Definition of drugs.

Rule 12. As used in these rules, "drug" means:

(a) Any article recognized or for which the standards or specifications are prescribed in the official compendium consisting of the United States pharmacopeia, homeopathic pharmacopoeia of the United States or national formulary and supplements in effect on the effective date of these rules.

(b) Any article intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or other animals.

(c) Any article, other than food, intended to affect the structure of any function of the body of man or other animals.

(d) Any article intended for use as a component of any article specified in subdivisions (a), (b) or (c), but does not include devices or their components, parts, or accessories.

History: 1954 ACS 78, p. 23, Eff. Jan. 8, 1974.

R 285.815.13 Collection of samples.

Rule 13. Saliva and urine samples may be obtained by the director from any horse entered in a registered light horse race. The director or his representative may request the fair association to furnish necessary help to obtain saliva and urine samples. The department will pay the help at pre-established rates. Failure to provide sufficient help when requested shall result in forfeiture of all rights to state aid to the fair for these contests. The owner, trainer, groom, or other responsible representative of the owner shall be present when a saliva or urine specimen is taken from the animal, and shall remain until the sample is sealed in his presence. The official sample tag attached to the specimen shall be signed by the owner, trainer, groom, or other representative, as witness of the taking of the specimen. Refusal or failure to sign the sample tag will in no way affect the validity of the specimen. Willful failure to be present at or refusal to allow the taking of a specimen, or any act or threat to impede or prevent or otherwise interfere therewith, is a violation of these rules. The saliva and urine samples shall

be analyzed in the laboratories of the department. The presence of a drug in the chemical analysis of saliva or urine samples shall be prima facie evidence that the drug has been administered to the animal.

History: 1954 ACS 78, p. 24, Eff. Jan. 8, 1974.

R 285.815.14 Devices.

Rule 14. An electrical, mechnical, or other device shall not be used for the purpose of stimulating or depressing an animal or affecting his speed or ability in a race. A person shall not have such a device in his possession where state funds are used for any portion of the purses offered. However, an ordinary whip may be used in a registered light horse race.

History: 1954 ACS 78, p. 24, Eff. Jan. 8, 1974.

R 285.815.15 Hearings.

Rule 15. If a provision of these rules or any other rules or state law applicable to a registered light horse race program or a registered light horse breed association rules for racing applicable to this program is violated, the director shall notify the horse's owner of the violation and shall hold a hearing thereon within 14 days after the date the violation is reported to the director. The owner or his representative may appear and be heard. From testimony taken, the director shall render a decision on the eligibility of the owner, his representative, and the animal, or any of them, pertaining to the race in which the provision was violated, to participate in state funds paid at any future state, county, district, or community fair registered light horse race.

History: 1954 ACS 78, p. 24, Eff. Jan. 8, 1974; 1954 ACS 84, p. 30, Eff. Aug. 16, 1975.

R 285.815.16 Final reports and preservation of records.

Rule 16. (1) Within 15 days after completion of a registered light horse race program, or June 30, whichever is sooner, an association shall submit to the director originals of judges' sheets signed by the presiding judge and a sworn statement on forms provided by the director and a copy of the printed race program indicating the order of finish of the horses.

(2) The association shall supply the director any additional information required in the auditing of the report.

(3) Association records pertaining to the payment of purses shall be kept for use by the state auditors not less than 3 years.

History: 1954 ACS 78, p. 24, Eff. Jan. 8, 1974.

REGULATION NO. 816.
STABLING AND TRAINING FACILITIES FOR STANDARDBRED HARNESS HORSES

(By authority conferred on the department of agriculture by section 13 of Act No. 27 of the Public Acts of 1959 and sections 9 and 184 of Act No. 380 of the Public Acts of 1965, being §§431.36, 16.109, and 16.284 of the Michigan Compiled Laws)

R 285.816.1 Definitions.

Rule 1. As used in these rules:

(a) "Association" means a corporation organized under a law of this state and governed by an elected board of directors, or an association or board functioning under Act No. 11 of the Public Acts of 1929, being §46.151 et seq. of the Michigan Compiled Laws, and which conducts a fair.

(b) "Buildings" means the buildings which are primarily used for the stabling of horses or other livestock and which are owned by a fair association or political subdivision of this state.

(c) "Commission" means the commission of agriculture.

(d) "Department" means the department of agriculture.

(e) "Director" means the director of agriculture.

(f) "Fair" means a competitive and educational exhibition of agricultural commodities and manufactured products for which premiums are paid, and which is conducted by an association or state agency.

(g) "Grounds" means the land which is primarily used for fair purposes and which is owned by a fair association or a political subdivision of this state.

(h) "Racetrack" means a track used primarily for standardbred harness horse races, and includes the fence around the track and the hubrail.

History: 1954 ACS 88, p. 51, Eff. Aug. 24, 1976.

R 285.816.2 Allotments; qualifications.

Rule 2. (1) An association receiving an allotment shall not require persons using the fair facilities to be members of an association or organization.

(2) A fair shall have been conducted by the association for a period of not less than 3 years before the time of application and approved by the commission for financial assistance.

(3) An allotment may be made only to an association which does not receive state funds for standardbred harness horse racing and stabling directly from any other state source.

History: 1954 ACS 88, p. 51, Eff. Aug. 24, 1976.

R 285.816.3 Allotments; application and approval.

Rule 3. (1) The president and secretary of an association requesting funds shall file a proper application in duplicate, on forms provided by the department, with the director for consideration on or before May 1 preceding the state's fiscal year for which an allotment is being requested, or 60 days prior to making the association's facilities available for training and stabling.

(2) The department shall give written notice of approval or disapproval of an application within 30 days after receiving the application.

History: 1954 ACS 88, p. 52, Eff. Aug. 24, 1976.

R 285.816.4 Stabling facilities.

Rule 4. (1) Michigan residents shall be given preference over persons from outside Michigan for stabling facilities.

(2) Stalls shall not be less than 80 square feet per horse.

(3) Water shall be provided to each building used in this program.

(4) Electrical systems in buildings shall conform to the state electrical code.

(5) Conveniently located restrooms and washroom facilities shall be provided on the grounds for persons renting stabling facilities, and shall conform to applicable local codes.

(6) All manure shall be removed from the grounds complying to the local health codes.

History: 1954 ACS 88, p. 52, Eff. Aug. 24, 1976.

R 285.816.5 Training facilities.

Rule 5. (1) A racetrack on which standardbred harness horses train shall be maintained in a manner suitable for training horses, or an auxiliary track be made available.

(2) The racing track shall be available for harness horse training for a period of not less than 6 hours per day, except during the dates of the fair, unless written consent is given by the director.

(3) An association shall have a racetrack marked with a painted post as to starting point, quarter miles, and finish.

History: 1954 ACS 88, p. 52, Eff. Aug. 24, 1976.

R 285.816.6 Final approval.

Rule 6. After an application has been submitted, the department shall conduct an inspection of the total facility in order to determine that the facility meets the standards described in R 285.816.4 and R 285.816.5.

History: 1954 ACS 88, p. 52, Eff. Aug. 24, 1976.

R 285.816.7 Allotments; uses.

Rule 7. (1) An association which has an application approved and has conformed with these rules shall be reimbursed $25.00 per month for each horse for the first 5 horses, and $10.00 per month for all over 5 horses.

(2) (a) The association shall submit to the department a sworn statement of the number of stalls rented and the period of time for which they were rented.

(b) The fair association shall provide any additional information requested by the director necessary in processing the association's claim.

(3) A fair shall keep its facilities available and racetracks in training condition throughout the year, with the following exceptions:

(a) Except for 2 weeks before and after the association's scheduled fair dates.

(b) Except those associations north of and along a line from Standish to Ludington, which shall keep their racetracks in a suitable training condition from May 1 to December 15.

(4) A rent rate charged to a person for stabling or training at an approved racetrack, or both, shall be approved by the director.

(5) A person stabling or training at an approved racetrack, or both, shall pay the rental charges for those services at the time and place specified by the association, or shall be subject to immediate eviction from the grounds.

(6) A person stabling or training at an approved racetrack, or both, shall not be eligible to participate in a harness horse race where state funds are used to pay any portion of the race if that person fails to pay a stabling or training rental charge, or both, as specified by the association whose facility he uses.

(7) The association shall keep records pertaining to the rental of their facilities available for state auditors for not less than 3 years.

History: 1954 ACS 88, p. 52, Eff. Aug. 24, 1976.

REGULATION NO. 817.
QUARTER HORSE BREEDERS' AWARDS AND STATE SUPPLEMENTS

(By authority conferred on the director of agriculture by section 13 of Act No. 27 of the Public Acts of 1959, as amended, being §431.43 of the Michigan Compiled Laws)

R 285.817.1 Definitions.

Rule 1. As used in these rules:

(a) "Breeder" means a person or entity owning a mare at the time of breeding.

(b) "Conditions" means a specification of the terms under which a race is conducted, such as the distance, weight, purse, stakes, trials, finals, and money won.

Digitized by Google

(c) "Department" means the Michigan department of agriculture.

(d) "Director" means the director of the Michigan department of agriculture.

(e) "Foaling year" means the year in which the foal is born.

(f) "Gross purse" means the track purse plus the state supplement.

(g) "Licensed quarter horse racing association" means associations licensed by the Michigan racing commissioner to conduct quarter horse races in Michigan.

(h) "Michigan-bred horse" means a horse from a Michigan-owned mare at the time of breeding and sired by a registered stallion owned exclusively by a resident or residents of this state and which served no mares at any location outside of this state during the calendar year in which the service occurred. Mares shall be registered with the director of agriculture.

(i) "Owner" means the person listed on the American quarter horse association registry as the most current owner of the horse.

(j) "Quarter horse racing association of Michigan" means a nonprofit corporation consisting of those persons organized for the purpose of improving quarter horse racing and breeding.

(k) "State supplement" means money allocated by the director from the state fund for a race conducted exclusively for Michigan-bred horses.

(l) "Track purse" means the money offered by a quarter horse racing association for 1 race, not including a state supplement.

History: 1954 ACS 91, p. 28, Eff. May 11, 1977.

R 285.817.2 Eligibility of horses for breeders' awards and state supplements.

Rule 2. (1) Eligibility of horses for breeders' awards and state supplements is established upon compliance with the following:

(a) Commencing in 1978, a mare shall be registered with the director, by December 1 of the year the mare was bred, on forms provided by the director.

(b) Commencing in 1978, a stallion shall be registered with the director, by December 1 of the breeding year, on forms provided by the director.

(c) A certificate of eligibility shall be issued by the director for a Michigan-bred horse. This certificate shall accompany the American quarter horse association registration certificate at the time of entry in a race.

(2) The American quarter horse association shall be considered the official record in determining the eligibility of a Michigan-bred horse foaled before 1979.

History: 1954 ACS 91, p. 28, Eff. May 11, 1977; 1954 ACS 98, p. 73, Eff. Aug. 15, 1978.

R 285.817.3 Eligibility of races for state supplements.

Rule 3. (1) State supplements shall be allocated for the following races:

(a) Michigan-bred quarter horse over-night races.

(b) The Michigan futurities.

(c) Michigan-bred 2-year-old championships, handicaps, and stakes.

(d) Michigan-bred 3-year-old handicaps and stakes.

(e) Michigan-bred 4-year-old and older handicaps and stakes.

(2) State supplements shall be paid first for races specified under subdivisions (b) to (e) of subrule (1). If funds are not available to provide state supplements for all races approved by the director under subdivision (a) of subrule (1), then the director shall prorate available money at his discretion among the races so run.

(3) Not less than 3 races of Michigan-bred horses shall be scheduled on each full quarter horse program, with not less than 1 race of Michigan-bred horses on any split program.

(4) An association licensed to conduct quarter horse racing in Michigan shall not offer a smaller track purse, excluding the state supplement, for a race of

Michigan-bred horses, than it offers for a race of non-Michigan-bred horses which, in the judgment of the director, is a comparable race.

(5) If the programmed race of Michigan-bred horses does not draw sufficient entries to run, the licensed quarter horse racing association may substitute a race approved by the director.

History: 1954 ACS 91, p. 26, Eff. May 11, 1977.

R 285.817.4 Conditions and purses for races; allocation of state supplements.

Rule 4. (1) The racing association of the track where races of Michigan-bred horses are to be conducted shall propose conditions and purses for the races of Michigan-bred horses. The conditions of all races of Michigan-bred horses are subject to the approval of the director. These conditions shall be submitted to the director not less than 18 calendar days before the first race is conducted for each race program.

(2) The allocation of state supplements shall be determined by the director with the advice of the racing commissioner, a representative of the licensed quarter horse racing associations, and a representative of the quarter horse racing association of Michigan.

(3) The director shall announce, no later than 4 calendar days before the start of the race meet, his allocation of state supplements to purses for each of the approved races of Michigan-bred horses in the race program. If proposed conditions for those races are not submitted to the director, along with a substitute race list, within the time fixed by subrule (1), the director may determine conditions and allocate state supplements for those races at his discretion, but state supplements may not be allocated later than 96 hours before the first race scheduled in each condition book. A state supplement shall not be allocated to a race of Michigan-bred horses after the race has been run.

History: 1954 ACS 91, p. 27, Eff. May 11, 1977.

R 285.817.5 Payment of breeder's award.

Rule 5. (1) The director shall pay a breeder's award to the breeder of a Michigan-bred horse for each time the horse runs first, second, or third in a race, including approved fair races. The total award shall be in the amount of 10% of gross purse. If more than 1 winner, place, or show is declared, each breeder is entitled to a breeder's award.

(2) If 3 breeders are eligible for a breeder's award, the breeder whose horse came in first shall receive 5% of the gross purse, the breeder whose horse came in second shall receive 3%, and the breeder whose horse came in third shall receive 2%. If breeders of only 2 of the first 3 horses are eligible, the division shall be 6% and 4%. If only 1 breeder is eligible, he shall receive 10%.

(3) Rights to breeders' awards are not assignable, and there shall be no obligation upon the director to pay a breeder's award other than as provided herein, or in excess of available funds. A breeder's award shall not be paid for a race won after the date of the death of the breeder, who would otherwise be entitled to the award.

History: 1954 ACS 91, p. 27, Eff. May 11, 1977.

R 285.817.6 Certification of racing results; burden of proof; processing of payment.

Rule 6. (1) In each condition book, the racing commissioner shall certify to the director at the completion of racing the results of all races in which a Michigan-

bred horse placed first, second, or third, along with the names of the owner and breeder of the horse.

(2) The secretary of a fair shall provide the director with a copy of each day's race program for the fair's races within 15 days, showing the first 4 places or a complete film strip of each race, with placings checked on the program and certified by the race secretary.

(3) When the eligibility of a breeder to receive a breeder's award is questioned, the burden of proving that a horse is a Michigan-bred horse, or is in compliance with these rules, is on the breeder.

(4) State supplements may be processed for payment to the owners of winning horses once each month.

(5) Payment of breeders' awards shall be processed not less than once each month.

History: 1954 ACS 91, p. 27, Eff. May 11, 1977.

R 285.817.7 Ineligibility for future breeders' awards and state supplements.

Rule 7. A person or entity willfully accepting and retaining a breeder's award or state supplement contrary to these rules is ineligible for a future breeder's award or state supplement in this state.

History: 1954 ACS 91, p. 28, Eff. May 11, 1977.

REGULATION NO. 818. MICHIGAN SIRE STAKE RACES

(By authority conferred on the director of agriculture by section 13 of Act No. 27 of the Public Acts of 1959, as amended, being §431.43 of the Michigan Compiled Laws)

R 285.818.1 Definitions.

Rule 1. As used in these rules:

(a) "Breeder" means a person or entity owning a mare at the time of breeding.

(b) "Commission" means the commission of agriculture.

(c) "Department" means the department of agriculture.

(d) "Director" means the director of agriculture.

(e) "Licensed racing association" means an association licensed by the Michigan racing commission to conduct standardbred horse races in Michigan.

(f) "M.H.H.A." means the Michigan harness horsemen's association.

(g) "Michigan-sired horse" means a horse from a Michigan owned or leased registered standardbred stallion owned or leased exclusively by a resident or residents of this state and which served no mares at any location outside of this state during the calendar year in which the service occurred. These stallions shall be registered, on forms provided by the director, with the department by January 1 each year in which the stallions will be standing at service in this state. A newly acquired stallion, which has not been in Michigan for breeding purposes prior to January 1 of a given year, and has not served any mares after December 31 of the preceding year, shall be registered with the department before servicing any mares, if its foals are to be eligible for Michigan sire stake races.

(h) "Sire stake" means a race conducted for 2- and 3-year-old Michigan sired standardbred horses.

History: 1954 ACS 98, p. 73, Eff. July 13, 1978.

R 285.818.2 Foals eligible for nomination; racing divisions.

Rule 2. (1) The Michigan sire stake races shall be comprised of 8 individual races. The first foals eligible to be nominated for these races shall be the foals born in the official 1979 U.S.T.A. foaling season.

(2) In 1981, they shall be raced as 2-year-olds in 4 separate divisions, as follows:
(a) 2-year-old pacing colts and geldings.
(b) 2-year-old pacing fillies.
(c) 2-year-old trotting colts and geldings.
(d) 2-year-old trotting fillies.
(3) In all years following 1981, they shall be raced in 8 separate divisions, as follows:
(a) 2-year-old pacing colts and geldings.
(b) 2-year-old pacing fillies.
(c) 2-year-old trotting colts and geldings.
(d) 2-year-old trotting fillies.
(e) 3-year-old pacing colts and geldings.
(f) 3-year-old pacing fillies.
(g) 3-year-old trotting colts and geldings.
(h) 3-year-old trotting fillies.

History: 1954 ACS 98, p. 73, Eff. July 13, 1978.

R 285.818.3 Fees and nominations.

Rule 3. (1) The M.H.H.A. shall be the holding agent for all fees collected, and shall be responsible for the disbursement of purse monies pertaining to the sire stakes program.

(2) The M.H.H.A. may retain up to 5% of the money collected from nominations and March fifteenth 2-year-old payments to pay for the clerical work necessary in the administration of these races. The balance of these 2 payments shall be added to the money made available under the provisions of Act No. 27 of the Public Acts of 1959, as amended, being §431.31 et seq. of the Michigan Compiled Laws.

(3) The payment schedule shall be as follows:
(a) Year of foaling—July 15 nomination.....$10.00
(b) 2-year-old—March 15.....$50.00
Must be made to keep all future eligibility.
(c) 2-year-old—starting fee $500.00 due 10 days before the racing of the finals. (Gait must be specified on the March 15 payment)
(d) 3-year-old—March 15.....$50.00
(e) 3-year-old—starting fee $500.00 due 10 days before the racing of the finals. (Gait must be specified on the March 15 payment.)

(4) In 1981, 50% of the money made available by statute shall be divided equally among the 4 divisions to be raced in 1981. The remaining 50% shall be carried over and added in 4 equal amounts to the total amounts available for the years 1982, 1983, 1984, and 1985. In all years after 1981, all monies available shall be divided equally among the 8 divisions to be raced.

(5) All March 15 payments and starting fees shall be added to their respective divisions.

(6) Any foal changing gaits after the March 15 payment may transfer to the division of its new gait and the March 15 payments shall follow such transfer.

History: 1954 ACS 98, p. 74, Eff. July 13, 1978.

R 285.818.4 Designation of host tracks; race dates; postponement and rescheduling of races.

Rule 4. (1) The director shall designate annually which pari-mutuel track or tracks shall host the Michigan sire stake races. To assist the director in designating

the track and to help determine the time and conditions of the races to be run, an advisory panel is established consisting of the following 5 persons:

(a) The president, or his designee, of the Michigan harness horsemen's association.

(b) The president, or his designee, of the Michigan harness horse breeders' association.

(c) The Michigan racing commissioner, or his designee.

(d) A representative of the pari-mutuel harness race meet licensees.

(e) A member of the Michigan department of agriculture, designated by the director, who shall act as chairman.

(2) The director shall make announcements of the track or tracks receiving the races not later than November 1 preceding the year in which the races are to be conducted.

(3) If because of unfavorable weather or other unavoidable circumstances the Michigan sire stake races are postponed, the director may reschedule the races at another licensed standardbred harness track, if the licensed track originally designated to host the sire stakes is unable to do so.

History: 1954 ACS 98, p. 74, Eff. July 13, 1978.

R 285.818.5 Elimination plan; applicable rules.

Rule 5. (1) All races shall be conducted pursuant to the following elimination plan:

(a) Seventy-five percent of the total money available for each division shall constitute the purse for the final event in each division, which shall be raced in 1 heat.

(b) Twenty-five percent of the total money available for each division shall be divided equally by the number of elimination heats required, and which shall be raced 7 days before the date of their respective finals, as follows:

(i) If 11 to 18 declare to start—2 divisions with 5 each qualifying.

(ii) If 19 to 27 declare to start—3 divisions with 3 each qualifying.

(iii) If 28 to 36 declare to start—4 divisions with 2 each qualifying.

(iv) If 37 to 45 declare to start—5 divisions with 2 each qualifying.

(v) If more than 45 declare to start, heats shall be conducted so that a field does not contain more than 9 starters and only the winners shall be qualified for the final.

(2) If less than 11 declare to start, they shall race the final, without elimination heats, for the total money available for that division.

(3) Elimination races may be raced as betting races or as pre-programmed races at the discretion of the host track.

(4) Racing of these futurities, where not specifically covered by these rules, shall be raced pursuant to the rules of the Michigan racing commissioner.

History: 1954 ACS 98, p. 75, Eff. July 13, 1978.

R 285.818.6 Purse distribution.

Rule 6. Each purse in the Michigan sire stake races shall be divided among the winners of each race in the following manner:

5 or more starters	50%, 25%, 12%, 8%, 5%
4 starters	50%, 25%, 15%, 10%
3 starters	50%, 30%, 20%
2 starters	65%, 35%
1 starter	100%

REGULATION NO. 819.
APPALOOSA HORSE BREEDERS' AWARDS AND STATE SUPPLEMENTS

(By authority conferred on the director of agriculture by section 13 of Act No. 27 of the Public Acts of 1959, as amended, being §431.43 of the Michigan Compiled Laws)

R 285.819.1 Definitions.

Rule 1. As used in these rules:

(a) "Breeder" means a person or entity owning a mare at the time of breeding.

(b) "Conditions" means a specification of the terms under which a race is conducted, such as the distance, weight, purse, stakes, trials, finals, and money won.

(c) "Department" means the Michigan department of agriculture.

(d) "Director" means the director of the Michigan department of agriculture.

(e) "Foaling year" means the year in which the foal is born.

(f) "Gross purse" means the track purse plus the state supplement.

(g) "Licensed Appaloosa horse racing association" means associations licensed by the Michigan racing commissioner to conduct Appaloosa horse races in Michigan.

(h) "Michigan-bred horse" means a horse from a Michigan-owned mare at the time of breeding and sired by a registered stallion owned or leased exclusively by a resident or residents of this state and which served no mares at any location outside of this state during the calendar year in which the service occurred. Mares shall be registered with the director of agriculture.

(i) "Owner" means the person listed on the national Appaloosa horse club registry as the most current owner of the horse.

(j) "Michigan Appaloosa racing association, inc." means a nonprofit corporation consisting of those persons organized for the purpose of improving Appaloosa horse racing and breeding.

(k) "State supplement" means money allocated by the director from the state fund for a race conducted exclusively for Michigan-bred Appaloosa horses.

(l) "Track purse" means the money offered by a licensed Appaloosa horse racing association for 1 race, not including a state supplement.

History: 1954 ACS 98, p. 75, Eff. July 8, 1978.

R 285.819.2 Eligibility of horses for breeders' awards and state supplements.

Rule 2. (1) Eligibility of horses for breeders' awards and state supplements is established upon compliance with the following:

(a) Commencing in 1978, a mare shall be registered with the director by September 1, 1978, and July 1 each year thereafter, in the year in which the mare is bred, on forms provided by the director.

(b) Commencing in 1979, a stallion shall be registered with the director, by February 1 of the breeding year, on forms provided by the director.

(c) A certificate of eligibility shall be issued by the director for a Michigan-bred horse. This certificate shall accompany the national Appaloosa horse club registration certificate at the time of entry in a race.

(2) The national Appaloosa horse club shall be considered the official record in determining the eligibility of a Michigan-bred horse foaled before 1979.

History: 1954 ACS 98, p. 76, Eff. July 8, 1978.

R 285.819.3 Eligibility of races for state supplements.

Rule 3. (1) State supplements shall be allocated for the following races:

(a) Michigan-bred Appaloosa horse overnight races.

(b) The Michigan futurities.

(c) Michigan-bred 2-year-old handicaps and stakes.

(d) Michigan-bred 3-year-old handicaps and stakes.

(e) Michigan-bred 4-year-old and older handicaps and stakes.

(2) State supplements shall be paid first for races specified under subdivisions (b) to (e) of subrule (1). If funds are not available to provide state supplements for all races approved by the director under subdivision (a) of subrule (1), then the director shall prorate available money at his discretion among the races so run.

(3) Not less than 2 races of Michigan-bred horses shall be scheduled on each full Appaloosa horse program, with not less than 1 race scheduled for Michigan-bred horses on any split program.

(4) An association licensed to conduct Appaloosa horse racing in Michigan shall not offer a smaller track purse, excluding the state supplement, for a race of Michigan-bred horses than it offers for a race of non-Michigan-bred horses which, in the judgment of the director, is a comparable race.

(5) If the programmed race of Michigan-bred horses does not draw sufficient entries to run, the licensed Appaloosa horse racing association may substitute a race approved by the director.

History: 1954 ACS 98, p. 76, Eff. July 8, 1978.

R 285.819.4 Conditions and purses for races; allocation of state supplements.

Rule 4. (1) The racing association of the track where races of Michigan-bred horses are to be conducted shall propose conditions and purses for the races of Michigan-bred horses. The conditions of all races of Michigan-bred horses are subject to the approval of the director. These conditions shall be submitted to the director not less than 18 calendar days before the first race is conducted for each race program.

(2) The allocation of state supplements shall be determined by the director with the advice of the racing commissioner, a representative of the licensed Appaloosa horse racing associations, and a representative of the Michigan Appaloosa racing association, inc.

(3) The director shall announce, not later than 4 calendar days before the start of the race program, his allocation of state supplements to purses for each of the approved races of Michigan-bred horses in the race program. If proposed conditions for those races are not submitted to the director, along with a substitute race list, within the time fixed by subrule (1), the director may determine conditions and allocate state supplements for those races at his discretion, but state supplements shall not be allocated later than 96 hours before the first race scheduled in each condition book. A state supplement shall not be allocated to a race of Michigan-bred horses after the race has been run.

History: 1954 ACS 98, p. 76, Eff. July 8, 1978.

R 285.819.5 Payment of breeder's award.

Rule 5. (1) The director shall pay a breeder's award to the breeder of a Michigan-bred horse for each time the horse wins a race, including approved fair races. The total award shall be in the amount of 10% of gross purse. If more than 1 winner is declared, each breeder is entitled to a full breeder's award.

(2) Rights to breeders' awards are not assignable, and there is no obligation upon the director to pay a breeder's award other than as provided herein, or in excess of available funds. A breeder's award shall not be paid for a race won after the date of death of the breeder, who would otherwise be entitled to the award.

History: 1954 ACS 96, p. 77, Eff. July 8, 1978.

R 285.819.6 Certification of racing results; burden of proof; processing of payment.

Rule 6. (1) At the completion of each condition book or weekly race program, the racing commissioner shall certify to the director the results of all races in which a Michigan-bred horse placed first, second, or third, and the names of the owner and breeder of the horse.

(2) The secretary of a fair shall provide the director with a copy of each day's race program for the fair's races within 15 days, showing the first 4 places or a complete film strip of each race, with placings checked on the program and certified by the race secretary.

(3) When the eligibility of a breeder to receive a breeder's award is questioned, the burden of proving that a horse is a Michigan-bred horse, or is in compliance with these rules, is on the breeder.

(4) State supplements may be processed for payment to the owners of winning horses once each month.

(5) Payment of breeders' awards shall be processed not less than once each month.

History: 1954 ACS 96, p. 77, Eff. July 8, 1978.

R 285.819.7 Ineligibility for future breeders' awards and state supplements.

Rule 7. A person or entity willfully accepting and retaining a breeder's award of state supplement contrary to these rules is ineligible for a future breeder's award or state supplement in this state.

History: 1954 ACS 96, p. 77, Eff. July 8, 1978.

REGULATION NO. 820. MICHIGAN-BRED PARI-MUTUEL RACES

(By authority conferred on the director of agriculture by section 13 of Act No. 27 of the Public Acts of 1959, as amended, being §431.43 of the Michigan Compiled Laws)

R 285.820.1 Definitions.

Rule 1. As used in these rules:

(a) "Commissioner" means the Michigan state racing commissioner.

(b) "Department" means the Michigan department of agriculture.

(c) "Director" means the director of the Michigan department of agriculture.

(d) "Licensed racing association" means an association licensed by the Michigan racing commissioner to conduct standardbred horse races in Michigan.

(e) "M.H.H.A." means the Michigan harness horsemen's association.

(f) "Michigan-bred horse" means a horse from a Michigan-owned or leased registered standardbred stallion owned or leased exclusively by a resident or

residents of this state and which served no mares at any location outside of this state during the calendar year in which service occurred; or means a horse from a Michigan-owned registered standardbred mare owned exclusively by a resident or residents of this state at the time at which the service occurred.

History: 1954 ACS 99, p. 38, Eff. Apr. 21, 1979.

R 285.820.2 Michigan-bred foals eligible for nomination to Michigan-bred races; racing divisions.

Rule 2. (1) The first Michigan-bred foals eligible to be nominated for these Michigan-bred pari-mutuel races shall be Michigan-bred foals born in the official 1975 United States trotting association foaling year.

(2) In 1979 and thereafter, they shall be raced as Michigan-bred 4-year-olds as follows:

(a) Michigan-bred 4-year-old trot.

(b) Michigan-bred 4-year-old pace.

History: 1954 ACS 99, p. 38, Eff. Apr. 21, 1979.

R 285.820.3 Fees and nominations.

Rule 3. (1) The M.H.H.A. shall be the holding agent for all fees collected.

(2) The host licensed racing association is responsible for the disbursement of purse money pertaining to the Michigan-bred pari-mutuel races.

(3) The nomination schedule shall be as follows:

Foals of 1975 - March 15, 1979 payment
Foals of 1976 - March 15, 1979 payment
Foals of 1977 - March 15, 1979 payment
Foals of 1978 - March 15, 1979 payment

(a) All Michigan-bred foals foaled after 1978 shall be nominated on July 15 of the foaling year.

(b) A starting fee of 1% of the state's contribution is due when the Michigan-bred horses declare in to start under the rules existing at the track when the Michigan-bred pari-mutuel race is to be contested.

(c) All nominations shall be divided equally among the Michigan-bred pari-mutuel race divisions.

(d) Sustaining and starting fees shall follow their respective racing division.

History: 1954 ACS 99, p. 38, Eff. Apr. 21, 1979.

R 285.820.4 Application and designation of host tracks.

Rule 4. (1) A licensed racing association requesting state funds for payment of Michigan-bred pari-mutuel race purses shall submit a properly completed application to the racing commissioner.

(2) The racing commissioner shall designate annually at which pari-mutuel track the pace and trot shall be held.

(3) If because of unfavorable weather or other unavoidable circumstances the Michigan-bred pari-mutuel races are postponed, they may be rescheduled at the discretion of the director of agriculture and the racing commissioner.

History: 1954 ACS 99, p. 38, Eff. Apr. 21, 1979.

R 285.820.5 Elimination plans for Michigan-bred pari-mutuel races; applicable rules.

Rule 5. (1) All races shall be conducted pursuant to the following elimination plan:

(a) If more than 10 horses declare to start, elimination races shall be held 1 week before the final race.

(b) If 11 through 20 declare to start, 2 elimination heats shall be held with the first of 5 of each heat qualifying for the finals.

(c) If 21 through 30 declare to start, 3 elimination heats shall be held with the first 3 of each elimination heat qualifying for the finals.

(d) If 31 through 40 declare to start, 4 elimination heats shall be held with the first 2 in each heat qualifying for the final.

(e) If more than 40 declare to start, elimination heats shall be raced so that not more than 10 horses start in any elimination. The second place finishers shall be drawn by lot to determine which horses will fill the remaining positions for a total of not more than 10 starters.

(2) If less than 11 horses declare to start, they shall race the final without elimination heats for the total money available for that division.

(3) Racing of these Michigan-bred races, where not specifically covered by these rules, shall be raced pursuant to the rules of the Michigan racing commissioner.

History: 1954 ACS 99, p. 39, Eff. Apr. 21, 1979.

R 285.820.6 Purse distribution.

Rule 6. (1) Each purse in the Michigan-bred pari-mutuel races shall be divided among the winners of each race in the following manner:

5 or more starters	50%, 25%, 12%, 8%, 5%
4 starters	50%, 25%, 15%, 10%
3 starters	55%, 30%, 15%
2 starters	65%, 35%
1 starter	100%

(2) The purses for these elimination heats shall be derived from the purse pool of the host track.

History: 1954 ACS 99, p. 39, Eff. Apr. 21, 1979.

R 285.820.7 Ineligibility of person or entity to participate in future Michigan-bred pari-mutuel race programs.

Rule 7. A person or entity wilfully falsifying any documents required by these rules or wilfully accepting and retaining any purse monies contrary to these rules shall be ineligible to participate in any future Michigan-bred pari-mutuel race programs under the provisions of these rules.

History: 1954 ACS 99, p. 39, Eff. Apr. 21, 1979.

MICHIGAN STATE APPLE COMMISSION

R 285.854 Superseded.

History: 1944 AC, p. 73; 1954 AC, p. 1568.
Editor's note: R 285.854, pertaining to apples produced in Michigan, appears to have been superseded by R 290.1 to R 290.18.

REGULATION NO. 900. HEARING PROCEDURES

(By authority of Act No. 197 of the Public Acts of 1952, being §24.101 et seq. of the Michigan Compiled Laws)

R 285.900.1 Procedure for conducting hearings.

Rule 1. (1) (a) Whenever the word "person" is used, it shall mean an individual, firm, partnership, co-partnership, corporation, or association.

(b) "Director" shall mean the director of agriculture.

(c) "Hearing" shall mean any contested case being heard by the director as provided by the statutes.

(2) Notification of any hearing before the director of agriculture or his duly authorized representative will be by registered mail, and will state the date, time and place the hearing is to be held and the reasons for holding such hearing. Such notice will be mailed at least 15 days prior to said hearing. (Most hearings will be held in the director's office in Lansing.)

(3) When an appearance is made at a hearing it shall be made either in person, by a duly authorized agent, or by counsel.

(4) The person or persons who have been served with a notice of the hearing may, at his option, file a written answer thereto prior to the date set for hearing, or at said hearing, may appear and present an oral or written statement on the charges contained therein.

(5) If the person or persons who have been previously served with a notice of hearing fail to appear at a noticed hearing, the director may proceed with a hearing of the cases brought before him and may, on the evidence presented, make his decision.

(6) The director may designate the deputy director to conduct an official hearing in the director's absence. In such case, the deputy director, after such hearing, shall file a written report thereof, including the evidence presented with the findings of fact and recommendations for appropriate action. Such written report shall be served upon the contested parties in the hearing. The director, before acting thereon, shall give the contesting parties notice that he intends to make a final decision on the contested case and provide the contesting parties with an opportunity to file exceptions and present arguments to him.

(7) At the contested hearing there shall be presented a fair and accurate statement of the information contained in the files of the department. The files and records of the department shall be available for inspection prior to or at the hearing and the whole or any part thereof, may be offered at said hearing as evidence on behalf of the department of agriculture.

History: 1944 ACS 33, p. 5; 1954 AC, p. 1567.

DEPARTMENT OF LICENSING AND REGULATION

BOARD OF LANDSCAPE ARCHITECTS

(By authority of section 15 of Act No. 126 of the Public Acts of 1963, being §338.1215 of the Michigan Compiled Laws)

R 285.901.1 Definitions.

Rule 1. As used in these rules:

(a) "Board" means the board of landscape architects created by Act No. 126 of the Public Acts of 1963.

(b) "Director" means the state director of agriculture.

(c) "Year" means calendar year of 12 months.

History: 1954 ACS 44, p. 29, Eff. Nov. 14, 1965.

R 285.901.2 References.

Rule 2. Professional and character references from not fewer than 5 United States citizens not members of the board of landscape architects or related to the applicant shall be filed individually by the signer of the reference and not with the application blank. At least 3 of these references shall be registered landscape architects, licensed architects or professional engineers, but not less than 2 shall be registered landscape architects. All 5 references shall be received by the board before the applicant may be considered for registration.

History: 1954 ACS 44, p. 29, Eff. Nov. 14, 1965.

R 285.901.3 Education.

Rule 3. (1) Educational requirements of a school, college or university which has been accredited through the national commission on accrediting and offering an accredited course in landscape architecture, will be acceptable to the board under the provisions of section 6 of Act No. 126 of the Public Acts of 1963.

(2) If a school is now accredited, the board will consider such accreditation retroactive to the time when the graduate was in attendance. If a school is not now accredited, but offered an accredited course in landscape architecture at the time or part of the time of a graduate's attendance at the school, he will be given credit for the years he was in attendance.

(3) If credit for education is requested a transcript of credits shall be submitted with the application.

(4) An applicant may receive credit for those courses or equivalent courses that he has completed and that were in the required curriculum of an accredited professional program of landscape architecture at the time of his attendance.

(5) When equating a completed school year to a year of experience in determining the 7 years training and experience required in section 6 of Act No. 126 of the Public Acts of 1963, the board shall not accept extra curricular experience such as that obtained during vacations as additional time earned toward the required 7 years.

History: 1954 ACS 44, p. 29, Eff. Nov. 14, 1965.

R 285.901.4 Examination procedures.

Rule 4. (1) Notice of time, place, and date of examination will be published at least 60 days before the scheduled date of examination in newspapers, professional publications, and by such other means as may be deemed desirable.

Digitized by Google

(2) Persons wishing to take the examination shall submit an application to the board at least 30 days prior to the scheduled date of the examination. A double card shall accompany the application. This card shall be numbered and returned to the applicant for admission to the examination.

(3) The examination shall be held at the place specified in the notice of examination in June of each year and at such other times as the board determines.

(4) A score of 75% shall be obtained on each section of the examination. Applicants passing the examination shall be so notified. Applicants failing the examination shall be notified of their scores on all sections.

(5) A person who fails to pass the examination may be reexamined in all sections for which that person applies. The highest score obtained on any section shall be the score used in determining the applicant's final score.

History: 1954 ACS 44, p. 30, Eff. Nov. 14, 1965; 1954 ACS 92, p. 16, Eff. June 21, 1977.

R 285.901.5 Examination subjects.

Rule 5. The examination shall cover the following subjects:

(a) History and theory of landscape architecture.
(b) Landscape architectural design.
(c) Landscape grading and construction.
(d) Planting design.
(e) Planting materials.
(f) Specifications and office practice.

History: 1954 ACS 44, p. 30, Eff. Nov. 14, 1965.

DEPARTMENT OF AGRICULTURE

FAIRS DIVISION

REGULATION NO. 852. UPPER PENINSULA STATE FAIR

(By authority conferred on the commission of agriculture by sections 1 and 4 of Act No. 89 of the Public Acts of 1927, as amended, and sections 7, 9, 276, and 286 of Act No. 380 of the Public Acts of 1965, being §§285.141, 285.144, 16.107, 16.109, 16.276, and 16.286 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 285.1101 Definitions.

Rule 101. As used in these rules:

(a) "Agricultural exhibitor" means a person who enters an exhibit in the agricultural and livestock departments of the fair.

(b) "Board" means the Upper Peninsula state fair board of managers.

(c) "Commission" means the commission of agriculture.

(d) "Community arts or youth exhibitor" means a person who enters an exhibit in the community arts or youth departments of the fair.

(e) "Concessionaire or exhibitor license" means a license agreement to operate a stand or exhibit, the main purpose of which is to exhibit commercial products, to solicit prospective buyers, or to make direct sales at the fair.

(f) "Concession stand" means a stand which sells and immediately delivers food, beverages, specialty items, balloons, art work, novelties, or other like items to fair patrons.

(g) "Department" means the department of agriculture.

(h) "Director" means the director of agriculture.

(i) "Educational exhibitor" means an educational, charitable, or nonprofit corporation exhibitor granted a license by the fair.

(j) "Exhibit" means an article, item, livestock, or poultry entered for public display at the fair.

(k) "Exhibitor" means a holder of an exhibit license, his agent, or designated representative.

(l) "Fair" means the Upper Peninsula state fair staged in Escanaba, Michigan.

(m) "Food concession" means a place or stand which sells or serves food or beverages, or both, and includes a restaurant and grabstand.

(n) "Games of skill" means a single location at the fair that contains 1 or more units of play of a game of skill. The number of units of play is of no importance as long as all units of play are in the same location and are not separated from each other by wall, canvas, or other partition.

(o) "Grabstand" means a place serving hamburger sandwiches, hot dogs, or other specialty food, soft drinks, and coffee.

(p) "Licensor" means the Upper Peninsula state fair by its duly authorized representative.

(q) "Manager" means the duly appointed state civil service manager of the fair.

(r) "Non-fair license" means a license agreement, other than a lease, for use of any part of the buildings or fairgrounds when the fair is not in operation.

(s) "Premium book" means the publication relating to the administration of the annual fair event, prepared by the manager.

(t) "Restaurant" means a place serving plate lunches, dinners, or any other meal consisting of 2 or more foods.

History: 1954 ACS 95, p. 35, Eff. Mar. 21, 1978.

R 285.1102 Scope; business transactions; premium book rules; rates and fees; concession rights.

Rule 102. (1) R 285.1101 applies to the operation of the fairgrounds during the fair and at other times.

(2) Business transactions of the fair shall be conducted according to established practices and procedures of the state of Michigan, subject to such special procedures as may be established by resolution of the commission.

(3) All rules as printed in the annual premium book shall be binding upon all persons or events where applicable. The manager, as delegated by the director, reserves the right to interpret all of the rules in the premium book.

(4) The manager and the fair board shall recommend admission charges, license rental rates and fees, and the commission shall approve or adjust the recommended rates.

(5) The commission retains all concession rights unless specifically granted to a licensee. If the licensee is granted concession rights, the licensee shall supervise his own concessions or the contracts for such concessions.

(6) The parking privilege shall remain the exclusive domain of the commission.

History: 1954 ACS 95, p. 35, Eff. Mar. 21, 1978.

R 285.1103 Interpretation of rules.

Rule 103. (1) The commission, after consultation with the Upper Peninsula state fair board, reserves the right to interpret these rules and to settle and determine questions and disputes in regard thereto or otherwise arising out of, connected with, or incident to, the operation of business.

(2) The provisions printed in the premium book, the concessionaire license, exhibitor license, and non-fair license shall be followed in the operation and conduct of business during and after the fair or event.

History: 1954 ACS 95, p. 36, Eff. Mar. 21, 1978.

R 285.1104 Inspection of premises.

Rule 104. The fair management and authorized agents for governmental agencies, at any time, may enter upon and inspect any portion of the licensed premises to enforce provisions of a license, applicable statutes, ordinances, and rules.

History: 1954 ACS 95, p. 36, Eff. Mar. 21, 1978.

R 285.1105 Procurement of services.

Rule 105. The manager shall follow the state administrative manual and department policies and procedures relative to the procurement of services.

History: 1954 ACS 95, p. 36, Eff. Mar. 21, 1978.

R 285.1106 Program substitutions.

Rule 106. The Upper Peninsula state fair management reserves the right to make substitutions at any time in programs and entertainment without refunding admission fees.

History: 1954 ACS 95, p. 36, Eff. Mar. 21, 1978.

PART 2. FAIR OPERATIONS

R 285.1201 Registration of businesses with state; hiring of minors.

Rule 201. (1) Michigan state law requires that businesses operating in Michigan be registered pursuant to the assumed or fictitious name act, and further, that corporations be registered with the state treasury department and department of commerce.

(2) Michigan department of labor rules relative to the hiring of minors shall be strictly enforced.

(3) Failure to meet the requirements in subrules (1) and (2) is grounds for cancellation of the license by the manager.

History: 1954 ACS 95, p. 36, Eff. Mar. 21, 1978.

R 285.1202 Advertising; violation.

Rule 202. (1) A licensee, patron, or other person shall not place any advertising matter on a building, tree, or any other place on the grounds or distribute advertising matter or literature outside the place assigned by the terms of the license.

(2) A person found in violation of this rule by the manager shall be subject to expulsion from the fairgrounds and forfeiture of his contract and fees without recourse.

History: 1954 ACS 95, p. 36, Eff. Mar. 21, 1978.

R 285.1203 Intoxicating beverages.

Rule 203. Liquor or other intoxicating beverages shall not be permitted on the fairgrounds.

History: 1954 ACS 95, p. 36, Eff. Mar. 21, 1978.

R 285.1204 Dogs.

Rule 204. Owners shall register their dogs with the manager and comply with all terms of the registration form. If an owner fails to register a dog, the owner shall be ordered to remove the dog from the fairgrounds. A dog shall be under leash by owner or representative at all times on the fairgrounds.

History: 1954 ACS 95, p. 36, Eff. Mar. 21, 1978.

PART 3. CONCESSIONAIRE, EXHIBITOR, AND NON-FAIR LICENSEES

R 285.1301 Concessionaire, exhibitor, and non-fair licenses; application and issuance procedure; space rental; revocation.

Rule 301. (1) The procedure described in this rule governs the issuance of concessionaire, exhibitor, and non-fair licenses.

(2) A person seeking concession or exhibit space shall write to the manager requesting a space application form, stating articles to be sold or displayed, electrical requirements, and space required.

(3) A person or organization desiring to distribute, exhibit, or sell printed material or items on the fairgrounds shall apply to the manager for a license. An application for a license shall be completely and correctly filled out and signed. An omission or misrepresentation is sufficient cause for refusal or revocation of the license by the manager. If the manager questions the legality or feasibility of the request, the applicant may request a review by the director. A license, if given final approval, shall be signed and executed by the manager.

(4) Concessionaires and exhibitors with established satisfactory performance records at the fair, as determined by the manager, may be granted licenses upon

proper request before licenses are issued to new concessionaires and exhibitors. The manager shall determine the eligibility and desirability of all license requests subject to review by the director.

(5) All concessionaire and exhibitor license applicants shall be notified in writing of approval or disapproval. If the license requires the signatures of corporate officers, other than the individuals supervising the exhibit, such transaction may be carried out by mail. At the time of signing of the license, the exhibitor shall agree on the location of his exhibit space.

(6) At the time of the signing of the concession or exhibit license, the concessionaire or exhibitor shall pay 50% of the space rental, and he shall pay the remaining 50% before the close of the second day of the fair. Payments shall be in cash, or by money order, certified check, or cashier's check.

(7) At the time of signing the non-fair license, the non-fair licensee shall pay 50%, to a maximum of $100.00, of the space rental, and he shall pay the remaining amount of the license fee 1 day prior to the first day of rental under the license. Payments shall be in cash, or by money order, certified check, or cashier's check.

(8) A concessionaire, exhibitor, and non-fair licensee shall abide by the provisions of the appropriate license forms and by the rules of the department fairs division. A license may be revoked by the licensor, and no claim for damages shall accrue to a licensee, if a licensee defaults in the strict performance of any provision, term, or condition of the license.

(9) This procedure shall be followed in all cases and all licenses shall be signed by the manager.

History: 1954 ACS 95, p. 36, Eff. Mar. 21, 1978.

R 285.1302 Rejection or conditional acceptance of application.

Rule 302. The manager may reject, or accept conditionally, an application for a license.

History: 1954 ACS 95, p. 37, Eff. Mar. 21, 1978.

R 285.1303 Space allocation.

Rule 303. The allocation, number, and location of concessionaire, exhibitor, and non-fair licensee spaces shall be determined by the manager.

History: 1954 ACS 95, p. 37, Eff. Mar. 21, 1978.

R 285.1304 Cancellation of space allotment and license.

Rule 304. (1) A space allotment and license may be cancelled by the manager if a concessionaire or exhibitor fails to occupy the space allotted to him with the concession or exhibit specified on his license before the opening of the fair, or for violation of the license, state law, city ordinance, or these rules.

(2) A concessionaire or exhibitor may cancel the space allotted to him for the fair by advising the manager in writing on or before July 1 of the year in which he has a license, or forfeit the 50% payment without recourse.

(3) The manager may refund 80% of the payment received from fair licensed concessionaires or exhibitors if a license is properly cancelled prior to July 1 of the year the license is issued.

(4) The manager may refund 80% of the payment received from non-fair licensees if a license is properly cancelled by the manager not less than 14 days prior to the start of the event. Refunds are not payable if a non-fair license is cancelled within 13 days of the start of the event or during the event.

History: 1954 ACS 95, p. 37, Eff. Mar. 21, 1978.

R 285.1305 Relocation of concession or exhibit.

Rule 305. The manager reserves the right to require a concessionaire or exhibitor to locate at, or move his concession or exhibit to, some other site if the manager deems it advisable or for the best interest of the fair. If the manager cannot find a suitable alternate site, the concessionaire or exhibitor is entitled to a pro rata refund of space rent paid.

History: 1954 ACS 95, p. 37, Eff. Mar. 21, 1978.

R 285.1306 Access to fairgrounds before opening day.

Rule 306. A concessionaire or exhibitor shall be granted access to the fairgrounds and exhibit buildings from 8:30 a.m. to 5 p.m. daily, including Saturday and Sunday, for 5 days before the opening day of the fair for the purpose of preparing his exhibits or concessions. Special written permission to set up earlier shall be obtained from the manager.

History: 1954 ACS 95, p. 38, Eff. Mar. 21, 1978.

R 285.1307 Construction of exhibits; structural changes.

Rule 307. (1) An exhibit in a building shall be constructed so it does not obstruct the public's view of an adjacent exhibit.

(2) A concessionaire's or exhibitor's displays and advertising which form the back wall of his concession or exhibit shall not exceed 8 feet in height, except if he has obtained written permission from the fair management.

(3) A concessionaire, exhibitor, or non-fair licensee shall not mark, paint, drill, dig, or in any manner deface the licensed premises, except by written permission of the manager, and at the expiration of the license, shall surrender the licensed premises in as good condition as when first occupied.

(4) A licensee shall discuss with, and secure written approval of, the fair management before electrical wiring, decorations, partitions, or other structural changes are made in the rented buildings or on the grounds.

History: 1954 ACS 95, p. 38, Eff. Mar. 21, 1978.

R 285.1308 Signs and advertising; concession permits.

Rule 308. (1) A concessionaire or exhibitor shall not place a sign or advertisement, which hangs over an aisle, in a building.

(2) A concessionaire, exhibitor, or non-fair licensee shall post on his licensed premises only such signs as the manager permits.

(3) A concession permit issued by the manager shall be posted in a conspicuous location on the concession stand before the concessionaire may start to operate.

History: 1954 ACS 95, p. 38, Eff. Mar. 21, 1978.

R 285.1309 Set up and electrical hookup authorizations.

Rule 309. An authorization for set up and electrical hookups shall be granted only after a concessionaire, exhibitor, or non-fair licensee applies in person at the manager's office, and presents a copy of his license or receipts which denote compliance with payment requirements.

History: 1954 ACS 95, p. 38, Eff. Mar. 21, 1978.

R 285.1310 Electrical power; electricians; inspection of electrical connections; approval tag; payment for electrical services.

Rule 310. (1) The Upper Peninsula state fair shall furnish electrical power only to the point of outlet. The Upper Peninsula state fair is not responsible for

defective appliances brought onto the fairgrounds by concessionaires, exhibitors, or non-fair licensees. Special and additional connections for the operation of spotlights, lamps, fans, motors, signs, and other equipment shall be furnished by the concessionaire, exhibitor, or non-fair licensee. Such requirements shall be requested by the concessionaire, exhibitor, or non-fair licensee on the application furnished by the Upper Peninsula state fair.

(2) Electricians shall be provided by the Upper Peninsula state fair or an electrical contractor to be in attendance on the fairgrounds before, during, and after the Upper Peninsula state fair or event, with whom the concessionaire, exhibitor, or non-fair licensee may make arrangements for necessary electrical service. It shall be the electrician's responsibility that all electrical connections are properly grounded and deemed safe.

(3) Final inspections of all electrical connections shall be made by the state electrical board pursuant to the rules and regulations contained in Act No. 217 of the Public Acts of 1956, being §338.881 et seq. of the Michigan Compiled Laws.

(4) A concessionaire, exhibitor, or non-fair licensee shall display an "electrical approved" tag on the operating permit before the licensee is allowed to tie into the current provided by the Upper Peninsula state fair.

(5) Payment for electrical services provided by the Upper Peninsula state fair shall be made by the concessionaire, exhibitor, or non-fair licensee before the fair or event. Failure to make payment precludes the concessionaire, exhibitor, or non-fair licensee from using the fair facilities.

History: 1954 ACS 95, p. 38, Eff. Mar. 21, 1978.

R 285.1311 Concession, exhibit, and building hours.

Rule 311. A concession or exhibit shall be open to the public, and in the charge of a competent attendant, from 11 a.m. to 11 p.m. on each day of the fair. Exhibit buildings shall be open to exhibitors 2 hours before scheduled opening time, and exhibitors shall vacate the buildings within 1 hour after closing.

History: 1954 ACS 95, p. 39, Eff. Mar. 21, 1978.

R 285.1312 Supervision of buildings; police and fire protection.

Rule 312. (1) Supervision by building superintendents, guards, or watchmen shall be provided for exhibit buildings 2 days before the fair, during the fair, and until 5 p.m. the day after the fair.

(2) The fair management shall provide concessionaires, exhibitors, and non-fair licensees with normal police and fire protection during the fair and other events.

History: 1954 ACS 95, p. 39, Eff. Mar. 21, 1978.

R 285.1313 Licensee property; protection; liability for loss or damage.

Rule 313. The fair management shall use diligence to protect concessionaire, exhibitor, and non-fair licensee property after its arrival on the fairgrounds. However, the state, its officers, agents, and employees are not liable for loss, injury, or damage to a concessionaire, exhibitor, or non-fair licensee caused by fire, accident, condition of structure, or negligence of another concessionaire, exhibitor, or non-fair licensee, or for any other reason whatever.

History: 1954 ACS 95, p. 39, Eff. Mar. 21, 1978.

R 285.1314 Assumption of risk by licensee; portable materials; shipments.

Rule 314. (1) A concessionaire, exhibitor, or non-fair licensee shall assume all risks ensuing from merchandising and exhibiting while at the fairgrounds.

Digitized by Google

(2) A concessionaire, exhibitor, or non-fair licensee shall give special attention to the protection of portable materials during the set up period and during the tear down period following an event at the fairgrounds.

(3) A shipment of materials unaccompanied by its owner shall be consigned entirely at the owner's risk. A shipment shall be addressed to the concessionaire, exhibitor, or non-fair licensee in care of the Upper Peninsula State Fairgrounds, Escanaba, Michigan 49829, and shall be clearly marked with the concessionaire space, license number, or exhibit building and booth number. A shipment shall be accepted upon delivery at the fairgrounds if properly marked, and if cartage and other charges have been prepaid.

History: 1954 ACS 95, p. 39, Eff. Mar. 21, 1978.

R 285.1315 Insurance; property damage, public liability, and workmen's compensation.

Rule 315. A concessionaire, exhibitor, or non-fair licensee is responsible for providing his own insurance protection against property damage, public liability, and workmen's compensation as required by Michigan statutes pursuant to his license.

History: 1954 ACS 95, p. 39, Eff. Mar. 21, 1978.

R 285.1316 Certificates of insurance.

Rule 316. Property of a concessionaire, exhibitor, or non-fair licensee who is required, pursuant to R 285.1315, to carry insurance shall not be admitted on the Upper Peninsula state fairgrounds unless the concessionaire, exhibitor, or non-fair licensee presents to the manager before the opening of the fair or event a certificate of his public liability and property damage insurance properly signed and dated by the insurance carrier. This provision also applies to workmen's compensation insurance pursuant to Michigan statutes. If the concessionaire, exhibitor, or non-fair licensee is a self-insurer under the Michigan workmen's compensation act, authorization for such self-insurance shall be presented to the manager.

History: 1954 ACS 95, p. 39, Eff. Mar. 21, 1978.

R 285.1317 Applicable laws and ordinances; copies; fire regulations.

Rule 317. A concessionaire, exhibitor, or non-fair licensee shall obey and conform to all laws of this state, and health, fire, and pertinent ordinances of the city of Escanaba and this state which pertain to concessions, exhibits, and events. Copies of these ordinances shall be available in the Upper Peninsula state fair office. A licensee shall agree to obey immediately any order or regulation of the fire marshal or the manager regarding fire protection and fire hazards.

History: 1954 ACS 95, p. 39, Eff. Mar. 21, 1978.

R 285.1318 Admission tickets.

Rule 318. A concessionaire, exhibitor, or non-fair licensee is not entitled to free admission tickets. He may obtain reduced rate admission tickets at a rate approved by the commission. A refund shall not be made for unused tickets.

History: 1954 ACS 95, p. 40, Eff. Mar. 21, 1978.

R 285.1319 Parking area; permits.

Rule 319. Concessionaires, exhibitors, and non-fair licensees shall park in an area designated by the manager. Parking permits may be obtained by licensees at the prevailing rate established by the board.

History: 1954 ACS 95, p. 40, Eff. Mar. 21, 1978.

R 285.1320 Parking stickers; display; service vehicles.

Rule 320. (1) On the opening day of the fair or event, and at all times thereafter, concessionaire, exhibitor, and non-fair licensee vehicles shall display a parking sticker issued by the manager, shall enter and exit the fairgrounds through a gate designated by the manager, and shall be subject to inspection by persons designated by the manager.

(2) During the fair or event all vehicles servicing concessions and exhibits shall enter the fairgrounds through the designated gate. Such vehicles may be used to service and supply concessions and exhibits until 10 a.m. daily, at which time the vehicles shall leave the fairgrounds proper and return to the concessionaire, exhibitor, or non-fair licensee parking lots or leave the grounds. Failure to comply with this rule shall result in the vehicle being towed away at the owner's expense, and shall be cause for cancellation of the license issued by the manager.

History: 1954 ACS 95, p. 40, Eff. Mar. 21, 1978.

R 285.1321 Mailing lists.

Rule 321. A concessionaire, exhibitor, or non-fair licensee who desires to acquire mailing lists during the period of the fair or event shall submit in writing a description of the purpose for the list and the method he proposes to use in acquiring the list. A licensee shall not attempt to acquire a mailing list of patrons by any method or scheme unless he has received written permission from the manager.

History: 1954 ACS 95, p. 40, Eff. Mar. 21, 1978.

R 285.1322 Advertisement and sale of products; handbills; solicitors; sale without over the counter delivery; false advertising.

Rule 322. (1) A concessionaire or exhibitor shall not advertise or sell a product from the space allotted to him for a company not specified on his license.

(2) A concessionaire, exhibitor, or non-fair licensee shall distribute handbills or other advertising matter only within the confines of his licensed space.

(3) A concessionaire's or exhibitor's solicitors shall not be allowed to operate outside their licensed space.

(4) Retail selling, with or without "over the counter" delivery of an item, is not allowed, except if such privilege has been specifically applied for and approved pursuant to these rules. The licensee shall furnish pictures or other evidence identifying the articles for which the retail sales privilege is asked when requested by the manager.

(5) Willful or intentional misrepresentation or false advertising shall be reported to the attorney general of this state.

History: 1954 ACS 95, p. 40, Eff. Mar. 21, 1978.

R 285.1323 Give-aways.

Rule 323. (1) A concessionaire, exhibitor, or non-fair licensee shall obtain from the manager written permission to distribute give-aways, which shall be evidenced by official approval on the face of the concessionaire, exhibitor, or non-fair license. This authorization shall be applied for during the time when the license for space is being negotiated but not later than 2 weeks before the opening day of the Upper Peninsula state fair or event.

(2) Advertising give-aways which may conflict with any type of concession for which a license has been granted shall not be distributed by a concessionaire, exhibitor, or non-fair licensee.

History: 1954 ACS 95, p. 40, Eff. Mar. 21, 1978.

R 285.1324 Price adjustment.

Rule 324. The manager reserves the right to make adjustments in retail and wholesale prices. If, in the opinion of the manager, a retail or wholesale concessionaire fails to justify as reasonable the prices he is charging for merchandise, the manager may adjust such prices.

History: 1954 ACS 95, p. 40, Eff. Mar. 21, 1978.

R 285.1325 Attention attraction devices; undue noise and objectionable operating methods.

Rule 325. (1) A voice amplifier, musical instrument, radio, or other similar device for the purpose of attracting attention to a concession or exhibit shall be used with discretion.

(2) Undue noise from the operation of a concession or exhibit, or noisy or objectionable methods employed in sales or demonstration activities shall not be tolerated. A concessionaire, exhibitor, or non-fair licensee shall have an equal opportunity to conduct his own demonstrations without interference from his neighbors. The final decision of what constitutes undue noise or objectionable methods shall be made by the manager.

History: 1954 ACS 95, p. 41, Eff. Mar. 21, 1978.

R 285.1326 Refuse removal.

Rule 326. A concessionaire or exhibitor shall sweep refuse from his premises into the building aisles, or onto the streets, from 11 p.m. to midnight each night. Fair clean-up personnel shall sweep this refuse from commercial exhibit buildings and areas adjacent to concession stands each night after the buildings and streets are empty. Fair clean-up personnel are forbidden to enter the concessionaires' or exhibitors' booths within buildings or concession stands.

History: 1954 ACS 95, p. 41, Eff. Mar. 21, 1978.

R 285.1327 Unclean and destroyed premises.

Rule 327. If the premises occupied by a concessionaire, exhibitor, or non-fair licensee are destroyed in any degree, or left in an unclean condition as a result of the use of the premises by the concessionaire, exhibitor, or non-fair licensee, the manager shall repair or clean the premises and charge the concessionaire, exhibitor, or non-fair licensee the cost of such labor and materials. Failure or refusal to pay such charge by a concessionaire, exhibitor, or non-fair licensee precludes such party from eligibility to exhibit until such charge is paid.

History: 1954 ACS 95, p. 41, Eff. Mar. 21, 1978.

R 285.1328 Removal of exhibits; releases.

Rule 328. (1) A concessionaire, exhibitor, or non-fair licensee shall arrange for removal of his stands and exhibits under his own supervision. A stand, exhibit, or any part thereof, shall not be removed before the close of the fair without written permission of the manager.

(2) As a protection to concessionaires and exhibitors, fair releases shall be required for all material taken from the fairgrounds at the end of the fair. Releases shall be issued by the manager at the designated fair closing time and during regular office hours on days after the close of the fair.

History: 1954 ACS 95, p. 41, Eff. Mar. 21, 1978.

R 285.1329 Prohibited activities; protests.

Rule 329. The licensee covenants to sell, handle, serve, display, or exhibit only such articles as are specified on the license, and only from and upon the space assigned, except that the manager may forthwith prohibit the display, sale, or giving away of an item which he considers to be endangering public health, safety, or morals. The licensee agrees to comply immediately with such a ban. Within 24 hours, the licensee may file a written request for a review of the manager's decision by the director. The display, sale, or giving away of an item shall not be permitted unless the decision of the manager is reversed by the director.

History: 1954 ACS 95, p. 41, Eff. Mar. 21, 1978.

R 285.1330 Fraud and misrepresentation.

Rule 330. The manager shall guard against any form of fraud practiced on patrons of the fairgrounds. Willful and intentional misrepresentations or false advertising shall result in expulsion of the concessionaire, exhibitor, or non-fair licensee from the fairgrounds, and forfeiture of his contract and fees without recourse. The manager shall immediately report such suspected fraud or intentional misrepresentation to the attorney general of this state.

History: 1954 ACS 95, p. 41, Eff. Mar. 21, 1978.

R 285.1331 Fair officers' and employees' interest in a license, concession, or exhibit.

Rule 331. An officer or employee of the fair shall not have a concessionaire or exhibitor license, or any interest in, or connection with, a concession or exhibit operated on the fairgrounds. If such an interest or ownership is discovered, the license shall be cancelled, all money paid for the license shall be forfeited without recourse, and the employee shall be dismissed.

History: 1954 ACS 95, p. 41, Eff. Mar. 21, 1978.

R 285.1332 Labor unions.

Rule 332. The manager may cancel a license in case of labor union difficulties involving a concessionaire, exhibitor, or non-fair licensee which may lead to, or result in, a strike or picketing of the fairgrounds. A concessionaire, exhibitor, or non-fair licensee whose license is cancelled is not entitled to a pro rata refund of unearned rental for the balance of the period provided for in his license. In such case, no liability for damages is chargeable to the state, its officers, agents, and employees.

History: 1954 ACS 95, p. 42, Eff. Mar. 21, 1978.

PART 4. FOOD CONCESSIONS

R 285.1401 Applicable rules; copies.

Rule 401. Regulation No. 514, being R 285.514 of the Michigan Administrative Code, governing cooking, dispensing, and sale of foods and beverages shall apply and be strictly enforced. Failure to comply with this rule and other applicable rules and regulations is grounds for cancellation of a food concession license. Detailed copies of the regulation shall be available at the Upper Peninsula state fair office.

History: 1954 ACS 95, p. 42, Eff. Mar. 21, 1978.

R 285.1402 Additional health regulations.

Rule 402. A food licensee may be subject to additional health regulations which are deemed necessary by the state and city health authorities. He shall be notified of such additional regulations.

History: 1954 ACS 95, p. 42, Eff. Mar. 21, 1978.

R 285.1403 Violation of health, sanitation, and food laws.

Rule 403. A licensee who sells or dispenses food products or beverages expressly agrees that the manager may close the licensee's place of business or expel such licensee, his or its agents, servants, and employees from the fairgrounds, with forfeiture of all license fees, if such licensee, after being duly warned by the manager, receives a notice of a violation of health, sanitation, or food laws from appropriate governmental representatives. The licensee may appeal the closing of his place of business, or his expulsion, by filing a written request for a review of the decision of the manager by the director, but his place of business shall not be permitted to operate until the director reverses the decision of the manager.

History: 1954 ACS 95, p. 42, Eff. Mar. 21, 1978.

R 285.1404 Sinks; water heaters.

Rule 404. A restaurant shall have a 2-compartment sink so dispensing dishware and cooking utensils may be washed, rinsed, and sterilized pursuant to state and city health requirements. A restaurant shall have a gas or electric water heater of sufficient size to insure an adequate supply of hot water to meet state and city health requirements.

History: 1954 ACS 95, p. 42, Eff. Mar. 21, 1978.

R 285.1405 Garbage cans; liners.

Rule 405. A food concession licensee shall furnish a minimum of 2 20-gallon garbage cans with tops unless more are required by the manager. A restaurant licensee shall furnish a sufficient number of garbage cans, as designated by the fair management. Appropriate can liners or bag liners shall be furnished by the licensee and shall be used in all garbage cans. When these are filled, they shall be promptly removed, closed securely, neatly piled for pickup in a given area, and a new liner inserted. The fair shall provide garbage pickup each day.

History: 1954 ACS 95, p. 42, Eff. Mar. 21, 1978.

R 285.1406 Disposable cups and eating utensils.

Rule 406. A food concession licensee shall serve soft drinks to customers only in paper cups. Dishes and eating utensils used by the public shall be disposable and of a single service variety. Nonreturnable bottles of no deposit no return variety are not allowed on the fairgrounds.

History: 1954 ACS 95, p. 42, Eff. Mar. 21, 1978.

R 285.1407 Restaurant and grabstand seating.

Rule 407. A restaurant may seat patrons on stools, at a counter, or in chairs at a table. A grabstand may be without seating facilities or may seat patrons on stools, at a counter, or in chairs alongside the stand.

History: 1954 ACS 95, p. 42, Eff. Mar. 21, 1978.

R 285.1408 Item pricing.

Rule 408. A licensee shall price all items for sale or post price lists on cards in a conspicuous place on his stand.

PART 5. AGRICULTURAL EXHIBITS

R 285.1501 Competition open to residents.

Rule 501. Competition in agricultural exhibits is open only to Upper Peninsula residents, unless otherwise specified. All agricultural exhibitors shall own and exhibit their respective entries, unless otherwise specified.

History: 1954 ACS 95, p. 43, Eff. Mar. 21, 1978.

R 285.1502 Special offers.

Rule 502. The fair management, board, and commission are not responsible for payment of special offers by various associations and individuals. The manager, however, shall furnish the various associations necessary lists of winning fair agricultural exhibitors upon request.

History: 1954 ACS 95, p. 43, Eff. Mar. 21, 1978.

R 285.1503 Entry applications; closing date; right to compete.

Rule 503. (1) Application for entries in all departments shall be made by an agricultural exhibitor on the printed form provided by the fair for that purpose. The agricultural exhibitor, by signing the form, agrees to comply with the provisions printed on it and in the premium book. Applications for stalls and pens shall be sent directly to the Upper Peninsula State Fair, Escanaba, Michigan 49829, at the time entries are made.

(2) Entries in the departments shall close on the dates listed for those departments in the premium book, or at such time as all available space has been allotted. Entries shall not be accepted thereafter unless the time is extended by appropriate action of the manager.

(3) A question as to the propriety or right of an animal or article to compete in a class shall be submitted to the manager for determination.

History: 1954 ACS 95, p. 43, Eff. Mar. 21, 1978.

R 285.1504 Entrance fees; refunds.

Rule 504. An entrance fee, as stated in the premium book under each of the several departments or on the forms for applying for entries, shall be charged the agricultural exhibitor in each department and shall be paid at the time specified in the premium book. Fees shall not be refunded for animals entered but not exhibited, except if the request for refund is presented in writing stating the agricultural exhibitor's reason for such request, and is approved by the manager.

History: 1954 ACS 95, p. 43, Eff. Mar. 21, 1978.

R 285.1505 Conditional acceptance or cancellation of entries; prizes.

Rule 505. The manager, as authorized by the director, reserves the right to refuse, to accept conditionally, or to cancel any entries and awards of a prize for justifiable cause without claim for damages. Cancellations or additional entries shall not be permitted after closing dates, unless the manager determines that there is justifiable grounds for such action.

History: 1954 ACS 95, p. 43, Eff. Mar. 21, 1978.

R 285.1506 Exhibition time; late arrival.

Rule 506. Agricultural exhibits in each department shall be in place for exhibition at the time specified in the printed provisions for each department. Agricultural exhibitors arriving late shall be excluded from exhibition, except

those coming directly from other fairs with advance written permission of the manager.

History: 1954 ACS 95, p. 43, Eff. Mar. 21, 1978.

R 285.1507 Failure or refusal to exhibit.

Rule 507. An agricultural exhibitor who fails or refuses to exhibit an animal or article for any reason which proves unsatisfactory to the manager shall forfeit all fees and rents paid by him, as well as premiums won by earlier agricultural exhibits. The manager may order the agricultural exhibitor to vacate such stalls, pens, or space, and remove such animals or articles from the fairgrounds.

History: 1954 ACS 95, p. 43, Eff. Mar. 21, 1978.

R 285.1508 Removal of exhibits.

Rule 508. Agricultural exhibits shall be removed at the time specified in the premium book. Agricultural exhibitors disregarding this rule shall forfeit all premiums, rights, and privileges without recourse.

History: 1954 ACS 95, p. 43, Eff. Mar. 21, 1978.

R 285.1509 Exhibits; protection; liability for loss or damage.

Rule 509. The fair management shall use diligence to protect livestock and articles entered for agricultural exhibition or display after their arrival on the fairgrounds. However, the state, its officers, agents, and employees are not liable for loss, injury, or damage to such livestock or articles for any reason.

History: 1954 ACS 95, p. 43, Eff. Mar. 21, 1978.

R 285.1510 Superintendent's duties.

Rule 510. (1) A superintendent shall have charge of the department to which he is assigned, and shall be responsible for assignment of space, and showing of the agricultural exhibits, and other related activities assigned by the manager, and shall enforce all provisions, procedures, and regulations related to his department.

(2) A superintendent shall direct the calling of classes for judging in accordance with the printed program as far as practicable, and shall ensure that the judges report fully upon each animal or article exhibited in each class.

(3) A superintendent shall ensure that the numbers representing awards are correctly entered on the award sheets, check all numbers, have each book signed by the judge and ring clerk, affix his signature and date, and when completed return the book and all department related records to the entry office.

(4) Such duties shall be performed under the direction of the manager.

History: 1954 ACS 95, p. 44, Eff. Mar. 21, 1978.

R 285.1511 Judges; self-interest; objections.

Rule 511. (1) A person shall not act as judge in a class in which he may be interested as an agricultural exhibitor, agent or employee of an agricultural exhibitor, or otherwise. In such case, the manager shall remove the interested judge and substitute another judge for that specific class.

(2) Objections to a person serving as judge shall be submitted to the superintendent in writing, prior to the making of an award, giving good and sufficient reasons therefor. The superintendent shall refer this to the manager who shall resolve the problem arising from the objection.

History: 1954 ACS 95, p. 44, Eff. Mar. 21, 1978.

R 285.1512 Judges; duties; decision.

Rule 512. (1) Judges shall report to the superintendent at their headquarters at the time fixed for awarding premiums on the lots which they are to judge.

(2) If a judge has good reason to believe that an agricultural exhibitor, by false entry or otherwise, attempts to deceive the judge or the public to obtain a premium by misrepresentation, he shall report the facts immediately to the superintendent. The superintendent shall report immediately to the manager for a determination of the eligibility of the agricultural exhibitor to show the animal or article involved.

(3) The decision of the judges shall be final, except in the case of a formal protest, pursuant to R 285.1513.

History: 1954 ACS 95, p. 44, Eff. Mar. 21, 1978.

R 285.1513 Formal protests.

Rule 513. A formal protest by an agricultural exhibitor shall be made in writing to the manager, accompanied by an affidavit setting forth the grounds for the protest. A formal protest against an agricultural exhibition of animals or articles shall be filed not less than 24 hours before the judging takes place and the manager shall hear such protest and make a decision before the judging. A formal protest against a placing shall be filed not more than 6 hours after the placing is made, and shall be considered by the manager. Interested parties shall be duly notified and given an opportunity to submit evidence pursuant to a procedure established by the director, before a final decision is made.

History: 1954 ACS 95, p. 44, Eff. Mar. 21, 1978.

R 285.1514 Premiums; payment; forfeiture; proration.

Rule 514. (1) Only judges' books shall be used as evidence of payment of premiums. Ribbons and tags are not acceptable for this purpose.

(2) An agricultural exhibitor who insults a judge in any manner, or influences another person to do so, shall be reported to the manager by the judge or the superintendent. The manager may order that the agricultural exhibitor shall forfeit all premiums and be excluded from exhibiting all his animals or articles.

(3) The board may authorize the manager to prorate the premium money in such department or section within the total amount allocated to a department or section.

History: 1954 ACS 95, p. 44, Eff. Mar. 21, 1978.

R 285.1515 Fraud.

Rule 515. The manager shall take cognizance of fraud which may have been consummated or attempted, and may deal with any person implicated therein in such manner as the manager deems just and proper. All such suspected fraud shall be immediately reported to the attorney general of this state.

History: 1954 ACS 95, p. 44, Eff. Mar. 21, 1978.

R 285.1516 Release of exhibits.

Rule 516. (1) The release time of agricultural exhibits is specified in the provisions listed in the premium book at the beginning of each department's section. An agricultural exhibitor removing an animal or article before the hour of release for that department without written permission of the manager shall forfeit all fees paid and all premiums and awards won.

(2) The manager may change the time of release in a department at his discretion.

(3) If an agricultural exhibitor requests an early release for the sole purpose of entering another fair, the manager shall receive from the other fair an official confirmation advising the acceptance of entries and stating the dates of judging. This confirmation shall be made available to the manager not later than the day before the opening day of the fair.

History: 1954 ACS 95, p. 45, Eff. Mar. 21, 1978.

R 285.1517 Interpretation and violation of rules.

Rule 517. (1) The manager shall interpret the meaning and application of rules in parts 5 and 6. A request for an opinion, either by an agricultural exhibitor or judge, shall be made in writing and returned to the entry office with the award books.

(2) The disregarding or violation of these rules by an agricultural exhibitor shall result in forfeiture of all premiums, rights, and privileges without recourse.

History: 1954 ACS 95, p. 45, Eff. Mar. 21, 1978.

PART 6. ANIMAL EXHIBITS

R 285.1601 Occupancy of reserved stalls and pens.

Rule 601. An agricultural exhibitor reserving stalls or pens and not occupying them on or before the time specified for the animals to be in place, as listed in the premium book, forfeits the entry and stall or pen fees, and the stall or pen is subject to reassignment.

History: 1954 ACS 95, p. 45, Eff. Mar. 21, 1978.

R 285.1602 Approval of health conditions.

Rule 602. Cattle, sheep, horses, goats, and swine are not permitted to remain on the grounds unless the health conditions of the animals have been approved by the state veterinarian or his assistant.

History: 1954 ACS 95, p. 45, Eff. Mar. 21, 1978.

R 285.1603 Recent champions; pictures.

Rule 603. Pictures of the latest fair champions may be printed in the premium book only as approved by the manager.

History: 1954 ACS 95, p. 45, Eff. Mar. 21, 1978.

R 285.1604 Exhibitor vehicles; parking; unloading; registration.

Rule 604. (1) A vehicle parking area may be provided for exhibitors of horses, goats, cattle, sheep, and swine.

(2) Agricultural exhibitors shall remove their vehicles from the area adjacent to buildings as soon as the unloading of animals and supplies is completed and shall park vehicles in designated areas.

(3) Vehicles used for sleeping, camping, or living quarters shall be registered with the manager and parked in the area designated by the manager. Any fees shall be collected at the time of registration of the vehicle.

History: 1954 ACS 95, p. 45, Eff. Mar. 21, 1978.

R 285.1605 Cleaning stalls and pens; grooming animals.

Rule 605. An agricultural exhibitor shall keep his stalls and pens clean and well bedded. All animals shall be groomed for exhibit. In case of failure to do so, the manager may dismiss the agricultural exhibitor from the fairgrounds and the agricultural exhibitor shall forfeit all fees and premiums won.

History: 1954 ACS 95, p. 45, Eff. Mar. 21, 1978.

R 285.1606 Feed and bedding.

Rule 606. The fair may furnish all feed for poultry, pigeons, rabbits, and cavies and also the first feeding and bedding for livestock.

History: 1954 ACS 95, p. 45, Eff. Mar. 21, 1978.

R 285.1607 Purebred animals.

Rule 607. Superintendents shall ascertain the name and registry number of all animals shown in purebred classes and these shall be shown on the judges' report sheets before payment of premium is made.

History: 1954 ACS 95, p. 45, Eff. Mar. 21, 1978.

R 285.1608 Delay in showing.

Rule 608. The superintendents of livestock departments may exclude an animal from all competition if there is unnecessary or embarrassing delay by the agricultural exhibitor in bringing the animal into the show ring. The agricultural exhibitor shall forfeit all fees and premiums won.

History: 1954 ACS 95, p. 46, Eff. Mar. 21, 1978.

R 285.1609 Substitution of animals.

Rule 609. An animal in the same class may be substituted by an agricultural exhibitor for reasons satisfactory to the manager if the substitution is made on or before the day prior to the opening day of the fair, and if the animal substituted is owned by the agricultural exhibitor at the time entries close.

History: 1954 ACS 95, p. 46, Eff. Mar. 21, 1978.

PART 7. COMMUNITY ARTS AND YOUTH EXHIBITORS

R 285.1701 Competition open to residents; exceptions.

Rule 701. (1) Competition in the community arts and youth departments is open only to residents of the Upper Peninsula of Michigan, and the community arts and youth exhibit shall be the work of the exhibitor and shall be shown in such exhibitor's name. All such exhibits shall be owned by the community arts and youth exhibitor unless otherwise specified.

(2) A person who teaches a home craft may not make an entry in that particular craft.

(3) A community arts and youth exhibitor of flower arrangements and table settings shall not be engaged in the field of horticulture professionally.

History: 1954 ACS 95, p. 46, Eff. Mar. 21, 1978.

R 285.1702 Exhibit class qualifications.

Rule 702. (1) All entries in each class of community arts and youth exhibits shall meet the qualifications specified for each class.

(2) Entry may be made in each class listed, but a community arts and youth exhibitor may be limited as to the number of entries in each class.

(3) Specific provisions for making entries shall be printed in the annual premium list for the community arts and youth departments.

History: 1954 ACS 95, p. 46, Eff. Mar. 21, 1978.

R 285.1703 Works of art.

Rule 703. Entry of a work of art in each class by an artist may be allowed, but it shall be one not previously shown at the fair. The manager may reject an entry

which is fragile, unsuitable in size, or inconsistent with contemporary community standards.

History: 1954 ACS 95, p. 46, Eff. Mar. 21, 1978.

R 285.1704 Judges.

Rule 704. (1) Competent judges shall be selected and their decision shall be final.

(2) In the absence of competition in a class, and if an article exhibited is inferior in quality or unworthy, the judges shall award a prize or ribbon only if the entered article merits an award.

History: 1954 ACS 95, p. 46, Eff. Mar. 21, 1978.

R 285.1705 Formal protests.

Rule 705. A formal protest by a community arts or youth exhibitor or others shall be made in writing to the manager, accompanied by an affidavit setting forth the grounds for the protest. A formal protest against a community arts and youth exhibit shall be filed not less than 24 hours before the judging and the manager shall hear such protest and make a decision before the judging. A formal protest against a placing shall be filed not more than 6 hours after the placing is made and shall be considered by the manager. Parties interested shall be duly notified and opportunity given them to submit evidence before a final decision pursuant to a procedure established by the director.

History: 1954 ACS 95, p. 46, Eff. Mar. 21, 1978.

PART 8. GAMES

R 285.1801 Games; safety; unauthorized games; fairness; games of skill; requirements; rules and price; failure to comply.

Rule 801. (1) A game shall not be operated in a manner which presents a hazard to the safety of a patron or the public in general; nor shall equipment be used which is not in sound, safe operating condition. No material shall be used in the construction of a game which is not sufficient to meet its intended use. If the Upper Peninsula state fair manager feels that there is a hazard in either the operation of a game, the equipment used, or the construction of a game, or any part thereof, such game shall be closed until corrections are made to the satisfaction of the manager.

(2) Only games of skill shall be permitted and operated on the Upper Peninsula state fairgrounds during the annual Upper Peninsula state fair. No games of chance, or games partly of skill and partly of chance, are permitted on the grounds. The following games shall be unauthorized:

(a) Alibi, count stores, buckets, controlled cat racks, 6 cats, swingers, pin stores, auctions, razzle dazzles, wheel games, grind stores, money games, or bottle tip games.

(b) Games which, either by their design or by their operation, are controlled by the operator to the extent that the outcome of such games is determined, either in whole or in part, by such control.

(c) Games in which hidden numbers are used.

(d) Games which include mechanical or physical devices which, directly or indirectly, impede, impair, or thwart the skill of the player.

(e) Draw games where a single player is permitted to make a blind selection of 1 object from a number of objects, the object selected being the prize won.

(f) Games where prizes consisting of cigarettes, cigars, tobacco, knives, money, or a beverage, in any form, are awarded.

(3) A contractor shall guarantee that all games permitted shall be operated fairly, and free of fraud, deceit, or trickery.

(4) A contractor shall not operate the games of skill conducted under a contract which do not meet the requirements specified in Act No. 89 of the Public Acts of 1927, as amended.

(5) The games of skill operation area shall be established by the Upper Peninsula state fair management.

(6) When the games are set up, the rules of the game and the price per play shall be prominently displayed. These rules shall set forth in clear and simple language the criteria for winning, and the number of opportunities which constitute a game.

(7) A contractor understands and agrees that a game other than a game of skill may be closed by the fair manager if he determines that it is, in fact, a game of chance, or if a contractor fails to comply with these specifications, or if the fair manager determines that there is cheating or fraudulent conduct on the part of an operator. In addition, the fair manager may close any game of part skill and part chance. Listed below are requirements for carnival games of skill pursuant to section 4 of Act No. 89 of the Public Acts of 1927, as amended:

(a) Each play shall be paid for in advance and proper change made prior to each game.

(b) Prices and conditions of winning shall be posted and shall remain the same.

(c) Side bets and double or nothing plays shall not be permitted.

(d) All prizes to be awarded shall be displayed prominently in view of all players. In no case shall any merchandise be displayed in a game which is not one of the prizes possible to be won in a single play of the game.

(e) Prizes shall not be redeemable in money.

(f) The degree of skill necessary to win shall be reasonably well related to the value of the prize.

(g) Conditions for trading smaller prizes for larger prizes shall be clearly and conspicuously posted, and trading shall be at the player's option.

(h) Building or doubling of prices after a game starts is not permitted.

(i) Small and large prizes shall be clearly marked.

(j) Games may be changed or altered only with the prior approval of the fair manager.

(k) A game may be defined as a game of skill if the player determines the outcome of the game.

(l) Foul lines are not permitted.

(m) A game shall not be allowed in which the outcome depends upon the word of the operator.

(8) A game of skill which involves the size, height, depth, weight, distance of circles, plates, hoops, openings, and similar devices shall have prior approval of the fair manager and shall remain the same throughout the fair.

(9) A roving solicitor or vendor, acting for a game operator, his agent, or on his own behalf, shall not be permitted on the fairgrounds.

(10) False or misleading advertising by banner, word of mouth, or otherwise, is prohibited.

History: 1954 ACS 95, p. 46, Eff. Mar. 21, 1978.

R 285.1802 Games of skill; approval; conditions and specifications.

Rule 802. (1) A contractor shall submit a list and complete description of the games of skill he proposes to use at the fair to the fair manager not less than 45

days before the fair opens for the fair manager's approval. The fair manager at that time may reject those games which, in his opinion, do not meet the requirements of section 4 of Act No. 89 of the Public Acts of 1927, as amended. Such games shall meet, but not be limited to, the following conditions, specifications, and games:

(2) Dart games:

(a) All darts used at the fair shall be weighted, balanced, and have no frayed, broken, or missing feathers and be sharpened to a point. Plastic darts may be used if they meet these requirements and are approved by the fair manager at the fair.

(b) In an "add-em-up" type dart game all squares shall be of the same size and not less than 1-square inch each. Not more than 4 darts shall be used.

(c) In a "break balloon" dart game, target balloons shall be fully inflated at all times.

(d) A dart suction cup shall have not less than 3/16-inch clearance on all sides if cup is stuck in the center of target.

(e) The material in all dart boards shall be of a quality which allows darts to stick readily.

(3) Ball games:

(a) All games in which balls are pitched or thrown through, or into, a target, not less than ½-inch total clearance is required; or in other words, the inside diameter of the opening in which a ball must pass through shall be not less than ½-inch larger than the outside diameter of the ball at the largest part of the ball.

(b) All balls used shall be in good condition and suitable to the particular game as determined by the fair manager or his designee.

(c) A sign which prohibits rim shots, splash shots, or similar alibis shall not be allowed on ball games.

(d) A game where a ball is thrown into a container shall use only containers with horizontally level openings and of sufficient depth to allow balls to remain in the container. No springs or other devices shall be allowed in or under the containers.

(e) Games in which targets are knocked over or off to win shall display at all times the number of targets which must be tipped over or knocked off to win.

(f) For cat racks there shall be only 1 rail and it shall be placed in front. The rail shall not extend over 1 inch from the shelf where cats are placed. The width of the shelf on which the cats are placed shall not exceed the length of cat plus 3 inches. Fur trim is not included in length of the cat. The distances between the shelf where the cats sit shall not exceed 1 inch and more than 3 separations per shelf shall not be permitted. Shelves shall be level at all times and the canvas back drop shall be not less than the length of the cat plus 3 inches from the rear edge of the shelf. The cats shall be of uniform weight and height and shall not exceed 2 pounds. All cats shall be in good, unbroken condition.

(g) Hinges on slat racks using fixed targets shall work freely to permit targets to fall over easily when hit.

(h) In milk bottle ball games, all bottles shall be free from defects and each set shall be uniform in size and weight and shall not exceed 3 pounds each. The base on which the bottles sit shall not be less than 18 inches from the ground. The front barrier shall not be higher than the base on which the bottles sit. The base shall be not less than 6 feet from the front barrier. A rim not more than ½ inch shall be permitted if operating a game "all over." No obstruction whatsoever shall be permitted around the base on which the bottles sit if operating the game "all off."

(i) For games where balls are thrown to break or chip targets, all targets shall be made of the same material. No unbreakable records or other material shall be used for a target.

(4) Roll downs: In any game at a fair in which balls or other objects are rolled or slid on a platform of any kind, the platform shall be level laterally, unwarped, and have no obstructions of any kind between the player and the target. All slots shall be in an even row at the back of the board and be of equal width.

(5) Ring games:

(a) In a game at a fair in which rings are thrown over a target, the rings shall be round, unwarped, and the target shall be horizontally level.

(b) All rings thrown over targets shall have not less than ¼-inch total clearance and each target shall be possible to ring.

(c) All targets in the same row shall be of the same height when rings are thrown.

(d) In "hoopla" ring games, no prize may project over the target block.

(e) Grease or wax, or both, is prohibited.

(6) Shooting games:

(a) Cork shooting galleries shall use guns in good mechanical condition. No chipped or crooked corks shall be used. No targets shall be used which cork guns cannot shoot off shelf with 1 shot.

(b) Short range, long range, or machine gun shooting galleries shall operate for amusement only.

(c) Blanks shall not be used.

(d) All guns shall be chained at the muzzle end to a counter allowing only enough extension of chain so as to aim at the target and protect the public from possible injury.

(7) Hi-strikers shall be in good condition at all times. The slides or wires shall be straight and free of obstruction. Slide board shall be plumb at all times. Mallets shall be in good condition. There shall be a fence of sufficient strength, and not less than 36 inches high around strikers, to protect the public. No 1-hand strikers shall be permitted and the sign shall so state.

(8) Pitch games:

(a) At a game in which washers or discs are thrown or pitched, the target shall be horizontally level.

(b) In washer spot pitch games, boards on which spots are arranged shall be level and unwarped. Spots and tokens shall be of contrasting colors. The diameter of each spot shall be not less than ⅜ inch greater than the diameter of the token used to play the game.

(9) Hand push car: A designated starting line may be used and cars do not have to hit back stops to win.

(10) Rope ladder game: Operator shall not touch ladders or patrons. Proper padding shall be provided under the ladder for the safety of patrons.

(11) Guessing of weight and age:

(a) Operator shall not touch patrons. Scale dials shall have clear figures and be illuminated at all times so they can be read by the public.

(b) If a note pad is used for guessing age, only the operator may write his guess. Patrons shall not be required to write on the pad.

(c) No other guessing games shall be allowed.

History: 1954 ACS 95, p. 48, Eff. Mar. 21, 1978.

PART 9. HEARINGS

R 285.1901 Complaint.

Rule 901. An interested party in a contested matter shall submit in writing to the director, with copies to the manager and the Upper Peninsula state fair board, a comprehensive statement of the complaint.

History: 1954 ACS 95, p. 49, Eff. Mar. 21, 1978.

R 285.1902 Procedure and rules.

Rule 902. Appropriate state and department procedures, rules, and regulations relating to hearings shall be followed.

History: 1954 ACS 95, p. 49, Eff. Mar. 21, 1978.

R 285.1903 Appearance.

Rule 903. An appearance shall be made either in person, by a duly authorized representative, or by counsel. If a person who has been served with a notice of hearing fails to appear at such hearing, the hearing officer may proceed with a hearing of the matter brought before it, and on the evidence presented, may make his decision.

History: 1954 ACS 95, p. 49, Eff. Mar. 21, 1978.

R 285.1904 Adjournments and continuances.

Rule 904. A hearing shall not be adjourned or continued, except upon order of the director or his agent conducting the hearing. A motion or request of adjournment or a continuance shall be in writing and state concisely the reasons why an adjournment or continuance is necessary. The motion or request shall not be considered unless it is filed with the director not less than 3 days before the date assigned for the hearing, except upon order of the board, which exception shall be granted only upon a showing that for reasons not within the control of the person making the motion or request, the motion or request could not be filed within the time limit.

History: 1954 ACS 95, p. 49, Eff. Mar. 21, 1978.

R 285.1905 Depositions.

Rule 905. A deposition shall be taken only upon written permission of the director if it is proved in writing to the director that it is impractical or impossible to otherwise obtain the evidence. A deposition shall be taken pursuant to the general court rules of this state for taking depositions in civil cases, with all parties being given an opportunity to cross-examine the witness under oath.

History: 1954 ACS 95, p. 50, Eff. Mar. 21, 1978.

R 285.1906 Answers, briefs, and arguments.

Rule 906. A person who has been served with a notice of hearing may file a written answer before the date set for hearing, or at the hearing may appear and present an oral statement on the charges contained in the notice of hearing. If written briefs or arguments are presented, a copy shall be served on the manager, who shall accept service on behalf of the director and upon opposing parties, not less than 4 days before the date set for the hearing.

History: 1954 ACS 95, p. 50, Eff. Mar. 21, 1978.

R 285.1907 Stipulations.

Rule 907. The parties to a hearing, by a stipulation in writing filed with the director, may agree upon any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence at the hearing. Parties are requested to agree upon the facts when practicable.

History: 1954 ACS 95, p. 50, Eff. Mar. 21, 1978.

CONCESSIONAIRES, COMMERCIAL EXHIBITORS, AND AGRICULTURAL EXHIBITORS

R 285.3001—R 285.3042 Rescinded.

History: 1944 ACS 35, pp. 17-21; 1954 AC, pp. 1801-1808; rescinded 1954 ACS 61, p. 7, Eff. Feb. 16, 1970.

DEPARTMENT OF LICENSING AND REGULATION

STATE BOARD OF VETERINARY EXAMINERS

PROCEDURE FOR CONDUCTING HEARINGS

(By authority of Act No. 152 of the Public Acts of 1956, as amended, being §287.451 et seq. of the Michigan Compiled Laws)

R 287.1 Procedure for conducting hearings.

Rule 1. (1) (a) Whenever the word "person" is used, it shall mean an individual, firm, partnership, co-partnership, corporation, or association.

(b) "Board" shall mean the state board of veterinary examiners.

(c) "Hearing" shall mean any contested case being heard by the board as provided by the statutes.

(2) Notification of any hearing before the state board of veterinary examiners will be by personal service or registered mail, and will state the date, time, and place the hearing is to be held and issues involved. Such notice will be mailed at least 15 days prior to said hearing.

(3) When an appearance is made at a hearing, it shall be made either in person, or by a duly authorized agent, or by counsel.

(4) The person or persons who have been served with a notice of the hearing may, at their option, file a written answer thereto prior to the date set for hearing, or, at said hearing, may appear and present an oral or written statement on the charges contained therein.

(5) If the person or persons who have been previously served with a notice of hearing fail to appear at a notice hearing, the board may proceed with a hearing of the cases brought before it and may, on the evidence presented, make its decision.

(6) At the contested hearing there shall be presented a fair and accurate statement of the information contained in the files of the board. The files and records of the board shall be available for inspection prior to or at the hearing and the whole or any part thereof may be offered at said hearing as evidence on behalf of the board.

History: 1954 ACS 17, p. 7, Eff. Feb. 14, 1959.

GENERAL RULES

(By authority conferred on the state board of veterinary examiners by section 10 of Act No. 152 of the Public Acts of 1956, as amended, being §287.460 of the Michigan Compiled Laws)

R 287.451 Purpose.

Rule 1. The purpose of these rules is to implement Act No. 152 of the Public Acts of 1956, as amended, being §287.451 et seq. of the Michigan Compiled Laws, hereinafter referred to as the act, insofar as it applies to veterinarians.

History: 1954 ACS 88, p. 53, Eff. Aug. 31, 1976.

R 287.452 Application for licensure.

Rule 2. (1) An application for licensure by written examination or by reciprocity shall be made on printed forms provided by the board, shall be sworn to by

the applicant, and shall be accompanied by the appropriate fee. An application for licensure by examination shall be filed with the board at least 30 days before the date of an examination.

(2) An applicant shall submit the following information on the application: name in full; usual written signature; date of birth; residence address; business address; social security number; membership in professional organizations; education; a record of entire professional career; and such other information as the board may deem appropriate. The information on the application shall be concise, but comprehensive, and shall contain inclusive dates of employment, and the names and addresses of employers.

(3) The application shall not be considered until the application is complete.

(4) Application for licensure by examination or by reciprocity may be thoroughly investigated. The secretary of the board may inquire from the references, or by such other means as the board deems appropriate, as to the accuracy of the information submitted. If replies from the references set forth in the application are not received in a reasonable time, the secretary may so notify the applicant and request additional references. Information so obtained shall then be filed with the application on the permanent record, and shall remain the property of the board.

(5) If an application is denied, a notice of intent to deny shall be sent promptly to the applicant stating the reasons for the rejection and advising the applicant that the applicant has 30 days in which to submit additional evidence to substantiate the applicant's claim for consideration, or to request a hearing on the denial. If no response is received from the applicant within 30 days of the issuance of the notice, the denial shall be deemed final.

History: 1954 ACS 88, p. 53, Eff. Aug. 31, 1976.

R 287.453 Examination.

Rule 3. (1) The chairman of the board, or a duly authorized representative of the board, shall approve all applications as appropriate for examination 10 days prior to the examination.

(2) Examinations shall be held at least once a year at a convenient place, and public notice of the examination shall be given in sufficient time to allow the applicant to comply with the provisions of the act. Examination notice shall be made by publication in a newspaper of general circulation and by announcement through the Michigan veterinary medical association and the American veterinary medical association.

(3) After the chairman of the board has certified the grades on the examination, and has determined that an applicant is eligible for licensure, the applicant shall be notified and shall be issued a license as provided for in section 12 of the act.

(4) An applicant who fails the practical examination as adminstered by 1 or 2 board members may request, and may be granted, an appearance before the entire board for reexamination.

History: 1954 ACS 88, p. 53, Eff. Aug. 31, 1976.

R 287.454 Standards regulating profession in other states.

Rule 4. The administrative secretary of the board shall gather information from other states to determine whether the standards regulating the profession in other states are at least equal to those maintained in this state.

History: 1954 ACS 88, p. 54, Eff. Aug. 31, 1976.

R 287.455 Approval of veterinary schools; adoption of standards.

Rule 5. (1) The board may approve schools of veterinary medicine if the curriculum satisfies the standards of the American veterinary medical association educational commission.

(2) The board approves and incorporates herein by reference the standards adopted by the A.V.M.A. educational commission for foreign veterinary graduates relative to curriculum of schools of veterinary medicine. These standards are available for inspection at the offices of the board in Lansing.

History: 1954 ACS 88, p. 54, Eff. Aug. 31, 1976.

R 287.456 Foreign veterinary graduates; recognition of certificates; adoption of standards.

Rule 6. (1) The board may recognize certificates issued by the American veterinary medical association educational commission for foreign veterinary graduates if the candidate can demonstrate proof of graduation, proficiency in English, knowledge of veterinary medicine, and evaluated clinical experience.

(2) The board approves and incorporates herein by reference the standards adopted by the A.V.M.A. educational commission for foreign veterinary graduates. These standards are available at the offices of the board in Lansing.

History: 1954 ACS 88, p. 54, Eff. Aug. 31, 1976.

R 287.457 Temporary permits.

Rule 7. (1) Applicants seeking a temporary permit to practice veterinary medicine under section 13(2) of the act shall be deemed to have passed an examination approved by the board upon presentation of a national board examination upon which the applicant achieved an average grade of 75%, with no portion being below 60%, using the standard 1.5 deviation.

(2) An applicant seeking a temporary permit to practice veterinary medicine under section 13(2) of the act, who is not able to comply with subrule (1), shall submit an examination which the applicant has taken for consideration by the board.

History: 1954 ACS 88, p. 54, Eff. Aug. 31, 1976.

R 287.458 Official acts of board; quorum; decisions; officers.

Rule 8. (1) For purposes of determining whether the board may perform official acts, a quorum of the board shall be a majority of the voting members of the board. Decisions of the board shall be made by a majority vote of the members present. The board may require more than a majority vote on special matters.

(2) The board may elect at its annual meeting a chairman, a vice-chairman, and a secretary. The officers shall serve for a term of 1 year or until a successor is duly elected. The respective offices shall have such functions as are prescribed by the board by rule or resolution.

History: 1954 ACS 88, p. 54, Eff. Aug. 31, 1976.

R 287.459 "Direct supervision of a veterinarian" defined.

Rule 9. The phrase "direct supervision of a veterinarian," as used in section 4(6) of the act, means direct, physical, on-premises, personal supervision by the employing veterinarian.

History: 1954 ACS 88, p. 54, Eff. Aug. 31, 1976.

R 287.460 Rescinded.

History: 1954 ACS 88, p. 54, Eff. Aug. 31, 1976; rescinded 1954 ACS 96, p. 89, Eff. Aug. 8, 1978.

R 287.461 Veterinary facilities; sanitation requirements; inspection; report; notice; complaint.

Rule 11. (1) The determination of whether a veterinary facility is maintained in a sanitary manner shall include, without limitation, consideration of whether the following requirements have been met:

(a) The facility shall be maintained in a clean and orderly condition.

(b) Floors, walls, windows, exam tables, and all equipment and storage cabinets shall be kept clean.

(c) Some form of sterilization shall be employed on all surgical instruments, consistent with the standards of veterinary practice.

(d) Kennels in a facility, or connected with a facility, shall be kept clean. Excrement shall be promptly removed and disposed of in a proper manner. Enclosed facilities shall be properly screened and ventilated.

(2) The board or its designated agent reserves the right to inspect any facility during regular business hours. The inspection function may be delegated to a representative of the state department of public health or to a local department of health, or to a licensed veterinarian selected by the board.

(3) Upon receipt of an inspection report indicating that a veterinary facility is not being maintained in a sanitary manner, as defined by the act and these rules, the responsible veterinarian shall be notified that he has 30 days in which to correct the defects. If, after 30 days from notice thereof, the defects have not been corrected, the board may issue a complaint against the veterinarian pursuant to section 17 of the act.

History: 1954 ACS 88, p. 55, Eff. Aug. 31, 1976.

ANIMAL TECHNICIAN CERTIFICATION

(By authority conferred on the board of veterinary examiners by section 8 of Act No. 151 of the Public Acts of 1975, being §287.488 of the Michigan Compiled Laws)

R 287.481 Purpose.

Rule 1. The purpose of these rules is to implement Act No. 151 of the Public Acts of 1975, being §287.481 et seq. of the Michigan Compiled Laws, relative to the certification of animal technicians.

History: 1954 ACS 88, p. 55, Eff. July 8, 1976.

R 287.482 Application for certification; form; time for filing; fee; contents.

Rule 2. (1) Application for certification as an animal technician shall be made on printed forms provided by the board of veterinary examiners, hereinafter referred to as the board. An application for certification by written examination shall be filed with the board not less than 30 days before the date of an examination, and the application shall be sworn to and accompanied by the appropriate fee.

(2) An applicant shall submit the following information on the application: name in full, usual written signature, date of birth, residence address, business address, social security number, membership in professional organizations, education, a record of the applicant's entire professional career, and such other information as the board deems appropriate. The information furnished on the

application shall be concise, but comprehensive, and shall contain inclusive dates as well as the names and addresses of the applicant's employers.

(3) The applicant shall also submit documents sufficient to establish proof of graduation from an approved program in animal technology or a recommendation under oath from the applicant's supervising veterinarian that the applicant has been employed as an apprentice animal technician for not less than 3 years.

(4) The application shall not be considered until the application is complete.

History: 1954 ACS 88, p. 55, Eff. July 8, 1976.

R 287.483 Investigation.

Rule 3. An application for certification by examination may be thoroughly investigated. The secretary of the board may inquire from the references, or by such other means as the board deems expedient, as to the accuracy of the information submitted. If replies from the references cited are not received within a reasonable time, the secretary may so notify the applicant, and may request additional references. Information so obtained shall then be filed with the application as a permanent record, and shall remain the property of the board.

History: 1954 ACS 88, p. 56, Eff. July 8, 1976.

R 287.484 Denial of application; reconsideration.

Rule 4. If an application is denied, a notice of intent to deny shall be promptly sent to the applicant stating the reasons for the denial. The applicant may then be permitted to submit additional evidence to substantiate the claims made on the application. The board shall consider the additional evidence at a subsequent meeting, or the applicant may request a hearing on the denial. If the applicant neither submits additional information nor requests a hearing within 30 days of receipt of the notice of intent to deny, the denial shall be final.

History: 1954 ACS 88, p. 56, Eff. July 8, 1976.

R 287.485 Notice of examination.

Rule 5. Notice of the examination shall be made by publication in a newspaper of general circulation and by announcement through the Michigan veterinary medical association and the American veterinary medical association.

History: 1954 ACS 88, p. 56, Eff. July 8, 1976.

R 287.486 Approval of applications.

Rule 6. The chairman of the board, or a duly authorized representative of the board, shall approve all applications for examination 10 days prior to the examination.

History: 1954 ACS 88, p. 56, Eff. July 8, 1976.

R 287.487 Minimum passing score; reexamination.

Rule 7. (1) An applicant applying for certification as an animal technician in this state by examination shall pass each part of the examination, both the written and the practical, with a grade of not less than 75% on each part.

(2) If an applicant fails the oral practical examination, the applicant may request and be granted an appearance before the entire board for reexamination.

History: 1954 ACS 88, p. 56, Eff. July 8, 1976.

R 287.488 Certification of examination grades; issuance of certificate.

Rule 8. The chairman of the board shall certify the examination grades to the board. After the board determines that an applicant is eligible for certification, the

applicant shall be promptly notified and issued a certificate as required by Act No. 151 of the Public Acts of 1975.

History: 1954 ACS 88, p. 56, Eff. July 8, 1976.

R 287.489 Approval of animal technology programs; standards incorporated by reference.

Rule 9. (1) The board may approve schools of animal technology if the school satisfies the standards of the American veterinary medical association regarding animal technology programs.

(2) The board approves and incorporates herein by reference the standards adopted by the American veterinary medical association relative to the approval of schools of animal technology. These standards are available for inspection at the offices of the board in Lansing.

History: 1954 ACS 88, p. 56, Eff. July 8, 1976.

R 287.490 Complaint against animal technician.

Rule 10. A complaint against a certified animal technician shall be sworn to and submitted in writing to the secretary of the board, and shall contain sufficient facts to enable the board to properly dispose of the matter. Complaint forms are available in the board office.

History: 1954 ACS 88, p. 56, Eff. July 8, 1976.

R 287.491 Complaint review committee; procedure.

Rule 11. A sworn complaint submitted to the board shall be reviewed by the complaint review committee, which shall consist of 1 member of the board and the chief of the animal health division of the department of agriculture, who shall be an ex officio member. The committee may request an investigation of the complaint by the department of licensing and regulation. If the committee determines that the complaint does not warrant formal action, it shall recommend to the board that the complaint be closed, and the complainant and the licensee shall be notified of that decision. If the committee, with the advice and assistance of the office of the attorney general, determines that the disciplinary action is appropriate, a formal complaint shall be submitted to the board, and if the board determines that action is appropriate, a hearing shall be held in accordance with Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 88, p. 56, Eff. July 8, 1976.

R 287.492 Supervision of an animal technician.

Rule 12. The minimum degree of control by the veterinarian having actual charge of the case or animal, which will insure that the activities of the animal technician are within the scope of the orders, assignments, or prescriptions of the veterinarian, shall be sufficiently close physical proximity to the animal technician so that the supervising veterinarian is continuously available to observe and monitor the performance of the animal technician. For example, in a clinical situation, the supervising veterinarian shall be on the premises while the animal technician is performing services. In the field, the supervising veterinarian shall be on the client's premises while the animal technician is performing services.

DEPARTMENT OF AGRICULTURE

MICHIGAN STATE APPLE COMMISSION

(By authority of Act No. 87 of the Public Acts of 1939, as amended, being §290.1 et seq. of the Michigan Compiled Laws)

R 290.1 Public hearings.

Rule 1. Prior to the issuing of any rule, regulation, or order, the Michigan state apple commission shall first hold a public hearing on the proposed rule, regulation, or order or any changes therein.

History: 1954 ACS 12, p. 28, Eff. Nov. 21, 1957.

R 290.2 Orders.

Rule 2. All rules, regulations, and orders of the commission shall be signed by the chairman and the secretary-manager.

History: 1954 ACS 12, p. 28, Eff. Nov. 21, 1957.

R 290.3 Seal.

Rule 3. The seal of the commission shall be circular in form and contain the following inscription, "Michigan State Apple Commission."

History: 1954 ACS 12, p. 28, Eff. Nov. 21, 1957.

R 290.4 Stamp design.

Rule 4. The design of the official apple advertising stamps issued by the commission shall be: Shape, rectangular; background, to be an outline map of Michigan; bearing the denomination of the stamp. Each denomination shall be of a different color.

History: 1954 ACS 12, p. 29, Eff. Nov. 21, 1957.

R 290.11 Assessment.

Rule 11. The assessment of 3 cents per bushel or 6 cents per hundred pounds of apples levied by section 9(b) of said act, shall be collected by the purchase from the commission, of adhesive apple advertising stamps or of combination grade and apple advertising stamps, which stamps shall be attached and cancelled by the grower.

History: 1954 ACS 12, p. 29, Eff. Nov. 21, 1957; 1954 ACS 15, p. 5, Eff. Aug. 14, 1958.

R 290.12 Evidence of payment.

Rule 12. Evidence of payment of the apple advertising assessment shall be shown by 1 of the following methods:

(a) Adhesive apple advertising stamps properly cancelled and attached to the bill of lading, shipping receipt, invoice, or other documents accompanying the load, or to individual containers.

(b) Combination grade and apple advertising stamps or adhesive apple advertising stamps properly cancelled and attached to individual containers.

(c) On retail transactions by the grower on his own premises and on retail shipments by express, evidence of payment of the assessment may be shown by attaching and cancelling, daily, the proper amount of adhesive apple advertising

stamps to a ticket of release, furnished by the commission, which shall be certified and rendered at the end of each calendar month to Michigan state apple commission.

History: 1954 ACS 12, p. 29, Eff. Nov. 21, 1957.

R 290.13 Cancellation.

Rule 13. Said stamps attached to individual packages or to bills of lading, invoices, or other documents accompanying loads shall be cancelled by permanently writing or stamping the date thereon; except adhesive stamps of a variable denomination for which cancellation shall consist of the proper filling out of the required information on the face of the stamp and which shall be affixed to the shipping document accompanying each load of apples.

History: 1954 ACS 12, p. 29, Eff. Nov. 21, 1957; 1954 ACS 15, p. 5, Eff. Aug. 14, 1958; 1954 ACS 20, p. 10, Eff. Nov. 14, 1959.

R 290.14 General.

Rule 14. (1) With the exception of Michigan apples sold for cider, juice, or vinegar which are exempted from the provisions of this act, no Michigan apples shall be shipped or sold to any dealer until such advertising stamps have been properly cancelled and affixed or attached by the grower or grower's agent, except as provided for below.

(2) In the event that apples are purchased for the purpose of being processed into cider, juice, or vinegar and later sold as fresh fruit, the party purchasing the apples shall be liable for the proper cancellation and affixing or attaching the proper apple advertising stamps.

(3) In order that the practical application of these rules may be in accordance with certain marketing practices, apples may be delivered to a grower's agent, dealer, or processor without apple advertising stamps; provided said grower's agent, dealer, or processor has been issued a "grower's agent permit" by the commission to accept apples unaccompanied by stamps and has agreed in writing to accept the responsibility of seeing that the apple advertising assessment is paid on all apples passing through their hands and to keep accurate records on forms furnished by the commission. These records are to be retained for a period of 2 years.

(4) All such loads of apples shall be accompanied by a shipping document bearing the date, the grower's name and address, and the name and address of the grower's agent, dealer, or processor to whom the apples are being shipped.

(5) The commission is to furnish the foods and standards division, Michigan department of agriculture, with the names of all growers' agents, dealers, or processors who are authorized to accept delivery of apples not accompanied by stamps. Each inspector of the foods and standards division is to be furnished with a list of growers' agents, dealers, or processors. Any load of apples not accompanied by properly cancelled apple advertising stamps shall not be considered as being in violation, provided that the load is being delivered to a grower's agent, dealer, or processor who has been issued "grower's agent permit" by the commission and that the accompanying shipping document is marked with the grower's agent's name and address.

History: 1954 ACS 12, p. 29, Eff. Nov. 21, 1957; 1954 ACS 20, p. 10, Eff. Nov. 14, 1959.

R 290.15 Stamp purchases.

Rule 15. (1) All apple advertising stamps shall be purchased from the commission or its authorized agents.

(2) The commission or its agents shall issue an official receipt to the purchaser showing the amount of money paid, the number of stamps delivered, and their denominations. Triplicate copies of the receipt shall be made, the original being delivered to the purchaser; the second copy must be sent by the agent to the commission, together with the funds collected quarterly; and the third copy shall be retained in the original receipt book.

(3) Upon request of the grower or grower's agent, the commission may, at its discretion, enter into an agreement whereby the commission will issue to a grower or grower's agent a permit and 1 or more books of 20 stamps each carrying provisions on the face of the stamp for the shipper's name and address, the number of bushel or weight of apples, the rate of assessment, and the value of the stamp. These stamps shall be filled out in triplicate, the original being affixed to the shipping document; 1 copy to be returned to the commission, together with payment of the value of the stamp; and 1 copy to be retained for the grower or grower's agent's records. Payment for variable denomination stamps must be made at the end of each month for stamps used during that month.

History: 1954 ACS 12, p. 29, Eff. Nov. 21, 1957; 1954 ACS 20, p. 10, Eff. Nov. 14, 1959.

R 290.16 Nonparticipating growers.

Rule 16. (1) Such growers as desire can become nonparticipating growers and claim exemption from the provisions of this act. To claim such exemption, the nonparticipating grower must notify the commission in writing on or before the first day of July of each year of his intention to claim exemption from the apple advertising assessment for the coming crop year. For this purpose, the crop year shall be considered to run from July 1 of 1 year to June 30 of the following year. When so notifying the commission, the nonparticipating grower shall give the commission his estimate of the size of the apple crop upon which he is claiming exemption. The commission shall then issue the nonparticipating grower an exemption certificate bearing an exemption certificate number.

(2) On apples sold as fresh fruit, the nonparticipating grower shall attach properly cancelled apple advertising stamps in the same manner as a participating grower. The nonparticipating grower shall then file for the refund of the apple advertising assessment paid by him upon a form furnished him by the commission at his request. In filing for a refund, the form must be accompanied by the grower's copy of the commission's official receipt used for stamp sales. These official receipts shall bear the same name as that appearing on the nonparticipating grower's exemption certificate.

(3) Where a nonparticipating grower sells apples through a grower's agent and the apple advertising stamps are purchased in the name of the grower's agent rather than the nonparticipating grower, the nonparticipating grower may, when filing for a refund, substitute a statement from the grower's agent certifying that the grower's agent purchased a specified quantity of advertising stamps for use in shipping the nonparticipating grower's apples.

(4) On the last day of each month, the commission shall pay all requests for the refund of the apple advertising assessments received by it from nonparticipating growers during the month. A nonparticipating grower need not file monthly for the refund of his apple advertising assessment. He may elect to file as many times as he desires during each crop year, provided he does not file more than 1 request during each month. No refunds shall be paid to nonparticipating growers filing for a refund later than June 30 of the crop year for which he has claimed exemption.

(5) On apples sold to processors, the nonparticipating grower need not attach apple advertising stamps if the processor to whom he is selling has been

authorized by the commission to withhold the amount of the apple advertising assessment from payments made to participating growers. In this event, the nonparticipating grower shall notify the processor in writing of the fact that he is a nonparticipating grower. This written notice shall contain the number of the nonparticipating grower's exemption certificate.

(6) Dealers or processors desiring to be authorized to accept apples not accompanied by apple advertising stamps shall request, in writing, to be authorized. In making this request, the dealer or processor must state that he agrees to keep such records as required by the commission.

History: 1954 ACS 12, p. 30, Eff. Nov. 21, 1957.

R 290.17 Grower's records.

Rule 17. Every grower shall keep a complete and accurate record of the number of bushels or weight of apples handled, shipped, or processed by or for him during each calendar year. These records shall be retained by him for a period of 2 years.

History: 1954 ACS 12, p. 30, Eff. Nov. 21, 1957.

R 290.18 Grower's agent, dealer, and processor; records.

Rule 18. (1) Every grower's agent, dealer, and processor buying apples produced in Michigan shall keep a complete record of the number of bushes or weight of apples purchased by him. The details of this record are to be reported monthly to the commission on a form furnished by the commission. These forms are to be furnished the grower's agent, dealer, or processor at his request. Such records are to be maintained by the grower's agent, dealer, or processor for a period of 2 years.

(2) Recognizing the confidential nature of these reports, they shall not be available to any person or persons other than members and employees of the Michigan state apple commission and state and county law enforcement officers and all employees and agents of the department of agriculture, except as necessary for the prosecution of violations of the Baldwin apple act.

AGRICULTURAL MARKETING AND BARGAINING BOARD

ACCREDITATION AND REGULATION OF ASSOCIATIONS

(By authority conferred on the agricultural marketing and bargaining board by section 3 of Act No. 344 of the Public Acts of 1972, being §290.703 of the Michigan Compiled Laws)

R 290.101 Definition of perishable fruits and vegetables.

Rule 1. Perishable fruits and vegetables for which an association may seek accreditation are agricultural commodities that are readily susceptible to deterioration and decay or which may be protected by refrigeration, icing, ventilation, or protected from the cold, and that could be produced in commercial quantities in this state. These include, but are not limited to, apples, cherries, grapes, peaches, apricots, pears, plums, nectarines, strawberries, blueberries, raspberries, tomatoes, cucumbers, asparagus, snap beans, lima beans, cabbage, peas, cantaloupes, watermelons, carrots, cauliflower, celery, sweet corn, potatoes, lettuce, onions, peppers, squash, pumpkin, sweet potatoes, broccoli, brussels sprouts, eggplant, spinach, beets, rhubarb, watercress, parsnips, and turnips.

History: 1954 ACS 77, p. 12, Eff. Oct. 27, 1973.

R 290.102 Marketing period of agricultural commodities.

Rule 2. The determination of the marketing period shall be stated in the agricultural marketing and bargaining board's preliminary declaration of accreditation of an association and, although it may subsequently be changed by the board in view of evidence that an alternative period would be more appropriate, it will generally be determined as follows:

(a) The first day of the marketing period of an agricultural commodity that is delivered for sale shall be the earliest date in the previous 5 years when the commodity was first delivered by a producer in the bargaining unit to a handler. The last day of the period shall be the latest date of the preceding 5 years when the last delivery of the commodity by a producer in the bargaining unit was made.

(b) The first day of the marketing period of an agricultural commodity, produced and marketed under contract for future delivery of substantially all of a crop or periodic production of the commodity, shall be a date 150 days prior to the earliest date in the preceding 5 years when the commodity was first delivered by a producer in the bargaining unit to a handler. The last day of the period shall be the latest date in the preceding 5 years when the last delivery of the commodity by a producer in the bargaining unit was made.

History: 1954 ACS 77, p. 12, Eff. Oct. 27, 1973.

R 290.103 Determination of minimum value at first point of sale.

Rule 3. The minimum value at first point of sale for an agricultural commodity that a person must have produced to be a producer of a commodity and included in a bargaining unit for the commodity shall be $1,250.00. However, the agricultural marketing and bargaining board may determine that the minimum value at first point of sale should be larger or smaller based upon the evidence at the board's hearing to determine whether a proposed bargaining unit for the commodity is appropriate.

History: 1954 ACS 77, p. 12, Eff. Oct. 27, 1973.

R 290.104 Application fee.

Rule 4. An application fee for accreditation of an association is $175.00 for the administrative cost plus 25 cents for mailing and notification costs for each person who has previously produced sufficient quantity of the agricultural commodity to meet or exceed the minimum value at first point of sale as established by the board. Payment of the application fee, including the mailing and notification costs, must accompany all requests for accreditation.

History: 1954 ACS 77, p. 13, Eff. Oct. 27, 1973.

R 290.105 Annual reports of accredited associations.

Rule 5. Each accredited association shall file an annual report with the agricultural marketing and bargaining board 60 days prior to the stated marketing period of the year of accreditation and each year thereafter. The report shall include:

(a) The names and addresses of members of the marketing and bargaining committee of the association and evidence that they meet the criteria established for eligibility for such committees.

(b) An accounting of expenses of the association in providing marketing services.

(c) A copy of the most recent annual financial statement.

(d) Fees to members and nonmembers.

(e) Any changes in bylaws since the previous annual report.

(f) Verification that all conditions specified under section 7 of Act No. 344 of the Public Acts of 1972 are met.

History: 1954 ACS 77, p. 13, Eff. Oct. 27, 1973.

R 290.106 Marketing service fees.

Rule 6. Marketing service fees for marketing and bargaining services provided producers in the bargaining unit shall be based solely upon the cost incurred by the association in providing the services. The fees shall not exceed 3% of the gross value of the commodity at time of sale and shall not include costs of services to members that do not benefit nonmembers.

R 291.210 Control of vehicles.

Rule 10. It is unlawful for any person to drive, tow, or place any vehicle on a fairgrounds, or to park, load, or unload the same, except as authorized by the commission, director or the general manager. The maximum speed for any vehicle on the fairgrounds shall be no greater than that which is safe under the existing conditions, but in any event shall be no more than 25 miles per hour.

History: 1954 ACS 60, p. 11, Eff. Nov. 14, 1969.

R 291.211 Littering.

Rule 11. It is unlawful for any person knowingly, without the consent of the commission, director or the general manager, to dump, deposit, place, throw, or leave, or cause or permit the dumping, depositing, placing, throwing, or leaving of litter on a fairgrounds. "Litter" means all rubbish, refuse, waste material, garbage, offal, paper, glass, cans, bottles, trash, debris, or other foreign substances of every kind and description.

History: 1954 ACS 60, p. 11, Eff. Nov. 14, 1969.

R 291.220 Penalty.

Rule 20. Any person who openly and willfully refuses to conform to any of these rules, under the provisions of section 2 of Act No. 80 of the Public Acts of 1905, being §19.142 of the Michigan Compiled Laws, shall be deemed guilty of a misdemeanor, and upon conviction thereof may be fined not more than $50.00 or by imprisonment in the county jail of the county where such offense is committed for a period of not less than 10 days nor more than 60 days, or both such fine and imprisonment, in the discretion of the court. The general manager, or the officer in charge of the Michigan state police state fair unit or of the Detroit police, or of the guards, may order the immediate expulsion from a fairgrounds of any person who may refuse to conform to these rules without refund of any funds paid to the commission and without liability for damages on the part of the state of Michigan, its agents, officers, and employees, the commission or the Michigan state police, Detroit police, the guards or police officers involved.

History: 1954 ACS 60, p. 11, Eff. Nov. 14, 1969.

REGULATION NO. 851. MICHIGAN STATE FAIR

(By authority conferred on the commission of agriculture by section 7 of Act No. 224 of the Public Acts of 1962, sections 2 and 4 of Act No. 197 of the Public Acts of 1952, as amended, and sections 7, 9 and 185 of Act No. 380 of the Public Acts of 1965, being §§291.27, 24.102, 24.104, 16.107, 16.109, and 16.285 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 291.301 Definitions; fair and its administration.

Rule 1. (1) "Authority" means the Michigan state fair authority.

(2) "Commission" means the commission of agriculture.

(3) "Director" means the director of agriculture.

(4) "Fair" means the annual fair staged at Detroit by the agriculture commission, with the advice of the authority, and consisting of a competitive and educational exhibit of agricultural commodities, livestock and poultry and manufactured products for which awards and premiums may be paid, industrial, commercial and recreational pursuits and other related activities.

(5) "General manager" means the general manager of the fair.

History: 1954 ACS 61, p. 6, Eff. Feb. 16, 1970.

R 291.302 Definitions; concessions and exhibits.

Rule 2. (1) "Concession stand" means a stand which sells and immediately delivers food, beverages, specialty items, balloons, art work, novelties, or other like items to fair patrons.

(2) "Food concession" means a place or stand which sells or serves food or beverages, or both, and includes the following:

(a) "Restaurant" means a place serving plate lunches, dinners, or any other meal consisting of 2 or more foods.

(b) "Grabstand" means a place serving hamburger sandwiches, hot dogs, or other specialty food, soft drinks, and coffee.

(3) "Exhibit" means an article, item, livestock, or poultry entered for public display at the fair.

History: 1954 ACS 61, p. 6, Eff. Feb. 16, 1970.

R 291.303 Definitions; exhibitors.

Rule 3. (1) "Agricultural exhibitor" means a person who enters an exhibit in the agricultural and livestock section of the fair.

(2) "Commercial exhibitor" means a holder of a commercial exhibit license, his agent, or designated representative.

(3) "Community arts exhibitor" means a person who enters an exhibit in the community arts section of the fair.

(4) "Educational exhibitor" means an educational, charitable, or nonprofit corporation exhibitor granted a license by the fair.

History: 1954 ACS 61, p. 6, Eff. Feb. 16, 1970.

R 291.304 Definitions; licenses.

Rule 4. Licenses are classified as follows:

(a) "Building or grounds license" which means an agreement, other than a lease, for use of any part of the buildings or fairgrounds when the fair is not in operation.

(b) "Commercial exhibit license" which means a permit to operate a stand, exhibit, or building, the main purposes of which are to exhibit commercial products, to solicit prospective buyers, or to make direct sales at the fair.

(c) "Concession license" which means a permit to operate a concession stand for the purpose of making direct sales to patrons of the fair.

History: 1954 ACS 61, p. 6, Eff. Feb. 16, 1970.

R 291.305 Definitions; sections of fair.

Rule 5. (1) "Agricultural exhibits section" means the administrative unit of the fair which conducts the business of arranging for the entry and display of agricultural exhibits, with or without premium awards.

(2) "Community arts section" means the administrative unit of the fair which conducts the business of arranging for the entry and display of community arts exhibits, with or without premium awards.

(3) "Space utilization section" means the administrative unit of the fair which conducts the business of licensing concessionaires, commercial exhibitors, and building and grounds licensees and lessees.

History: 1954 ACS 61, p. 6, Eff. Feb. 16, 1970.

R 291.309 Rescission.

Rule 9. The following rules are rescinded:

(a) Rules of the state fair board of managers governing concessionaires, commercial exhibitors and agricultural exhibitors, being R 285.3001 to R 285.3042

BUSINESS PROCEDURES

R 291.311 Scope of rules; business transactions.

Rule 11. (1) The rules in Part 1, General Provisions, apply to operation of the fairgrounds both during the fair and at other times.

(2) Business transactions of the fair shall be conducted according to established practices and procedures of the state of Michigan subject to such special procedures as may be established by resolution of the commission.

History: 1954 ACS 61, p. 7, Eff. Feb. 16, 1970.

R 291.312 Procurement of services.

Rule 12. (1) The procedure hereinafter described in this rule governs procurement of services.

(2) Letters of invitation to bid for contractual services shall be sent to at least 3 firms performing the particular service needed. A letter shall also be sent to a firm or individual which inquires about the requirements of any contractual service.

(3) The proposals or bids of the various contractors shall be referred to the appropriate section of the fair for consideration and recommendation to the general manager.

(4) The general manager, with the advice of the authority, shall select the bid he deems most appropriate, taking into consideration the amount bid, the quality of performance of previous work and the reliability of the bidder and shall reserve the right to reject any or all bids.

(5) The general manager shall refer the selection of bids or proposals involving long term commitments and capital expenditures to the commission for approval, citing the reasons for the selection made.

(6) After the commission approves the recommended bid or proposal, the general manager shall prepare a contract. Before signing of the contract, it shall be submitted to the office of the attorney general for approval of its legal form. The director shall sign the contracts in the name of the Michigan commission of agriculture. Copies of the contracts shall be forwarded to the appropriate state agencies in conformance with their requirements.

(7) Contractual arrangements for seasonal personal services shall be negotiated by the general manager and presented to the director for his approval. Such contracts shall conform to the regulations of the Michigan civil service commission for the hiring of personnel. Permanent personnel shall be hired in conformance with the provisions and regulations of the civil service commission.

R 291.313 Concession licenses.

Rule 13. (1) The procedure hereinafter described in this rule governs the issuing of concession licenses.

(2) A person seeking concession space shall fill out an application form issued by the space utilization section. An affidavit of ownership shall be signed by an applicant and attached to the application.

(3) Concessionaires with established satisfactory performance records at the fair will be granted licenses before licenses are issued to new concessionaires. Under the supervision of the general manager, the space utilization section supervisor shall determine the eligibility and desirability of the new concession requests. The general manager shall recommend to the commission space rental rates for all concessionaires, based on the amount of space requested, type of concession, and location, before issuing a concession license.

(4) Applications and concession licenses received by the space utilization section shall be submitted together with its recommendations to the general manager and then, upon the advice of the authority, may be submitted to the director for approval.

(5) An approved new applicant shall be notified in writing and requested to appear at the Michigan state fairgrounds to view and agree upon his location, and to sign the concession license.

(6) At the time of the signing of the concession license, the concessionaire shall pay 50% of the space rental, and he shall pay the remaining 50% before the opening day of the fair.

(7) A concessionaire shall abide by the provisions of the concession license forms, and by the rules and regulations of the department of agriculture, fairs divison.

(8) This procedure shall be followed in all cases, but authorization to waive it, upon the advice of the authority, may be granted by the director to cover the period immediately before the opening of the fair. All licenses shall be signed by the general manager.

History: 1954 ACS 61, p. 7, Eff. Feb. 16, 1970.

R 291.314 Commercial exhibitor licenses.

Rule 14. (1) The procedure hereinafter described in this rule governs the issuing of commercial and industrial exhibit licenses.

(2) A person seeking exhibit space shall fill out an application issued by the Michigan state fair space utilization section.

(3) An application and commercial exhibitor license received by the space utilization section shall be submitted, together with its recommendations, to the general manager, and upon the advice of the authority, then may be submitted to the director for approval.

(4) An exhibitor license given final approval shall then be signed and executed by the general manager.

(5) An approved exhibitor applicant shall then be notified in writing. If the license requires the signatures of corporate officers, other than the individuals supervising the exhibit, such transaction may be carried out by mail. At the time of signing of the license, the exhibitor shall agree to the location of his exhibit space.

(6) At the time of signing of the license, the exhibitor shall pay the sums designated by the space utilization section supervisor, but in no case less than 50% of the license. The balance shall be paid before the opening day of the fair.

(7) An exhibitor shall abide by the provisions of the exhibit space license forms, and by the rules and regulations of the department of agriculture, fairs division.

R 291.315 Rejection or conditional acceptance of applications.

Rule 15. The general manager reserves the right to reject, or accept conditionally, an application for a license, concession, or lease.

History: 1954 ACS 61, p. 8, Eff. Feb. 16, 1970.

R 291.316 Space allocation.

Rule 16. (1) The procedures hereinafter described in this rule govern the allocation of space.

(2) The allocation, numbers, and location of commercial, concession and free exhibitor spaces shall be determined by the space utilization section supervisor, with approval of the general manager.

History: 1954 ACS 61, p. 8, Eff. Feb. 16, 1970.

R 291.317 Interpretations; disputes; documentary provisions.

Rule 17. (1) The commission reserves the right to interpret these rules and to settle and determine questions and disputes in regard thereto or otherwise arising out of, connected with, or incident to the operation of business.

(2) The provisions printed in the premium books, the exhibitor's license, the concession license, and the building or grounds license shall be followed in the operation of, and the conduct of business at, the fair.

History: 1954 ACS 61, p. 8, Eff. Feb. 16, 1970.

R 291.318 Inspection of premises.

Rule 18. The fair management and authorized agents for governmental agencies may, at any time, enter upon and inspect any portion of the licensed premises to enforce compliance with applicable statutes, ordinances, and rules.

History: 1954 ACS 61, p. 9, Eff. Feb. 16, 1970.

R 291.319 State registration and hiring of minors.

Rule 19. (1) Michigan state law requires that businesses operating in Michigan be registered in accordance with the assumed or fictitious name act, and further that corporations be registered with the state treasury department and department of commerce.

(2) Michigan department of labor rules relative to the hiring of minors shall be strictly enforced. A minor shall obtain a Michigan department of labor approval number, and a working permit from his local school attendance department. A licensee, concessionaire, or lessee shall obtain other details relative to the hiring of minors from the office of the space utilization section. Failure to meet these requirements are grounds for a cancellation of a license or a lease.

History: 1954 ACS 61, p. 9, Eff. Feb. 16, 1970.

R 291.321 Advertising.

Rule 21. A licensee, or any other person, is not allowed to place any advertising matter upon a building, tree, or any other place on the grounds, nor permitted to distribute advertising matter or literature outside the place assigned by the terms of the license or lease.

History: 1954 ACS 61, p. 9, Eff. Feb. 16, 1970.

R 291.322 Destroyed and unclean premises.

Rule 22. If the premises occupied by a licensee, concessionaire, or lessee are destroyed in any degree, or left in an unclean condition as a result of the use of the

premises by the licensee, concessionaire, or lessee, the general manager will repair or clean the premises and charge the licensee, concessionaire, or lessee the cost of such labor and materials.

History: 1954 ACS 61, p. 9, Eff. Feb. 16, 1970.

R 291.323 Gambling games.

Rule 23. Games of skill, games of chance, and games partially of skill and partially of chance, used for gaming, are unlawful and will not be permitted on the fairgrounds by the general manager.

History: 1954 ACS 61, p. 9, Eff. Feb. 16, 1970.

R 291.324 Intoxicating beverages.

Rule 24. Liquor or other intoxicating beverages shall not be permitted on the fairgrounds.

History: 1954 ACS 61, p. 9, Eff. Feb. 16, 1970.

PART 2. LICENSED EXHIBITORS AND CONCESSIONAIRES AT FAIR

R 291.331 Access before fair.

Rule 31. An exhibitor or concessionaire will be granted access to the fairgrounds and exhibits buildings from 8:30 a.m. to 5:00 p.m. daily, except Saturdays and Sundays, for 10 working days before the opening day of the fair for the purpose of preparing his exhibits or concessions. A commercial exhibitor will be granted access to commercial exhibit buildings 2 days before the opening day of the fair from 8:30 a.m. to 5:00 p.m. Special written permission to set up earlier shall be obtained from the general manager.

History: 1954 ACS 61, p. 9, Eff. Feb. 16, 1970.

R 291.332 Cancellation of space allotments and licenses.

Rule 32. (1) A space allotment and license may be cancelled if an exhibitor or concessionaire fails to occupy the space allotted to him with the exhibit or concession specified on his license before the opening of the fair or for violation of any state law, city ordinance, or these rules.

(2) An exhibitor or concessionaire may cancel the space allotted to him for the fair by advising the general manager in writing on or before July 15 of the year in which he has a license agreement.

History: 1954 ACS 61, p. 9, Eff. Feb. 16, 1970.

R 291.333 Relocation of assigned space.

Rule 33. The general manager reserves the right to require an exhibitor or concessionaire to locate at, or move his exhibit or concession to, some other site if it is for the best interest of the fair. If the fair cannot find a suitable alternate site, the exhibitor or concessionaire is entitled to a pro rata refund of space rent paid.

History: 1954 ACS 61, p. 9, Eff. Feb. 16, 1970.

R 291.334 Labor unions.

Rule 34. The general manager may cancel a license in case of labor union difficulties involving an exhibitor or concessionaire which may lead to or result in a strike or picketing of the fairgrounds. An exhibitor or concessionaire whose license is cancelled is entitled to a pro rata refund of unearned rental for the balance of the period provided for in his license. In such a case, no liability for damages is chargeable to the state of Michigan, its officers, agents, and employees.

History: 1954 ACS 61, p. 10, Eff. Feb. 16, 1970.

R 291.335 Rentals and charges.

Rule 35. (1) Space rentals are payable by an exhibitor or concessionaire by the dates specified on the license. Space rentals not paid before August 1 shall be paid before the opening day of the fair, and shall be paid by cash, money order, or certified or cashier's check.

(2) If rental or other charges are unpaid at the close of the fair, the state of Michigan, through the commission, shall have a possessory lien on any of the exhibitor's or concessionaire's property located on the fairgrounds to satisfy liabilities of the debtor to the fair or to the state of Michigan. The lien may be perfected by sale in like manner as sales on execution are conducted in this state.

History: 1954 ACS 61, p. 10, Eff. Feb. 16, 1970.

R 291.336 Construction of exhibits and stands.

Rule 36. (1) Exhibits in a building shall be constructed so as not to obstruct the public's view of an adjacent exhibit.

(2) An exhibitor's displays and advertising which form the back wall of his exhibit shall not exceed 8 feet in height, except when he has obtained written permission from the fair management to do so.

(3) An exhibitor or concessionaire shall not mark, paint, drill, dig, or in any manner deface the licensed premises, except by permission of the general manager, and at expiration of the fair shall surrender the licensed premises in as good condition as when occupied, reasonable wear and tear excepted.

History: 1954 ACS 61, p. 10, Eff. Feb. 16, 1970.

R 291.337 Signs and advertising.

Rule 37. (1) An exhibitor or concessionaire shall not place a sign or advertising which overhangs aisles in a building.

(2) An exhibitor or concessionaire shall post on his licensed premises only such signs as the general manager permits.

(3) A concession permit shall be posted on the concession stand before the concessionaire may start to operate.

History: 1954 ACS 61, p. 10, Eff. Feb. 16, 1970.

R 291.338 Special authorizations.

Rule 38. Reduced admission tickets and authorizations for set-up and electrical hookups shall be granted only after an exhibitor or concessionaire applies in person to the space utilization section and presents his copy of contracts or receipts which denote full payment.

History: 1954 ACS 61, p. 10, Eff. Feb. 16, 1970.

R 291.339 Electrical services.

Rule 39. The fair shall furnish electrical power only to the point of outlet. Special and additional connections for the operation of spotlights, lamps, motors, signs, and other equipment shall be furnished by the exhibitor or concessionaire. Such requirements shall be requested on the application furnished by the fair. A competent electrician shall be designated by the fair, and will be in attendance upon the grounds before, during, and after the fair, with whom the exhibitor or concessionaire may on his own responsibility make arrangements for necessary expert service. Arrangement for payment for these services shall be made between the licensed contractor and the exhibitor or concessionaire before the fair.

R 291.340 Hours for exhibits, concessions, and buildings.

Rule 40. An exhibit or concession shall be open to the public and in charge of a competent attendant from 10:00 a.m. to 10:00 p.m. on each day of the fair. Exhibit buildings will be open to exhibitors 2 hours before scheduled opening time, and exhibitors shall personally vacate the building within 1 hour after closing.

History: 1954 ACS 61, p. 10, Eff. Feb. 16, 1970.

R 291.341 Supervision and police and fire protection.

Rule 41. (1) Supervision by building superintendents or guards shall be provided for exhibit buildings 2 days before the fair, during the fair, and until 5:00 p.m. the day after the fair.

(2) The commission shall provide exhibitors and concessionaires with normal police and fire protection during the fair.

History: 1954 ACS 61, p. 11, Eff. Feb. 16, 1970.

R 291.342 Nonliability for loss or damage.

Rule 42. The commission will use diligence to protect licensed exhibitor and concessionaire property after its arrival on the fairgrounds. However, the state of Michigan, its officers, agents, and employees are not liable for loss, injury, or damage to an exhibitor or concessionaire caused by fire, accident, condition of structure, or negligence of another exhibitor or concessionaire, or for any other reason whatever.

History: 1954 ACS 61, p. 11, Eff. Feb. 16, 1970.

R 291.343 Risks assumed.

Rule 43. (1) An exhibitor or concessionaire shall assume all risks ensuing from exhibiting and merchandising while at the fair.

(2) An exhibitor or concessionaire shall give special attention to the protection of portable materials during the set-up period before the fair and during the tear-down period immediately after the fair.

(3) A shipment of materials unaccompanied by its owner shall be consigned entirely at the owner's risk. A shipment, if made, shall be addressed to the exhibitor or concessionaire in care of the space utilization supervisor, Michigan State Fairgrounds, Detroit, Michigan 48203, and shall be clearly marked with the exhibit building and booth number, or concessionaire space number. A shipment will be accepted upon delivery at the fairgrounds if properly marked, and if cartage and other charges have been prepaid.

History: 1954 ACS 61, p. 11, Eff. Feb. 16, 1970.

R 291.344 Insurance; kinds and amounts.

Rule 44. An exhibitor or concessionaire is responsible for providing his own insurance protection against property damage and public liability, and workmen's compensation as required by Michigan statutes in accordance with his license agreement.

History: 1954 ACS 61, p. 11, Eff. Feb. 16, 1970.

R 291.345 Insurance certificates.

Rule 45. Property of an exhibitor or concessionaire, who is required, under R 291.344 to carry insurance, shall not be admitted on the Michigan state fairgrounds unless the exhibitor or concessionaire has presented to the space utilization section 10 days before the opening of the fair a certificate of his public

liability and property damage insurance properly signed and dated by the insurance carrier. This provision also applies to workmen's compensation insurance in accordance with Michigan statutes. If the exhibitor or concessionaire is a self-insurer under the Michigan workmen's compensation act, authorization for such self-insurance shall be presented to the space utilization section.

History: 1954 ACS 61, p. 11, Eff. Feb. 16, 1970.

R 291.346 Fire prevention ordinances.

Rule 46. An exhibitor or concessionaire shall obey and conform to the fire prevention ordinances of the city of Detroit which pertain to exhibits and concessions. Copies of these ordinances shall be available in the space utilization section at the administration building. The licensee shall agree to obey immediately any order or regulation by either the fire marshal or the general manager regarding fire protection and fire hazards.

History: 1954 ACS 61, p. 11, Eff. Feb. 16, 1970.

R 291.347 Reduced rate admission tickets.

Rule 47. An exhibitor or concessionaire is not entitled to any free admissions. He may obtain reduced rate admission tickets, at a rate prescribed by the commission. A refund shall not be made for unused tickets.

History: 1954 ACS 61, p. 11, Eff. Feb. 16, 1970.

R 291.351 Parking area and permits.

Rule 51. A parking area shall be established for commercial and concession licensees. Parking permits may be purchased by licensees at the prevailing rate established by the commission. A refund shall not be made for permits purchased. A permit shall grant the licensee 1 general admission for the fair.

History: 1954 ACS 61, p. 11, Eff. Feb. 16, 1970.

R 291.352 Vehicles.

Rule 52. (1) On the opening day of the fair, and at all times thereafter, exhibitor and concessionaire vehicles shall display a commercial sticker issued by the general manager, shall enter the fairgrounds through the service gate designated by the general manager, and shall be subject to inspection by designated officers.

(2) During the fair all vehicles servicing exhibits and concessions shall enter the grounds through the designated service gate. Such vehicles may be used to service and supply exhibits and concessions up to 10:00 a.m. daily, at which time the vehicles shall leave the fairgrounds proper and return to exhibitor or concessionaire parking lots or leave the grounds. Failure to comply with this rule shall result in the vehicle being towed away and consistent failure to comply shall be cause for cancellation of the license issued by the commission.

History: 1954 ACS 61, p. 12, Eff. Feb. 16, 1970.

R 291.353 Mailing lists.

Rule 53. An exhibitor or concessionaire who desires to acquire mailing lists during the period of the fair shall submit in writing a description of the purpose for the list and the method he proposes to use in acquiring the list. The licensee shall not attempt to acquire a mailing list of fair patrons by any method or scheme until and unless the licensee has received written permission of the general manager.

R 291.354 Advertising and selling.

Rule 54. (1) An exhibitor or concessionaire shall not advertise or sell any product from the space allotted to him for any company not specified on his license.

(2) An exhibitor or concessionaire shall distribute handbills or other advertising matter only from within the confines of his licensed premises.

(3) A commerical exhibitor's or concessionaire's solicitors will not be allowed walking privileges, but shall remain in their licensed space.

(4) Retail selling with or without over the counter delivery of any item is not allowed, except when such privilege has been specifically applied for and approved in accordance with the rules. The licensee shall furnish pictures or other evidence identifying the articles for which the retail sales privilege is asked when requested by the general manager.

History: 1954 ACS 61, p. 12, Eff. Feb. 16, 1970.

R 291.355 Give-aways.

Rule 55. (1) An exhibitor or concessionaire shall obtain from the general manager written permission to distribute give-aways which shall be evidenced by official approval on the face of the exhibitor's or concessionaire's license. This authorization shall be applied for during the time when the space agreement is being negotiated, and not later than 2 weeks before the opening of the fair.

(2) Advertising give-aways shall not be distributed by an exhibitor or concessionaire which may conflict with any type of concession for which a license has been granted.

History: 1954 ACS 61, p. 12, Eff. Feb. 16, 1970.

R 291.356 Prices.

Rule 56. The general manager reserves the right to make adjustments in retail and wholesale prices. If in the opinion of the general manager, a retail or wholesale concessionaire fails to justify as reasonable the prices which he is charging for merchandise, the general manager may adjust such prices.

History: 1954 ACS 61, p. 12, Eff. Feb. 16, 1970.

R 291.357 Sound and noise.

Rule 57. (1) A voice amplifier, musical instrument, radio or other similar device for the purpose of attracting attention to an exhibit or concession shall be used with discretion.

(2) Undue noise from the operation of an exhibit or concession, or noisy or objectionable methods employed in sales or demonstration activities shall not be tolerated. An exhibitor or concessionaire shall have an equal opportunity to conduct his own demonstrations without interference from his neighbors. The final decision of what constitutes undue noise or objectionable methods shall be made by the general manager.

History: 1954 ACS 61, p. 12, Eff. Feb. 16, 1970.

R 291.358 Cleaning.

Rule 58. An exhibitor or concessionaire shall sweep refuse from his premises into the building aisles or onto the streets from 10 p.m. to 11 p.m. each night. Fair clean-up personnel will sweep this refuse from commercial buildings and areas adjacent to concession stands each night after the buildings and streets are emptied. Fair clean-up personnel are forbidden to enter the exhibitor's booths within buildings or concession stands.

R 291.359 Fraud and misrepresentation.

Rule 59. The commission shall guard against any form of fraud practiced on patrons of the fairgrounds. Willful and intentional misrepresentations or false advertising shall result in expulsion of the licensee, concessionaire, or lessee from the fairgrounds, and forfeiture of his contract and fees without recourse.

History: 1954 ACS 61, p. 13, Eff. Feb. 16, 1970

R 291.360 Fair officers' and employees' interest in concession licenses.

Rule 60. An officer or employee in any division, department, or section of the fair shall not have a concession license, or any interest or connection with any concession license operated on the fairgrounds. If such an interest or ownership is discovered, the concession license shall be cancelled, all money paid on the license shall be forfeited without recourse, and the employee shall be dismissed.

History: 1954 ACS 61, p. 13, Eff. Feb. 16, 1970

R 291.363 Release and removal of exhibits and stands.

Rule 63. (1) An exhibitor or concessionaire shall arrange for the removal of his exhibits and stands under his own supervision. An exhibit, stand, or any part thereof shall not be removed before the close of the fair without written permission of the general manager.

(2) As a protection to exhibitors and concessionaires, fair releases shall be required for all material taken from the fairgrounds at the end of the fair. Releases shall be distributed by the space utilization section at the designated fair closing time and after distribution will be approved by the space utilization section up to 12:00 midnight on the final night of the fair and during regular office hours on days after the close of the fair.

(3) Trucks, cars, or any type of vehicle shall not be allowed on the fairgrounds to pick up exhibits and stands until 2 hours after discontinuing sale of admission tickets on the final day of the fair.

History: 1954 ACS 61, p. 13, Eff. Feb. 16, 1970.

R 291.365 Prohibition of sales or displays.

Rule 65. The licensee covenants to sell, handle, serve, display, or exhibit only such articles as are specified on the license, and only from and upon the space assigned, provided that the general manager may forthwith prohibit the display, sale, or giving away of any item which he considers to be endangering public health, safety, or morals. The licensee agrees to comply immediately with such a ban. The licensee may, within 24 hours, file a written request for a review of the general manager's decision by the director. The sale of the item shall not be permitted until and unless the decision of the general manager is reversed by the director.

History: 1954 ACS 61, p. 13, Eff. Feb. 16, 1970.

FOOD CONCESSIONS

R 291.372 Restaurant and grabstand seating.

Rule 72. A restaurant may seat patrons on stools, at a counter, or in chairs at a table. A grabstand may be without seating facilities, or may seat patrons on stools at a counter, or in chairs alongside the stand.

History: 1954 ACS 61, p. 13, Eff. Feb. 16, 1970.

R 291.373 Food concession equipment.

Rule 73. (1) A food concession dispensing food or drink shall be equipped with available hand washing facilities on the immediate premises for its employees. Individual towels and soap shall be provided at all times by the licensee.

(2) A food concession stand shall have adequate mechanical refrigeration space, as determined by the general manager and the department of agriculture food inspectors.

History: 1954 ACS 61, p. 13, Eff. Feb. 16, 1970.

R 291.374 Restaurant equipment.

Rule 74. A restaurant shall have a 2-compartment sink so that dispensing dishware and cooking utensils may be washed, rinsed and sterilized in accordance with state and city health requirements. A restaurant shall have a gas or electric water heater of sufficient size to insure an adequate supply of hot water to meet state and city health requirements.

History: 1954 ACS 61, p. 13, Eff. Feb. 16, 1970.

R 291.375 Garbage control.

Rule 75. A food concession licensee shall furnish a minimum of 2 20-gallon garbage cans with tops. A restaurant licensee shall furnish a sufficient number of garbage cans as designated by the fair management. Appropriate can liners or bag liners shall be furnished by the licensee and shall be used in all garbage cans. When these are filled they shall be promptly removed, closed securely, neatly piled for pick-up in a given area, and a new liner inserted. The fair shall provide garbage pick-up each day.

History: 1954 ACS 61, p. 14, Eff. Feb. 16, 1970.

R 291.377 Food purchases by retail concession licensees.

Rule 77. (1) A retail concession licensee shall buy food from wholesalers who have been granted exclusive licenses. If the food is a specialty item not obtainable through a licensed wholesale purveyor under the terms of his contract the general manager or his authorized representative may permit arrangement for its procurement elsewhere.

(2) A concession licensee who brings food on the fairgrounds without permission of the general manager shall have his concession license revoked and forfeit his license fees without recourse.

History: 1954 ACS 61, p. 14, Eff. Feb. 16, 1970.

R 291.378 State department of agriculture regulation.

Rule 78. R 285.514.1, governing the cooking, dispensing, and sale of foods and beverages, shall be strictly enforced. Failure to comply with this rule and other applicable rules and regulations are grounds for cancellation of a food concession license. Detailed copies of R 285.514.1 shall be available at the space utilization office.

History: 1954 ACS 61, p. 14, Eff. Feb. 16, 1970.

R 291.379 Food service containers.

Rule 79. A food concession licensee shall serve soft drinks to customers in paper cups. Dishes and eating utensils used by the public shall be disposable and of a single service variety.

History: 1954 ACS 61, p. 14, Eff. Feb. 16, 1970.

R 291.380 Additional health regulations.

Rule 80. A food licensee may be subject to additional health regulations which are deemed necessary by the state and city health authorities. He shall be notified of any such additional regulations.

History: 1954 ACS 61, p. 14, Eff. Feb. 16, 1970.

R 291.381 Posted price lists.

Rule 81. A food concessionaire shall post price lists on cards furnished by the fair in a conspicuous place on his stand.

History: 1954 ACS 61, p. 14, Eff. Feb. 16, 1970.

R 291.383 Enforcement of health, sanitation, and food laws.

Rule 83. Any licensee who sells or dispenses food products or beverages hereby expressly agrees that the general manager may close the licensee's place of business or expel such licensee, his or its agents, servants, and employees from the fairgrounds, with forfeiture of all license fees, should such licensee, after being duly warned by the general manager, receive a notice of a violation of health, sanitation, or food laws by appropriate governmental representatives. The licensee may appeal the closing of his place of business or his expulsion by filing a written request for a review of the decision of the general manager by the director, but his place of business shall not be permitted to operate until and unless the director has reversed the decision of the general manager.

History: 1954 ACS 61, p. 14, Eff. Feb. 16, 1970.

PART 3. AGRICULTURAL EXHIBITORS AT FAIR

R 291.391 Qualifications.

Rule 91. Competition in all departments is open to the world unless otherwise specified. An animal entered in the Michigan exhibitors' classes shall be owned and exhibited by a resident of the state of Michigan. State and public institutions may compete for premiums.

History: 1954 ACS 61, p. 14, Eff. Feb. 16, 1970.

R 291.392 Special offers.

Rule 92. The commission is not responsible for payment of special offers by various associations and individuals. The general manager, however, shall furnish the various associations necessary lists of winning state fair exhibitors upon request.

History: 1954 ACS 61, p. 14, Eff. Feb. 16, 1970.

R 291.393 Entries.

Rule 93. (1) Application for entries in all departments shall be made by an exhibitor by use of the printed form provided by the fair for that purpose. The exhibitor, by signing the form, agrees to comply with the provisions printed upon it and in the premium list. Applications for stalls and pens shall be sent directly to the Michigan State Fair, Detroit, Michigan 48203, at the time entries are made.

(2) Entries in the departments shall close on the dates listed for those departments in the premium book or at such time as all available space has been allotted. Entries shall not be accepted thereafter unless the time is extended by appropriate action of the director.

(3) A question as to the propriety or right of an animal or article to compete in any class shall be submitted to the general manager for determination.

History: 1954 ACS 61, p. 15, Eff. Feb. 16, 1970.

R 291.394 Entrance fees.

Rule 94. An entrance fee, as stated both in the premium book under each of the several departments and on the forms for applying for entries, shall be charged the exhibitor in each department and shall be paid at the time of applying for entries. Fees shall not be refunded for animals entered but not exhibited, except where the request for refund is presented in writing with the exhibitor's reason for such request, and which is accepted by the director.

History: 1954 ACS 61, p. 15, Eff. Feb. 16, 1970.

R 291.395 Action on entries.

Rule 95. The director reserves the right to refuse, to accept conditionally, or to cancel any entries and awards of a prize for justifiable cause without claim for damages. Cancellations or additional entries shall not be permitted after closing dates, unless the director determines that there are justifiable grounds for such action.

History: 1954 ACS 61, p. 15, Eff. Feb. 16, 1970.

R 291.397 Placing of exhibits.

Rule 97. Exhibits in each department shall be in place for exhibition at the time specified in the printed provisions of each department. Exhibitors arriving late shall be excluded from exhibition, except in case of exhibitors coming directly from other fairs with advance written permission of the general manager.

History: 1954 ACS 61, p. 15, Eff. Feb. 16, 1970.

R 291.398 Failure to exhibit.

Rule 98. An exhibitor who fails or refuses to exhibit an animal or article for any reason which proves unsatisfactory to the general manager shall forfeit all fees and rents paid by him, as well as premiums won by earlier exhibits. The general manager may order the exhibitor to vacate such stalls or pens and remove such animals from the fairgrounds.

History: 1954 ACS 61, p. 15, Eff. Feb. 16, 1970.

R 291.399 Protection of exhibits; risk of loss.

Rule 99. The commission will use diligence to protect livestock and articles entered for exhibition or display after their arrival on the fairgrounds. However, the state of Michigan, its officers, agents, and employees are not liable for loss, injury, or damage to such livestock or articles for any reason whatever.

History: 1954 ACS 61, p. 15, Eff. Feb. 16, 1970.

R 291.401 Superintendent's duties.

Rule 101. (1) A superintendent shall have charge of the department to which he is assigned, and shall be responsible for assignment of space and showing of the exhibits, and other related activities.

(2) A superintendent shall direct the calling of classes for judging in accordance with the printed program as far as practicable and shall see that the judges report fully upon each animal or article exhibited in each class.

(3) A superintendent shall see that the numbers representing awards are correctly entered on the award sheets, check all numbers, have each book signed by the judge and ring clerk and affix his signature and date, and when completed shall return the book to the entry office.

(4) All such duties shall be performed under the direction of the general manager.

History: 1954 ACS 61, p. 15, Eff. Feb. 16, 1970.

R 291.402 Judges; self-interest, objections.

Rule 102. (1) No person shall act as judge in any class in which he may be interested as an exhibitor, agent, or employee of an exhibitor, or otherwise. In such a case the general manager shall remove the interested judge and substitute another judge for that specific class.

(2) Objections to a person serving as judge shall be submitted to the superintendent in writing, prior to the making of an award, giving good and sufficient reasons therefor. The superintendent shall refer this to the general manager who shall resolve the problem arising from the objection.

History: 1954 ACS 61, p. 15, Eff. Feb. 16, 1970.

R 291.403 Judges; duties; decisions.

Rule 103. (1) Judges shall report to the superintendents at their headquarters at the time fixed for awarding premiums on the lots which they are to judge.

(2) If a judge has good reason to believe that an exhibitor, by false entry or otherwise, attempts to deceive the judge or the public to obtain a premium by misrepresentation, he shall report the facts immediately to the superintendent. The superintendent shall report immediately to the general manager for a determination of the eligibility of the exhibitor to show the animal or article involved.

(3) The decision of the judges shall be final, and no appeal shall be considered except in the case of formal protests.

History: 1954 ACS 61, p. 16, Eff. Feb. 16, 1970.

R 291.404 Premiums.

Rule 104. (1) Judges' books only shall be used as evidence for payment of premiums. Ribbons and tags are not accepted for this purpose.

(2) An exhibitor who insults a judge in any manner, or influences another person to do so, shall be reported to the general manager by the judge or the superintendent. The general manager may order that the exhibitor shall forfeit all premiums and be excluded from exhibiting all his animals or articles.

(3) The commission may prorate the premium money in a department or section of a department within the total amount allocated to such department or section.

History: 1954 ACS 61, p. 16, Eff. Feb. 16, 1970.

R 291.405 Formal protests.

Rule 105. (1) A formal protest by an exhibitor shall be made in writing to the general manager accompanied by affidavit setting forth the grounds for protesting. A formal protest against an exhibition of either animals or articles shall be filed at least 24 hours before the awards are made and the general manager shall hear such protest and immediately recommend action to be taken by the director before the showing. A formal protest against an award shall be filed within 6 hours after the award is made and shall be considered by the general manager. Parties interested will be duly notified and opportunity given them to submit evidence before a final decision in accordance with a procedure established by the director.

(2) A person making a formal protest shall deposit a sum of money equal to the amount of the premium involved but not to exceed $25.00. If the protest is sustained the deposit shall be returned to the complainant, and, if it is not sustained, the deposit shall be forfeited.

History: 1954 ACS 61, p. 16, Eff. Feb. 16, 1970.

R 291.406 Fraud.

Rule 106. The commission reserves the right to take cognizance of fraud which may have been consummated or attempted, and may deal with any person implicated therein in such manner as it deems just and proper.

History: 1954 ACS 61, p. 16, Eff. Feb. 16, 1970.

R 291.409 Release of exhibits.

Rule 109. (1) The release time of exhibits is specified in the provisions listed in the premium book at the beginning of each department's section. An exhibitor removing an animal or article before the hour of release for that department without written permission of the general manager shall forfeit all fees paid and all premiums and awards won.

(2) The general manager may change the time of release in any department at his discretion.

(3) If any exhibitor requests an early release for the sole purpose of entering another fair, the general manager shall receive from such other fair an official confirmation advising the acceptance of entries and stating the dates of judging. This confirmation shall be made available to the general manager no later than the opening day of the Michigan state fair.

History: 1954 ACS 61, p. 16, Eff. Feb. 16, 1970.

R 291.413 Rules; interpretation; violation.

Rule 113. (1) The general manager shall interpret the meaning and application of rules in this part. A request for an opinion, either by an exhibitor or judge, shall be made in writing and returned to the entry office with the award books.

(2) The disregarding or violating of any rule in this part by an exhibitor shall result in forfeiture of all premiums, rights and privileges without recourse.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

ANIMALS

R 291.421 Failure to occupy stalls and pens.

Rule 121. An exhibitor reserving stalls or pens and not occupying them on or before the time specified for the animals to be in place, as listed in the first 8 departments in the general premium book and horse show book, forfeits the entry and stall or pen fees, and the stall or pen is subject to reassignment.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

R 291.422 Livestock health certificates.

Rule 122. Cattle, sheep, horses, goats, and swine are not permitted on the grounds unless the health certificates for the animals have been approved by the state veterinarian or his assistant.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

R 291.423 Pictures of former champions.

Rule 123. Pictures of the latest fair champions may be printed in the premium book only if such pictures are furnished by the exhibitor and are forwarded to the state fair not later than January 1 of the year of the fair.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

R 291.424 Vehicles of livestock exhibitors.

Rule 124. (1) A parking area is provided for exhibitors of horses, cattle, sheep, and swine.

(2) Livestock exhibitors shall remove all vehicles from the area adjacent to buildings as soon as the unloading of animals and supplies is completed.

(3) Vehicles shall be parked in designated areas.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

R 291.425 Care of stalls and pens.

Rule 125. An exhibitor shall keep his stalls and pens clean and well bedded. In case of failure to do so, the superintendent may have this done and have the cost charged to the exhibitor.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

R 291.426 Feed and bedding.

Rule 126. The commission shall furnish all feed for poultry, pigeons, rabbits, and cavies and also the first bedding for all livestock.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

R 291.427 Purebred animal registry numbers.

Rule 127. Entry clerks shall ascertain the name and registry number of all animals shown in purebred classes, and these shall be shown on the judges' report sheets before payment of premiums will be made.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

R 291.428 Delay in showing.

Rule 128. The superintendents of livestock departments may exclude any animal from all competition if there is unnecessary or embarrassing delay by the exhibitor in bringing the animal into the show ring.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

R 291.429 Substitution.

Rule 129. An animal in the same class may be substituted by an exhibitor if the substitution is made 24 hours before the breed of animals is scheduled to be judged, and if the animal to be substituted was owned by the exhibitor at the time entries closed. The substitution shall be made and recorded at the entry office before such deadline.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

PART 4. COMMUNITY ARTS EXHIBITORS AT FAIR

R 291.441 Qualifications for exhibitors.

Rule 141. (1) Competition in the community arts section is open to residents of Michigan only and the exhibit shall be the work of the exhibitor and shall be shown in his name.

(2) A person who teaches a home craft may not make an entry in that particular craft.

(3) An exhibitor of flower arrangements and table settings shall not be engaged in any manner in the field of horticulture commercially.

(4) An employee in the community arts section may not exhibit an article in this section directly or indirectly.

History: 1954 ACS 61, p. 17, Eff. Feb. 16, 1970.

R 291.442 Qualifications for exhibits.

Rule 142. (1) Entry may be made in each class listed, but an exhibitor may be limited as to the number of classes she may enter.

(2) Specific provisions for making entries shall be printed in the annual premium list for the community arts section.

History: 1954 ACS 61, p. 18, Eff. Feb. 16, 1970.

R 291.443 Works of art.

Rule 143. Entry of a work of art in each class may be allowed by each artist, but it shall be one not previously shown at the Michigan state fair. The general manager may reject an entry which is objectionable, unsuitable in size, or fragile.

History: 1954 ACS 61, p. 18, Eff. Feb. 16, 1970.

R 291.449 Judging of exhibits.

Rule 149. (1) Competent judges shall be selected and their decision shall be final.

(2) In the absence of competition in a class, if an article exhibited is inferior in quality or unworthy, the judges shall award a prize or ribbon only where the entered article merits an award.

History: 1954 ACS 61, p. 18, Eff. Feb. 16, 1970.

R 291.450 Formal protests.

Rule 150. A formal protest by a community arts exhibitor shall be made in writing within 24 hours of the opening of the fair to the general manager, accompanied by an affidavit setting forth the grounds for protesting. The general manager may make his recommendation to the director for decision in accordance with the procedure established by the director.

History: 1954 ACS 61, p. 18, Eff. Feb. 16, 1970.

PART 7. NON-FAIR LESSEES AND LICENSEES

R 291.471 Qualified groups.

Rule 171. The general manager, subject to the approval of the director, may permit the use of the fairgrounds or buildings, or both, by the following groups:

(a) A nonprofit organization incorporated under the statutes and regulated by the department of treasury.

(b) A recognized civic, fraternal, educational or religious group when the net profits revert to the group and not to an individual.

(c) An industrial corporation or organization for displays of educational nature, but not for manufacturing purposes.

(d) A commercial organization for product displays and sales.

(e) A profit-seeking organization for the staging of events, activities, or programs compatible with the adaptability of the facilities to such usage, if such events, activities, or programs will not interfere with the staging of the fair.

History: 1954 ACS 61, p. 18, Eff. Feb. 16, 1970.

R 291.472 Leasing and licensing procedures.

Rule 172. (1) The procedures hereinafter described in this rule govern the leasing, licensing, or conceding of the buildings and grounds, or parts thereof, for purposes other than the fair.

(2) The general manager may lease, license, or concede the use of the building and grounds, or parts thereof, for non-fair purposes in accordance with policies established by the commission, subject to the approval of the director.

(3) An applicant for such usage shall file a request indicating the nature of the event and the facilities and dates desired.

(4) Upon issuance of the buildings and grounds license, a sum designated by the general manager shall be deposited. The balance of the rental shall be paid 14 days before the event.

(5) A licensee, lessee, or concessionaire shall present to the general manager, 10 days before the property is to be utilized by him, a certificate of insurance in the amount stated on the license agreement as evidence of protecting himself and holding the state of Michigan, its officers, agents, and employees harmless from any liability.

(6) An agreement for such usage falling within the policies of the commission shall be executed by the director or the general manager as determined by the director.

(7) A renter, lessee, licensee, or user of the buildings and grounds shall abide by the provisions prescribed on the license agreement and by the rules and regulations of the department of agriculture, fairs division.

History: 1954 ACS 61, p. 18, Eff. Feb. 16, 1970.

R 291.473 Rent and utility charges.

Rule 173. A rental charge, established by the commission, may be made for use of the buildings or grounds. All lessees and licensees shall pay for utilities, fuel used for heating purposes, and such other services furnished by the state fair maintenance staff and determined to be reimbursable by the general manager.

History: 1954 ACS 61, p. 19, Eff. Feb. 16, 1970.

R 291.475 Concession rights and parking.

Rule 175. (1) The commission retains all concession rights, unless specifically granted to a lessee or licensee. If the lessee or licensee is granted concession rights, the lessee or licensee shall supervise his own concessions or the contracts for the same.

(2) The parking privilege shall remain the exclusive domain of the commission.

History: 1954 ACS 61, p. 19, Eff. Feb. 16, 1970.

R 291.476 Compliance with laws and ordinances.

Rule 176. A lessee or licensee shall comply with all laws of the state of Michigan, and health, fire, and pertinent ordinances of the city of Detroit and the state of Michigan.

History: 1954 ACS 61, p. 19, Eff. Feb. 16, 1970.

R 291.478 Cancellation by building licensee.

Rule 178. A building licensee shall forfeit all advance rental payments if he requests cancellation of his license at any time later than 30 days before the scheduled event.

History: 1954 ACS 61, p. 19, Eff. Feb. 16, 1970.

R 291.479 Structural changes and advertising.

Rule 179. A lessee or licensee shall discuss with, and secure written approval of, the fair management before electrical wiring, decorations, partitions, or other structural changes are made in any of the rented buildings or grounds, and before posting signs, posters, and other advertising on the fair premises.

History: 1954 ACS 61, p. 19, Eff. Feb. 16, 1970.

R 291.480 Cancellation by building licensor.

Rule 180. The director may cancel any license agreement or lease, upon recommendation of the general manager, for violation of the provisions of the license agreement or lease.

History: 1954 ACS 61, p. 19, Eff. Feb. 16, 1970.

PART 9. HEARINGS

R 291.491 Requests.

Rule 191. An interested party in a contested matter in order to request a hearing shall submit in writing to the commission a comprehensive statement of the complaint.

History: 1954 ACS 61, p. 19, Eff. Feb. 16, 1970.

R 291.492 Notices and location.

Rule 192. Notice of a hearing before the commission or its designated representative shall be given by registered mail, and shall state the date, hour, place, issues involved, and reasons for holding the hearings. The notice shall be mailed at least 10 days prior to the hearing. Unless indicated otherwise, a hearing shall be held at the Michigan State Fairgrounds, Detroit, Michigan.

History: 1954 ACS 61, p. 19, Eff. Feb. 16, 1970.

R 291.493 Appearances and defaults.

Rule 193. An appearance shall be made in person, by a duly authorized representative, or by counsel. If a person who has been served with a notice of hearing fails to appear at a noticed hearing, the hearing officer may proceed with a hearing of the matter brought before it, and on the evidence presented may make its decision.

History: 1954 ACS 61, p. 19, Eff. Feb. 16, 1970.

R 291.494 Adjournments and continuances.

Rule 194. A hearing shall not be adjourned or continued, except upon order of the commission or its agent conducting the hearing. A motion or request for an adjournment or a continuance shall be in writing and state concisely the reasons why an adjournment or continuance is necessary. The motion or request shall not be considered unless it is filed with the commission at least 3 days before the date assigned for the hearing, except upon order of the commission, which exception shall be granted only upon a showing that, for reasons not within the control of the person making the motion or request, the motion or request could not be filed within the time limit.

History: 1954 ACS 61, p. 19, Eff. Feb. 16, 1970.

R 291.495 Depositions.

Rule 195. A deposition shall only be taken upon written permission of the commission where it is proved in writing to the commission that it is impractical or impossible to otherwise obtain the evidence. A deposition shall be taken according to the general court rules for taking depositions in civil cases in the state of Michigan, with all parties being given an opportunity to cross-examine the witness under oath.

History: 1954 ACS 61, p. 20, Eff. Feb. 16, 1970.

R 291.496 Answers, briefs, and arguments.

Rule 196. A person who has been served with a notice of hearing may file a written answer thereto before the date set for hearing, or at the hearing may appear and present an oral statement on the charges contained in the notice of hearing. When written briefs or arguments are presented, a copy shall be served on the general manager, who will accept service on behalf of the commission, and upon opposite parties, at least 4 days before the date set for the hearing.

History: 1954 ACS 61, p. 20, Eff. Feb. 16, 1970.

R 291.497 Stipulations.

Rule 197. The parties to any hearing, by a stipulation in writing filed with the commission, may agree upon any portion of the facts involved in the controversy, which stipulation shall be regarded and used as evidence at the hearing. Parties are requested to agree upon the facts when practicable.

R 299.252 Notice of public hearings.

Rule 2. (1) Notice of public hearings to be held before the supervisor and the advisory board pertaining to specific areas or fields within the state shall be sent to all interested persons known to the supervisor by mailing in the usual manner to the last known post office address of said persons, and by the publishing of said notice, at least 10 days before the date of the hearing specified, in a newspaper of general circulation in the county or counties in which the designated areas or fields are located, and in the oil and gas news published at Mt. Pleasant, Michigan. Affidavits of mailing and publishing of said notice shall be filed with the supervisor.

(2) Notice of public hearings to be held before the supervisor and the board for the purpose of adopting, amending, or supplementing the general regulations shall be sent to all interested persons known to the supervisor, by mailing in the usual manner to the last known post office address of such persons, and shall be published at least 10 days before the date of such hearing in the state journal published at Lansing, Michigan, and in the oil and gas news, published at Mt. Pleasant, Michigan. Affidavits of the mailing of such notice and of the publication shall be filed with the supervisor.

History: 1944 ACS 17, p. 5; 1954 AC, p. 1924.

R 299.253 Time and place of public hearings.

Rule 3. (1) Public hearings before the supervisor of wells and the advisory board are to be held whenever the supervisor or the board find that such hearings are necessary, and shall be held at such time and place as may be designated by the supervisor.

(2) Four members of the board shall constitute a quorum.

History: 1944 ACS 17, p. 5; 1954 AC, p. 1924.

R 299.254 Order of business.

Rule 4. Items of business upon which testimony and evidence are to be received by the supervisor and the board at public hearings are to be considered as follows:

(a) Calling meeting to order and reciting notice.

(b) Recitation of order of business.

(c) Receiving oral or written testimony and evidence from interested persons or their representatives.

(d) Stenographic or verbatim records will be made of all hearings.

History: 1944 ACS 17, p. 5; 1954 AC, p. 1924.

R 299.255 Adjournment of public hearings.

Rule 5. Public hearings before the supervisor and the board may be adjourned from time to time, within the discretion of the supervisor and the board, until all required testimony has been submitted and the supervisor and the board believe that all pertinent data or adequate information have been received and heard.

History: 1944 ACS 17, p. 5; 1954 AC, p. 1924.

R 299.256 Record of proceedings.

Rule 6. The record of the proceedings of all public hearings will be kept by the supervisor.

History: 1944 ACS 17, p. 5; 1954 AC, p. 1924.

R 299.257 Modification of and additions to rules.

Rule 7. The supervisor, after consultation with the board, will, from time to time, amend, modify, or add to these rules and adopt such additional rules as may be deemed necessary.

History: 1944 ACS 17, p. 5; 1954 AC, p. 1924.

R 299.258 Publication of rules.

Rule 8. These rules shall be published within 30 days after adoption and thereafter as amended in the oil and gas news published at Mt. Pleasant, Michigan.

History: 1944 ACS 17, p. 5; 1954 AC, p. 1925.

FORESTRY DIVISION

COMMERCIAL FORESTS

R 299.261—R 299.275 Rescinded.

History: 1954 AC, pp. 1925-1927; rescinded 1954 ACS 69, p. 47, Eff. Nov. 30, 1971.

SALE OF STATE LAND

R 299.281—R 299.291 Rescinded.

History: 1944 AC, p. 169; 1954 AC, pp. 1927-1929; rescinded 1954 ACS 92, p. 16, Eff. Aug. 4, 1977.

PARKS DIVISION

HUNTING RESTRICTION—HIGHLAND AND WATERLOO RECREATION AREAS

R 299.291a Hunting restriction; Highland recreation area.

Rule 1. It shall be unlawful to hunt, shoot, or kill, or attempt to hunt, shoot, or kill, any wild bird or wild animal with a firearm, or to discharge a firearm on land under the jurisdiction of the parks division with the exception of duck hunting on Teeple Lake during the legal season, described as follows: all land in the E half of section 24 lying south of highway M-59, T3N, R7E, Highland township; all land in section 19; all land in section 30 lying west of Ford road and east of Teeple Lake road; and that part of the NW quarter of the NE quarter of section 31 lying north and west of Teeple Lake road, T3N, R8E, White Lake township, all in Oakland county.

History: 1954 ACS 80, p. 12, Eff. Sept. 12, 1974.
Editor's note: R 299.291a was formerly numbered R 299.291, but has been renumbered to avoid conflict with another R 299.291.

R 299.292 Hunting restriction; Waterloo recreation area.

Rule 2. It shall be unlawful to hunt, shoot, or kill, or attempt to hunt, shoot, or kill, any wild bird or wild animal with a firearm, or to discharge a firearm on land under the jurisdiction of the parks division described as follows: the SE quarter of the SW quarter of section 2, T2S, R1E, Leoni township, Jackson county.

History: 1954 ACS 80, p. 12, Eff. Sept. 12, 1974.

R 299.293 Rescission.

Rule 3. The rule entitled "Hunting restriction—Highland recreation area," approved by the conservation commission on October 10, 1963, is rescinded.

History: 1954 ACS 80, p. 12, Eff. Sept. 12, 1974.

WATERWAYS DIVISION

PUBLIC ACCESS SITES

(By authority conferred on the commission of natural resources by sections 2 and 3a of Act No. 17 of the Public Acts of 1921, as amended, and sections 9 and 252 of Act No. 380 of the Public Acts of 1965, being §§299.2, 299.3a, 16.109, and 16.352 of the Michigan Compiled Laws)

R 299.301 Definitions.

Rule 1. (1) "Designated" means listed in director's orders, posted with a sign or signs at the site, or reasonably identified for a particular use.

(2) "Proper written permission" means a written permit issued by the director of the department of natural resources or a representative authorized by the director to do so.

(3) "Camp" means the erection of a tent; the opening or setting up of a tent-type camper; the parking and occupancy of a travel or house trailer; sleeping in any type motor vehicle, sleeping bag, or in any other manner after 10:00 p.m.; or sleeping in an anchored, tied, or moored boat or floating craft of any type in waters immediately offshore of state-owned public access site lands after 10:00 p.m.

History: 1954 ACS 85, p. 12, Eff. Sept. 27, 1975.
Editor's note: Former R 299.301, deriving from 1944 ACS 27 and pertaining to use and occupancy of state lands, expired May 1, 1981

R 299.302 State public access sites; unlawful acts.

Rule 2. On state-owned public access sites, it is unlawful:

(a) To enter, use, or occupy the public access sites for any purpose when they are posted against such entry, use, or occupancy, as ordered by the director of the department of natural resources.

(b) To camp on the premises, except where specific camping sites or areas are provided and designated. Where camping is allowed, it is unlawful to camp on an individual access site for more than a total of 15 days during any calendar year, or to leave a campsite unoccupied for more than 24 hours.

(c) To park vehicles of any type in areas posted as no parking; or, where designated parking areas exist, to park vehicles of any type in an area other than the designated parking area.

(d) To enter, use, or occupy the premises during the hours of 11:00 p.m. to 4:00 a.m. daily where such closing hours are posted on the premises; or to swim, wade, bathe, or engage in any other activity when the activity is specifically prohibited by notices posted on the premises.

(e) To store or leave a boat, duckblind, ice shanty, rafts, or other property on the premises, or anchored on the adjacent bottom lands, for more than 24 hours without proper written permission. This provision does not apply to anyone lawfully occupying designated camping sites.

(f) To dispose of refuse, rubbish, trash, or garbage anywhere on the premises, except in the receptacles provided for that purpose and only if the refuse, rubbish, trash, or garbage resulted from the use of the premises.

(g) To use the premises for business or commercial purpose, or for an organized activity or special event, without proper permission.

(h) To engage in any violent, abusive, loud, boisterous, vulgar, lewd, wanton, obscene, or otherwise disorderly conduct, or to lounge, sit, or lie upon walks, roads, or paths obstructing the free passage of other persons.

(i) To post, place, or erect signs, to place or distribute advertising material, to erect a fence or barrier, to construct or occupy improvements, or enclose the lands.

(j) To destroy, damage, or remove any state property, living tree or shrub, planted grasses, or other vegetation without proper written permission.

(k) To operate a self-propelled motor or mechanically driven vehicle anywhere on the premises, except on designated roads and parking lots which are open to public use.

(l) To move, remove, destroy, mutilate, or deface posters, notices, signs, or markers of the department of natural resources or any other agency of government.

(m) To ride or lead a horse, other riding animal, or pack animal on, or to allow such animal or any animal-drawn vehicle to use or travel on, areas other than public roads or trails designated for that use without proper written permission.

History: 1954 ACS 85, p. 12, Eff. Sept. 27, 1975.

R 299.303 Penalty.

Rule 3. In accordance with section 3a of Act No. 17 of the Public Acts of 1921, as amended, being §299.3a of the Michigan Compiled Laws, a person who violates any rule, or fails to perform any act set forth in these rules, is guilty of a misdemeanor.

History: 1954 ACS 85, p. 12, Eff. Sept. 27, 1975.

PARKS DIVISION

STATE PARKS AND RECREATION AREAS

R 299.311 Rescinded.

History: 1944 ACS 29, p. 10; 1954 AC, p. 1929, expired May 1, 1961; rescinded 1954 ACS 61, p. 20, Eff. Feb. 16, 1970.

STATE PARKS AND RECREATION AREAS

(By authority conferred on the commission of natural resources by sections 2 and 3a of Act No. 17 of the Public Acts of 1921, as amended, and by sections 9 and 252 of Act No. 380 of the Public Acts of 1965, as amended, being §§299.2, 299.3a, 16.109, and 16.352 of the Michigan Compiled Laws)

R 299.321 State park and recreation lands; prohibited acts generally.

Rule 1. A person shall not commit any of the following acts in a state park or recreation area:

(a) Enter, use, or occupy state-owned lands or waters for any purposes when the lands are posted prohibiting such entry, use, or occupancy, as determined by the director of the department of natural resources.

(b) Destroy, damage, or remove state property, trees, shrubs, wildflowers, planted grasses, or other vegetation without first obtaining proper written permission. This subdivision does not apply to the picking and removal of mushrooms, berries, and edible fruits or nuts.

(c) Enter or remain in a campground, outdoor center, cabin area, or day campsite between the hours of 10:00 p.m. and 8:00 a.m. unless the person is a lawfully registered occupant. A person shall not enter or remain in a day-use area between the hours of 10:00 p.m. to 8:00 a.m. without first obtaining proper written permission.

(d) Peddle or systematically solicit business of any nature; distribute handbills or other advertising matter; post signs on any lands, waters, structures, or

property; or use such areas as a base of commercial operations without first obtaining proper written permission.

(e) Use a loudspeaker, public address system, or sound-amplifying equipment of any kind without proper written permission. Permission shall not be granted if such equipment is capable of interfering with the use and enjoyment of the park by others. A person shall not operate any motor, motorboat, motor vehicle, radio, television, phonograph, tape recorder, or any other device in such a manner as to create excessive noise that disturbs or annoys others.

(f) Engage in any violent, abusive, loud, boisterous, wanton, obscene, or otherwise disorderly conduct tending to create a breach of the peace; disturb or annoy others; loiter, sit, or lie upon walks, passages, steps, or porches thereby obstructing the free passage of others; remove, damage, or steal the property of another.

(g) Build fires except in designated places or except in stoves or grills that are approved by an authorized representative of the department of natural resources.

(h) Dump, place, throw, or leave, or cause or permit the dumping, placing, throwing, or leaving of litter in any park, recreation land, or waters, except in containers provided; deposit refuse or waste material that has originated outside a park in receptacles provided for park uses; set fire to the contents of a refuse basket or trash container; or place or burn garbage in a fire ring or stove.

(i) Store or leave a boat, fish shanty, or other property in any park or recreation area without first obtaining proper written permission. This subdivision does not apply to registered campers using campground facilties.

(j) Possess a glass container within any land or water area that is designated as a bathing beach or a land or water area that is regularly used for sunbathing, swimming, or wading.

History: 1954 ACS 22, p. 69, Eff. May 13, 1960; 1954 ACS 61, p. 20, Eff. Feb. 16, 1970; 1954 ACS 100, p. 75, Eff. Aug. 11, 1979.

R 299.322 Camping; prohibited acts.

Rule 2. With respect to state parks and recreation areas, the following provisions apply:

(a) A person shall not camp without a camping permit issued by an authorized representative of the department of natural resources. A person may camp in a designated campground or campsite only when the established fee is paid.

(b) A person shall not obtain a camping permit for use by a camping party of which the person is not a member.

(c) A noncamper shall not visit campers between the hours of 10:00 p.m. and 8:00 a.m.

(d) A person shall not walk into, or drive a vehicle into or through, a controlled camping area. This provision does not apply to registered campers and their vehicles or to persons legitimately visiting a specific, registered camper.

(e) A registered camping party shall not leave a campsite continuously unoccupied during the first 24 hours of the permit period. A campsite is considered to be occupied if at least 1 member of the registered camping party is in attendance during the nighttime hours of the initial 24-hour period.

(f) A person shall not tow a rented trailer into a campground unless the towing vehicle is a part of a registered camp.

(g) A person shall not camp for more than 15 consecutive nights in any separately administered campground in a park or recreation area between May 15 and September 15. When any camping party is required to leave a campground, it is not eligible to return until 5 nights have elapsed.

(h) A person shall not use a campground for a permanent or semi-permanent residence or as a base for the operation of a business.

(i) No more than 1 single family nor more than 4 unrelated persons shall camp on 1 campsite. For the purposes of this rule, a single family shall include a mother or father and their children. A single family may include relatives if no more than 1 shelter is used.

(j) A camper shall not leave a campsite unoccupied for more than 24 hours during the period May 15 through labor day without written permission.

(k) A person shall not allow, place, or drive more than 2 motor vehicles onto 1 campsite or into a campground, except 4 motorcycles are permitted if each is operated by a registered camper.

History: 1954 ACS 61, p. 21, Eff. Feb. 16, 1970; 1954 ACS 100, p. 76, Eff. Aug. 11, 1979.

R 299.323 Motor vehicles; prohibitions.

Rule 3. A person shall not commit any of the following acts in a state park or recreation area:

(a) Operate or park a motor vehicle except on designated roads or designated parking areas; operate a motor vehicle on a park road or parking lot at a speed in excess of 25 miles per hour, in an unsafe manner, at a speed greater than that posted, or to disobey traffic signs. When a motor vehicle is found parked in a state park or recreation area, the registration plate displayed on the motor vehicle shall constitute prima facie evidence that the owner of the vehicle is the person who parked it there.

(b) Operate a motor-driven vehicle or any motorized device, except on roads and parking lots constructed for the operation of licensed vehicles or on trail roads or areas designated for off-the-road vehicle use.

(c) Operate an unlicensed vehicle on a park road or parking lot.

History: 1954 ACS 61, p. 21, Eff. Feb. 16, 1970; 1954 ACS 100, p. 76, Eff. Aug. 11, 1979.

R 299.324 Animals; prohibited acts.

Rule 4. A person shall not commit any of the following acts in a state park or recreation area:

(a) Possess a dog or other animal unless it is under immediate control on a leash not exceeding 6 feet in length. The leash provision does not apply to a dog while used in hunting, or in field trials, or while being trained, when upon lands open to such uses.

(b) Allow a dog or other animal within a water or land area designated as a bathing beach or in any other water area used for swimming or wading; bring a dog, except leader dogs for the blind, or other animal into an enclosed park building or leave a dog or other animal unattended at any time; permit a dog or other animal to run loose or create a disturbance; or to fail to properly control a dog or other animal. Any dog found not in the possession of, or under the immediate control of, its owner or the owner's agent, or any dog creating a nuisance or disturbance, may be removed from the park.

(c) Ride, permit, or allow horses or other riding animals without written permission, except on bridle trails and in horsemen's campgrounds designated by the department of natural resources, or under proper written permission issued for field dog trials.

History: 1954 ACS 61, p. 21, Eff. Feb. 16, 1970; 1954 ACS 100, p. 76, Eff. Aug. 11, 1979.

R 299.325 Firearms and hunting; prohibited acts.

Rule 5. (1) A person shall not commit any of the following acts in a state park or recreation area:

(a) Carry or have in possession a firearm unless unloaded in both barrel and magazine; shoot an air gun, gas gun, spring-loaded gun or slingshot; or shoot with a bow and arrow, except during established hunting seasons on lands open to hunting. This subdivision does not apply to a target range or archery range officially established by the department or to an officially sanctioned field trial. A person shall not engage in target shooting except on designated shooting ranges.

(b) Hunt, trap, kill, wound, capture, or intentionally disturb any bird, animal, or other wildlife, except during established hunting and trapping seasons and on lands open to hunting or trapping. This subdivision does not apply to the possible disturbance of wildlife while lawfully training a hunting dog on lands open to hunting and trapping.

(2) The commission of natural resources may except from the provisions of this rule state parks and recreation areas or parts thereof when, in the opinion of the commission, such exception best serves the public interest.

proper written permission. If a camp location is changed during a calendar year, the new camp established shall be at least ¼ mile from the previous camp.

(c) To store or leave a boat, fish shanty, camping equipment, or other property for more than 15 days without proper written permission.

(d) To use state lands or facilities as a place to dispose of refuse, rubbish, trash, or garbage without proper written permission. This does not apply to refuse or garbage resulting from lawful uses of state lands, which shall be placed in proper receptacles or buried.

(e) To move, remove, destroy, mutilate, or deface posters, notices, signs, or markers of the department of natural resources or of any other agency of government.

(f) To post, place, or erect signs; to place or distribute advertising material; to erect a fence or barrier; to construct or occupy improvements or to enclose the lands without proper written permission.

(g) To use the lands for a business or commercial purpose without proper written permission.

(h) To destroy, damage, or remove any state property, living tree or shrub, planted grasses, or other vegetation without proper written permission. This does not apply to the picking and removal of mushrooms, berries, and other edible fruits and nuts, and those wild flowers the removal of which is not made unlawful by statute.

(i) To obstruct any road or trail in a manner that hinders public access to the lands without proper written permission.

(j) To use or operate any wheeled motorized vehicle:

(i) Where there is no visible evidence of a forest road or trail without proper written permission.

(ii) To enter or to cross any stream, except over a bridge, culvert, or similar structure, or by walking the vehicle across without power applied to the drive wheel or wheels, or as may be authorized by the director.

(iii) On forest roads, trails, or areas posted against such use or operation by the director or his authorized representative.

(iv) In organized events including but not limited to races and acceleration or endurance contests without proper written permission.

(k) To park any wheeled motorized vehicle more than 50 feet from the traveled portion of a forest road or trail open to such vehicle use or a parking lot without proper written permission.

(2) The department may charge the sponsor or permittee of any organized event a fee for the use of the land or may require a performance bond to insure cleanup measures, the removal of signs, repair of damage, and other factors, or both such fee and bond.

(3) Department employees in line of duty, emergency vehicles, public utility vehicles in performance of work functions, or persons performing specific acts authorized by proper written permission are exempt from the provisions of subrule (1)(j) and (k).

(4) The director shall use the following criteria in making closures governing use of wheeled motorized vehicles:

(a) Damage that has already occurred to soil and vegetation which should be repaired, either by the department or by the forces of nature left unhampered by use.

(b) Areas that are indispensable to the forest ecosystem.

(c) Conflict with other legitimate recreational uses or rights of adjacent land owners.

(d) Areas particularly significant to wildlife.

(5) The department will notify the advisory committee on off-road vehicle rules of an intent of closure prior to it being closed, except in an emergency.

History: 1954 ACS 25, p. 29, Eff. Feb. 14, 1961; 1954 ACS 54, p. 33, Eff. May 15, 1968; 1954 ACS 72, p. 10, Eff. June 27, 1972; 1954 ACS 76, p. 9, Eff. Aug. 10, 1973.

R 299.332 Natural resources department campgrounds; unlawful acts.

Rule 2. In addition, in designated department of natural resources administered campgrounds other than those in state parks or recreation areas, it shall be unlawful:

(a) To place any camping facilities, such as a trailer, camper, tent, or similar equipment without attaching a campground registration tag on the designated campsite marker post, or if marker post is not available, on the facilities in a prominent and accessible place or to fail to place the appropriate part of the tag, properly filled out, in a register box. The tag shall be furnished by the department of natural resources and available at the campground.

(b) To camp in other than a designated site.

(c) To camp in any 1 campground for more than a total of 15 days from May 1 to labor day, or more than 20 days from labor day to May 1, without proper written permission.

(d) To leave a campsite unoccupied during the first 24 hours after establishing the camp; residing in the camp the first night after registering constitutes occupying the campsite; or, after this initial period, to leave the campsite unoccupied by the registrant, or other person chiefly responsible, for more than 24 hours from May 1 to labor day.

(e) To store or leave a boat or other property for more than 48 hours without proper written permission. This provision shall not apply to currently registered campers using campground facilities.

(f) To build a fire, except in a designated place or in a stove or grill as approved by an authorized representative of the department of natural resources.

(g) To use a loudspeaker, public address system, or sound amplifying equipment of any kind without proper written permission; permission will not be granted if such system is capable of interfering with the use and enjoyment of the campground by other persons; or to operate a motor, motorboat, motor vehicle, radio, television, or any device in a manner that produces excessive noise.

(h) To engage in any violent, abusive, loud, boisterous, vulgar, lewd, wanton, obscene, or otherwise disorderly conduct; to disturb or annoy other persons; or to lounge, sit, or lie upon walks, roads, or paths obstructing the free passage of other persons.

(i) To deposit refuse or waste material which has originated outside a campground in receptacles provided for campground users; to set fire to the contents of a refuse basket or trash container; or to place or burn garbage in a fire ring or stove.

(j) To operate an off-the-road motor driven vehicle, such as a minibike, motorcycle, dunemobile, snowmobile, amphibious vehicle or any motorized device, except for entrance to and departure from a campground.

(k) For an unregistered camper or campground visitor to enter or remain in a campground, day use area, beach, or parking lot between 10 p.m. and 8 a.m.

(l) For more than 1 camp to occupy a designated campsite.

(m) To ride or allow horses or other riding animals in a campground.

(n) To possess a dog or other animal, unless it is under immediate control on a leash not more than 6 feet long.

(o) To discharge firearms, air guns, gas guns, spring-loaded guns, or sling shots.

History: 1954 ACS 54, p. 33, Eff. May 15, 1968; 1954 ACS 72, p. 11, Eff. June 27, 1972.

R 299.333 State game areas in zone 3; unlawful acts.

Rule 3. In addition, on state-owned lands in a state game area in zone 3, as described in section 10 of chapter 1 of Act No. 286 of the Public Acts of 1929, as amended, being §311.10 of the Michigan Compiled Laws, it is unlawful:

(a) To camp between April 1 and October 1, except in areas specifically designated for such use.

(b) To operate a self-propelled motor or mechanically driven vehicle, including snowmobiles, on other than a designated established road open to the public or a parking lot, or to park such vehicle more than 50 feet from the traveled portion of an established road open to the public or a parking lot designed for such use without proper written permission.

(c) To ride or lead a horse, other riding animal, or pack animal on, or to allow such animal or any animal-driven vehicle to use or travel on, any areas other than established public roads or trails designated for such use, without proper written permission.

(d) To pick and remove edible fruits, nuts, and berries from food shrub plantings established as part of habitat development for wildlife. This includes such shrubs as autumn olive, multiflora rose, buffalo berry, hazelnut, and sand cherry.

History: 1954 ACS 54, p. 34, Eff. May 15, 1968; 1954 ACS 72, p. 12, Eff. June 27, 1972; 1954 ACS 76, p. 9, Eff. Aug. 10, 1973.

R 299.334 Definition of terms.

Rule 4. (1) "Designated campground, road, trail, or site" means campground road, trail, or site listed in director's orders and posted with a sign.

(2) "Proper written permission" means a written permit issued by the director of the department of natural resources or a representative authorized by the director to do so.

(3) "Forest road" means any hard surfaced, gravel, or dirt roads; fire lanes; abandoned railroad rights-of-way and logging roads, except state and county highways.

(4) "Trail" means a 1- or 2-track path existing at the effective date of this rule, or one established and designated for a specific purpose, including, but not limited to, bicycles, cross-country skiing, hiking, horses, motorcycles, and snowmobiles.

History: 1954 ACS 54, p. 34, Eff. May 15, 1968; 1954 ACS 72, p. 12, Eff. June 27, 1972; 1954 ACS 76, p. 9, Eff. Aug. 10, 1973.

R 299.335 Violations.

Rule 5. A person who violates any rule or fails to perform any act set forth in these rules shall, in accordance with section 3a of Act No. 17 of the Public Acts of 1921, as amended, be deemed guilty of a misdemeanor.

History: 1954 ACS 54, p. 34, Eff. May 15, 1968; 1954 ACS 72, p. 12, Eff. June 27, 1972.

FORESTRY DIVISION

DEADSTREAM SWAMP

(By authority conferred on the commission of conservation by section 3a of Act No. 17 of the Public Acts of 1921, as amended, and by sections 9 and 252 of Act

No. 380 of the Public Acts of 1965, being §§299.3a, 16.109, and 16.352 of the Michigan Compiled Laws)

R 299.341 Area description.

Rule 1. The Deadstream swamp area includes the following described state-owned land:

Town 23 north, range 4 west—Section 4 west of Mead road; sections 5, 6, 7, and 8, entire; section 9, northwest ¼ of northwest ¼, south ½ of northwest ¼, and southwest ¼; sections 17, 18, and 19, entire; section 20, north ½; section 30, northwest ¼ west of county road.

Town 23 north, range 5 west—Sections 1 and 2, entire; section 3, north ¾ north of county road; section 11, northeast ¼; section 12, north ½; section 24, east ½ of south ¾; section 25, north ¾ of east ½.

Town 24 north, range 4 west—Sections 19, 20, 28, 29, 30, 31, and 32, entire; section 33 west of Mead road.

Town 24 north, range 5 west—Sections 22, 23, 24, 25, 26, and 27, entire; section 33, that part east of pipeline crossing in east ½ in northeast-southwest direction; section 34, that part east of pipeline; sections 35 and 36, entire.

History: 1954 ACS 51, p. 17, Eff. Aug. 15, 1967.

R 299.342 Use by motorized land equipment and motorboats.

Rule 2. From June 1, 1967, on the posted state-owned lands and marshes heretofore described:

(a) Motorized land equipment shall be confined to public roads and to department designated interior roads and parking areas, except under specific permits issued by the department of conservation.

(b) The launching of motor-driven boats from state-owned land to the impoundment shall be limited to those using 7½ brake horsepower or less.

History: 1954 ACS 51, p. 17, Eff. Aug. 15, 1967.

SPACING, DRILLING, DEEPENING, AND PLUGGING OF WELLS FOR NATURAL DRY GAS

(By authority of Act No. 326 of the Public Acts of 1937, as amended, being §319.51 et seq. of the Michigan Compiled Laws)

DRILLING

R 299.501 Permits.

Rule 1. No person shall drill, or begin the drilling of, any well for natural dry gas until the owner or his authorized representative has complied with the following requirements:

(a) Completely and accurately filled out, signed, and filed a written application on forms prescribed by the supervisor. Certification that provision has been made to furnish a derrick floor or ground elevation above sea level datum run by a registered surveyor shall accompany this applicaton. This elevation is to be filed with the supervisor within 14 days after the well is spudded.

(b) Filed a surety bond as hereinafter provided.

(c) Paid the fee required by law.

(d) Received and posted in a conspicuous place at the well location a written permit to drill the well.

History: 1954 ACS 8, p. 14, Eff. Jan. 1, 1957.

R 299.502 Transfer of permits.

Rule 2. (1) No permit is to be transferred to any other location or to any other person until the following requirements have been complied with:

(a) Should the person to whom a permit to drill a well for natural dry gas has been issued change the location prior to the drilling of the well, the permit is to be returned for cancellation, together with a new application for permission to drill, to the supervisor. No transfer fee is required but drilling is not to be started until the requested transfer has been approved by the supervisor and the new permit has been posted at the new location.

(b) Should the person who has obtained a permit to drill a well for natural dry gas dispose of his interest to a new owner before drilling is commenced, while the well is being drilled, or after it has been completed, a request for transfer of permit is to be submitted to the supervisor. The request for transfer of permit can be approved and the transfer completed only if the request has been properly prepared, including signatures by both the operator and the acquiring operator, and when the acquiring operator has filed suitable surety bond with the supervisor.

(2) No permit shall be transferred when an owner, or his authorized representative, is not complying or has not complied with the provisions of Act No. 326 of the Public Acts of 1937, as amended, or the regulations or orders issued by the supervisor or the conservation commission.

History: 1954 ACS 8, p. 14, Eff. Jan. 1, 1957.

R 299.503 Surety bonds.

Rule 3. (1) Every person, owner, or producer who drills a well for natural dry gas shall file with the supervisor, on a form approved by the supervisor, a surety bond which has been executed by a responsible surety company authorized to do business in the state of Michigan. The liability on the bond is conditioned on compliance with the law, rules, regulations, or orders of the supervisor, and it shall continue until the well, or wells, are abandoned and completely plugged and the plugging is approved by the supervisor, or his authorized representative, and all logs, plugging records, or other pertinent information required by the law, or the rules, regulations, or orders of the supervisor, have been filed with him.

(a) Should the person, owner, or producer be in default in any particular relative to the condition or conditions of the bond, the supervisor shall look to the surety for immediate compliance and fulfillment of the full conditions thereof, and all expense in connection therewith shall be paid by the principal or surety.

(b) The person, owner, or producer may file a bond for a single well in the amount of $2,000.00, or a blanket bond for all wells in the amount of $5,000.00.

(2) A bond may be terminated when an owner disposes of his well, or wells, and the permits for the said well or wells have been transferred as provided in R 299.502. The supervisor will advise the surety on any bond when its liability under a bond may be formally terminated.

History: 1954 ACS 8, p. 15, Eff. Jan. 1, 1957.

R 299.504 Approved methods of preventing waste to be used.

Rule 4. Any person drilling for or producing natural dry gas shall use every possible precaution in accordance with the most approved method to stop and prevent waste of natural dry gas, oil, or possible combinations, in drilling and producing operations.

History: 1954 ACS 8, p. 15, Eff. Jan. 1, 1957.

R 299.505 Pits for drill cuttings.

Rule 5. Drill cuttings from wells drilled for natural dry gas are to be confined by a pit, or pits, of proper size and construction and located in close proximity to the well bore.

History: 1954 ACS 8, p. 15, Eff. Jan. 1, 1957.

R 299.506 Casing and sealing off formations.

Rule 6. (1) Every person, owner, or producer who drills a well for natural dry gas, or causes such a well to be drilled, shall case and seal off each oil, gas, brine, or fresh water stratum above the producing horizon to prevent effectively the migration of oil, gas, brine, or fresh water to other strata.

(2) After completion the casing used in the drilling and completing of any well for natural dry gas is not to be pulled from the well until approval for such removal has been received from the supervisor or his representative.

(3) The drilling mud used in wells drilled with rotary equipment is to be capable of sealing off each oil, gas, brine, or fresh water stratum above the producing horizon and of preventing "blow-outs" and flows of salt or fresh water.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

Such casing and sealing off and conditioning of drilling mud shall be effected in accordance with good field practice and tested in such manner and by such methods and means as may be prescribed or approved by the supervisor or his authorized representative.

(4) The amount of material to be used, when necessary to seal off permanently any oil, gas, brine, or fresh water, shall be specified and approved by the supervisor or his authorized representative.

(5) Wells to be drilled through reservoirs being operated for secondary recovery or for gas storage shall have the casing set through such reservoirs adequately cemented. Only rotary drilling equipment shall be used, with blow-out preventer installed, while drilling through gas storage reservoirs. The cementing procedure to be followed is to be approved by the supervisor or his authorized representative.

History: 1954 ACS 8, p. 15, Eff. Jan. 1, 1957.

R 299.507 Well head equipment.

Rule 7. (1) Wells drilled for natural dry gas with cable tools shall have the innermost string of casing equipped with an adequate master valve and securely anchored before drilling into any formation known likely to contain oil or gas.

(2) Wells drilled for natural dry gas with rotary tools shall have the innermost string of casing equipped with a blow-out preventer properly installed before drilling into any formation known likely to contain oil or gas. Requests for exception to this rule may be included in the application for permission to drill or may be submitted in writing to the supervisor. Such requests may be granted when they conform with good drilling practice and when wells are located where it is known conditions are not hazardous.

History: 1954 ACS 8, p. 16, Eff. Jan. 1, 1957.

R 299.508 Steel line measurements.

Rule 8. The depth to the top of key formations shall be determined by the use of a steel measuring line or other accurate method. Drill pipe measurements may be made on wells drilled with rotary equipment.

History: 1954 ACS 8, p. 16, Eff. Jan. 1, 1957.

R 299.509 Well records.

Rule 9. Every person, owner, or producer who drills a well for natural dry gas shall keep and preserve at the well being drilled accurate records of the drilling, reworking, or deepening of the well, showing all formations penetrated, casing used, and other pertinent information as may be required by the supervisor in connection with the drilling of the well. All such information shall be available to the supervisor or his authorized representative at all times. Such records shall be protected from damage or destruction from any preventable cause.

History: 1954 ACS 8, p. 16, Eff. Jan. 1, 1957.

R 299.510 Samples of drill cuttings.

Rule 10. Every person, owner, or producer who drills a well for natural dry gas other than a known pool well shall take and preserve adequate samples, properly identified, of the drill cuttings encountered. Adequate samples of the drill cuttings shall be taken and preserved during drilling at known pool wells when requested by the supervisor or his authorized representative. These samples are to be delivered to the supervisor or his authorized representative during drilling or on completion of the well.

History: 1954 ACS 8, p. 16, Eff. Jan. 1, 1957.

R 299.511 Well log to be filed.

Rule 11. (1) Every person, owner, or producer who drills a well for natural dry gas shall file with the supervisor within 30 days after the drilling, shooting, and testing incidental to the completion of the well have been accomplished, a complete log or record of the well duly signed on forms prescribed by the supervisor. This shall be done although samples of the drill cuttings have been taken and saved.

(2) A proper log on any well should include all normally recorded information on the following:

(a) Depth to and thickness of water-bearing sands and gravels in the glacial drift, including fill-up and volumes of such water.

(b) Lithology of formations penetrated, including color, hardness, and character of rock.

(c) A record of all oil, gas, and salt waters encountered, including fill-up, volumes, and pressures.

(d) Data on drill stem tests.

(e) Generalized core descriptions.

(f) Data on perforating, acidizing, fracturing, shooting, and testing.

(3) A copy of all electric or radiation type logs, when they are run, shall be filed with the supervisor.

(4) All logs on any well may be kept confidential for a period of 90 days after completion of the well by filing a written request with the supervisor.

History: 1954 ACS 8, p. 16, Eff. Jan. 1, 1957.

R 299.512 Deepening and rework operations.

Rule 12. (1) Every person, owner, or producer who desires to deepen a well below the depth at which it was completed originally shall file an application for permission to deepen with the supervisor. The application shall set forth in detail the new proposed total depth and the plan for casing and sealing off any oil, gas, brine, or fresh water strata to be found, or expected to be found, in the deepening operation. A deepening permit is to be issued when the application has been approved by the supervisor. Actual deepening operations are not to be started until the deepening permit has been posted at the well location.

(2) Every person, owner, or producer who deepens a well shall file with the supervisor a complete log of the deepening, duly signed, on forms prescribed by the supervisor. The log or record shall be filed within 30 days after the deepening, shooting, initial acidizing, and testing have been completed. The log is to be filed even though samples of the drill cuttings have been taken and saved.

(3) Every person, owner, or producer who desires to rework a well by plugging back, converting for brine disposal, converting for secondary recovery, repressuring or flooding with gas or water, converting for use as an observation well, stripping of casing strings, multiple completion, or otherwise changing the status of a well, shall file an application for permission to rework with the supervisor. The application shall set forth in detail the kind of rework operation to be accomplished and the plan for protecting all oil, gas, brine, or fresh water strata which the well has penetrated. A copy of the application shall be mailed to all offset operators at least 10 days prior to the approval of a rework application for disposal of salt water or fluid injection into the producing formation. The rework operation may be commenced only after the supervisor or his authorized representative has approved the application.

(4) Every person, owner, or producer who changes the status of a well by rework operation shall file with the supervisor a complete well rework record on

forms prescribed by the supervisor. The well rework record shall be filed within 30 days after the final completion of the rework operation.

History: 1954 ACS 8, p. 17, Eff. Jan. 1, 1957.

R 299.513 Producing from different strata through same casing string.

Rule 13. No well shall be permitted to produce either oil or gas from different pools through the same string of casing without first receiving written permission from the supervisor. Permission shall be given only after a full and complete presentation of all the facts and reasons for so doing and when it has been shown that waste will not be committed by such production methods. Therefore, if a pool should be encountered bearing either oil or gas and it is desired to drill deeper in search of other oil or gas bearing pools, the pool first penetrated, and likewise each and every pool in turn, shall be closed and sealed separately.

History: 1954 ACS 8, p. 17, Eff. Jan. 1, 1957.

R 299.514 Location and spacing of wells.

Rule 14. The following are the requirements for the location and spacing of wells drilled for natural dry gas, except in specifically designated areas or to specific geological formations for which special location and spacing rules have been issued or may be issued in the future:

(a) The drilling unit for wells drilled for natural dry gas in Michigan shall be a 160-acre tract. The boundary lines of any such tract shall be approximately square and shall have been formed of 4 quarter-quarter sections contiguous to one another. The boundary lines of the tract shall conform to lines of governmental subdivision, allowances being made for the difference in size and shape of sections in accordance with the official survey plats of the U.S. bureau of land management. Should any well discover natural dry gas while drilling in search of oil on a tract of lesser size than 160 acres, the pooling of the necessary tracts may be commenced after such discovery is made, but before production is permitted.

(b) The location of an exploratory well (any well located 2 or more miles from any well capable of producing natural dry gas) shall be in the approximate center of the 160-acre drilling unit. The location of a development well (any well located less than 2 miles from any well capable of producing natural dry gas) shall be in the approximate center of the 160-acre drilling unit conforming to the drilling unit established by the well or wells drilled capable of producing natural dry gas.

(c) Should an application be made for a permit to drill a well for natural dry gas on a tract of land less in area than 160 acres, and lying wholly or partially within a drilling unit, the person applying for the permit shall submit a certified statement that a reasonable effort has been made to pool his lease or tract, or part thereof, with that of others to form a full drilling unit, and that such effort has failed. The certified statement shall give the names and addresses of the persons owning portions of the proposed unit, the amounts and descriptions of acreage involved, the proposals made to pool the acreage in the proposed unit, and all other pertinent data of the endeavor. The supervisor may issue a permit to drill the tract only after it has been determined that the applicant has made a reasonable effort to pool the portions of the acreage to form a regular drilling unit and that such effort has failed.

(d) Special rules for any specific natural dry gas field may be issued after a public hearing which may be called upon written application to the supervisor of wells.

History: 1954 ACS 8, p. 17, Eff. Jan. 1, 1957.

R 299.515 Drilling to completion.

Rule 15. The owner or operator of a drilling well which has been shut down for a period of at least 1 year, or if such well may be causing waste, contamination, or pollution shall, upon request of the supervisor or his authorized representative, show cause to the supervisor or his authorized representative why the well should not be considered as an abandoned well and subject to the provisions herein which apply to abandoned wells.

History: 1954 ACS 8, p. 18, Eff. Jan. 1, 1957.

PRODUCTION

R 299.521 Disposal of brine or salt water.

Rule 21. Brine or salt water produced in the drilling for or production of natural dry gas shall not be run to earthen reservoirs or ponds, except for such reasonable time and under conditions as may be approved in writing by the supervisor or his authorized representative, after which it shall be returned to some underground formation or otherwise disposed of, as approved by the supervisor, where it cannot do damage to any fresh water, oil, gas, or other minerals.

History: 1954 ACS 8, p. 18, Eff. Jan. 1, 1957.

R 299.522 Use of natural gas.

Rule 22. Natural gas in its natural state shall not be used in engines or pumps where its natural pressure is the main or direct operating force, unless the exhaust or discharge is properly conserved.

History: 1954 ACS 8, p. 18, Eff. Jan. 1, 1957.

R 299.523 Production of carbon black.

Rule 23. The production of carbon black within the state of Michigan by the process of burning natural gas is prohibited except on written approval of the supervisor.

History: 1954 ACS 8, p. 18, Eff. Jan. 1, 1957.

PLUGGING WELLS

R 299.531 Application for permission to plug.

Rule 31. (1) No person, owner, or producer shall begin to plug any well until he first shall have filed with the supervisor, or his authorized representative, an application for permission to abandon and has received permission and plugging instructions to proceed with the necessary work.

(2) The application shall give a detailed statement of:

(a) The present condition of the well, including size and lengths of all casing, amount of mud or cement used on such casings, depth to the top of all formations, depths where water, oil, or gas were encountered, total depth, and any other pertinent information.

(b) The proposed work, including the length and depth of plugs and plans for mudding, cementing, and removing casing.

(c) The equipment to be used in plugging.

History: 1954 ACS 8, p. 19, Eff. Jan. 1, 1957.

R 299.532 Starting operations.

Rule 32. Plugging operations on all dry or abandoned wells shall start within 30 days after drilling or production operations cease and shall be prosecuted with

diligence. The supervisor or his authorized representative, after having received a written request and found that the request is reasonable, may grant an extension of time for starting plugging operations.

History: 1954 ACS 8, p. 19, Eff. Jan. 1, 1957.

R 299.533 Method and material to be used in plugging.

Rule 33. (1) All oil, gas, or water shall be confined to the strata in which it occurs by the use of mud-laden fluid, cement, or a combination of both, or by some other suitable material. The amount, type, and kind of material and the method of placement shall be prescribed and approved by the supervisor or his authorized representative.

(2) Following the completion of plugging to the surface, the owner shall fill the cellar and all pits and excavations, remove or eliminate debris, and eliminate all conditions contributing to the hazard of fire or pollution. These corrective and clean-up measures are to be accomplished within 18 months after completion of the plugging to the surface.

History: 1954 ACS 8, p. 19, Eff. Jan. 1, 1957.

R 299.534 Converting abandoned well to fresh water well.

Rule 34. A well drilled for natural dry gas may be recompleted and saved as a fresh water well provided:

(a) It may be used safely as such.

(b) There will be no waste of the fresh water resource.

(c) The operator plugs the well satisfactorily to the base of the fresh water strata.

(d) The operator and property owner file on forms prescribed by the supervisor a joint request that the well be saved and converted as a fresh water well.

(e) The operator completes the fresh water well in a condition acceptable to the supervisor or his authorized representative.

(f) The property owner thereafter will accept full responsibility for the fresh water well.

History: 1954 ACS 8, p. 19, Eff. Jan. 1, 1957.

R 299.535 Plugging records to be filed.

Rule 35. Every person, owner, or producer who plugs a well shall file with the supervisor, within 30 days after the plugging work is finished, a complete record of the plugging work, signed and sworn to on forms prescribed by the supervisor.

History: 1954 ACS 8, p. 19, Eff. Jan. 1, 1957.

PREVENTION OF FIRES, POLLUTION, AND DANGER TO OR DESTRUCTION OF PROPERTY OR LIFE

R 299.541 Well locations to be cleared.

Rule 41. The area around every well drilling operation shall be cleared of brush, slash, weeds, and other inflammable material for a radius of 75 feet, using the well as the center point. The supervisor, or his authorized representative, may, if conditions warrant, approve the clearance of a smaller area, and may also require the construction of a fire line around the outer edge of the cleared area. Material resulting from the clearing operations shall be disposed of in a manner approved by the supervisor, or his authorized representative, prior to the commencement of any drilling operation.

History: 1954 ACS 8, p. 20, Eff. Jan. 1, 1957.

R 299.542 Slush pit to be filled in.

Rule 42. Slush pits and well cellars at all wells shall be filled and levelled or covered within a reasonable time after the completion of the well.

History: 1954 ACS 8, p. 20, Eff. Jan. 1, 1957.

R 299.543 Safety signs.

Rule 43. Safety signs, approved by the department of conservation, shall be posted by the operator or transportation agency in conspicuous places around each drilling operation and producing well, storage tank, and transportation facility whenever special hazards to life or property exist.

History: 1954 ACS 8, p. 20, Eff. Jan. 1, 1957.

R 299.544 Wells to be identified.

Rule 44. Every well shall be identified by a sign, posted on the derrick, if possible, and otherwise on a substantial post not more than 20 feet from such well, and signs shall be of durable construction and the lettering thereon shall be kept in good condition and shall be large enough to be legible under normal conditions at a distance of 50 feet. The wells on each lease or property shall be numbered consecutively, beginning with no. 1, unless some other system of numbering was adopted by the owner prior to the adoption of the rules and regulations. Each sign shall show the number of the well; the name of the lease (which shall be different for each lease); the name of the lessee, owner, or operator; and the location by quarter-quarter, section, township, and range.

History: 1954 ACS 8, p. 20, Eff. Jan. 1, 1957.

GAME AND LAW ENFORCEMENT DIVISIONS

LICENSING AND OPERATION OF SHOOTING PRESERVES

R 299.601—R 299.615 Rescinded.

History: 1954 ACS 13, pp. 38-40, Eff. Feb. 14, 1958; rescinded 1954 ACS 52, p. 36, Eff. Nov. 15, 1967.

SHOOTING PRESERVES

R 299.621—R 299.636 Rescinded.

History: 1954 ACS 20, pp. 11-13, Eff. Nov. 14, 1959; 1954 ACS 52, pp. 35, 36, Eff. Nov. 15, 1967; rescinded 1954 ACS 69, p. 39 Eff. Nov. 30, 1971.

SHOOTING PRESERVES

(By authority conferred on the commission of natural resources by section 10 of Act No. 134 of the Public Acts of 1957 and sections 9 and 252 of Act No. 380 of the Public Acts of 1965, as amended, being §§317.310, 16.109, and 16.352 of the Michigan Compiled Laws)

R 299.641 Shooting preserves; enclosure and contiguity.

Rule 1. Premises shall not be licensed as a shooting preserve unless they are enclosed and contained in a single block or tract of contiguous lands, except that the director of natural resources may license lands consisting of 2 or more enclosed single disconnected blocks or tracts when, in his judgment, it appears that it may be operated within the intent of the act authorizing preserves.

History: 1954 ACS 69, p. 37, Eff. Nov. 30, 1971.

R 299.642 Boundary signs.

Rule 2. The department of natural resources shall furnish boundary signs of such size and such wording as determined by the director.

History: 1954 ACS 69, p. 37, Eff. Nov. 30, 1971.

R 299.643 Fees.

Rule 3. An applicant shall pay the required fee upon filing his application.

History: 1954 ACS 69, p. 37, Eff. Nov. 30, 1971.

R 299.644 Acreage limit per county.

Rule 4. Licenses shall be limited so as not to result in total acreage licensed as shooting preserves in any 1 county being more than 1% of the gross land area of the county.

History: 1954 ACS 69, p. 37, Eff. Nov. 30, 1971.

R 299.645 Denial of licenses.

Rule 5. A license shall be denied when, in the opinion of the director, it appears probable that wild ducks or an excessive number of wild pheasants or wild bobwhite quail would be killed on the premises for which the license is applied for or when, for any other reason, the director determines that the issuance of a license is not in the public interest.

History: 1954 ACS 69, p. 37, Eff. Nov. 30, 1971.

R 299.646 Birds which may be hunted on preserves.

Rule 6. Pheasants (Phasianus), Hungarian partridges, bobwhite quail, mallard ducks and nonnative upland game birds not established in the wild in the state may be released and shot on licensed preserves. Species of waterfowl, other than mallard ducks flown from release towers or similar stations, may not be hunted or killed on the lands of a preserve licensed to shoot ducks.

History: 1954 ACS 69, p. 37, Eff. Nov. 30, 1971; 1954 ACS 76, p. 10, Eff. Aug. 11, 1973.

R 299.647 Open seasons.

Rule 7. The shooting season for the taking of pheasants (Phasianus), Hungarian partridges, bobwhite quail, and mallard ducks on licensed preserves opens on August 15 and closes on April 30. The nonnative birds specified in R 299.646 may be shot throughout the season.

History: 1954 ACS 69, p. 37, Eff. Nov. 30, 1971; 1954 ACS 76, p. 10, Eff. Aug. 11, 1973.

R 299.648 Pheasants, Hungarian partridges, and quail released before open season.

Rule 8. Pheasants (Phasianus) of either sex, Hungarian partridges, and bobwhite quail, when released not earlier than 2 weeks prior to the opening of the season, may be taken in numbers not to exceed the total number released.

History: 1954 ACS 69, p. 37, Eff. Nov. 30, 1971; 1954 ACS 76, p. 10, Eff. Aug. 11, 1973.

R 299.649 Nonnative upland game birds and mallard ducks.

Rule 9. All nonnative upland game birds not established in the wild in this state released on licensed preserves may be taken either by shooting or by recapture while on the preserve for further release purposes. All mallard ducks, properly marked, shall be flown from release towers or similar stations for pass shooting and may be taken either by shooting or by recapture while on the preserve for

further release purposes. Such ducks shall not be hunted or shot within 40 yards of a lake, stream, or pond which may be used on wild waterfowl and within 80 yards it is unlawful to shoot toward the lake, stream, or pond, and blinds shall be so constructed and arranged as to make it impossible to do so.

History: 1954 ACS 69, p. 37, Eff. Nov. 30, 1971.

R 299.650 Recapture of released pheasants, Hungarian partridges, and quail.

Rule 10. Released pheasants, Hungarian partridges, and quail may be recaptured for further release purposes by an operator anywhere on his licensed premises in any county except those located south of Muskegon, Newaygo, Oseola, Clare, Gladwin, and Arenac counties where recapturing is limited to within 50 feet of the principal bird holding pens.

History: 1954 ACS 69, p. 38, Eff. Nov. 30, 1971; 1954 ACS 76, p. 10, Eff. Aug. 11, 1973.

R 299.651 Training of hunting dogs.

Rule 11. Any person, with permission of the licensed operator, may train hunting dogs on and shoot in the training process, from July 15 to the closing dates of the respective open seasons, all species of birds permitted to be taken under authority of a shooting preserve license. Dogs being so trained or used in hunting shall be confined to the premises of the licensed area at all times.

History: 1954 ACS 69, p. 38, Eff. Nov. 30, 1971.

R 299.652 Feeding of birds in winter.

Rule 12. During the period January 1 to March 15 in each year, a licensee shall not put out, or allow or permit to be put out, on the lands included in his licensed shooting preserve any shelled or husked or unhusked corn, wheat, or other grains or feeds for the purpose of luring, attracting, enticing, or feeding any of the birds permitted to be taken under his shooting preserve license, except for the purpose of feeding on such areas and during such periods as may be authorized in writing by the director of natural resources. This rule does not include properly shocked grain, standing crops, or grains found scattered solely as a result of normal agricultural planting or harvesting, nor does it include the feeding of birds retained in captivity.

History: 1954 ACS 69, p. 38, Eff. Nov. 30, 1971.

R 299.653 Sources of birds to be released.

Rule 13. Legally protected species of birds to be released on a licensed shooting preserve or sold to nonhunters, restaurants, hotels, or clubs may be propagated and reared by a licensee as authorized by section 3 of Act No. 134 of the Public Acts of 1957, as amended, being §317.303 of the Michigan Compiled Laws, or may be lawfully procured from other sources. If the director of natural resources finds that any birds are diseased or otherwise unfit for release and notifies the operator of such findings, the operator shall not release or permit or allow the release of any such birds.

History: 1954 ACS 69, p. 38, Eff. Nov. 30, 1971.

R 299.654 Marking and banding of birds.

Rule 14. The director of natural resources may require that, before any birds are released, each of them shall be marked or have leg bands attached in a manner specified, and the operator shall maintain and furnish to the director such records and information pertaining thereto as may be required. All required bands or other marking devices shall be furnished by the director.

History: 1954 ACS 69, p. 38, Eff. Nov. 30, 1971.

R 299.655 Reports of released birds; tags on birds shot.

Rule 15. Before any birds are taken under authority of a shooting preserve license, the operator shall certify to the director of natural resources the number of each species of birds to be, or which have been, released and the date of release, and shall procure from the director the allowable number of identification tags required by law to be affixed to all birds shot on such preserve. The identification tags shall be affixed in a permanent manner to the leg of the bird or the wrapper or package containing the carcass and shall remain thereon until the bird is prepared for consumption. Field or market dressed carcasses, parts thereof, eggs, and crated specimens removed from licensed shooting preserves by nonhunters shall be identified with shipping tags or identification tags as provided in department rules governing game breeders.

History: 1954 ACS 69, p. 38, Eff. Nov. 30, 1971.

R 299.656 Disposition of boundary signs, shipping tags, and identification tags.

Rule 16. When a license expires or is revoked or denied, the former licensee shall return surplus identification tags and shipping tags to the department of natural resources and remove all shooting preserve signs from the formerly licensed area within 15 days after termination of the license. The department shall refund a sum equal to the value of tags. If a former licensee does not remove the boundary signs and cannot be located, the landowner shall remove the signs within 30 days after termination of the shooting preserve license.

History: 1954 ACS 69, p. 38, Eff. Nov. 30, 1971.

R 299.657 Inspection of premises, operations, and records.

Rule 17. All premises and operations, including the books and records pertaining thereto and also including a count of birds certified to for release, shall be subject to inspection at any reasonable time by the director of natural resources or his authorized representatives.

History: 1954 ACS 69, p. 39, Eff. Nov. 30, 1971.

R 299.658 Copies of records for director of natural resources.

Rule 18. The director of natural resources may require that monthly reports and an annual report and a notarized copy of all records required by section 8 of Act No. 134 of the Public Acts of 1957, as amended, being §317.308 of the Michigan Compiled Laws, be submitted to him by each licensee on or before July 15 in each year.

History: 1954 ACS 69, p. 39, Eff. Nov. 30, 1971.

R 299.659 Rescission.

Rule 19. Rules 1 to 16 of the rules entitled "Shooting Preserves," being R 299.621 to R 299.636 of the Michigan Administrative Code and appearing on pages 1203 to 1205 of the 1959 Annual Supplement to the Code and pages 4161 and 4162 of the 1967 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 69, p. 39, Eff. Nov. 30, 1971.

Editor's note: R 299.621 to R 299.636, referred to in this rule, appeared in 1954 ACS 69, p. 39, as R 299.601 to R 299.615 due to a typographical error.

WILDLIFE DIVISION

STATE GAME AND WILDLIFE AREAS

(By authority conferred on the commission of natural resources by sections 2 and 3a of Act No. 17 of the Public Acts of 1921, as amended, and by sections 9 and 252 of Act No. 380 of the Public Acts of 1965, as amended, being §§299.2, 299.3a, 16.109, and 16.352 of the Michigan Compiled Laws)

R 299.661 Areas A and B.

Rule 1. (1) Beginning September 1, 1972, use of state-owned land or water within the areas described in these rules shall be in accordance with R 299.666, in addition to complying with the general rules for state lands other than state parks and recreation areas.

(2) Allegan state game area, Allegan county.
T 2 N, R 14 W—sections 4 to 6 and 8 to 10.
T 3 N, R 14 W—sections 29 to 33.
T 3 N, R 15 W—sections 15 and 22 to 27.
T 2 N, R 15 W—sections 7, 8, 17 to 20, 26 to 28, 34 and 35.
T 2 N, R 16 W—sections 12, 13 and 24.

(3) AuTrain waterfowl management area, Alger county.
T 45 N, R 21 W—sections 1 to 3, 10 to 15, 22 to 27 and 34 to 36.
T 44 N, R 21 W—sections 1 to 3, 10 and 11.

(4) Baraga Plains waterfowl management area, Baraga county.
T 50 N, R 34 W—sections 28 and 34.
T 49 N, R 34 W—sections 3 to 10, 15 to 22, 28 and 30 to 33.
T 48 N, R 34 W—sections 2, 4 and 6.

History: 1954 ACS 72, p. 12, Eff. Aug. 16, 1972.

R 299.662 Areas C to F.

Rule 2. (1) Crow Island state game area, Saginaw county.
T 13 N, R 5 E—sections 28, 29, 32 and 33.
T 12 N, R 5 E—sections 4 and 5.
Crow reserve lying easterly of highways M-13 and I-75.

(2) Fish Point wildlife area, Tuscola county.
T 15 N, R 8 E—sections 9 to 16, 19 to 23, 29 and 30.

History: 1954 ACS 72, p. 13, Eff. Aug. 16, 1972.

R 299.663 Areas L and M.

Rule 3. (1) Lapeer state game area, Lapeer county.
T 8 N, R 10 E—sections 13 and 24.
T 8 N, R 11 E—sections 18 and 19.

(2) Maple River state game area, Gratiot county.
T 9 N, R 2 W—sections 27 to 29.

(3) Munuscong bay waterfowl management area, Chippewa county.
T 44 N, R 2 E—section 7.
T 44 N, R 1 E—sections 1 to 3, 10 to 15, 17 and 22 to 25.

(4) Muskegon river state game area, Muskegon county.
T 11 N, R 15 W—sections 32 to 35.
T 10 N, R 15 W—sections 2 to 10.
T 10 N, R 16 W—sections 1 to 3 and 8 to 12.

History: 1954 ACS 72, p. 13, Eff. Aug. 16, 1972.

R 299.664 Areas N to P.

Rule 4. (1) Nayanquing Point state game area, Bay county.
T 16 N, R 5 E—sections 7, 18 and 19.
T 16 N, R 4 E—sections 13 and 23 to 26.
(2) Pointe Mouillee state game area, Wayne and Monroe counties.
T 5 S, R 10 E—sections 24 to 26, 35 and 36.
T 5 S, R 11 E—sections 30 and 31.
T 6 S, R 10 E—sections 1, 2 and 11.
(3) Portage Marsh, Delta county.
T 38 N, R 22 W—sections 6 and 7.
T 38 N, R 23 W—sections 1 and 12.

History: 1954 ACS 72, p. 13, Eff. Aug. 16, 1972.

R 299.665 Areas S and T.

Rule 5. (1) St. Clair Flats wildlife areas, St. Clair county, consisting of the following:

(a) Harsens island which is that portion of private claims lots, 2 to 5 lying east of Cottage lane, southerly of Krispen, Columbine and LaCroix roads and westerly of state highway M-154; and all surveyed interior lands and waters lying southwesterly of the private claims and between the South channel and Middle channel.

(b) Dickinson island which is all that part of Dickinson island lying south of the north line of lots 4 to 17, Dickinson island land company's plat and south of the north line of lots 4 to 17, extended to the Snibora channel on a bearing of north 73° 47′ 30″ west, except lots 1415 to 1533, Dickinson island land company's plat.

(2) Seney waterfowl management area, Schoolcraft county.
T 46 N, R 14 W—sections 22, 23, 25 to 28 and 33 to 36.
T 46 N, R 13 W—sections 32 and 33.
T 45 N, R 13 W—sections 3 to 5, 9 to 11, 14 to 16 and 22 to 27.
(3) Shiawassee river state game area, Saginaw county.
T 11 N, R 3 E—sections 13 to 15, 21 to 28 and 32 to 35.
T 10 N, R 3 E—sections 2 to 4 and 9 to 11.
(4) Sturgeon river sloughs waterfall management area, Houghton and Baraga counties.
T 54 N, R 33 W—sections 32 to 34.
T 53 N, R 33 W—sections 1 to 4, 9, 10, 12, 13, 16, 20, 21, 28, 29 and 31 to 33.
T 52 N, R 33 W—sections 3 to 5, 9, 16, 17 and 19 to 21.
(5) Tobico Marsh state game area, Bay county.
T 15 N, R 4 E—sections 13, 14, 24 and 25.
T 15 N, R 5 E—sections 18, 19 and 30.

History: 1954 ACS 72, p. 13, Eff. Aug. 16, 1972.

R 299.666 Prohibited acts.

Rule 6. On the state-owned lands in the described areas in these rules a person shall not:

(a) Hunt or shoot from a dike, road, trail or safety zone posted against such use.

(b) Enter an area posted "Wildlife Refuge—Do Not Enter" without proper written permission.

(c) Enter an area posted "Retrieving Zone Only—No General Entry" except to retrieve downed game, lawfully taken.

(d) On an area posted "State Game Area—Hunting by Permit Only," construct or use a shooting pit or construct, erect, or use a blind other than a temporary blind constructed of herbaceous vegetation such as cattails, or a blind that is readily portable and is removed at the end of the person's daily hunt; except those pits or blinds located and constructed by the department of natural resources for public use.

(e) Possess or use firearms or bows and arrows during the period from the end of the rabbit season to the opening date of the migratory bird hunting season on any area posted against such use, without proper written permission.

(f) Trap on an area posted "State Game Area—Hunting by Permit Only" without proper written permission.

(g) Fish on a posted area forbidding fishing.

(h) Train dogs between April 1 and August 31 on a posted area forbidding the training of dogs.

(i) Use a motorboat, airboat, or amphibious vehicle on an area posted "State Game Area—Hunting by Permit Only," without proper written permission.

(j) Enter state-owned land or water posted "State Game Area—Hunting by Permit Only" during a period of the waterfowl hunting season specified by the director of the department of natural resources, hereinafter referred to as the director, except under authority of proper written permission.

History: 1954 ACS 72, p. 14, Eff. Aug. 16, 1972.

R 299.667 Permits.

Rule 7. (1) "Proper written permission" means a written permit issued by the director or his authorized representative.

(2) A permit shall be of 2 parts:

(a) A form which is properly filled out by the hunter and validated by the department of natural resources.

(b) An identifying tag that shall be carried by the hunter while in the permit only area.

(3) A person shall not hunt in a location other than that specified on his permit.

(4) The director may determine the number of permits to be issued in total and per hunter. A person shall not apply for more than the number of permits authorized per hunter.

(5) A permittee shall return the permit upon the expiration date designated in the permit. If directed on the permit, the permittee shall present for examination all game taken and furnish other information about his hunting as may be requested.

(6) The director may determine the daily hunting hours; the permissible gauges of shotguns, shot shell loadings, and number of shells in possession; and rules governing the possession and use of dogs.

History: 1954 ACS 72, p. 14, Eff. Aug. 16, 1972.

R 299.669 Rescission.

Rule 9. Rules entitled "Shiawassee River State Game Area" and "State Game and Wildlife Areas," as amended, being R 299.345 to R 299.349 of the Michigan Administrative Code and appearing on page 4160 of the 1967 Annual Supplement to the Code and pages 4682 and 4683 of the 1968 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 72, p. 14, Eff. Aug. 16, 1972.

LAW ENFORCEMENT DIVISION

SHOOTING RANGES ON STATE-OWNED LANDS

(By authority conferred on the commission of natural resources by sections 2 and 3a of Act No. 17 of the Public Acts of 1921, as amended, and sections 9 and 252 of Act No. 380 of the Public Acts of 1965, as amended, being §§299.2, 299.3a, 16.109, and 16.352 of the Michigan Compiled Laws)

R 299.671 Definitions.

Rule 1. (1) "Approved targets" means paper targets and clay targets.

(2) "Designated shooting ranges" means shooting ranges designated by an order of the director and posted for such use.

(3) "Director" means the director of the department of natural resources.

(4) "Litter" means any rubbish, refuse, waste material, garbage, offal, paper, glass, cans, bottles, trash, debris, or other foreign substances of every kind and description.

(5) "Range officer" means a person placed in charge of a designated shooting range by the director or his authorized representative.

(6) "Written permission" means a written permit issued by the director, his authorized representative or range officer.

History: 1954 ACS 80, p. 12, Eff. Sept. 12, 1974.

R 299.672 Designated shooting ranges on state-owned lands; unlawful acts.

Rule 2. At designated shooting ranges on state parks and recreation areas, state game areas, and other lands and property under the control of the commission of natural resources, including, but not limited to, the Rose lake wildlife research center, the Pointe Mouillee state game area, the Sharonville state game area, the Bald mountain recreation area, the Ortonville recreation area, the Pontiac recreation area, the Proud lake recreation area, the Rochester-Utica recreation area and the Algonac state park, a person shall not:

(a) Use or occupy designated shooting ranges, except during the hours of 9:00 a.m. and 6:00 p.m., local prevailing time, or as posted, without written permission.

(b) Use or discharge a firearm containing more than 1 round without written permission, except shotguns at shotgun ranges with automatic skeet or trap equipment.

(c) Use incendiary, explosive, or tracer ammunition.

(d) Use other than a hand held rifle or muzzle loader exceeding 70 caliber, or a shotgun with other than slug load or buckshot on the rifle range.

(e) Use other than clay targets, shotguns, or shot larger than BB on the skeet and trap shooting ranges.

(f) Use other than a pistol or revolver on a pistol range.

History: 1954 ACS 80, p. 13, Eff. Sept. 12, 1974.

R 299.673 Use of firearms on designated shooting ranges.

Rule 3. On a designated shooting range, a person shall not:

(a) Possess a loaded firearm, except at established shooting stations on the firing line.

(b) Discharge a firearm, except at established shooting stations at approved targets.

History: 1954 ACS 80, p. 13, Eff. Sept. 12, 1974.

R 299.674 Archery ranges.

Rule 4. On designated archery ranges, a person shall not use:

(a) Other than a bow and arrow.

(b) Other than approved targets.

(c) Hunting broadhead arrows, except under written permission.

(d) A crossbow.

History: 1954 ACS 80, p. 13, Eff. Sept. 12, 1974.

R 299.675 Spectators.

Rule 5. Spectators are prohibited on the firing line of designated shooting ranges.

History: 1954 ACS 80, p. 13, Eff. Sept. 12, 1974.

R 299.676 Alcoholic beverages.

Rule 6. Alcoholic beverages are prohibited on designated shooting ranges.

History: 1954 ACS 80, p. 13, Eff. Sept. 12, 1974.

R 299.677 Litter.

Rule 7. A person shall not dump, deposit, place, throw, or leave litter, except in approved refuse containers.

History: 1954 ACS 80, p. 13, Eff. Sept. 12, 1974.

R 299.678 Range officer's authority.

Rule 8. The range officer shall have the authority to close the shooting range when, in his opinion, the safety of persons or property is endangered.

History: 1954 ACS 80, p. 13, Eff. Sept. 12, 1974.

FIELD DOG TRIAL AREAS

(By authority conferred on the commission of conservation by section 3a of Act No. 82 of the Public Acts of 1947, as amended, and by sections 9 and 252 of Act No. 380 of the Public Acts of 1965, being §§317.403a, 16.109, and 16.352 of the Michigan Compiled Laws)

R 299.681 Grand Traverse field trial area.

Rule 1. The Grand Traverse field trial area is located in the north ½ of the southeast ¼, southwest ¼ of southeast ¼, and southeast ¼ of southwest ¼, section 21, town 26 north, range 11 west. On this area, no person shall hunt for, take or attempt to take snowshoe hares or cottontail rabbits for a period of 5 years.

History: 1954 ACS 56, p. 8, Eff. Nov. 14, 1968.

R 299.699 Penalties.

Rule 19. Violation of these rules is punishable by a fine of not more than $100.00 and costs of prosecution, or by imprisonment in a county jail for not more than 90 days, or both.

History: 1954 ACS 56, p. 9, Eff. Nov. 14, 1968.

FISHERIES DIVISION

USE OF TRAWLS

(By authority of Act No. 218 of the Public Acts of 1955, as amended, being §308.201 et seq. of the Michigan Compiled Laws)

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

R 299.701 Permits for use of trawls.

Rule 1. The director of conservation may, in his discretion, issue permits to commercial fishermen licensed under the provisions of Act No. 84 of the Public Acts of 1929, as amended, being §308.1 et seq. of the Michigan Compiled Laws, to use trawls for taking chubs, herring, alewife, smelt, and such other species of fish as he may designate.

History: 1954 ACS 23, p. 18, Eff. Aug. 12, 1960.

R 299.702 Regulation of trawls.

Rule 2. The director of conservation may regulate the use of trawls, including, but not limited to, the kind and size thereof, the size of mesh therein, and the areas, depths of water, and time and manner in which they may be used.

History: 1954 ACS 23, p. 18, Eff. Aug. 12, 1960.

R 299.703 Illegal possession and disposition of protected species of fish.

Rule 3. No fish of any kind other than those permitted to be taken in trawls may be possessed aboard a boat engaged in trawling under authority of such permit. All species of fish, other than permitted to be taken in trawls, whether dead or alive, shall be immediately returned to the water.

History: 1954 ACS 23, p. 18, Eff. Aug. 12, 1960.

R 299.704 Conditions of permit; records, reports, and inspections.

Rule 4. The terms and conditions of any permit issued hereunder shall require permittee to:

(a) Maintain and submit such records and reports of his trawling operations as the director of conservation may require.

(b) Allow the director of conservation or his authorized representatives to enter into or upon any boat, dock, or fish house used in connection with the trawling activities of said permittee for the purpose of observing operations and examining equipment, records, and catch of fish.

History: 1954 ACS 23, p. 19, Eff. Aug. 12, 1960.

R 299.705 Amendment, suspension, revocation, and expiration of permits.

Rule 5. The director of conservation may amend or suspend any trawling permit so as to restrict or prohibit trawling in waters where species of fish, other than those authorized to be taken, are caught or killed, and may revoke the permit of any trawler who fails to abide by the terms and conditions of his permit. All trawling permits shall expire on December 31 following date of issue unless sooner revoked.

History: 1954 ACS 23, p. 19, Eff. Aug. 12, 1960.

COMMERCIAL FISHING

GILL NETS FOR TAKING CHUBS, HERRING, ALEWIFE, AND SMELT

(By authority of Act No. 218 of the Public Acts of 1955, as amended, and Act No. 88 of the Public Acts of 1943, as amended, being §308.201 et seq. and §24.71 et seq. of the Michigan Compiled Laws)

R 299.721 Permits for use of gill nets with meshes less than 2¼ inches extension measure.

Rule 1. Permits may be issued to commercial fishermen licensed under the provisions of Act No. 84 of the Public Acts of 1929, as amended, being §308.1 et

USE OF NETS IN MUNISING BAY FOR TAKING SMELT AND ALEWIFE

(By authority of Act No. 218 of the Public Acts of 1955, as amended, being §308.201 et seq. of the Michigan Compiled Laws)

R 299.751 Permits for the use of nets for taking smelt and alewife in Munising Bay of Lake Superior.

Rule 1. The director of conservation may, in his discretion, issue permits to commercial fishermen licensed under the provisions of Act No. 84 of the Public Acts of 1929, as amended, to use in Munising bay of Lake Superior pound, trap and gill nets, as provided in subdivisions (d), (g), and (i) of section 5 of Act No. 84 of the Public Acts of 1929, as amended, for taking smelt and alewife.

History: 1954 ACS 29, p. 13, Eff. Feb. 14, 1962.

LEGAL SIZE OF CATFISH

(By authority of Act No. 218 of the Public Acts of 1955, as amended, and Act No. 88 of the Public Acts of 1943, as amended, being §308.201 et seq. and §24.101 et seq. of the Michigan Compiled Laws)

R 299.761 Minimum legal size of catfish.

Rule 1. It shall be unlawful to market, have in possession, transport, or offer for sale at any time, whether caught within or without this state, any catfish of a length less than 15 inches, except that catfish of a length not less than 14 inches may be taken from Lake Erie, but such fish shall not be sold or offered for sale except at a dock or docks along said lake.

History: 1954 ACS 24, p. 8, Eff. Nov. 12, 1960.

LAKE TROUT IN LAKE SUPERIOR

(By authority of Act No. 218 of the Public Acts of 1955, as amended, being §308.201 et seq. of the Michigan Compiled Laws)

R 299.771 Closed commercial fishing season on lake trout in Lake Superior.

Rule 1. On and after June 1, 1962, lake trout shall not be taken from Lake Superior at any time, except as provided by Act No. 165 of the Public Acts of 1929, as amended, and by the director of conservation for scientific or cultural purposes as provided in section 10 of Act No. 84 of the Public Acts of 1929, as amended.

History: 1954 ACS 31, p. 16, Eff. Aug. 14, 1962.

R 299.772 Rescinded.

History: 1954 ACS 31, p. 16, Eff. Aug. 14, 1962; 1954 ACS 53, p. 14, Eff. Feb. 14, 1968; rescinded 1954 ACS 79, p. 40, Eff. June 5, 1974.

REMOVAL OF CLOSED COMMERCIAL FISHING SEASON AND MINIMUM LEGAL SIZE ON SUCKERS

(By authority of Act No. 218 of the Public Acts of 1955, as amended, being §308.201 et seq. of the Michigan Compiled Laws)

R 299.781 Suckers; open season.

Rule 1. No closed season: Suckers may be taken at any time from waters that are open to commercial fishing.

History: 1954 ACS 36, p. 10, Eff. Nov. 14, 1963.

R 299.814 Rescinded.

History: 1954 ACS 47, p. 14, Eff. Aug. 14, 1966; 1954 ACS 53, p. 15, Eff. Feb. 14, 1968; rescinded 1954 ACS 79, p. 40, Eff. June 5, 1974.

R 299.815 Yellow perch; suspension of size or weight minimums; exception.

Rule 5. To remove the size and weight limits and closed seasons on yellow perch taken in the Michigan waters of the Great Lakes not otherwise closed to commercial fishing, the provisions of section 14(d) and section 6(1)(d) of Act No. 84 of the Public Acts of 1929, as amended, being §§308.14 and 308.6 of the Michigan Compiled Laws, remain suspended and are superseded by the following rules:

(a) On or after the effective date of these rules, the size or weight minimums for yellow perch remain suspended except for that area of Lake Huron described in R 299.1074(1)(f) and R 299.1074(1)(g). Size limits on perch for areas described in R 299.1074(1)(f) and R 299.1074(1)(g) are defined in R 299.1075(4).

(b) On or after June 1, 1966, the provisions of section 6(1)(d) of Act No. 84 of the Public Acts of 1929, with respect to yellow perch taken from the waters of the Great Lakes, are suspended.

History: 1954 ACS 47, p. 14, Eff. Aug. 14, 1966; 1954 ACS 93, p. 22, Eff. Dec. 1, 1977.

R 299.816 Yellow perch; rescissions.

Rule 6. Conservation commission orders effective September 11, 1960, and October 1, 1965, as these apply to yellow perch, being R 299.742, R 299.811, and R 299.812 of the Michigan Administrative Code, and appearing on page 1444 of the 1960 Annual Supplement to the Code and on page 31 of Supplement No. 44 to the Code, are rescinded.

History: 1954 ACS 47, p. 14, Eff. Aug. 14, 1966.

R 299.817 Area closed to commercial fishing; Saginaw bay and Lake Huron.

Rule 7. To establish an area seasonally closed to commercial fishing operations, the provisions of section 6 of Act No. 84 of the Public Acts of 1929, as amended, being §308.6 of the Michigan Compiled Laws, are extended to include the following regulation:

(a) It shall be unlawful from June 10 to September 10, inclusive, to place or use any gill or entrapment net or to engage in commercial fishing operations in water of a depth less than 18 feet along that portion of the Saginaw bay-Lake Huron shore lying between Harrisville on the north and AuGres Point on the south, more particularly described—the south line of section 12, T26N, R9E, extended east into the waters of Lake Huron near Harrisville shall constitute the northern boundary, and a line extended east from the most southerly part of section 6, T18N, R7E, shall constitute the southern boundary.

(b) This regulation shall in no way change existing special provisions regulating commercial fishing in bays and harbors.

History: 1954 ACS 47, p. 14, Eff. Aug. 14, 1966.

R 299.818 Rescinded.

R 299.821 Suspension of statutory provisions.

Rule 1. The following provisions of Act No. 84 of the Public Acts of 1929, as amended, being §§308.1 to 308.51 of the Michigan Compiled Laws, are suspended:

(a) The provisions of subsections (h) and (i) of section 5 that no part of the lifting pot or crib of trap nets may exceed 15 feet in depth.

(b) The provisions of subsection (l) of section 5 pertaining to the depth of gill nets, effective July 1, 1967.

(c) The provision of subsection (c) of section 25 that a boat to which a license has been transferred may be fished only within a radius of 50 miles of the port designated in the original license.

History: 1954 ACS 50, p. 19, Eff. May 15, 1967.

R 299.822 Removal or relocation of large mesh gill nets.

Rule 2. The provisions of subsection (a) of section 5 of Act No. 84 of the Public Acts of 1929, as amended, are extended as follows: The director of the department of conservation may remove or cause to be removed or relocated any gill nets with meshes 4½ inches or larger used for the taking of whitefish, lake trout and yellow pickerel, when from inspection he determines that these nets are interfering with or taking more than 15% by weight of undersized whitefish, lake trout or yellow pickerel, or 15% by weight of any fish on which the season is closed or unlawful to take with commercial fishing devices.

History: 1954 ACS 50, p. 19, Eff. May 15, 1967.

R 299.823 Shoaling twine for large mesh trap nets.

Rule 3. The provisions of subsection (h) of section 5 of Act No. 84 of the Public Acts of 1929, as amended, designating shoaling twine, are suspended and superseded by the following regulation: In trap nets with meshes not less than 4½ inches in the lifting pot, used for taking whitefish and lake trout, meshes not more than 3¼ inches may be used (a) in that part of the tunnel inside the pot, (b) in the entire front of the pot, (c) in that portion of the bottom of the pot connected thereto for a distance up to 10 feet, but not to exceed ¼ of the length of the pot, and (d) in the connecting sides for the full depth of the pot and of a width up to 10 feet, but not to exceed ¼ of the length of the pot, for the purpose of shoaling fish.

History: 1954 ACS 50, p. 19; Eff. May 15, 1967.

R 299.824 Measurement of the mesh of trap nets, pound nets, and seines.

Rule 4. The provisions of subsection (1) of section 5 of Act No. 84 of the Public Acts of 1929, as amended, are extended by the following regulations effective July 1, 1967:

(a) The measurement of the mesh of trap nets, pound nets, and seines described in subsections (f), (g), (h), (i), (j) and (k) of section 5 of Act No. 84 of the Public Acts of 1929, as amended, shall be made with a 2-pound, 1- to 6-inch extension type gauge, constructed per specifications detailed in department of conservation drawing no. 0-264. Graduations of the calibrated scale of the gauge shall measure accurately to within plus or minus .005 of an inch, and the weighted cylinder of the gauge shall weigh 2 pounds, plus or minus ½ ounce. Prints of the drawing are on file at the department offices in Lansing and are available upon request. The gauge may be purchased from the department at cost.

(b) The mesh size of such nets shall be determined by extension measure between the extreme angles of the mesh. The measurement shall be made inside of the mesh knots.

(c) The meshes to be gauged shall be at least 3 meshes removed from the side lines, and in gauging the mesh, the gauge shall be held by the suspension ring, with 1 mesh knot inserted above the upper string slot of a width nearest the diameter of the twine of the mesh being measured and with the opposite knot inserted below the lower identical size string slot. The weighted cylinder shall be allowed to settle slowly until the full 2 pounds of the cylinder is acting upon the mesh being measured for a period of at least 30 seconds.

(d) If the majority of 10 or more meshes selected at random by the conservation officer from any part of the net do not conform to the measurements provided by Act No. 84 of the Public Acts of 1929, as amended, or any valid rule adopted by the conservation commission under authority of Act No. 218 of the Public Acts of 1955, as amended, the net shall be deemed unlawful.

History: 1954 ACS 50, p. 19, Eff. May 15, 1967.

R 299.827 Closed commercial fishing season in Tahquamenon bay.

Rule 7. (1) It is unlawful during the period June 1 to November 30 for any person to catch or take fish of any species with net, set hook lines or other device of any kind except hook and line and spear as permitted by law from that part of Tahquamenon bay in Lake Superior described as follows: that area lying south and west of a line beginning at the northerly projection of land in the west ½ of section 9, town 47 north, range 5 west, and extending northerly to Tahquamenon island, thence northwesterly to the mouth of the Tahquamenon river in section 14, town 48 north, range 6 west.

(2) The director of conservation may authorize, by special permit, the use of nets, set hook lines or other devices for catching or taking fish within such area at any time for the purpose of fishery management.

History: 1954 ACS 65, p. 12, Eff. Dec. 1, 1970; 1954 ACS 71, p. 23, Eff. Mar. 21, 1972; rescinded 1954 ACS 76, p. 10, Eff. Aug. 10, 1973.

FOREST FIRE DIVISION

SLASH DISPOSAL

(By authority conferred on the department of conservation by Act No. 35 of the Public Acts of 1955 and section 253 of Act No. 380 of the Public Acts of 1965, being §§320.41 to 320.48 and 16.353 of the Michigan Compiled Laws)

R 299.901 Definitions.

Rule 1. As used in these rules, unless the context requires a different meaning:

(a) "Slash" means branches, tops, chunks, cull logs, uprooted stumps, and broken or uprooted trees left on the ground after cutting of forest growth, wind, or fire. It does not include useable forest products or chips.

(b) "Public highway" means a road or highway under the jurisdiction of the state highway department or any county road commission.

History: 1954 ACS 47, p. 15, Eff. Aug. 14, 1966.

R 299.902 Slash disposal in certain cases.

Rule 2. A cutting of forest growth resulting from the construction and maintenance of a public road, telephone, telegraph, or other communication line, power line, oil, and gas line, railroad that is a common carrier, or any other utility; or a cutting of forest growth on land bordering within 50 feet of a public highway shall be disposed of in accordance with these rules.

History: 1954 ACS 47, p. 15, Eff. Aug. 14, 1966.

R 299.903 Utilities.

Rule 3. (1) A utility shall clear its right-of-way of slash for a distance of 50 feet from the edge of the cleared portion of a public highway right-of-way wherever its line crosses public roads.

(2) A utility shall clear its right-of-way of slash where its line is constructed or maintained within the limits of a public highway right-of-way.

(3) If a utility right-of-way is parallel to and adjoins a public highway right-of-way, the utility shall dispose of all slash or shall move same to the edge of the utility right-of-way furthest removed from highway right-of-way. However, in neither case shall slash remain within 50 feet of the cleared portion of the public highway. If slash is placed in windrows on the furthest removed edge of utility right-of-way, they shall not exceed 20 feet at base or 8 feet in height. An adequate break shall be provided at each 200 feet to allow for fire control access.

(4) A utility shall clear its right-of-way completely of slash in developed resort and suburban areas.

History: 1954 ACS 47, p. 15, Eff. Aug. 14, 1966.

R 299.904 Slash near highways.

Rule 4. Slash on land bordering within 50 feet of a public highway, resulting from land clearing, forest product harvest, etc., shall be disposed of in a manner that such inflammable material shall not constitute a fire hazard as prescribed by the director of conservation or his authorized representatives.

History: 1954 ACS 47, p. 15, Eff. Aug. 14, 1966.

R 299.905 National forests.

Rule 5. In national forests, the U.S. forest service shall prescribe the degree of slash removal and the removal of forest products from government-owned lands. In no case, however, shall rules for elimination of fire hazards provide less than the minimum requirements in these rules.

History: 1954 ACS 47, p. 16, Eff. Aug. 14, 1966.

R 299.906 Placing of slash.

Rule 6. Except as provided in R 299.903, slash may be placed in windrows not to exceed 20 feet at base or 8 feet in height. Slash shall not exceed 3 feet in height if scattered within the right-of-way. An adequate break shall be provided at each 200 feet to allow for fire control access.

History: 1954 ACS 47, p. 16, Eff. Aug. 14, 1966.

R. 299.907 Fires.

Rule 7. Burning of forest growth, slash, and debris shall be done under a department of conservation permit only, and when forest and grass lands are not endangered by such burning.

History: 1954 ACS 47, p. 16, Eff. Aug. 14, 1966.

NATURAL RESOURCES COMMISSION

RELOCATION ASSISTANCE

(By authority conferred on the natural resources commission by section 7 of Act No. 227 of the Public Acts of 1972, being §213.327 of the Michigan Compiled Laws)

R 299.951 Definitions.

Rule 1. (1) "Commission" means the natural resources commission.

(2) "Department" means the department of natural resources.

(3) "Uniform act" means the uniform relocation assistance and real property acquisition policies act of 1970, Public Law 91-646.

(4) "Aggrieved relocatee" means a person who may be entitled to a determination pursuant to the uniform act and who is dissatisfied with the determination with regard to their eligibility for benefits or the amount of the benefit.

(5) "Person" means an individual, partnership, corporation, or association.

History: 1954 ACS 87, p. 20, Eff. Mar. 27, 1976.

R 299.952 Aggrieved relocatee's options.

Rule 2. (1) An aggrieved relocatee who wishes to contest a determination made concerning either eligibility for benefits or the amount of benefits due pursuant to the uniform act may either:

(a) File a written objection with the department's land acquisition supervisor.

(b) Appear before the department's land acquisition supervisor and present his objection orally.

(2) An objection, whether written or oral, shall be filed or presented within 6 months after the aggrieved relocatee is given written notice of the determination to which objection is made.

(3) The land acquisition supervisor shall give written notice of his decision by registered mail within 30 days after receipt of a written or oral objection.

History: 1954 ACS 87, p. 20, Eff. Mar. 27, 1976.

R 299.953 Hearing by department.

Rule 3. An aggrieved relocatee who wishes to contest the land acquisition supervisor's written decision may file a written objection with the department and may appear before the department to present an objection after written decision of the land acquisition supervisor. The objection shall be filed within 30 days after written notice by the land acquisition supervisor. A personal appearance shall be scheduled after a written request by the aggrieved relocatee. The hearing shall be conducted by a 3-member appeals committee appointed by the director of the department. One member of the committee shall be designated as hearings officer. The aggrieved relocatee may represent himself at the hearing or be represented by legal counsel. The department may be represented by the attorney general.

History: 1954 ACS 87, p. 21, Eff. Mar. 27, 1976.

R 299.954 Opening statements; evidence; witnesses.

Rule 4. (1) The hearing shall be opened by the hearings officer with a concise statement of the hearing's nature and purpose. The hearings officer shall follow the rules of evidence applicable to circuit court proceedings. However, the hearings officer may admit and give probative effect to evidence which possesses probative value commonly accepted by reasonably prudent men in the conduct of their affairs.

(2) Documentary evidence may be received in the form of copies, excerpts or by incorporation by reference.

(3) The aggrieved relocatee, the department and the appeals committee may examine witnesses.

History: 1954 ACS 87, p. 21, Eff. Mar. 27, 1976.

R 299.955 Exhibits; form; submission.

Rule 5. (1) Evidence to be presented, consisting of matters so complex as to make the presentation difficult to follow, may be presented in exhibit form, supplemented and explained, but not duplicated by oral testimony.

(2) An exhibit shall be numbered in numerical sequence and an exhibit of 2 or more pages shall be stapled together and notation made at the top of the first page as to the number of pages contained therein. A party introducing documentary exhibits shall furnish 3 copies to the hearings officer.

(3) Additional documentary evidence may be submitted subsequent to the closing of the hearing upon stipulation of the parties.

History: 1954 ACS 87, p. 21, Eff. Mar. 27, 1976.

R 299.956 Arguments and decisions.

Rule 6. (1) After all of the evidence is entered in the record, the aggrieved relocatee and the department may summarize their arguments and the hearing shall be closed.

(2) Within 30 days after the hearing, the hearings officer shall send a written notice of the appeals committee's decision by registered mail to the aggrieved relocatee. The written notice shall contain the reasons supporting the decision. A copy of the hearing transcript shall be available upon request.

History: 1954 ACS 87, p. 21, Eff. Mar. 27, 1976.

R 299.957 Appeals to commission.

Rule 7. (1) The decision of the appeals committee may be appealed to the commission if written notice of appeal is filed by the aggrieved relocatee with the commission within 30 days after the hearings officer renders a decision.

(2) On appeal to the commission, additional written evidence may be filed by the aggrieved relocatee and by the department within 10 days after filing the notice of appeal of the appeals committee's decision. In rendering its decision, the commission shall consider the entire hearing record, and additional written evidence which may have been filed by the aggrieved relocatee or the department. The commission may request the aggrieved relocatee to personally appear. The commission shall inform the aggrieved relocatee and the department of its decision on the appeal by sending them a copy of its written decision within 30 days after the commission meets following the filing of additional written evidence.

(3) The decision of the commission shall be subject to judicial review by the appropriate state or federal court as provided by statutes and court rules.

History: 1954 ACS 87, p. 21, Eff. Mar. 27, 1976.

WILDLIFE DIVISION

PUBLIC ACCESS STAMP PROGRAM

(By authority conferred on the department of natural resources by section 48 of chapter 4 of Act No. 286 of the Public Acts of 1929, as amended, being §314.48 of the Michigan Compiled Laws)

R 299.981 Definitions.

Rule 1. As used in these rules:

(a) "Department" means the department of natural resources.

(b) "Hunter access tag" means a tag designed by the department and furnished to a landowner who leases his property under the public access stamp program. The tag is a means of identifying a hunter who hunts lawfully on such property.

(c) "Lease," "lease agreement," and "leased property" refers to land leased under the public access stamp program, as provided for in sections 44 to 48 of chapter 4 of Act No. 286 of the Public Acts of 1929, as amended, being §§314.44 to 314.48 of the Michigan Compiled Laws, to provide hunting land for a licensed hunter.

(d) "Public access stamp" means a stamp designed and sold by the department to provide funds for the leasing of private land for hunting purposes.

(e) "Public access stamp program" means the leasing arrangements between the department and private landowners to provide access to private land for hunting purposes under the provisions of sections 44 to 48 of chapter 4 of Act No. 286 of the Public Acts of 1929, as amended.

History: 1954 ACS 94, p. 22, Eff. Jan. 12, 1978.

R 299.982 Department; powers and duties.

Rule 2. The department shall:

(a) Accept applications for lease agreements from landowners in zone 3, as defined in section 10 of chapter 1 of Act No. 286 of the Public Acts of 1929, as amended, being §311.10 of the Michigan Compiled Laws.

(b) Appraise the value of an applicant's property for hunting purposes.

(c) If the land is acceptable for hunting purposes, negotiate a lease agreement proposed for final approval.

(d) Furnish appropriate signs.

(e) Furnish hunter access tags.

(f) Make payments after March 1 of each year of the agreement.

History: 1954 ACS 94, p. 22, Eff. Jan. 12, 1978.

R 299.983 Leases.

Rule 3. Except for unusual situations and during the final 3 years of the program, the lease agreement shall be for 3 years.

History: 1954 ACS 94, p. 23, Eff. Jan. 12, 1978.

R 299.984 Appraisal of property to be leased; guidelines; hunting access tags.

Rule 4. (1) The guidelines for the appraisal of the value of property to be leased for hunting purposes are as follows:

Hunting Resource	Annual Rate Per Acre
Wild, natural marsh	$2.50
Idle fields not cropped, clipped or pastured	2.50
Corn or small grain left for wildlife (not more than 5 acres)	2.50
Brush, shrubs, and trees less than 2 inches diameter breast high	2.50
Brushy fence rows not less than 6 feet wide	2.50
A special situation the appraiser believes warrants the payment of	2.50
Idle orchards	2.00
A special situation the appraiser believes warrants the payment of	2.00
Unclipped small grain in stubble during the hunting season	1.50
A special situation the appraiser believes warrants the payment of	1.50
Unpastured woods not less than 4 inches diameter breast high	1.00
Asparagus fields, sugar beets during the hunting season	1.00
A special situation the appraiser believes warrants the payment of	1.00
Rotation hay, alfalfa, clover and such other crops	.50
Vineyards and orchards with cover	.50
Grazed pasture	.50
A special situation the appraiser believes warrants the payment of	.50
Beans, winter wheat, fallow fields and silage stubble	.00
Fallow vineyards and orchards	.00

(2) The guidelines for the issuance of hunter access tags are as follows:

(a) One hunter access tag shall be issued for each 10 acres, unless a special situation warrants the issuance of fewer or more tags.

(b) The field appraiser shall determine the appropriate number of tags to issue.

History: 1954 ACS 94, p. 23, Eff. Jan. 12, 1978.

R 299.985 Final approval of proposed leases.

Rule 5. Final approval of a proposed lease shall be given by the chief of the wildlife division.

History: 1954 ACS 94, p. 23, Eff. Jan. 12, 1978.

R 299.986 Lessor; duties.

Rule 6. The lessor shall:

(a) Post signs furnished by the department pursuant to departmental guidelines.

(b) Permit hunter access to leased property without regard to race, color, creed, or sex.

(c) Provide a hunter access tag to each hunter authorized to hunt pursuant to a lease agreement.

(d) Obtain approval from the department to significantly alter land under the lease agreement. If land under a lease agreement is altered in a manner that changes the value of the land for hunting purposes, the department may cancel or renegotiate the lease agreement.

History: 1954 ACS 94, p. 23, Eff. Jan. 12, 1978.

R 299.987 Termination and cancellation of leases.

Rule 7. (1) The lease agreement may be terminated at any time by the landowner. A payment shall not be made if the agreement is terminated during the program year. An agreement may be terminated at the end of the program year without penalty.

(2) A payment shall not be made under a lease agreement, and a lease may be cancelled by the department, if the department determines that:

(a) There was a failure to permit public access under the terms of a lease agreement.

(b) There was a failure to post access signs.

(c) There was a failure to provide hunter access tags under the terms of the lease agreement.

(d) Public access was prohibited, restricted, or discouraged by posting the boundary of the property with signs such as, but not limited to, "No Hunting," "No Trespassing," "Private Property, No Trespassing."

History: 1954 ACS 94, p. 23, Eff. Jan. 12, 1978.

R 299.988 Hunter; duties.

Rule 8. A hunter exercising the privilege of hunting on lands leased under the public access stamp program shall:

(a) Have on his person an unexpired public access stamp, validated by his signature written across the face thereof in ink and affixed to his hunting license.

(b) Obtain a hunter access tag from the landowner.

(c) Show his hunter access tag to the landowner, conservation officer, or other law enforcement officer upon demand, and shall return it to the landowner when he leaves the premises for the day.

(d) Follow the landowner's instructions with regard to:

(i) Land on which he may hunt and land on which he may not hunt.

(ii) General conduct while on the land, including, but not limited to, the closure of gates, climbing of fences, and the use of safety precautions near livestock and buildings.

History: 1954 ACS 94, p. 24, Eff. Jan. 12, 1978.

R 299.989 Eviction; penalties.

Rule 9. If a hunter fails to follow the reasonable instructions of the landowner or exhibits unsportsmanlike conduct, such hunter shall be subject to eviction from the landowner's property. The landowner, in addition, may prohibit such hunter from hunting on his property in the future. A hunter who violates R 299.988 may be subject to the penalties in section 5 of chapter 5 of Act No. 286 of the Public Acts of 1929, as amended, being §315.5 of the Michigan Compiled Laws.

History: 1954 ACS 94, p. 24, Eff. Jan. 12, 1978.

ROSE LAKE WILDLIFE RESEARCH AREA

(By authority conferred on the commission of natural resources by sections 2 and 3a of Act No. 17 of the Public Acts of 1921, as amended, and by sections 9 and 252 of Act No. 380 of the Public Acts of 1965, as amended, being §§299.2, 299.3a, 16.109, and 16.352 of the Michigan Compiled Laws)

R 299.1001 Area description.

Rule 1. The state-owned lands and waters of the Rose Lake wildlife research area are located in sections 13, 14, 21, 22, 23, 24, 25, 26 and 27 of T5N, R1W and sections 20, 21, 22, 28 and 29 of T5N, R1E.

History: 1954 ACS 54, p. 36, Eff. May 15, 1968; 1954 ACS 81, p. 24, Eff. Nov. 14, 1974.

R 299.1002 Hunting and trapping.

Rule 2. (1) It is unlawful to trap on the state-owned lands and waters of the Rose Lake wildlife research area, except under a written permit issued by the department of natural resources.

(2) The director of the department of natural resources will determine the number of permits to be issued, if any, specifying the period of time and location in the area.

(3) A trapper permittee shall return his permit after its expiration and shall present for examination at area headquarters as so instructed on his permit, either the entire carcass of the animal trapped or the cased or stretched skins of any animal trapped, or both.

History: 1954 ACS 54, p. 36, Eff. May 15, 1968; 1954 ACS 81, p. 24, Eff. Nov. 14, 1974.

R 299.1003 Regulation of use.

Rule 3. (1) The director of the department of natural resources may restrict or prohibit activities in designated portions of the area when required for research purposes. These portions of the area shall be posted as to all restrictions.

(2) It is unlawful to engage in activities in any portion of the area where these activities are specifically restricted or prohibited.

History: 1954 ACS 54, p. 36, Eff. May 15, 1968; 1954 ACS 81, p. 24, Eff. Nov. 14, 1974.

R 299.1004 Miscellaneous unlawful acts.

Rule 4. It is unlawful on the state-owned lands and waters of the Rose Lake wildlife research area to do any of the following:

(a) Molest or harass any wildlife, except wild game birds and wild game animals that may be hunted during their respective open seasons, subject to R 299.1003 and subdivision (b) of this rule.

(b) Carry or discharge a firearm from March 2 to August 31, except at a duly posted rifle range or trapshooting area, under special written permit, or as

required for research, management, or enforcement purposes by the department of natural resources.

(c) Target practice, trapshoot, or skeet shoot from September 1 to March 1 without special written permission of the director or his authorized representative. This subdivision does not apply to a duly posted rifle range or a trapshooting or skeet-shooting area.

(d) Operate a powered vehicle or contrivance on any lands, roads, or trails posted against such use or closed to entry by fence, gate, wire, cable, or other barrier, except under written permit and except as required for research, management, or law enforcement purposes by the department of natural resources.

(e) Ride or lead horses or other riding animals, except on established research area roads or vehicle trails, or to ride on such roads or trails in groups involving more than 3 animals, except under written permit.

(f) Camp on any part of the area, except for youth groups under a permit that specifies designated locations.

History: 1954 ACS 54, p. 37, Eff. May 15, 1968; 1954 ACS 81, p. 24, Eff. Nov. 14, 1974; 1954 ACS 101, p. 28, Eff. Dec. 14, 1979.

FISHERIES AND WILDLIFE DIVISIONS

ENDANGERED AND THREATENED SPECIES

(By authority conferred on the commission of natural resources by section 4 of Act No. 203 of the Public Acts of 1974, being §299.224 of the Michigan Compiled Laws)

R 299.1021 Mollusks.

Rule 1. (1) The following species of mollusks of class Pelecypoda (mussels) are included on the state list of endangered species:

(a) Simpsoniconcha ambigua (Say).

(b) Obovaria leibii (Lea) = O. subrotunda (Rafinesque).

(2) The following species of mollusks of class Pelecypoda (mussels) are included on the state list of threatened species:

(a) Pleurobema clava (Lamarck).

(b) Elliptio complanatus (Dillwyn).

(c) Cyclonaias tuberculata (Rafinesque).

(d) Anodonta subgibbosa (Anthony).

(e) Actinonaias ellipsiformis (Lea).

(f) Lampsilis fasciola (Rafinesque).

(g) Dysnomia triquetra (Rafinesque).

(3) The following species of mollusks of class Gastropoda (snails) are included on the state list of endangered species: None.

(4) The following species of mollusks of class Gastropoda (snails) are included on the state list of threatened species:

(a) Lymnaea megasoma (Say).

(b) Pomatiopsis cincinnatiensis (Lea).

(c) Paludestrina (Fontigens) nicklineana (Lea).

(d) Amnicola binneyana (Hannibal) = Cincinnatia emarginata (Say).

(e) Zoogenetes harpa (Say).

(f) Mesodon (Polygyra) sayana (Pilsbry).

(g) Mesodon (Polygyra) elevata (Say).

(h) Triodopsis notata (Deshayes) = Polygyra palliata (Say).

(i) Anguispira kochi (Pfeiffer) = A. solitaria (Say).
(j) Mesomphix cupreus (Rafinesque) = Omphalina.
(k) Haplotrema concavum (Say) = Circinnaria.
(l) Discus patulus (Deshayes) = Gonyodiscus perspectivus (Say).

History: 1954 ACS 89, p. 14, Eff. Dec. 4, 1976.

R 299.1022 Insects.

Rule 2. (1) The following species of insects are included on the state list of endangered species: None.

(2) The following species of insects are included on the state list of threatened species: None.

History: 1954 ACS 89, p. 14, Eff. Dec. 4, 1976.

R 299.1023 Fishes.

Rule 3. (1) The following species of fishes are included on the state list of endangered species:

(a) Longjaw cisco, Coregonus alpenae (Koelz).
(b) Deepwater cisco, Coregonus johannae (Wagner).
(c) Blackfin cisco, Coregonus nigripinnis (Gill).
(d) Shortnose cisco, Coregonus reighardi (Koelz).
(e) Shortjaw cisco, Coregonus zenithicus (Jordan and Evermann).
(f) Blue pike, Stizostedion vitreum glaucum (Hubbs).

(2) The following species of fishes are included on the state list of threatened species:

(a) Lake sturgeon, Acipenser fulvescens (Rafinesque).
(b) Cisco or lake herring, Coregonus artedii (Lesueur).
(c) Bloater, Coregonus hoyi (Gill).
(d) Kiyi, Coregonus kiyi (Koelz).
(e) Silver shiner, Notropis photogenis (Cope).
(f) Redside dace, Clinostomus elongatus (Kirtland).
(g) River redhorse, Moxostoma carinatum (Cope).
(h) Northern madtom, Noturus stigmosus (Taylor).
(i) Eastern sand darter, Ammocrypta pellucida (Agassiz).

History: 1954 ACS 89, p. 14, Eff. Dec. 4, 1976.

R 299.1024 Amphibians.

Rule 4. (1) The following species of amphibians are included on the state list of endangered species: None.

(2) The following species of amphibians are included on the state list of threatened species:

(a) Marbled salamander, Ambystoma opacum (Gravenhorst).
(b) Small-mouthed salamander, Ambystoma texanum (Matthes).
(c) Western lesser siren, Siren intermedia nettingi (Goin).

History: 1954 ACS 89, p. 15, Eff. Dec. 4, 1976.

R 299.1025 Reptiles.

Rule 5. (1) The following species of reptiles are included on the state list of endangered species: None.

(2) The following species of reptiles are included on the state list of threatened species:

(a) Black rat snake, Elaphe obsoleta obsoleta (Say).
(b) Northern copperbelly, Natrix erythrogaster neglecta (Conant).

FISHERIES DIVISION

IMPORTATION AND TRANSPORTATION OF FISH AND EGGS

(By authority conferred on the director of the department of natural resources by sections 5 and 5a of Act No. 196 of the Public Acts of 1957, as amended, and by sections 9 and 353 of Act No. 380 of the Public Acts of 1965, being §§308.115, 308.115a, 16.109, and 16.353 of the Michigan Compiled Laws)

R 299.1051 Importation, transportation, and sale of live fishes or viable eggs of the salmonidae family.

Rule 1. (1) No person shall import live fishes or viable eggs of the family of the salmonidae from without the state or transport or sell such fishes or viable eggs within the state, except under authority of a permit issued by the director of the department of natural resources, hereinafter referred to as the director.

(2) Applications for permits to import or transport live fishes or viable eggs of the family salmonidae shall be made on forms provided by the director and shall contain the following data and such other information as may be required for the purpose of controlling the spread of diseases of fishes, including, but not limited to, infectious pancreatic necrosis (IPN); viral hemorrhagic septicemia (egtved virus); and myxosoma cerebralis (whirling disease): (a) species, (b) name and address of shipper, (c) name of carrier, (d) type of transportation, (e) name and address of hatchery where fishes or eggs were produced, (f) name of broker through whom shipment is made, if any, and (g) the approximate number or weight of fishes or eggs to be imported or transported.

(3) Importation permits will be issued only for fish stock or eggs, or both, from sources certified free of IPN, egtved, whirling disease, or other diseases of fishes which may threaten resident fish stocks. The certification shall be made by a person holding a degree from an accredited college in 1 of the sciences and specializing in diseases of fishes and whose name appears on a register to be established and maintained by the director. Certifications shall be reviewed not less frequently than once every 6 months.

(4) Fish stocks of the family salmonidae held or in transport under authority of a game fish breeder's license shall be subject to inspection by designated representatives of the director. Such inspection may include removal of reasonable quantities of stock for biological samples.

(5) Permits to sell and transport fishes or eggs within the state shall be issued only for stocks certified to be free of diseases, including, but not limited to, IPN, egtved, and whirling disease. Permits to sell and transport fishes and eggs within the state shall be issued for a time period not to exceed 6 months.

(6) Commencing August 15, 1969, licensed game fish breeders shall have available for examination by the director or his designated representatives records of inventory of fish stocks as of August 15, 1969, and evidence of all purchases and sales of fishes and viable eggs made subsequent to August 15, 1969, except that the

records need be maintained in any year for the current year and the 2 prior years only. Information obtained from such records shall be confidential to the department of natural resources.

History: 1954 ACS 59, p. 32, Eff. Aug. 14, 1969.

R 299.1052 Importation of other species.

Rule 2. No fish or eggs of the species misgurnus anguillicaudatus (Japanese weatherfish), ctenopharyngodon idellus (grass carp), leuciscus idus (ide), scardinius erythrophthalamus (rudd), rhodeus sericeus (bitterling) or tinca tinca (tench) shall be imported into Michigan except by permit issued by the director.

History: 1954 ACS 59, p. 33, Eff. Aug. 14, 1969.

MARKETING OF IMPORTED COMMERCIAL AND GAME FISH

(By authority conferred on the director of the department of natural resources by section 14 of Act No. 84 of the Public Acts of 1929, as amended, and section 9 of Act No. 380 of the Public Acts of 1965, being §§308.14 and 16.109 of the Michigan Compiled Laws)

R 299.1061 Documents and records of wholesalers and retailers.

Rule 1. Imported commercial fish species and game fish, not processed outside the state and sold to the consumer in the same package as imported, when of a size, weight, or species not prohibited by the laws of the state or country where caught, may be possessed, transported, offered for sale and marketed as follows:

(a) A wholesale fish dealer who, directly or indirectly, imports the fish shall (i) retain for 30 days following importation a commercial invoice or bill of sale or, if imported from Canada, the customs entry or customs broker's statement, to include species of fish and formal entry number; (ii) keep a record including quantity and species of fish and name and address of every retailer to whom he sells or ships such fish; and (iii) make the invoices, customs documents, and records available for inspection by any conservation officer at any reasonable time.

(b) A retail fish dealer shall retain, until the fish are disposed of by sale or otherwise, a bill of sale or invoice, indicating quantity and species of fish and name and address of consignor for inspection by any conservation officer at any reasonable time.

History: 1954 ACS 66, p. 10, Eff. Dec. 21, 1970.

COMMERCIAL FISHING

(By authority conferred on the director and the commission of the department of natural resources by section 1b of Act No. 84 of the Public Acts of 1929, as amended, and sections 9 and 255 of Act No. 380 of the Public Acts of 1965, as amended, being §§308.1b, 16.109, and 16.355 of the Michigan Compiled Laws)

R 299.1071 Commercial fishing license; application; eligibility of applicant.

Rule 1. (1) An application for a commercial fishing license shall be made not less than 30 days before fishing operations are expected to commence.

(2) To be eligible for a license, an applicant shall have been issued a Michigan commercial fishing license for the immediately preceding year.

History: 1954 ACS 79, p. 36, Eff. June 5, 1974.

R 299.1072 Areas closed to commercial fishing.

Rule 2. Except as provided in a license issued by the director or in a research permit issued by a representative of the director, it is unlawful to use gill nets, trap nets, pound nets, seines, and set hooks in the following described waters:

LAKE SUPERIOR

(a) Waters of depths less than 60 fathoms between the mouth of the Montreal river in section 10, T48N, R49W, Gogebic county, and the mouth of the Elm river in section 30, T54N, R36W, Houghton county.

(b) Waters south of a line from Traverse point in section 22, T55N, R31W, Houghton county, to Big Bay point in section 1, T51N, R27W, Marquette county.

(c) Waters within 4½ miles of the shoreline of Isle Royale and surrounding islands.

(d) Waters of depths less than 60 fathoms between Au Sable point in section 2, T50N, R15W, Alger county, and Crisp point in section 1, T50N, R8W, Luce county, extending to the international boundary.

LAKE MICHIGAN

(e) Waters south and east of a line from Grand Traverse light station in section 6, T32N, R10W, Leelanau county, to village of Good Hart in section 25, T37N, R6W, Emmet county.

LAKE HURON

(f) Waters southwest of a line from Hammond Bay harbor light in section 25, T37N, R2E, to Forty Mile point light station in section 23, T36N, R4E, Presque Isle county.

(g) Waters west of a line from North point in section 6, T30N, R10E, to South point in section 26, T29N, R9E, Alpena county.

(h) Waters west of a line from Tawas point in section 34, T22N, R8E, Iosco county, to point Lookout in section 13, T19N, R7E, Arenac county.

History: 1954 ACS 79, p. 36, Eff. June 5, 1974.

R 299.1073 Waters closed to the use of gill nets.

Rule 3. It is unlawful to use gill nets in the Les Cheneaux channels and certain waters of upper Lake Huron as provided in section 38 and 38a of Act No. 84 of the Public Acts of 1929, as amended.

History: 1954 ACS 79, p. 37, Eff. June 5, 1974.

R 299.1074 Areas and depths for use of commercial fishing devices; size of meshes in gill nets.

Rule 4. (1) Including the statutory prohibitions of sections 2, 3, and 30a to 45 of Act No. 84 of the Public Acts of 1929, as amended, being §§308.2, 308.3, and 308.30a to 308.45 of the Michigan Compiled Laws; and by the provisions of section 1 of Act No. 179 of the Public Acts of 1935, section 1 of Act No. 180 of the Public Acts of 1931, as amended, and section 1 of Act No. 92 of the Public Acts of 1931, being §§308.141, 308.151, and 308.161 of the Michigan Compiled Laws, it is unlawful to use gill nets, trap nets, pound nets, seines, and set hooks, except in the manner, time, area, and depths hereinafter prescribed or as provided in a license issued by the director or in a research permit issued by a representative of the director.

LAKE SUPERIOR

(a) Gill nets with meshes 2½ inches to 3 inches, stretch measure, may be used in depths greater than 60 fathoms if the lead lines of the gill nets are set on the bottom.

(b) Trap nets and pound nets may be used in depths less than 15 fathoms in Lake Superior January through October and during December.

LAKE MICHIGAN

(c) Trap nets and pound nets may be used in depths less than 15 fathoms in Lake Michigan January through October and during December, except trap nets and pound nets may be used only for taking smelt and alewife January through May in waters north of a line extending from the mouth of the Ford river in sections 21 and 22, T38N, R23W, to Peninsula point in section 24, T38N, R21W, Delta county.

(d) Gill nets with meshes 2½ inches to 3 inches, stretch measure, may be used in depths greater than 40 fathoms north of a line extending due west from Grand Haven harbor; and in depths greater than 30 fathoms south of a line extending due west from Grand Haven harbor only at such times as to coincide with an open season on chubs established by the natural resources commission.

LAKE HURON

(e) Trap nets and pound nets may be used in depths less than 15 fathoms January through October and during December in the waters of Lake Huron and connecting waters north of a line extending due east from Rogers City to the international boundary.

(f) Gill nets with meshes not less than 8 inches, stretch measure, may be used in waters of Saginaw bay south of a line from point Lookout in section 13, T19N, R7E, Arenac county, to Sand point in section 11, T17N, R9E, Huron county.

(g) Trap nets may be used from April 1 to May 31, and from September 15 to November 30 in an area north and east of Sand point within the following described boundaries: commencing at the monument on the westerly end of Sand point, thence easterly to the section line between section 7, T17N, R10E and section 12, T17N, R9E; thence on a line due north for 2 miles; thence on a line due west to a point due north of the monument on Sand point; thence southerly to the point of beginning.

(h) Trap nets, seines, and set hooks may be used in waters of Saginaw bay south of a line from point Lookout in section 13, T19N, R7E, Arenac county, to Sand point in section 11, T17N, R9E, Huron county; and west of a line extending from Fish point, Tuscola county to the westerly point of Stony island, to the westerly point of North island; thence to the westerly end of Sand point in Huron county.

LAKE ERIE

(i) Trap nets, seines, and set hooks may be used in Lake Erie.

History: 1954 ACS 79, p. 37, Eff. June 5, 1974; 1954 ACS 88, p. 57, Eff. Aug. 10, 1976.

R 299.1075 Closed seasons; disposition of fish taken during closed seasons; minimum perch size limit; violation.

Rule 5. (1) Sturgeon, pike-perch (yellow pickerel), blue pike, sauger, northern pike, splake, coho salmon, chinook salmon, and Atlantic salmon, when caught live

in trap nets, pound nets, and gill nets, shall be returned to the waters immediately. Dead fish of the species named in this subrule, when caught in trap nets, pound nets, and gill nets, shall be dressed, iced, and disposed of in accordance with written disposal instructions issued by a conservation officer and a locked metal seal shall be affixed to each fish before arrival at dock or landing point.

(2) Lake trout and lake herring, when caught in gill nets authorized in Lake Superior, may be sold if a metal seal is affixed to each lake trout pursuant to subrule (1). Lake trout and lake herring, when caught live in trap nets, pound nets, and gill nets in Lakes Michigan and Huron, shall be returned to the water immediately, and a metal seal shall be affixed to dead lake trout and the trout disposed of pursuant to subrule (1).

(3) Chubs and lake herring may be taken only in Lake Superior.

(4) Perch, a minimum of 8 inches total length or 5 inches with heads and tails off, crappie, and rock bass may be taken only in those waters of Lake Huron described in R 299.1074(1)(f) and R 299.1074(1)(g) or as provided in a license issued by the director or in a research permit issued by the director's representative.

(5) The size limit on perch shall remain in effect for a period of 3 years after the date these rules become effective.

(6) A licensee may be permitted to retain as part of his catch up to 5% of the total landed weight of perch which are less than the minimum size limit specified in this rule.

(7) If a licensee is found with between 5% and 15% undersized perch, by weight, in his possession, the first violation shall result in a warning and subsequent violations may result in a proceeding to suspend or revoke his license.

(8) If a licensee is found with 15% or more undersized perch, by weight, in his possession, this may result in a proceeding to suspend or revoke his license.

History: 1954 ACS 79, p. 38, Eff. June 5, 1974; 1954 ACS 88, p. 58, Eff. Aug. 10, 1976; 1954 ACS 93, p. 23, Eff. Dec. 1, 1977.

R 299.1076 Amount of fish to be taken.

Rule 6. (1) The director may fix the kind and amount of fish, herein referred to as quotas, which may be taken from Lakes Superior, Michigan, Huron, and Erie.

(2) The director shall give licensees 30 days advance notice in writing of the quotas which may be taken from Lakes Superior, Michigan, Huron, and Erie. Quotas may be set by area or specified in a license or research permit.

(3) A licensee shall report each day's catch, by kind and amount of fish specified in the quotas, on forms provided by the director. When required, the form shall be mailed to the director or his representative not later than 24 hours after each day's catch is taken.

(4) When the quotas fixed by the director have been caught and licensees so notified in writing, licensees shall not attempt to take any additional quantities of the kind of fish fixed in the quotas.

History: 1954 ACS 79, p. 38, Eff. June 5, 1974.

R 299.1077 Areas licensees permitted to fish; limitations on gear.

Rule 7. (1) A licensee may fish only within a radius of 50 miles of the port specified in the license and all fish shall be landed at that port.

(2) A licensee shall conduct his commercial fishing operation only with the kind and amount of gear specified in his license or research permit.

History: 1954 ACS 79, p. 39, Eff. June 5, 1974.

R 299.1078 Replacement of gill nets with trap and pound nets.

Rule 8. (1) Persons whose gill net fishing operations are prohibited or restricted by these rules and who intend to continue to fish commercially in the waters of this state may replace their gill nets with trap or pound nets. Any person who intends to replace his gill nets with trap or pound nets may continue to use his gill nets where otherwise prohibited by these rules only during 1974 by filing an appropriate application for replacement within the prescribed time designated by the director. Persons licensed to use gill nets in combination with trap or pound nets when these rules become effective may continue to use gill nets only during 1974 where otherwise prohibited by these rules. A person authorized to use gill nets only during 1974 where otherwise prohibited by these rules shall use gill nets only under the provisions of a permit or license issued by the director, the provisions of which shall be substantially the same as those contained in the person's 1974 commercial fishing license. This subrule does not apply to those persons presently licensed to use trap or pound nets only or gear other than gill nets.

(2) To be eligible to replace gill nets with trap or pound nets, a person shall:

(a) Have held a commercial fishing license in 1971, 1972, and 1973 to use gill nets in the waters of this state.

(b) File an application in accordance with instructions on a form provided by the director within 15 days after the effective date of these rules.

(3) Failure of a person to comply with subsection (b) of subrule (2) is evidence that the person no longer wishes to fish commercially and the director shall notify the person to cease and desist using gill nets where prohibited by these rules. The person may voluntarily terminate his license at that time or action will be taken to revoke the license if the person continues to use gill nets where prohibited by these rules.

(4) A person whose application has been properly filed shall be notified and shall request to have his commercial fishing license amended to authorize replacement of gill nets with trap or pound nets.

(5) A person whose license has been amended pursuant to subrule (4) shall provide progress reports on his gill net replacement to the director. Progress reports required by this subrule shall be submitted as follows:

(a) Within 30 days of the effective date of the license amendment, a person shall submit to the director or his representative evidence in the form of purchase orders for gear and materials or other satisfactory information that clearly demonstrates that he has commenced replacing his gill nets with trap or pound nets.

(b) Within 90 days of the effective date of the license amendment, a person shall submit to the director or his representative a progress report that clearly demonstrates his continued progress in replacing his gill nets with trap or pound nets.

(c) By December 31, 1974, all persons who have been authorized to replace gill nets with trap or pound nets shall submit to the director satisfactory evidence of having totally completed the replacement.

(6) A person failing to meet the requirements of subrule (5) shall show cause to the director why the requirements have not been met; and unless authorized by the director, the person shall not be subsequently licensed to fish commercially in the waters of this state.

(7) A person electing to replace his gill nets pursuant to this rule shall be licensed to use no more than 10 trap nets or 10 pound nets, or any combination thereof, so long as the total number of nets does not exceed 10 nets.

(8) If the director finds it necessary to protect the fisheries resources of this state and rules are promulgated as required by law, the use of gill nets as provided by these rules shall be prohibited or restricted.

History: 1954 ACS 79, p. 39, Eff. June 5, 1974.

R 299.1079 Rescission.

Rule 9. The following rules are rescinded:

(a) The rules entitled "Closed Seasons for Taking Whitefish, Yellow Perch, and Black Crappie," being R 299.741 and R 299.743 of the Michigan Administrative Code, and appearing on page 1444 of the 1960 Annual Supplement to the Code.

(b) The rule entitled "Illegal Possession and Disposition of Lake Trout and Splake in Lake Superior," being R 299.772 of the Michigan Administrative Code, and appearing on page 4163 of the 1967 Annual Supplement to the Code.

(c) The rule entitled "Illegal Possession and Disposition of Lake Trout and Splake in Lake Superior," being R 299.792 of the Michigan Administrative Code, and appearing on page 4163 of the 1967 Annual Supplement to the Code.

(d) The rule entitled "Nets: Use, Meshes," being R 299.802 of the Michigan Administrative Code, and appearing on page 3154 of the 1964-65 Annual Supplement to the Code.

(e) The rule entitled "Coho and Chinook Salmon," being R 299.814 of the Michigan Administrative Code, and appearing on page 4164 of the 1967 Annual Supplement to the Code.

(f) The rule entitled "Northern Pike," being R 299.818 of the Michigan Administrative Code, and appearing on page 3639 of the 1966 Annual Supplement to the Code.

(g) The rule entitled "Suspension of Statutory Provisions," being R 299.831 of the Michigan Administrative Code, and appearing on page 4165 of the 1967 Annual Supplement to the Code.

(h) The rules relating to gill nets, being R 299.841 to R 299.845 of the Michigan Administrative Code, and appearing on pages 4685 and 4686 of the 1968 Annual Supplement to the Code and page 5045 of the 1969 Annual Supplement to the Code.

(i) The rules entitled "Commercial Fishing Licenses and Zones," being R 299.881 to R 299.890 of the Michigan Administrative Code, and appearing on pages 10 to 14 of the Supplement No. 76 to the Code.

History: 1954 ACS 79, p. 40, Eff. June 5, 1974.

GEOLOGY DIVISION

OIL AND GAS OPERATIONS

(By authority conferred on the supervisor of wells and the commission of natural resources by section 6 of Act No. 61 of the Public Acts of 1939, as amended, and sections 9 and 251 of Act No. 380 of the Public Acts of 1965, as amended, being §§319.6, 16.109, and 16.351 of the Michigan Compiled Laws)

PERMITS TO DRILL

R 299.1101 Application for permit to drill; requirements; issuance of permit.

Rule 101. (1) Until a person has complied with the requirements of subrule (2), that person shall not begin the drilling of a well for:

(a) Oil or gas.

(b) Secondary recovery or pressure maintenance.

Digitized by Google

(c) Disposal of salt water, brine, oil field waste, or other liquids incidental to the drilling or producing of wells for oil or gas or the storage of natural hydrocarbons derived from oil or gas.

(d) Storage of natural dry gas or oil well gas.

(e) Development of reservoirs for the storage of liquid petroleum gas.

(2) Pursuant to subrule (1):

(a) The exact location of the well shall be established by a competent surveyor or engineer, or by competent company personnel, and a stake or marker shall be set at that location.

(b) The survey required by subdivision (a) shall include a plat or sketch with correct location description, footages from the nearest quarter section and property lines, and information relative to the distances and directions from the stake or marker to special hazards, such as lakes, streams, drainageways, swamps, marshes, regularly used buildings, highways, and power lines, which lie within 300 feet of the proposed locations, and shall note any stream or body of water within 1,320 feet of the proposed location, stating direction and distance. Four certified copies of this survey shall be filed with an application for a permit to drill on forms prescribed by the supervisor.

(c) The person desiring to drill shall completely and accurately fill out, sign, and file a written application for a permit to drill on forms prescribed by the supervisor. The application shall be submitted to the supervisor at the offices of the geology division, Lansing, Michigan, not less than 10 days in advance of the date drilling is expected to be commenced.

(d) The application shall be accompanied by a certification that provision has been made to furnish a derrick floor or ground elevation above sea level datum run by a competent surveyor or competent engineer. This elevation shall be filed with the supervisor within 14 days after the well is spudded.

(e) The person has filed an environmental impact assessment as prescribed by the supervisor.

(f) The person has filed an organization report when requested by the supervisor.

(g) The person has filed a surety bond as provided in R 299.1106.

(h) The person has paid the fee as specified by statute.

(i) The person has received and posted in a conspicuous place at the well location a written permit to drill the well. The permit shall remain posted at the well until the drilling of the well is completed.

(3) The geology division of the department of natural resources shall receive and process all applications for permits to drill. Upon receiving a correct written application conforming to subdivisions (a) to (h) of subrule (2), the application shall be processed, and a permit issued, in accordance with the statutory provisions that the permit be issued within 10 days after receipt of application. A permit may not be issued to a lessee or an authorized representative of a lessee if the lessee is not eligible for a permit, as provided in R 299.1104.

History: 1954 ACS 37, p. 13, Eff. Feb. 14, 1964; 1954 ACS 92, p. 17, Eff. July 13, 1977.

R 299.1102 Definitions.

Rule 102. (1) As used in these rules:

(a) "Act" means Act No. 61 of the Public Acts of 1939, as amended, being §319.1 et seq. of the Michigan Compiled Laws.

(b) "Supervisor" means the supervisor of wells or the authorized representative thereof.

(2) The terms defined in the act have the same meaning when used in these rules.

History: 1954 ACS 37, p. 14, Eff. Feb. 14, 1964; 1954 ACS 92, p. 18, Eff. July 13, 1977.

R 299.1103 Permits for oil or gas storage by conversion of operation.

Rule 103. Should any well or underground operation developed for a non-oil and gas use be converted for the storage of oil or gas or any of the natural hydrocarbons therefrom, the well or underground operation shall be classified as an oil or gas storage operation and subject to the provisions of these general regulations. The operation, conversion, or reworking of the well or underground project for such storage shall be suspended until a permit has been obtained as provided in R 299.1101.

History: 1954 ACS 37, p. 14, Eff. Feb. 14, 1964.

R 299.1104 Eligibility for permit.

Rule 104. The supervisor is prohibited by statute from issuing a permit to any person who is not in compliance with the provisions of the act, these rules, or the orders of either the supervisor or the natural resources commission. Eligibility for permits is conditioned on compliance with such rules and orders in a diligent manner and in accordance with accepted oil field practice.

History: 1954 ACS 37, p. 14, Eff. Feb. 14, 1964; 1954 ACS 92, p. 18, Eff. July 13, 1977.

R 299.1105 Transfer of permits.

Rule 105. (1) Should the person to whom a permit has been issued change the location prior to the drilling of the well, the permit shall be returned to the supervisor for cancellation together with a new application for permit to drill at the new location. No transfer fee shall be required, but drilling shall not be commenced until the requested transfer has been approved by the supervisor and the new permit has been posted at the new location.

(2) Should the person who has obtained a permit to drill dispose of his interest in the well to a new owner before drilling is commenced, while the well is being drilled, or after the well has been completed, a notice of the change of ownership and a request for the transfer of the permit to the new owner shall be submitted to the supervisor in triplicate on forms prescribed by him. The transfer of the permit may be approved on receipt of a properly prepared request, including the signatures of the operator of record and the acquiring operator, and the required surety bond of the acquiring operator.

(3) Should the owner of record or the acquiring operator fail, neglect or refuse to file a notice of change of ownership and request the transfer of a permit for a producible well, the supervisor may require suspension of production from the well until the request for transfer has been filed and approved.

(4) Should the owner of record be under notice because of unsatisfactory conditions on the lease involved with the transfer of a permit, the supervisor may require suspension of production from the well on said lease until:

(a) The owner of record has corrected said unsatisfactory conditions and the permit has been transferred to the new owner; or until

(b) The acquiring operator by written agreement with the supervisor has corrected said unsatisfactory conditions and the permit has been transferred as provided herein.

(5) A permit for a well which has not been drilled, or for a well which is being drilled, may not be transferred to a person who is not in compliance with the statutes, rules, regulations, and orders as provided in R 299.1104.

History: 1954 ACS 37, p. 14, Eff. Feb. 14, 1964.

R 299.1105a Suspension of production on default.

Rule 105a. Should the owner of record sell or dispose of a well without filing a notice of change of ownership and a request for transfer of the permit, the supervisor may require suspension of production from the well, including removal or sale of oil from the lease, until correction has been made of all unsatisfactory lease conditions and transfer of the permit has been completed as provided in R 299.1105(2).

History: 1954 ACS 69, p. 39, Eff. June 21, 1971.

R 299.1106 Surety bond; required.

Rule 106. A person who drills a well as provided in R 299.1101, or who acquires a well or wells as provided in R 299.1105, shall file a surety bond with the supervisor, on a form provided by the supervisor, which has been executed by a responsible surety company authorized to do business in the state of Michigan.

History: 1954 ACS 37, p. 15, Eff. Feb. 14, 1964; 1954 ACS 92, p. 18, Eff. July 13, 1977.

R 299.1107 Liability on the bond.

Rule 107. (1) The liability on the bond is conditioned on compliance with the law, rules, regulations, and orders of the supervisor and this liability shall continue until:

(a) The ownership of the well or wells has been assumed by another person and the permits have been transferred as provided in R 299.1105; or

(b) The well or wells have been abandoned and satisfactorily plugged in accordance with R 299.1801 to R 299.1810 and including the filling of cellars and all pits dug, constructed, or created as a result of the well or wells having been drilled, produced, or plugged, the removal of all debris, leveling of location, tank battery sites, and related areas, and this work has been approved by the supervisor; and until

(c) All logs, plugging records, and other pertinent information required by law, or the rules, regulations, or orders of the supervisor have been filed with and approved by the supervisor.

(2) In the event that the person shall be in default in any particular relative to the condition or conditions of the bond, the supervisor shall look to the surety for immediate compliance and fulfillment of the full conditions thereof and all expense in connection therewith shall be paid by the principal or the surety.

History: 1954 ACS 37, p. 15, Eff. Feb. 14, 1964.

R 299.1108 Surety bond; amount.

Rule 108. A person who drills a well shall file a bond for a single well in the amount of $5,000.00 or shall file a blanket bond for all wells in the amount of $50,000.00.

History: 1954 ACS 37, p. 15, Eff. Feb. 14, 1964; 1954 ACS 92, p. 18, Eff. July 13, 1977.

R 299.1109 Cancellation of blanket bond.

Rule 109. The surety may refuse to accept liability for additional wells under a blanket bond by giving 10 days' notice by registered mail to the supervisor. The bond shall continue in full force and effect on account of the well or wells for which permits were granted or transferred to the principal prior to the effective date of such notice. This procedure does not apply in the case of a single bond.

History: 1954 ACS 37, p. 15, Eff. Feb. 14, 1964.

R 299.1110 Termination of bonds.

Rule 110. A bond shall be terminated only by the supervisor, and only under the following conditions:

(a) When an owner disposes of his well or wells and the permits for said well or wells have been transferred to a new owner as provided in R 299.1105; or

(b) When the well or wells have been plugged and all records filed and approved as provided in R 299.1107.

History: 1954 ACS 37, p. 16, Eff. Feb. 14, 1964.

R 299.1111 Notice of termination of bond.

Rule 111. The supervisor shall advise the surety and the principal when the liability under a bond has been terminated.

History: 1954 ACS 37, p. 16, Eff. Feb. 14, 1964.

R 299.1112 Termination of permit.

Rule 112. (1) A permit which was issued as provided in R 299.1101, or was transferred as provided in R 299.1105, including permits to deepen as provided in R 299.1313, and permit to rework as provided in R 299.1314, shall terminate 1 year after date of issuance if the well for which the permit was issued or transferred has not been drilled, deepened, or reworked, or is not being drilled, deepened, or reworked at that time.

(2) Terminated permits may not be reactivated or transferred, and there shall be no refund of the permit fee. Any drilling, deepening, or reworking at a location or well for which a permit has terminated shall require application for a new permit, payment of a new fee, and compliance with all other requirements of R 299.1101, R 299.1105, R 299.1313, and R 299.1314, when applicable.

(3) A bond filed to conform with a permit which has become terminated shall likewise terminate, and the surety and principal shall be advised accordingly.

History: 1954 ACS 37, p. 16, Eff. Feb. 14, 1964; 1954 ACS 92, p. 18, Eff. July 13, 1977.

LOCATION AND SPACING OF WELLS

R 299.1201 Location and spacing requirements.

Rule 201. The following are the requirements for the location and spacing of wells to be drilled for oil or gas, except for wells to be drilled in gas storage reservoirs, liquid petroleum gas storage reservoirs, unitized areas, and other specifically designated areas or geological formations where special spacing orders, rules or determinations are in effect:

(a) The drilling unit for wells to be drilled for oil or gas shall be a legal subdivision of 40 acres, more or less, defined as a governmental surveyed quarter-quarter section of land. It shall conform to 1 of the quarter-quarters of a governmental surveyed section of land, allowances being made for the differences in the size and shape of sections as indicated by official governmental survey plats.

(b) The supervisor may issue a permit to drill an exploratory well on a tract less than a 40-acre drilling unit which is not a part of a pooled or communitized drilling unit providing the application for permit is accompanied by a certified statement that a reasonable effort has been made to obtain the lease or leases or to obtain a communitization agreement to form the full 40-acre drilling unit and that such effort has failed. Should a discovery well be completed on such partial drilling unit, a full drilling unit shall be formed by voluntary or compulsory pooling. This pooled unit shall conform with the provisions of subdivision (a) or

Open Access, Google-digitized / http://www.hathitrust.org/access_use#cc-by-nc-sa-google

shall conform to a drilling unit to be adopted following public hearing in accordance with R 299.1203.

(c) The supervisor may issue a permit for the drilling of an off-pattern or partial drilling unit development well following notice and public hearing to determine the need or desirability of issuing such permit. Such wells, being located contrary to the drilling unit and spacing pattern established by these general regulations or contrary to an applicable spacing order of the supervisor, shall be subject to such restricted or adjusted allowables as the supervisor may deem necessary to insure they will produce only their just and equitable share of the oil and gas from the reservoir.

(d) A permit may be granted for the drilling of a well for oil or gas provided the location is at least 330 feet from an adjoining drilling unit as prescribed in subdivision (a) and when the location is approximately 1,320 feet from any adjacent well, unless the adjacent well has been located irregularly as an exception to the normal spacing or unless an applicable spacing order requires a different spacing of wells. The location for which such permit shall be granted shall be in the center of the drilling unit or in the center of 1 of the quarters thereof.

History: 1954 ACS 37, p. 16, Eff. Feb. 14, 1964.

R 299.1202 Location of development wells.

Rule 202. (1) Development wells to be located on drilling units within a 2-mile radius of a discovery well, or on the same apparent contiguous structure, shall be located in the same relative position in each drilling unit as that of the discovery well. This uniform spacing of wells shall be followed until such time as a special spacing order may be adopted following notice and public hearing as provided in R 299.2003.

(2) If said discovery well is located in the center of a quarter-quarter section of land, no permit shall be granted for the drilling of a development well within a 2-mile radius of such well, or on the same apparent contiguous structure, until a public hearing has been held to determine the need or desirability of adopting a special spacing order as provided in R 299.1203.

History: 1954 ACS 37, p. 17, Eff. Feb. 14, 1964.

R 299.1203 Adoption of special spacing orders.

Rule 203. The development of an oil or gas field following the completion of a discovery well may warrant the adoption of a drilling unit and well spacing pattern other than that specified in R 299.1201(a). Any interested person may request, or the supervisor may schedule, a hearing to consider the need or desirability of adopting a special spacing order to apply to a designated area, field, pool, or geological formation. The drilling unit established by such special spacing order may be smaller or larger than the basic 40-acre unit prescribed in R 299.1201(a).

History: 1954 ACS 37, p. 17, Eff. Feb. 14, 1964.

R 299.1204 Voluntary pooling.

Rule 204. The lessees or lessors, or both, of separate tracts or mineral interests which lie partially or wholly within an established drilling unit may pool or communitize such tracts or interests to form full drilling units and to develop such units in accordance with the provisions of these general regulations and any applicable orders of the supervisor.

History: 1954 ACS 37, p. 17, Eff. Feb. 14, 1964.

R 299.1205 Compulsory pooling.

Rule 205. The supervisor may require the pooling of tracts or mineral interests within a drilling unit when the owners of such tracts or mineral interests have not agreed, or do not agree, upon the pooling of said interests to form full drilling units in accordance with these general regulations and any applicable spacing order. Such compulsory pooling shall be done on a basis which will permit each owner of an interest within a drilling unit the right and opportunity to receive his just and equitable share of the production from the unit. Compulsory pooling shall be adopted by the supervisor only after public hearing as provided in R 299.2004, after conference with and recommendation by the advisory board, for the purpose of preventing waste, and to prevent the drilling of unnecessary wells.

(2) Any interested person may file a petition for pooling order with the supervisor. The petition shall set forth the following items in addition to those specified in R 299.2004 and any other matters the petitioner may deem pertinent:

(a) The legal description of the drilling unit affected and identification of the applicable spacing order.

(b) The ownership of the interests within the drilling unit.

(c) Certified statements indicating in detail what action the petitioner has taken to obtain a voluntary pooling agreement.

(d) Whether or not the petitioner desires to drill the well on the said unit, and the recommendation of the petitioner as to what arrangements will be just and equitable to all owners within the drilling unit.

(e) The estimated costs of drilling, completing and equipping the well.

(3) The supervisor, upon receipt of an appropriate petition, shall schedule a hearing to be held on the matter within 30 days.

(4) A notice of hearing shall be furnished by the supervisor and shall be published as specified by the supervisor. Affidavits of publication and proof of service of the notice to interested persons shall be filed with the supervisor as provided in R 299.1004.

(5) Following a hearing on a petition for an order to pool, after thorough consideration of the evidence and testimony submitted, and after conference with and receipt of recommendations by the advisory board, the supervisor shall rule that pooling is not necessary to prevent waste or shall enter his order pooling the separately owned tracts and interests within the drilling unit. Such pooling order shall authorize one of the owners within the affected unit to drill the well thereon and provide that the well shall be commenced within 90 days or the pooling order shall be null and void as to all parties and interests. The order shall set forth the terms and conditions under which each of the owners may share in the working interest production from the well if it is producible. The order shall provide for conditions under which each owner who has not voluntarily agreed to pool may share in the working interest production or be compensated for his working interest within the drilling unit, to wit:

(a) Pay to the party authorized to drill the well his proportionate share of the cost of drilling, completing, and equipping the well, or give bond for the payment of such share of such cost promptly upon completion, whether as a producer or a dry hole; or

(b) Await the outcome of the drilling of the well and, if it be completed as a producer, allow the driller of said well to take out of the nonparticipating party's share of production therefrom said party's share of the cost of drilling, completing and equipping the well, plus such additional per cent of said costs as the supervisor may deem appropriate compensation for the risk of a dry hole, plus the nonparticipating party's share of operating costs.

(6) The nonparticipating owner who has theretofore failed to agree to the drilling of the well shall make an election within 10 days of the date of the order as to which alternative, subrule (5)(a) or (b), he shall select. In the event that the nonparticipating party does not notify the supervisor in writing within 10 days of his election, he shall be deemed to have elected subrule (5)(b) and the party permitted to drill may proceed with the commencement of the well on this basis.

(7) In any pooling order, the owner of an unleased mineral interest will be treated as a working interest owner to the extent of ⅞ of this total interest and as a royalty owner or lessor to the extent of ⅛ of his total interest, the latter interest being free of any withholding for contribution to well costs.

(8) All operations, including, but not limited to, the commencement, drilling, completing, equipping, or operation of a well upon any portion of a drilling unit for which pooling has been ordered, shall be deemed for all purposes the conduct of such operations upon each separately owned tract in the drilling unit. That portion of the production allocated to a separately owned tract or separately owned interest included in a drilling unit shall, when produced, be deemed for all purposes to have been actually produced from such tract or tracts by a well drilled thereon.

R 299.1206 Preparation of well location to prevent pollution.

Rule 206. No drilling shall be commenced at a location where there is danger that oil, oily wastes, or salt water may escape into and pollute any stream or lake, or other body of water, until the owner shall have complied with the methods and means to prevent such pollution as have been specified by the supervisor.

History: 1954 ACS 37, p. 18, Eff. Feb. 14, 1964.

DRILLING

R 299.1301 Approved methods of preventing waste.

Rule 301. Any person drilling for or producing oil or gas for any purpose shall use every possible precaution in accordance with the most approved methods to stop and prevent waste of oil or gas, or both, in drilling or producing operations, storage, or in piping or distributing the same.

History: 1954 ACS 37, p. 18, Eff. Feb. 14, 1964.

R 299.1302 Rotary drilling.

Rule 302. The following rules on drilling procedure shall apply to wells drilled with rotary tools, except when special orders may be adopted to apply to specific reservoirs or areas:

(a) The drilling fluid used in a well drilled with rotary equipment shall be capable of sealing off each oil, gas, brine or fresh water stratum above the producing horizon or objective formation and of controlling blowouts and flows. The casing and sealing off and conditioning of drilling fluid shall be in accordance with good drilling practice and tested by such methods and means as may be prescribed or approved by the supervisor.

(b) Suitable surface pipe or casing shall be set through the glacial drift and through any fresh water occurring below the drift, and shall be cemented by the pump and plug method or displacement method with sufficient cement to circulate to the surface. Requests for exception to this requirement may be indicated on the application for permit or may be submitted in writing to the supervisor.

(c) The cement used on the surface pipe or casing shall be allowed to set at static balance or under pressure for a minimum of 12 hours before drilling the plug.

(d) The use of blowout equipment in proved areas shall be in accordance with established practice or special rules applying in the area. A well in an unproved area shall be equipped with a master gate or its equivalent, adequate blowout preventer, and a flow line of the proper size and working pressure. The entire control equipment shall be in good working condition at all times. The outlets, fittings, and connections on the casing, blowout preventer, and auxiliary well head equipment which may be subjected to well head pressure shall be of material and construction that will stand any anticipated working pressure. The lines from outlets on or below the blowout preventers shall be securely anchored. A blowout preventer shall be installed above ground level.

(e) Blowout prevention equipment shall be pressure tested to a pressure commensurate with the objective formation before drilling the plug on the surface pipe, before encountering the objective formation, and at other intervals in accordance with good oil field practice. A record of each pressure test and each mechanical test of the casings, blowout preventers, surface connections and fittings, and auxiliary well head equipment shall be entered in the log book, signed by the driller, and kept available for inspection by the supervisor or his authorized representative.

(f) The production string of casing shall be cemented by an approved oil field method, properly tested by the pressure method, and allowed to set a minimum of 12 hours before the cement plugs are drilled.

History: 1954 ACS 37, p. 19, Eff. Feb. 14, 1964; 1954 ACS 69, p. 40, Eff. June 21, 1971.

R 299.1303 Cable tool and rotary-cable tool combination drilling procedures.

Rule 303. The following rules shall apply to wells drilled with cable tools or with rotary-cable combination tools, except when special orders of the supervisor apply to a specific reservoir or area:

(a) Drive pipe shall be landed through the glacial drift and shall be tested by bailing to insure a shut-off of waters encountered above the shoe. Rotary surface pipe on combination holes shall be set through the glacial drift or at a lower point suitable for changing over to cable tools in accordance with an approved casing and sealing program.

(b) Wells drilled with cable tools shall have the innermost string of casing equipped with a high pressure master gate valve, control head, and oil saver, or other approved combination of equipment, all securely anchored to the drive pipe or to a casing string before drilling into or through any formation known likely to contain oil or gas. The well head equipment installed to keep a well under control shall be in good working order when installed and maintained in good working order throughout its use on the well and shall be capable of being equipped with a bottle or lubricator when such control is necessary.

History: 1954 ACS 37, p. 19, Eff. Feb. 14, 1964.

R 299.1304 Pits for drill cuttings.

Rule 304. Drill cuttings from wells drilled shall be confined by a pit or pits of proper size and construction and located in close proximity to the well bore.

History: 1954 ACS 37, p. 20, Eff. Feb. 14, 1964; 1954 ACS 92, p. 18, Eff. July 13, 1977.

R 299.1305 Requests for exceptions.

Rule 305. Requests for exception to any of these rules may be included in the application for permission to drill or may be submitted in writing to the

supervisor. Such requests will be granted when they conform with good oil field practice and when wells are located in areas where it is known conditions are not hazardous.

History: 1954 ACS 37, p. 20, Eff. Feb. 14, 1964.

R 299.1306 Casing and sealing.

Rule 306. (1) Every person who drills a well as provided in R 299.1101, or causes such a well to be drilled, shall case and seal off each oil, gas, brine, or fresh water stratum above the producing horizon or objective formation to prevent effectively the migration of oil, gas, brine or fresh water to other strata.

(2) The casing used in the drilling and completing of any well is not to be pulled from the well, except when it is necessary to pull and reset a string of casing to obtain a satisfactory casing seat, until approval for such removal has been received from the supervisor.

(3) Wells to be drilled through reservoirs being operated for secondary recovery or for gas storage shall have the casing set through such reservoirs adequately cemented. Only rotary drilling equipment shall be used, with blowout prevention equipment installed, while drilling through gas storage reservoirs. The cementing procedure to be followed is to be approved by the supervisor.

History: 1954 ACS 37, p. 20, Eff. Feb. 14, 1964.

R 299.1307 Producing from different reservoirs through same string of casing.

Rule 307. No well shall be permitted to produce either oil or gas from different pools through the same string of casing without first receiving permission from the supervisor. (See R 299.1407, pertaining to the commingling of oil and gas production.)

History: 1954 ACS 37, p. 20, Eff. Feb. 14, 1964.

R 299.1308 Steel line measurements.

Rule 308. The depth to the top of key formations shall be determined by the use of a steel measuring line or other accurate method. Drill pipe measurements may be made on wells drilled with rotary equipment. Such measurements and corrections, and their vertical extent and direction, shall be entered in the drilling log book and become a part of the record and log of the well.

History: 1954 ACS 37, p. 20, Eff. Feb. 14, 1964.

R 299.1309 Well records.

Rule 309. (1) A person who drills a well as provided in R 299.1101 shall keep and preserve at the well accurate records of the drilling, reworking, or deepening of the well, showing all formations penetrated, casing used, and other pertinent information as may be required by the supervisor in connection with the drilling of the well. All information shall be available to the supervisor or his authorized representative at all times. The records shall be protected from damage or destruction from any preventable cause.

(2) When requested by the supervisor, the operator shall file a copy of service company records, including, but not limited to, records of mudding, cementing and squeeze jobs, acidizing, perforating, fracturing, shooting, temperature surveys, bond logs, and caliper surveys.

(3) The supervisor shall respect the right of the operator to keep drilling information and other related data confidential before completion of a well.

However, the supervisor may require the receipt of these data during drilling operations when a hazardous or emergency situation exists before completion.

History: 1954 ACS 37, p. 20, Eff. Feb. 14, 1964; 1954 ACS 69, p. 40, Eff. June 21, 1971.

R 299.1310 Samples of drill cuttings.

Rule 310. Every person who drills a wildcat or exploratory well as provided in R 299.1101 shall take and preserve adequate samples, properly identified, of the drill cuttings encountered from the base of the drift to the total depth. Similar samples shall be taken and preserved during the drilling of development or field wells when requested by the supervisor. Drift samples shall be taken and preserved when specifically requested by the supervisor. These samples shall be available to the supervisor upon request. One complete set of samples in approved sample bags shall be delivered to the supervisor at his office or district office, to a specified laboratory or washing station, or as otherwise designated, within 30 days after completion of the well. No samples, or sets of samples, gathered for the supervisor shall be destroyed at a well or elsewhere without the permission of the supervisor.

History: 1954 ACS 37, p. 20, Eff. Feb. 14, 1964.

R 299.1311 Well log to be filed.

Rule 311. (1) Every person who drills a well, as provided in R 299.1101, shall file with the supervisor, within 30 days after the drilling, acidizing, fracturing, and testing incidental to the completion of the well have been accomplished, a complete log or record of the well, duly signed, on forms prescribed by the supervisor. This record shall be filed although samples of the drilling cuttings have been taken and saved.

(2) A proper log on any well shall include all normally recorded information on the following:

(a) Depth to and thickness of water-bearing sands and gravels in the glacial drift, including fill-up and volumes of such water.

(b) Lithology of formations penetrated, including color, hardness, and character of the rock.

(c) A record of all oil, gas, and salt water encountered, including fill-up, volumes, and pressures.

(d) A record of all casing and liners used, including the size, weight, and amount and depth set, the amount of cement used on each casing string, and the amount of casing stripped from the hole on completion of the well.

(e) Data on drill stem tests.

(f) Generalized core descriptions.

(g) Data on perforating, acidizing, fracturing, shooting, and testing.

(h) Data on bridge plugs set, make and type of plug, depth set, whether left in place or removed, and detail of plug back operation below the bridge.

(3) All logs on any well may be kept confidential for a period of 90 days after completion of the well or suspension of drilling operations by filing a written request with the supervisor.

History: 1954 ACS 37, p. 20, Eff. Feb. 14, 1964.

R 299.1312 Electric or radiation-type logs.

Rule 312. (1) A copy of all electric or radiation-type logs, when they are run, shall be filed with the supervisor within 30 days after completion of the well. Such logs may be kept confidential in the same manner as provided in R 299.1311.

(2) Copies of electric or radiation-type logs shall not be made available for sale by the supervisor or otherwise distributed to any person or operator.

History: 1954 ACS 37, p. 21, Eff. Feb. 14, 1964.

R 299.1313 Deepening operations.

Rule 313. (1) Every person who desires to deepen a well below the depth at which it was completed originally shall file an application for permission to deepen with the supervisor. The application shall set forth in detail the new proposed total depth and the plan for casing and sealing off any oil, gas, brine, or fresh water strata to be found, or expected to be found, in the deepening operation. A deepening permit is to be issued when the application has been approved by the supervisor. Actual deepening operations are not to be commenced until the deepening permit has been posted at the well location.

(2) Samples of the drill cuttings shall be saved during deepening operations in the same manner as provided in R 299.1310 during the original drilling operation.

(3) Every person who deepens a well shall file with the supervisor a complete log of the deepening, duly signed, on forms prescribed by the supervisor. The log or record shall be filed within 30 days after the deepening, shooting, initial acidizing and testing have been completed. The log is to be filed even though samples of the drill cuttings have been taken and saved.

(4) Copies of electric or radiation type logs, when they are run during the deepening operation, shall be filed with the supervisor in the same manner as provided in R 299.1312.

History: 1954 ACS 37, p. 21, Eff. Feb. 14, 1964.

R 299.1314 Rework operations.

Rule 314. (1) Every person who desires to rework a well by plugging back, converting for brine disposal, converting for secondary recovery, repressuring, or flooding with gas or water, converting for use as an observation well, stripping of casing strings, multiple completion, or otherwise changing the status of a well by any operation except additional acid or other stimulation treatment, shall file an application for permission to rework with the supervisor. The application shall set forth in detail the kind of rework operation to be accomplished and the plan for protecting all oil, gas, brine or fresh water strata which the well has penetrated.

(2) Applications for permission to rework for the disposal of salt water, or use in secondary recovery or pressure maintenance, shall be filed in accordance with the provisions of R 299.1606 or R 299.1701, respectively.

(3) Every person who changes the status of a well by rework operation shall file with the supervisor a complete well rework record on forms prescribed by the supervisor. The well rework record shall be filed within 30 days after the final completion of the rework operation.

History: 1954 ACS 37, p. 21, Eff. Feb. 14, 1964.

R 299.1315 Directional drilling.

Rule 315. (1) "Directional drilling," as used in this rule, means the intentional changing of the direction of a well bore from the vertical when drilling. A person who desires to drill a well, or rework a well, or to otherwise intentionally deflect a hole from the vertical, shall first obtain a permit to drill as provided in R 299.1101, or shall obtain permission to rework as provided in R 299.1314.

(2) The supervisor may issue a permit for directional drilling of a well or may grant permission for the reworking of a well by directional drilling. The

supervisor may require notice and a public hearing to determine the need or desirability of such an operation.

(3) The application for permission to drill a well directionally, or to rework a well by directional drilling, shall include, in addition to the normally required information, the depth at which deviation from vertical is planned and the proposed objective of the well as to its direction and horizontal distance from the surface location at its final depth.

(4) The supervisor may require directional drilling of a well when it is considered essential to protect specific values, such as a stream, lake, project area, park, building, highway, or natural or developed feature.

History: 1954 ACS 37, p. 22, Eff. Feb. 14, 1964; 1954 ACS 69, p. 40, Eff. June 21, 1971; 1954 ACS 92, p. 18, Eff. July 13, 1977.

R 299.1316 Survey of directionally drilled well.

Rule 316. A well survey shall be made on each directionally drilled well immediately following the completion of the drilling and before setting the final string of casing to determine the exact course of the hole. This survey shall be made available immediately to the supervisor. A certified copy of this survey shall be filed with the supervisor within 30 days after completion of the survey.

History: 1954 ACS 37, p. 22, Eff. Feb. 14, 1964.

R 299.1317 Production from directionally drilled wells.

Rule 317. The production from directionally drilled wells completed contrary to the established well spacing pattern shall be limited or restricted in the same manner as provided in R 299.1201(c) for regularly drilled wells located contrary to the applicable spacing pattern. No allowable shall be assigned or production permitted from a directionally drilled well until a certified well survey has been furnished to the supervisor.

History: 1954 ACS 37, p. 22, Eff. Feb. 14, 1964.

R 299.1318 Drilling to completion.

Rule 318. The owner or operator of a drilling well which has been shut down in excess of 90 days, or if such well may be causing waste, contamination, or pollution, shall upon request of the supervisor show cause why the well should not be considered as an abandoned well and subject to the provisions herein applying to abandoned wells. An extension of time in excess of the 90 days may be granted by the supervisor upon receipt of a written request specifying suitable cause or need for such extension.

History: 1954 ACS 37, p. 22, Eff. Feb. 14, 1964.

R 299.1319 Shutting down drilling operation.

Rule 319. The supervisor shall have the authority to shut down any drilling operation at which the owner or operator, or his authorized representative, is not complying or has not complied with the rules, regulations, or orders of the supervisor which pertain to the drilling or completion of such well. Such shut down time shall continue until correction has been made and there is compliance with the rules, regulations, or orders of the supervisor.

History: 1954 ACS 37, p. 22, Eff. Feb. 14, 1964.

R 299.1320 Stripping of casing.

Rule 320. (1) The pulling or stripping of a string of casing from any well shall be prohibited except under the following circumstances:

(a) When provision is made for the removal of casing in the casing and sealing program specified in the application for permission to drill.

(b) When casing is pulled and reset in the same formation to obtain a satisfactory casing seat.

(c) When a well is being plugged back or is being plugged to the surface in accordance with rework or plugging procedure prescribed herein.

(2) The annular space left open and the formations exposed by the approved pulling and stripping of casing shall be sealed by a material adequate to prevent the migration of oil, gas, brine, or fresh water from one strata to another.

History: 1954 ACS 37, p. 22, Eff. Feb. 14, 1964.

R 299.1321 Lost holes.

Rule 321. (1) A revised application indicating the new location and corrected footages shall be filed with the supervisor when a hole has been lost and it is necessary to skid or move to start a new hole. No new or additional fee will be required provided the new location is on the same quarter-quarter-quarter section (10 acres) as the lost hole.

(2) Delay in skidding a rig or moving to a new location because of a lost hole may be avoided by contacting the Lansing office of the geological survey division in person or by telephone for permission to make the move. Approval shall be granted immediately provided:

(a) The new location will be made at a minimum distance from the lost hole.

(b) The new location will not be closer than 330 feet from the lines of the drilling unit.

(c) There are no lakes, streams, drainageways, or marshes within 300 feet, or buildings or other structures within 75 feet of the new location.

(d) Provided a new revised application shall be filed promptly.

(3) A lost hole shall be plugged promptly and in accordance with the provisions in these general regulations which pertain to the plugging of wells.

(4) A well log and well plugging record shall be filed on all lost holes in accordance with the provisions in these general regulations which pertain to regularly drilled and completed wells.

History: 1954 ACS 37, p. 23, Eff. Feb. 14, 1964.

R 299.1322 Service company records.

Rule 322. When requested by the supervisor, an operator or his representative shall file service company records pertaining to cementing, acidizing, perforating, hydraulic fracturing, shooting, temperature surveys, caliper surveys, or other operations regarding the status of a well or wells.

History: 1954 ACS 37, p. 23, Eff. Feb. 14, 1964.

PRODUCTION

R 299.1401 Use of earthen reservoirs.

Rule 401. Oil shall not be stored or retained in earthen reservoirs or open receptacles.

History: 1954 ACS 37, p. 23, Eff. Feb. 14, 1964.

R 299.1402 Use of vacuum pumps.

Rule 402. Vacuum pumps or other devices shall not be used for the purpose of creating a partial vacuum in any formation producing, or capable of producing,

oil or gas, except upon written permission of the supervisor and the offset operators.

History: 1954 ACS 37, p. 23, Eff. Feb. 14, 1964.

R 299.1403 Production of carbon black.

Rule 403. The production of carbon black within the state of Michigan by the process of burning natural gas is prohibited except on written approval of the supervisor.

History: 1954 ACS 37, p. 23, Eff. Feb. 14, 1964.

R 299.1404 Tubing and producing of flowing wells.

Rule 404. Each flowing oil well shall be tubed immediately, and if not tubed within 5 days after commencement of flow, the well will be shut in; provided, however, that where it is shown from the written petition filed by the producer and from an investigation by the supervisor that the well or wells involved have such high gas pressure or large oil producing capacity that the immediate tubing of such well or wells would place the persons tubing same in imminent danger of their lives or injury to their persons, or result in waste or great property damage, the supervisor may grant a reasonable extension or extensions of time to tube such well or wells. Tubing shall not be required in casing 2⅞ inches or less in diameter.

History: 1954 ACS 37, p. 23, Eff. Feb. 14, 1964.

R 299.1405 Maintaining back pressure in flowing and pumping wells.

Rule 405. The well head of each flowing or pumping well shall be so equipped that there will be no uncontrolled escape of gas to the air; provided, however, that where it is shown from the written petition filed by the producer and from the investigation made by the supervisor that the well or wells involved cannot be produced when so equipped, the supervisor shall grant such reasonable exceptions as may be necessary.

History: 1954 ACS 37, p. 23, Eff. Feb. 14, 1964.

R 299.1406 Multiple zone completions.

Rule 406. (1) Multiple zone completion shall mean the completion of any well so as to permit the production from more than 1 common source of supply with such common sources of supply completely segregated.

(2) A public hearing shall be scheduled to determine the need or advisability of approving an application for a multiple zone completion. A field-wide order permitting multiple zone completions may be adopted by the supervisor following a public hearing on the matter.

History: 1954 ACS 37, p. 24, Eff. Feb. 14, 1964.

R 299.1407 Commingling of oil and gas production.

Rule 407. The producing of oil and gas from 2 or more reservoirs through the same string of casing shall be permitted only upon written application and approval by the supervisor. A public hearing shall be scheduled to determine the need or desirability of approving the application. A field-wide order permitting commingling of oil or gas may be adopted by the supervisor following a public hearing.

R 299.1408 Gas limitations and gas-oil ratios.

Rule 408. No well shall be permitted to produce gas in excess of the maximum allowable determined for a pool unless all gas produced in excess thereof is returned to the pool from which it was produced. Gas-oil ratios contributing to waste shall be subject to restriction by the supervisor.

History: 1954 ACS 37, p. 24, Eff. Feb. 14, 1964.

R 299.1409 Production from directionally drilled wells.

Rule 409. No allowable shall be assigned or production permitted from a directionally drilled well until a certified well survey has been furnished to the supervisor. Directionally drilled wells completed at a point in the objective formation which is contrary to the established well spacing pattern shall be limited or restricted in the same manner as provided for regularly drilled wells located contrary to such spacing.

History: 1954 ACS 37, p. 24, Eff. Feb. 14, 1964.

R 299.1410 Central production facility.

Rule 410. (1) "Central production facility," as used in this rule, means the consolidation of production equipment at 1 central location for the express purpose of separating, metering, holding, and marketing of oil and gas production from 2 or more productive units of diverse ownership.

(2) If an owner or operator of 2 or more leases desires to consolidate production operations through use of a central production facility, that person shall file with the supervisor a written request for approval of such facility. The request shall include a detailed description and plan of the proposed facility and an environmental impact assessment. The request shall be reviewed for accuracy, adequacy, and suitability and an on-site field review shall be made. Notice and a public hearing may be required pursuant to R 299.2001 and R 299.2004.

History: 1954 ACS 92, p. 19, Eff. July 13, 1977.

PRORATION

R 299.1501 Proration of oil and gas pools and fields.

Rule 501. The proration of production from any oil or gas pool or field shall be established by order of the supervisor following a public hearing before the supervisor and the advisory board. The supervisor, after due consideration of the evidence and testimony submitted at the hearing and the recommendation made by the advisory board, shall determine the allowables of oil and gas to be specified by such order.

History: 1954 ACS 37, p. 24, Eff. Feb. 14, 1964.

R 299.1502 Method of prorating wells.

Rule 502. The proration order shall specify the maximum amount of oil and gas which may be produced per well per 24-hour day for wells completed in conformance with an established drilling unit and well spacing pattern.

History: 1954 ACS 37, p. 24, Eff. Feb. 14, 1964.

R 299.1503 Calculation of allowable production.

Rule 503. The allowable production from any well shall be calculated on a calendar monthly basis and shall amount to the daily allowable multiplied by the number of days in the month. The total well allowable for wells completed during the month shall be computed only for the number of days in the month following

the completion date of the well, including such completion date. The completion date for computing monthly allowable production shall be the first date during which a well produces its full daily allowable of oil or gas. Previous to the first day of full production, the allowable from any newly completed well shall be only the oil actually produced.

History: 1954 ACS 37, p. 24, Eff. Feb. 14, 1964.

R 299.1504 Tolerance from regularly calculated production.

Rule 504. (1) The producer and purchaser of oil and gas from a prorated lease shall be allowed a tolerance not to exceed 1 day's allowable production from each well on the lease for any calendar month, provided such overproduction or underproduction are adjusted during the next calendar month.

(2) If some emergency condition arises beyond the control of a producer or purchaser which prevents the producer from producing his regularly scheduled allowable production or the purchaser from running his regularly scheduled amounts of oil or gas during a calendar month, greater in amount than 1 day's allowable production, either 1 or both may apply in writing to the supervisor for permission to make up such underages.

(3) If a producing well is completed during the last 7 days of a calendar month on any lease that is located in a pool or field which is being prorated, the producer and the purchaser may apply in writing to the supervisor for permission to adjust any overproduction and overruns from such a well that may have been necessary incident to its completion during the succeeding calendar month.

(4) Any application made under subrules (2) and (3) above shall set forth all facts pertinent to the matter. The supervisor shall consider the application and after doing so may give permission in writing to make adjustment under such terms and conditions as may be prescribed.

History: 1954 ACS 37, p. 24, Eff. Feb. 14, 1964.

R 299.1505 Production from well drilled on tract smaller than full drilling unit.

Rule 505. Each producing well on a tract less than a full drilling or producing unit shall produce only in the ratio of the area of such tract to the area of the full drilling or producing unit prescribed for the field or pool in which such tract is located.

History: 1954 ACS 37, p. 25, Eff. Feb. 14, 1964.

R 299.1506 Transfer of allowables between wells on multiple well leases not permitted.

Rule 506. Where there is more than 1 producing oil or gas well on a lease, no well shall be permitted to produce oil or gas above the allowables provided in R 299.1504 and R 299.1505 to make up for failure of any other well or wells on the same lease to produce a full allowable or allowables.

History: 1954 ACS 37, p. 25, Eff. Feb. 14, 1964.

R 299.1507 Wells losing production during one monthly production period are not permitted to make up during a subsequent period or from other wells.

Rule 507. Should any well be partially shut down or for any reason is off production for any portion or portions of any calendar monthly period, such well shall not be permitted during any subsequent calendar monthly period to make up for any oil or gas production that may have been lost because of such shut down or off production period except as allowed under rule of tolerance (R 299.1504)

and no other well on the same lease shall be permitted to produce any extra oil or gas to make up for such lost production.

History: 1954 ACS 37, p. 25, Eff. Feb. 14, 1964.

R 299.1508 Tanks or separators on multiple well leases to be hooked up so that each well may be tested separately.

Rule 508. Each well shall be so hooked up or connected to separators or stock tanks that its oil or gas production may be segregated from oil or gas from all other wells and that individual gauges of daily oil and gas production of each well may be made.

History: 1954 ACS 37, p. 25, Eff. Feb. 14, 1964.

R 299.1509 Regular producing capacity tests and reports for wells producing under oil allowable only.

Rule 509. (1) Upon the issuance of a proration order establishing the oil withdrawal rates from a field or pool, monthly producing tests to establish the oil and water capacity of each well shall be made within each calendar month. At such time as the producing reservoir has been reasonably defined and further development seems limited monthly capacity tests and reports may be supplanted, at the discretion of the supervisor, by a quarterly report with all tests to be made in the last month of the quarter.

(2) The results of such tests, whether monthly or quarterly, shall be filed with the supervisor on forms prescribed by him no later than the tenth day of the month following the month in which the wells were tested.

History: 1954 ACS 37, p. 25, Eff. Feb. 14, 1964.

R 299.1510 Regular producing capacity tests and reports for wells producing under both oil and gas allowable.

Rule 510. (1) Should a field or well be subject to a proration order limiting both the oil and gas allowable, then specific test procedures will be adopted for such field or well.

(2) The specific test requirements, such as frequency of tests and test conditions, will be those which are reasonably adaptable to particular field conditions. If convenient and desirable, the supervisor may set forth test requirements in conjunction with the proration order following a public hearing.

(3) If test requirements are not set forth in the proration order, then R 299.1509 will apply until such time as specific test requirements and procedures are issued for the field. The supervisor may amend or abrogate any previously adopted test requirement, or set up new test requirements, when necessary in order to adapt to changing field conditions.

(4) Neither a wide open test nor a full 24-hour test will be required (R 299.1509, R 299.1510) for any well that has a producing capacity in excess of its daily allowable. No wide open capacity test of any well shall be made if such test will create waste or result in coning of gas or water. All gauges and tests shall be made by such methods and at such times as will result in determination of the true productive capacity of the wells under normal operating conditions. Reports shall be certified by the operator or his representative who is responsible for administration and execution of the tests.

History: 1954 ACS 37, p. 25, Eff. Feb. 14, 1964.

R 299.1511 Producing capacity tests on a newly completed well or wells following repairs.

Rule 511. Special daily producing capacity tests shall be made of any newly completed well or of any previously tested well when rework or any commercial or mechanical stimulation of such well may have resulted in changes in producing capacity. Such special tests shall be made within 10 days after completion of drilling, rework, or treatments and shall be reported within 10 days after completion of drilling, rework, or treatments and certified on forms provided by the supervisor.

History: 1954 ACS 37, p. 26, Eff. Feb. 14, 1964.

R 299.1512 Special producing capacity tests by operator.

Rule 512. The owner or operator of any well who believes that a previously reported test has represented less than the true average regular daily production capacity of a well may make a new special test of such well, and report and certify the results of such test to the supervisor on forms provided by him.

History: 1954 ACS 37, p. 26, Eff. Feb. 14, 1964.

R 299.1513 Special producing capacity tests by the supervisor.

Rule 513. The supervisor or his representative may call upon any owner or operator of any well as any time, either with or without previous notice, which notice may be directed to the operator, or his foreman, for a special producing capacity test of such well and the supervisor or his representative may supervise such test or make gauges incident to such test.

History: 1954 ACS 37, p. 26, Eff. Feb. 14, 1964.

R 299.1514 Producers responsible for regulating production and making required tests.

Rule 514. Each operator, owner or producer of oil or gas shall be responsible for regulating production from wells under his operating control so that no individual well shall produce more oil or gas than permitted by the rules and orders of the supervisor.

History: 1954 ACS 37, p. 26, Eff. Feb. 14, 1964.

R 299.1515 Reservoir pressure and associated data.

Rule 515. (1) The supervisor may require that subsurface pressures, gas-oil ratios, and associated tests be conducted and submitted on discovery and subsequent early development wells so that virgin reservoir data may be determined.

(2) Field- or pool-wide reservoir subsurface pressure and gas-oil ratio surveys may be required at periodic intervals as may be deemed necessary by the supervisor in maintaining current reservoir performance data.

History: 1954 ACS 37, p. 26, Eff. Feb. 14, 1964.

R 299.1516 Data requested to be supplied by lease supervisory employees.

Rule 516. Requests for data shall be directed to lease supervisory personnel to give full information as to production from, producing capacity of, and test procedure or results at each well or any other matter referring to lease or well development, operation, or production to the supervisor or his representative.

History: 1954 ACS 37, p. 26, Eff. Feb. 14, 1964.

R 299.1517 Reports of oil and gas produced, purchased, or transported.

Rule 517. Every person who is producing, purchasing, or transporting oil or gas in any prorated oil or gas field shall report on or before the tenth day of each calendar month to the supervisor at Lansing the amount of oil produced, purchased, or transported by him from each lease during the preceding calendar month. Such reports shall be on forms provided by the supervisor and shall be sworn to by such person or his representative.

History: 1954 ACS 37, p. 26, Eff. Feb. 14, 1964.

BRINE DISPOSAL

R 299.1601 Prevention of pollution, contamination, or damage by brine or salt water.

Rule 601. Brine or salt water resulting from oil and gas drilling and producing operations shall be stored, transported, and disposed of in such manner as may be approved by the supervisor. Any brine disposal procedure which results or may result in the pollution of surface or underground fresh water resources is prohibited.

History: 1954 ACS 37, p. 27, Eff. Feb. 14, 1964.

R 299.1602 Disposal of brine or salt water.

Rule 602. Brine or salt water produced in the drilling for or production of oil or gas shall be returned to an approved underground formation or otherwise disposed of as approved by the supervisor where it cannot do damage to any fresh water, oil, gas, or other minerals. Brine shall not be run to earthen reservoirs or ponds, except for such reasonable time and under conditions which may be approved by the supervisor.

History: 1954 ACS 37, p. 27, Eff. Feb. 14, 1964.

R 299.1603 Brine disposal wells.

Rule 603. Brine disposal wells may be drilled for the purpose of disposing of brine or salt water produced in the drilling for or production of oil or gas as provided in R 299.1101, or they may be wells reworked for this purpose as provided in R 299.1314. Brine disposal wells shall be so completed that the injection of brine shall be into a formation approved by the supervisor.

History: 1954 ACS 37, p. 27, Eff. Feb. 14, 1964.

R 299.1604 Casing and sealing of disposal wells.

Rule 604. Wells drilled or reworked for the disposal of brine shall be cased and sealed to prevent the loss or injection of brine into any unapproved formation.

History: 1954 ACS 37, p. 27, Eff. Feb. 14, 1964.

R 299.1605 Use of annular space for brine disposal.

Rule 605. (1) The disposal of brine into the annular space between strings of casing is prohibited. The supervisor may grant an exception to this prohibition, and may require notice and a public hearing to determine the need or desirability of granting such an exception.

(2) Annular space disposal wells currently in use on the effective data of this rule shall cease operations within 2 years of that date, unless an exception is granted as provided in subrule (1).

History: 1954 ACS 37, p. 27, Eff. Feb. 14, 1964; 1954 ACS 92, p. 19, Eff. July 13, 1977.

R 299.1606 Disposal of brine into producing formation.

Rule 606. A person making application for permission to drill a well or to rework a well for the disposal of brine into a producing formation shall notify all offset operators by certified mail of such intention. Copies of such letters of notification shall be filed with the application for disposal of brine. Should an offset operator protest to the supervisor within 10 days after the date of the letter of notification, a hearing shall be scheduled to determine the need or desirability of granting permission for the proposed brine disposal operation. The supervisor may approve the application and grant permission for the proposed brine disposal operation if no protests are received as specified.

History: 1954 ACS 37, p. 27, Eff. Feb. 14, 1964.

SECONDARY RECOVERY AND PRESSURE MAINTENANCE

R 299.1701 Establishing secondary recovery or pressure maintenance operation.

Rule 701. Any person desiring to inject water, gas, air, or other fluid into a producing formation for the purpose of secondary recovery or pressure maintenance shall file an application for permission to the supervisor. The supervisor shall schedule a public hearing in accordance with R 299.2004 to receive evidence and testimony pertaining to the need or desirability of approving the application.

History: 1954 ACS 37, p. 27, Eff. Feb. 14, 1964.

R 299.1702 Casing and cementing of injection wells.

Rule 702. Wells drilled or reworked for use in the injection of fluids shall be adequately cased and sealed to prevent injection or migration of fluids into any strata or formation other than the objective formation.

History: 1954 ACS 37, p. 27, Eff. Feb. 14, 1964.

R 299.1703 Notice of commencement and discontinuance of injection operations.

Rule 703. The operator of any secondary recovery or pressure maintenance injection project shall notify the supervisor promptly of the commencement or abandonment of injection operations. A notice of abandonment of injection operations shall include the date and reasons for abandonment, the status of all wells, and the intentions for the further use or disposition of such wells.

History: 1954 ACS 37, p. 27, Eff. Feb. 14, 1964.

R 299.1704 Filing records and reports.

Rule 704. The operator of a secondary recovery or pressure maintenance project shall keep accurate records of all oil and gas produced, volumes of fluids injected, and injection pressures. Reports of these data and such other data as may be required shall be filed with the supervisor at regular intervals as specified.

History: 1954 ACS 37, p. 28, Eff. Feb. 14, 1964.

PLUGGING

R 299.1801 Notification of intention to abandon and plug well.

Rule 801. No person shall begin the plugging of any well until he first shall have notified the supervisor of his intention to abandon such well and received instructions for the plugging operation. The notification shall provide the date plugging is to be commenced, by whom the well is to be plugged, and the equipment to be used in plugging the well. It shall also include the present

condition of the well, such as the sizes and lengths of all casing strings, the depths to the top of all principal formations, the depths where oil, gas, and water were encountered, and the proposed method for handling of unusual or hazardous conditions.

History: 1954 ACS 37, p. 28, Eff. Feb. 14, 1964.

R 299.1802 Plugging instructions.

Rule 802. The supervisor shall issue instructions for the plugging of a well following receipt of notification as provided in R 299.1801. These instructions shall specify the type and amount of plugging material to be used, the depths at which bridges are to be set, the depths and lengths of cement plugs, and any special requirements which may be necessary for the proper plugging of the well.

History: 1954 ACS 37, p. 28, Eff. Feb. 14, 1964.

R 299.1803 Commencement of plugging operations.

Rule 803. (1) Plugging operations on all abandoned wells shall commence within 60 days after completion as a dry hole or after production has ceased for 12 consecutive months. The supervisor may set a hearing to show cause why such a well should not be plugged. If the supervisor, after reviewing the evidence presented at the hearing, finds that there are no good and sufficient reasons for retaining the well, he may order the well plugged.

(2) The supervisor may grant an extension of time for commencing the plugging operations after having received a written request and after finding that the request is reasonable.

History: 1954 ACS 37, p. 28, Eff. Feb. 14, 1964; 1954 ACS 92, p. 19, Eff. July 13, 1977.

R 299.1804 Method and material to be used in plugging.

Rule 804. All oil, gas, brine, and fresh water shall be confined to the strata in which they occur by the use of mud-laden fluid, cement, other suitable material, or combinations thereof. The amount, type, and kind of material and the method of placement shall be prescribed or approved by the supervisor.

History: 1954 ACS 37, p. 28, Eff. Feb. 14, 1964.

R 299.1805 Pulling of surface pipe and drive pipe.

Rule 805. A surface pipe or drive pipe shall not be pulled at any location unless it is determined by the supervisor to be necessary.

History: 1954 ACS 37, p. 28, Eff. Feb. 14, 1964; 1954 ACS 69, p. 41, Eff. June 21, 1971.

R 299.1806 Plugging at surface.

Rule 806. The surface pipe or drive pipe abandoned with the hole shall be cut off at a point below plow depth and a cement plug, welded plate, or other seal approved by the supervisor shall be placed at or near the top of the pipe.

History: 1954 ACS 37, p. 28, Eff. Feb. 14, 1964.

R 299.1807 Plugging of rat holes.

Rule 807. The rat hole and mouse hole on all rotary drilled wells shall be plugged to the surface.

History: 1954 ACS 37, p. 28, Eff. Feb. 14, 1964.

R 299.1808 Rescinded.

History: 1954 ACS 37, p. 28, Eff. Feb. 14, 1964; rescinded 1954 ACS 92, p. 19, Eff. July 13, 1977.

R 299.1809 Filling and leveling of cellars, pits, and excavations; removal of debris; restoration of well site.

Rule 809. Following the completion of plugging to the surface, the owner shall fill and level the cellar and all pits and excavations, shall remove or eliminate debris, shall eliminate all conditions which may create a fire or pollution hazard, and shall restore the well site as nearly as possible to the original land contour or to a condition acceptable to the supervisor.

History: 1954 ACS 37, p. 29, Eff. Feb. 14, 1964; 1954 ACS 92, p. 19, Eff. July 13, 1977.

R 299.1810 Plugging records to be filed.

Rule 810. A complete and certified record of the plugging of the well shall be filed by the owner on forms prescribed by the supervisor within 30 days after the plugging work is completed.

History: 1954 ACS 37, p. 29, Eff. Feb. 14, 1964.

R 299.1811 Rescinded.

History: 1954 ACS 37, p. 29, Eff. Feb. 14, 1964; rescinded 1954 ACS 92, p. 19, Eff. July 13, 1977.

PREVENTION OF FIRES AND POLLUTION AND DANGER OR DESTRUCTION OF PROPERTY AND LIFE

R 299.1901 Well and tank locations to be cleared.

Rule 901. (1) The area around a drilling operation shall be cleared of brush, slash, weeds, and other flammable material for a radius of 75 feet, or larger when specified by the supervisor, using the well as the center point. The supervisor, if conditions warrant, may approve clearance of a smaller area, and may also require construction of a fire line around the outer edge of the cleared area. Material resulting from the clearing operations shall be disposed of in a manner approved by the supervisor before commencement of drilling operations.

(2) The area for a distance of 75 feet, or larger when specified by the supervisor, around an oil and gas well, storage tank or tank battery, and oil heating or treating installation shall be kept free of oil, brush, slash, weeds, or any other material which creates or may create a fire hazard. The supervisor, if conditions warrant, may approve maintenance of a smaller area.

History: 1954 ACS 37, p. 29, Eff. Feb. 14, 1964; 1954 ACS 69, p. 41, Eff. June 21, 1971.

R 299.1902 Pits to be filled at producing sites.

Rule 902. Slush pits and well cellars at all wells shall be filled and levelled or covered within a reasonable time after the completion of the well. Debris shall be removed or eliminated, and all conditions which may or will create a fire or pollution hazard shall be eliminated.

History: 1954 ACS 37, p. 29, Eff. Feb. 14, 1964.

R 299.1903 Safety signs.

Rule 903. An operator or transportation agency shall post safety signs, approved by the supervisor, in conspicuous places around a drilling operation, producing well, storage tank, and transportation facility when special hazards to life and property exist.

History: 1954 ACS 37, p. 29, Eff. Feb. 14, 1964; 1954 ACS 69, p. 41, Eff. June 21, 1971; 1954 ACS 92, p. 19, Eff. July 13, 1977.

R 299.1904 Fire walls or dikes.

Rule 904. (1) All lease, stock, and oil storage tanks shall be protected by an approved fire wall or dike, which wall shall form a reservoir having a capacity of 1½ times the capacity of the enclosed tank or tank battery. Such tank or tank battery shall not be erected, enclosed, or maintained closer than 200 feet from any drilling or producing well or other oil storage tanks. The dikes shall be maintained and the reservoir kept free of oil, emulsions, tank bottoms, brine, fresh water, vegetation, debris, or any flammable material.

(2) All oil heating or treating installations shall be protected by a fire wall or dike which shall be of such size and construction as may be approved by the supervisor. Dikes shall be maintained in good condition, and reservoirs formed by these dikes shall be kept free of fresh water, brine, oil, vegetation, debris, or any flammable material. Such installation shall not be erected, enclosed, or maintained closer than 75 feet from any drilling or producing well or oil storage tank or tank battery.

History: 1954 ACS 37, p. 29, Eff. Feb. 14, 1964.

R 299.1905 Handling waste oil and tank bottoms.

Rule 905. Waste oil and tank bottoms shall be collected in approved tanks or receptacles located not less than 100 feet from any oil well, lease stock, or oil storage tanks, and shall be removed as often as is necessary to prevent overflow. The area for a distance of 25 feet around these approved tanks or receptacles shall be cleared and kept free of flammable material if, in the opinion of the supervisor, special fire hazards exist. Waste oil and tank bottoms shall be conveyed from the storage tanks to the approved tanks or receptacles in a manner that does not create additional fire hazards or cause damage to, or destruction of, property or life. Earthen pits shall not be used to collect waste oil and tank bottoms. Waste oil and tank bottoms shall be disposed of pursuant to water resources commission and air pollution commission rules.

History: 1954 ACS 37, p. 30, Eff. Feb. 14, 1964; 1954 ACS 92, p. 20, Eff. July 13, 1977.

R 299.1906 Oil loss from wells, pipelines, and other facilities.

Rule 906. Every precaution shall be taken to prevent the escape of oil. Oil which has escaped from a well, oil pipeline, oil tank, loading installation, pumping station, truck transport, or other transportation facility shall be disposed of in a manner approved by the department of natural resources, bureau of environmental protection, oil and hazardous materials control section.

History: 1954 ACS 37, p. 30, Eff. Feb. 14, 1964; 1954 ACS 69, p. 41, Eff. June 21, 1971; 1954 ACS 92, p. 20, Eff. July 13, 1977.

R 299.1907 Notice of oil or gas loss; notice of serious accident.

Rule 907. A person, owner, or operator of a drilling or producing well, refinery, or transportation agency, including truck transports, shall notify the department of natural resources, bureau of environmental protection, oil and hazardous materials control section, of oil or refined product losses which occur at an oil well, oil tank, pump station, refinery, or other facility owned, operated, or controlled by him. Notice shall also be given of a tank struck by lightning; other oil or refined product losses which destroy oil or gas or which create, or may create, a fire or pollution hazard; breaks or leaks in a tank, pipeline, or transportation facility from which oil or gas escaped or is escaping; and of a serious accident which has created, or may create, a fire or pollution hazard or which may cause damage to, or destruction of, life or property. Notification shall

be made promptly by telephone or telegraph, giving briefly the particulars, and by written report, prescribed by the bureau, giving a more detailed account of events and conditions.

History: 1954 ACS 37, p. 30, Eff. Feb. 14, 1964; 1954 ACS 69, p. 41, Eff. June 21, 1971; 1954 ACS 92, p. 20, Eff. July 13, 197-.

R 299.1907a Smoking and open flames.

Rule 907a. Smoking and open flames shall be prohibited in and around a structure or area containing a gas facility or where possible leakage or presence of gas constitutes a hazard of fire or explosion. Suitable signs shall be posted to serve as warnings in the area. Flashlights and hand lanterns, when used, shall meet fire marshal specifications.

History: 1954 ACS 69, p. 42, Eff. June 21, 1971.

R 299.1908 Burning of gas.

Rule 908. All gas produced in the operation of oil wells which is not utilized shall be burned, processed, or disposed of in a manner approved by the supervisor. Such gas shall not be burned closer than 100 feet from any well or storage tank.

History: 1954 ACS 37, p. 30, Eff. Feb. 14, 1964.

R 299.1909 Handling of crude oil and refined products.

Rule 909. (1) The handling and transportation of crude oil or refined products shall be carried on in such manner as will not create unnecessary fire hazards or allow or tend to allow tank bottoms, emulsions, waste oil, brine, or refined products or wastes to enter streams, rivers, lakes, or fresh waters.

(2) An abandoned petroleum or products line under a riverbed, lake, stream or surface water shall be purged of oil and emulsions within a reasonable time after abandonment. When a pipeline is sold, traded, abandoned or temporarily abandoned, the pipeline company shall promptly notify the supervisor. The supervisor may require that the line be abandoned under terms which he believes are indicated under existing conditions.

(3) The supervisor shall receive notice, 60 days before construction, of the proposed route of a new transmission pipeline which is not subject to Act No. 16 of the Public Acts of 1929, being §§483.1 to 483.11 of the Michigan Compiled Laws, or Act No. 9 of the Public Acts of 1929, being §§483.101 to 483.120 of the Michigan Compiled Laws.

(4) The supervisor may hold hearings relative to the construction of a pipeline as described in subrule (3), or replacement of a pipeline which in his judgment may be in an unsafe operating condition.

History: 1954 ACS 37, p. 30, Eff. Feb. 14, 1964; 1954 ACS 69, p. 42, Eff. June 21, 1971.

R 299.1910 Wells and pipeline installations to be identified.

Rule 910. (1) Every well shall be identified by a sign, posted on a derrick, or pump jack, if possible, and otherwise on a substantial post not more than 20 feet from such well, and signs shall be of durable construction and the lettering thereon shall be kept in good condition and shall be large enough to be legible under normal conditions at a distance of 50 feet. The wells on each lease or property shall be numbered consecutively, beginning with no. 1, unless some other system of numbering was adopted by the owner prior to the adoption of this rule. Each sign shall show the number of the well; the name of the lease (which shall be different for each lease); the name of the lessee, owner or operator, and the location by quarter-quarter, section, township and range.

(2) Separate identification plates shall be attached to each well head connection in the case of multiple completions.

(3) All loading installations and oil field booster pumps shall be identified by signs. Such signs shall be located not more than 20 feet from the loading installation or oil field booster pump and shall be kept in good condition and shall be large enough to be legible under normal conditions at a distance of 50 feet.

History: 1954 ACS 37, p. 30, Eff. Feb. 14, 1964.

PUBLIC HEARING

R 299.2001 Public hearing; purpose; scheduling; request or petition generally.

Rule 1001. The act provides for public hearings to receive evidence pertaining to the need or desirability of an action or an order by the supervisor of wells. A public hearing may be scheduled at the initiative of the supervisor or by the supervisor upon the receipt of a written request or petition from an owner, operator, lessee, lessor, or other interested party in the matter proposed for hearing. Each member of the advisory board shall be notified of any request or petition for hearing.

History: 1954 ACS 37, p. 31, Eff. Feb. 14, 1964; 1954 ACS 92, p. 20, Eff. July 13, 1977.

R 299.2002 Information to be included in written request or petition.

Rule 1002. (1) A written request or petition for a public hearing, as specified in R 299.2001, shall contain the following information:

(a) Name and address of petitioner.

(b) Purpose for which hearing is requested.

(c) Descriptions, locations, sections, townships, and counties relating to the matter to be heard.

(d) Names and addresses of owners, operators, lessees, lessors, or other interested parties which may be affected by the adoption or denial of the action proposed for hearing.

(e) Maps, plats, and exhibits which may be useful in considering the matter to be heard.

(f) Name of the newspaper circulated in the county or counties where the oil or gas operation is located.

(2) The following information is required when a spacing order is to be considered:

(a) Size, shape, and orientation of the drilling unit.

(b) Well spacing pattern to be proposed.

(c) Area to be included in the spacing order.

(3) If the petitioner wishes to drill, deepen, rework, or conduct any other operation regulated by these rules, he shall file with the petition an appropriate application.

(4) Additional information is required in a petition for a hearing on an order for compulsory pooling, as specified in R 299.1205.

History: 1954 ACS 37, p. 31, Eff. Feb. 14, 1964; 1954 ACS 92, p. 20, Eff. July 13, 1977.

R 299.2003 Types of hearings.

Rule 1003. The supervisor may schedule hearings of the following types:

(a) A hearing before the supervisor of wells and the advisory board. The purpose of this type of hearing is to consider the adoption of an order or rule having field-wide or state-wide application, or to consider other matters in which the board elects to participate.

(b) Hearing before the supervisor of wells only. The purpose of this type of hearing is to consider matters of local concern in the administration of these rules or the orders of the supervisor.

History: 1954 ACS 37, p. 31, Eff. Feb. 14, 1964; 1954 ACS 92, p. 21, Eff. July 13, 1977.

R 299.2004 Hearings subject to administrative procedures act of 1969.

Rule 1004. A hearing scheduled by the supervisor is subject to, and shall be conducted in accordance with, the administrative procedures act of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws, unless a different procedure is authorized by the act or these rules.

History: 1954 ACS 37, p. 32, Eff. Feb. 14, 1964; 1954 ACS 92, p. 21, Eff. July 13, 1977.

R 299.2005 Determination as to type of hearing.

Rule 1005. Upon receipt of a request or petition, the supervisor, after finding the request to be reasonable and appropriate, shall determine whether the request or petition shall be heard before the supervisor of wells and the advisory board, or before the supervisor of wells only.

History: 1954 ACS 37, p. 33, Eff. Feb. 14, 1964; 1954 ACS 92, p. 21, Eff. July 13, 1977.

R 299.2006 Hearing before the supervisor of wells and the advisory board.

Rule 1006. (1) When the supervisor of wells determines that a matter shall be heard before the supervisor of wells and the advisory board, the supervisor shall schedule a date, time, and place for a hearing, and shall acknowledge the receipt of the request or petition. The supervisor of wells shall furnish a notice of hearing to the petitioner, together with instructions. Upon receipt, the petitioner shall furnish copies of the notice of hearing by certified mail, with return receipts requested, to the last known address of the following:

(a) The last owner of record of the oil and gas mineral interests underlying the lands or areas directly affected by the proposed action, and of the surface owner.

(b) The last owner of record of the oil and gas mineral interests underlying the lands or areas immediately adjacent to, and contiguous to, the lands or areas directly affected by the proposed action, and of the surface owner.

(c) The last owner of record of oil and gas leases from 1 or more owners described in subdivisions (a) or (b).

(d) The receipts returned following service by certified mail shall be filed with the supervisor of wells on or before the date of the hearing.

(2) A notice shall also be published by the supervisor of wells in an oil and gas industry publication circulated in Michigan and in a newspaper having general circulation in the county or counties involved with the matter to be heard. Publication of these notices shall be not less than 10 days prior to the date of the hearing. Affidavits or proof of publication shall be filed with the supervisor of wells on or before the date of the hearing.

(3) When the supervisor of wells has determined that a matter shall be heard before the supervisor of wells and the advisory board, the supervisor of wells shall determine on or before the date of the hearing that the hearing shall be held before either of the following:

(a) The supervisor of wells and the advisory board, with either the supervisor of wells or a department of natural resources hearing officer presiding.

(b) A department of natural resources hearing officer only, which officer shall preside at the hearing and may make a proposal for a decision pursuant to section 81 of the administrative procedures act of 1969, as amended. The supervisor of

wells or any member of the advisory board, or both, may be present at, and participate in, this type of hearing and may review any of the evidence.

(4) A hearing that is being held before the supervisor of wells and the advisory board, with a department of natural resources hearing officer presiding, may be changed at any time during the hearing by the supervisor of wells to a hearing before the department of natural resources hearing officer only. The hearing officer shall continue to preside at the hearing and may make a proposal for decision pursuant to section 81 of the administrative procedures act of 1969, as amended.

(5) Any person owning an interest in, or who may be affected by the adoption of an order pertaining to, the matter to be heard shall be given an opportunity to present evidence. An attorney representing a person owning an interest in, or who may be affected by the adoption of an order pertaining to, the matter to be heard shall file a written appearance with the supervisor of wells or the presiding hearing officer prior to the hearing.

(6) At a meeting with the supervisor, the advisory board, with the chairman of the board presiding, shall make its recommendations to the supervisor after giving due consideration to either or both of the following:

(a) The proposal for decision, the exceptions to the proposal for decision, written arguments, and, if presented, oral arguments.

(b) The evidence.

(7) The supervisor shall take appropriate action after giving due consideration to the recommendation of the advisory board and either or both of the following:

(a) The proposal for decision, the exceptions to the proposal for decision, written arguments, and, if presented, oral arguments.

(b) The evidence.

History: 1954 ACS 37, p. 33, Eff. Feb. 14, 1964; 1954 ACS 92, p. 21, Eff. July 13, 1977.

R 299.2007 Hearing before supervisor of wells only.

Rule 1007. (1) When the supervisor of wells determines that a matter shall be before the supervisor of wells only, the supervisor shall schedule a date, time, and place for a hearing, and shall acknowledge the receipt of the request or petition. The supervisor of wells shall furnish a notice of hearing to the petitioner, together with instructions for the publication of notice. Upon receipt, the petitioner shall furnish copies of the notice of hearing by certified mail, with return receipts requested, to the last known address of the following:

(a) The last owner of record of the oil and gas mineral interests underlying the lands or areas directly affected by the proposed action, and of the surface owner.

(b) The last owner of record of the oil and gas mineral interests underlying the lands or areas immediately adjacent to, and contiguous to, the lands or areas directly affected by the proposed action, and of the surface owner.

(c) The last owner of record of oil and gas leases from 1 or more owners described in subdivisions (a) or (b) of this subrule.

(2) A notice of hearing shall also be published by the petitioner in an oil and gas industry publication circulated in Michigan and in a newspaper having general circulation in the county or counties involved with the matter to be heard. Publication of these notices shall be not less than 10 days prior to the date of the hearing. Affidavits or proof of publication, and the receipts returned following service by certified mail, are to be filed with the supervisor of wells on or before the date of the hearing.

(3) When the supervisor of wells determines that a matter shall be before the supervisor of wells only, the supervisor of wells shall determine on or before the date of the hearing that the hearing shall be held before either of the following:

An attorney representing a person owning an interest in, or who may be affected by the adoption of an order pertaining to, the matter to be heard, shall file a written appearance with the supervisor of wells or the presiding officer prior to the hearing.

(6) The supervisor shall take appropriate action after giving due consideration to either or both of the following:

(a) The proposal for decision, the exceptions to the proposal for decision, written arguments, and, if presented, oral arguments.

(b) The evidence.

History: 1954 ACS 92, p. 22, Eff. July 13, 1977.

R 299.2008 Subpoenas; depositions.

Rule 1008. (1) At any time in a hearing, the supervisor of wells or the presiding officer may order a party or witness to attend and testify orally at the hearing. At the request of the staff or a party, subpoenas for attendance at a hearing shall be issued by the supervisor of wells or the presiding hearing officer upon application in writing to the supervisor of wells or to the presiding hearing officer. A subpoena may also command the person to whom it is directed to produce the books, papers, documents, or tangible things designated therein, which shall be specified in detail.

(2) A subpoena shall state the title of the proceeding and shall command each person to whom it is directed to attend and comply with the subpoena at a time and place therein specified. The supervisor of wells or presiding hearing officer, upon motion made at or before the time specified in the subpoena for compliance therewith, may:

(a) Quash or modify a subpoena or subpoena duces tecum if it is unreasonable or oppressive, or if it requires the production of evidence which is not relevant or material to a matter in issue.

(b) Condition the subpoena, in the case of a subpoena duces tecum, upon the advancement, by the person in whose behalf the subpoena is issued, of the reasonable cost of producing the book, papers, documents, or tangible things, unless otherwise provided by law.

(3) The supervisor of wells, at his discretion, either upon his own motion or for good cause shown by a party to a proceeding, may issue an order to take a deposition, interrogatory, or other discovery. If a deposition, interrogatory, or other discovery is permitted, it shall be taken according to the rules for taking depositions in circuit court civil cases under Michigan court rules.

R 299.2009 Continuance of public hearings.

Rule 1009. Public hearings, as provided in these rules, may be continued within the discretion of the presiding officer until all required testimony is submitted and all pertinent data and information are received. No further notice of such continuance shall be necessary other than the announcement at the time of the first hearing.

History: 1954 ACS 92, p. 23, Eff. July 13, 1977.

R 299.2010 Failure to give notice of hearing.

Rule 1010. Failure to give notice of a hearing to any person normally entitled to such notice as of the time of the hearing shall not constitute a bar to the conduct of the hearing.

History: 1954 ACS 92, p. 23, Eff. July 13, 1977.

ENFORCEMENT

R 299.2101 Authority of supervisor.

Rule 1101. The supervisor, by virtue of section 6 of Act No. 61 of the Public Acts of 1939, as amended:

(a) May enforce all rules and regulations, issue orders and instructions necessary to enforce such rules and regulations, and do whatever may be necessary with respect to the subject matter stated in the rules and regulations to carry out the purposes of the rules and regulations and of the act itself, whether or not such orders or instructions are indicated, specified or enumerated in the act or the rules and regulations.

(b) May shut down a producible well on a lease where a violation exists and the shut down time shall continue until correction is made and a violation no longer exists. The supervisor may also prohibit the purchaser from taking oil from the lease during the required shut down time.

History: 1954 ACS 37, p. 33, Eff. Feb. 14, 1964; 1954 ACS 69, p. 42, Eff. June 21, 1971.

R 299.2102 Rescinded.

History: 1954 ACS 37, p. 33, Eff. Feb. 14, 1964; rescinded 1954 ACS 92, p. 23, Eff. July 13, 1977.

GEOLOGICAL SURVEY DIVISION

MINERAL WELLS

(By authority conferred on the supervisor of mineral wells and the commission of natural resources by section 14 of Act No. 315 of the Public Acts of 1969, being §319.224 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 299.2201 Applicability and effect on other laws.

Rule 1. (1) These rules implement the act and apply to mineral well operations, except for special orders and determinations which may be adopted from time to time by the supervisor to apply to specifically designated areas or conditions in the state.

(2) A rule, special order or determination which may be adopted pursuant to the act shall not supersede or contravene any of the provisions of Act No. 61 of the Public Acts of 1939, as amended, being §§319.1 to 319.27 of the Michigan Compiled Laws (oil and gas act); Act No. 326 of the Public Acts of 1937, as

amended, being §§319.51 to 319.82 of the Michigan Compiled Laws (natural gas act); Act No. 294 of the Public Acts of 1965, being §§325.221 to 325.240 of the Michigan Compiled Laws (groundwater quality control act); Act No. 98 of the Public Acts of 1913, as amended, being §§325.201 to 325.214 of the Michigan Compiled Laws (waterworks systems and sewage disposal systems act); or Act No. 245 of the Public Acts of 1929, as amended, being §§323.1 to 323.12a of the Michigan Compiled Laws (water resources commission act).

History: 1954 ACS 72, p. 15, Eff. July 14, 1972.

R 299.2205 Definitions; A to G.

Rule 5. (1) Terms used in these rules which are defined in the act have the same meaning as given in the act.

(2) "Act" means Act No. 315 of the Public Acts of 1969, being §§319.211 to 319.236 of the Michigan Compiled Laws.

(3) "Cement" means an approved type of sealing material.

(4) "Foundation boring" means a test well drilled for the purpose of determining the characteristics of the overburden or rock on which a foundation or structure will rest.

(5) "Geophysical testing hole" means a hole drilled for the purpose of providing a means for determining the physical or chemical characteristics of the earth.

History: 1954 ACS 72, p. 15, Eff. July 14, 1972.

R 299.2207 Definitions; L to S.

Rule 7. (1) "Lost mineral well" means a well which cannot be completed because of mechanical difficulties, accidents of construction or geological conditions.

(2) "Mineral well" includes brine, storage, disposal, and test wells.

(3) "Precambrian" means rocks older than the Jacobsville Sandstone.

(4) "Repair" or "maintenance" means changes to the retrievable components of a well, such as tubing, pumps, movable liners, or minor reconditioning operations, such as backflushing or swabbing.

(5) "Reservoir" means a natural or artificially developed underground container of liquids or gas.

(6) "Rework" means to make changes or alterations in the permanent subsurface well equipment or in the original relationship between the permanent, nonretrievable equipment and the adjacent geologic formations, including, but not limited to, squeezing with cement, repairing of casing leaks, cementing of casings or liners, casing or liner perforations, well stimulation, deepening, or plugging back operations.

(7) "Static water level" means the level at which water stands in a well when no water is being taken from the aquifer and is expressed as the distance from the ground surface.

History: 1954 ACS 72, p. 15, Eff. July 14, 1972.

PART 2. PERMITS

R 299.2211 Permits to drill, deepen, rework, or convert mineral wells.

Rule 11. (1) An application for permit shall be filed and a permit received before commencing to drill a mineral well, to convert a mineral well to new use, to convert a well drilled under another act to a mineral well or to deepen, rework

or convert to new use a well drilled before the effective date of the act except as provided in R 299.2227.

(2) The permit shall be posted in a conspicuous place at the well location and remain posted until the drilling of the well has been completed.

(3) The blanket permit to drill mineral wells, or a copy thereof, shall be posted in a conspicuous place at the well location or be in the possession of the driller.

History: 1954 ACS 72, p. 16, Eff. July 14, 1972.

R 299.2212 Permits to drill, deepen, rework, or convert brine, storage, and disposal wells; conditions for issuance.

Rule 12. Except as provided in R 299.2229, and unless a public hearing on issuance of a permit is required under R 299.2215, a permit to drill a brine, storage, or disposal well, to convert a mineral well or to convert a well drilled before the effective date of the act or under another act to a brine, storage, or disposal well or to deepen or rework a brine, storage, or disposal well drilled before the effective date of the act shall be issued within 10 days after receipt of application if:

(a) The exact location is established by a surveyor, engineer, or competent company personnel, and a stake or marker is set at the well location.

(b) A map or plat of the well area or company property is prepared indicating distances and directions from the well site to specific features, including lakes, streams, swamps, drainageways, wells including depth or deepest zone or formation, buildings, streets, highways, pipelines, power or other utility lines, railroads, and other features which lie within 300 feet but shall not include proprietary information relating to manufacturing processes or unreasonable detail in manufacturing plant complexes.

(c) An accurately completed application is filed on prescribed forms with the map or plat and permit fee. The application shall be typewritten and contain a detailed account of the proposed well construction, drilling program and general operating plans and procedures. Supplemental information required by application or by the supervisor shall be submitted on separate sheets with the application. Evidence of authority of a representative of the applicant shall be furnished on request of the supervisor. Inaccurate or incomplete maps, plats or application shall be corrected or completed and resubmitted.

(d) An organization report is filed on a prescribed form if requested by the supervisor.

(e) A surety or security bond is filed as required by these rules.

History: 1954 ACS 72, p. 16, Eff. July 14, 1972.

R 299.2213 Special requirements for permits.

Rule 13. (1) Special conditions or circumstances related to purpose, construction, or location of a proposed mineral well may require investigation, review, and determination by the supervisor or proofs of feasibility by the applicant, or both, before a permit may be issued.

(2) A person who intends to drill a storage or disposal well may be required to furnish advance notice of intent to drill, either published, or by certified mail, or both, to property owners within a 2-mile radius of the proposed well or within such adjacent area as required by the supervisor.

(3) A person applying for a permit to drill a storage or disposal well shall file with the application a statement setting forth the bacterial, physical, chemical and other known characteristics of the wastes or materials to be stored or disposed.

History: 1954 ACS 72, p. 16, Eff. July 14, 1972.

R 299.2215 Public hearings on storage and disposal wells.

Rule 15. A public hearing to determine the need or advisability of issuance of a permit for drilling a storage or disposal well or converting a well to these uses may be held by the supervisor if he believes that the public safety or other interests are involved or receives from an owner, operator, lessee, lessor, the advisory board, or other person directly concerned with the matter proposed for hearing, a written request or petition which alleges that the public safety or other interest is involved.

History: 1954 ACS 72, p. 16, Eff. July 14, 1972.

R 299.2216 Confirmation of use of storage and disposal wells.

Rule 16. (1) Confirmation of the use of a storage or disposal well, the drilling of which has been authorized by a permit, is conditioned on approval of the well by an order of the water resources commission after completion and testing. If it is determined by inspection, and appropriate evidence is filed after testing, that a well can be used for storage or disposal in a manner that will not cause surface or underground waste, the supervisor shall approve and thereafter regulate the use and operation of the well in accordance with these rules and the order of the water resources commission.

(2) Requirements for testing are prescribed in R 299.2261 and R 299.2262. If a well is determined after testing to be unsuitable for storage or disposal use, it shall be abandoned and plugged as provided in part 7 or converted for other use as provided in R 299.2246.

History: 1954 ACS 72, p. 17, Eff. July 14, 1972.

R 299.2221 Individual test well permits.

Rule 21. Except as provided in R 299.2229, a permit to drill an individual test well shall be issued within 10 days after receipt of an application if:

(a) The exact location is established and a stake or marker is set at the well location.

(b) A plat or map is made of the well area or company property indicating the relationship of the well to lakes, streams, swamps, drainageways, wells, buildings, streets, highways, pipelines, power and other utility lines, railroads, and other features within 300 feet.

(c) An accurately completed application is filed on prescribed forms with the map or plat and fee. The application shall be typewritten and contain a detailed account of the proposed well construction, drilling procedure and plugging method.

(d) An organization report is filed on a prescribed form if requested by the supervisor.

(e) A surety or security bond is filed as required by these rules.

History: 1954 ACS 72, p. 17, Eff. July 14, 1972.

R 299.2222 Blanket test well permits.

Rule 22. A blanket permit may be issued to drill not more than 200 test wells, other than foundation borings or geophysical testing holes, within a limited or local area not exceeding 9 square miles if a geological test program is intended. A blanket permit is valid for not more than 1 year and expires on December 31. Test wells may be drilled in accordance with this rule if:

(a) An accurately completed application is filed on prescribed forms. The application shall be typewritten and contain a detailed account of the proposed well construction, drilling procedure, and plugging method.

(b) Information is furnished in an accompanying letter and map indicating the purpose of the drilling project and the approximate number, location, and depth of the wells.

(c) A permit fee is filed with the application.

(d) An organization report is filed on a prescribed form if requested by the supervisor.

(e) A surety or security bond is filed as provided by these rules.

History: 1954 ACS 72, p. 17, Eff. July 14, 1972.

R 299.2223 Geophysical testing holes.

Rule 23. (1) A blanket permit may be issued to drill geophysical testing holes within a specified area or for a specified investigative program. A blanket permit will not be issued for an area larger than 1 county and may be restricted to a smaller area by the supervisor for geologic reasons. A person may obtain separate blanket permits for more than 1 county or may obtain more than 1 blanket permit for the same county. A blanket permit is valid for not more than 1 year and expires on January 31. Not more than 200 holes may be drilled under a blanket permit except as authorized by the supervisor.

(2) Geophysical testing holes may be drilled in accordance with this rule if:

(a) An accurately completed, typewritten application is filed on prescribed forms. The application shall contain a detailed account of the proposed well construction methods, drilling procedures, and plugging methods. The plan shall propose alternative methods of plugging to be used to cope with various soil and water conditions within the area covered by the permit and shall specify criteria which will be applied to determine the applicable method.

(b) Information is furnished in an accompanying letter and map indicating the purpose of the drilling project and estimated number, general location, drilling pattern, and approximate depth of holes.

(c) A permit fee is filed with the application.

(d) An organization report is filed on a prescribed form if requested by the supervisor.

(e) A surety or security bond is filed as provided in these rules.

(3) Within 60 days after completion of a geophysical test hole project or termination of a permit, whichever is first, a location plan and logs of wells shall be submitted in accordance with part 6.

(4) Issuance of a blanket permit for a specified area or period of time shall not be construed as granting exclusive rights to operate therein nor does the permit preclude the necessity of permission, permits, easements, or other granting of privileges by other persons or agencies.

History: 1954 ACS 72, p. 17, Eff. July 14, 1972.

R 299.2225 Foundation borings.

Rule 25. (1) A blanket permit may be issued to drill foundation test borings within a specified area or for a specified investigative program. A blanket permit will not be issued for an area larger than 1 county and may be restricted to a smaller area by the supervisor for geologic reasons. A person may obtain separate blanket permits for more than 1 county or may obtain more than 1 blanket permit for the same county. A blanket permit is valid for not more than 1 year and expires on February 28. Not more than 200 holes may be drilled under a blanket permit except as authorized by the supervisor.

(2) A blanket permit shall be issued to qualified persons for drilling of foundation test borings if:

(a) An accurately completed application is filed on prescribed forms.

(b) Acceptable plans are proposed for the drilling and plugging. Plugging shall conform to procedures adopted by the supervisor based on recommended practices of the American society of civil engineers, Michigan section, and the department of state highways. The plan shall propose alternate plugging methods for various soil and water conditions within the area covered by the permit and the criteria which will be applied to determine the applicable method.

(c) A permit fee is filed with the application.

(d) An organization report is filed on a prescribed form if requested by the supervisor.

(e) A surety or security bond is filed as provided in these rules.

(3) Within 60 days after completion of a test boring, test boring program, or termination of the permit, whichever is first, a location plan and log of each well shall be submitted as provided in part 6. The log shall indicate the actual drilling and plugging procedures used.

(4) Issuance of a blanket permit for a specified area or period of time shall not be construed as granting exclusive rights to operate therein, nor does the permit preclude the necessity of permission, permits, easements or other granting of privileges by other persons or agencies.

History: 1954 ACS 72, p. 18, Eff. July 14, 1972.

R 299.2227 Test well permits; when not required.

Rule 27. (1) A permit to drill test wells is not required in areas of the state where rocks of Precambrian age lie directly under unconsolidated surface deposits; or in areas designated by the supervisor as being areas where there is no known or potential danger of surface or underground waste from test well drilling; except that the drilling shall be subject to R 299.2228 and other applicable rules. However, within 2 years after completion of the drilling of a well, the owner shall advise the supervisor of the location of the well and file with him the log required by part 6.

(2) A petition with supporting evidence may be filed with the supervisor requesting a hearing to determine the need or advisability of designating an additional area or areas where permits to drill test wells are not required except that the drilling shall be subject to R 299.2228 or other applicable rules. A petition shall be filed and hearings shall be scheduled in accordance with R 299.2292 to R 299.2294.

(3) A permit is not required for a hole drilled in the operation of a quarry, open pit, or underground mine if the hole location is less than 500 feet from the quarry, open pit, or mine.

(4) A permit is not required for a test hole 25 feet or less in depth which does not encounter bedrock. However, plugging of such a well shall be in accordance with R 299.2223, R 299.2225, R 299.2283, and R 299.2285.

History: 1954 ACS 72, p. 18, Eff. July 14, 1972.

R 299.2228 Wells located in waters of state.

Rule 28. A mineral well to be located in or over the bed or waters of a stream, inland lake, a Great Lake, a natural or artificial impoundment, or other body of water shall be subject to approval by the commission before issuance of a permit.

History: 1954 ACS 72, p. 19, Eff. July 14, 1972.

R 299.2229 Denial of permits.

Rule 29. (1) The supervisor is prohibited by the act from issuing a permit to a person who is not in compliance with the act or the rules or the orders of the supervisor.

(2) The supervisor shall deny issuance of a permit for a mineral well if he has reason to believe that the locating, drilling, constructing, reworking, or operating of the well cannot be accomplished in a manner designed to prevent surface or underground waste.

History: 1954 ACS 72, p. 19, Eff. July 14, 1972.

PART 3. BONDS

R 299.2231 Surety and security bonds.

Rule 31. (1) A person who obtains a permit to drill, converts to, or acquires a mineral well shall file a surety or security bond, the amount of which shall be commensurate with the number of wells and the type of project.

(2) The amount of a surety bond shall be as follows:

(a) Single test well—$2,000.00.

(b) Blanket bond for 2 or more test wells—$5,000.00.

(c) Single brine well—$5,000.00.

(d) Blanket bond for 2 or more brine wells—$15,000.00.

(e) Single storage or disposal well—$15,000.00.

(f) Blanket bond for 2 or more storage or disposal wells or a combination of 2 or more test, brine, storage, or disposal wells—$25,000.00.

(3) A security bond in the amount equal to the required surety may be deposited or required in lieu of a surety bond. A security bond shall consist of cash or negotiable securities and shall be deposited with the department of treasury. The securities shall be registered in the name of the treasurer of the state of Michigan. The state treasurer shall charge a fee sufficient to reimburse him for not less than actual and necessary expenses incurred in connection with the deposit.

History: 1954 ACS 72, p. 19, Eff. July 14, 1972.

R 299.2235 Liability on bonds.

Rule 35. (1) Liability on a surety or security bond is conditioned on compliance with the act and the rules and the orders of the supervisor and continues until either of the following occurs:

(a) One year after the well or wells have been abandoned and satisfactorily plugged as provided in part 7 and approved by the supervisor, and all logs, plugging records, and other pertinent data required by the act or rules and orders of the supervisor are filed and approved.

(b) Ownership of the well or wells is assumed by another person and the permits are transferred as provided in R 299.2242.

(2) The supervisor shall advise the surety and the principal when liability on a bond is terminated. A security bond deposited with the state treasurer shall be released only upon written direction of the supervisor.

(3) The supervisor shall look to the surety or the security bond for correction of unsatisfactory conditions not otherwise corrected, and all expenses shall be paid through the surety or security bond in case of default by the principal.

(4) The surety under a blanket bond may refuse to accept additional wells or permits by giving 10 days notice by registered mail to the supervisor and the owner or operator. The bond shall continue in full force and effect relative to the well or wells for which permits were granted or transferred before the effective

date of the notice. This cancellation procedure does not apply to single surety bonds.

History: 1954 ACS 72, p. 19, Eff. July 14, 1972.

PART 4. DISPOSITION OF PERMITS AND WELLS

R 299.2241 Changes of location before drilling.

Rule 41. A permit to drill shall be returned to the supervisor for cancellation, together with a new application for permit to drill at a new location if the location for which a permit to drill has been issued is changed before commencement of drilling. A new fee is not required, but drilling may be commenced only after the new application is processed and the new permit issued.

History: 1954 ACS 72, p. 20, Eff. July 14, 1972.

R 299.2242 Changes of ownership of wells.

Rule 42. (1) If a person who obtains a permit to drill disposes of his interest in a mineral well to a new owner while the well is being drilled, or after the well is completed, a notice of change of ownership and a request for transfer of permit shall be submitted to the supervisor on prescribed forms.

(2) The request for transfer of ownership may be approved if it is signed by the owner of record and the acquiring owner and if the required bond is filed by the acquiring owner.

(3) A permit may be transferred only to persons who are in compliance with the act and the rules and orders of the supervisor.

History: 1954 ACS 72, p. 20, Eff. July 14, 1972.

R 299.2244 Termination of permits.

Rule 44. A permit to drill, rework, or deepen a well terminates and is void 6 months after the date of issuance if the well for which the permit was issued has not been commenced, drilled, reworked, or deepened in accordance with the permit, except as provided by R 299.2222 to R 299.2225. The supervisor may grant an extension of time for commencement after receiving a written request and finding that the request is reasonable.

History: 1954 ACS 72, p. 20, Eff. July 14, 1972.

R 299.2246 Conversion of wells for new uses.

Rule 46. (1) An existing well, a mineral well or a well drilled under another act may be converted to a new use if a permit is obtained in accordance with R 299.2212.

(2) A mineral well may be converted to a use other than provided by the act if the conversion is acceptable to the receiving authority and the well construction is suitably altered in accord with specifications to be stated by the supervisor and the receiving authority.

History: 1954 ACS 72, p. 20, Eff. July 14, 1972.

R 299.2247 Change of status of wells.

Rule 47. (1) A mineral well may be deepened below the depth at which originally completed, may be reworked, may be shut-in for a period of time not to exceed 1 year except as provided in R 299.2281 or its status may otherwise be changed by any operation except for conversion to new use if:

(a) An application for permission to change the status of the well has been filed with the supervisor on prescribed forms. The application shall contain a detailed

account of the work to be accomplished. Supplemental information required by the application or the supervisor shall be submitted on separate sheets with the application.

(b) A surety or security bond is filed as provided by these rules.

(c) The application has been approved by the supervisor and a permit to change the status of the well has been issued.

(2) Within 30 days after completion of the change of status operation, a complete record of the work performed shall be filed with the supervisor on prescribed forms in accordance with R 299.2271 and R 299.2272.

(3) Normal repair or maintenance of mineral wells shall not constitute a change in status.

History: 1954 ACS 72, p. 20, Eff. July 14, 1972.

R 299.2248 Lost mineral wells.

Rule 48. A mineral well which cannot be completed shall be plugged promptly in accordance with part 7, unless converted to other use as provided in R 299.2246.

History: 1954 ACS 72, p. 20, Eff. July 14, 1972.

R 299.2249 Disposal of unconfirmed wells.

Rule 49. A well which is not confirmed or approved for disposal use under R 299.2216 shall be abandoned and plugged in accordance with part 7 or converted for other use as provided in R 299.2246.

History: 1954 ACS 72, p. 20, Eff. July 14, 1972.

PART 5. CONSTRUCTION AND OPERATION OF WELLS

R 299.2251 Preparation of well locations.

Rule 51. (1) A pit or pits of a size approved by the supervisor shall be provided in close proximity to the well for the purpose of collecting and containing drill cuttings and confining drilling muds and fluids.

(2) Dikes may be required to prevent the escape of fluids from the well site, and other safeguards may be required for the protection of cultural or other adjacent features.

(3) Steel tanks, cribs, or other approved containers may be required in an area where pits are not feasible or adequate, or if the cuttings and fluids are to be removed from the premises.

(4) Drilling shall not be commenced until the person has complied with the methods and means specified by the supervisor to prevent pollution.

(5) Provision for protection of life and property may be required in a congested area. Fencing, gates, warning signs, cooperation of police and fire departments, and other protective safeguards may be required.

History: 1954 ACS 72, p. 21, Eff. July 14, 1972.

R 299.2252 Prevention of waste and pollution.

Rule 52. (1) A person who drills or operates a mineral well shall use appropriate and approved methods to prevent waste and pollution during drilling, testing, production, storage, and disposal operations. The supervisor may issue orders and instructions and adopt, recommend, or recognize guidelines relating to drilling, spacing, or operating to cope with known or expected surface or underground conditions.

(2) A well site shall be maintained in an orderly manner and kept free and clear of debris and unnecessary or abandoned equipment.

History: 1954 ACS 72, p. 21, Eff. July 14, 1972.

R 299.2253 Casing and sealing brine, storage, and disposal wells.

Rule 53. A specific casing and sealing program shall be submitted with each application for a permit to drill a brine, storage, or disposal well, which shall be appropriate to the drilling methods, expected geologic conditions, and the intended ultimate use of the well, including, but not limited to, the following:

(a) Drive pipe shall be landed, or surface pipe set and cemented to the surface, at sufficient depth to protect fresh water aquifers.

(b) Intermediate casing or casings, if required, shall be run and cemented as approved by the supervisor. Centralizers may be required.

(c) The production or long string of casing shall be run and cemented as approved. Centralizers may be required.

(d) Tubing may be required for use in injection and withdrawal operations. The operator shall furnish to the supervisor evidence that the casing will not be exposed to undue corrosion. Installation of a packer on the tubing may be required.

(e) Hole diameters, casing weights and diameters, and cementing procedures shall be subject to approval by the supervisor.

(f) The drilling fluid used with rotary drilling equipment shall be capable of preventing blowouts and flows and sealing off each oil, gas, brine, or fresh water stratum above the producing horizon or objective formation.

(g) A well head shall be equipped with blowout preventer, master gate valve or control head and securely anchored flow lines, appropriate to the type of drilling method, and shall be kept in good working condition. Records of pressure and mechanical tests of well head equipment shall be entered in the log book, signed by the driller, and kept available for inspection by the supervisor or his representative.

History: 1954 ACS 72, p. 21, Eff. July 14, 1972.

R 299.2254 Casing and sealing test wells.

Rule 54. A combination of casing and sealing may be required on a test well to provide protection to the waters of the state and to prevent migration of fluids between layers of earth materials.

History: 1954 ACS 72, p. 21, Eff. July 14, 1972.

R 299.2255 Cavities and reservoirs for storage use.

Rule 55. (1) A cavity or reservoir may be created by solution, by fracturing or by any chemical, physical, or mechanical method, or any combination thereof.

(2) Disposal of the salt water or other mineralized water resulting from development of a cavity or reservoir shall be subject to Act No. 245 of the Public Acts of 1929, as amended, being §§323.1 to 323.13 of the Michigan Compiled Laws.

History: 1954 ACS 72, p. 21, Eff. July 14, 1972.

R 299.2256 Oil, gas, brine, and fresh water.

Rule 56. (1) Oil, gas, brine, and fresh water encountered shall be confined to the strata in which they occur by either of the following:

(a) Specified casing and sealing requirements.

(b) Plugging operations in accordance with part 7.

(2) An unusual, unexpected or difficulty-controllable large volume of oil, gas, brine or flowing fresh water or a condition hazardous to public health, safety, or waters of the state shall be reported immediately to the supervisor.

History: 1954 ACS 72, p. 22, Eff. July 14, 1972.

R 299.2257 Removal or stripping of casings.

Rule 57. Removal or stripping of a casing from a well during drilling or after completion is permitted only when approved by the supervisor.

History: 1954 ACS 72, p. 22, Eff. July 14, 1972.

R 299.2261 Initial testing of storage wells, cavities, and reservoirs.

Rule 61. Data shall be reported to the supervisor demonstrating that a storage well, cavity or reservoir is suitable for the proposed use. These data shall be obtained by appropriate testing and measurement procedures, including the following:

(a) The casing, tubing and well head equipment shall be pressure tested at a minimum of 133% of the expected operating pressure.

(b) The cavity or reservoir shall be tested to demonstrate to the supervisor that there will be no leaks or losses of fluids into the adjacent formations at expected operating pressure.

(c) The size, shape, and volume of the cavity or reservoir shall be determined as accurately as practicable.

History: 1954 ACS 72, p. 22, Eff. July 14, 1972.

R 299.2262 Initial testing of disposal wells.

Rule 62. (1) Tests, logs, and direct measurements shall be conducted to determine to the satisfaction of the supervisor that the well and disposal formations are suitable for disposal or storage of wastes and that overlying and underlying rock units, zones, intervals, beds, or formations are adequate to confine disposed or stored fluids. The tests shall include, but not be limited to, the following data:

(a) Physical, chemical, and lithologic properties of formation materials and fluids.

(b) Formation porosity and permeability.

(c) Compatibility of waste or stored fluids with naturally-occurring formation fluids and formation materials.

(d) Formation temperature and pressure.

(2) Tests, logs, and direct measurements shall be conducted in accordance with procedures acceptable to the supervisor. Results shall be filed with the supervisor. Waste products or stored materials shall be injected and confined to the zone, interval, bed or formation designated for disposal or storage use. Compliance with the act and rules promulgated thereunder does not obviate the necessity of compliance with any order or other action of the water resources commission in accordance with Act No. 245 of the Public Acts of 1929, as amended, or any other pertinent act.

History: 1954 ACS 72, p. 22, Eff. July 14, 1972.

R 299.2265 Periodic testing of brine wells.

Rule 65. Testing shall be accomplished not less than biennially on a brine well to determine and locate leaks or losses of fluids or pressure in tubing, casing, surface or drive pipe and well head equipment. Results of the testing shall be reported to the supervisor. The supervisor may accept continuous monitoring data in lieu of some periodic testing.

History: 1954 ACS 72, p. 22, Eff. July 14, 1972.

R 299.2266 Operation of brine wells.

Rule 66. (1) The handling, piping and surface storage of brines shall be accomplished in a manner to prevent leaks and losses into surface or underground waters.

(2) The use of unlined surface pits or earthen reservoirs is prohibited.

(3) Records of volume of fluids withdrawn and injected shall be maintained on a monthly basis. These records shall be preserved by the operator and be subject to inspection and evaluation by the supervisor. The operator shall file an annual report with the supervisor showing:

(a) Volume relationship or withdrawal-injection ratios.

(b) A summary statement or tabulation of injection pressures and injection pressure variations.

(4) Any anomalous condition, including a rate or pressure variation, shall be reported promptly to the supervisor.

History: 1954 ACS 72, p. 22, Eff. July 14, 1972.

R 299.2267 Periodic testing of storage and disposal wells.

Rule 67. At least once during each calendar quarter a storage or disposal well shall be tested by the operator by the variable-rate input method, the pressure fall-off test or any other performance test as the supervisor may require or approve. Sufficient data shall be collected during each calendar year to facilitate analysis of static and injection formation pressures, storage zone limits or boundaries, changes in formation characteristics, and other information commonly derivable from such tests. Data shall be preserved by the operator for inspection by the supervisor or his agent. At the end of each calendar year a summary and analysis of test data shall be supplied to the supervisor. The supervisor may accept continuous monitoring data in lieu of some periodic testing.

History: 1954 ACS 72, p. 23, Eff. July 14, 1972.

R 299.2268 Operation of storage and disposal wells.

Rule 68. (1) Anomalous behavior of a storage or disposal well shall be reported promptly to the supervisor. In case of an anomalous behavior arising from or likely to arise from storage or disposal practices, the supervisor may order reduction or cessation of storage or disposal operations, may order additional testing by the operator or may order the drilling of an observation well by the operator to provide additional data on the movement and behavior on injected fluids, indigenous formation fluids, or stored fluids.

(2) Elimination and correction of leaks or losses of fluids or pressure in wells, reservoirs and surface installations shall be made immediately.

(3) An operation which may cause or create a condition endangering public health or welfare shall be avoided.

(4) Adequate equipment and installations at a disposal well for appropriate testing and monitoring of the operation shall be used.

(5) Wastes shall be treated before injection unless otherwise approved by the supervisor.

(6) Records or reports, forms, charts of operating pressures, rates of injection, types and volumes of fluids injected or withdrawn and other pertinent information shall be maintained and submitted monthly to the supervisor or at other specified times.

(7) Wastes shall be treated and stored before injection in a manner to avoid surface or groundwater pollution.

(8) A request for change of status shall be filed before any rework operations are commenced.

(9) Volumes, injection rates and pressures used shall not exceed those specified in the approval of the disposal or storage use.

(10) Only wastes specified in the statement required by R 299.2213 may be injected into a well.

(11) Not less than 1 observation well, located within 100 feet of the disposal well, shall be provided for each well used for the disposal or storage of radioactive materials. An observation well shall penetrate, as a minimum, the formational unit immediately overlying and confining the disposal formation. The well or wells shall be used for continuous control and monitoring on a scale commensurate with the level of the radioactivity.

History: 1954 ACS 72, p. 23, Eff. July 14, 1972.

PART 6. RECORDS

R 299.2271 Kinds and filing.

Rule 71. (1) A person who drills a mineral well shall keep, preserve and file with the supervisor drilling logs, sample logs, and electric or radiation or other physical, chemical or mechanical logs as designated or approved by the supervisor. Logs shall consist of data accurately recorded during drilling, deepening, reworking and testing of wells or the subsequent analysis or description of earth materials removed. Logs shall be filed within 60 days after the completion of drilling, except test wells drilled in accordance with R 299.2222 to R 299.2227, on forms prescribed or approved by the supervisor.

(2) The permittee shall obtain and transmit to the supervisor the records and logs of work done on wells by contractual service companies that specialize in logging or cementing or other special well treatment procedures.

History: 1954 ACS 72, p. 23, Eff. July 14, 1972.

R 299.2272 Contents.

Rule 72. A log of a mineral well shall include all normally recorded information for the particular type well being constructed and shall include, but not be limited to:

(a) For a test well, the owner's name, permit number, site location, elevation, drilling contractor, drilling method, casing record, description, and thickness of geologic materials penetrated, static water levels, flowing water zones, total depth, beginning and completion dates, occurrences of oil, gas or salt water and description of procedures and materials used in plugging.

(b) For a brine, storage, or disposal well, the owner's name, permit number, site location, elevation, drilling contractor, drilling method, casing record, cementing record, description and thickness of geologic materials penetrated, total depth, static water levels, flowing water zones, occurrences of oil, gas or salt water, beginning and completion dates, data on perforating, acidizing, fracturing, shooting and testing; electrical, radiation or other types of mechanical, chemical or physical records; sample descriptions, core descriptions, data on well head completion and data on subsurface equipment installed.

(c) For a reworked well, the owner's name, permit number, site location, contractor's name, reason for rework, changes made within the well and at the well head and reports of testing accomplished.

History: 1954 ACS 72, p. 24, Eff. July 14, 1972.

R 299.2273 Confidentiality.

Rule 73. Records shall be kept confidential as follows:

(a) A log of a brine or test well shall be kept confidential for 10 years after well completion, except as otherwise released by the owner.

Digitized by Google

(b) A log of an exploratory test well shall be kept confidential until released by the owner or operator.

(c) A log of a brine or test well for exploratory purposes shall be kept confidential until the owner is no longer an active producer, mineral lease holder, or owner of mineral lands in the state.

History: 1954 ACS 72, p. 24, Eff. July 14, 1972.

PART 7. PLUGGING

R 299.2281 Plugging of mineral wells.

Rule 81. A mineral well shall be plugged promptly after abandonment or termination of the project in accordance with plugging procedures specified by the supervisor. A well which has been inactive for 1 year is considered to have been abandoned unless otherwise authorized by the supervisor.

History: 1954 ACS 72, p. 24, Eff. July 14, 1972.

R 299.2282 Plugging of brine, storage, and disposal wells, cavities, and reservoirs.

Rule 82. (1) The abandonment of a brine, storage, or disposal well, a solution cavity, or a reservoir shall require the filing of a notice of intention to abandon on a prescribed form and plugging instructions shall be issued by the supervisor before plugging operations are commenced.

(2) The plugging instructions shall specify the type and amount of plugging material to be used, depths at which bridges may be set, depths and lengths of cement plugs, and other requirements for adequate plugging.

(3) Fluids and gases shall be confined to the strata in which they occur by the use of mud-laden fluid, cement, other suitable material or combinations thereof. The amount, type and kind of material and the method of placement shall be prescribed or approved by the supervisor.

(4) The surface or drive pipe shall be abandoned with the hole, except when otherwise approved by the supervisor.

(5) The surface or drive pipe shall be cut off below ground level, except as otherwise approved by the supervisor and a cement plug, welded plate, or other approved seal placed at the top of the pipe.

History: 1954 ACS 72, p. 24, Eff. July 14, 1972.

R 299.2283 Plugging of test wells.

Rule 83. (1) Plugging of a test well shall be accomplished in accordance with specifications made at the time of the application for a permit to drill. The plugging operation may require the use of mud-laden fluid, cement, other suitable material, or a combination of 2 or more of these items. Fluids and gases shall be sealed off and confined to the strata in which they occur. A suitable plug may be required at the surface.

(2) The plugging of a test well drilled without issuance of a permit shall be in the manner as a test well for which a permit was issued.

History: 1954 ACS 72, p. 24, Eff. July 14, 1972.

R 299.2285 Clean-up of abandoned well sites.

Rule 85. The well pit or cellar and all pits and excavations shall be filled and leveled off at the surface, debris shall be removed and all conditions which may create a nuisance or a fire or pollution hazard shall be eliminated. The surface of the abandoned well site shall be returned as nearly as possible to its original condition.

History: 1954 ACS 72, p. 25, Eff. July 14, 1972.

R 299.2287 Plugging reports and records.

Rule 87. (1) A report shall be filed with the supervisor after plugging of a test well. This report may cover a number of wells drilled under a blanket permit.

(2) Well plugging records shall be filed on prescribed forms following the plugging of a brine, storage, disposal, and single test well. This record shall indicate how the well was plugged, the casing recovered and abandoned with the hole and the condition of the abandoned well site.

(3) The plugging record on a test well drilled without the issuance of a permit shall be attached to or made a part of the log when it is filed after the prescribed 2 years.

(4) Plugging records for a brine, storage or disposal well shall be filed within 30 days after completion of the plugging.

History: 1954 ACS 72, p. 25, Eff. July 14, 1972.

PART 8. ADMINISTRATION

R 299.2291 Forms.

Rule 91. Forms required by these rules are prescribed by the supervisor and will be available from his office.

History: 1954 ACS 72, p. 25, Eff. July 14, 1972.

R 299.2292 Public hearing requests and petitions.

Rule 92. (1) The supervisor, the board or any person affected by a mineral well matter may request or petition for a public hearing before the supervisor or the board to consider the need or advisability of an action or order by the supervisor. The purpose of the hearing will be to receive evidence, testimony, statements, and exhibits pertaining to the matter to be heard.

(2) A petition or written request by any person other than the supervisor or board for a hearing shall be filed with the supervisor and shall include the following and other information which may be pertinent:

(a) Name and address of petitioner.

(b) Purpose for which the hearing is requested.

(c) Descriptions, sections, townships and counties involved in the matter to be heard.

(d) Maps, plats, and exhibits which may be useful in considering the matter to be heard.

(e) Names and addresses of persons known to be concerned with the matter to be heard and who should be notified of the hearing.

(f) Name of the newspaper circulated in the area of the matter to be heard.

History: 1954 ACS 72, p. 25, Eff. July 14, 1972.

R 299.2293 Notice of public hearings.

Rule 93. The supervisor shall prepare notices of all public hearings. Notice of the time, place, and issues involved shall be published once each week for 2 consecutive weeks in a newspaper circulated in the area where the matter of concern is located. The last date of publication shall be at least 3 days before the date set for hearing. The petitioner is responsible for the publishing of notices and payment for the publishing, except that the supervisor is responsible for the publishing and payment for the publishing on a hearing initiated by him.

History: 1954 ACS 72, p. 25, Eff. July 14, 1972.

R 299.2294 Service of notices.

Rule 94. A person whose name is listed in the petition, or otherwise known by the supervisor or the petitioner to be concerned, shall be furnished with a copy of the notice by certified or registered mail. The petitioner shall furnish these notices and submit return receipts and affidavits of publication to the supervisor before the date of the hearing.

History: 1954 ACS 72, p. 25, Eff. July 14, 1972.

R 299.2295 Determinations by supervisor.

Rule 95. The board shall participate in all hearings and shall meet privately with the supervisor following each hearing. It shall review the evidence and testimony submitted and make recommendations thereon to the supervisor. The supervisor, after evaluating the evidence and testimony and giving due consideration to the recommendations of the board, shall adopt the appropriate rule or order or make the determination which in his judgment is warranted on the matter.

History: 1954 ACS 72, p. 26, Eff. July 14, 1972.

R 299.2296 Emergency orders of supervisor.

Rule 96. An emergency order may be issued by the supervisor without public hearing and with immediate effect to apply to situations requiring prompt control of pollution or elimination of any other hazardous condition. An emergency order shall remain in effect not more than 21 days. It becomes void unless made permanent or replaced by a new order adopted following a public hearing which shall be promptly commenced.

History: 1954 ACS 72, p. 26, Eff. July 14, 1972.

R 299.2297 Extension of time for compliance.

Rule 97. The supervisor may grant an extension of time for compliance with these rules after receipt of a written request from an operator setting forth appropriate evidence acceptable to the supervisor.

History: 1954 ACS 72, p. 26, Eff. July 14, 1972.

R 299.2298 Enforcement by supervisor.

Rule 98. The supervisor by virtue of sections 14 and 16 of the act is empowered to enforce all rules, issue orders and instructions necessary to enforce these rules, order suspension or correction of any operation, condition or practice which is causing or resulting, or threatening to cause or result, in surface or underground waste and do whatever is necessary to carry out the purpose and intent of the act and the rules, whether or not such orders or instructions are indicated, specified or enumerated in the act or in the rules.

History: 1954 ACS 72, p. 26, Eff. July 14, 1972.

WILDLIFE DIVISION

GAME BREEDERS

(By authority conferred on the department of natural resources by section 10 of Act No. 191 of the Public Acts of 1929 and sections 9 and 253 of Act No. 380 of the Public Acts of 1965, as amended, being §§317.80, 16.109, and 16.353 of the Michigan Compiled Laws)

R 299.2521 Definitions.

Rule 1. (1) "Animals" means wild animals and wild birds protected by the laws of this state.

(2) "Department" means the department of natural resources.

History: 1954 ACS 69, p. 42, Eff. Sept. 13, 1971.

R 299.2522 Licenses.

Rule 2. (1) A person wishing to breed and sell migratory birds, such as ducks or geese, shall comply with federal regulations before a state license will be issued. This includes physical marking of waterfowl by removal of the hind toe on the right foot of each bird before it reaches the age of 4 weeks.

(2) A separate game breeder's license is required for each project located on separate premises although operated and owned by the same person or entity.

(3) A game breeder's license shall be amended when a licensee secures additional numbers and kinds of breeding stock to be kept on the area already licensed.

History: 1954 ACS 69, p. 43, Eff. Sept. 13, 1971.

R 299.2523 Enclosures and sanitation.

Rule 3. Animals held in captivity shall be confined at all times in cages or enclosures of such strength and type of construction that it will be impossible for the animals to escape, and shall not be chained or otherwise tethered to stakes, posts, trees, buildings, or other anchorage. Cages and enclosures shall be of sufficient size to give the animals confined ample space for exercise and to avoid overcrowding, and shall be provided with rainproof dens, nest boxes, shelters, perches, and bedding as required for the comfort of the species held in captivity and to protect them against inclement weather or extreme heat. Animals in captivity shall be handled in a sanitary and humane manner and kept free as far as practicable from parasites, sickness, or disease.

History: 1954 ACS 69, p. 43, Eff. Sept. 13, 1971.

R 299.2524 Acquisition and disposition of animals.

Rule 4. (1) Animals in captivity under a game breeder's license shall have been acquired in a lawful manner. As evidence thereof, the receipted invoice, bill of lading, shipping tag purchased from the department, or other satisfactory evidence shall be presented for inspection upon request by an authorized officer.

(2) When animals have been presented to an organization or agency by the department, such as the gift of orphan fawns to a municipal park or zoo, the owners of the animals or their offspring may dispose of them only in a manner approved by the department.

History: 1954 ACS 69, p. 43, Eff. Sept. 13, 1971.

R 299.2525 Shipping and identification tags.

Rule 5. (1) Products produced under authority of the game breeders' license law, Act No. 191 of the Public Acts of 1929, as amended, being §§317.71 to 317.84 of the Michigan Compiled Laws, shall be identified with official shipping tags or identification tags (ID tags), or both, available from the department at a cost of 2 cents each, before removal from licensed premises. The tags shall identify the products as having been produced and sold legally. The shipping tags shall be constructed in 2 sections: 1 part retained with the shipment and the other section retained by the shipper.

(2) The shipping tags and identification tags shall be securely attached to the products or containers, shall be readily visible, and shall remain attached until the products are ready to be used or consumed or until live animals are released from crates or other containers. A person shall not reuse a tag.

History: 1954 ACS 69, p. 43, Eff. Sept. 13, 1971.

R 299.2526 Attachment of identification tags.

Rule 6. (1) The procedure for identifying various products produced on a licensed game breeder's premises is as set forth in the remainder of this rule and R 299.2527 and R 299.2528.

(2) An identification tag shall be fastened securely to the leg or wing of each carcass of a field or market-dressed bird, small game animal or fur-bearing animal or to each package, wrapper, bag or carton containing such an item or its parts or products. An identification tag shall be attached to each package, wrapper, bag or carton containing a portion of a big game animal such as a white-tailed deer, elk, moose, or black bear. When several individually wrapped, bagged or packaged products are placed and shipped in a crate, box or other container, the crate, box or other container shall be identified through use of a shipping tag as described in R 299.2527.

History: 1954 ACS 69, p. 43, Eff. Sept. 13, 1971.

R 299.2527 Shipping tags for live animals and eggs.

Rule 7. Shipments of live animals and birds' eggs shall be identified by shipping tags as follows:

(a) When a licensed game breeder, or a purchaser of live animals or birds' eggs produced by a licensed game breeder, or an employee of the licensee or purchaser is in the act of transporting crated or boxed live animals or birds' eggs, he shall have on his person 1 shipping tag provided by each vendor and on which are listed the numbers and kinds of licensed products included in the shipment in his charge. The tag shall include the names and addresses of the licensed game breeder and purchaser, date of shipment, number and kind of product being transported and the game breeder's license number.

(b) When a common carrier is hired to transport live animals or eggs produced by a licensed game breeder, a shipping tag shall be fastened securely to each crate, box, or other container used for transporting the live animals or eggs from the licensed premises.

History: 1954 ACS 69, p. 43, Eff. Sept. 13, 1971.

R 299.2528 Shipping tags for carcasses, pelts, and hides.

Rule 8. A shipping tag shall be attached securely to each field-dressed or hog-dressed carcass of a big game animal, each animal pelt, and each animal hide produced by a licensed game breeder.

History: 1954 ACS 69, p. 44, Eff. Sept. 13, 1971.

R 299.2529 Return of surplus shipping and identification tags.

Rule 9. A licensed game breeder who discontinues operations shall return to the department all surplus shipping tags and identification tags within 15 days after expiration of his license. The department shall refund the full value of the items returned.

History: 1954 ACS 69, p. 44, Eff. Sept. 13, 1971.

R 299.2533 Reports.

Rule 13. A licensee shall file a monthly report with the department, listing all sales and shipments by date, species, and number sold or shipped and to whom sold or shipped, except that such information need not be reported when dressed carcasses are sold to individuals for personal or home consumption and not for resale. A report shall be filed for a month in which shipments are made, within 15 days after the end of the month. A report need not be filed for a month in which shipments are not made. An annual report shall be filed with the department within 15 days after expiration of a game breeder's license. The department shall make available monthly and annual report forms.

History: 1954 ACS 69, p. 44, Eff. Sept. 13, 1971.

R 299.2539 Rescission.

Rule 19. The "Rules and Regulations Governing the Breeders' License Law," being R 299.41 to R 299.46 of the Michigan Administrative Code and appearing on pages 1904 and 1905 of the 1954 volume of the Code are rescinded.

History: 1954 ACS 69, p. 44, Eff. Sept. 13, 1971.

FORESTRY DIVISION

COMMERCIAL FORESTS

(By authority conferred on the department of natural resources by section 1 of Act No. 94 of the Public Acts of 1925, as amended, and sections 9 and 252 of Act No. 380 of the Public Acts of 1965, being §§320.301, 16.109, and 16.352 of the Michigan Compiled Laws)

R 299.2601 Applications; contents.

Rule 1. (1) An application requesting the listing of lands shall be in writing upon a form prescribed by the department of natural resources.

(2) Application shall be made under oath and shall include the endorsement of a notary public or other official authorized to administer sworn or affirmed statements.

(3) A separate application shall be prepared for each county covering all lands for which listing is desired.

(4) Lands applied for shall be listed in the application, and shall be considered for eligibility as separately described tracts as individually listed on current ad valorem tax tolls. Consolidation of tracts within a single section into a single description shall be done where appropriate.

(5) An application shall contain a full description of each tract applied for, including the name of the county, township, town, range, section, section subdivision, fully described exceptions or partial descriptions, and net acreage applied for listing. The net acreage shall include area subject to easement by grant or by prescription but shall not include the area of rights-of-way severed from descriptions and held in separate ownership.

(6) An application shall be limited to descriptions apparently eligible.

History: 1954 ACS 69, p. 44, Eff. Nov. 30, 1971.

R 299.2602 Application; time limits.

Rule 2. Applications shall be submitted by August 1 for consideration for listing for the subsequent year. Applications received after August 1 shall be carried forward for processing the following year.

History: 1954 ACS 69, p. 45, Eff. Nov. 30, 1971.

R 299.2603 Listing certificates.

Rule 3. (1) Descriptions approved by the department for listing shall be recorded on a listing certificate and sent to the applicant for signature. A listing certificate shall be prepared for each county in which the applicant owns eligible lands.

(2) The signed listing certificate shall be returned in duplicate to the department, together with the appropriate recording fee. The department shall forward the completed certificate to the county register of deeds for recording and shall notify appropriate township supervisors of those lands certified for listing by the department before January 1.

(3) A description included in a notice dated before January 1 and sent to the respective supervisor shall be removed from the ad valorem general property tax roll for the ensuing year and placed upon a special tax roll to be taxed at a specific annual rate in accordance with section 5 of the act as long as the description remains registered under the act.

History: 1954 ACS 69, p. 45, Eff. Nov. 30, 1971.

R 299.2604 Lands; eligibility for listing.

Rule 4. (1) Land shall meet the requirements of character and use prescribed in sections 1a and 2 of the act.

(2) A tract of less than 40 acres is not eligible for listing unless it adjoins lands already listed or being listed, unless the area is less than 40 acres because the tract is a fractional survey description or because of outstanding rights of way or easements, and the tract is a reasonable and economic management unit primarily valuable as a commercial forest.

(3) A tract within the boundaries of a city or village is not eligible for listing.

(4) A tract zoned contrary to the intent of the act is not eligible for listing.

(5) A tract having potential for residential, industrial, intensive recreation or resort use by reason of location or presence of features such as water frontage, is not eligible for listing if the value of the land for such use is recognized in the determination of ad valorem tax assessment at the time of application. Frontage on improved roads in an area not presently highly developed or where a shortage of land available for other than forestry purposes is not anticipated within a reasonable period of time may be considered for listing if otherwise eligible.

(6) A tract having known or anticipated mineral deposits of economic value is not eligible for listing, except that when subsurface minerals are separately owned, the surface owner may apply for listing of the lands. The leasing of mineral rights by the owner of both surface and minerals constitutes use of the land for mineral or commercial purposes other than the production of forest products and the lands are not eligible for listing during the term of a lease.

(7) In determining the eligibility of land from the standpoint of productivity, stocking and timber condition requirements specified in section 2 of the act, consideration shall be given to the degree to which full productive potential is achieved.

(8) An individual description having significant nonstocked area or significant areas of nonproductive land or mature timber is not eligible unless the description is a contiguous part of a larger eligible ownership already listed or being offered for listing.

(9) A description containing contiguous nonstocked but productive land or areas of mature timber in excess of 10 acres in size is not eligible until the condition is corrected.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN

(10) A description containing greater than 50% nonproductive land is not eligible for listing unless it is essential to provide necessary ingress and egress to or between lands accepted for listing.

(11) In considering stocking and productivity, the total forest property of an owner listed or applied for under the act and the pattern of occurrence and condition shall be considered.

(12) Land managed exclusively for the production of Christmas trees or for the production of wood fiber crops normally harvested at an age of 10 years or less is not eligible for listing. The incidental harvest of Christmas trees or other trees at an age of 10 years or less in addition to forest products produced under normal and natural rotations shall not preclude the eligibility of land for listing. Land managed for production of Christmas trees and approved for listing prior to 1971 shall not be required to be withdrawn from listing by this rule.

History: 1954 ACS 69, p. 45, Eff. Nov. 30, 1971.

R 299.2605 Criteria to determine compliance with act.

Rule 5. The use of land listed as commercial forest shall comply fully with the requirements of the act and the following criteria:

(a) Land may not contain a building or improvements other than those used exclusively for the conduct of forest management or logging operations.

(b) Land shall not be used or obligated for any commercial purpose other than the production of forest products, and shall not be managed in a manner detrimental to the growth and development of timber products to the full potential of the site. An easement may be granted to accommodate needs for transportation and utilities if in the opinion of the department the effect on the productivity of the land is reasonable and justified. Noncommercial uses compatible with good forest management and full productivity of the lands are permissible.

(c) Listed land shall be open to the public for purposes of hunting and fishing. Land shall not be posted in any manner as to restrict or infer restriction of entry for hunting and fishing.

History: 1954 ACS 69, p. 46, Eff. Nov. 30, 1971.

R 299.2606 Harvest of forest products.

Rule 6. The harvest of forest products from listed land shall be limited to areas, species, and classes of products identified in permits issued by the department and in effect at the time of cutting. A permit shall not be required for cultural operations conducted for stand improvement purposes where no merchantable products are cut, utilized or destroyed.

History: 1954 ACS 69, p. 46, Eff. Nov. 30, 1971.

R 299.2607 Reports.

Rule 7. Semiannual reports as required in section 9 of the act shall be submitted upon a form provided by the department. A report shall be identified as either intermediate or final. A report identified as final shall include all of the products previously unreported that have been cut under the permit to which it applies and further cutting may not be done under that permit. Semiannual reports shall be submitted covering all periods during which a permit is in effect even though material has not been cut during the reporting period, except that submission of a final report constitutes termination of an otherwise continuing permit and a subsequent report is not required.

History: 1954 ACS 69, p. 46, Eff. Nov. 30, 1971.

R 299.2608 Withdrawal of listed lands.

Rule 8. When an owner desires to withdraw all or part of his listed lands, he shall notify the department in writing of the descriptions to be withdrawn. The department shall appraise the appropriateness of the application. If the withdrawal would result in the retention of land under listing that by itself is ineligible for listing, the department may require the withdrawal of adjacent lands in addition to those contained in the initial withdrawal application. The department shall draft and forward to the applicant a withdrawal certificate prepared in duplicate and indicating the withdrawal fees computed in accordance with section 7 of the act. Upon receipt of the signed certificate in duplicate, together with the indicated computed withdrawal and recording fees, the department shall certify the withdrawal as provided in section 7 of the act. The date of the certification shall be the effective date of the withdrawal, after which the provisions of the act shall no longer apply to the lands withdrawn. The lands shall be subject to the specific tax and not the ad valorem tax for the year in which withdrawn.

History: 1954 ACS 69, p. 46, Eff. Nov. 30, 1971.

R 299.2609 New rates of fees or taxes.

Rule 9. New rates of fees or taxes or changes in their distribution enacted into law shall be effective as of the effective date of the amending act. The new rates shall apply to the entire year during which the amending act becomes effective. However, if the act becomes effective after December 1, the new rates shall not become effective until the subsequent tax year. If land is withdrawn from listing during a year that an amending act becomes effective and prior to the effective date of the amending act, then the old rates of withdrawal fees and the annual specific tax and state payment shall be applied.

History: 1954 ACS 69, p. 47, Eff. Nov. 30, 1971.

R 299.2610 Transfers of title.

Rule 10. Transfer of title does not alter the listing when the eligibility of land is unaffected if the new owner desires the lands to remain listed. The seller shall notify the department in writing of the transfer promptly. A title transfer which results in the establishment of a separately owned tract which does not meet basic eligibility requirements shall result in the withdrawal of the tract from listing under the act. When the state is acquiring listed lands by purchase, gift, or exchange, the lands shall be withdrawn before the transaction is consummated.

History: 1954 ACS 69, p. 47, Eff. Nov. 30, 1971.

R 299.2611 Trespass.

Rule 11. The department of natural resources is not responsible for protection of listed lands against trespass upon the forest products. In case of trespass, the owner is liable to the department for the yield tax based on the stumpage value of the products removed, in the same manner as though the cutting had been done under permit from the department.

History: 1954 ACS 69, p. 47, Eff. Nov. 30, 1971.

R 299.2612 Rescission.

Rule 12. The rules entitled "Rules and Regulations Concerning Commercial Forest Reserves," being R 299.261 to R 299.275 of the Michigan Administrative Code and appearing on pages 1925 to 1927 of the 1954 volume of the Code, are rescinded.

History: 1954 ACS 69, p. 47, Eff. Nov. 30, 1971.

LAW ENFORCEMENT DIVISION

USE OF RIVERS

(By authority conferred on the commission of natural resources by sections 3 and 3a of Act No. 17 of the Public Acts of 1921, as amended, and sections 9 and 255 of Act No. 380 of the Public Acts of 1965, as amended, being §§299.3, 299.3a, 16.109, and 16.355 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 299.2701 Purpose and applicability.

Rule 1. (1) The purpose of these rules is to implement section 3 of Act No. 17 of the Public Acts of 1921, as amended, being §299.3 of the Michigan Compiled Laws.

(2) This part applies to all rivers, except as otherwise specifically provided, which are covered in part 2 of these rules, and which may subsequently be covered by amendments or additions to these rules.

History: 1954 ACS 72, p. 26, Eff. July 12, 1972.

R 299.2704 Definitions.

Rule 4. As used in these rules:

(a) "Department" means the department of natural resources.

(b) "Livery operator" means a person with an established location of business who owns 3 or more watercraft and who rents them to the public for use on a designated river stretch.

History: 1954 ACS 72, p. 26, Eff. July 12, 1972.

R 299.2709 Responsibilities of livery operators or other persons who have watercraft for rent.

Rule 9. (1) A livery operator or other person who has watercraft for rent in a stretch of a river designated for non-motor watercraft use shall comply with this rule during the entire year.

(2) He shall for the occupants of each watercraft rented (a) give them a map of the river which identifies public stops and facilities; (b) provide a litter bag and instructions on its use; (c) make them aware that the river is patrolled; and (d) give them instructions by printed rules as to the proper use of the river, adjacent lands and watercraft, including information on respect for private property and penalties for violations of river rules. The map and printed materials shall be those which will be prepared by the department.

(3) He shall keep a log, by assigned watercraft, of the verified name and address of the responsible person renting each watercraft or the leader responsible for a group.

History: 1954 ACS 72, p. 27, Eff. July 12, 1972.

R 299.2710 Responsibilities of river users.

Rule 10. (1) A person using a stretch of a river designated for non-motor watercraft use shall comply with this rule during the entire year.

(2) Public facilities provided and marked for particular purposes such as toilets, picnic areas and campgrounds are the only facilities to be used by non-guest, nonriparians for those purposes.

(3) Food and beverage items shall be transported in a closed container attached to a watercraft. Litter shall be kept in this container or in a litter bag attached to a

watercraft. A person wading the river shall contain all personal litter in his clothing or in a litter bag.

(4) Rafting or joining together of watercraft is prohibited.

(5) Except for training purposes, the deliberate overturning of watercraft, deliberate actions that may reasonably be expected to lead to overturning, and deliberate actions that interfere with other watercraft users or river users are prohibited.

(6) The possession of rifles, shotguns, pistols, BB guns, cap-pistols, bows and arrows, and other noise-making or injury-producing instruments is prohibited in watercraft, except from September 15 to December 31.

(7) A river user shall act so as to not damage (a) the stream bed; (b) fish, wildlife, or plant habitats in the river; (c) stream improvement devices; and (d) live or dead vegetation and soil in the river or on the adjoining banks.

History: 1954 ACS 72, p. 27, Eff. July 12, 1972.

R 299.2711 Release and pickup points.

Rule 11. (1) Except in an emergency, only the premises of a livery operator or points designated by the department for release or pickup of watercraft may be used for these purposes. At a bridge crossing, release or pickup may be made only at designated places. However, a riparian owner, or his guest or tenant, may also use the riparian's private property for release or pickup.

(2) Except for the substitution of a new release and pickup point for an existing point, a new private access point for commercial release or pickup of watercraft may not be developed without approval by the department.

History: 1954 ACS 72, p. 27, Eff. July 12, 1972.

R 299.2715 Watercraft permits.

Rule 15. (1) A watercraft renter may obtain a permit for weekend days and holidays at a livery located on or normally serving the river stretches designated for non-motor watercraft use. These permits will be supplied to these liveries by the department. Ten percent of the number of permits specified for such a designated river stretch are available to those who do not use liveries serving these stretches. These permits may be obtained by applying to designated department offices.

(2) Advance reservations for permits may be made by individuals or groups.

(3) The permit for each watercraft shall be in the watercraft or in the possession of an occupant of that watercraft while it is in use on or in connection with a designated river stretch.

(4) The following exceptions will be made in the issuance and use of permits:

(a) A person on a river with a permit may continue downriver into other restricted stretches without an additional permit.

(b) If a person has a permit and camps overnight at a canoe campground, he need not renew the permit daily.

(c) A riparian owner with a single-family lot or with a rental lodge or dwellings on a stretch designated for non-motor watercraft use may obtain a seasonal, nontransferable permit for up to 2 allowed watercraft on that stretch without regard for the daily quota of permits. A guest or tenant of such an owner may also use the seasonal permit. "Single-family lot" means a lot owned and used or intended to be used by a single family or 1 to 4 persons.

(d) An established nonprofit club which is a riparian owner on a stretch designated for non-motor watercraft use and which has at least 5 members as

co-owners or who support the club with regular payments, may obtain 5 seasonal permits for use by members or their guests.

(e) A bona fide river guide who is not a riparian owner, and who is determined by the department to make a substantial part of his livelihood guiding on stretches designated for non-motor watercraft use, may obtain a seasonal permit for 1 traditional "longboat" or "riverboat" for use on such stretches.

(f) The department may issue a special permit for an emergency, a canoe race, river clean-up, other special event, and practice sessions in connection with an event.

(5) In a stretch designated for protection in any way, special permits may be granted by the department to elderly, crippled, or handicapped persons to use watercraft which is otherwise prohibited.

History: 1954 ACS 72, p. 27, Eff. July 12, 1972.

R 299.2719 Penalties.

Rule 19. As prescribed in section 3a of Act No. 17 of the Public Acts of 1921, a violation of a commission rule is a misdemeanor. The Michigan statutes fix the penalty for a misdemeanor whose punishment is not otherwise provided for by statute.

History: 1954 ACS 72, p. 28, Eff. July 12, 1972.

PART 2. AU SABLE, MANISTEE, PINE, AND PERE MARQUETTE RIVERS

R 299.2721 Applicability of part 2.

Rule 21. This part applies to stretches of the Au Sable, Manistee, Pine, and Pere Marquette rivers hereinafter designated.

History: 1954 ACS 72, p. 28, Eff. July 12, 1972.

R 299.2722 Use of watercraft on designated river stretches.

Rule 22. (1) On stretches of rivers hereinafter designated for non-motor watercraft use, such craft are the only type of watercraft allowed from the last Saturday in April through labor day; and on weekends and holidays during this period, such watercraft may be used only by permit with no more daily permits allowed than specified for each stretch.

(2) On all other stretches of rivers hereinafter designated, watercraft may be used from the last Saturday in April through labor day only as hereinafter specified in R 299.2724 to R 299.2727.

(3) On all stretches of rivers hereinafter designated, this part does not apply from the day after labor day through the day before the last Saturday in April.

History: 1954 ACS 72, p. 28, Eff. July 12, 1972.

R 299.2724 Au Sable river.

Rule 24. (1) On the mainstream of the Au Sable river:

(a) Upstream from Pollak bridge on the south line of section 36, T27N, R4W—watercraft may not be used.

(b) From Pollak bridge to the lower dam in the SE¼, section 7, T26N, R3W, in the city of Grayling—no restrictions on use.

(c) From the lower dam to Wakeley bridge—non-motor watercraft use only, with permits on specified days according to the following schedule: 1972—350 permits; 1973—250 permits; 1974 and each year thereafter—150 permits.

(d) Wakeley bridge to Townline road—motor watercraft may not be used, no other restrictions.

(e) Townline road to McMasters bridge—motor watercraft permitted at slow, no-wake speed, no other restrictions.

(f) Below McMasters bridge—no restrictions on use.

(2) On the south branch of the Au Sable river:

(a) Above Chase bridge—no restrictions on use.

(b) From Chase bridge to Smith bridge—non-motor watercraft use only, with permits on specified days according to the following schedule: 1972—200 permits; 1973—150 permits; 1974 and each year thereafter—100 permits.

(c) Smith bridge to Oxbow club—motor watercraft may not be used, no other restrictions.

(d) Oxbow club to mouth—motor watercraft permitted at slow, no-wake speed, no other restrictions.

(3) On Shellenbarger creek, between Shellenbarger lake and the mainstream—motor watercraft may not be used, no other restrictions.

(4) On the other tributaries entering the mainstream of the Au Sable river above Parmalee bridge—watercraft may not be used.

History: 1954 ACS 72, p. 28, Eff. July 12, 1972.

R 299.2725 Manistee river.

Rule 25. On the Manistee river:

(a) Upstream from County road 612—watercraft may not be used.

(b) County road 612 to CCC (Sunset Trail) bridge—non-motor watercraft use only, 150 permits on specified days.

(c) Downstream from CCC bridge—no restrictions on use.

History: 1954 ACS 72, p. 29, Eff. July 12, 1972.

R 299.2726 Pine river.

Rule 26. On the Pine river:

(a) Upstream from Edgetts bridge—watercraft may not be used.

(b) Edgetts bridge to Walker bridge—non-motor watercraft use only, 100 permits on specified days.

(c) Walker bridge to Peterson bridge (M-37)—non-motor watercraft use only, 150 permits on specified days.

(d) Peterson bridge to Low bridge—non-motor watercraft use only, 150 permits on specified days.

(e) Low bridge to Manistee river—no restrictions on use.

History: 1954 ACS 72, p. 29, Eff. July 12, 1972.

R 299.2727 Pere Marquette river.

Rule 27. On the Pere Marquette river:

(a) From the Forks to Bowman bridge—non-motor watercraft use only, 150 permits on specified days.

(b) From Bowman bridge to Upper Branch bridge—non-motor watercraft use only, 150 permits on specified days.

(c) Upper Branch bridge to Indian bridge—motor watercraft may not be used, no other restrictions.

(d) Below Indian bridge—no restrictions on use.

History: 1954 ACS 72, p. 29, Eff. July 12, 1972.

WILDLIFE DIVISION

PUBLIC EXHIBITIONS OF WILD ANIMALS AND BIRDS

(By authority conferred on the director of the department of natural resources and the commission of natural resources by section 2a of chapter 2 of Act No. 286 of the Public Acts of 1929, as amended, and sections 9, 251, and 252 of Act No. 380 of the Public Acts of 1965, being §§312.2a, 16.109, 16.351, and 16.352 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 299.2801 Definitions; A to D.

Rule 1. (1) "Adult" means an animal or bird which has reached the age of maturity.

(2) "Animal" means a wild mammal or wild bird, native or non-native to Michigan.

(3) "Compatible" means the ability of 2 or more animals to coexist in harmony throughout the year. Some animals are not compatible with each other except during their mating seasons such as weasels, mink and opossums.

(4) "Department" means the department of natural resources.

(5) "Director" means the director of the department of natural resources.

History: 1954 ACS 73, p. 8, Eff. Oct. 12, 1972.

R 299.2803 Definitions; P to R.

Rule 3. (1) "Pen" means a cage, small fenced-in plot, or other enclosure in which animals are held under a public exhibition permit.

(2) "Public exhibition" means a place where 1 or more animals listed in R 299.2811 and R 299.2812 are kept in captivity upon any street or highway; upon public or private land adjoining a street or highway; or upon public or private land in the vicinity of a commercial establishment which is for the evident purpose of attracting trade; or any such place which is open at any time for public viewing.

(3) "Range field" means a fenced area in which wild mammals and flightless birds are allowed to roam freely.

History: 1954 ACS 73, p. 8, Eff. Oct. 12, 1972.

R 299.2804 Definitions; W.

Rule 4. "Wildlife park" means an appropriately fenced and supervised range field having foot trails, elevated walkways, roads, or facilities and equipment for moving people such as monorail or railway coaches, cable cars, carts drawn by tractors or horses, or other transportation facilities which may be approved by the director to make it possible for visitors to observe and enjoy wild animals. The purpose of a wildlife park is to provide visitors with a meaningful educational adventure. "Drive-through wildlife park" means a wildlife park consisting of 1 unit having 160 or more acres, consisting of 1 or more range fields and having roads and trails for visitors' vehicles from which the driver and the passengers may observe wild animals as their vehicle travels through the park.

History: 1954 ACS 81, p. 25, Eff. Nov. 14, 1974.

R 299.2807 Time for compliance with statutes and rules.

Rule 7. (1) An applicant for an exhibition permit, who exhibited non-native animals listed under R 299.2811 and R 299.2812 before May 1, 1972, has until December 31, 1973, to adjust operations to conform to the statutes and these rules.

(2) An applicant who did not exhibit animals for public benefit before May 1, 1972, shall conform to statutes, rules, and pen specifications without delay.

(3) In either instance, the director, upon recommendations of the inspecting officer, may grant in writing an extension of time.

(4) An applicant who exhibited wild native animals under an exhibition permit before the effective date of these rules and complied with the rules and pen specifications then in effect, is not required to reconstruct pens to conform to the new rules, but shall conform when new pens are built. The remaining rules apply to such an applicant.

History: 1954 ACS 73, p. 9, Eff. Oct. 12, 1972.

R 299.2808 Penalty.

Rule 8. A person who violates any of these rules is subject to the penalties prescribed in section 14 of chapter 2 of Act No. 286 of the Public Acts of 1929, as amended, being §312.14 of the Michigan Compiled Laws.

History: 1954 ACS 73, p. 9, Eff. Oct. 12, 1972.

R 299.2809 Rescissions.

Rule 9. The rules entitled "Governing Public Exhibitions of Wild Animals," being R 299.81 to R 299.89 of the Michigan Administrative Code and appearing on pages 1907 to 1909 of the 1954 volume of the Code and the rules entitled "Public Exhibition of Wild Animals," being R 299.91 to R 299.105 of the Michigan Administrative Code and appearing on pages 70 to 75 of the 1955 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 73, p. 9, Eff. Oct. 12, 1972.

PART 2. PERMITS

R 299.2811 Wild mammals for which permits are required.

Rule 11. A permit is required for public exhibition of any of the following wild mammals:

Antelopes
Armadillos
Baboons
Badgers
Bears
Beavers
Bison (buffalo)
Bobcats
Chimpanzees
Chipmunks
Civet cats
Coatimundi
Cougars (puma)
Coyotes
Deer (all species except fallow deer, sika deer and reindeer)
Elk
Fishers
Foxes
Giraffes
Goats (except domestic species)
Gophers

Hares (except domestic species)
Jaguars
Kangaroos
Kinkajous
Lemurs
Lions
Lynx
Martens
Mink
Monkeys
Moose
Muskrats
Nutria
Ocelots
Opossums
Otters
Peccaries
Porcupines
Prairie dogs
Rabbits (except domestic species)
Raccoons
Rhinoceros
Ringtail cats
Sheep (except domestic species)
Skunks
Squirrels
Tigers
Weasels
Wolverines
Wolves
Woodchucks
Zebras
Hybrids of any of the animals listed above.

R 299.2812 Wild birds for which permits are required.

Rule 12. A permit is required for public exhibition of any of the following wild birds:
Crows
Doves (pigeons)
Grouse
Hawks and eagles
Jungle fowl
Macaws
Ostriches, rheas, emus, cassowaries
Owls
Partridges
Pheasants
Parrots
Quail
Shore birds

Waterfowl (all wild species of ducks,
geese and swans)
Wild turkeys

History: 1954 ACS 73, p. 9, Eff. Oct. 12, 1972.

R 299.2813 Applications.

Rule 13. (1) An exhibitor at a public exhibition of any animal listed under R 299.2811 and R 299.2812 shall obtain an exhibition permit when the animal is held in captivity for public display. Application for a permit shall be made on a form prepared and furnished by the Michigan Department of Natural Resources, Lansing, Michigan 48926. When animals are exhibited at 2 or more separate locations, applications shall be made for separate permits.

(2) The application shall contain:

(a) Name and address of the applicant.

(b) Location of the proposed exhibit.

(c) The number and kinds of animals listed under R 299.2811 and R 299.2812 which are being or will be exhibited.

(d) Date when animals were obtained.

(e) Source from which animals were obtained.

(f) Number of square feet provided by each pen holding a wild animal.

(g) Approximate space devoted to entire exhibit area.

History: 1954 ACS 73, p. 10, Eff. Oct. 12, 1972.

R 299.2814 Inspections.

Rule 14. A department officer shall inspect animal pens and surrounding premises of an applicant before a permit is issued. He shall determine if the operation complies with the statute and rules. He shall determine if there are any domestic or wild animals not listed under R 299.2811 and R 299.2812 that present a hazard to humans and to any animals on display which are included in R 299.2811 and R 299.2812. He shall submit a report with recommendations to the director.

History: 1954 ACS 73, p. 10, Eff. Oct. 12, 1972.

R 299.2815 Sources of animals.

Rule 15. (1) Animals retained in a public exhibition shall have been obtained in a lawful manner in Michigan or from legal sources outside the state. As evidence of such legal possession, a receipted invoice, bill of lading or other satisfactory evidence shall be presented for inspection upon request by a department officer or other authorized officer.

(2) An exhibition permit shall not be issued to an applicant having foreign or native animals which, at the time of initial application for permit, are included on the endangered wildlife species list of the Bureau of Sport Fisheries and Wildlife, U.S. Department of Interior, Washington, D.C. Since the list is subjected to periodic revisions, it shall be the responsibility of the applicant to determine the status of an animal in relation to an up-to-date list compiled by the U.S. Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.

History: 1954 ACS 73, p. 10, Eff. Oct. 12, 1972.

R 299.2816 Display of permits.

Rule 16. A person to whom a permit for a public exhibition is issued, shall frame and publicly display the permit in a prominent place on the licensed premises.

History: 1954 ACS 73, p. 10, Eff. Oct. 12, 1972.

R 299.2817 Notification of additional numbers and species.

Rule 17. After a person is granted an exhibition permit, he shall inform the department of any additional numbers and species of animals, or both, acquired for public exhibition.

History: 1954 ACS 73, p. 10, Eff. Oct. 12, 1972.

R 299.2818 Expiration, suspension, and revocation of permits.

Rule 18. A permit expires on December 31 of the year for which it is issued, and may be suspended or revoked after a hearing upon reasonable notice for failure to comply with these rules.

History: 1954 ACS 73, p. 10, Eff. Oct. 12, 1972.

PART 3. PENS AND HOUSING

R 299.2821 General provisions.

Rule 21. (1) The specifications listed in this part apply to pens and equipment and shall be considered as minimum requirements. Fence material used for pen or range field enclosures shall not be lighter than the gauge specified. Fence mesh shall be no larger and pen size shall be no smaller.

(2) Any deviation from the specifications because of unusual design, including, but not limited to, moats, islands, pits, and natural or artificial barriers such as fencing or walls, shall be approved by the inspecting officer and the director before a permit is issued.

(3) A range field, enclosed within an appropriate fence which will prevent animals from escaping by digging, climbing, or jumping, and on which 1 species of animal or several species of compatible animals are free to roam, shall be approved by an inspecting officer and the director before a permit is issued.

History: 1954 ACS 73, p. 11, Eff. Oct. 12, 1972.

R 299.2822 Protection of animals.

Rule 22. (1) A permittee shall not chain or otherwise tether to a stake, post, tree, building, or other anchorage an animal held under the permit, except in an emergency situation or when repairs are being made to pens and other facilities associated with captive animals.

(2) A permittee at all times shall confine animals held under his permit in pens or range fields which are maintained in good repair, and which conform to the minimum specifications for pens established hereinafter for each species.

(3) A permittee at all times shall furnish such pens with weatherproof shelters in good repair, and which conform for each species to the minimum specifications for such shelters; furnish appropriate dry bedding required for the comfort of each species so held; and provide protection for all animals against inclement weather and direct rays of the sun.

(4) A permittee shall provide pen floors with good drainage to insure adequate runoff during heavy rains and thawing periods. Quagmire conditions shall not be allowed to prevail. Raised wire-mesh pen floors shall be at least 1 foot above the ground or ground covering.

(5) A permittee shall notify a conservation officer or other authorized officer of the escape of an animal held under permit immediately after the escape is detected.

History: 1954 ACS 73, p. 11, Eff. Oct. 12, 1972.

R 299.2824 Deer, elk, moose, antelopes, wild sheep species, American bison (buffalo), kangaroos, wild goats, giraffes, and zebras.

Rule 24. (1) A pen for deer, elk, moose, antelopes, wild sheep species, American bison (buffalo), kangaroos, giraffes, or zebras shall have a dirt floor. For hoofed animals a portion of the dirt floor shall consist of abrasive material such as coarse gravel to prevent development of overgrown hoofs.

(2) A pen shall provide 3,000 square feet for from 1 to 5 animals, and 1,000 square feet for each animal in excess of 5.

(3) Walls or fences shall be vertical type except as provided for fawns in subrule (5). An enclosure for deer, wild sheep, wild goats, kangaroos, and antelopes shall be constructed of 11-gauge woven wire with mesh not more than 6 inches in diameter or equivalent. An enclosure for giraffes, zebras, elk, moose, and bison shall be constructed of a 9-gauge woven wire with mesh not more than 6 inches in diameter or equivalent. Posts shall be of heavy-duty quality steel or wood, spaced not more than 12 feet apart. An 8-foot vertical fence, with or without overhang shall be provided for giraffes, white-tailed deer, moose, elk, sheep and goats; a 10-foot vertical fence for antelopes; and a 6-foot vertical fence for zebras, bison, and kangaroos.

(4) A weatherproof shelter with roof and 3 walls and floor space of 40 square feet shall be provided for 1 animal, and 20 square feet for each additional animal; or a lean-to furnishing equivalent space and projection.

(5) Fawns, from birth to October 1 of the year of birth, may be held in a pen with 60-inch walls of 11-gauge fence with mesh not more than 2 inches in diameter and space of not less than 1,000 square feet for from 1 to 5 fawns; and 300 square feet additional for each fawn in excess of 5.

History: 1954 ACS 73, p. 11, Eff. Oct. 12, 1972; 1954 ACS 81, p. 28, Eff. Nov. 14, 1974.

R 299.2825 Bears.

Rule 25. (1) No more than 2 compatible adults of the same species of bear and their offspring of the year shall be held in 1 pen. A pen shall be enclosed completely, including a top.

(2) A pen floor shall be made of concrete 4 inches thick.

(3) A pen shall provide 400 square feet for 1 animal, 576 square feet for 2 animals, and an additional 200 square feet for each offspring.

(4) The framework for the walls and top of a pen shall be made of 3-inch galvanized iron pipe or steel posts of equal or greater strength, with all upright members set 3 feet deep in concrete and spaced 4 feet apart. Cross members (stringers) forming the framework for the top shall be spaced 4 feet apart.

(5) The walls of a pen shall be of 9-gauge chain link fence with mesh no greater than 2 inches in diameter, welded or bolted at the bottom, at each 3-inch interval, to a horizontal crossbar, 2 inches by ⅜-inch in cross section, welded at the ends to the vertical framework of the pen; or vertical steel bars or rods of ⅝-inch diameter, spaced no greater than 3 inches apart, set 4 inches deep in concrete, and having at every 36-inch interval above the floor a horizontal crossbar, 2 inches by ⅜-inch in cross section, welded to each upright member; or 3 walls may be of 8-inch cement block construction. A wall shall be not less than 8 feet high.

(6) The top of a pen shall be of 9-gauge chain link fence similar to walls welded or bolted to cross members at 1-foot intervals.

(7) A wood, concrete or cement block den 4 feet high by 4 feet wide by 6 feet long or equivalent shall be provided for each animal; or 1 den 4 feet high by 6 feet wide by 8 feet long for 2 animals and their offspring of the year. The top shall be constructed of concrete or 2-inch planking covered with exterior grade plywood.

The floor shall be concrete or concrete covered with fiber glass, heavy-duty exterior grade plywood coated with epoxy coating, tile or similar material to insure sanitation. The entrance shall be 4 feet high and 3 feet wide. A den shall be provided with adequate ventilation opening on the roof or back of the structure to prevent condensation of moisture. Shade shall be provided by covering ¼ to ½ of chain link fence top with exterior grade plywood, fiber glass, metal sheets or similar material.

History: 1954 ACS 73, p. 11, Eff. Oct. 12, 1972.

R 299.2826 Lions, tigers, cougars (puma), and other large cats.

Rule 26. (1) Any number of compatible adult lions, tigers, cougars, and other large cats of the same species and their offspring of the year may be held in 1 pen. A pen shall be enclosed completely, including a top. A top is not required for an enclosure around a range field when its fence is high enough to prevent animals from jumping out and escaping by climbing out of the enclosure.

(2) The floor of the pen shall be of concrete 4 inches thick.

(3) A pen shall provide 400 square feet for 1 animal, 576 square feet for 2 animals, and 200 square feet for each additional animal.

(4) The framework for walls and top of a pen shall be of 3-inch galvanized iron pipe or steel posts of equal or greater strength, with all upright members set 3 feet deep in concrete and spaced 4 feet apart. Cross members (stringers) forming the framework of the top shall be spaced 4 feet apart.

(5) The walls of a pen shall be of 6-gauge chain link fence with mesh no greater than 2 inches in diameter, fastened at the bottom, at each 4-inch interval, to a horizontal crossbar, 2 inches by ⅜-inch in cross section, welded at the ends to the vertical framework of the pen; or vertical steel bars or rods ⅝-inch in diameter spaced no greater than 2¼ inches apart, set 4 inches deep in concrete, and having at every 36-inch interval above the floor a horizontal crossbar, 2 inches by ⅜-inch in cross section, welded to each upright member; or 3 walls may be of 8-inch cement block construction. A wall shall be not less than 12 feet high.

(6) A pen top shall be of 9-gauge chain link fence similar to walls, welded or fastened with bolts and clamps to cross members at 1-foot intervals.

(7) A concrete or cement block den with adequate ventilation, sloping floor for drainage and to facilitate cleaning, 4 feet high by 4 feet wide by 8 feet long shall be provided for each animal; or 1 den 4 feet high by 6 feet wide by 8 feet long for 2 animals. The den floor shall be concrete or concrete covered with heavy-duty exterior grade plywood with epoxy coating or with 2-inch treated planking covered with fiber glass or tile. The top shall be of concrete of 2-inch planking covered with exterior grade plywood. The top shall serve as an outdoor loafing platform. The entrance shall be 4 feet high and 3 feet wide. Shade shall be provided by covering ¼ to ½ of chain link top with exterior grade plywood, fiber glass, metal sheets, or similar material, except when natural shade is available at all times of the day and throughout the year.

History: 1954 ACS 73, p. 12, Eff. Oct. 12, 1972.

R 299.2827 Chimpanzees.

Rule 27. (1) Any number of compatible adult and young chimpanzees of the same species may be held in 1 pen. A pen is not required when walls, islands, moats, and other barriers make it impossible for the animals to escape. The pen shall be completely enclosed, including a top if required to prevent animals from escaping.

(2) The floor of a pen shall be of concrete 4 inches thick.

(3) A pen shall provide 144 square feet for 1 animal, 256 square feet for 2 animals, and 100 square feet for each additional animal.

(4) The framework for the walls and top of a pen shall be of 2-inch galvanized iron pipe or steel or iron beams of similar strength, with upright members set 2 feet deep in concrete and spaced 4 feet apart. Cross members (stringers) forming the top of the framework shall be of the same size and type of material used for upright members and shall be spaced 4 feet apart.

(5) The walls of a pen shall be of 11-gauge chain link fence with mesh no greater than 2 inches in diameter or similar material bolted or welded at the bottom, at each 4-inch interval, to a horizontal crossbar, 1½ inches by ¼-inch in cross section, welded at the ends to the upright members of framework of the pen; or 3 walls may be of 8-inch cement block construction. A wall shall be 12 feet high.

(6) The top of a pen shall be 11-gauge chain link fence, similar to walls, welded or fastened with bolts and clamps to cross members at 1-foot intervals.

(7) Adequate perching facilities and exercise bars shall be provided.

(8) A wooden shelter 2½ feet high by 2½ feet wide by 4 feet long shall be provided for 1 animal. Entrance to the shelter shall be 2 feet by 2 feet. The shelter shall be constructed of ¾-inch exterior grade plywood or similar material and shall be securely fastened near the top of the pen.

History: 1954 ACS 73, p. 13, Eff. Oct. 12, 1972.

R 299.2828 Wolves, coyotes, lynx, ocelots, jaguars, and wolverines.

Rule 28. (1) Not more than 2 compatible adults of the same species of coyotes, lynx, ocelots, jaguars, or wolverines and their offspring of the year shall be held in 1 pen. Any number of compatible adults wolves and their young may be held in 1 pen.

(2) The floor of the pen shall be of concrete 4 inches thick.

(3) A pen shall provide 300 square feet per animal and 100 square feet for each additional animal.

(4) The walls and top of a pen shall be of 14-gauge either expanded metal or hexagonal mesh no greater than 1½ inches in diameter, or 14-gauge welded steel fabric with mesh 1 inch by 2 inches. Framework shall be of 2-inch galvanized pipe, heavy-duty wooden posts or material of equal strength and durability. Uprights shall be spaced 4 feet apart and set in 3 feet of concrete. The walls of a pen for lynx, ocelots, and jaguars shall be 8 feet high. The walls of a pen for wolves, coyotes, and wolverines shall be 6 feet high. A pen holding animals which can escape by climbing or jumping shall be covered with appropriate fence material.

(5) A weatherproof, concrete or cement block den box, 3 feet high by 3 feet wide by 4 feet long shall be provided for each animal, or 1 box 4 feet high by 4 feet wide by 6 feet long for 2 animals. The floor of the den box shall be concrete or concrete covered with 2-inch wood planking, fiber glass or tile. The top of the den shall be of concrete or 2-inch wood planking covered with exterior grade plywood. The top of the den shall serve as an outdoor loafing deck. A heated building shall be provided during periods of low temperature for animals native to areas having a warm year-round climate. The floor shall have some slope for drainage and to facilitate cleaning. The entrance shall be 2½ feet high and 2 feet wide. Shade shall be provided by covering ¼ to ½ of wire-mesh top with exterior grade plywood, fiber glass, metal sheets or similar material.

(6) Adequate perching facilities shall be provided for species requiring such features.

History: 1954 ACS 73, p. 13, Eff. Oct. 12, 1972.

R 299.2829 Foxes and bobcats.

Rule 29. (1) Not more than 2 compatible foxes or 2 compatible bobcats and their offspring of the year shall be held in 1 pen. A pen shall be enclosed completely.

(2) The floor of a pen shall be of concrete 4 inches thick, or raised 14-gauge fur-farm netting with hexagonal mesh 1 inch in diameter, or 14-gauge welded steel fabric with mesh 1 inch by 2 inches.

(3) A pen with a concrete floor shall provide 144 square feet for 1 animal and 36 square feet for each additional animal. A raised floor shall provide 100 square feet for 1 animal and 36 square feet for each additional animal.

(4) The walls of a pen shall be of 14-gauge, either hexagonal mesh no greater than 1½ inches in diameter, or 14-gauge welded steel fabric with mesh 1 inch by 2 inches. A wall shall be 6 feet high for foxes and 8 feet for bobcats.

(5) The top of a pen shall be of 14-gauge fur-farm netting or similar material with mesh 1½ inches in diameter. When natural shade is not available at all times of the day, shade shall be provided by covering ¼ of the screened top with exterior grade plywood, fiber glass, metal sheeting or similar durable material.

(6) A den constructed of wood planking shall be provided for a bobcat and a similar wooden or cement block den box for a fox. One den box 2 feet high by 2 feet wide by 3 feet long shall be made available for each animal, or 1 box 2 feet high by 3 feet wide by 3 feet long for 2 animals. The top and floor of each den box shall be constructed of cement or from 2-inch thick treated planking covered with exterior grade plywood. The entrance shall be 1½ feet high and 1½ feet wide. A den box for bobcats shall be placed near the top of the pen. The top of the den shall serve as an outdoor loafing deck for foxes.

(7) An elevated wooden loafing platform shall be provided for bobcats. A heavy tree limb (6 inches in diameter), an old auto tire or wooden exercise bar (6 inches in diameter) shall also be provided for bobcats.

History: 1954 ACS 73, p. 13, Eff. Oct. 12, 1972.

R 299.2830 Baboons and other small primates.

Rule 30. (1) Any number of compatible adults of the same species of small primates, including, but not limited to, spider monkeys, squirrel monkeys, rhesus monkeys, stub-tailed monkeys, and lemurs, and their offspring, may be held in 1 pen. A pen shall be completely enclosed, including a top.

(2) The floor of a pen shall be of concrete 4 inches thick or treated wooden planking covered with heavy-duty exterior grade plywood.

(3) A pen shall provide 144 square feet for 1 baboon, rhesus monkey, spider monkey, or stub-tailed monkey and 36 square feet for each additional animal. A pen shall provide 36 square feet for 1 squirrel monkey or 1 lemur, and 20 square feet for each additional animal. For other species of primates, floor space shall be correlated with the size of the species, the larger the animal the more space required. Special pen specifications may be requested for unlisted small primates.

(4) The walls and top of a pen shall be of the same material. They shall be of 11-gauge chain link fence with 1½-inch mesh or similar fencing material for rhesus monkeys, spider monkeys, stub-tailed monkeys, baboons, or primates of similar size. They shall be of 14-gauge hexagonal mesh 1½ inches in diameter, or welded steel fabric with rectangular mesh 1 inch by 2 inches or similar material for squirrel monkeys, lemurs and primates of similar small size. The framework shall be of 2-inch galvanized pipe or cedar posts with tops measuring 4 inches in diameter. Uprights shall be spaced 4 feet apart and set in 3 feet of concrete. Shade shall be provided by covering ¼ of the top with exterior grade plywood, fiber

glass, or similar durable material if some natural shade is not available at all times of the day. A wall shall be 10 feet high for all primates listed in this rule.

(5) An exterior grade plywood den box 2 feet high by 2 feet wide by 3 feet long shall be provided for each animal, or 1 box 2 feet high by 3 feet wide by 3 feet long for 2 animals. The floor of the den box shall be constructed from 2-inch thick treated planking or other durable material. The entrance shall be 1½ feet high and 1½ feet wide. A wooden den box shall be placed near the top of the pen.

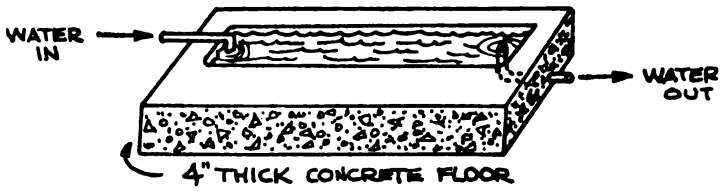
(6) Perches and raised platforms shall be provided for all primates listed in this rule. Tree limbs, an old auto tire, or wooden bars of appropriate diameter will suffice.

History: 1954 ACS 73, p. 24, Eff. Oct. 12, 1972.

R 299.2831 Beavers and otters.

Rule 31. (1) Not more than 2 compatible adults of the same species of beavers and otters and their immature offspring of the year shall be held together in 1 pen.

(2) The pen floor shall be constructed of concrete 4 inches thick with a built-in trough, 2 feet high by 4 feet wide by 6 feet long, with top of the trough at floor level.



(3) A pen shall provide 144 square feet for 1 animal and 200 square feet for 2 animals.

(4) A pen wall shall be of 9-gauge chain link fence or welded steel fabric or fence or netting of equivalent strength, with mesh no greater than 2 inches by 4 inches. A wall shall be not less than 6 feet high.

(5) A weatherproof wooden or cement block den 2 feet high by 3 feet wide by 3 feet long shall be provided for each animal, or 1 box 3 feet high by 3 feet wide by 4 feet long for 2 animals. The floor and top of the den box shall be constructed from 2-inch treated planking covered with exterior grade plywood or similar material. The den shall have adequate ventilation to prevent moisture condensation in winter. The entrance shall be 1½ feet high and 1½ feet wide.

(6) The top of a pen shall be of the same material as used for the walls. However, a top is not required when sheet metal or similar material is attached to the top of the fence to prevent animals from climbing out of the enclosure.

(7) Running water shall fill the trough at all times, with inlet pipe at the top of the trough at 1 end and with outlet opening of drain pipe at opposite end from the inlet. The outlet shall be constructed in a manner which will allow complete drainage to facilitate cleaning trough. See following diagram:

Water Trough
(2′ Deep x 4′ Wide x 6′ Long)

R 299.2832 Rabbits and hares.

Rule 32. (1) Only 1 adult of the same species of rabbit or 1 female and her offspring of the year shall be held in 1 pen.

(2) The floor of a pen shall be of dirt or concrete 4 inches thick; or raised 19-gauge galvanized hardware cloth with mesh ⅝-inch in diameter, or 16-gauge fur-farm netting with mesh 1 inch in diameter.

(3) A pen shall provide 20 square feet for 1 animal and 12 square feet for each additional animal. A raised floor shall provide 20 square feet for 1 animal and 8 square feet for each additional animal.

(4) The walls of a pen shall be of 18-gauge fur-farm netting with mesh 1 inch in diameter. In the case of a dirt floor, 1½ feet of the bottom portion of the netting used for walls shall be buried to prevent animals from escaping. The walls shall be 4 feet high from ground level.

(5) The top of a pen shall be of the same material as for the walls. However, a top is not required when sheet metal 2 feet wide or similar material is extended down from the top and inside the fence as a barrier to prevent animals from climbing out of the enclosure.

(6) A weatherproof wooden den box, 1 foot high by 1½ feet wide by 2 feet long shall be provided for each animal, or 1 box 1½ feet high by 2 feet wide by 3 feet long for 2 animals. The floor of the box shall be constructed of 2-inch thick treated planking.

History: 1954 ACS 73, p. 15, Eff. Oct. 12, 1972.

R 299.2833 Prairie dogs.

Rule 33. (1) Any number of compatible adult prairie dogs and their young may be held in 1 pen.

(2) The floor of a pen shall be of concrete, 4 inches thick, or 9-gauge non-rusting woven wire or galvanized hardware cloth or similar non-rusting material with mesh 1 inch in diameter. Reinforcement rods are recommended for the outer edge of a concrete floor to help support concrete or cement block walls. Six-inch tile floor drains shall be installed in the concrete floor at the rate of 1 per 16 square feet to facilitate drainage. Aluminum wire mesh, galvanized hardware cloth, or other suitable non-rusting material with mesh no greater than 1 inch in diameter shall be used as covers for floor drains to prevent animals from escaping. Floor drains are not required when non-rusting woven wire is used for entire floor. The floor shall be 6 feet below ground level.

(3) A pen shall provide 100 square feet for 2 adults and their offspring and 16 square feet for each additional animal.

(4) The walls of a pen shall be of 4-inch cement blocks with appropriate cement footings; or 4-inch poured concrete; or 9-gauge non-rusting woven wire or galvanized hardware cloth or similar non-rusting material with 1-inch mesh attached to a framework of steel or cedar posts for the wall below ground level. Above ground level the wall shall be of 18-gauge fur-farm netting or similar durable material with mesh 1 inch in diameter. A top consisting of fur-farm netting or an escape barrier shall be installed by extending sheet metal 1½ feet down from the top and inside the fence. Each of the 4 walls shall be 10 feet from the floor to the top of the exposed wire fence (above ground level) and shall consist of 6 feet of concrete, masonry hardware cloth or other similar material wall below ground level, and 4 feet of exposed fence of 18-gauge fur-farm netting or similar durable material with mesh 1 inch in diameter.

(5) A piece of 4-foot by 4-foot exterior grade plywood, sheet metal, fiber glass or similar durable material shall be placed on legs of galvanized pipe, cedar posts

or cement blocks to provide shade for a family of prairie dogs. The plywood shall be 2 to 3 feet above the ground level.

(6) A pen for a family of prairie dogs shall be constructed on a site having good drainage and with a low water table to prevent burrows from being flooded. A minimum area 12 feet by 12 feet shall be excavated to a depth of 6 feet in sandy soil. In clay soil the excavation shall be 8 or more feet in depth to allow for the addition of 2 feet of sand or gravel to facilitate drainage. After excavation and addition of sand or gravel where needed, the bottom of the pit shall be covered with a concrete floor 4 inches thick or with 9-gauge non-rusting woven wire or galvanized hardware cloth or similar non-rusting material with mesh 1 inch in diameter. The outer edge of a cement floor shall be strengthened with metal reinforcement rods. One 6-inch drain hole shall be provided per 16 square feet of cement floor space. A drain opening shall be covered with galvanized or aluminum netting or other similar material to insure good drainage and to prevent animals from escaping.

(7) Cement block walls 4 inches wide shall be erected along the 4 outer edges of the cement floor or on appropriate cement footings when the main floor consists of woven wire or other non-rusting material. Poured concrete or 9-gauge non-rusting woven wire may be used in place of cement blocks. Walls shall be extended to ground level. After construction of walls below ground level, the entire enclosure shall be filled with sandy loam soil.

(8) A wire fence, 4 feet high, shall be constructed on top of the underground wall, using 18-gauge fur-farm netting or similar material with mesh 1 inch in diameter. Sheet metal or similar material shall extend downward from the top, and inside of the fence as a barrier to prevent animals from escaping.

History: 1954 ACS 73, p. 15, Eff. Oct. 12, 1972.

R 299.2834 Tree squirrels, ground squirrels, and chipmunks.

Rule 34. (1) Not more than 1 compatible pair of tree squirrels, ground squirrels (gophers) or chipmunks and their offspring of the year shall be held in 1 pen. A pen shall be enclosed completely, including a top.

(2) The floor of a pen shall be of concrete 4 inches thick, or a raised floor consisting of 18-gauge fur-farm netting, with mesh 1 inch in diameter for larger species and ¾-inch in diameter for smaller species.

(3) A concrete floor shall provide 36 square feet for 1 tree squirrel and 12 square feet for each additional animal. A raised floor shall provide 36 square feet for 1 tree squirrel and 12 square feet for each additional animal; 20 square feet for 1 ground squirrel or chipmunk and 8 square feet for each additional animal.

(4) The walls of a pen shall be of 18-gauge fur-farm netting or similar material with mesh 1 inch in diameter for tree squirrels, and 19-gauge hardware cloth with mesh ⅝-inch in diameter for ground squirrels or chipmunks. A wall shall be 7 feet high for tree squirrels and 4 feet high for ground squirrels and chipmunks.

(5) The top of a pen shall be of the same material as for the walls. When natural shade is not available, ¼ of the top shall be covered with exterior grade plywood, metal sheeting, or other durable material to provide artificial shade. A top is not required when a pen is designed and constructed in a manner which makes it impossible for animals to escape.

(6) A weatherproof wooden den box, 2 feet high by 1 foot wide by 1 foot long, shall be provided for 1 pair of animals. A den box opening for tree squirrels shall be 3½ inches in diameter, the center of which shall be 6 inches from the top. A den box for chipmunks or ground squirrels shall have an entrance 2¼ inches in diameter. A den box shall be placed near the top of a pen for tree squirrels and on

the pen floor for ground squirrels and chipmunks. A perch made from tree limbs or a wooden bar 3 to 6 inches in diameter shall be provided for squirrels. An exercise wheel shall be provided for each pen.

History: 1954 ACS 73, p. 16, Eff. Oct. 12, 1972.

R 299.2835 Other small mammals.

Rule 35. (1) Any number of compatible animals of the same species of badgers, mink, muskrats, opossums, porcupines, raccoons, skunks, weasels, civet cats, peccaries, armadillos, woodchucks, martens, fishers, ringtail cats, coatimundi, and kinkajous may be held in the same pen, depending on the social behavior of the species involved. Weasels, mink, opossums, and some other animals usually do not tolerate each other except during their mating seasons. The pen shall be enclosed completely, except when noted otherwise.

(2) The floor of a pen shall be of concrete 4 inches thick, or raised 16-gauge fur-farm netting with mesh 1 inch in diameter.

(3) A pen shall provide 64 square feet for 1 animal and 12 square feet for each additional animal. A raised floor shall provide 36 square feet for 1 animal and 12 square feet for each additional animal.

(4) The walls of a pen shall be of 16-gauge fur-farm netting with mesh 1½ inches in diameter or similar material, except that the mesh used for a mink or weasel pen shall be ¾-inch. The wall shall be 6 feet high for tree-climbing animals, 4 feet high for muskrats, mink, and other non-climbing animals.

(5) The top of a pen shall be of the same material as for walls. A top is not needed when sheet metal 2 feet wide or similar material is attached to the top of the fence to prevent animals from climbing out of their enclosure.

(6) A weatherproof wooden or cement block den box shall be of appropriate size to accommodate the size of the animal. The floor of the den box shall be constructed of cement covered with heavy-duty exterior grade plywood or 2-inch thick treated planking. A den box shall be placed on a pen floor, except for tree-climbing animals.

(7) Tree limbs or wooden rods of appropriate diameter shall be made available to tree-climbing animals.

History: 1954 ACS 73, p. 17, Eff. Oct. 12, 1972.

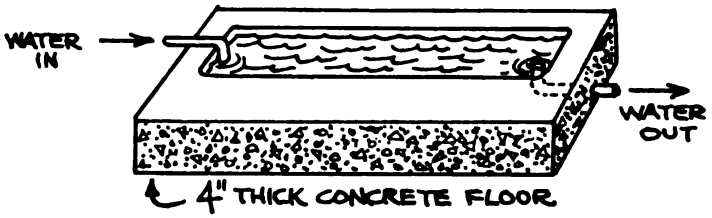
R 299.2836 Waterfowl.

Rule 36. (1) Any number of compatible ducks and geese and their offspring may be held in 1 pen.

(2) The floor of a pen shall be of dirt with good drainage or 4-inch concrete.

(3) A pen shall provide 64 square feet of land, excluding pond area, for 1 duck and 24 square feet for each additional duck. A grazing area of 1,600 square feet shall be provided for 1 goose and 800 square feet for each additional goose.

(4) The walls of a pen shall be 4 feet high for pinioned birds and 6 feet high for non-pinioned birds, and shall be of 18-gauge galvanized wire mesh. From ground level to 2 feet above ground level, the fence shall be of 1-inch galvanized wire mesh. Steel fence posts, cedar posts with 4-inch tops, or posts of similar strength shall form the framework for the waterfowl pen. The posts shall be set 2½ feet in the ground and spaced not more than 10 feet apart.



(5) A top for a pen is not required for pinioned waterfowl. For non-pinioned waterfowl, the top shall be of 18-gauge galvanized wire with 2-inch mesh. Adequate support shall be provided to prevent snow and ice from damaging the pen.

(6) A waterproof shelter with roof and 3 walls and floor space of 4 square feet per bird shall be provided in a pen, or a lean-to furnishing equivalent space and protection. The floor of the shelter shall provide good drainage.

(7) Adequate protection and provisions shall be provided for waterfowl during winter months as required by the inspecting conservation officer who may require placing ducks and geese in a building.

(8) Where a natural or man-made pond is not available, an artificial pond as hereafter shown shall be constructed for 1 pair of ducks or 1 pair of swans and their offspring. The artificial pond shall have running water at all times. The inlet pipe shall be not less than 2 inches from the top of the trough at 1 end. The outlet shall be at the opposite end. The outlet shall be constructed in a manner which will allow for complete drainage to facilitate cleaning of the pond. See following drawing:

(9) An artificial pond shall be:

(a) For dabbling (puddle) ducks, 2 feet deep by 4 feet wide by 8 feet long.

(b) For diving ducks, 4 feet deep by 4 feet wide by 8 feet long.

(c) For swans, 3 feet deep by 4 feet wide by 8 feet long.

History: 1954 ACS 73, p. 17, Eff. Oct. 12, 1972.

R 299.2837 Hawks, eagles, owls, crows, doves, macaws, and parrots.

Rule 37. (1) With the exception of crows, doves (pigeons), macaws, and the lesser parrots, not more than 1 bird shall be held in a pen. One pair of crows and their offspring of the year may be held in 1 pen. Any number of doves or macaws or lesser parrots may be held in 1 pen.

(2) The floor of a pen shall be of 4-inch concrete or dirt with good drainage.

(3) A pen shall provide 64 square feet per bird, 100 square feet for 2 birds and 12 square feet for each additional bird.

(4) The walls of a pen shall be of 18-gauge, galvanized, 1-inch mesh for the first 2 feet above ground level. The next 6 feet shall be 18-gauge, 1½-inch mesh. The walls shall be 8 feet high.

(5) The top of a pen shall be of 18-gauge, 2-inch galvanized mesh.

(6) One-half of a pen's top shall be covered with exterior grade plywood, fiber glass, metal sheeting, or other durable waterproof material to provide shade and protection from inclement weather. Each owl, hawk, crow, macaw, and parrot shall have access to a 2½ feet high by 2 feet wide by 2 feet long wooden shelter with top, bottom and 3 sides enclosed. The shelters shall be placed under the covered portion of the pen's top.

(7) All birds shall be provided with an adequate number of perches made from wooden rods or tree limbs of appropriate diameter, depending on the size of the birds.

History: 1954 ACS 73, p. 18, Eff. Oct. 12, 1972.

R 299.2838 Pheasants, wild turkeys, grouse, jungle fowl, shore birds, partridges, and quail.

Rule 38. (1) Any number of compatible adult pheasants, wild turkeys, grouse, jungle fowl, shore birds, partridges, or quail and their offspring may be held in 1 pen.

(2) A pen shall provide 64 square feet of dirt floor or cement floor for 1 bird and 12 square feet for each additional bird.

(3) Pen walls shall be of 18-gauge, galvanized fencing material with 1-inch mesh from ground level to 2 feet thereabove. The remainder of the fence shall consist of 18-gauge, galvanized fencing with 2-inch mesh. Walls shall be 6 feet high.

(4) The top of a pen shall be of 18-gauge, galvanized fencing with 2-inch mesh for non-pinioned birds. A top is not required for pens with pinioned birds.

(5) A waterproof shelter with roof and 3 walls providing 4 square feet of shelter area shall be provided per bird, or a lean-to furnishing equivalent space and protection.

History: 1954 ACS 73, p. 18, Eff. Oct. 12, 1972.

R 299.2839 Ostriches, rheas, emus, and cassowaries.

Rule 39. (1) Any number of compatible ostriches, rheas, emus, or cassowaries may be held in 1 pen, but all birds shall be of the same species.

(2) The floor of the outdoor pen shall consist of dirt with good drainage.

(3) Each bird shall be provided with 1,000 square feet of floor space and 1,000 square feet for each additional bird.

(4) The walls shall be 8 feet high for ostrich pens and 6 feet high for rhea, emu and cassowary pens.

(5) The framework of the pen shall consist of heavy-duty steel posts or cedar posts or other wooden posts treated with a wood preservative. The maximum spacing between posts shall not exceed 12 feet.

(6) Fencing for ostrich pens shall consist of 9-gauge chain link fence with mesh 2 inches in diameter or similar material. Fencing for rhea, emu, and cassowary pens shall consist of 11-gauge chain link fence with mesh 2 inches in diameter or similar material.

(7) An outdoor weatherproof shelter, consisting of a roof and 3 walls and 40 square feet of floor space per bird shall be provided for spring, summer and fall use.

(8) A completely enclosed, heated, and weatherproof building shall be provided for the birds during periods when the outdoor temperature drops below 55 degrees. Temperatures in the building shall not be allowed to fall below 55 degrees.

History: 1954 ACS 73, p. 19, Eff. Oct. 12, 1972.

PART 4. PERMITTEES' OPERATIONS

R 299.2851 Distance from highway or street.

Rule 51. A public exhibition or part thereof shall not be closer than 100 feet to the center line of the nearest highway lane, road, or street, except when a species of animal is kept in a range field consisting of 3 or more acres or under unusual situations approved by the inspecting conservation officer and the director.

History: 1954 ACS 73, p. 19, Eff. Oct. 12, 1972.

R 299.2852 Parking.

Rule 52. A permittee for a public exhibition adjacent to a highway, road, or street shall furnish suitable parking space for automobiles driven by the public unless otherwise approved by an inspecting officer.

History: 1954 ACS 73, p. 19, Eff. Oct. 12, 1972.

R 299.2853 Identifying labels.

Rule 53. A permittee shall attach to each pen a sign, with letters at least 2 inches high, which gives the appropriate common names of the animals therein.

History: 1954 ACS 73, p. 19, Eff. Oct. 12, 1972.

R 299.2854 Disease, parasites, and unusual behavior.

Rule 54. (1) A permittee shall provide adequate facilities and sanitation for the health and well being of exhibited animals; shall keep them reasonably free from parasites; and shall remove sick, injured, deformed, and otherwise incapacitated animals from the exhibit area.

(2) A permittee shall recognize and evaluate unusual physical attributes and behavior patterns of individual animals and take appropriate measures to protect the health, safety, and welfare of other animals and the visiting public. This may involve construction of stronger and larger pen facilities or removal of an animal from a pen or the exhibit area.

(3) Domestic and wild animals not listed under R 299.2811 and R 299.2812 shall not be displayed in a manner that poses a threat to the health and welfare of the wild mammals and wild birds being held under an exhibition permit, of the visiting public or the permittee or his employees.

(4) A permittee shall obtain the services of a veterinarian when, in the opinion of the inspecting conservation officer, any animal held in an area covered by an exhibition permit requires such service. The expense for such service shall be assumed by the permittee.

(5) The inspecting officer may require a permittee to submit a veterinarian's report concerning the health and welfare of any animal on exhibit.

(6) A permittee is responsible for the safety of persons authorized to be on the licensed premises.

History: 1954 ACS 73, p. 19, Eff. Oct. 12, 1972.

R 299.2855 Sanitation.

Rule 55. (1) A permittee shall clean all pens daily, or more often if necessary. Spilled food, excrement or other offensive material shall be removed or flushed from pens regularly with running water when necessary. The pens and range fields shall be sanitary, attractive and free of offensive odors at all times.

(2) A permittee shall provide animals, native to regions having warm climates, with adequately heated facilities during periods of low temperatures.

(3) A permittee shall remove paper, cartons, tin cans, bottles, garbage of any kind, animal excrement, or other debris from within 100 feet of any pen, unless the waste material is contained in a suitable covered garbage container. The contents shall be emptied and taken away daily.

(4) A permittee shall provide dens which are accessible with clean litter for insulation and comfort purposes.

History: 1954 ACS 73, p. 19, Eff. Oct. 12, 1972.

R 299.2856 Physical contact between animals and public.

Rule 56. (1) A permittee holding animals listed in R 299.2811 or R 299.2812 for public exhibition shall display the animals in such a manner as to insure that there shall be no physical contact between public spectators and the animals. This may be accomplished by construction of guard fences, guard rails, moats, or other structures approved in each individual case by the inspecting officer.

(2) A permittee shall not allow any other person, except his bona fide employee, veterinarian, conservation officer, humane officer, or other commissioned officer to enter, at any time, a pen in which wild animals are held under his permit.

History: 1954 ACS 73, p. 20, Eff. Oct. 12, 1972.

R 299.2857 Wildlife park.

Rule 57. (1) A detailed plan of a wildlife park shall be made available and approved by the director prior to the construction and establishment of a wildlife park. A public hearing shall be conducted prior to the issuance of a permit.

(2) Boundary fences, compartment fences and gates, moats, pits, and other artificial or natural barriers shall meet department specifications. In some instances 2 parallel boundary fences may be required.

(3) Maximum concentration of compatible wild animals in each range field of a wildlife park shall be established by the department and shall be limited to such species which cannot escape by climbing over or digging under boundary or range field fences. Changes in concentration of animals may be warranted from time to time, depending on the physical condition of the captive animals, degree of soil erosion and water pollution, public safety and general appearance of the vegetation and physical features of the land.

(4) All range fields of a wildlife park shall be patrolled by qualified personnel to insure safety of the visitors, employees, and wild animals. Personnel shall be provided with any necessary training, equipment, and facilities to insure such safety. Personnel shall be informed about animal behavior and the life histories of the animals on display in the park.

(5) A permittee operating a wildlife park shall provide the following:

(a) Appropriate summer and winter shelters if appropriate natural shelter is lacking. Some wild animals may require the protection of a building or artificial heat or both in winter. The shelters and winter quarters shall be dry and of suitable size to prevent overcrowding.

(b) Daily fence checks to make certain the fences are in good condition.

(c) Daily range field inspections to insure humane and sanitary conditions for captive animals.

(d) Sanitary dispensing and storage facilities for wholesome food and clean water. Perishable food shall be kept under appropriate refrigeration.

(e) Well maintained trails, roads, or facilities and equipment used in transporting people.

(f) Appropriate vehicle speed limits.

(g) Appropriate turnoffs along trails for picture taking.

(6) A permittee operating a wildlife park shall prohibit the following:

(a) Visitors from entering the park with domestic or wild animals.

(b) Visitors from making physical contact with wild animals listed in these rules.

(7) A permittee operating a drive-through wildlife park shall prohibit the following:

(a) Open windows on vehicles in range field except when the permittee

provides metal screen inserts of appropriate strength to protect driver and passengers.

(b) Cars classed as convertible and other vehicles which offer little protection to the occupants from entering the drive-through wildlife park.

(c) Visitors from leaving car except as directed by the permittee or his qualified employees in emergency situations.

(8) A permittee operating a drive-through wildlife park shall make available printed copies of safety rules listed in subrules (6) and (7), the vehicle speed limit and other safety precautions which he deems important to the driver of each vehicle before the visitor and his passengers are permitted to enter the park.

History: 1954 ACS 73, p. 20, Eff. Oct. 12, 1972; 1954 ACS 81, p. 28, Eff. Nov. 14, 1974.

R 299.2858 Food and water.

Rule 58. (1) It is unlawful for a person to provide food or water to animals, except such natural food which is normally eaten by each species or commercially prepared food for each species, and water according to subrule (4).

(2) The food shall be wholesome, palatable, and free from contamination and of sufficient quantity and nutritive value to maintain the animals for whom it is provided in good health. The diet shall be prepared according to the age, species, condition, size and type of the animals. Animals shall be fed at least once a day, except as dictated by hibernation, veterinary treatment, normal fasts, or other professional practices.

(3) Food, and food receptacles if used, shall be sufficient in quantity and located to assure accessibility to all animals in an enclosure and placed to minimize contamination. Food receptacles shall be sanitary. If self-feeders are used, adequate measures shall be taken to prevent moulding, contamination, and deterioration or caking of the food.

(4) If potable water is not accessible to the animals at all times, it shall be provided as often as necessary for the health and comfort of the animals. Frequency of watering shall relate to the age, species, condition, size, and type of the animals. Water receptacles shall be sanitary.

History: 1954 ACS 73, p. 20, Eff. Oct. 12, 1972.

R 299.2859 Harassment.

Rule 59. A permittee shall not place animals under stress or allow the general public or his employees to harass an animal held captive on the licensed premises.

History: 1954 ACS 73, p. 20, Eff. Oct. 12, 1972.

R 299.2860 Inspection.

Rule 60. A department officer may inspect the operation at any reasonable time and the permittee shall make available for inspection all animals, pens, and other enclosures covered by his permit. Unsatisfactory conditions shall be documented in writing by the inspecting officer. A copy of the report shall be furnished the permittee and the director.

of the Public Acts of 1969, as amended, and Executive Reorganization Order Nos. 1973-2 and 1973-2a, being §§325.203, 325.206, 24.233, and 299.111 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 299.2901 Purpose.

Rule 1. These rules are promulgated for the purpose of implementing the provisions of the act.

History: 1954 ACS 85, p. 13, Eff. Sept. 24, 1975.

R 299.2903 Definitions.

Rule 3. (1) "Act" means Act No. 98 of the Public Acts of 1913, as amended, being §§325.201 to 325.214 of the Michigan Compiled Laws.

(2) "Board" means the board of examiners established by R 299.2916.

(3) "Department" means the department of natural resources.

(4) "Division" means the municipal wastewater division of the department.

(5) "Governmental agency" means and shall include a city, village, township, county, metropolitan district, or other unit of government, or the officers thereof.

(6) "Operator" means an individual who works in a treatment facility and who has some responsibility for the operation thereof.

(7) "Person" means an individual, partnership, association, corporation, or any governmental agency.

(8) "Sewer system" means and shall include pipes and structures, including pipes, channels, conduits, manholes, pumping stations, and appurtenances, collectively or severally, actually used or intended for use by the public for the purpose of collecting, conveying, or transporting domestic and industrial wastes to a treatment facility.

(9) "Sewerage system" means and shall include sewer systems and treatment facilities required to collect, transport, and treat domestic and industrial wastes.

(10) "Superintendent" means an individual in charge of and responsible for the operation of a treatment facility and in whom is vested the authority and responsibility for the establishment and execution of the specific practices and procedures controlling the operations of the treatment facility in accordance with the policies of the owner of the facility and the department.

(11) "Treatment facility" means and shall include sewage or waste treatment works, structures, equipment, and appurtenances, collectively or severally, actually used or intended for use by the public for the purpose of treatment or otherwise handling domestic and industrial wastes.

History: 1954 ACS 85, p. 13, Eff. Sept. 24, 1975.

R 299.2905 Rescission.

Rule 5. The following rules are rescinded:

(a) The rule pertaining to issuance of construction permits, being R 325.461 of the Michigan Administrative Code and appearing on page 2260 of the 1954 volume of the Code.

(b) Rules 1 to 8, being R 325.1121 to R 325.1128 of the Michigan Administrative Code and appearing on pages 2327 to 2330 of the 1954 volume of the Code.

History: 1954 ACS 85, p. 13, Eff. Sept. 24, 1975.

PART 2. TREATMENT FACILITY CLASSIFICATION AND OPERATOR CERTIFICATION

R 299.2911 Treatment facility classification.

Rule 11. (1) Treatment facilities shall be classified by the director of the department into 4 classes, designated as class A, B, C, and D. The classifications shall be based on population served, the type of treatment facility, the character and volume of wastes to be treated, and the use and nature of the waters of the state receiving the effluent thereof. Treatment facilities in any size group may be placed in a higher classification by the director, by reason of the incorporation in the treatment facility of special features of design, or characteristics more difficult to operate than usual, or by reasons of a particularly difficult type of sewage or by reason of particular stream conditions or combinations thereof.

(2) A special classification may be designated for all treatment facilities utilizing the waste stabilization lagoon process and which do not include special mechanical devices such as aerators, chemical precipitation, disinfection, or other factors.

(3) One of the following classifications shall be assigned to each treatment facility which serves the public:

(a) Class A, treatment facilities serving or designed to serve a population in excess of 50,000 persons.

(b) Class B, treatment facilities serving or designed to serve a population between 10,000 and 50,000 persons.

(c) Class C, treatment facilities serving or designed to serve a population between 2,000 and 10,000 persons.

(d) Class D, treatment facilities serving or designed to serve a population of less than 2,000 persons.

(e) Class L, treatment facilities utilizing the waste stabilization lagoon process.

History: 1954 ACS 85, p. 14, Eff. Sept. 24, 1975.

R 299.2912 Treatment facility classification changes.

Rule 12. (1) When the director determines that 1 or more of the conditions described by subrule (2) exist or are imminent, he may change the classification of a treatment facility after notice and opportunity for hearing on his proposed action at least 60 days prior to the classification change. Hearings conducted pursuant to this subrule shall be undertaken according to hearing procedures prescribed by part 5.

(2) The director may make a classification change of a treatment facility upon his finding that any of the following or any combination is occurring or may be expected to occur within 60 days:

(a) The population being served by the treatment facility has changed.

(b) There has been incorporated within the treatment facility special features of design or characteristics which render the treatment facility more difficult to operate.

(c) Certain wastes are being treated within the treatment facility which require special treatment facility design or operation procedures.

(d) Conditions of flow or use of the receiving waters require an unusually high degree of treatment facility operational control.

History: 1954 ACS 85, p. 14, Eff. Sept. 24, 1975.

R 299.2916 Board of examiners; appointments.

Rule 16. The director shall appoint a board of examiners which shall consist of 5 members, of whom 1 shall be a class A certified operator of a treatment facility, 1 shall be a qualified engineer registered in the state knowledgeable in the

operation and maintenance of treatment works, 1 shall be a staff member of the division, 1 shall be a municipal official, and 1 shall be a member at large. Of the members first appointed, 1 shall be appointed for a term of 1 year, 2 for terms of 2 years, and 2 for terms of 3 years. After the initial appointments, each member shall be appointed for a term of 3 years. Vacancies on the board shall be appointed in the same manner as original appointments.

History: 1954 ACS 85, p. 14, Eff. Sept. 24, 1975.

R 299.2917 Board of examiners; duties and responsibilities.

Rule 17. (1) The board shall meet at least twice each year at such times and places as it may designate. It shall examine all persons making application for certification who meet the minimum requirements prescribed by R 299.2918. The board shall schedule at least 1 examination per year and shall make public the date for examinations at least 90 days prior to the date set for examination.

(2) As a result of the examination and application, the board shall recommend to the director the issuance or nonissuance of an operator certificate in the proper classification to the applicant.

(3) Members of the board shall not be compensated, but shall be entitled to all actual and necessary expenses in the performance of their official duties according to the rates established by the latest edition of the standard travel regulations of the state.

History: 1954 ACS 85, p. 14, Eff. Sept. 24, 1975.

R 299.2918 Operator certification; minimum requirements.

Rule 18. (1) Certification shall require written examination conducted by the board according to 1 or more of the following classifications based upon minimum education and experience qualifications and successful fulfillment of the requirements of each lower certification level:

(a) Class A. A college degree with sufficient engineering or allied subjects to understand the mechanics, electronics, and hydraulics of a complex treatment facility and 4 years of acceptable operation experience in a class B or higher treatment facility, 2 years of which shall have been in a supervisory position or a position of major operational responsibility; or completion of 2 years of a standard college curriculum in engineering or allied field with sufficient subjects to understand the mechanics, electronics, and hydraulics of a complex treatment facility and 6 years of acceptable operation experience in a class B or higher treatment facility, 2 years of which shall have been in a supervisory position or a position of major operational responsibility.

(b) Class B. Completion of 1 year of college or its equivalent with sufficient subjects to aid in the understanding of the mechanics, electronics, and hydraulics of a treatment facility, and 4 years of experience of acceptable operation in a treatment facility of class C or higher, 2 years of which shall have been in a supervisory position or a position of major operational responsibility.

(c) Class C. Completion of high school or its equivalent and 2 years of experience of acceptable operation in a treatment facility.

(d) Class D. Completion of high school or its equivalent and 1 year of experience of acceptable operation in a treatment facility.

(e) Class L. Completion of high school or its equivalent and 1 year of experience in the operation of a waste stabilization lagoon system.

(2) Additional education or experience of an applicant may be substituted by the board for meeting the minimum qualifications prescribed in subrule (1).

History: 1954 ACS 85, p. 15, Eff. Sept. 24, 1975.

R 299.2920 Application for examination.

Rule 20. (1) An individual desiring to be certified and classified for operation of a treatment facility shall file with the department, at least 45 days before an examination date announced by the board, an application for examination and certification on a form prepared and provided by the department. The information contained on the application shall be evaluated by the board and shall constitute a part of the examination.

(2) The board shall notify the applicants of their acceptance for examination and the time and place of the examination at least 30 days before the date of examination. If an applicant has submitted more than 1 application, the board shall attempt to schedule examinations for that applicant as conveniently as possible for the applicant.

History: 1954 ACS 85, p. 15, Eff. Sept. 24, 1975.

R 299.2922 Examination procedures.

Rule 22. (1) Examinations for operator certification shall be prepared by the board or by others designated by the board, and shall include, but not be limited to, the following 4 parts:

(a) An evaluation of the educational qualifications of the applicant.

(b) An evaluation of the experience qualifications of the applicant.

(c) An evaluation of the personal characteristics of the applicant.

(d) A written appraisal of the general subject of treatment facility operation in any or all of its phases.

(2) An applicant shall not be admitted to the written examination unless he meets the minimum requirements prescribed in R 299.2918.

(3) Separate examinations for each class shall be prepared by the board to encompass basic differences in the duties and responsibilities of operators, types of treatment facilities, variations in wastewater quality, conditions of receiving waters, and such other factors as the board determines.

(4) Applicants previously admitted to examinations for certification under the provisions of previous rules shall not be denied admission for the same class of examination because of these rules.

History: 1954 ACS 85, p. 15, Eff. Sept. 24, 1975.

R 299.2923 Examinations; grading; recommendations and notification.

Rule 23. (1) The minimum passing grade for the written examination is 70%.

(2) Upon completion of examination, the board or others designated by it shall grade each examination promptly and, within 60 days after the date of examination, notify the director in writing of the results of each examination.

(3) At the time of notification of the director of the results of the examination, the board shall recommend to the director the issuance or nonissuance of a certificate of operator classification for each applicant. The results of the examination and the recommendation of the board shall be mailed to each applicant by the department.

(4) Applicants who fail to pass an examination may repeat the examination at any subsequent, regularly scheduled examination of the board by submitting an application as prescribed by R 299.2920.

History: 1954 ACS 85, p. 16, Eff. Sept. 24, 1975.

R 299.2924 Operator certificates; issuance.

Rule 24. (1) Within 30 days after receipt of examination results and the recommendations of the board, the director shall issue certificates to each

applicant who has been recommended by the board for certification. The certificate shall indicate the class of operator as prescribed by R 299.2918 and the class of treatment facility in which the certified operator is entitled to be in responsible charge.

(2) An operator certificate may be issued by the director, without examination, in a comparable classification to any person who holds an operator certificate in any state, territory, or possession of the United States, or any country, if, in the judgment of the board, the requirements for certification of operators under which the person's certificate was issued are not lower than the requirements prescribed by the board and these rules.

History: 1954 ACS 85, p. 16, Eff. Sept. 24, 1975.

R 299.2926 Operator certificates; revocation and suspension.

Rule 26. The director may suspend or revoke the certificate of an operator who, after a hearing before the board, is adjudged incompetent or unable to properly perform the duties of an operator in his classification, or who has practiced fraud or falsification, or who has been negligent in the discharge of his duties or responsibilities. Notice of suspension or revocation shall be provided in writing to the operator and the owner of the treatment facility.

History: 1954 ACS 85, p. 16, Eff. Sept. 24, 1975.

R 299.2927 Appeals.

Rule 27. (1) A person who feels himself aggrieved by any action of the board or the department pursuant to these rules, or who wishes to appeal any other action of the department or the board with respect to his certification, shall have an opportunity for a hearing before the commission on natural resources or its designated representative.

(2) A hearing conducted pursuant to this rule shall be conducted in accordance with part 5.

History: 1954 ACS 85, p. 16, Eff. Sept. 24, 1975.

PART 3. SEWERAGE SYSTEM PLANS AND SPECIFICATIONS

R 299.2931 Definitions.

Rule 31. As used in this part:

(a) "Alteration" means the construction of any modification or addition to an existing sewerage system which changes the process or system capacity.

(b) "Construction" means erection or installation of sewer systems or treatment facilities, including equipment and appurtenances, in accordance with approved plans and specifications.

(c) "Permit" means a construction permit issued by the director of the department for a sewer system or treatment facility pursuant to section 6 of the act and these rules.

History: 1954 ACS 85, p. 16, Eff. Sept. 24, 1975.

R 299.2933 Submittal of plans and specifications.

Rule 33. (1) Before the construction or alteration of a sewerage system or portions thereof, plans and specifications therefor shall be submitted to the department for review and issuance of a construction permit.

(2) The plans and specifications shall be submitted by the owner of the sewer system or treatment facility or alteration thereof or by his designated agent. When a person files plans and specifications as an agent of an owner, the owner shall furnish the agent with a letter of authorization for filing the plans and specifi-

cations, and the letter shall identify the plans or project and shall be submitted with the plans and specifications.

(3) Plans and specifications submitted to the department pursuant to subrule (1) shall not be considered adequate unless prepared by a professional engineer registered in the state, and the plans and specifications shall be properly sealed by the engineer as required by law.

(4) When the owner of the proposed sewerage system is not a governmental agency, the application for a permit shall include a resolution from the local governmental agency having jurisdiction, stating that the governmental agency shall assume responsibility for the effective and continued operation and maintenance of the proposed sewerage system if the owner in any way fails to perform in this capacity. A copy of contractual or other arrangements between the owner and the governmental agency, which provide for the continuity of service agreement, shall also be submitted.

History: 1954 ACS 85, p. 16, Eff. Sept. 24, 1975.

R 299.2935 Engineering reports; basis of design; minimum requirements.

Rule 35. (1) Before submission of plans and specifications, an engineering report or basis of design, or both, shall be submitted to the department for review and approval.

(2) An engineering report shall be required for all proposed projects dealing with construction of treatment facilities and major sewer systems. The engineer, when preparing the report, shall consider the material set forth under section 11, engineering report, of the recommended standards for sewage works, wherever applicable to the facility for which the report is being prepared.

(3) A basis of design shall be required for all proposed projects and may be included in the engineering report. Basis of design forms for treatment facilities and pump stations are available from the division office. The basis of design for sewer systems shall include, depending on applicability to the sewer system for which the basis of design is being prepared, but not necessarily be limited to, the following:

(a) A general map of the service area showing the location of the existing and proposed sewer system.

(b) The service area in acres.

(c) The present and future population densities per acre and total population.

(d) The present and future per capita sewage contribution; average and maximum.

(e) A description of commercial and industrial waste contributions.

(f) The present and design flow rates, average and maximum.

(g) The size of pipe, grade, and, where appropriate, the size of pump station, number and capacity of pumps, size and length of force main, and point of discharge.

(h) An analysis of the effect of the proposed additional flows on the existing sewerage system.

(i) A detailed explanation of steps to be taken in case of power failure or equipment breakdown, including a description of special reserve units available for emergency treatment, storage, or transportation of the wastewater.

(j) An analysis and determination as to the applicability of sections 2 and 5 of Act No. 245 of the Public Acts of 1929, as amended, being §§323.2 and 323.5 of the Michigan Compiled Laws, and Part 13 of the General Rules of the water resources commission, being R 323.1311 to R 323.1329 of the Michigan Administrative Code.

R 299.2936 Plans and specifications; minimum requirements.

Rule 36. Information contained within the plans and specifications submitted to the department for review and approval pursuant to R 299.2933 shall include, but not necessarily be limited to, the material recommended in section 12, plans, and section 13, specifications, of the recommended standards for sewage works.

History: 1954 ACS 85, p. 17, Eff. Sept. 24, 1975.

R 299.2938 Plans and specifications; review by department.

Rule 38. (1) Upon receipt of plans and specifications for the construction or alteration of a sewerage system or portion thereof, the department shall review them as soon as practicable to determine their completeness with regard to the minimum requirements specified in R 299.2936 and their acceptability with regard to accepted design standards for wastewater facilities in this state. In making its review, the department shall consider design criteria as set forth in recommended standards for sewage works and shall be assured that the sewerage system or portion thereof is so designed so as to protect the public health and prevent unlawful pollution.

(2) If the department determines that plans and specifications are incomplete or are inadequate, it shall notify the owner or his authorized agent of the proposed sewerage system or portion thereof, and may request the resubmittal thereof with appropriate corrections or additions. The director shall not grant an approval of plans and specifications until they are complete and are judged to be adequate by the department.

History: 1954 ACS 85, p. 17, Eff. Sept. 24, 1975.

R 299.2939 Approval of plans and specifications; permits.

Rule 39. (1) Upon the determination by the department that the plans and specifications for a sewerage system or portion thereof are complete and satisfactory, the director shall approve them and shall issue a permit for construction.

(2) A permit issued pursuant to the act and these rules expires unless construction commences within 2 years from the date of issuance. An owner of a wastewater facility may apply for reissuance of a permit in accordance with R 299.2933.

History: 1954 ACS 85, p. 18, Eff. Sept. 24, 1975.

R 299.2941 Permits; conditions for issuance.

Rule 41. A permit for the construction of a sewerage system or portions thereof shall be issued by the director of the department only when both of the following conditions are met:

(a) Proper devices are or will be available and are in satisfactory operation for the collection, transportation, and treatment, before discharge into any public watercourse, lake, drain, ditch, or groundwater, of the sewage or wastes collected or conveyed by such systems; or a definite program or agreement satisfactory to the department leading to the construction and operation of such collection, transportation, or treatment devices shall have been officially adopted by the applicant for such permit and filed in the offices of the department.

(b) Where the plans and specifications for the work for which a construction permit is requested have been properly prepared in accordance with the laws of the state, and have been submitted to the director for his examination and approval, and which have been found to be in accordance with good modern practices, and, if built according to the plans and specifications, are of such nature and design as to protect the public health and prevent unlawful pollution.

History: 1954 ACS 85, p. 18, Eff. Sept. 24, 1975.

R 299.2942 Revisions to approved plans.

Rule 42. The director shall approve any deviations from approved plans or specifications affecting capacity, flow, or operation of units before construction of the changes. Plans and specifications so revised should be submitted, well in advance of any construction work which will be affected by the changes, to permit sufficient time for review and approval. Structural revisions or minor changes not affecting capacities, flows, or operation are permitted during construction without approval. "As built" plans clearly showing the work as constructed shall be submitted to the department at the completion of the work.

History: 1954 ACS 85, p. 18, Eff. Sept. 24, 1975.

R 299.2943 Operation during construction.

Rule 43. Wherever possible bypassing of untreated wastewater or reduction in treatment effectiveness shall be avoided during the construction of sewer system or treatment facility alterations. Prior to commencing construction of the alterations, a program for completing the work in a manner which will minimize pollutional effects on the receiving water shall be submitted to the department for review and approval.

History: 1954 ACS 85, p. 18, Eff. Sept. 24, 1975.

R 299.2945 Availability of documents.

Rule 45. Recommended standards for sewage works, prepared by the Great Lakes-upper Mississippi river board of state sanitary engineers may be inspected at the office of the division during normal working hours, and may be obtained from the Health Education Service, Post Office Box 7283, Albany, New York 12224, at a cost of $1.00.

History: 1954 ACS 85, p. 18, Eff. Sept. 24, 1975.

PART 4. OPERATION AND MAINTENANCE OF SEWERAGE SYSTEMS

R 299.2951 Purpose.

Rule 51. This part prescribes procedures and requirements for the operation and maintenance of sewerage systems to ensure continuous protection of the public health, safety, and welfare, the water resources of the state, and the fish, wildlife, and plant life associated therewith.

History: 1954 ACS 85, p. 18, Eff. Sept. 24, 1975.

R 299.2952 Operator in charge.

Rule 52. (1) An owner of a treatment facility shall designate a superintendent, who shall be a properly certified operator, to be in responsible charge of the day-to-day operation and maintenance of each treatment facility, and shall notify the division in writing of the designation, including the address and telephone number thereof. The superintendent shall hold a certificate equivalent to or higher than the classification of the treatment facility. The owner of the treatment facility may replace the superintendent with another properly certified operator at any time, and shall notify the department in writing within 10 days after the replacement.

(2) During construction of a new treatment facility and before placing the facility in operation, the owner shall employ a properly certified operator who shall be in charge when the facility is completed and placed in operation. This individual shall become fully familiar with all facilities and equipment, and shall train selected subordinate employees as appropriate both before and following facility start-up.

History: 1954 ACS 85, p. 19, Eff. Sept. 24, 1975.

R 299.2953 Monthly operational reports.

Rule 53. The superintendent of a treatment facility shall file with the department each month or at such other intervals as the department may designate, on forms prescribed by the department, operating reports showing the effectiveness of the treatment facility operation and the quantity and quality of liquid wastes discharged into the waters of the state. When the superintendent is not available to file the report, the owner of the treatment facility may appoint a substitute acceptable to the department to file the report.

History: 1954 ACS 85, p. 19, Eff. Sept. 24, 1975.

R 299.2955 Sewerage system operation and maintenance; general requirements.

Rule 55. (1) Sewerage systems shall be operated and maintained at all times as efficiently as possible and in a manner which will minimize upsets and discharges of excessive pollutants.

(2) The owner of the sewerage system shall provide an adequate operating staff which is qualified to carry out the operation, maintenance, and laboratory testing functions required to insure compliance with the conditions of subrule (1).

(3) Wherever possible, maintenance of sewerage systems shall not result in degradation of effluent quality. If degradation of effluent is unavoidable, maintenance shall be programmed and scheduled during noncritical water quality periods and shall be carried out in a manner approved by the department.

(4) All reasonable measures, including, where appropriate, the provision of shut off valves adjacent to storage tanks, catchment areas, relief vessels, or entrapment dikes, shall be taken for containment of any accidental losses of concentrated solutions, acids, alkalies, salts, oils, or other polluting materials.

History: 1954 ACS 85, p. 19, Eff. Sept. 24, 1975.

R 299.2956 As-built plans and specifications.

Rule 56. The owner of the sewerage system shall obtain and maintain reproducible as-built plans and specifications which accurately describe the entire sewerage system in its current condition.

History: 1954 ACS 85, p. 19, Eff. Sept. 24, 1975.

R 299.2957 Operation and maintenance manual.

Rule 57. (1) The owner of a treatment facility shall prepare, or cause to be prepared, an operation and maintenance manual for the treatment facility which shall be used by the operator of the facility as a guide for facility operation and maintenance. The manual shall describe the function, start-up, shutdown, and periodic maintenance procedures for each unit process and item of mechanical and electrical equipment. The appropriate responses or facility adjustments to minimize the impact of emergency situations shall be described so as to facilitate rapid implementation of a correct response during emergencies. A copy of the operation and maintenance manual shall be submitted to the department for its review, approval, and filing 60 days before the date of operation.

(2) If the department determines that an operation and maintenance manual is incomplete or inadequate, it may return the manual to the owner of the treatment facility with its findings and recommendations and request modification thereof. The owner of the treatment facility shall modify and resubmit the manual to the department.

History: 1954 ACS 85, p. 19, Eff. Sept. 24, 1975.

R 299.2959 Emergency measures; reports to department.

Rule 59. (1) If a breakdown of a sewerage system or component thereof or any emergency situation results in diversion from or by-pass of facilities necessary for the effective collection, transportation, or treatment of the wastes and in the discharge of pollutants in excess of those authorized by a discharge permit issued by the water resources commission pursuant to Act No. 245 of the Public Acts of 1929, as amended, being §§323.1 to 323.13 of the Michigan Compiled Laws, the owner shall take all such measures as may be necessary to correct the breakdown or emergency and eliminate or reduce the discharge of excessive pollutants.

(2) The owner of a sewerage system which discharges or permits to be discharged excessive pollutants to the waters of the state as a result of a facility breakdown or emergency shall notify the division promptly. The notice shall be supplemented by a written report filed with the division within 72 hours outlining the cause, its discovery, and the corrective actions taken to minimize adverse impact to the waters of the state, to restore facilities to operative condition, and to eliminate the need for future diversion or by-pass. This rule does not supersede, rescind, or otherwise alter any other existing or future procedure, rule, or statute pertaining to pollution of the waters of the state.

History: 1954 ACS 85, p. 20, Eff. Sept. 24, 1975.

R 299.2960 Enforcement.

Rule 60. A person who violates this part is subject to the procedures and penalties prescribed by the act or any other applicable law or rules of this state.

History: 1954 ACS 85, p. 20, Eff. Sept. 24, 1975.

PART 5. HEARINGS

R 299.2971 Opportunity for hearings.

Rule 71. (1) A person who feels himself aggrieved by an action undertaken pursuant to the act or these rules may file a sworn petition with the department, setting forth the grounds and reasons for his complaint or appeal and asking for a hearing before the commission on natural resources on the matter involved. The department shall thereupon fix the time and place for the hearing and notify the petitioner thereof by certified mail. At the hearing, the petitioner and any other interested party may appear, present witnesses, and submit evidence. Following the hearing, the final decision or disposition of the case by the commission on natural resources shall be conclusive, unless reviewed pursuant to Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws in the circuit court for the county of Ingham or for the county in which the person resides.

(2) An appearance at a hearing shall be either in person, by a duly authorized agent, or by counsel.

History: 1954 ACS 85, p. 20, Eff. Sept. 24, 1975.

R 299.2972 Hearing commissioner.

Rule 72. (1) That part of a hearing in a contested case in which testimony and evidence are to be taken may be referred to a hearing commissioner who shall be designated and authorized by the commission on natural resources to preside at the hearing.

(2) The hearing commissioner shall hear the evidence and prepare a record of the proceedings and a proposal for a decision including findings of fact and conclusions of law. The record of the proceedings and proposal for decision shall

be filed at the department offices as early as possible after completion of the hearing. A copy of the proposal for decision shall be transmitted to each member of the commission on natural resources, and shall be served by certified mail on all other parties to the proceedings.

History: 1954 ACS 85, p. 20, Eff. Sept. 24, 1975.

R 299.2973 Agency files and records; use in connection with hearings.

Rule 73. The files and records of the department which are applicable to hearings conducted pursuant to these rules, except those materials exempted by section 22 of Act No. 306 of the Public Acts of 1969, as amended, being §24.222 of the Michigan Compiled Laws, shall be available for inspection before or at hearings held by the commission on natural resources or the hearing commissioner, and the whole or a part thereof may be offered at a hearing as evidence on behalf of the department.

History: 1954 ACS 85, p. 20, Eff. Sept. 24, 1975.

R 299.2974 Commission on natural resources' hearings.

Rule 74. (1) The commission on natural resources shall provide opportunity for either party to a contested case to submit thereto such arguments, exceptions, or appeals regarding a hearing commissioner's report and proposal for decision as may be filed timely in writing by either party. To be considered by the commission, written briefs or exceptions shall be received at the office of the department in Lansing not later than 2 weeks before the date set by the commission for consideration of the hearing commissioner's report. An opportunity to present oral argument to the commission on natural resources may be provided at the commission's discretion noticed for that purpose.

(2) A certified copy of a final decision adopted in a contested case by the commission on natural resources shall be prepared and served by certified mail on the contesting parties or their attorneys, together with the commission's finding containing a resume of the facts and grounds for decision.

History: 1954 ACS 85, p. 21, Eff. Sept. 24, 1975.

NATURAL RESOURCES COMMISSION

DEPARTMENT ORGANIZATION AND GENERAL FUNCTIONS

(By authority conferred on the department of natural resources by sections 33 and 63 of Act No. 306 of the Public Acts of 1969, as amended, and Executive Reorganization Order Nos. 1973-2 and 1973-2a, being §§24.233, 24.263, and 299.11 of the Michigan Compiled Laws)

PART 1. NATURAL RESOURCES COMMISSION

R 299.3001 Creation by law.

Rule 1. A conservation commission was created by Act No. 17 of the Public Acts of 1921, as amended, being §§299.1 to 299.6 of the Michigan Compiled Laws. Subsequently, Act No. 380 of the Public Acts of 1965 as further amended by Act No. 353 of the Public Acts of 1968, being §§16.101 to 16.494 of the Michigan Compiled Laws, restructured the commission and changed its name to natural resources commission.

History: 1954 ACS 86, p. 26, Eff. Dec. 23, 1975.

R 299.3002 Composition.

Rule 2. (1) The natural resources commission consists of 7 members appointed by the governor, by and with the consent of the senate. Members are appointed for 4 year terms.

(2) The commission has organized to provide for annual election of a chairman from its membership.

History: 1954 ACS 86, p. 26, Eff. Dec. 23, 1975.

R 299.3003 Staff.

Rule 3. The commission appoints a director and approves the appointment of 2 deputy directors and such assistants and employees as are necessary to carry out the provisions of the act creating the department.

History: 1954 ACS 86, p. 27, Eff. Dec. 23, 1975.

R 299.3004 Rules of procedure.

Rule 4. The commission meets at least once a month in Lansing or at various places throughout the state. A majority of members constitute a quorum. All business is transacted by motion, support and majority vote by those members present, including the chairman. An agenda is prepared and made available to the public at any time in advance of and at the meeting.

History: 1954 ACS 86, p. 27, Eff. Dec. 23, 1975.

R 299.3005 Duties and responsibilities.

Rule 5. The commission protects and conserves the natural resources of the state; makes rules governing its organization and for the administration of the statute creating the department. It makes and enforces rules concerning the use and occupancy of lands and properties under its control; provides facilities for outdoor recreation; provides for reforestation and and wise management of the state's forests; makes contracts for the taking of coal, oil, gas and other minerals from state-owned lands. The commission fosters and encourages the protecting and propagation of game and fish; provides for the prevention and control of forest fire; prevents and guards against pollution of the air and waters of this state. The commission sets departmental policy for the conservation and preservation of the state's natural resources, including air and water.

History: 1954 ACS 86, p. 27, Eff. Dec. 23, 1975.

PART 2. NATURAL RESOURCES DEPARTMENT

R 299.3006 Executive staff; composition and responsibilities.

Rule 6. (1) The director, with the approval of the commission appoints a deputy director for environmental protection, a deputy director for natural resources, an executive assistant, bureau chiefs, regional managers and division chiefs as may be necessary. The department employs such other personnel as are necessary to carry out its duties and responsibilities.

(2) The department protects, conserves and manages the natural resources of this state; provides and develops facilities for outdoor recreation; prevents the destruction of timber and other forest growth by fire or otherwise; promotes the reforesting of forest lands belonging to the state; prevents and guards against the pollution of lakes and streams within the state and enforces all laws provided for that purpose with all of the authority granted by law; controls air pollution, controls the disposition and management of solid wastes and fosters and encourages the protection and propagation of game and fish.

(3) Act No. 218 of the Public Acts of 1919, as amended, provides that the natural resources commission shall have charge and supervision of all lands acquired by the state as public parks for purposes of public recreation or preservation of natural beauty or historic association.

(4) The department is divided into 2 branches, the environmental protection branch and the natural resources branch, each headed by a deputy director. In addition, the administration group, the office of land use and the program services group are directly responsible to the director.

History: 1954 ACS 86, p. 27, Eff. Dec. 23, 1975.

R 299.3007 Environmental protection branch; scope and responsibilities.

Rule 7. The environmental protection branch includes the bureau of water management and the air pollution control and solid waste management divisions. Its primary responsibility is to protect, enhance and advocate the wise use of the state's natural environment, especially when affected by air, water quality and solid waste management.

History: 1954 ACS 86, p. 27, Eff. Dec. 23, 1975.

R 299.3008 Bureau of water management.

Rule 8. The bureau of water management is composed of the hydrological survey division, the municipal wastewater division, the water development services division and the water quality control division. These divisions are concerned primarily with water and related land resources and their uses and abuses.

History: 1954 ACS 86, p. 27, Eff. Dec. 23, 1975.

R 299.3009 Hydrological survey division.

Rule 9. (1) The hydrological survey division consists of sections dealing with flood plain management, lake engineering, submerged lands management and watershed planning. The division as a whole is responsible for conducting detailed hydrologic studies to determine stream flow and characteristics of stream flow behavior; for the review and recommendation for approval or rejection of applications for plat development or flood plain filling or grading to prevent harmful interference with flood plains; for the coordination of the federal flood insurance program and coordination of federal programs for delineation of flood hazard areas and coordination of federally financed flood control and beach erosion control projects; and the administration of the Great Lakes submerged lands act and the inland lakes and streams act.

(2) In implementing its submerged lands responsibilities, the division is charged with the responsibility of approving conveyances for certain types of Great Lakes bottomlands and controlling fills, dredging and other developments on all Great Lakes and inland waters bottomlands through the issuance of permits for construction, dredging or filling.

(3) The division is also responsible for the supervision of activities involving the establishment of legal lake levels and inland lake improvement projects. In addition, it handles the review of plans, issuance of construction permits, and field inspection of dams constructed throughout the state, as well as having authority over the safety of existing dams.

(4) The division is responsible for the administration of several water management statutes, including the iron ore beneficiation act, the surplus water management act, and the irrigation districts act.

(5) The watershed planning section was established by legislative appropria-

tion in fiscal year 1971-72 to provide for state assistance in watershed planning under United States Public Law 566 of the 83rd Congress. The section is responsible for assisting the United States department of agriculture, soil conservation service watershed planning party, with the preparation of preliminary investigation reports and watershed work plans to meet the demand for small watershed improvements, including flood protection works, drainage improvements, recreation, and soil and water conservation programs under the above cited authority.

History: 1954 ACS 86, p. 28, Eff. Dec. 23, 1975.

R 299.3010 Municipal wastewater division.

Rule 10. (1) The municipal wastewater division supervises the collection, treatment, and disposal of liquid wastes in public wastewater treatment systems throughout the state. The division is responsible for, but not limited to, review and approval of plans for wastewater systems prior to construction and issues permits for their construction. The division certifies municipal treatment plant operators which is mandatory prior to employment for operation of public treatment facilities. The division follows monthly submission of municipal treatment plant operation records with plant field inspections and record evaluations.

(2) The municipal wastewater division carries out field surveys of local wastewater collection and treatment systems to pinpoint problem areas, determine waste loads on individual systems, and develop solutions to isolated pollution problems.

(3) The municipal wastewater division conducts an industrial waste surveillance program which is designed to identify the location, nature, and magnitude of wastes discharged to public sewer systems from industrial and commercial establishments. The division conducts training programs for public wastewater treatment plant operators.

History: 1954 ACS 86, p. 28, Eff. Dec. 23, 1975.

R 299.3011 Water development services division.

Rule 11. The water development services division is responsible for, but not limited to, comprehensive water and related land resources planning in the state including planning for the conservation, management, and use of water resources, flood plains, Great Lakes shorelands, irrigated lands, and water-oriented outdoor recreation areas. The division collects basic water resource data, projects water and related land resources demands, reviews and analyzes state and federal legislation pertaining to water resources, river basin planning and management, administers and distributes state and federal grant funds to local governmental units for construction of public wastewater treatment facilities and collecting sewers and implements the soil erosion and sedimentation control act of 1972.

History: 1954 ACS 86, p. 28, Eff. Dec. 23, 1975.

R 299.3012 Water quality control division.

Rule 12. (1) The water quality control division is responsible for the protection of and enhancement of the surface and groundwater resources of the state through the administration of the state's water pollution control program. The division includes the comprehensive studies section which undertakes data processing and waste assimilation studies; the laboratories section; the oil pollution and hazardous materials control section; the water quality appraisal section, including a biology unit and an engineering unit; a permit section, charged with implementation of this state's portion of the national pollutant discharge elimination system; and the state permit system; and the enforcement section.

(2) Division district offices are presently located at Pointe Mouille, Lansing, Grand Rapids, Cadillac and Escanaba. The division carries out field surveys of water quality, aquatic life and temperature and laboratory analysis to evaluate water resources for management and control purposes, and investigates actual and suspected pollution problems. The division is responsible for enforcing the water resources commission's water quality standards which are designed to protect all of the surface waters, including the Great Lakes. Results of staff investigations and studies are translated into recommendations for water resources commission action.

(3) The division supervises the swimmers itch, the nuisance weed and control programs, and provides local government, lake associations, and others with technical assistance in treating waters to correct these problems.

History: 1954 ACS 86, p. 29, Eff. Dec. 23, 1975.

R 299.3013 Air pollution control division.

Rule 13. (1) The air pollution control division is responsible for administering the over-all air pollution control program. The division consists of the enforcement and field services section, engineering services section, technical services section, and administrative section.

(2) The enforcement and field services section operates through district offices presently located in Grand Rapids, Saginaw, Pontiac, Lansing, Kalamazoo, Marquette, and Ann Arbor. Other sections operate through the central office in Lansing.

(3) The enforcement section investigates potential air pollution sources to determine compliance or noncompliance with the air pollution control act and the rules of the air pollution control commission, investigates air pollution complaints, and translates air pollution control violations into recommendations for air pollution control commission action. Permits are required prior to the construction of any new source of air pollution, or prior to the installation of air pollution control devices. The division reviews plans and specifications and prepares recommendations for the commission with regard to the permit application.

(4) The division operates an air sampling network of numerous sampling stations located throughout the state. In addition, the division conducts special air community pollution studies. The division uses a computerized statewide emission inventory program for program planning and to determine actual and projected reductions in air pollution emissions.

(5) The division administers the air pollution surveillance fee program through which fees are charged directly to sources of air pollution for the cost of the air surveillance program conducted by the division.

History: 1954 ACS 86, p. 29, Eff. Dec. 23, 1975.

R 299.3014 Solid waste management division.

Rule 14. (1) The solid waste management division, through an education and enforcement program and with the assistance of certain local health departments, directs activities aimed at achieving an effective solid waste planning and design program to meet future needs and upgrading of existing solid waste management operations to overcome problems of ground and surface water pollution and air pollution and related nuisance conditions resulting from poor refuse handling and disposal facilities.

(2) The division is concerned with insect and rodent problem elimination which are directly related to unapproved solid waste operations. The division evaluates the convenience of services, cost and methods of financing, adaptability

of new techniques such as resources recovery and recycling, and planning for future needs.

(3) Staff members of the division work closely with private and public refuse operators to assist in problem elimination and statutory compliance. All solid waste disposal facilities, including landfills, transfer stations, processing plants, and incinerators in the state, are controlled and required to operate under an approved engineering plan and license. In addition, all refuse handling vehicles fall under the licensing program of the division. The planning requirements of the solid waste management program administered by the division will require local governmental units throughout the state to consider their needs and develop appropriate solid waste management plans.

History: 1954 ACS 86, p. 29, Eff. Dec. 23, 1975.

R 299.3015 Natural resources branch; scope and responsibilities.

Rule 15. The natural resources branch is charged with the conservation and protection of the natural resources of the state particularly its forests, fish, wildlife, and minerals, and with providing diversity of recreational opportunities. The branch presently includes the field bureaus, the recreation bureau, and the resources bureau, each of which is headed by a bureau chief.

History: 1954 ACS 86, p. 30, Eff. Dec. 23, 1975.

R 299.3016 Field bureau.

Rule 16. The field bureau includes the forest fire and law enforcement divisions. This bureau is charged with field operations, including supervision of nearly all department personnel working within the regions and districts.

History: 1954 ACS 86, p. 30, Eff. Dec. 23, 1975.

R 299.3017 Forest fire division.

Rule 17. (1) The forest fire division is responsible for the protection of forests and forest values within 21.1 million acres of forest and wild grasslands. The division maintains forest fire field offices strategically located throughout the state staffed with trained forest fire personnel and equipped with specially designed forest fire suppression equipment. The division plans and conducts a statewide forest fire prevention program. It selects and trains keyman organizations and prepares equipment and manpower mobilization plans for forest fire suppression of large, difficult to control fires. The division maintains the forest fire experiment station at Roscommon, which is the only natural resources equipment development center east of the Mississippi river. The station's primary responsiblity is to research forest fire related problems, and to utilize modern equipment and engineering technology in developing the most efficient and up-to-date methods and equipment to alleviate them. Equipment items that have been developed at the station, and not commercially available, are manufactured at the station until an economical commercial source has been developed where they can be purchased.

(2) The division has a roads and bridges program in which approximately 1,300 miles of fire trails have been constructed and are maintained for access by fire suppression equipment to especially hazardous fire areas. The trails are also used extensively by recreationists.

(3) The division administers a prescribed burning program to improve wildlife habitat and forestry silviculture on state-owned lands.

(4) Responsibility for air operations in the department of natural resources has been assigned to the division. This includes establishment of operational pro-

cedures, inspections for airworthiness of all aircraft, state-owned and contractual service, and pilot fitness.

(5) The division is responsible for the 2-way radio communications system used by many divisions in the department. It designs, licenses, approves purchases, installs and maintains the entire system.

(6) The division is responsible for maintaining the department safety program, to insure compliance with department of labor safety standards. The safety section conducts safety training programs, inspections of department facilities, and makes compilations of accident reports.

(7) The division has been designated as the department's representative in emergency services activities. This requires preparation of an emergency preparedness plan, representation in emergency task forces, direction and coordination of its own and other divisions' personnel, equipment, and financial records during periods and programs officially declared emergencies.

(8) The division administers the federal excess property program for the department. This activity includes locating, screening, and obtaining excess federal property from the general services administration for 2 programs, 1 in conjunction with the United States forest service in which equipment is obtained for conversion to fire fighting equipment, a major portion of which is reassigned under cooperative mutual aid agreements to strategically located rural fire departments to increase the total state forest fire fighting capabilities; and the other is in conjunction with the department of interior, the equipment obtained being used in federally funded matching programs, such as wildlife or fish habitat improvement.

History: 1954 ACS 88, p. 30, Eff. Dec. 23, 1975.

R 299.3018 Law enforcement division.

Rule 18. (1) The law enforcement division is responsible for the enforcement of all conservation laws and rules promulgated by the commission and the director for the protection of wildlife, fish, and state-owned lands.

(2) The division administers the state grants in aid program to the counties for marine and snowmobile education, enforcement and safety. Officers of the division also enforce marine and snowmobile laws. The division administers the department's outdoor recreation safety program, which includes general water, hunter, marine and snowmobile safety. Through these programs, thousands of young people are taught the rudiments of outdoor recreational safety, thus complying with statutory requirements. Members of the staff assist local units of government by promulgating rules for the control of hunters in areas which are no longer safe for the sport and for the control of watercraft and snowmobiles on the waters of the state.

(3) The division cooperates with the water resources commission in the investigation of water pollution, and enforces the provisions of the inland lakes and streams act and the Great Lakes submerged lands act.

(4) The division's officers assist and cooperate with other divisions in land and lot examinations and appraisals, trespass, deer yard surveys, game and fish census, snow and rain gauge recordings, deliveries of licenses to dealers, checking and auditing license accounts, fish plantings, showing films, giving lectures, making contacts with newspapers, radio and TV stations, sportsmen's clubs and schools. They assist other police agencies in jail breaks and policing of traffic accidents. They patrol the state parks and recreation areas, as well as other state-owned lands, in an effort to prevent rowdiness and vandalism.

History: 1954 ACS 88, p. 31, Eff. Dec. 23, 1975.

R 299.3019 Regions and districts.

Rule 19. The field force of the department is directed by a bureau chief in charge of field activities and is composed of 3 regions and 14 districts. Region I includes the entire Upper Peninsula and has an office at Marquette. Region II includes the counties in the north half of the Lower Peninsula, the southernmost being: Oceana, Newaygo, Mecosta, Isabella, Midland, and Bay and has an office at Roscommon. Region III includes the remaining counties of the Lower Peninsula and has its offices in Lansing. There are 4 districts in region I, 4 in region II and 6 in region III, with offices presently located at Baraga, Crystal Falls, Escanaba, Newberry, Gaylord, Cadillac, Mio, Gladwin, Grand Rapids, East Lansing, Imlay City, Plainwell, Jackson, and Pontiac.

History: 1954 ACS 86, p. 31, Eff. Dec. 23, 1975.

R 299.3020 Recreation bureau.

Rule 20. The recreation bureau is charged with the development of recreational opportunities and facilities for the people of the state. The bureau includes the Mackinac Island state park commission, the parks division, the recreational services division, and the waterways division.

History: 1954 ACS 86, p. 31, Eff. Dec. 23, 1975.

R 299.3021 Parks division.

Rule 21. (1) Act No. 218 of the Public Acts of 1919 charges the commission through the parks division with the responsibility of acquiring, maintaining, preserving, and making available for the use of the public, open spaces, scenic areas, urban parks, areas of high intensive use, and unique natural and wilderness areas and areas of historical association within the parks system. The division recommends and enforces rules to protect park resources and park users. There are many outdoor centers open year around which are utilized heavily by school children and other youth organizations. Nature exhibits and trails, campground programs, and guided walks are provided by park interpreters.

(2) The division administers many state parks and recreation areas, and park sites under development which total over 200,000 acres. State park waterfrontage, a prime attraction, totals over a hundred miles on the Great Lakes and various inland lakes.

(3) There are thousands of campsites in the parks and recreation areas which provide opportunities for visitors to utilize beaches, trails, and other recreational facilities.

(4) The parks division also administers a conservation-corrections work camp program involving several camps statewide. This labor force provides many services to parks and other divisions and is also used during times of disaster emergencies.

History: 1954 ACS 86, p. 31, Eff. Dec. 23, 1975.

R 299.3022 Recreation services division.

Rule 22. The recreation services division offers technical consulting services designed to shape, promote, and coordinate local recreation programs and facilities in line with state efforts to meet the state's recreation needs. The division advises and evaluates, in cooperation with local units, possibilities for community based activities such as sports and athletics, social recreation, cultural projects, and special programs and facilities for the handicapped and aging. It assists, on a consultant basis, in the development of local recreation systems, proposals and innovations in architecture of recreational buildings, design of park and recreation

area layouts, development of activity programs, and leadership training. The division continuously compiles and studies present and long-range recreational needs of urban and rural areas throughout the state.

History: 1954 ACS 86, p. 32, Eff. Dec. 23, 1975.

R 299.3023 Waterways division.

Rule 23. (1) The waterways division is responsible for the development and maintenance of recreational boating facilities throughout the state, including refuge harbors, docks, launching ramps, channels, anchorage areas and support facilities such as gasoline docks, parking areas, access roads and restrooms.

(2) The division administers the grant-in-aid program for local recreational boating facility construction. The division operates several docking facilities on its own as well. The division coordinates with the federal government in the design and construction of recreational harbors of refuge, channels, and related projects.

(3) The division is responsible for the department's public access site program which presently provides 570 boat launching sites throughout the state. The division operates the former highway department docks in the straits of Mackinac; the lock and dam complex at the city of Cheboygan; administers the boat livery inspection program; administers the vessels carrying passengers for hire program; and enforces the boat license tax act.

(4) The state waterways commission, a 5-member board appointed by the governor, functions as an advisory body to the division, the department and to the natural resources commission.

History: 1954 ACS 86, p. 32, Eff. Dec. 23, 1975.

R 299.3024 Resources bureau.

Rule 24. The resources bureau is responsible for the conservation and management of the natural resources of the state, particularly the forests, fisheries, wildlife, and minerals. The bureau includes the fisheries, forestry, geological survey, and wildlife divisions.

History: 1954 ACS 86, p. 32, Eff. Dec. 23, 1975.

R 299.3025 Fisheries division.

Rule 25. (1) The fisheries division is responsible for the protection, enhancement, and the promulgation of harvest regulations for all fish species in some 11,000 inland lakes, 36,000 miles of inland rivers and streams, in 24,000,000 acres of Great Lakes waters and miles of connecting waters. In association with its primary responsibility, the division cooperates with the water resources commission in protection of fish habitat through establishing water quality standards, reviewing aquatic habitat alterations and degradations, and investigating fish kills and related water quality problems. It acquires lands for fishermen access and stream protection, and constructs fishing facilities for nonboating fishermen.

(2) The division has 4 major sections for administering programs; inland, Great Lakes-anadromous, hatcheries and research. The hatchery section prepares plans for the production of fish in hatchery and rearing facilities located throughout the state as needed to meet management objectives of the inland or Great Lakes-anadromous sections. The hatchery section is also responsible for inspection and regulation of private game fish breeders in the state.

(3) The research section assists in the design of management evaluation projects, and conducts research to develop better fish management techniques or to determine the effects of environmental changes on fish and fish food organisms.

(4) The Great Lakes-anadromous section administers the commercial fishery as well as programming the enhancement of Great Lakes and anadromous sport fisheries.

(5) The inland section is responsible for developing programs to improve fishing opportunities on inland lakes and streams. Management activities include fish stocking, habitat protection and improvement, population manipulations, and regulation of harvest to insure sustained optimum use at the highest value to the people of the state.

(6) The division cooperates with the adjacent Great Lakes states. The bureau of sport fisheries and wildlife, the national marine fisheries service, the province of Ontario, and the Great Lakes fishery commission in areas of research, enforcement, and management on the Great Lakes. The division also cooperates with the forest service and the national parks service in the management and regulation of fish in areas administered by these agencies.

History: 1954 ACS 86, p. 32, Eff. Dec. 23, 1975.

R 299.3026 Forestry division.

Rule 26. (1) Department forestry programs promote the utilization of the forest reserves of the state for the benefit of the economy; while fully protecting environmental values for the enjoyment, health and use of present and future generations. The division acts to achieve this objective in 6 principal areas. The division manages 3.8 million acres of state forest lands to yield that combination of products and service which will best meet the economic, recreational, and social needs of the people now and in the future.

(2) The division independently, and in cooperation with the federal government, encourages protection, use, and development of 12.8 million acres of private forest lands for public, social, and economic benefit.

(3) The division promotes the maintenance and development of a healthy and efficient forest products industry and encourages the use of wood resources for production of those consumer goods most needed and for which the raw material is best suited.

(4) The division develops and maintains state forest campgrounds.

(5) The division lays out and marks a number of scenic foot and hiking trails; lays out and maintains snowmobile trails and sets aside certain areas for off-road recreational vehicles.

(6) The division develops and maintains public access sites on lakes and streams within the state forests.

(7) The division acquires lands which will fill in state forest areas making easier and more efficient the management of such areas.

History: 1954 ACS 86, p. 33, Eff. Dec. 23, 1975.

R 299.3027 Geological survey division.

Rule 27. This division is responsible for the collection, compilation, evaluation, and dissemination of geological data to further the development of the state's rock and mineral and water resources. Conservation and environmental control are exercised through supervision and enforcement of statutes related to oil and gas exploration and development, mineral wells, and mined land reclamation. Services are provided for both groundwater development and protection. Assistance is provided to local governments in the valuation of metallic mines for local property taxation. Data are developed in popular form by the division to satisfy an expanding public interest in many phases of the earth sciences.

History: 1954 ACS 86, p. 33, Eff. Dec. 23, 1975.

R 299.3028 Wildlife division.

Rule 28. (1) The wildlife division is responsible for the protection and management of the state's wildlife resources.

(2) Division sections are responsible for programs of forest wildlife, waterfowl and wetlands, farm and urban wildlife, wildlife services, and research.

(3) The division manages land acquisition programs to promote wildlife restoration, public hunting, the protection and restoration of endangered species and the growing interest in wildlife by the nonhunting public.

(4) The division recommends rules for hunting and trapping seasons; administers state game and wildlife areas; carries out wildlife introduction and propagation programs; conducts cooperative wildlife and habitat management programs with other public agencies and private landowners; maintains refuges and dedicated sanctuaries; administers the licensing and operation of shooting preserves, wildlife exhibits, importation, pet and breeders' permits. Research programs are conducted to obtain factual knowledge to support and improve management programs. The division operates wildlife research stations and a wildlife laboratory to carry out research projects and maintain wildlife disease surveillance.

(5) The division coordinates compliance with federal migratory bird treaties and the Pittman-Robertson act, the endangered species act, and the fish and wildlife coordination act.

(6) Public information and education programs are used to encourage and guide the wise use of the state wildlife resource.

History: 1954 ACS 86, p. 33, Eff. Dec. 23, 1975.

R 299.3029 Administration bureau.

Rule 29. Headed by a bureau chief, the administration bureau includes the administration division, the engineering division, the information and education division, the lands division, and the personnel division.

History: 1954 ACS 86, p. 34, Eff. Dec. 23, 1975.

R 299.3030 Administrative services division.

Rule 30. The administrative services division keeps the department's accounting records, receives and deposits revenues, drafts budgets, controls spending, procures materials and equipment, provides office services, issues and distributes licenses, coordinates special permit drawings, analyzes and prepares administrative procedures and manuals including automated data processing systems, establishes records control, conducts internal audits, coordinates certain grants-in-aids projects, prepares contracts, documents, processes vouchers for payments, and provides office and business management services at multiple-use field headquarters.

History: 1954 ACS 86, p. 34, Eff. Dec. 23, 1975.

R 299.3031 Engineering division.

Rule 31. The engineering division provides architectural and engineering planning for the department's capital improvement program and conducts land surveys. It drafts maps, charts, and graphs required in the administration of departmental activities. It supervises original designs or contracts covering professional services for those projects authorized by the legislature in the capital outlay program. The division is responsible for design and construction work on department projects, including state park campgrounds, fish hatcheries, wildlife flooding projects, and office and equipment buildings. The division reviews plans

prepared by state and county highway departments and local units of government projects to insure protection of natural resource conservation interests.

History: 1954 ACS 86, p. 34, Eff. Dec. 23, 1975.

R 299.3032 Information and education division.

Rule 32. (1) The information and education division is responsible for the presentation of modern environmental concepts and wise resource management practices to the public. The division operates the Ralph A. MacMullan conservation school at Higgins lake to train departmental personnel and interested groups. The division assists in the training of teachers at both in-service and pre-service levels. Through Lansing and department field personnel, the division works directly with teachers in school systems. The division prepares and distributes publications related to departmental functions.

(2) Weekly news bulletins are prepared and distributed to the news media. A photographic file is maintained for department publications and for the department magazine "Michigan Natural Resources" for distribution to the press and other organizations. A fee may be charged for this service. The division prepares radio and television public service programs.

(3) Guidance and visual aids are provided department personnel in preparing for television appearances. The division produces motion pictures on natural resources management subjects. The division's film loan service is available to schools, clubs, and other organizations. A small film loan service fee is charged to help defray loan operation costs. The division directs the department's training program.

History: 1954 ACS 86, p. 34, Eff. Dec. 23, 1975.

R 299.3033 Lands division.

Rule 33. (1) The lands division is responsible for state acquisition of lands and property rights necessary for department programs, including acquisition of lands near urban areas for local multiple-use recreation centers; appraisal review of local municipal projects funded under either state or federal grant in aid programs; and for disposition by sale, exchange, or grant under existing state statutes of lands deeded to the state for nonpayment of taxes and those acquired by purchase or gift and declared surplus to departmental objectives. It cooperates with other department divisions in the planning of use of state land.

(2) The division manages improved tax-reverted properties, including elimination of hazardous conditions caused by buildings in disrepair and diseased elms.

(3) The division processes public use applications for tax-reverted lands filed by state agencies and local units of government, including issuance of deeds for approved grants. The division coordinates department review of applications for utility and road rights-of-way across state land and issues easements for approved routes.

(4) The division coordinates the review of mineral lease applications involving state lands, schedules and holds oil and gas, iron, copper, and mineral lease sales, and manages the voluminous paperwork involved in the many and varied legal transactions. The division is the lessor and abstractor for all leases and deeds involving private use of state-owned lots in the St. Clair flats in St. Clair county.

(5) The lands division maintains and controls land records showing current status of title including encumbrances on land under the jurisdiction of the department. The division is the official depository for the original field notes and plats of the United States government land office survey for the state.

(6) The division reviews tax assessments and makes payments in lieu of taxes on all tax-reverted acreage and purchased land under the jurisdiction of the department. The division assists in the development of policies and procedures for multiple-use management of state-owned lands and associated natural resources.

History: 1954 ACS 86, p. 34, Eff. Dec. 23, 1975.

R 299.3034 Personnel division.

Rule 34. (1) The personnel division conducts personnel management, including recruiting and hiring employees and providing pre-retirement counseling. The division represents the department and its employees before civil service hearing boards and the civil service commission on matters of pay, promotions, examinations, job classifications, reviews, and employee grievances.

(2) The division prepares the department payroll; processes employee deductions for insurance, hospitalization, social security, and retirement; handles claims for workmen's compensation and accident cases, and administers the department's equal opportunity affirmative action program.

History: 1954 ACS 86, p. 35, Eff. Dec. 23, 1975.

R 299.3035 Office of land use.

Rule 35. (1) The office of land use was established within the department pursuant to executive reorganization order no. 1973-2 as a transfer from the executive office. Its land planning responsibilities and functions are derived from executive reorganization order no. 1973-2. The office is responsible for the development of a state land use plan and for preparation of legislative proposals to implement a state land use program. The office is developing broad guidelines for delineation of special land use areas throughout the state and will recommend priorities for those land areas.

(2) The office is examining the influence of land assessment and taxation practices in establishing uses of land. The office is evaluating the role of state and local governments in the management and planning of land use.

(3) The office is examining existing policies of conservation and management of state lands and methods to obtain optimum public benefits in the uses of the lands. The office maintains liaison with the legislature and governmental agencies on land use issues. The office administers portions of Act No. 183 of the Public Acts of 1943, as amended, pursuant to executive reorganization order no. 1973-2.

History: 1954 ACS 86, p. 35, Eff. Dec. 23, 1975.

R 299.3036 Program services group.

Rule 36. The program services group provides research, statistical, and planning service for the department. The group includes the office of planning services, the office of environmental quality review, and the office of statistics and surveys.

History: 1954 ACS 86, p. 35, Eff. Dec. 23, 1975.

R 299.3037 Office of planning services.

Rule 37. (1) The office of planning services is attached to the office of the deputy director for natural resources. The office is responsible for developing or coordinating multidivisional programs, and for long-range comprehensive natural resource management plans. The office prepares and maintains the statewide

recreation plan which serves as a guide to the orderly development of a total recreation system reflecting needs and programs at all levels of government and private interests. The office provides economic evaluation of various department programs and other matters affecting natural resource allocation and use.

(2) The office develops, plans and implements programs having broad departmental and intergovernmental aspects, including natural rivers, wilderness and natural areas, and state trails systems. The office coordinates and represents the department's interests with certain other state and federal agency programs affecting fish, wildlife, recreation, and other natural resource values.

(3) As a planning organization the unit has responsibility for planning and program evaluation guidance to the resource management divisions, and for the conduct of surveys and analysis of data for use by these and other divisions. This office is involved in the interchange of information and data with federal, state, regional, and local agencies having responsibilities in recreation planning and program development. As a coordinating office it carries out special studies and assignments, particularly when multidivisional interests are involved. Many of these assignments arise through requirements imposed by federal agencies or statutes. The office is designated as the agency responsible for state natural resource management planning under applicable federal law.

History: 1954 ACS 86, p. 35, Eff. Dec. 23, 1975.

R 299.3038 Office of environmental quality review.

Rule 38. (1) The office of environmental quality review is attached to the director's office. The office is responsible for coordinating interdivisional environmental matters; for assisting in drafting and reviewing of department environmental impact statements; and conducting and coordinating departmental review of environmental impact statements of other state and federal agencies. The office advises the director and deputy directors for natural resources and environmental protection on a wide range of environmental matters as assigned or requested and prepares policy statements and resolutions on broad-issue environmental matters. The office is responsible for departmental liaison on environmental matters with the department of state highways and transportation, and represents the department on a wide variety of committees and councils and provides liaison between the department and citizen's environmental groups.

(2) The office prepares guidelines for department field operations to insure environmental protection.

(3) The office coordinates pesticide policies.

History: 1954 ACS 86, p. 36, Eff. Dec. 23, 1975.

R 299.3039 Office of surveys and statistical services.

Rule 39. (1) The office of surveys and statistical services is attached to the deputy director for natural resources. It collects and disseminates statistics gathered from surveys and studies which it conducts.

(2) It also serves in a statistical planning and consulting capacity for department units that have a need for these services and whose projects meet with the approval of the deputy director for natural resources.

(3) Especially close liaison is maintained between this office and the fisheries and wildlife divisions. Estimates of kill and catch, numbers of hunters and fishermen, and hunting and fishing effort are produced annually from results of various surveys. New impetus is being directed towards evaluation of management programs of the department.

PART 3. OTHER COMMISSIONS WITHIN DEPARTMENT

R 299.3041 Air pollution control commission.

Rule 41. (1) The air pollution commission was created by Act No. 348 of the Public Acts of 1965 and was transferred from the department of public health on April 1, 1973, by executive reorganization order nos. 1973-2 and 1973-2a. The commission exercises certain statutory duties and functions independently of the department of natural resources. The commission consists of the director of the department of public health who acts as chairman, the director of natural resources, the director of agriculture and 8 citizens appointed by the governor with the advice and consent of the senate. Of the 8 citizens appointed by the governor, 2 are representatives of industrial management, 1 is a registered professional engineer trained and experienced in matters of air pollution measurement and control, 2 are representatives of local government (1 of whom is a full-time air control pollution officer), 1 is a licensed doctor of medicine who is experienced and competent in the toxicology of air contaminants, 1 is a member of organized labor and 2 represent the general public.

(2) Each member is appointed for a term of 3 years. They receive no compensation but are reimbursed for actual and necessary expenses incurred in the performance of official duties. The statute provides that they shall meet at least twice each year. The commission may: (a) establish standards for ambient air quality and for air contaminant emissions; (b) issue permits for the installation and the operation of air pollution control facilities; (c) compel the attendance of witnesses at proceedings of the commission upon reasonable notice; (d) make findings of fact and determinations; (e) make, modify or cancel orders which require the control of air pollution; (f) institute in a court of competent jurisdiction proceedings to compel compliance with any rule or determination or order; (g) enforce rules promulgated under this act; (h) accept or require submission of plans for air cleaning devices, approve and inspect for compliance; (i) enter and inspect at reasonable times and places to investigate actual or suspected sources of air pollution; (j) receive and initiate complaints of air pollution which are in violation of the act or rule; (k) prepare and develop a general comprehensive plan for the prevention, control or abatement of air pollution; (l) encourage voluntary cooperation in controlling air pollution; (m) encourage the formulation and execution of plans by cooperative groups or associations of cities, villages and counties or districts for control of air pollution; (n) cooperate with agencies of the United States government; (o) conduct studies and research; (p) conduct and supervise programs of air pollution education; (q) determine by field studies and sampling the degree of air pollution in the state; and (r) provide advisory technical consultation services to local communities.

(3) The department of natural resources, through its air pollution control division, provides staff to serve the commission.

History: 1954 ACS 86, p. 36, Eff. Dec. 23, 1975.

R 299.3042 Mackinac Island state park commission.

Rule 42. (1) The Mackinac Island state park commission was created and given certain powers by Act No. 355 of the Public Acts of 1927. The commission consists of 7 members appointed by the governor and confirmed by the senate for 6-year terms, of which no more than 2 expire in any given year. They receive no compensation but may be reimbursed for expenses incurred in performance of official duties.

(2) Commissioners set the dates of meetings, and the chairman has the authority to call special meetings. A majority of members constitutes a quorum. All business is transacted by motions, support and majority vote of those commissioners present, including the chairman. Each year the commissioners elect a chairman, vice-chairman, and secretary and designate a resident commissioner, who shall be a legal resident and property owner in the city of Mackinac Island. The commission employs a superintendent and other persons.

(3) The Mackinac Island state park commission operates as a type I transfer to the department of natural resources.

(4) The Mackinac Island state park commission administers, under specific legal directives, Mackinac Island state park, consisting of 1,773 acres on Mackinac Island and Michilimackinac state park, consisting of 25 acres in the village of Mackinaw city. The historical aspect of the sites is emphasized through suitable restoration and development and through an interpretive program.

(5) The commission effects leases and fixes prices for rentals or privileges upon the property of the 2 state parks. It may grant privileges and franchises for waterworks, sewage, transportation and lighting for a period not to exceed 30 years.

(6) The commission may promulgate rules for the parks under its jurisdiction, but cannot promulgate a rule permitting the use of motor vehicles on any roads situated on state park lands; it may issue temporary permits for such use.

(7) The commission may finance the construction and acquisition of certain improvements to park properties through the issuance of revenue bonds and to impose charges and fees providing for the payment and security of these bonds and for the operation and maintenance of these improvements.

History: 1954 ACS 86, p. 37, Eff. Dec. 23, 1975.

R 299.3043 Water resources commission.

Rule 43. (1) The water resources commission was originally created as the stream control commission by Act No. 245 of the Public Acts of 1929. It was transferred to the department of natural resources as a type I transfer by Act No. 380 of the Public Acts of 1965, and on April 1, 1973, by a type II transfer by executive reorganization order nos. 1973-2 and 1973-2a, except that certain powers, duties, and responsibilities relating to water pollution control are still exercised independent of the department of natural resources. The commission consists of the director of natural resources, the director of public health, the director of state highways and transportation, the director of agriculture, and 3 citizens of the state appointed by the governor with the advice and consent of the senate, 1 from groups representative to industrial management, 1 to represent conservation or environmental interests, and 1 from groups representing municipalities. Their terms of office are staggered. They receive no compensation but are reimbursed for actual and necessary expenses in performance of official duties.

(2) The commission meets at least once a month and is charged with authority to protect and conserve the water resources of the state and has control over the pollution of surface or groundwaters and the Great Lakes. It may make surveys, studies, and investigations of the uses of waters and cooperate with other governments, governmental units, and agencies thereof. The commission may assist any flood control district in an advisory capacity. The commission advises and consults with the legislature on the obligation of the state to participate in the costs of construction and maintenance as provided for in the official plans of any

flood control district or intercounty drainage district. It may enforce the provisions and rules promulgated under Act No. 245 of the Public Acts of 1929, as amended.

(3) The water resources commission is the designated state agency to cooperate and negotiate with other governments, governmental units, and agencies thereof in matters concerning the water resources of the state, including flood control and beach erosion control. The commission has control over the alterations of natural and artificial watercourses of all rivers and streams in matters of flood control. The commission establishes pollution standards for lakes, rivers, streams, and other waters in relation to public use to which they are or may be put. The commission controls the amount of pollution discharged into the waters of the state, and administers Act No. 200 of the Public Acts of 1970. The commission administers grants in aid programs, federal and state, to local units of government. The commission administers the liquid industrial waste haulers act and the watercraft pollution control act.

History: 1954 ACS 86, p. 37, Eff. Dec. 23, 1975.

R 299.3044 Waterways commission.

Rule 44. The waterways commission was established by Act No. 320 of the Public Acts of 1947, being §§281.501 to 281.511 of the Michigan Compiled Laws. It became a part of the department as a type I transfer by Act No. 380 of the Public Acts of 1965. On April 1, 1973, the commission was changed to a type II status by executive reorganization order no. 1973-2. The commission consists of 5 members appointed by the governor, with the advice and consent of the senate for a 3-year term of office. The commission has adopted organization rules providing for the annual election of a chairman, vice chairman, and secretary from its membership. The commission is vested with the following powers and duties: (a) to acquire, construct, and maintain harbors, channels, and facilities for vessels in the navigable waters within the state; (b) to acquire such lands, easements, and rights-of-way necessary for harbors and channels; (c) to acquire suitable areas on shore for disposal of the material from dredging; (d) to represent the state in its relationships with the chief of engineers, United States army, and his authorized agents; (e) to conduct the inspection of boat livery craft and craft carrying passengers-for-hire; (f) to administer the former highway department docks and facilities in the straits of Mackinac; (g) to administer the department's public access site program; and (h) to administer the Cheboygan lock and dam complex on the Cheboygan river. The exercise of these powers and duties is subject to the approval of the natural resources commission.

History: 1954 ACS 86, p. 38, Eff. Dec. 23, 1975.

PART 4. ADVISORY AGENCIES

R 299.3046 Boating and water safety advisory council.

Rule 46. Section 11 of Act No. 303 of the Public Acts of 1967 provides that the director may establish a boating and water safety advisory council of such membership as he may determine appropriate. This has been done. The council is presently made up of 9 members from various professions including a representative of the sportsman's clubs of the state. The council meets twice a year and advises the marine safety division and the director in matters of boating, the need for watercraft controls, enforcement and general water safety.

R 299.3047 Great Lakes fishing advisory commission.

Rule 47. (1) The Great Lakes fishing advisory commission was created in section 1d of Act No. 84 of the Public Acts of 1929. The purpose of the commission is to advise the director of natural resources on matters affecting the Great Lakes fisheries, as submitted to it by the director.

(2) The commission consists of 9 members, with terms of 3 years. The members are not compensated but are entitled to actual and necessary expenses incurred in performance of advisory duties.

(3) Members are recruited from the commercial fishing industry, sports fishermen and the general public.

History: 1954 ACS 86, p. 39, Eff. Dec. 23, 1975.

R 299.3048 Hunter area control committee.

Rule 48. (1) The hunter area control committee was created by section 1 of Act No. 159 of the Public Acts of 1967. It is composed of a representative of the department of natural resources, a representative of the department of state police, the township supervisor, and a representative of the sheriff's department of the counties involved.

(2) The committee selects a chairman from its members who serves for a year, then alternates with a member from another agency. The department of natural resources performs clerical, operational, and administrative duties of the committee. Expenses incurred are borne by the member's department. Costs of surveys and actions outside the committee and the sheriff's department are borne by the department of natural resources.

(3) In the interest of public safety and the general welfare, the committee may regulate and prohibit hunting and the discharge of firearms and bow and arrow on those areas where hunting or the discharge of firearms or bow and arrow may or is likely to kill, injure, or disturb persons who reasonably can be expected to be present in the areas or to destroy or damage buildings or personal property situated or customarily situated in such areas or will impair the general safety and welfare. The committee may determine and define the boundaries. Areas may be closed throughout the year or parts thereof. The committee, in furtherance of safety, may designate areas where hunting is permitted only by prescribed methods and weapons not inconsistent with law.

operators subject to the act. The term of each member is 3 years on a staggered basis. The board elects a chairman and a vice-chairman, and meets semiannually, or more often. The board consults and advises the supervisor and performs such other duties as the supervisor deems necessary. The board participates in all public hearings provided for in the act and makes recommendations with respect to any rules or orders which may be considered for adoption pursuant to the evidence and testimony submitted. The board receives no compensation but may be reimbursed for travel or other expenses.

History: 1954 ACS 86, p. 39, Eff. Dec. 23, 1975.

R 299.3051 Oil and gas advisory board.

Rule 51. The oil and gas advisory board was created by Act No. 61 of the Public Acts of 1939. The director is the supervisor of wells. He appoints 8 persons, subject to the approval of the commission, to the oil and gas advisory board. Six members are chosen from oil or gas producers or operators with special reference to their training, experience and standing in the oil or gas industry; 2 are from the general public. The term of each member is for 3 years on a staggered basis. The board elects a chairman and a vice-chairman and meets monthly. The board is advisory. The board may participate officially in all public hearings provided for by Act No. 61 of the Public Acts of 1939, as amended, and does advise and consult with the supervisor with respect to rules or orders which may be considered for adoption pursuant to the evidence and testimony submitted. The members receive no compensation but may be reimbursed for travel or other expenses.

History: 1954 ACS 86, p. 39, Eff. Dec. 23, 1975.

R 299.3052 State recreation advisory committee.

Rule 52. The advisory committee for the state recreation and cultural arts section was created by Act No. 326 of the Public Acts of 1965, as amended. It consists of 15 members appointed by the governor. They serve without compensation for 4 years. The committee provides continual representation of citizen interest, need, and participation in a wide variety of leisure time pursuits.

History: 1954 ACS 86, p. 40, Eff. Dec. 23, 1975.

R 299.3053 Wilderness and natural areas advisory board.

Rule 53. (1) The wilderness and natural areas advisory board was created by Act No. 241 of the Public Acts of 1972. It consists of 7 members appointed by the governor with the advice and consent of the senate. One is from the Upper Peninsula; 1 from the Lower Peninsula north of townline 16; 3 possess experience in the evaluation and preservation of wilderness or natural areas; 1 is trained and experienced in wildlife biology; 1 is a registered forester, trained and experienced in forest ecology, silviculture and protection of forest land; 1 is qualified in outdoor education and nature interpretation; and 1 represents those industries whose basic resources come from the lands and forests. The board elects a chairman from its members. Members serve for 3 years and receive no compensation but are reimbursed for expenses incurred in the performance of duties.

(2) The board makes recommendations for the dedication and administration of wilderness areas, wild areas and natural areas in accordance with the act.

R 299.3054 Advisory committee on economic poisons.

Rule 54. (1) The advisory board on economic poisons was created by Act No. 233 of the Public Acts of 1959.

(2) The committee was formed to consult with and aid the director of agriculture in the administration of the economic poisons act of 1959 which provides for the prevention of harm to man, contamination of food or feed or the destruction or damage of agricultural crops, growing plants, livestock, or wildlife from the application of any economic poison, pesticide, insecticide, herbicide, fungicide, or rodenticide.

(3) The committee is composed of the director of natural resources, the director of public health, the director of aeronautics, the director of the pesticide research center of Michigan state university, and the executive secretary of the water resources commission.

History: 1954 ACS 86, p. 40, Eff. Dec. 23, 1975.

R 299.3055 Aeronautics commission.

Rule 55. The aeronautics commission was created by Act No. 327 of the Public Acts of 1945 and was transferred to the department of state highways and transportation by executive reorganization order nos. 1973-1 and 1973-1a. The commission consists of the highway director, the director of state police, the director of natural resources and 5 other members who are appointed by the governor with the advice and consent of the senate. Terms of office are 4 years. Members are compensated for actual expenses incurred in performance of duties as a commissioner. The commission has general supervision over aeronautics in the state. It encourages, fosters, and participates with the political subdivisions of the state in the development of aeronautics; establishes and encourages the establishment of airports and landing fields.

History: 1954 ACS 86, p. 40, Eff. Dec. 23, 1975.

R 299.3056 The campgrounds advisory committee.

Rule 56. (1) The campgrounds advisory committee was created by Act No. 171 of the Public Acts of 1970. The act is administered by the department of public health. The director of public health has appointed an advisory committee with broad geographical distribution of members, 11 in number. Of the 11 members, 1 represents the Michigan mobile home and recreational vehicle institute; 2 represent customers including 1 who represents a recognized campground users association; 2 campground owners; 1 representing a primitive type of campground; 2 represent counties; 2 represent local health departments; the director of natural resources or his designated representative. The members serve for 3 years.

(2) The advisory committee assists the director of public health in the formulation of rules regarding sanitation and safety standards for campgrounds and public health. It further advises him in the administration of the act and the rules.

History: 1954 ACS 86, p. 40, Eff. Dec. 23, 1975.

R 299.3057 The Great Lakes basin compact and commission.

Rule 57. (1) The Great Lakes basin compact is an agreement, entered into in 1955, between the states of Illinois, Indiana, Michigan, Minnesota, New York, Pennsylvania, and Wisconsin and the Canadian provinces of Ontario and Quebec

to promote the orderly, integrated, and comprehensive development, use, and conservation of the water resources of the Great Lakes basin, called the "basin" hereafter; to plan for the welfare and development of the water resources of the basin as a whole as well as for those portions which may have problems of special concern; to make it possible for the states of the basin and their people to derive the maximum benefit from utilization of public works, in the form of navigational aids or otherwise; to advise in securing and maintaining a proper balance among industrial, commercial, agricultural, water supply, residential and other legitimate uses of water resources of the basin; and to establish and maintain an intergovernmental agency to the end that the purposes of this compact may be accomplished more effectively.

(2) The commission is composed of not less than 3 nor more than 5 commissioners from each member state; each state delegation is entitled to 3 votes. By statute, this state provides for 5 commissioners: the attorney general, the director of the department of natural resources, the executive secretary of the water resources commission, the director of the department of commerce, and 1 member appointed by the governor, with the advice and consent of the senate, from groups or organizations interested in the Great Lakes. Each commissioner has ⅗ of a vote whenever a vote is required by the terms of the compact.

History: 1954 ACS 86, p. 41, Eff. Dec. 23, 1975.

R 299.3058 Interstate oil compact commission.

Rule 58. The interstate oil compact commission is a cooperative advisory body composed of the several oil and gas producing states whose purpose is to conserve oil and gas by the prevention of physical waste from any cause. This state became a compacting state through the authority of Act No. 138 of the Public Acts of 1947. The governor is this state's member of the compact. He may appoint official representatives to act in his stead and such appointments have been either to the director or the chief of the geological survey. The compact commission meets at least twice each year. Compact business is accomplished through several committee structures. Appointment of committee members is mainly from agency personnel. Compact membership is a line item appropriation through the geological survey. Official representatives and committee appointees receive no compensation.

History: 1954 ACS 86, p. 41, Eff. Dec. 23, 1975.

R 299.3059 State agriculture stabilization and conservation committee.

Rule 59. The director is an ex officio member of the state agriculture stabilization and conservation committee which was established to advise the United States department of agriculture on the use of set aside agricultural lands. The director assists in developing guidelines for (a) providing technical assistance for wildlife and habitat improvement practices; (b) renewing applications of farmers for public land use option and selecting areas based on desirability of wildlife habitat; (c) determining accessibility; (d) evaluating effects on surrounding areas; (e) considering aesthetic values; (f) checking compliance of cooperators; and (g) carrying out programs of wildlife stocking and management of acreage set aside.

R 299.3061 Water well drillers advisory board.

Rule 61. Act No. 294 of the Public Acts of 1965, as amended, is administered by the department of public health. The act provides for an advisory board of 9 members, 5 of which are well drilling contractors; 1 from each of the departments of public health and natural resources; 1 from the staff of the water resources commission and 1 from a county health department. The act specifies the department of natural resources representative as an employee of the geological survey appointed by the director. The terms are staggered. The board advises the state public health director in adoption of rules and construction codes and assists in determination of the qualification and examination of license applicants. The nonagency members are reimbursed for attendance at meetings but not to exceed $600.00 annually.

History: 1954 ACS 86, p. 42, Eff. Dec. 23, 1975.

PART 5. CONTESTED CASES

R 299.3071 Definitions.

Rule 71. (1) "Contested cases" means matters involving licenses, permits, or approvals issued by the department of natural resources and other matters which are within the definition of "contested cases" as set forth by subsection (3) of section 3 of Act No. 306 of the Public Acts of 1969, as amended, being §24.203 of the Michigan Compiled Laws.

(2) "Contested case hearing" means a hearing initiated pursuant to chapters 4, 5, and 6 of Act No. 306 of the Public Acts of 1969, as amended, being §§24.271 to 24.306 of the Michigan Compiled Laws and R 299.3072 to R 299.3079.

(3) "Person" means an individual, partnership, association, corporation, municipality, or any other entity.

(4) "Director" means the director of the department of natural resources or his authorized representative.

History: 1954 ACS 86, p. 42, Eff. Dec. 23, 1975.

R 299.3072 Procedures from administrative procedures act; appearances at hearings.

Rule 72. (1) Department of natural resources administrative hearings procedures in contested cases and judicial review thereof shall be in accordance with and subject to chapters 4, 5, and 6 of Act No. 306 of the Public Acts of 1969, as amended, being §§24.271 to 24.306 of the Michigan Compiled Laws.

(2) Appearances at a contested case hearing shall be either in person, or by duly authorized agent, or by legal counsel.

R 299.3073 Initiation of contested case hearings.

Rule 73. (1) Contested case hearings may be initiated by the commission or the department. If the commission initiates a contested case hearing, by resolution it shall direct the department to conduct the hearing. Except in the case of suspension or revocation of a license or permit, the commission or the department shall initiate a contested case hearing by notice thereof mailed by certified mail at least 30 days prior to the hearing.

(2) Any person may request that a contested case hearing be initiated by the filing of a petition on a form provided by the department in the office of the director in Lansing, Michigan. The petition shall state the legal authority under which a hearing is requested. The petition shall provide a brief statement of matters asserted, a statement of the relationship of the petitioner to the issue, and a statement of relief sought.

History: 1954 ACS 86, p. 42, Eff. Dec. 23, 1975.

R 299.3074 Notice to other persons.

Rule 74. (1) When a hearing is initiated, the director shall provide notice of the hearing to those persons as may be known to him who may be materially affected by the proceedings or who may request such notification at least 30 days prior to the hearings. The notice shall be by mail, by publication, or by both, as may be deemed necessary by the director, or as required by applicable statute or rule. The notice shall be given at least 30 days prior to the hearing except in the case of suspension or revocation of a license or permit.

(2) The department shall send notices of the initiation of all adversary contested case hearings which would require the employment of a hearing officer to any person who requests so in writing. A person desiring to receive such notice shall submit his request annually.

History: 1954 ACS 86, p. 42, Eff. Dec. 23, 1975.

R 299.3075 Hearing officer; contested case hearings; depositions.

Rule 75. (1) That portion of a contested case hearing in which testimony and evidence is to be taken may be referred to a hearing officer who shall be designated and authorized by the director to preside at the hearing. The hearing officer shall hear the evidence, prepare a record of the proceedings, and, if so directed by the director or commission, prepare a proposal for a decision, including findings of fact and conclusions of law. The record of the proceedings and the proposal for decision if required as prepared by the hearing officer shall be filed at the department offices as soon as possible following the completion of the testimony.

(2) If the hearing officer does not prepare a proposal for decision, the director or commission shall either have heard the contested case or read the record before making the final decision.

(3) Depositions shall be taken only when authorized by the official hearing the case. The taking of depositions shall be in accordance with the Michigan court rules.

History: 1954 ACS 86, p. 43, Eff. Dec. 23, 1975.

R 299.3076 Adjournment of contested case hearings.

Rule 76. A hearing shall not be adjourned or continued except on the order of the official hearing the case. A request for adjournment or continuance shall be in writing, state concisely the reasons for the request, and be filed not later than 5

days prior to the date of hearing. A hearing may be adjourned or continued on less than 5 days' notice upon sufficient showing of good cause.

History: 1954 ACS 86, p. 43, Eff. Dec. 23, 1975.

R 299.3077 Permission to intervene or file amicus curiae briefs.

Rule 77. (1) Any person may petition to intervene in any contested case hearing. A petition for intervention shall set forth the interest of the petitioner and a concise statement of reasons for intervention. A petition to intervene shall be filed not later than 5 days prior to the date set for hearing. The hearing officer may waive the 5 days' requirement on a showing of good cause.

(2) In a contested case hearing, any person may submit an amicus curiae brief to the hearing officer, the department, or the commission. The brief shall be filed not more than 30 days after the hearing officer's proposed findings of fact and conclusions of law are transmitted to the director and in a case heard by the director, or in all other instances, not more than 30 days after conclusion of the hearing.

History: 1954 ACS 86, p. 43, Eff. Dec. 23, 1975.

R 299.3078 Department files and records; use in contested case hearings.

Rule 78. (1) The files and records of the department specified in the notice of hearing shall be available for inspection by the parties prior to the hearing, and the whole or part thereof may be offered at the hearing as evidence on behalf of any party.

(2) Following a hearing conducted by a hearing officer and completion of proceedings, a copy of the proposal for decision if required shall be transmitted within 30 days to the director and at the same time shall be served by certified mail on all parties to the proceedings and notice by regular mail to persons mentioned in subrule (2) of R 299.3074.

History: 1954 ACS 86, p. 43, Eff. Dec. 23, 1975.

R 299.3079 Stipulations and consent orders.

Rule 79. (1) A party to a contested case hearing who desires to dispose of the case by stipulation or consent order may mail to the director, at least 10 days before the date set for the hearing, his written consent to the terms and conditions of the proposed order or action as set forth in the notice of hearing. Agreement between the parties on the terms and conditions of a stipulation or consent order constitutes sufficient cause for the director to dispose of the case without further hearing. Notice of the terms of the stipulation or consent order shall be sent within 10 days before the entry of the stipulation or consent order to all persons who receive notice of the hearing. Persons who receive notice of the hearing and terms of stipulation or consent order shall be notified of the final outcome of the case.

(2) After the hearing officer has submitted the proposal for decision, and the hearing proceedings have been completed, the director or commission shall make a final decision within 60 days. Persons who receive notice of the hearing shall be notified of the decision.

History: 1954 ACS 86, p. 43, Eff. Dec. 23, 1975.

R 299.3080 Michigan oil and gas hearings.

Rule 80. Hearings conducted by the director or employees of the geological survey division arising pursuant to Act No. 61 of the Public Acts of 1939, as amended, Act No. 92 of the Public Acts of 1970, Act No. 197 of the Public Acts of 1959, and Act No. 315 of the Public Acts of 1969, being §§319.1 to 319.27, 425.181

to 425.188, 319.351 to 319.394, and 319.221 to 319.236 of the Michigan Compiled Laws, shall be in accordance with and subject to the requirements of the specific act and administrative rules promulgated thereto.

History: 1954 ACS 86, p. 43, Eff. Dec. 23, 1975.

R 299.3081 Air pollution control commission and water resources commission hearings.

Rule 81. (1) Hearings conducted by the air pollution commission shall be in accordance with and subject to Act No. 348 of the Public Acts of 1965, as amended, being §§336.1 to 336.36 of the Michigan Compiled Laws and administrative rules promulgated pursuant thereto.

(2) Hearings conducted by the water resources commission shall be in accordance with and subject to Act No. 245 of the Public Acts of 1929, as amended, being §§323.1 to 323.13 of the Michigan Compiled Laws, and administrative rules promulgated thereto.

History: 1954 ACS 86, p. 44, Eff. Dec. 23, 1975.

PART 6. ACCESS TO DOCUMENTS

R 299.3091 Availability of documents, photographs, and pertinent information.

Rule 91. It is the policy of the department to make information concerning its activities fully available to the public. Therefore, all writings, documents, photographs, and informational materials of the department shall be made available to any person during normal working hours, except where disclosure of material is prohibited by statute or is subject to R 299.3092. Materials available for public inspection, copying, and purchase include, but are not limited to:

(a) Final orders or decisions in contested case hearings and the records on which they were made.

(b) Promulgated administrative rules and policy statements.

(c) Written statements which implement or interpret law, rules, or policy, including, but not limited to, guidelines, manuals, and forms with instructions adapted or used by the department in the discharge of its functions.

(d) Agendas and minutes of all commissions, advisory boards, council, and committee meetings.

(e) Orders, final orders, stipulations, and permits.

(f) Transcribed records of conferences, public and statutory hearings.

(g) Field orders and reports from staff and field.

(h) Maps, charts, and surveys.

(i) General information consisting of bulletins, booklets, hunting and fishing guides, and outdoor safety training materials.

(j) Photographs; however, the department may formulate reasonable policy on the availability of photographs for advertisement and resale, and may assess a fee for photographs, film loans and sales, magazines, fee publications, and other lengthy abstracts and transcripts.

(k) A list of statutes administered by the department.

(l) A list of statutes providing rule-making authority to the commission and to the director.

(m) An organizational chart.

History: 1954 ACS 86, p. 44, Eff. Dec. 23, 1975.

R 299.3092 Documents, photographs, and materials which shall not be available.

Rule 92. (1) Information, the disclosure of which is expressly prohibited by statute, shall not be available to the public.

(2) All denials shall be made promptly and accompanied by a written statement of the reasons therefor. All denials of requests for information shall be brought to the attention of the director for review by him. Appeals from action by the director shall be to the commission.

History: 1954 ACS 86, p. 44, Eff. Dec. 23, 1975.

R 299.3093 Requests for documents or information.

Rule 93. A person desiring to inspect or copy materials shall make a request to the appropriate department office. The department shall promptly produce the materials for inspection and copying. If it is not possible to produce the materials, the delay shall be for good cause only, and the reasons therefor shall be given to the requestor in writing. If original materials are obtained for inspection, the department shall require that the person sign for them, not remove them from the department offices, and that he return them at the end of the work day. Upon receipt of his request and pledge of reimbursement, the department shall order duplication of the materials under its open account arrangements for commercial duplication with billing at cost direct to the requestor.

History: 1954 ACS 86, p. 44, Eff. Dec. 23, 1975.

PART 7. MISCELLANEOUS

R 299.3094 Requests for promulgation of rules.

Rule 94. (1) A person requesting the commission or the department to promulgate a rule shall do so on a form provided by the department. The form is available at the offices of the director in Lansing, and at regional and district offices. The request shall contain the information required on the form, the signature and address of the person making the request, and the statute under which he requests the rule be promulgated. The request shall be filed either in person or by mail in the office of the director in Lansing. Within 90 days after receipt of a correctly filed request, the commission or the department shall initiate the processing of a rule or issue a written statement containing the reasons for denial of the request which shall be sent by certified mail to the person who made the request, and shall be made available to all persons requesting notification of the denial.

(2) When the statute involved provides for the promulgation of a rule by the commission, the commission shall consider the request at a public meeting prior to taking action thereon.

History: 1954 ACS 86, p. 45, Eff. Dec. 23, 1975.

R 299.3095 Requests for declaratory rulings.

Rule 95. (1) A person requesting the department to issue a declaratory ruling as to the applicability to a state of facts of a statute, rule, or order administered or issued by the department shall do so on a form provided by the department. The form is available from the office of the director in Lansing, and regional and district offices. The request shall contain the information required on the form and the signature and address of the person making the request. The request for a declaratory ruling shall comply with the substantive, procedural, and public notice requirements of the statute or rule pursuant to which it is sought. The request shall be filed either in person or by mail in the office of the director in Lansing. Within 30 days after receipt of a correctly filed request, the department shall notify the person who made the request by certified mail whether a declaratory ruling be issued and, if it is to be issued, the nature and details thereof. If the request is denied, the department shall issue a concise written statement of

its principal reasons for denial which shall be sent by certified mail to the person who made the request. Notification of the issuance or denial of a declaratory ruling shall be made available to all persons requesting notification.

(2) The department shall send notice of requests for declaratory ruling to any person who requests in writing to be so notified. A person desiring to receive such notice shall submit his request annually.

(3) The department shall make a compilation of the declaratory rulings which shall be available to the public.

History: 1954 ACS 86, p. 45, Eff. Dec. 23, 1975.

R 299.3099 Rescission.

Rule 99. R 299.401 to R 299.408 of the Michigan Administrative Code of 1954, appearing on pages 1930 and 1931 of the 1954 edition of the Code, and R 299.431 to R 299.436 of the Michigan Administrative Code, appearing on pages 5474 and 5475 of the 1970-71 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 86, p. 45, Eff. Dec. 23, 1975.

BUREAU OF ENVIRONMENTAL PROTECTION

POLYCHLORINATED BIPHENYLS

(By authority conferred on the director of the department of natural resources by section 2 of Act No. 60 of the Public Acts of 1976, being §299.352 of the Michigan Compiled Laws)

R 299.3301 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 60 of the Public Acts of 1976, being §299.351 et seq. of the Michigan Compiled Laws.

(b) "Closed system" means electrical capacitors and transformers.

(c) "Combustible material" means a substance for which there is an incineration method available which destroys the PCB.

(d) "Department" means the department of natural resources.

(e) "Director" means the director of the department of natural resources.

(f) "Disposal" means the abandoning, depositing, or otherwise discarding of PCB, a PCB-product or a PCB-contaminated material.

(g) "Drain" means to remove, rinse out, or otherwise separate liquids from the solid materials in which they are contained, encased, or enclosed.

(h) "Incidental concentrations of PCB" means concentrations of PCB which are beyond the control of the person and and which are not the result of the person: exposing an item, product, or material to concentrations of PCB; failing to take reasonable measures to rid the item, product, or material of concentrations of PCB; or failing to use a reasonable substitute for the item, product, or material.

(i) "PCB" means the class of chlorinated biphenyl, terphenyl, higher polyphenyl, or mixtures of these compounds produced by replacing 2 or more hydrogen atoms on the biphenyl, terphenyl, or higher polyphenyl molecule with chlorine atoms. PCB shall not include chlorinated biphenyls, terphenyls, higher polyphenyls, or mixtures of these compounds that have functional groups attached other than chlorine, unless that functional group on the chlorinated biphenyls, terphenyls, higher polyphenyls, or mixtures thereof results in a compound which is determined to be dangerous to the public health, safety, and welfare under section 5 of the act.

(j) "PCB-contaminated material" means either a PCB-product, or a material containing any concentration of PCB if that PCB resulted from the disposal of PCB, or a PCB-product via any method other than those specifically approved in these rules.

(k) "PCB-product" means a product, item, or material containing a concentration of PCB equal to or greater than 100 ppm or such lower concentration as may arise pursuant to section 3(4)(a) and (b) of the act.

(l) "Person" means an individual, firm, partnership, association, or corporation.

(m) "Ppm" means concentration in parts per million as milligrams per kilogram (mg/kg) and is calculated as follows: if PCB is distributed throughout a product, item, or material, the concentration of PCB is determined on the basis of mg of PCB per kg of the mass in which the PCB is distributed; if PCB is a constituent of only a portion of a product, item, or material, the concentration of PCB is determined on the basis of mg of PCB per kg of only that portion of the product, item, or material in which the PCB is a constituent. For example, if PCB is a constituent of a dielectric fluid which is in a capacitor in a locomotive engine, the concentration of PCB would be determined on the basis of mg of PCB per kg of dielectric fluid.

(n) "Sell for use" or "sale for use" means the sale of PCB or a PCB-product to the ultimate buyer or consumer who will use the PCB or PCB-product for the purpose for which it was designed and manufactured. "Sell for use" does not include sales to intermediates or others who sell to persons who resell the PCB or PCB-product without using it for the purpose for which it was designed and manufactured.

(o) "Small capacitor" means an electrical capacitor containing less than 3 pounds of total PCB.

(p) "Small transformer" means an electrical transformer containing less than 3 pounds of total PCB.

(q) "Use" means to put into action or service; to avail oneself of; to carry out a purpose or action by means of, or to utilize; or to expend or consume by putting to use. PCB use includes both consumptive uses in manufacturing or other processes, as well as nonconsumptive uses adjunctive to manufacturing or other processes, such as the use of dielectric fluids in capacitors and transformers.

History: 1954 ACS 91, p. 28, Eff. Apr. 12, 1977.

R 299.3302 Compliance with other acts, statutes, and rules.

Rule 2. Compliance with these rules shall not relieve a person of that person's responsibility to conform to other Michigan and federal acts, statutes, and promulgated rules which may apply to PCB, including, but not limited to:

(a) Act No. 87 of the Public Acts of 1965, as amended, being §325.291 et seq. of the Michigan Compiled Laws.

(b) Act No. 348 of the Public Acts of 1965, as amended, being §336.11 et seq. of the Michigan Compiled Laws.

(c) Act No. 136 of the Public Acts of 1969, being §323.271 et seq. of the Michigan Compiled Laws.

(d) Act No. 245 of the Public Acts of 1929, as amended, being §323.1 et seq. of the Michigan Compiled Laws.

(e) Act No. 154 of the Public Acts of 1974, as amended, being §408.1001 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 91, p. 29, Eff. Apr. 12, 1977.

R 299.3303 Confidentiality of information.

Rule 3. If a record, exemption application, or other document furnished to the department under requirements of these rules is certified to contain information related to production, sales figures, or to processes which are unique to the person and which would adversely affect the competitive position of the person, then that information, under the authority of section 22 of Act No. 306 of the Public Acts of 1969, being §24.222 of the Michigan Compiled Laws, shall be for the confidential use of the department only in administration of the act, unless the person expressly agrees to its publication or availability to the general public. Nothing in this rule renders data on the quantity or quality of emissions or discharges confidential.

History: 1954 ACS 91, p. 29, Eff. Apr. 12, 1977.

R 299.3304 Small capacitor and transformer exemption.

Rule 4. The use or sale of small capacitors and small transformers, or items and products containing small capacitors or transformers, in this state shall be exempt from these rules. The director shall issue voluntary guidelines for the handling and disposal of small capacitors and transformers.

History: 1954 ACS 91, p. 29, Eff. Apr. 12, 1977.

R 299.3305 Research exclusion.

Rule 5. PCB or PCB-products may be used in scientific research, analytical testing, or experimentation if approval for each such use is obtained in writing from the director or his designated representative. The director or his designated representative may waive specific portions of these rules for such uses, and may require other provisions to protect the public health, safety, and welfare.

History: 1954 ACS 91, p. 29, Eff. Apr. 12, 1977.

R 299.3306 Electric capacitor and transformer exclusion.

Rule 6. (1) PCB or a PCB-product may be sold for use and used in this state in a closed system as a dielectric fluid for an electric transformer or capacitor.

(2) A person using PCB or a PCB-product in an electric capacitor or transformer, except for small capacitors and transformers or items and products containing small capacitors or transformers exempted under R 299.3304, shall:

(a) Comply with all rules promulgated pursuant to the act.

(b) Prepare a pollution incident prevention plan (PIPP) as required by part 5 of the general rules of the water resources commission, being R 323.1151 to R 323.1169 of the Michigan Administrative Code, detailing methods for the siting, handling, and disposing of capacitors and transformers containing PCB dielectric fluid so that the public health, safety, and welfare is insured. The plan shall also include a method of identifying PCB-containing capacitors and transformers so that they can be readily recognized and differentiated from capacitors and transformers which do not contain a PCB dielectric fluid.

History: 1954 ACS 91, p. 30, Eff. Apr. 12, 1977.

R 299.3307 Exemption applications.

Rule 7. (1) A person may file an application for exemption under section 4 of the act to allow a PCB-product to be manufactured for sale, sold for use, or used by the person in that person's business in this state if the PCB-product contains incidental concentrations of PCB. The application shall be on forms provided by the director and shall set forth the following information:

(a) Name, location, and nature of the enterprise or operation.

(b) Name of the PCB-product.

Digitized by Google

(c) Concentration of PCB in the PCB-product.
(d) Proposed use and quantities of the PCB-product.
(e) Source of PCB contamination, if known.
(f) Measures to rid the PCB-product of concentrations of PCB.
(g) List of available PCB-free substitutes for the PCB-product for which the exemption is being sought.

(2) A person may file an application for exemption under section 4 of the act for continued use of an electric transformer containing residual amounts of PCB if the transformer has had the PCB drained and if the transformer has been filled with a substitute material. The application shall be on forms provided by the director and shall set forth the following information:
(a) The number, size, and location of the transformer or transformers for which an exemption is sought.
(b) Measures taken to rid the transformer of residual amounts of PCB prior to refilling.
(c) Method and location of disposal for the drained PCB and PCB-contaminated materials resulting from replacement.
(d) Name and manufacturer of substitute fluid used.
(e) Concentration in ppm of PCB remaining in the substitute transformer fluid.

(3) Transformers or PCB-products exempted under this rule but still containing residual or incidental concentrations of PCB exceeding 100 ppm or such lower maximum concentrations as may arise pursuant to section 3(4)(a) and (b) of the act are exempt from R 299.3308, R 299.3309, R 299.3311, and R 299.3312, but are not exempt from the labeling requirements of R 299.3310 or from the disposal requirements of R 299.3313 to R 299.3317.

History: 1954 ACS 91, p. 30, Eff. Apr. 12, 1977.

R 299.3308 Notice of intent to use.

Rule 8. (1) A notice of intent to use PCB or a PCB-product in a business in this state shall be filed on forms provided by the director and shall set forth the following information:
(a) Name, location, and nature of the enterprise or operation.
(b) Nature of the use of the PCB or PCB-product.
(c) Physical state, product name, and other characteristics of the PCB or PCB-product.
(d) Concentration of PCB in the PCB-product.
(e) Anticipated or known length of period of use of the PCB or PCB-product.
(f) Proposed final disposal methods for the PCB or PCB-product.
(g) Discharges to air, land, or water containing PCB and quantities of PCB discharged.

(2) Notices of intent to use shall be filed on or before April 1, 1977, for uses implemented as of the effective date of these rules, or shall be filed before a new or modified application is implemented or both. Only modified applications which increase the environmental risks attendant with the use of the PCB or PCB-product shall necessitate the filing of a new intent of use notice. A notice of intent to use need only be filed once for each general application or use category.

History: 1954 ACS 91, p. 30, Eff. Apr. 12, 1977.

R 299.3309 Annual report of use.

Rule 9. (1) Annual reports of PCB or PCB-product use in a business in this state shall be filed on forms provided by the director, shall include PCB in use, in

inventory, and new purchases during the reporting period, and shall set forth the following information:

(a) Name, location, and nature of the enterprise or operation.

(b) The amount and physical state of the PCB or PCB-product in use and in inventory.

(c) Nature of the use of the PCB or PCB-product.

(d) Concentration of PCB in the PCB-product.

(e) Disposal information as specified in R 299.3316.

(2) The annual report of PCB usage shall be filed on or before January 1, 1978, and on or before January 1 of each subsequent year.

(3) A person filing a report of sale for use or a report of manufacture for sale for a general product line, pursuant to R 299.3312, shall not file a report of use for that same product line.

History: 1954 ACS 91, p. 31, Eff. Apr. 12, 1977.

R 299.3310 Labeling of items, products, or materials; warning statement.

Rule 10. (1) PCB or a PCB-product which is manufactured for sale or sold in Michigan on or after April 1, 1977, shall be conspicuously labeled with the following statement:

"CAUTION" Contains PCB's (polychlorinated biphenyls) that are environmental contaminants. In case of leaks or spills, restrain discharge and consult manufacturer. In transportation emergencies, call national response center (800-424-8802) and Chemtrec (800-424-9300). Avoid prolonged breathing of vapors or mists, contact with eyes or skin. Disposal should be in accordance with ANSI C-107 guidelines or applicable state and federal statutes.

(2) Warnings, hazard statements, and statements of fact in addition to those mandated by subrule (1) may be included on the label if the manufacturer or seller so desires.

History: 1954 ACS 91, p. 31, Eff. Apr. 12, 1977.

R 299.3311 Notice of intent to sell or manufacture.

Rule 11. (1) Notification of intent to sell for use, or to manufacture for sale, PCB or a PCB-product in this state shall be filed on forms provided by the director, and shall set forth the following information:

(a) Name, location, and nature of the enterprise or operation.

(b) Nature of manufacturing process for the PCB or PCB-product.

(c) Physical state, product name, and other characteristics of the PCB-product manufactured.

(d) Concentration of PCB in the PCB-product.

(e) Anticipated or known length of time that the PCB or PCB-product will be manufactured.

(f) PCB, PCB-product, and process waste disposal methods. This requirement applies to Michigan manufacturers and sellers only.

(g) Discharges containing PCB to air, land, or water and the quantities of PCB discharged. This requirement applies to Michigan manufacturers and sellers only.

(2) Notice of intent to sell or manufacture for sale shall be filed on or before April 1, 1977, or before a new or modified PCB or PCB-product is sold or manufactured for sale in the state, or both. A person need only file a new notice of intent to sell or manufacture for sale a modified PCB or PCB-product if:

(a) There is an increase in the amount of concentration of PCB contained in the PCB-product;

(b) The manner in which the PCB is contained in the PCB-product is altered; or

(c) The environmental risks attendant with the manufacture, sale, or use of the PCB-product are increased. A notice of intent to sell for use or to manufacture for sale need only be filed once for each general product line.

(3) A person having filed a form of intent to sell for use or to manufacture for sale shall notify the director in writing when that person no longer intends to sell for use or to manufacture for sale the product for which the person filed the intent form.

History: 1954 ACS 91, p. 31, Eff. Apr. 12, 1977.

R 299.3312 Annual report of sale or manufacture.

Rule 12. (1) Annual reports of the sale for use or manufacture for sale in this state of a PCB or PCB-product shall be filed on forms supplied by the director, and shall set forth the following information:

(a) Name, location, and nature of the enterprise or operation.

(b) The amount and types of PCB and PCB-products manufactured or sold for use in Michigan.

(c) Nature of the manufacturing process or operation involving PCB or PCB-products.

(d) Final PCB-products and their expected or known use.

(e) PCB concentrations in original material, final products, and wastes.

(f) Disposal information as specified in R 299.3316.

(2) Annual reports of the sale for use or manufacture for sale of PCB or a PCB-product shall be filed by January 1, 1978, and by January 1 of each subsequent year.

(3) A person filing a report of sale for use or manufacture for sale for a general product line shall not file a report of use, pursuant to R 299.3309, for that same product line.

History: 1954 ACS 91, p. 32, Eff. Apr. 12, 1977.

R 299.3313 General disposal provisions.

Rule 13. (1) PCB and PCB-contaminated materials intended for disposal shall be labeled, packaged, handled, transported, and disposed of in conformity with these rules, unless approval for alternative disposal methods is obtained in writing from the director or the designated representative of the director.

(2) An introduction of PCB or PCB-contaminated materials into surface water, groundwater, or air shall not be considered an approved method of disposal for that material. Introduction of PCB or PCB-contaminated materials into soil shall only be permitted if:

(a) Provisions are made in these rules for specific disposal methods.

(b) Approval for a specific disposal method is obtained in writing from the director or the designated representative of the director.

(3) Water, soil, or other materials which are secondarily contaminated with PCB from a transformer, or with a PCB-product exempted under R 299.3307, may be exempted from the requirements of R 299.3313 to R 299.3317. Application for this exemption shall be made on forms provided by the director and shall include:

(a) Physical state, description, and quantity of contaminated materials.

(b) Concentrations of PCB in the contaminated materials.

(c) Historical trend of PCB concentrations in the air, water, soil, or other materials.

(d) Measures taken to prevent entry of PCB into the air, water, soil, or other materials.

(e) Measures taken to rid the air, water, soil, or other materials of PCB.

(f) If water is secondarily contaminated, identification of the area to which it is to be discharged.

History: 1954 ACS 91, p. 32, Eff. Apr. 12, 1977.

R 299.3314 Labeling for disposal.

Rule 14. All containers used to store PCB or PCB-contaminated materials prior to disposal, or used for transportation of PCB or PCB-contaminated materials to a disposal site, shall be labeled pursuant to R 299.3310.

History: 1954 ACS 91, p. 32, Eff. Apr. 12, 1977.

R 299.3315 Storage, handling, and transportation of PCB or PCB-contaminated materials intended for disposal.

Rule 15. (1) All containers used to store or transport PCB or PCB-contaminated materials which are awaiting disposal shall be adequate to prevent PCB from leaving the container through spillage, leakage, or vaporization.

(2) PCB and PCB-contaminated materials shall be transported in either their original design housing or containers not exceeding 55-gallon capacity, unless approval for an alternative method is obtained in writing from the director or the designated representative of the director.

(3) All trucks or other vehicles specifically approved by the director for use as designated bulk PCB-transporting vehicles shall be permanently labeled on both sides of the vehicle in letters not less than 2 inches high with the words "DESIGNATED PCB TRANSPORTING VEHICLE."

(4) Equipment, such as pumps, hoses, and associated equipment, used for handling PCB materials shall not be used for handling other non-PCB materials unless approval for alternative uses is obtained in writing from the director or the designated representative of the director.

History: 1954 ACS 91, p. 32, Eff. Apr. 12, 1977.

R 299.3316 Reporting on disposal of PCB or PCB-contaminated materials.

Rule 16. (1) Information on disposal of PCB and PCB-contaminated materials shall be included in the annual reports required pursuant to sections 6 and 7 of the act. The annual reports shall include the quantities, physical state, composition, PCB concentration, carrier, method of transportation, final disposal site, and disposal method for all PCB and PCB-contaminated materials disposed of during the reporting period, in addition to other information required by sections 6 and 7 of the act.

(2) A manifest supplied by the department shall accompany all shipments of PCB or PCB-contaminated materials intended for disposal. The originator of the material shall supply descriptive information including quantity, physical state, composition, and PCB concentration in the material. The originator, carrier, and person ultimately responsible for disposal of the material shall sign the manifest, supply the company name and location, and retain a copy of the manifest. The original copy of the manifest shall be forwarded to the director within 30 days after all the above parties have signed it.

criteria established by the director or the designated representative of the director.

(2) PCB-contaminated materials which are not combustible materials shall be disposed of at a licensed landfill approved for PCB disposal, unless approval for an alternative method of disposal is obtained in writing from the director or the designated representative of the director. Such disposal shall be in accordance with the following:

(a) Approval of landfills for disposal of noncombustible PCB-contaminated materials shall be based on criteria established by the director or the designated representative of the director.

(b) Prior to disposal of noncombustible PCB-contaminated materials in an approved landfill, all liquid PCB which can reasonably be drained from the solids shall be so drained and disposed of in conformity with these rules, unless approval of an alternative method of disposal is obtained in writing from the director or the designated representative of the director.

History: 1954 ACS 91, p. 33, Eff. Apr. 12, 1977.

R 299.3318 Penalties.

Rule 18. A person who violates the act or these rules shall be subject to the provisions and penalties prescribed by section 9 of the act.

History: 1954 ACS 91, p. 33, Eff. Apr. 12, 1977.

R 299.3319 Reports on cost of conversion.

Rule 19. (1) A person subject to regulation under the act and actually converting from PCB to substitute compounds shall file a report on the total cost to that person of the conversion from PCB to substitute compounds. The annual conversion costs to be reported are those incremental changes in costs resulting from the conversion of PCB or a PCB-product that does not satisfy the standards set forth in the act and these rules to a substitute product that does satisfy the standards set forth in the act and these rules. These costs, expressed to the nearest thousand of dollars, include:

(a) Recurring incremental material costs.

(b) Recurring incremental labor costs which arise from changes in manpower levels, man hours, or skill levels.

(c) Research and development costs necessary to redesign PCB-products or develop substitutes for PCB.

(d) Nonrecurring costs of altering existing PCB or PCB-product production equipment.

(e) Nonrecurring costs, including financing costs, for additional equipment, building, land, or other property items necessary to convert existing PCB or PCB-product production facilities.

(f) All other significant conversion costs of a recurring or nonrecurring nature.

(2) Reports on cost of conversion shall be filed on or before January 1 of each year subsequent to the year in which actual costs of conversion were incurred.

RESOURCE RECOVERY COMMISSION

GENERAL RULES

(By authority conferred on the department of natural resources by sections 33 and 63 of Act No. 306 of the Public Acts of 1969, as amended, being §§24.233 and 24.263 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 299.5001 Purpose.

Rule 1. It is the purpose of these rules to establish policies and procedures of the resource recovery commission and the department of natural resources to implement the resource recovery act and prescribe the major functions of the commission and the department.

History: 1954 ACS 88, p. 59, Eff. June 23, 1976.

R 299.5002 Definitions.

Rule 2. (1) As used in these rules:

(a) "Commission" means the resource recovery commission of the department or its designated agent.

(b) "Department" means the department of natural resources.

(c) "Director" means the director of the department.

(d) "Environmental damage" means, in implementing the definition thereof in section 10 of the resource recovery act, a hazard or condition affecting the stable, natural environmental background of land, air, or the waters of the state.

(e) "Solid waste act" means Act No. 87 of the Public Acts of 1965, as amended, being §325.291 et seq. of the Michigan Compiled Laws.

(f) "Resource recovery act" means Act No. 366 of the Public Acts of 1974, being §299.301 et seq. of the Michigan Compiled Laws.

(g) "Waters of the state" means groundwaters, lakes, rivers and streams, and all other watercourses and waters within the confines of the state and also the Great Lakes bordering thereon.

(2) The terms defined in the resource recovery act shall have the same meaning when used in these rules.

History: 1954 ACS 88, p. 59, Eff. June 23, 1976.

PART 2. ORGANIZATION, OPERATIONS, AND PROCEDURES

R 299.5003 Commission; appointment and terms of members; vacancy; election of chairman and vice-chairman; quorum; transaction of business; executive director; legal services; recall of chairman or vice-chairman.

Rule 3. (1) The commission, created by the resource recovery act, consists of the director of the department of natural resources and the state treasurer, or their designated representatives, and 9 members, appointed by the governor who represent the general public, environmentally aware and concerned citizens, townships, cities, counties, and private enterprise engaged in solid waste management or resource recovery. Of the members first appointed, 4 shall be appointed for 1 year, 3 for 2 years, and 2 for 4 years. A vacancy occurring other than by the expiration of a term shall be filled in the same manner as the original appointment for the balance of the unexpired term.

(2) The commission shall be organized to provide for annual election from its membership of a chairman and a vice-chairman. Six members constitute a quorum. All business is transacted by motion, support, and majority vote of those present and voting, including the chairman and vice-chairman, except for specific situations as may be otherwise required by law. The chairman, with approval of the commission, appoints an employee of the environmental protection branch of the department to serve as executive director to the commission. The attorney general provides the commission with legal service.

(3) Upon a satisfactory showing of wrong doing, inefficiency, neglect of duties, or unethical conduct, the chairman or vice-chairman of the commisison may be

recalled from that respective elected office upon formal motion followed by a roll call vote with 8 members voting affirmatively therefor.

History: 1954 ACS 88, p. 59, Eff. June 23, 1976.

R 299.5004 Offices and meetings; schedule; agenda.

Rule 4. (1) The solid waste management division of the department shall maintain a central office in Lansing for the executive director.

(2) The commission shall meet at least once a month at various places in the state, either in or near Lansing, Michigan, or a pre-designated city elsewhere in the state. Each December, the commission shall post in the solid waste management division office for public inspection a schedule of its meeting dates and places for the calendar year. Changes in that schedule due to unforeseen circumstances shall be posted when established. Special additional meetings shall be held when necessary, with proper notification to directly affected persons, if any.

(3) The commission shall issue an agenda of each regular meeting at least 1 week before the meeting. It shall post a copy thereof in the solid waste management division office for public inspection, and copies are mailed to persons directly affected by matters thereon or to those requesting copies.

History: 1954 ACS 88, p. 60, Eff. June 23, 1976.

R 299.5005 Telephone votes or proxy votes prohibited; telephone poll; non-public discussions.

Rule 5. Business of the commission shall not be transacted except upon a vote publicly cast by the members of the commission who are present. Telephone votes or proxy votes shall not be permitted on any matter voted upon by the commission, except that a telephone poll of the time and location of meetings of the commission may be taken upon the discretion of the chairman.

History: 1954 ACS 88, p. 60, Eff. June 23, 1976.

R 299.5006 Availability of documents.

Rule 6. Documents of the commission shall be made available pursuant to part 6 of the general rules of the department entitled "Access to Documents," being R 299.3091 to R 299.3093 of the Michigan Administrative Code.

History: 1954 ACS 88, p. 60, Eff. June 23, 1976.

R 299.5007 Administration of resource recovery program.

Rule 7. The commission, pursuant to its authority as prescribed by the resource recovery act, shall administer a program that is designed to encourage, promote, and assist the development of resource recovery for solid waste throughout the state.

History: 1954 ACS 88, p. 60, Eff. June 23, 1976.

R 299.5008 Determination of unlawful pollution or environmental damage; proposed order and notice of hearing.

Rule 8. The commission may determine that a municipality is causing, or is about to cause, unlawful pollution or environmental damage, in which case, 2 years after the municipality has its solid waste management plan approved, the commission may develop a proposed order and notice of hearing, incorporating the proposed following actions when applicable:

(a) A specific finding of unlawful pollution or potential unlawful pollution.

(b) A specific finding of environmental damage or potential environmental damage.

(c) A specific finding establishing that a lack of reasonable progress to implement an approved solid waste plan has not been made.

(d) Identification of all other reasons for a commission determination.

(e) Specification of a date for a written response to the proposed order.

(f) Service of the municipality of the proposed order.

History: 1954 ACS 88, p. 60, Eff. June 23, 1976.

R 299.5009 Request for declaratory ruling.

Rule 9. Request for declaratory rulings from the commission shall be pursuant to R 299.3095 of the Michigan Administrative Code.

History: 1954 ACS 88, p. 60, Eff. June 23, 1976.

R 299.5010 Hearings and informal conferences; minutes; record; hearing officer; notices; orders.

Rule 10. (1) At its meetings, the commission may hold public hearings and statutory hearings as required by law, and hold informal conferences with persons who are requesting assistance, or who are aggrieved by an action of the commission or the department initiated under the act. The commission shall keep official minutes of all meetings, and shall record verbatim all hearings and conferences. The commission, under rules adopted by the department, may employ a hearing officer to hear contested cases and to prepare a record of the proceedings and proposal for a decision including findings of fact and conclusions of law.

(2) The commission shall issue notices of determination and hearing, and shall make orders of determination and final orders of determination, as provided by law.

History: 1954 ACS 88, p. 61, Eff. June 23, 1976.

PART 3. HEARINGS

R 299.5011 Procedures.

Rule 11. Section 11 of the resource recovery act describes the procedures for hearings and contested cases. All hearing and contested case procedures are also conducted pursuant to Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 88, p. 61, Eff. June 23, 1976.

R 299.5012 Service of notices and orders; appearances.

Rule 12. (1) Service of notices of determination and hearing, orders of determination, and final orders of determination shall be made by certified mail upon the parties named in proceedings.

(2) An appearance at a hearing or proceeding held pursuant to the resource recovery act shall be in person, by a duly authorized agent, or by counsel.

History: 1954 ACS 88, p. 61, Eff. June 23, 1976.

R 299.5013 Stipulation or consent order.

Rule 13. A person cited by the commission to appear at a hearing noticed pursuant to the resource recovery act, and who desires to dispose of the contested case by stipulation or consent order, may mail to the commission, not later than 10 days before the date set for hearing, his written consent to the terms and conditions of the proposed order or other form of action as set forth in the notice of determination and hearing. Agreement between the parties on the terms and conditions of a stipulation or consent order constitutes sufficient cause for the commission to dispose of the case without further hearing.

History: 1954 ACS 88, p. 61, Eff. June 23, 1976.

R 299.5014 Referral to hearing officer; duties of hearing officer; filing record of proceedings and proposal; copy of proposal.

Rule 14. That part of a hearing in a contested case in which testimony and evidence are to be taken may be referred to a hearing officer who shall be designated and authorized by the commission to preside at the hearing. The hearing officer shall hear the evidence and prepare a record of the proceedings and a proposal for a decision, including findings of fact and conclusions of law. The hearing officer may permit the hearing record to remain open to receive additional written testimony for a period not to exceed 2 weeks. The record of the proceedings and proposal for decision shall be filed with the commission as early as possible after completion of the hearing. A copy of the proposal for decision shall be transmitted to each member of the commission and shall be served by certified mail on all other parties to the proceedings.

History: 1954 ACS 88, p. 61, Eff. June 23, 1976.

R 299.5015 Inspection of files and records; files and records as evidence.

Rule 15. The files and records of the commission relative to the hearing specified in notices of determination and hearing, except those materials exempted by section 22 of Act No. 306 of the Public Acts of 1969, as amended, being §24.222 of the Michigan Compiled Laws, shall be available for inspection before or at hearings held by the commission or the hearing officer, and the whole or part thereof may be offered at a hearing as evidence on behalf of the commission.

History: 1954 ACS 88, p. 61, Eff. June 23, 1976.

R 299.5016 Commission hearing; time; briefs or exceptions; oral argument; final orders; findings.

Rule 16. (1) The commission shall hold a hearing not less than 4 weeks after receipt by the commission members of a hearing officer's report on the proposal for decision, and on such arguments thereon, exceptions thereto, or appeals therefrom as may be filed timely in writing by either party. To be considered at the hearing, written briefs or exceptions shall be received at the office of the executive director of the commission in Lansing not later than 2 weeks before the date set for hearing. An opportunity to present oral argument to the commission may be provided at the hearing noticed for that purpose.

(2) A certified copy of a final order of determination adopted in a contested case shall be prepared and served by certified mail on the contesting parties or their attorneys, together with the commission's finding containing a resume of the facts and grounds for decision.

(3) A final order of determination or decision of the commission following a hearing shall be conclusive unless reviewed in accordance with and subject to section 11(3) of the resource recovery act, being §299.311(3) of the Michigan Compiled Laws.

History: 1954 ACS 88, p. 61, Eff. June 23, 1976.

LAW ENFORCEMENT DIVISION

LOCAL HUNTING AND FIREARMS CONTROLS

(By authority conferred on the hunting area control committee and the commission of natural resources by sections 1, 2, and 3 of Act No. 159 of the Public Acts of 1967, and section 251 of Act No. 380 of the Public Acts of 1965, being §§317.332, 317.333, and 16.351 of the Michigan Compiled Laws)

Regulation No. 106, Arenac county.

R 317.106.1 Sims township, portion; hunting restricted.

Rule 1. Hunting with, or the discharge of, a rifle is unlawful within the following described area in Sims township, Arenac county, except at a target range recognized and approved by the township board: Beginning at a point where the north line of Sims township intersects with the Lake Huron shoreline, T19N, R7E; thence west on the township line to the centerline of U.S. 23; thence southwesterly on U.S. 23 to Tonkey road; thence south on Tonkey road as extended to the Lake Huron shoreline; thence northeasterly along the Lake Huron shoreline to the point of beginning.

History: 1954 ACS 93, p. 24, Eff. Dec. 8, 1977.

Regulation No. 108, Barry county.

R 317.108.1 Barry township, portion; hunting prohibited.

Rule 1. Hunting with, or the discharge of, a firearm is unlawful on the Delton W. K. Kellogg school property located in sections 5 and 6, T1N, R9W, Barry township, Barry county.

History: 1954 ACS 90, p. 10, Eff. Feb. 3, 1977.

Regulation No. 111, Berrien county.

R 317.111.1 Niles township, parts of southeast portion.

Rule 1. Hunting for any wild animal or wild bird with a firearm, pellet or BB gun, or bow and arrow, or the discharge of a firearm, pellet or BB gun or bow and arrow is prohibited in that part of Niles township, Berrien county, in town 8 south, range 17 west, except the east ½ of section 12, the east ½ of section 13, the northeast ¼ of section 24 and those parts of sections 15 and 22 east of the St. Joseph river.

History: 1954 ACS 63, p. 15, Eff. Aug. 14, 1970.

Regulation No. 120, Crawford county.

R 317.120.1 Grayling township, military reservation.

Rule 1. (1) A person may not hunt for any wild animal or wild bird with a firearm or bow and arrow or discharge a firearm or bow and arrow on those parcels of land located in T26N, R4W, Grayling township, Crawford county, and within the Camp Grayling military reservation and described as follows:

(a) The northwest ¼ of the southeast ¼ of section 22.
(b) The northeast ¼ of the southwest ¼ of section 22.
(c) The north ½ of the northeast ¼ of section 28.
(d) The northeast ¼ of section 33.
(e) The southwest ¼ of the northwest ¼ of section 34.

(2) This rule shall not apply to law enforcement officers or military personnel discharging firearms while in the performance of their official duties.

History: 1954 ACS 71, p. 23, Eff. Apr. 22, 1972.

R 317.120.2 Frederic township, portion of section 25; hunting prohibited.

Rule 2. Hunting with or the discharge of a firearm is unlawful in the southeast ¼ and the east ½ of the southwest ¼ of section 25, T27N, R4W, of Frederic township, Crawford county.

History: 1954 ACS 82, p. 12, Eff. Jan. 8, 1975.

R 317.120.3 Lovells township, sections 18, 19, and portions of sections 13 and 24; hunting with, or the discharge of, rifles prohibited.

Rule 3. Hunting with, or the discharge of, a rifle is unlawful within the following described areas in Lovells township, Crawford county: All of sections 18 and 19, T28N, R1W, and those portions of sections 13 and 24, T28N, R2W, located east of Twin Bridges road.

History: 1954 ACS 97, p. 17, Eff. Sept. 22, 1978.

Regulation No. 123, Eaton county.

R 317.123.1 Delta township, portion east of interstate highway 96; hunting restricted.

Rule 1. Hunting with, or the discharge of, a firearm other than a shotgun loaded with shot not larger than no. 2 is unlawful in that portion of Delta township, Eaton county, located east of interstate highway 96 (I-96), except at a target range recognized and approved by the township board.

History: 1954 ACS 86, p. 46, Eff. Feb. 7, 1976.

R 317.123.2 Delta township, Waverly school district sites; hunting prohibited.

Rule 2. Hunting with, or the discharge of, any firearm is unlawful within 150 yards of properties belonging to and under the control of the Waverly school district, Delta township, Eaton county, described as: the Administration building site located in the SW ¼ of section 25, T4N, R3W; the Campus and Colt sites located in sections 13 and 14, T4N, R3W; the Elmwood site located in section 11, T4N, R3W; and the Bretton Woods site located in section 12, T4N, R3W.

History: 1954 ACS 86, p. 46, Eff. Feb. 7, 1976.

Regulation No. 124, Emmet county.

R 317.124.1 Bear Creek township; portion; hunting prohibited.

Rule 1. Hunting with, or the discharge of, a rifle is unlawful in those parts of sections 3, 4, and 5, T34N, R5W, and sections 22, 27, 32, 33, 34, and 35, T35N, R5W, Bear Creek township, Emmet county, described as follows: Beginning at a point where the east city limits of the city of Petoskey intersects with Mitchell road; thence east on Mitchell road to Alcan road; thence north on Alcan road to Country Club road; thence east on Country Club road to Kolinski road; thence north on Kolinski road to Pickerel Lake road; thence west on Pickerel Lake road to U.S. highway 31; thence northeasterly on U.S. highway 31 to Shaw road; thence north on Shaw road, as extended across Round lake to Powell road; thence west on Powell road, as extended to the shore of Little Traverse bay; thence south and westerly along the shore of Little Traverse bay to the east city limits of the city of Petoskey; thence south on the east city limits of the city of Petoskey to the point of beginning, except at a target range recognized and approved by the township board.

History: 1954 ACS 89, p. 16, Eff. Dec. 2, 1976.

Regulation No. 125, Genesee county.

R 317.125.1 Fenton township.

Rule 1. Hunting for any wild animal or wild bird with a firearm, or the discharge of a firearm, is prohibited in a part of Fenton township described as that part of section 2 lying south of North Long Lake road and Wiggins road, all of section 11, that part of section 12 lying south of North Long Lake road and west of Fenton road, that part of section 13 lying west of Fenton road, all of section 14.

Regulation No. 181, Washtenaw county.

R 317.181.1 Pittsfield township, Washtenaw county.

Rule 1. Hunting for a wild animal or wild bird with a firearm or bow and arrow or the discharge of a firearm or bow and arrow is prohibited within the following described area in Pittsfield township, Washtenaw county: Beginning in the northeast corner of section 1, T3S, R6E; thence southerly on the east township line to the intersection with interstate 94; thence westerly to the intersection of interstate 94 and the centerline of Ellsworth road; thence westerly on the centerline of Ellsworth road to the centerline of Lohr road; thence northerly on the centerline of Lohr road to interstate 94; thence northwesterly to the north township line of Pittsfield township in section 6, T3S, R6E; thence easterly on the north township line and continuing easterly to the point of beginning. Excepted from the above described area are all lands situated within the corporate limits of the city of Ann Arbor. This rule shall not apply to the discharge of firearms at target ranges under permit as may be authorized by the local unit of government.

History: 1954 ACS 79, p. 40, Eff. Apr. 11, 1974.

R 317.181.2 Superior township, portion; hunting prohibited.

Rule 2. Hunting with, or the discharge of, a firearm is unlawful in the south ½ of section 7, bounded on the north by state highway 14, and in sections 18, 19, 29, 30, 31, 32, 34, 35, and 36, T2S, R7E, Superior township, Washtenaw county.

History: 1954 ACS 90, p. 10, Eff. Feb. 24, 1977.

R 317.181.3 Superior township, portion; hunting restricted.

Rule 3. Hunting with, or the discharge of, a firearm, other than a shotgun loaded with shot not larger than no. 2, is unlawful in sections 5, 8, 9, 25, and 33, T2S, R7E, Superior township, Washtenaw county.

History: 1954 ACS 90, p. 10, Eff. Feb. 24, 1977.

R 317.181.4 Superior township, section 17; hunting with a rifle prohibited.

Rule 4. Hunting with, or the discharge of, a rifle is unlawful in section 17, T2S, R7E, Superior township, Washtenaw county.

History: 1954 ACS 90, p. 10, Eff. Feb. 24, 1977.

Regulation No. 182, Wayne county.

R 317.182.1 Plymouth township, part east of Beck road.

Rule 1. Hunting for any wild animal or wild bird with a firearm, pellet gun, BB gun or a bow and arrow, or the discharge of a firearm, pellet gun, BB gun or bow and arrow is prohibited in that part of Plymouth township, Wayne county, east of the west boundary of Beck road. A resident may target practice with a bow and arrow on premises where he is regularly domiciled.

History: 1954 ACS 63, p. 16, Eff. Aug. 14, 1970.

R 317.182.2 Canton township, part of section 6; hunting prohibited.

Rule 2. Hunting with, or the discharge of, a firearm, except at a target range recognized and approved by the township board, is unlawful in the south ½ of section 6, T2S, R8E.

History: 1954 ACS 81, p. 27, Eff. Nov. 15, 1974.

R 317.182.3 Canton township, section 4; hunting prohibited.

Rule 3. Hunting with, or the discharge of, a firearm, except at a target range recognized and approved by the township board, is unlawful in section 4, T2S,

PART 1. DEFINITIONS

R 318.111 Person.

Rule 1. "Person" as used in these rules shall mean person, firm, copartnership, or corporation.

History: 1954 ACS 23, p. 19, Eff. Aug. 12, 1960.

R 318.112 Road.

Rule 2. "Road" shall mean any thoroughfare, roadway, riding trail, or driving trail that is situated on lands that are under the jurisdiction of this commission.

History: 1954 ACS 23, p. 19, Eff. Aug. 12, 1960.

R 318.113 Commission.

Rule 3. "Commission" shall mean the Mackinac Island state park commission.

History: 1954 ACS 23, p. 19, Eff. Aug. 12, 1960.

R 318.114 Carrying passengers for hire.

Rule 4. "Carrying passengers for hire" shall mean the acts of any person transporting passengers to any point or points on the road or roads, as defined in R 318.112, for a specified monetary consideration, or acts of accepting gratuities for said purposes.

History: 1954 ACS 23, p. 19, Eff. Aug. 12, 1960.

R 318.115 Sight-seeing carriages.

Rule 5. "Sight-seeing carriages" shall mean horse-drawn vehicles which carry passengers for hire over prescribed routes established by the commission.

History: 1954 ACS 23, p. 19, Eff. Aug. 12, 1960.

R 318.116 Taxicab.

Rule 6. "Taxicab" shall mean any horse-drawn vehicle carrying passengers for hire from one point on the island to another.

History: 1954 ACS 23, p. 19, Eff. Aug. 12, 1960.

R 318.117 Drive yourself carriage.

Rule 7. "Drive yourself carriage" shall mean any horse-drawn vehicle for hire which is rented to another person or persons without the services of a driver being employed, engaged, provided, or suggested by the owner or operator of such carriage.

History: 1954 ACS 23, p. 19, Eff. Aug. 12, 1960.

R 318.118 Livery carriage.

Rule 8. "Livery carriage" shall mean any horse-drawn vehicle for hire transporting passengers for scenic drives charging on a time basis; that is, by the hour or fractions or multiples thereof, and not at a fixed price per passenger.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960.

R 318.119 Fort Mackinac bus.

Rule 9. "Fort Mackinac bus" shall mean any horse-drawn vehicle operated by Mackinac Island carriage tours, inc., a Michigan corporation, for transportation of passengers only from the downtown area directly to Fort Mackinac and return.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960.

R 318.119a Hotel bus.

Rule 9a. "Hotel bus" shall mean a horse drawn vehicle licensed to a specific hotel operating over the roads of the Mackinac Island state park, and

(a) Carries hotel passengers or their guests for a charge as approved by the Mackinac Island state park commission.

(b) Operates on a fixed route or routes as designated by the Mackinac Island state park commission.

(c) Makes infrequent deviations from the designated route or routes for the convenience of hotel guests or their party.

History: 1954 ACS 33, p. 11, Eff. Feb. 14, 1963.

R 318.119b Rental bicycle.

Rule 9b. "Rental bicycle" means a bicycle furnished to a visitor or resident for use in Mackinac Island state park at a rental fee, whether that fee is separately identified or included in other charges, such as room rentals, either explicitly or implicitly.

History: 1954 ACS 77, p. 13, Eff. Dec. 13, 1973.

R 318.119c Snowmobile.

Rule 9c. "Snowmobile" means a motor driven vehicle designed for travel primarily on snow or ice of a type which utilizes sled type runners or skis, or an endless belt tread or any combination of these or other similar means of contact with the surface upon which it is operated. It is not a vehicle which must be registered under Act No. 300 of the Public Acts of 1949, as amended, being §§257.1 to 257.923 of the Michigan Compiled Laws.

History: 1954 ACS 77, p. 13, Eff. Dec. 13, 1973.

R 318.119d Saddle horse.

Rule 19d. "Saddle horse" means a riding horse furnished to a visitor or resident for use in Mackinac Island state park at a rental fee, whether that fee is separately identified or included in other charges, such as room rentals, either explicitly or implicitly, for a period of time less than 1 week.

History: 1954 ACS 99, p. 40, Eff. May 22, 1979.

R 318.120 Drays.

Rule 20. "Drays" shall mean a horse-drawn vehicle used in the transportation of property, goods, and merchandise, either belonging to the owner of such dray or to others with or without charge, whether such charge be by single fee or established by contract.

History: 1954 ACS 33, p. 11, Eff. Feb. 14, 1963.

PART 2. REGULATIONS

R 318.121 License fee required.

Rule 21. A person shall not operate any horse-drawn vehicle carrying passengers for hire over the roads until he has been granted permission by the commission or its agent in writing and has paid an annual fee to the state as determined by the commission.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960; 1954 ACS 99, p. 40, Eff. May 22, 1979.

R 318.122 Temporary permits.

Rule 22. (1) A person shall not operate a vehicle capable of being self-propelled or mechanically driven over the roads or within the park without written permission of the commission or its duly authorized agent. The commission, or its duly authorized agent, shall issue a temporary permit for the operation of motor-driven vehicles over the roads for such emergency or public and private work as the commission shall prescribe and approve. An application for a temporary permit shall be submitted in writing to the commission or its duly authorized agent and shall set forth fully the reasons for the request and the period of the permit. The commission has authority to require property damage and public liability insurance of any applicant in an amount sufficient, in its judgment, for adequate protection of persons and property. The superintendent shall keep a written record of all permits issued, and the commission reserves the right to revoke any permit so issued at any time, giving notice in writing to the permit holder and setting forth the reasons for the revocation.

(2) The state of Michigan or any political subdivision thereof may be permitted to operate its emergency and utility vehicles over the Mackinac Island state park roads in the normal performance of its governmental functions.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960; 1954 ACS 24, p. 8, Eff. Nov. 12, 1960; 1954 ACS 99, p. 40, Eff. May 22, 1979.

R 318.122a Hotel bus permit.

Rule 22a. Any hotel operating on Mackinac Island may apply for and be granted a permit after the payment of a fee of $1.00 to operate a hotel bus provided the Mackinac Island state park commission shall find:

(a) That the application is made by the hotel owner and the bus is to be owned and operated by such hotel owner for the convenience of hotel guests and those accompanying them.

(b) That the location of the hotel is such that it is necessary to provide transportation for guests to and from the docks.

(c) That the number of guests lodging at such hotel is such that they cannot be conveniently served at all times by taxicabs.

History: 1954 ACS 33, p. 11, Eff. Feb. 14, 1963.

R 318.122b Dray permits.

Rule 22b. All drays operating within the Mackinac Island state park shall have a permit issued by the commission, and maximum rates may be set by the commission.

History: 1954 ACS 33, p. 11, Eff. Feb. 14, 1963; 1954 ACS 99, p. 41, Eff. May 22, 1979.

R 318.123 Applications for permits.

Rule 23. An application for the right to operate a horse-drawn vehicle for hire or saddle horse for hire shall be made to the commission in writing at its Mackinac Island office.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960; 1954 ACS 99, p. 41, Eff. May 22, 1979.

R 318.124 Identification plates.

Rule 24. A person shall not operate a horse-drawn vehicle carrying passengers for hire unless his carriage or carriages are equipped with a "state permit" identification plate which shall be furnished by the commission and which shall continue to be the property of the state of Michigan.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960; 1954 ACS 99, p. 41, Eff. May 22, 1979.

R 318.125 Routes; solicitation; services.

Rule 25. Before the beginning of each summer season, the commission shall prescribe the routes, the manner and place of passenger solicitation, and types of services to be offered by each vehicle classification.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960.

R 318.126 Classes of permits.

Rule 26. The commission shall by rule determine each class of permit.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960.

R 318.127 Violation of rules.

Rule 27. Any person violating provision of any of these rules or other conditions of the contract may have his license revoked and his right to drive any vehicle may be suspended.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960.

R 318.128 Fares and charges.

Rule 28. Before the beginning of each summer season, the commission shall, by resolution, prescribe the maximum fares of any kind and maximum authorized fees to be charged by operators of any and all licensed vehicles.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960; 1954 ACS 99, p. 41, Eff. May 22, 1979.

R 318.129 Nontransferability of state permit.

Rule 29. The "state permit" issued by the commission shall be securely and conspicuously attached to each vehicle and shall not be transferable to any other vehicle except with consent of the commission or its authorized agent.

History: 1954 ACS 23, p. 20, Eff. Aug. 12, 1960.

R 318.130 Inspection of vehicles and horses.

Rule 30. Each vehicle licensed and the horses used to draw the vehicle shall be subject to inspection by the commission or its authorized agent at any time within the discretion of the commission. Inspection shall be made for the purpose of assuring safely constructed vehicles and properly conditioned horses. The commission shall prohibit the use of any vehicle which, in its judgment, is unsafe and any horses which, in its judgment or the judgment of its duly authorized agent, are not properly safe and conditioned for the work for which the horses are being used.

History: 1954 ACS 23, p. 21, Eff. Aug. 12, 1960.

R 318.131 Operators.

Rule 31. No person shall be permitted to operate any horse-drawn vehicle carrying passengers for hire who, in the judgment of the commission or its duly authorized agent, is not competent to handle horses humanely and safely, or whose personal conduct is such as to endanger public safety or persons and/or property.

History: 1954 ACS 23, p. 21, Eff. Aug. 12, 1960.

R 318.132 Public liability and property damage insurance.

Rule 32. The commission shall require every carriage and/or its owner to carry public liability insurance against loss of life or injury or property damage in an amount to be determined by the commission at the commencement of each

summer season. The summer season shall be defined as the months of May, June, July, August, September, and October. Any person engaged in either sight-seeing service or taxicab service during the months of November, December, January, February, March and April shall carry similar liability insurance on the carriages that are being operated during that period.

History: 1954 ACS 23, p. 21, Eff. Aug. 12, 1960.

R 318.133 Conduct of permittee's employees.

Rule 33. Any person permitted to operate vehicles under these rules shall be responsible for the conduct of his employees.

History: 1954 ACS 23, p. 21, Eff. Aug. 12, 1960.

R 318.134 Contracts with permittees.

Rule 34. The commission shall annually enter into contracts with permittees for the purpose of prescribing conditions of operation.

History: 1954 ACS 23, p. 21, Eff. Aug. 12, 1960.

R 318.135 Injunction.

Rule 35. The superintendent upon instructions from the commission or any member thereof shall, with the approval of the attorney general, apply to the circuit court of Mackinac county for injunctive relief against any person wilfully violating these rules.

History: 1954 ACS 23, p. 21, Eff. Aug. 12, 1960.

R 318.136 Number of carriage permits.

Rule 36. The commission will issue, on or before June 1 of each year, the following maximum number of annual permits for carriages-for-hire:

(a) Sight seeing carriages ..... 55 permits
(b) Taxicabs ..... 15 permits
(c) Drive-yourself carriages ..... 18 permits
(d) Livery carriages ..... 7 permits

History: 1954 ACS 24, p. 8, Eff. Nov. 12, 1960; 1954 ACS 77, p. 14, Eff. Dec. 13, 1973.

R 318.141 Scope and definitions.

Rule 41. (1) These rules govern the use of and occupancy of the Mackinac Island state park and the Michilimackinac state park.

(2) "Proper permission," as used in R 318.42 to R 318.45, means a written permit authorized by the Mackinac Island state park commission and issued by its director or authorized representative.

History: 1954 ACS 59, p. 34, Eff. Aug. 14, 1969.

R 318.142 Signs, fences, improvements, and posted lands.

Rule 42. (1) It is unlawful to post, place, or erect signs, place or distribute advertising material, erect a fence or barrier, construct or occupy improvements, or enclose state-owned lands, without proper permission.

(2) It is unlawful to move, remove, destroy, mutilate, or deface posters, notices, signs, or markers of the Mackinac Island state park commission or of any other agency of government.

(3) It is unlawful to enter, use, or occupy park lands for any purpose when they are posted against such entry, use, or occupancy, as ordered by the Mackinac Island state park commission.

History: 1954 ACS 59, p. 34, Eff. Aug. 14, 1969.

R 318.143 Camping and hunting.

Rule 43. (1) It is unlawful to camp within the Mackinac Island state park or Michilimackinac state park.

(2) It is unlawful to hunt in Mackinac Island state park or Michilimackinac state park. It is unlawful to carry or have in possession a firearm without proper permission, unless unloaded in both barrel and magazine, to shoot an air rifle or air pistol or slingshot, and to shoot with bow and arrow.

History: 1954 ACS 59, p. 34, Eff. Aug. 14, 1969; 1954 ACS 99, p. 41, Eff. May 22, 1979.

R 318.144 Refuse and fires.

Rule 44. (1) It is unlawful to use park lands or facilities as a place to dispose of refuse, rubbish, trash, garbage, or other litter. This does not apply to refuse or garbage, resulting from legal uses of park lands, which shall be placed in proper receptacles or buried under supervision of the director.

(2) It is unlawful to build fires except in designated places or in stoves or grills as approved by an authorized representative of the Mackinac Island state park commission.

History: 1954 ACS 59, p. 35, Eff. Aug. 14, 1969.

R 318.145 Vehicles and animals.

Rule 45. (1) It is unlawful to operate a self-propelled motor or mechanically driven vehicle within the Mackinac Island state park without proper permission pursuant to R 318.22.

(2) It is unlawful to ride or lead a horse, other riding animal, or pack animal on, or to allow such animal or any animal-drawn vehicle to use or travel on, any areas deemed unsafe for such use by order of the Mackinac Island state park commission and posted against such use.

(3) It is unlawful to possess a dog unless it is under immediate control, or to have a dog within any area used as a bathing beach. Any dog found not in the possession or under the immediate control of its owner or the owner's agent, or any dog found creating a nuisance or disturbance, may be removed from the park or placed under restraint.

History: 1954 ACS 59, p. 35, Eff. Aug. 14, 1969; 1954 ACS 77, p. 14, Eff. Dec. 13, 1973; 1954 ACS 99, p. 41, Eff. May 22, 1979

R 318.145a Rental bicycle licenses.

Rule 45a. (1) The commission, upon receipt of proper application, shall issue on or before June 10 of each year annual licenses for not more than 845 rental bicycles for use in Mackinac Island state park.

(2) Licenses are nontransferable and shall be surrendered to the issuing authority upon demand if any transfer is attempted or if ownership of the licensed business is changed or altered in any way.

(3) Prior to June 10 of each year, the commission shall establish the license fees and terms and conditions under which rental bicycles may be supplied for use in the state park.

(4) A person shall not provide a rental bicycle for use in the Mackinac Island state park without a valid license prominently affixed thereto.

History: 1954 ACS 77, p. 14, Eff. Dec. 13, 1973.

R 318.145b Saddle horse licenses.

Rule 45b. (1) The commission, upon receipt of proper application, may issue, on or before June 10 of each year, annual licenses for such number of saddle

horses for use in Mackinac Island state park as may be needed in the interest of public safety and proper service to the public.

(2) Licenses are nontransferable and shall be surrendered to the issuing authority upon demand if any transfer is attempted or if ownership of the licensed business or its location is changed or altered in any way.

(3) Prior to June 10 of each year, the commission shall establish the license fees, terms, and conditions, including the maximum rates per hour charged, under which saddle horses may be supplied for use in the state park.

History: 1954 ACS 99, p. 41, Eff. May 22, 1979.

R 318.146 Miscellaneous unlawful acts.

Rule 46. (1) It is unlawful to destroy, damage, or remove any state property, any living tree or shrub, planted grasses, or other vegetation without proper permission.

(2) It is unlawful to use state park lands for commercial purposes without proper permission. In considering whether or not permission shall be granted, the following shall be considered: interference with the safety, health, and welfare of the public; need for the service; and whether the service is a duplication of available services.

(3) It is unlawful to use a loudspeaker or public address system without proper permission. Permission shall not be granted if such system is capable of interfering with horse-drawn traffic by having the effect of frightening horses, thereby endangering the safety of passengers in such vehicles, pedestrians, bicycle riders, and others.

(4) It is unlawful to change clothing in toilet buildings or motor vehicles.

(5) It is unlawful to store or leave a boat, fish shanty, camping equipment, or other property without proper permission. Permission shall be granted by the commission or duly authorized agent, unless the storing or leaving constitutes an eyesore or a hazard to the traffic and the public.

(6) It is unlawful to enter those buildings or areas to which an admission fee is established without payment of the fee or permission given by the commission, a commissioner, the superintendent, or assistant superintendent under order of the commission. Permission normally is to be given only to persons on business with the commission, any member of the commission, or any duly authorized staff member.

(7) It is unlawful for any lessee, licensee, or concessionaire to use, construct, or occupy any building within the park not furnished with an approved dry chemical fire extinguisher. This subrule shall become effective 90 days after filing with the secretary of state.

(8) It is unlawful for any lessee, licensee, or concessionaire to exercise his privileges within the park without procuring and keeping in effect such public liability and property damage insurance as the commission may deem adequate.

History: 1954 ACS 59, p. 35, Eff. Aug. 14, 1969; 1954 ACS 99, p. 42, Eff. May 22, 1979.

R 318.147 Penalties.

Rule 47. Violation of any rule or failure to perform any act set forth in R 318.21 to R 318.34, R 318.36, or R 318.42 to R 318.46 is punishable by a fine of not more than $50.00 and costs of prosecution or by imprisonment in the county jail for not more than 60 days, or by both.

History: 1954 ACS 59, p. 35, Eff. Aug. 14, 1969; 1954 ACS 99, p. 42, Eff. May 22, 1979.

NATURAL RESOURCES COMMISSION

WILDERNESS AND NATURAL AREAS

(By authority conferred on the natural resources commission by section 4 of Act No. 241 of the Public Acts of 1972, being §§322.754 of the Michigan Compiled Laws)

Regulation No. 2, Alger county.

R 322.2.1 Wagner Falls scenic site.

Rule 1. The following described area is proposed for rededication as a natural area under the designation of the Wagner Falls scenic site: That part of NE¼ of NW¼ Sec. 14 lying S'ly of highway M-94, 13.59 acres; that part of N½ of N½ of SW¼ of NE¼ Sec. 14 lying SW'ly of highway M-28, 5.5 acres; and all that land situated in the NW¼ of NE¼ Sec. 14, as follows: From the one-quarter corner common to Secs. 11 and 14, 560 feet S to the right-of-way line of highway M-28 which is the point of beginning; thence S on N and S one-quarter line of Sec. 14 for a distance of 760 feet to one-eighth corner; thence E'ly on N one-eighth line of Sec. 14 for a distance of 618 feet to right-of-way line of highway M-28, thence NW'ly along said right-of-way line to point of beginning, 3.53 acres; T46N, R19W, Munising township, Alger county, covering entire Wagner Falls state scenic site. Total 22.62 acres.

History: 1954 ACS 87, p. 22, Eff. May 26, 1976.

R 322.2.2 Laughing Whitefish Falls scenic site.

Rule 2. The following described area is proposed for rededication pursuant to Act No. 241 of the Public Acts of 1972, being §322.751 et seq. of the Michigan Compiled Laws, as a natural area under the designation of the Laughing Whitefish Falls scenic site: W½ and NW¼ of NE¼ Sec. 16, T46N, R22W, Rock River township, Alger county. Total 360 acres.

History: 1954 ACS 87, p. 22, Eff. May 26, 1976.

Regulation No. 11, Berrien county.

R 322.11.1 Warren Dunes nature study area.

Rule 1. The following described area is dedicated as a natural area under the designation of Warren Dunes nature study area: All the state-owned and state-leased lands in section 25, described as: W 25 acres of N½ of NE¼ except 3 acres lying N of private road; W 60 acres of N½ of SW¼; S½ of SW¼ lying W of Red Arrow highway (former US-12); and section 26, entire frl.; T6S, R20W, Lake township, Berrien county. Total 488.41 acres.

History: 1954 ACS 87, p. 23, Eff. May 26, 1976.

R 322.11.2 Warren Woods nature study area.

Rule 2. The following described area is dedicated as a natural area under the designation of Warren Woods nature study area: W½ of section 27, lying S of Warren Woods road, and N of a line 1,909 feet N of and parallel to Townline road, T7S, R20W, Chikaming township, Berrien county, administered as part of Warren Dunes state park. Total 179 acres, more or less.

History: 1954 ACS 87, p. 23, Eff. May 26, 1976.

Regulation No. 27, Gogebic county.

R 322.27.1 Presque Isle river scenic site.

Rule 1. The following described area in the Porcupine mountains wilderness state park is rededicated as a natural area under the designation of the Presque Isle river scenic site: That part of section 4 lying W'ly of a line 100 feet E'ly of the E bank of the Presque Isle river; and that part of section 5 lying E'ly of the Presque Isle river road: T49N, R45W. That part of section 19 lying E'ly of the Presque Isle river road as extended to Lake Superior; that part of section 20 lying W'ly of a line ¼ mile E'ly of the outside bends of the Presque Isle river; that part of section 29 lying W'ly of a line ¼ mile E'ly of the outside bends of the Presque Isle river and N'ly of a line 200 feet N of the South Boundary road; that part of sections 30 & 31 lying E'ly of the Presque Isle river road, except 200 feet either side of the centerline of the South Boundary road; and that part of section 32 lying E'ly of the Presque Isle river road and W'ly of a line 100 feet E of the E bank of the Presque Isle river, T50N, R45W, Wakefield township, Gogebic county. Total scenic site area 1,465 acres.

History: 1954 ACS 87, p. 23, Eff. May 28, 1976.

R 322.27.2 Porcupine mountains wilderness area.

Rule 2. The following described area in the Porcupine mountains wilderness state park is rededicated as a wilderness area under the designation of the Porcupine mountains wilderness area: That part of section 4, lying E of a line ¼ mile E'ly of the outside bends of the Presque Isle river, T49N, R45W. Entire sections 1, 2, 10, 11 & 12; that part of sections 13, 14, 15, 16, 21 & 24 lying N of a line 200 feet N'ly of the South Boundary road; that part of section 20 lying N of a line 200 feet N'ly of the South Boundary road and E of a line ¼ mile E'ly of the outside bends of the Presque Isle river; that part of section 29 lying N of a line 200 feet N'ly of the South Boundary road and S of a line 200 feet S'ly of the South Boundary road and E of a line ¼ mile E'ly of the outside bends of the Presque Isle river; that part of Sec. 32 lying E of a line ¼ mile E'ly of the outside bends of the Presque Isle river; and section 33, S ½; including existing cabins and shelters as nonconforming uses; T50N, R45W, Wakefield township, Gogebic county. Total area in Gogebic county; 5,798.40 acres. Total wilderness area, Gogebic and Ontonagon counties combined, 40,808 acres, more or less. See R 322.66.1 for that portion of the Porcupine mountains wilderness area which lies in Ontonagon county.

History: 1954 ACS 87, p. 23, Eff. May 28, 1976.

Regulation No. 38, Jackson county.

R 322.38.1 Black Spruce Bog.

Rule 1. The following described area is dedicated as a natural area under the designation of the Black Spruce Bog nature study area: SW¼ of NE¼ section 16, T1S, R2E, Waterloo township, Jackson county. Total 40 acres.

History: 1954 ACS 87, p. 23, Eff. May 28, 1976.

Regulation No. 49, Mackinac county.

R 322.49.1 Mixed Forest natural area, Bois Blanc island.

Rule 1. The following described area is dedicated as a natural area under the designation of the Mixed Forest nature study area: Section 6, entire, except the N 1,000 feet; section 7, lots 1, 2, and 3, and all that part of lots 4 to 8 lying E'ly of the McCrea road, including Bob-Lo drive and Baseline road as nonconforming uses, township of Bois Blanc, Mackinac county. Total: 968 acres, more or less.

History: 1954 ACS 94, p. 24, Eff. Jan. 10, 1978.

R 322.49.2 Snake Island-Mud Lake natural area, Bois Blanc island.

Rule 2. The following described area is dedicated as a natural area under the designation of Snake Island-Mud Lake nature study area: Section 26, lots 1, 2, and 3, except land commencing at section line between sections 25 and 26 on bank of Lake Huron, thence W'ly on section line 20 rods, S 21 degrees W 10 rods, thence S 79 degrees E to lake, thence N'ly along lake to point of beginning; and excepting Bob-Lo drive; township of Bois Blanc, Mackinac county. Total: 244.41 acres.

History: 1954 ACS 94, p. 24, Eff. Jan. 10, 1978.

R 322.49.3 Northshore natural area, Bois Blanc island.

Rule 3. The following described area is dedicated as a natural area under the designation of the Northshore research natural area: Section 5, lots 2 to 9, and the N 1,000 feet of section 6, including the road to Lighthouse point and Bob-Lo drive as a nonconforming use, township of Bois Blanc, Mackinac county. Total: 817.41 acres.

History: 1954 ACS 94, p. 24, Eff. Jan. 10, 1978.

R 322.49.4 Little Brevort Lake scenic site.

Rule 4. The following described area in the Mackinac state forest is dedicated as a natural area under the designation of Little Brevort Lake scenic site: southwest ¼ of northeast ¼, southeast ¼ of northwest ¼, northeast ¼ of southwest ¼ lying northerly of Edison Sault electric transmission line, government lots 1, 2, and 3 lying northerly of transmission line, southwest ¼ of southeast ¼ lying northerly of transmission line of section 23; government lots 1, 3, 4, and 5, government lot 2, except north 660 feet of section 24; north ½ of northeast ¼ lying westerly of Edison Sault electric distribution line, north ½ of northwest ¼ lying northerly of transmission line of section 25; T42N, R6W. Total of 542.40 acres.

History: 1954 ACS 99, p. 42, Eff. June 16, 1979.

Regulation No. 50, Macomb county.

R 322.50.1 Shadbush Tract nature study area.

Rule 1. The following described area is dedicated as a natural area under the designation of the Shadbush Tract nature study area: All that part of NW¼ of NE¼ and N½ of NW¼, section 29, lying W'ly of the Clinton river and N of a line 400 feet N of Hamlin road, T3N, R12E, Shelby township, Macomb county. Total approximately 70 acres.

History: 1954 ACS 87, p. 23, Eff. May 26, 1976.

Regulation No. 61, Muskegon county.

R 322.61.1 Hoffmaster wild area.

Rule 1. The following described area in the Hoffmaster state park is dedicated as a natural area under the designation of Hoffmaster wild area: T9N, R17W: section 36, part of northeast ¼ of the southeast ¼ and government lots 3 and 4 described as beginning at the southeast corner of section 36, thence north 24 degrees west 2,715 feet, thence westerly 1,925 feet, more or less, to Lake Michigan, thence southeasterly along the shoreline to the south line of section 36, thence easterly to the point of beginning. The total area in Muskegon county is 106 acres, more or less.

History: 1954 ACS 101, p. 29, Eff. Dec. 14, 1979.

Regulation No. 63, Oakland county.

R 322.63.1 Proud Lake nature study area.

Rule 1. The following described area is dedicated as a natural area under the designation of the Proud Lake nature study area: The state-owned land in the W½ of section 21, T2N, R8E, Oakland county, lying north of Glengary road, comprising the S½ of NE¼ of NW¼, 20 acres; that part of the south 44 acres of the W½ of NW¼ lying east of creek, 19 acres; SE¼ of NW¼, 40 acres; and that part of the N½ of SW¼ lying north of Glengary road, 26 acres. Total 105 acres.

History: 1954 ACS 80, p. 14, Eff. Sept. 17, 1974.

R 322.63.2 Haven Hill natural area.

Rule 2. The following described area in the Highland state recreation area is dedicated as a natural area under the designation of Haven Hill natural area: T3N, R7E: section 24, east ½, except west 650 feet of north 300 feet and east 400 feet of south 700 feet lying south of M-59. T3N, R8E: section 19, north ½ lying south of M-59 and lying west of park entrance road, except a parcel 400 feet wide lying north of entrance road between old and new M-59, north ½ of southwest ¼, southwest ¼ of southwest ¼, except south 460 feet of west 400 feet, north ½ of southeast ¼ lying north and west of park entrance road; section 30, northwest ¼ of northwest ¼ lying north of road. The total area in Oakland county is 721.12 acres.

History: 1954 ACS 99, p. 43, Eff. May 8, 1979.

Regulation No. 66, Ontonagon county.

R 322.66.1 Porcupine mountains wilderness area.

Rule 1. The following described area in the Porcupine mountains wilderness state park is rededicated as a wilderness area under the designation of the Porcupine mountains wilderness area: Sections 5 & 16, entire; T50N, R43W. Sections 1 to 10, entire; sections 11 & 12, entire except those lands lying 200 feet on either side of the centerline of Summit Peak road; sections 14 to 18, entire; that part of sections 19 to 22, lying N'ly of a line 200 feet N of the South Boundary road; including existing shelters and cabins as nonconforming uses, T50N, R44W. Section 7, entire; section 18, entire except those lands lying 200 feet either side of highway M-107; and sections 19, 30 & 31, entire; T51N, R42W. Entire fractional township except those lands lying 200 feet either side of highway M-107; including existing shelters and cabins as nonconforming uses; T51N, R43W. Entire fractional township; including existing shelters and cabins as nonconforming uses; T51N, R44W, Carp Lake township, Ontonagon county. Total area in Ontonagon county: 35,102.62 acres. Total wilderness area, Gogebic and Ontonagon counties combined, 40,808 acres, more or less. See R 322.27.2 for that portion of the Porcupine mountains wilderness area which lies in Gogebic county.

History: 1954 ACS 87, p. 24, Eff. May 26, 1976.

R 322.66.2 Union Springs scenic site.

Rule 2. The following described area in the Porcupine mountains wilderness state park is dedicated as a natural area under the designation of the Union Springs scenic site: SW¼ of NE¼, SE¼ of NW¼, NE¼ of SW¼ and NW¼ of SE¼, Sec. 20, T51N, R42W, Carp Lake township, Ontonagon county. Total 160 acres.

History: 1954 ACS 87, p. 24, Eff. May 26, 1976.

northerly of State road, government lots 1 and 2 of section 14; T34N, R7E. Total of 260.12 acres.

History: 1954 ACS 98, p. 33, Eff. Feb. 22, 1979.

Regulation No. 72, Roscommon county.

R 322.72.1 Roscommon red pine nature study area.

Rule 1. The following described area is dedicated as a natural area under the designation of the Roscommon red pine nature study area: SE¼ of Sec. 2, T24N, R1W, in the Houghton Lake state forest, 160 acres.

History: 1954 ACS 80, p. 14, Eff. Sept. 17, 1974.

WATER RESOURCES COMMISSION

GENERAL RULES

(By authority of Act No. 245 of the Public Acts of 1929, as amended, and Act No. 197 of the Public Acts of 1952, being §323.1 et seq. and §24.101 et seq. of the Michigan Compiled Laws)

R 323.1 Rescinded.

History: 1944 ACS 32, p. 11; 1954 AC, p. 2101; 1954 ACS 31, p. 16, Eff. Aug. 14, 1962; rescinded 1954 ACS 72, p. 33, Eff. June 22, 1972.

R 323.2 Service of notice.

Rule 2. Service of notices of determination and hearing and of final orders of determination shall be made by registered mail upon parties named in the proceedings.

History: 1944 ACS 32, p. 11; 1954 AC, p. 2101.

R 323.3 Rescinded.

History: 1944 ACS 32, p. 11; 1954 AC, p. 2102; 1954 ACS 31, p. 16, Eff. Aug. 14, 1962; rescinded 1954 ACS 72, p. 33, Eff. June 22, 1972.

R 323.4 Written answer; appearance.

Rule 4. The person or persons who have been served with a notice of determination and hearing may at his option file a written answer thereto prior to the date set for hearing or at said hearing may appear and present an oral or written statement on the charges contained therein.

History: 1944 ACS 32, p. 11; 1954 AC, p. 2101.

R 323.5 Failure to appear.

Rule 5. If the person or persons who have been previously served with a notice of determination and hearing fail to appear at a noticed hearing, the commission may proceed with the hearing and determination of the case brought before it and may proceed with the making of its final order of determination.

History: 1944 ACS 32, p. 11; 1954 AC, p. 2101.

R 323.6 Rescinded.

History: 1944 ACS 32, p. 12; 1954 AC, p. 2102; 1954 ACS 31, p. 17, Eff. Aug. 14, 1962; rescinded 1954 ACS 72, p. 33, Eff. June 22, 1972.

R 323.7 Rescinded.

History: 1944 ACS 32, pp. 11, 12; 1954 AC, pp. 2101, 2102; 1954 ACS 31, pp. 16, 17, Eff. Aug. 14, 1962; rescinded 1954 ACS 72, p. 33, Eff. June 22, 1972.

R 323.8 Public hearing; notice.

Rule 8. Prior to taking action on an application for new or substantial increase over and above the present use of waters of the state for industrial waste disposal purposes, filed under section 8b of Act No. 245 of the Public Acts of 1929, as amended, the commission may provide a public hearing at which evidence and views of all persons will be received. Public notice of the hearing will be given by the water resources commission, through publication in a newspaper having general circulation in the area concerned at least 2 weeks before the scheduled hearing date.

History: 1944 ACS 32, p. 12; 1954 AC, p. 2102.

R 323.9 State health commissioner as commission's agent.

Rule 9. The state health commissioner is designated as the commission's agent in cases involving new or substantial increase over and above the present use now made of the waters of the state for sewage disposal purposes by municipalities.

STATE OF MICHIGAN
WATER RESOURCES COMMISSION

Proceedings Against _____
_____ for Abatement of
Pollution of _____
_____

NOTICE OF DETERMINATION AND HEARING

To: _____

YOU ARE HEREBY NOTIFIED that the Water Resources Commission, after due consideration of complaints received and of investigations made, is of the opinion and has determined that you are violating the provisions of Act 245, Public Acts of 1929, as amended, in that you have failed and are failing to control the polluting content of sewage and waste discharged to _____ River / Lake / Underground water which acts create in said waters conditions injurious to _____
_____

The specific violations are as follows:

YOU ARE FURTHER NOTIFIED that the Commission has under consideration the adoption of a final order requiring you to abate said pollution on or before _____, through the construction and operation of _____, in accordance with plans to be submitted
Chief engineer of the commission
to Michigan Department of Health for approval on or before _____.

YOU ARE FURTHER NOTIFIED that a hearing on the facts and the above proposed order will be provided you and held by the Commission at _____ _____ meeting at _____, following which consideration will be given to the adoption of a final order of determination for the abatement of the pollution above described. The aforesaid hearing provides you with the opportunity to present such evidence as you desire bearing upon the matter.

The files and records of the Department of Conservation, Michigan Department of Health and the Water Resources Commission pertaining to the aforesaid violation will be available for inspection prior to or at the hearing and will be presented at the statutory hearing as evidence of said violation.

This notice was adopted at the _____ meeting of the Commission, in accordance with the provisions of Act 245, Public Acts of 1929, as amended by Act 117, Public Acts of 1949, on motion by _____ supported by _____ and _____ carried.

PRESENT AND VOTING:

I hereby certify that the foregoing is a true copy of the Notice of Determination and Hearing adopted by the Water Resources Commission at its regular meeting on _____ at _____ , and on file in the office of the Commission.

_____
Executive secretary

WATER RESOURCES COMMISSION
RESOLUTION ADOPTING
FINAL ORDER OF DETERMINATION

_____
(Municipality or industry)

WHEREAS, this Commission at its regular meeting held on _____ 19___, adopted a motion to summon representatives of the _____ to a statutory hearing on a proposed order requiring the _____ to abate its pollution of the _____ by _____ 19___, in accordance with plans to be submitted for approval as required by law, on or before _____ 19___; and

(Municipality or industry)

(River / Lake / Underground water)

WHEREAS, notice of the action of the Commission was served upon the _____ and the statutory hearing was held on _____ 19___, at _____ , at which hearing the _____ was represented by _____ ; and

(Municipality or industry)

(Municipality or industry)

WHEREAS, at said statutory hearing the _____

(Municipality or industry)

(Summary of statement presented by municipality or industry.)

now therefore

BE IT RESOLVED, by the Commission, at its regular meeting held this _____ day of _____ 19___, that the attached Final Order of Determination against the _____ for abatement of its pollution of the _____

(Municipality or industry)

(River / Lake / Underground waters) be and the same is hereby adopted by this Commission under the provisions of Act 245, Public Acts of 1929, as amended by Act 117, Public Acts of 1949, on motion by _____, supported by _____, and _____ carried.

PRESENT AND VOTING:

STATE OF MICHIGAN

FINAL ORDER OF DETERMINATION

1. Findings of Fact
The Water Resources Commission hereby finds _____

2. Conclusions of Law

3. Order
The _____ is hereby directed and ordered to

This order, adopted by the Water Resources Commission under the authority of and in accordance with the provisions of Act 245, Public Acts of 1929, as amended by Act 117, Public Acts of 1949, is based upon a statutory hearing held _____

STATE OF MICHIGAN
WATER RESOURCES COMMISSION

APPLICATION FOR NEW OR SUBSTANTIAL INCREASE OVER AND ABOVE THE PRESENT USE NOW MADE OF THE WATERS OF THE STATE FOR WASTE DISPOSAL PURPOSES (INDUSTRY)

Applicant, _____, a _____ Corporation represents as follows, that,

1. The nature of the contemplated expansion is _____ new development _____ to be located at _____
2. The total estimated water requirement is _____
3. Source of water to be used is from:
   a. Underground supply, amount and uses _____
   b. Surface supply, name of source, amount and uses _____
4. The proposed points of waste discharge are _____
5. The estimated daily waste volume is _____
6. A fair statement of the characteristics of the waste as produced is:
   a. Bacterial _____
   b. Physical _____
   c. Chemical _____
   d. Other _____

Submitted in accordance with Act 245, Public Acts of 1929, as amended by Act 117, Public Acts of 1949.

Date _____

_____
(Signed)

Note: If waste treatment or control facilities are offered as accompanying this application, please describe on reverse side and indicate proposed date of completion.

GENERAL RULES

TABLE OF CONTENTS AND AUTHORITIES

By authority conferred on the water resources commission as follows:

Part 1. General Provisions ..... R 323.1001—R 323.1009
Section 33 of Act No. 306 of the Public Acts of 1969, being §24.233 of the Michigan Compiled Laws.
Part 2. Organization, Operations and Procedures ..... R 323.1011—R 323.1027
Sections 33 and 63 of Act No. 306 of the Public Acts of 1969, being §§24.233 and 24.263 of the Michigan Compiled Laws.
Part 3. Hearings ..... R 323.1031—R 323.1038
Section 33 of Act No. 306 of the Public Acts of 1969, being §24.233 of the Michigan Compiled Laws.
Part 4. Water Quality Standards ..... R 323.1041—R 323.1116
Sections 2 and 5 of Act No. 245 of the Public Acts of 1929, as amended, being §§323.2 and 323.5 of the Michigan Compiled Laws.
Part 5. Spillage of Oil and Polluting Materials ..... R 323.1151—R 323.1169
Sections 2 and 5 of Act No. 245 of the Public Acts of 1929, as amended, being §§323.2 and 323.5 of the Michigan Compiled Laws.
Part 6. Cleaning Agents and Water Conditioners ..... R 323.1171—R 323.1181
Section 3 of Act No. 226 of the Public Acts of 1971, being §323.233 of the Michigan Compiled Laws.

Part 9. Wastewater Reporting and Surveillance Fees..... R 323.1231—R 323.1242
Sections 2, 6b and 13 of Act No. 245 of the Public Acts of 1929, as amended, being §§323.2, 323.6b and 323.13 of the Michigan Compiled Laws.
Part 10. Treatment Plant Operators..... R 323.1251—R 323.1259
Section 2 of Act No. 245 of the Public Acts of 1929, as amended, being §323.2 of the Michigan Compiled Laws.
Part 11. Construction Grants for
Wastewater Treatment Works..... R 323.1271—R 323.1285
By authority conferred on the water resources commission by section 12 of Act No. 329 of the Public Acts of 1966, as last amended by Act No. 86 of the Public Acts of 1974, being §323.122 of the Michigan Compiled Laws.
Part 12. State Grants for Collecting Sewers..... R 323.1291—R 323.1306
Section 7 of Act No. 159 of the Public Acts of 1969, being §323.407 of the Michigan Compiled Laws.
Part 13. Flood Plains and Floodways..... R 323.1311—R 323.1329
By authority conferred on the department of natural resources by section 2 of Act No. 245 of the Public Acts of 1929, as amended, and Executive Reorganization Order No. 1976-1, being §§323.2 and 299.11 of the Michigan Compiled Laws.
Part 14. Shorelands..... R 323.1331—R 323.1345
Section 11 of Act No. 245 of the Public Acts of 1970, being §281.641 of the Michigan Compiled Laws.
Part 15. Iron Ore Beneficiation..... R 323.1351—R 323.1354
Sections 3 and 8 of Act No. 143 of the Public Acts of 1959, being §§323.253 and 323.258 of the Michigan Compiled Laws.
Part 17. Soil Erosion and Sedimentation Control..... R 323.1701—R 323.1714
By authority conferred on the water resources commission by section 5 of Act No. 347 of the Public Acts of 1972, being §282.105 of the Michigan Compiled Laws.
Part 21. Wastewater Discharge Permits..... R 323.2101—R 323.2160
Sections 2 and 5 of Act No. 245 of the Public Acts of 1929, as amended, being §§323.2 and 323.5 of the Michigan Compiled Laws.

PART 1. GENERAL PROVISIONS

R 323.1001 Purpose.

Rule 1. These rules are promulgated for the purpose of implementing the act creating the commission and prescribing its major functions and other acts referred to in the preceding authority paragraph.

History: 1954 ACS 72, p. 33, Eff. June 22, 1972.

R 323.1003 Definitions.

Rule 3. (1) "Commission" means the water resources commission of the department of natural resources.

(2) "Commission act" means Act No. 245 of the Public Acts of 1929, as amended, being §§323.1 to 323.13 of the Michigan Compiled Laws.

(3) "Department" means the department of natural resources.

(4) "Person" means an individual, partnership, association, corporation or any other entity.

History: 1954 ACS 72, p. 33, Eff. June 22, 1972.

R 323.1009 Rescission.

Rule 9. The following rules of the commission are rescinded:

(a) Rules 1, 3, 6, 7, 10 to 14, and 101, being R 323.1, R 323.3, R 323.6, R 323.7, R 323.10 to R 323.14, and R 323.101 of the Michigan Administrative Code and appearing on pages 2582 to 2584 of the 1962 Annual Supplement to the Code and pages 3642 and 3643 of the 1966 Annual Supplement to the Code.

(b) Rules entitled "Flood Plain Control," being R 323.201 to R 323.205 of the Michigan Administrative Code and appearing on pages 18 and 19 of Supplement No. 62 to the Code.

(c) Rules entitled "State Grants for Sewage Treatment Facilities," being R 323.901 to R 323.913 of the Michigan Administrative Code and appearing on pages 4167 to 4175 of the 1967 Annual Supplement to the Code.

History: 1954 ACS 72, p. 33, Eff. June 22, 1972.

PART 2. ORGANIZATION, OPERATIONS, AND PROCEDURES

R 323.1011 Organization.

Rule 11. (1) The water resources commission, created by the commission act, consists of the directors of the departments of agriculture, natural resources and public health, a designee of the highway commission, and 3 citizens of the state appointed for 3-year terms by the governor, by and with the consent of the senate, of whom 1 is from groups representative of industrial management, 1 from groups representative of municipalities, and 1 from groups representative of conservation associations or interests. Initially appointed for terms of 1, 2, and 3 years, the citizen members are now appointed 1 each year for 3-year terms ending on June 30 or on such later dates as their successors are appointed.

(2) The commission has organized to provide for annual election from its membership of a chairman and a vice-chairman. Four members constitute a quorum. All business is transacted by motion, support and majority vote of those present, including the chairman and vice-chairman. Roberts Rules of Order are followed. The commission employs an executive secretary and other staff and the attorney general provides the commission with legal service.

History: 1954 ACS 72, p. 33, Eff. June 22, 1972.

R 323.1012 Offices and meetings.

Rule 12. (1) The commission maintains central offices in the Stevens T. Mason building in Lansing, Michigan and staff field offices at Point Mouillee (near Rockwood), Lansing, Grand Rapids, Cadillac and Escanaba.

(2) The commission meets at least once a month at various places in the state, either at its meeting places in or near Lansing, Michigan or a predesignated city elsewhere in the state. Each December, the commission posts in its office for public inspection a schedule of its meeting dates and places for the following calendar year. Changes in that schedule by unforeseen circumstances are posted when established. Special, additional meetings are held when necessary, with proper notification of directly affected persons, if any. Meetings of the commission are open to the public.

(3) The commission issues an agenda of each regular meeting at least 1 week before the meeting. It posts a copy thereof in its office for public inspection and mails copies to persons directly affected by matters thereon or to those requesting copies.

History: 1954 ACS 72, p. 34, Eff. June 22, 1972.

R 323.1014 Documents available for inspection and copying.

Rule 14. The following commission documents are available for public inspection and copying:

(a) Promulgated rules.

(b) Transcribed records of conferences, public hearings, and statutory hearings held by the commission.

(c) Hearing officers' records of proceedings, proposals for decision, and findings of fact and conclusions of law.

(d) Letter notices of impending or scheduled conferences with the commission.

(e) Minutes of commission meetings and excerpts therefrom.

(f) Notices of determination and hearing.

(g) Orders, stipulations, permits, and final orders of determination.

(h) Duplicated material reciting the actions taken under the state-federal construction grant program for municipal sewage collection and treatment.

(i) Reports filed with the commission showing the quantity and quality of liquid wastes discharged into the waters of the state.

(j) Survey reports—edited to eliminate materials exempted by subdivisions (b), (c), (d), and (f) of subsection (1) of section 22 of Act No. 306 of the Public Acts of 1969, as amended, being §24.222 of the Michigan Compiled Laws.

History: 1954 ACS 72, p. 34, Eff. June 22, 1972.

R 323.1015 Document inspection and copying procedures.

Rule 15. A person desiring to inspect or copy documents shall notify the commission thereof in writing at least 5 days before his intended inspection date and shall identify therein the specific documents he wishes to inspect or copy. He shall sign for the documents at the time of inspection and copying, shall not remove them from the commission offices and shall return them to the issuing unit at the end of the work day. Upon receipt of his written request and pledge of reimbursement, the commission may order duplication of the documents under its open-account arrangements for commercial duplication, with billing at cost direct to him. Single copies of not more than 5 three-page documents or their equivalent may be provided without charge.

History: 1954 ACS 72, p. 34, Eff. June 22, 1972.

R 323.1017 General functions.

Rule 17. The commission, through its staff, administers a broad and vigorous program of water pollution control, water planning, basic data collection, cooperation and coordination with local government in matters pertaining to flood control and beach erosion control, floodplain development control, swimmers' itch control, water use investigation, and other water resource matters of public significance. In effectuating this program, it administers the state and federal water pollution control grant programs, cooperates with the federal water resources council, United States geological survey, the United States army corps of engineers and other federal agencies. It receives and expends matching grant monies from the federal environmental protection agency and the federal water resources council. Through its staff, it maintains membership on advisory boards to the international joint commission and various committees of state, interstate and federal agency personnel.

History: 1954 ACS 72, p. 35, Eff. June 22, 1972.

R 323.1018 Specific functions.

Rule 18. The commission issues orders and permits for filling and other regulated activities in floodplains under section 2a of the commission act, as

amended, and rules adopted thereunder, and for use of water for low grade iron ore beneficiation as provided by Act No. 143 of the Public Acts of 1959, being §§323.251 to 323.258 of the Michigan Compiled Laws. Watercraft pollution control as provided in Act No. 167 of the Public Acts of 1970, being §§323.331 to 323.342 of the Michigan Compiled Laws, and Great Lakes shoreland management programs as provided in Act No. 245 of the Public Acts of 1970, being §§281.631 to 281.645 of the Michigan Compiled Laws are also administered and implemented by the commission, as are other statutes and administrative rules.

History: 1954 ACS 72, p. 35, Eff. June 22, 1972.

R 323.1021 Declaratory rulings requests.

Rule 21. (1) A person requesting a declaratory ruling from the commission, regarding a statute, rule, or order administered thereby, shall submit in duplicate a sworn petition to the commission setting forth:

(a) The nature and purpose or reason for the request.

(b) The statute, rule, or order administered by the commission to which the request applies.

(c) The person's involvement, interest, or relationship to that statute, rule, or order.

(d) The exact subject of the ruling requested.

(2) Requests for more than 1 declaratory ruling regarding the same or different statute, rule, or order shall be submitted separately.

History: 1954 ACS 72, p. 35, Eff. June 22, 1972.

R 323.1022 Consideration and disposition of declaratory rulings requests.

Rule 22. Within 90 days after receipt of such a petition for a declaratory ruling, the commission, after consultation with staff or the attorney general if necessary, may issue a declaratory ruling directly to the person submitting the request. A declaratory ruling shall receive a majority concurrence of the commission before it is issued to the interested person.

History: 1954 ACS 72, p. 35, Eff. June 22, 1972.

R 323.1025 Hearings and informal conferences.

Rule 25. (1) At its meetings, the commission holds public hearings and statutory hearings as required by law and holds informal conferences with persons who are experiencing water pollution control problems resulting from their discharge to the waters of the state or who are affected by such discharges. It keeps minutes of all meetings and records verbatim all hearings and conferences, transcribing the records thereof. The commission, under rules adopted by it, employs a hearing officer to hear contested cases and to prepare a record of the proceedings and proposal for a decision including findings of fact and conclusions of law.

(2) The commission issues notices of determination and hearing and makes orders of determination and final orders of determination, as provided by law.

History: 1954 ACS 72, p. 35, Eff. June 22, 1972.

R 323.1027 Injunctions against waste discharges.

Rule 27. The executive secretary of the commission is designated by the commission as its representative to seek the initiation of injunctive procedures by the department of the attorney general to prevent or abate the release of waste discharges from industrial or commercial processing operations to the waters of

the state when the pollution injuries described in subdivision (a) of section 6 of the commission act, as amended, occur or are imminent through failure or bypassing of waste treatment or control facilities.

History: 1954 ACS 72, p. 35, Eff. June 22, 1972.

PART 3. HEARINGS

R 323.1031 Procedures from administrative procedures act.

Rule 31. The procedure described in section 7 of the commission act is the rule of procedure for the hearing of contested cases as defined in subsection (3) of section 3 of Act No. 306 of the Public Acts of 1969, as amended, being §24.203 of the Michigan Compiled Laws.

History: 1954 ACS 72, p. 36, Eff. June 22, 1972.

R 323.1032 Service of notices and orders; appearances.

Rule 32. (1) Service of notices of determination and hearing, orders of determination, and final orders of determination shall be made by certified mail upon the parties named in proceedings conducted pursuant to sections 5a, 5b, 6b, 7, 8, or 13 of the commission act.

(2) An appearance at a hearing or proceeding held pursuant to a section cited in subrule (1) shall be either in person, by a duly authorized agent or by counsel.

History: 1954 ACS 72, p. 36, Eff. June 22, 1972.

R 323.1033 Stipulations and consent orders.

Rule 33. A person cited by the commission to appear at a hearing noticed pursuant to the commission act, and who desires to dispose of the contested case by stipulation or consent order, may mail to the commission, not later than 10 days before the date set for hearing, his written consent to the terms and conditions of the proposed order or other form of action as set forth in the notice of determination and hearing. Agreement between the parties on the terms and conditions of a stipulation or consent order, constitutes sufficient cause for the commission to dispose of the case without further hearing.

History: 1954 ACS 72, p. 36, Eff. June 22, 1972.

R 323.1034 Hearing officer; hearings.

Rule 34. That part of a hearing in a contested case in which testimony and evidence are to be taken may be referred to a hearing officer who shall be designated and authorized by the commission to preside at the hearing. The hearing officer shall hear the evidence, prepare a record of the proceedings and a proposal for a decision, including findings of fact and conclusions of law. The record of the proceedings and proposal for decision shall be filed at the commission offices as early as possible after completion of the hearing. A copy of the proposal for decision shall be transmitted to each member of the commission and shall be served by certified mail on all other parties to the proceedings.

History: 1954 ACS 72, p. 36, Eff. June 22, 1972.

R 323.1035 Agency files and records; use in connection with hearings.

Rule 35. The files and records of the commission as specified in notices of determination and hearing, except those materials exempted by section 22 of Act No. 306 of the Public Acts of 1969, as amended, being §24.222 of the Michigan Compiled Laws, shall be available for inspection before or at hearings held by the

commission or the hearing officer, and the whole or part thereof may be offered at a hearing as evidence on behalf of the commission.

History: 1954 ACS 72, p. 36, Eff. June 22, 1972.

R 323.1036 Commission hearings after hearing officer hearings.

Rule 36. (1) The commission shall hold a hearing not less than 4 nor more than 8 weeks after receipt by the commission members of a hearing officer's report on the proposal for decision, and on such arguments thereon, exceptions thereto or appeals therefrom as may be filed timely in writing by either party. To be considered at the hearing, written briefs or exceptions shall be received at the office of the commission in Lansing not later than 2 weeks before the date set for hearing. An opportunity to present oral argument to the commission may be provided at the hearing noticed for that purpose.

(2) A certified copy of a final order of determination adopted in a contested case shall be prepared and served by certified mail on the contesting parties or their attorneys together with the commission's finding containing a resume of the facts and grounds for decision.

History: 1954 ACS 72, p. 36, Eff. June 22, 1972.

R 323.1038 Waste disposal and floodplain matters.

Rule 38. (1) Before taking action on a written statement for a new or substantial increase over and above the present use of the waters of the state for waste disposal purposes, filed under subsection (b) of section 8 of the commission act, or on an application for a permit to occupy or fill lands in a floodplain filed under section 5b of the commission act, the commission may provide a public hearing at which evidence and views of all persons will be received thereon. The commission will give public notice of the hearing by publication in a newspaper having general circulation in the area concerned at least 2 weeks before the scheduled hearing date.

(2) The director of public health is designated as the commission's agent in cases involving new or substantial increases over and above present uses now made of the waters of the state for disposal of sewage from:

(a) Collecting sewers or treatment plants which serve the public and for which construction permits are required by Act No. 98 of the Public Acts of 1913, as amended, being §§325.201 to 325.214 of the Michigan Compiled Laws.

(b) Campgrounds for which licenses are required by Act No. 171 of the Public Acts of 1970, being §§325.651 to 325.665 of the Michigan Compiled Laws.

(c) Trailer parks for which licenses are required by Act No. 243 of the Public Acts of 1959, as amended, being §§125.1001 to 125.1097 of the Michigan Compiled Laws.

(d) Nursing homes and homes for the aged for which licenses are required by Act No. 139 of the Public Acts of 1956, as amended, being §§331.651 to 331.660 of the Michigan Compiled Laws.

(e) Hospitals for which licenses are required by Act No. 17 of the Public Acts of 1968, being §§331.411 to 331.430 of the Michigan Compiled Laws.

(3) A statement of use of the waters of the state for disposal of sewage of human origin from developments within a local governmental unit, filed by an entity other than a local unit of government, shall be cosigned by the local governmental unit. The local governmental unit shall be included by appropriate notice as a party to all proceedings and hearings involving the entity, and shall be named jointly with the entity in all orders issued as the result of the proceedings and hearings.

PART 4. WATER QUALITY STANDARDS

R 323.1041 Purpose.

Rule 41. It is the purpose of the water quality standards as prescribed by these rules to establish water quality requirements applicable to the Great Lakes, their connecting waterways, and all other surface waters of the state, which shall protect the public health and welfare, enhance and maintain the quality of water, serve the purposes of United States Public Law 92-500 and the commission act; and which shall protect the quality of waters for recreational purposes, public and industrial water supplies, agriculture uses, navigation and propagation of fish, other aquatic life and wildlife.

History: 1954 ACS 77, p. 14, Eff. Dec. 13, 1973.

R 323.1043 Definitions; A to N.

Rule 43. As used in this part:

(a) "Agricultural water use" means a use of water for agricultural purposes, including but not limited to livestock watering, irrigation and crop spraying.

(b) "Application factor" means a numerical factor applied to the TL_m, or concentration producing other effect end points to provide the concentration of a toxic substance that would be safe for test organisms in the waters of the state.

(c) "Best practicable waste treatment technology for control of total phosphorus" means chemical-physical or chemical-physical-biological treatment processes, including, but not limited to, treatment with aluminum salts, iron salts or lime in conjunction with appropriate coagulant chemicals, settling or filtration or both, with operation and management of the treatment facilities and the process to achieve optimum phosphorus removal rates, or equivalent treatment.

(d) "Anadromous salmonids" means those trout and salmon which ascend streams to spawn.

(e) "Coldwater fish" means those fish species whose populations thrive in relatively cold water, including, but not limited to, trout, salmon, whitefish, and cisco.

(f) "Connecting waterways" means the St. Marys river, Keweenaw waterway, Detroit river, St. Clair river, and Lake St. Clair.

(g) "Designated use" means a use of the waters of the state as established by these rules, including, but not limited to, industrial, agricultural, and public water supply; recreation; fish, other aquatic life and wildlife; and navigation.

(h) "Dissolved oxygen" means the amount of oxygen dissolved in water, commonly expressed as a concentration in terms of milligrams per liter.

(i) "Dissolved solids" means the amount of materials dissolved in water commonly expressed as a concentration in terms of milligrams per liter.

(j) "Effluent" means a wastewater discharged from a point source to the waters of the state.

(k) "Fecal coliform" means a type of coliform bacteria found in the intestinal tract of humans and other warm-blooded animals.

(l) "Fish, other aquatic life and wildlife use" means the use of the waters of the state by fish, other aquatic life and wildlife for any life history stage or activity.

(m) "Industrial water supply" means a water source not protected for public water supply and intended for use in commercial or industrial applications and noncontact food processing.

(n) "Mixing zone" means a region of a water body which receives a wastewater discharge of a different quality than the receiving waters, and within which the water quality standards as prescribed by these rules do not apply.

(o) "Natural water temperature" means the temperature of a body of water without an influence from an artificial source, or a temperature as otherwise determined by the commission.

History: 1954 ACS 77, p. 15, Eff. Dec. 13, 1973.

R 323.1044 Definitions; P to W.

Rule 44. As used in this part:

(a) "Palatability" means the state of being agreeable or acceptable to the senses of sight, taste or smell.

(b) "Plant nutrients" means those chemicals, including, but not limited to, nitrogen and phosphorus, necessary for the growth and reproduction of aquatic rooted, attached and floating plants, fungi, or bacteria.

(c) "Point source" means a discernible, confined and discrete conveyance, from which wastewater is or may be discharged to the waters of the state including, but not limited to, a pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, concentrated animal feeding operation, or vessel or other floating craft.

(d) "Public water supply" means a surface raw water source which, after conventional treatment, will provide a safe, clear, potable, and aesthetically pleasing water for uses which include, but are not limited to, human consumption, food processing and cooking, and as a liquid ingredient in foods and beverages.

(e) "Raw water" means the waters of the state prior to any treatment.

(f) "Receiving waters" means the waters of the state into which an effluent is or may be discharged.

(g) "Sanitary sewage" means treated or untreated wastewaters which contain human metabolic and domestic wastes.

(h) "Standard" means a definite numerical value or narrative statement promulgated by the commission to enhance or maintain water quality to provide for and fully protect a designated use of the waters of the state.

(i) "Suspended solids" means the amount of material suspended in water, commonly expressed as a concentration in terms of milligrams per liter.

(j) "TL_m" means median tolerance limit which is the concentration of a test material in a suitable diluent at which 50% of the exposed organisms survive for a specified period of exposure.

(k) "Total body contact recreation" means an activity where the human body may come into direct contact with water to the point of complete submergence, including, but not limited to, activities such as swimming, water skiing and skin diving.

(l) "Toxic substance" means a substance of unnatural origin, except heat, in concentrations or combinations which are or may become harmful to plant or animal life.

(m) "Warmwater fish" means those fish species whose populations thrive in relatively warm water, including, but not limited to, bass, pike, walleye and panfish.

(n) "Wastewater" means liquid waste resulting from commercial, municipal and domestic operations and industrial processes, including, but not limited to, cooling and condensing waters, sanitary sewage, and industrial waste.

(o) "Waters of the state" means the Great Lakes, their connecting waterways, all inland lakes, rivers, streams, impoundments, open drains, and other surface watercourses within the confines of the state, except drainage ways and ponds used solely for wastewater conveyance, treatment, or control.

History: 1954 ACS 77, p. 15, Eff. Dec. 13, 1973.

R 323.1050 Suspended solids.

Rule 50. All waters of the state shall contain no unnatural turbidity, color, oil films, floating solids, foams, settleable solids or deposits in quantities which are or may become injurious to any designated use.

History: 1954 ACS 77, p. 16, Eff. Dec. 13, 1973.

R 323.1051 Dissolved solids.

Rule 51. (1) The addition of any dissolved solids shall not exceed concentrations which are or may become injurious to any designated use. Point sources containing dissolved solids shall be considered by the commission on a case-by-case basis and increases of dissolved solids in the waters of the state shall be limited through the application of best practicable control technology currently available as prescribed by the administrator of the United States environmental protection agency pursuant to section 304(b) of United States Public Law 92-500, except that in no instance shall total dissolved solids in the waters of the state exceed a concentration of 500 milligrams per liter as a monthly average nor more than 750 milligrams per liter at any time, as a result of controllable point sources.

(2) In addition to the standards prescribed by subrule (1), waters of the state used for public water supply, at the point of water intake shall not exceed the permissible inorganic and organic chemicals criteria for raw public water supply in report of the national technical advisory committee to the secretary of the interior, water quality criteria, 1968, except chlorides. For the Great Lakes and connecting waters, chlorides at the point of water intake shall not exceed 50 milligrams per liter as a monthly average. For all other waters of the state, chlorides at the point of water intake shall not exceed 125 milligrams per liter as a monthly average.

History: 1954 ACS 77, p. 16, Eff. Dec. 13, 1973.

R 323.1053 Hydrogen ion concentration.

Rule 53. The hydrogen ion concentration expressed as pH shall be maintained within the range of 6.5 to 8.8 in all waters of the state, except as otherwise prescribed by R 323.1080. Any artificially induced variation in the natural pH shall remain within this range and shall not exceed 0.5 units of pH.

History: 1954 ACS 77, p. 16, Eff. Dec. 13, 1973.

R 323.1055 Taste and odor producing substances.

Rule 55. The waters of the state shall contain no unnatural substances in concentrations which are or may become injurious to their use for public, industrial or agricultural water supply, or in concentrations which lower the palatability of fish as measured by test procedures acceptable to the commission.

History: 1954 ACS 77, p. 16, Eff. Dec. 13, 1973.

R 323.1057 Toxic substances.

Rule 57. (1) Toxicity of undefined toxic substances not specifically included in subrules (2) and (3) shall be determined by development of 96 hour TL_m's or other appropriate effect end points obtained by continuous-flow or in situ bioassays using suitable test organisms. Concentrations of undefined toxic substances in the waters of the state shall not exceed safe concentrations as determined by applying an application factor, based on knowledge of the behavior of the toxic substances and the organisms to be protected in the environment, to the TL_m or other appropriate effect end point.

(2) For all waters of the state, unless on the basis of recent information a more restrictive limitation is required to protect a designated use, concentrations of defined toxic substances, including heavy metals, shall be limited by application of the toxic substances recommendations contained in the chapter on freshwater organisms, report of the national technical advisory committee to the secretary of the interior, water quality criteria, 1968, or by application of any toxic effluent standard, limitation or prohibition promulgated by the administrator of the United States environmental protection agency pursuant to section 307(a) of United States Public Law 92-500, whichever is more restrictive.

(3) In addition to the standards prescribed in subrules (1) and (2), waters of the state used for public water supply at the point of water intake shall not exceed the permissible inorganic and organic chemicals criteria for raw public water supply in report of the national technical advisory committee to the secretary of the interior, water quality criteria, 1968, except that chlorides shall be limited to the same extent as prescribed by subrule (2) of R 323.1051.

History: 1954 ACS 77, p. 17, Eff. Dec. 13, 1973.

R 323.1058 Radioactive substances.

Rule 58. The control and regulation of radioactive substances discharged to the waters of the state shall be in accordance with and subject to the criteria, standards or requirements prescribed by the United States atomic energy commission as set forth in the applicable code of federal regulations, title 10, part 20.

History: 1954 ACS 77, p. 17, Eff. Dec. 13, 1973.

R 323.1060 Plant nutrients.

Rule 60. Nutrients originating from domestic, industrial, municipal, or domestic animal sources shall be limited to the extent necessary to prevent stimulation of growths of aquatic rooted, attached and floating plants, fungi, or bacteria which are or may become injurious to the designated uses of the waters of the state. Phosphorus which is or may readily become available as a plant nutrient shall be controlled from point source discharges by the application of methods utilizing best practicable waste treatment technology for control of total phosphorus, with the goal of achieving a monthly average effluent concentration of 1 milligram per liter as P.

History: 1954 ACS 77, p. 17, Eff. Dec. 13, 1973.

R 323.1062 Fecal coliform.

Rule 62. (1) Waters of the state protected for total body contact recreation shall contain not more than 200 fecal coliforms per 100 milliliters; and all other waters of the state shall contain not more than 1,000 fecal coliforms per 100 milliliters. These concentrations may be exceeded if due to uncontrollable non-point sources.

(2) Compliance with the fecal coliform standards prescribed by subrule (1) shall be determined on the basis of the geometric average of any series of 5 or more consecutive samples taken over not more than a 30-day period.

History: 1954 ACS 77, p. 17, Eff. Dec. 13, 1973.

R 323.1064 Dissolved oxygen; Great Lakes, connecting waterways, and inland streams.

Rule 64. A minimum of 6 milligrams per liter of dissolved oxygen in all Great Lakes and connecting waterways shall be maintained and, except for inland lakes

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

as prescribed in R 323.1065, a minimum of 6 milligrams per liter of dissolved oxygen shall be maintained at all times in all inland streams designated by these rules to be protected for coldwater fish. In all other waters, except for inland lakes as prescribed by R 323.1065, a minimum of 5 milligrams per liter of dissolved oxygen shall be maintained as a daily average and no single value shall be less than 4 milligrams per liter in waters naturally capable of supporting warmwater fish.

History: 1954 ACS 77, p. 17, Eff. Dec. 13, 1973.

R 323.1065 Dissolved oxygen; inland lakes.

Rule 65. (1) The following standards for dissolved oxygen shall apply to inland lakes capable of supporting coldwater fish:

(a) In warmwater inland lakes with little water exchange which are capable of sustaining a cold stratum of well oxygenated water throughout the summer above a hypolimnion with very little oxygen, a minimum of 6 milligrams per liter of dissolved oxygen shall be maintained throughout the epilimnion and the upper ⅓ of the thermocline during the entire summer stagnation period. At all other times, the dissolved oxygen concentration shall be maintained at natural levels.

(b) In inland lakes capable of sustaining high oxygen values throughout the hypolimnion during periods of stagnation, dissolved oxygen concentrations greater than 6 milligrams per liter shall be maintained throughout the entire lake.

(c) In inland lakes which serve as principal anadromous fish migration routes, dissolved oxygen concentrations greater than 5 milligrams per liter shall be maintained throughout the epilimnion and the upper ⅓ of the thermocline in stratified lakes throughout periods of fish migration. In unstratified lakes, dissolved oxygen concentrations greater than 5 milligrams per liter shall be maintained throughout the entire lake during periods of fish migration.

(d) In shallow, unstratified coldwater inland lakes, dissolved oxygen concentrations greater than 6 milligrams per liter shall be maintained throughout the entire lake.

(2) The following standards for dissolved oxygen shall apply to inland lakes capable of supporting warmwater fish:

(a) In warmwater lakes with little water exchange, dissolved oxygen concentrations greater than 5 milligrams per liter shall be maintained throughout the epilimnion and the upper ⅓ of the thermocline during the entire summer stagnation period. At all other times, dissolved oxygen concentrations shall be maintained at natural levels.

(b) In warmwater lakes with a high rate of water exchange, dissolved oxygen concentrations greater than 5 milligrams per liter shall be maintained throughout the epilimnion and the upper ⅓ of the thermocline during the summer stagnation period. At all other times, dissolved oxygen concentrations greater than 5 milligrams per liter shall be maintained except in areas where natural oxygen depressions occur.

History: 1954 ACS 77, p. 18, Eff. Dec. 13, 1973.

R 323.1069 Temperature; general considerations.

Rule 69. (1) In all waters of the state, the points of temperature measurement normally shall be in the surface 1 meter; however, where turbulence, sinking plumes, discharge inertia, or other phenomena upset the natural thermal distribution patterns of receiving waters, temperature measurements shall be required to identify the spatial characteristics of the thermal profile.

(2) Monthly maximum temperatures, based on the ninetieth percentile occurrence of natural water temperatures plus the increase allowed at the edge of the

mixing zone and in part on long-term physiological needs of fish, may be exceeded for short periods when natural water temperatures exceed the ninetieth percentile occurrence. Temperature increases during these periods may be permitted by the commission, but in all cases shall not be greater than the natural water temperature plus the increase allowed at the edge of the mixing zone.

(3) Natural daily and seasonal temperature fluctuations of the receiving waters shall be preserved.

History: 1954 ACS 77, p. 18, Eff. Dec. 13, 1973.

R 323.1070 Temperature; Great Lakes and connecting waterways.

Rule 70. (1) The Great Lakes and connecting waterways shall not receive a heat load which would warm the receiving water at the edge of the mixing zone more than 3 degrees Fahrenheit above the existing natural water temperature.

(2) The Great Lakes and connecting waterways shall not receive a heat load which would warm the receiving water at the edge of the mixing zone to temperatures in degrees Fahrenheit higher than the following monthly maximum temperatures:

(a) Lake Michigan north of a line due west from the city of Pentwater:

J	F	M	A	M	J	J	A	S	O	N	D
40	40	40	50	55	70	75	75	75	65	60	45

(b) Lake Michigan south of a line due west from the city of Pentwater:

J	F	M	A	M	J	J	A	S	O	N	D
45	45	45	55	60	70	80	80	80	65	60	50

(c) Lake Superior and the St. Marys river:

J	F	M	A	M	J	J	A	S	O	N	D
38	36	39	46	53	61	71	74	71	61	49	42

(d) Lake Huron north of a line due east from Tawas point:

J	F	M	A	M	J	J	A	S	O	N	D
40	40	40	50	60	70	75	80	75	65	55	45

(e) Lake Huron south of a line due east from Tawas point, except Saginaw bay:

J	F	M	A	M	J	J	A	S	O	N	D
40	40	40	55	60	75	80	80	80	65	55	45

(f) Lake Huron, Saginaw bay:

J	F	M	A	M	J	J	A	S	O	N	D
45	45	45	60	70	75	80	85	78	65	55	45

(g) St. Clair river:

J	F	M	A	M	J	J	A	S	O	N	D
40	40	40	50	60	70	75	80	75	65	55	50

(h) Lake St. Clair:

J	F	M	A	M	J	J	A	S	O	N	D
40	40	45	55	70	75	80	83	80	70	55	45

(i) Detroit river:

J	F	M	A	M	J	J	A	S	O	N	D
40	40	45	60	70	75	80	83	80	70	55	45

(j) Lake Erie:

J	F	M	A	M	J	J	A	S	O	N	D
45	45	45	60	70	75	80	85	80	70	60	50

History: 1954 ACS 77, p. 18, Eff. Dec. 13, 1973.

R 323.1072 Temperature; inland lakes; general standards.

Rule 72. Inland lakes shall not receive a heat load which would:

(a) Increase the temperature of the thermocline or hypolimnion or decrease the volume thereof.

(b) Increase the temperature of the receiving waters at the edge of the mixing zone more then 3 degrees Fahrenheit above the existing natural water temperature.

(c) Increase the temperature of the receiving waters at the edge of the mixing zone to temperatures greater than the following monthly maximum temperatures:

J	F	M	A	M	J	J	A	S	O	N	D
45	45	50	60	70	75	80	85	80	70	60	50

History: 1954 ACS 77, p. 19, Eff. Dec. 13, 1973.

R 323.1073 Temperature; inland lakes; anadromous salmonid migrations.

Rule 73. Warmwater inland lakes which serve as principal migratory routes for anadromous salmonids shall not receive a heat load during periods of migration at such locations and in a manner which may adversely affect salmonid migration or raise the receiving water temperature at the edge of the mixing zone more than 3 degrees Fahrenheit above the existing natural water temperature.

History: 1954 ACS 77, p. 19, Eff. Dec. 13, 1973.

R 323.1074 Impoundments.

Rule 74. (1) River and stream standards as prescribed by R 323.1075 shall apply to all impoundments.

(2) The commission shall determine, when necessary, whether a body of water shall be considered as an inland lake or an impoundment for the purpose of these rules. This determination shall be made partially on the basis of aquatic life resources to be protected.

History: 1954 ACS 77, p. 19, Eff. Dec. 13, 1973.

R 323.1075 Temperatures; rivers and streams.

Rule 75. (1) Rivers and streams naturally capable of supporting coldwater fish shall not receive a heat load which would:

(a) Increase the temperature of the receiving waters at the edge of the mixing zone more than 2 degrees Fahrenheit above the existing natural water temperature.

(b) Increase the temperature of the receiving waters at the edge of the mixing zone to temperatures greater than the following monthly maximum temperatures:

J	F	M	A	M	J	J	A	S	O	N	D
38	38	43	54	65	68	68	68	63	56	48	40

(2) Rivers and streams naturally capable of supporting warmwater fish shall not receive a heat load which would warm the receiving water at the edge of the mixing zone more than 5 degrees Fahrenheit above the existing natural water temperature.

(3) Rivers and streams naturally capable of supporting warmwater fish shall not receive a heat load which would warm the receiving water at the edge of the mixing zone to temperatures greater than the following monthly maximum temperatures:

(a) Rivers and streams north of a line between Bay City, Midland, Alma, and North Muskegon:

J	F	M	A	M	J	J	A	S	O	N	D

(4) Non-trout rivers and streams that serve as principal migratory routes for anadromous salmonids shall not receive a heat load during periods of migration at such locations and in a manner which may adversely affect salmonid migration or raise the receiving water temperature at the edge of the mixing zone more than 5 degrees Fahrenheit above the existing natural water temperature.

History: 1954 ACS 77, p. 19, Eff. Dec. 13, 1973.

R 323.1080 Special conditions.

Rule 80. To be consistent with the agreement between the United States of America and Canada on Great Lakes water quality effective April 15, 1972, the following conditions shall apply to the Michigan waters of the Great Lakes and their connecting waterways:

(a) Values of pH shall not be outside the range of 6.7 to 8.5.

(b) In Lake Erie, the level of total dissolved solids shall not be greater than 200 milligrams per liter.

(c) Filtrable iron shall not be greater than 0.3 milligrams per liter.

History: 1954 ACS 77, p. 20, Eff. Dec. 13, 1973.

R 323.1082 Mixing zones.

Rule 82. (1) A mixing zone to achieve a mixture of a point source discharge with the receiving waters shall be considered a region in which organism response to water quality characteristics is time dependent. Exposure in mixing zones shall not cause an irreversible response which results in deleterious effects to populations of important aquatic life and wildlife. As a minimum restriction the toxic substance 96 hour TL_m for important species of fish or fishfood organisms shall not be exceeded in the mixing zone at any point inhabitable by these organisms, unless it can be demonstrated to the commission that a higher concentration is acceptable. The mixing zone at any transect of a stream shall contain not more than 25% of the cross sectional area or volume of flow of the stream or both, unless it can be demonstrated to the commission that designation of a greater area or volume of streamflow will allow passage of fish and fishfood organisms so that effects on their immediate and future populations are negligible or not measurable. Watercourses or portions thereof which, without 1 or more point source discharges, would have no flow except during periods of surface runoff may be considered as a mixing zone for a point source discharge. For Lake Michigan, mixing zones shall not exceed a defined area equivalent to that of a circle of radius of 1,000 feet unless the discharger can demonstrate to the commission that the defined area for a thermal discharge is more stringent than necessary to assure the protection and propagation of a balanced indigenous population of aquatic life and wildlife in the receiving water.

(2) All mixing zones established by the commission pursuant to subrule (1) shall be determined on a case-by-case basis.

History: 1954 ACS 77, p. 20, Eff. Dec. 13, 1973.

R 323.1090 Application of water quality standards.

Rule 90. (1) The water quality standards prescribed by these rules for the various designated uses of the waters of the state apply to receiving waters and are

Digitized by Google Original from UNIVERSITY OF MICHIGAN

not to be considered applicable to wastewater effluents. The water quality standards shall not apply within defined mixing zones, except for those standards prescribed in R 323.1050 for settleable solids, deposits, floating solids, and oil films.

(2) The accepted design streamflow to which the water quality standards as prescribed by these rules shall apply are those equal to or exceeding the 10-year recurrence of a minimum low flow average of 7-day duration, except where the commission determines that a more restrictive application is necessary to protect a particular designated use.

History: 1954 ACS 77, p. 21, Eff. Dec. 13, 1973.

R 323.1091 Designated use interruption.

Rule 91. Protection of the waters of the state designated for total body contact recreation by the water quality standards prescribed by these rules may be subject to temporary interruption during or following flood conditions or uncontrollable accidents to a sewer or wastewater treatment system. In the event of such an occurrence, full public notice thereof shall be served by the commission to those affected thereby and immediate corrective action shall be required by the commission.

History: 1954 ACS 77, p. 21, Eff. Dec. 13, 1973.

R 323.1092 Dredging.

Rule 92. The water quality standards prescribed by these rules shall not apply to dredging or construction activities within water areas where such activities occur or during the periods of time when the aftereffects of dredging or construction activities degrade water quality within such water areas, if the dredging operations or construction have been authorized by the United States army corps of engineers or the department. The water quality standards shall apply, however, in nonconfined water areas utilized for the disposal of spoil from dredging operations, except within spoil disposal sites specifically defined by the United States army corps of engineers or the department.

History: 1954 ACS 77, p. 21, Eff. Dec. 13, 1973.

R 323.1096 Determinations of compliance.

Rule 96. Analysis of the waters of the state to determine compliance with the water quality standards prescribed by these rules shall be made according to procedures outlined in the current edition of standard methods for the examination of water and wastewater as published jointly by the American public health association, the American water works association and the water pollution control federation, or other methods prescribed or approved by the commission and the United States environmental protection agency.

History: 1954 ACS 77, p. 21, Eff. Dec. 13, 1973.

R 323.1097 Chemical applications.

Rule 97. The application of chemicals for water resource management projects in accordance with and subject to state statutory provisions is not subject to the standards prescribed by these rules, but all projects shall be reviewed and approved by the commission prior to chemical applications.

History: 1954 ACS 77, p. 21, Eff. Dec. 13, 1973.

R 323.1098 Nondegradation and water quality improvement.

Rule 98. (1) Waters of the state in which the existing water quality is better than the water quality standards prescribed by these rules on the date when the

standards become effective shall not be lowered in quality by action of the commission unless and until it has been affirmatively demonstrated to the commission that a change in quality will not become injurious to the public health, safety, or welfare; or become injurious to domestic, commercial, industrial, agricultural, recreational, or other uses which are being made of the waters; or become injurious to livestock, wild animals, birds, aquatic life, or plants, or the growth or propagation thereof be prevented or injuriously affected; or whereby the value of fish or game may be destroyed or impaired, and that a lowering in quality will not be unreasonable and against the public interest in view of the existing conditions in any waters of the state.

(2) Waters of the state which do not meet the water quality standards prescribed by these rules shall be improved to meet those standards. Where the water quality of certain waters of the state do not meet the water quality standards as a result of natural causes or conditions, no further reduction of water quality by controllable point and non-point sources shall be permitted.

History: 1954 ACS 77, p. 21, Eff. Dec. 13, 1973.

R 323.1100 Designated uses; general.

Rule 100. (1) As a minimum, all waters of the state shall be protected for agricultural uses, navigation, industrial water supply, public water supply at the point of water intake, warmwater fish, and partial body contact recreation.

(2) All waters of the state designated as trout streams by the director of the department pursuant to section 8 of Act No. 165 of the Public Acts of 1929, as amended, being §301.8 of the Michigan Compiled Laws, shall be protected for coldwater fish.

(3) All inland lakes designated or managed as trout lakes by the department and the Great Lakes and their connecting waterways shall be protected for coldwater fish.

History: 1954 ACS 77, p. 22, Eff. Dec. 13, 1973.

R 323.1105 Multiple designated uses.

Rule 105. When a particular portion of the waters of the state is designated for more than 1 use, the most restrictive water quality standards for 1 or more of those designated uses shall apply to that portion.

History: 1954 ACS 77, p. 22, Eff. Dec. 13, 1973.

R 323.1110 Designated uses; total body contact recreation.

Rule 110. (1) The following waters of the state, except in mixing zones prescribed by the commission, shall be protected for total body contact recreation:

(a) All Great Lakes and their connecting waterways.

(b) All inland lakes, including, but not limited to, those connected to the Great Lakes.

(2) The following rivers and streams and their tributaries, except in mixing zones as prescribed by the commission, shall be protected for total body contact recreation:

(a) All rivers and streams located in the Upper Peninsula.

(b) All rivers and streams located north of, but not including, the Grand and Saginaw river basins.

History: 1954 ACS 77, p. 22, Eff. Dec. 13, 1973.

R 323.1115 Designated uses; impoundments and portions of streams.

Rule 115. (1) The following impoundments and portions of streams shall be protected for total body contact recreational use:

R 323.1116 Availability of documents.

Rule 116. Documents referenced in R 323.1057 and R 323.1096 may be obtained at current costs as listed as follows:

(a) Report of the national technical advisory committee to the secretary of the interior, water quality criteria, 1968, may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, at cost of $3.00.

(b) Standard methods for the examination of water and wastewater may be obtained from the American Public Health Association, 1015 Eighteenth Street, N.W., Washington, D.C., 20036, at a cost of $35.00.

History: 1954 ACS 77, p. 25, Eff. Dec. 13, 1973.

PART 5. SPILLAGE OF OIL AND POLLUTING MATERIALS

R 323.1151 Definitions; A to O.

Rule 151. As used in this part:

(a) "Boom" means a floating containment device which may be rapidly positioned around an oil spill to prevent the movement or spread of such oil to adjacent water areas.

(b) "Oil" means oil of any kind or in any form, including, but not limited to, petroleum, gasoline, fuel oil, grease, sludge, oil refuse, and oil mixed with waste.

(c) "Oil spill clean-up cooperative" means an organization created by contractual agreement among persons engaged in on-loading and off-loading of oil and other persons, including governmental units, which provide and utilize booms and associated equipment to prevent the movement or spread of oil on the waters of this state in case of spillage thereof.

(d) "Oil storage facility" means a temporary or permanent land-based industry, plant, establishment, firm or other facility, except an oil field petroleum or brine storage facility and a recreational marina, so situated that oil could directly or indirectly reach the surface or ground waters of this state, including but not limited to, a facility which discharges through a sewer system, and which receives, processes, manufactures, stores, or ships oil, and has on hand at any time, oil in excess of 40,000 gallons or any other land-based facility which has on hand less than 40,000 gallons of oil if the commission determines that such facility should be subject thereto.

(e) "On-land facility" means a temporary or permanent land-based industry, plant, establishment, firm, storage site, or other facility so situated that loss of polluting materials could directly or indirectly reach the surface or ground waters

of this state, including, but not limited to, a facility which discharges through a sewer system, and which receives, processes, manufactures, stores, or ships polluting materials.

History: 1954 ACS 75, p. 22, Eff. Mar. 22, 1973.

R 323.1152 Definitions; P to V.

Rule 152. As used in this part:

(a) "Polluting material" means salt and any material listed on the critical materials register as prepared by the commission pursuant to section 6b of the commission act, in solid or liquid form.

(b) "Salt" means sodium chloride and calcium chloride in solid or liquid form.

(c) "Use area" means any area within an oil storage facility or on-land facility which is used for handling, treating, or processing oil or polluting materials.

(d) "Vessel" means a contrivance used or capable of being used for navigation upon water, whether or not capable of self-propulsion, including a foreign or domestic vessel engaged in commerce upon the waters of this state, and any other cargo carrying vessel or barge which transports oil or polluting material.

History: 1954 ACS 75, p. 22, Eff. Mar. 22, 1973.

R 323.1153 Vessels; booms for on-loading and off-loading oil.

Rule 153. Before oil is on-loaded or off-loaded through a conduit to or from a vessel on the waters of this state at an oil storage facility, booms, and associated equipment shall be available at the site to be positioned immediately to prevent the movement or spread of any oil on the waters of this state in case of the spillage thereof. Booms and associated equipment may be considered to be available at the site if the oil storage facility is a member of an oil spill clean-up cooperative which has received approval by the commission. Adequate personnel shall be available at all times to position the booms in the event of such spillage.

History: 1954 ACS 75, p. 22, Eff. Mar. 22, 1973.

R 323.1154 Oil storage facilities; booms for oil.

Rule 154. An oil storage facility, adjacent to a watercourse, which stores or in any way handles oil, shall have available adequate emergency boom systems and associated equipment for containment of such oil in case of spillage thereof. Booms and associated equipment may be considered to be available if the oil storage facility is a member of an oil spill clean-up cooperative which has received approval by the commission. Immediately upon spillage, the booms shall be positioned by the oil storage facility or oil spill clean-up cooperative until all oil is removed, or, in the judgment of the commission, the oil no longer poses a threat to the waters of this state. Adequate personnel shall be available at all times to position the booms in the event of spillage.

History: 1954 ACS 75, p. 23, Eff. Mar. 22, 1973.

R 323.1155 Oil storage and on-land facilities; surveillance.

Rule 155. (1) Upon any on-loading or off-loading of oil through a conduit to or from an oil storage facility, vessel, or other means of transport, adequate surveillance of the loading operation shall be maintained by the oil storage facility until all such operations are completed, so that any oil spillage can be immediately detected and procedures implemented to prevent its reaching the waters of this state.

(2) Oil storage and on-land facilities shall maintain adequate surveillance of all manufacturing processes, treatment systems, storage areas, and other such areas

Digitized by Google

so that oil spillage or polluting material loss therefrom can be immediately detected and procedures implemented to prevent its reaching the waters of this state.

(3) Any person employed by an oil storage or on-land facility for such surveillance shall be knowledgeable in operations and procedures necessary to prevent oil or polluting material from reaching the waters of this state.

History: 1954 ACS 75, p. 23, Eff. Mar. 22, 1973.

R 323.1156 Oil storage and use areas; emergency containment structures.

Rule 156. A storage or use area at an oil storage facility shall be diked, curbed, or otherwise structurally enclosed so as to be able to contain a volumetric capacity which is not less than the greatest amount of liquid that can be released from the largest tank within the diked area, assuming a full tank, unless a lesser containment area or alternate control measures are approved by the commission or its designated representative. The capacity of the diked area enclosing more than 1 tank shall be calculated by deducting therefrom the volume of the tanks other than the largest tank below the height of the dike. The area shall be so constructed that no oil can escape therefrom by gravity through sewers, drains, or otherwise directly or indirectly into any sewer system or to the surface or groundwaters of this state, unless otherwise approved by the commission or its designated representative.

History: 1954 ACS 75, p. 23, Eff. Mar. 22, 1973.

R 323.1157 Salt storage areas; emergency containment structure.

Rule 157. (1) Salt in liquid form stored at an on-land facility shall be diked, curbed, or otherwise structurally enclosed so as to be able to contain a volumetric capacity which is not less than the greatest amount of liquid that can be released from the largest tank within the diked area, assuming a full tank, unless a lesser containment area or alternate control measures are approved by the commission or its designated representative. The capacity of the diked area enclosing more than 1 tank shall be calculated by deducting therefrom the volume of the tanks other than the largest tank below the height of the dike. The area shall be so constructed that no salt can escape therefrom by gravity through sewers, drains, or otherwise directly or indirectly into any sewer system or to the surface or groundwaters of this state.

(2) Salt in solid form stored for more than 15 days at an on-land facility shall be enclosed, covered, or otherwise protected to prevent runoff, seepage, or leakage onto or into the surface or groundwaters of this state. Salt shall be stored not less than 50 feet from the shore or bank of any lake or stream unless otherwise required or approved by the commission.

History: 1954 ACS 75, p. 23, Eff. Mar. 22, 1973.

R 323.1158 Polluting material storage and use areas; emergency containment structures.

Rule 158. (1) A storage or use area at an on-land facility for polluting material, except salt, in a liquid form shall be diked, curbed, or otherwise structurally enclosed so as to be able to contain not less than 150% of the liquid polluting material stored or used unless a lesser containment area or alternate control measures are approved by the commission or its designated representative. The area shall be so constructed that no liquid polluting material can escape therefrom by gravity through building sewers, drains, or otherwise directly or indirectly into

any sewer system or the surface or groundwaters of this state, unless otherwise approved by the commission or its designated representative.

(2) Polluting material, except salt, in solid form stored at an on-land facility shall be located in security areas designed to prevent the loss of such materials to any sewer system or to the surface or groundwaters of this state.

History: 1954 ACS 75, p. 24, Eff. Mar. 22, 1973.

R 323.1159 Exceptions.

Rule 159. (1) The discharge of solutions containing limited concentrations of oil, salt or polluting materials to the waters of this state or to sanitary sewer systems as specified in permits or orders of determination or final orders of determination made by the commission in accordance with the provisions of the commission act, or as permitted by a local ordinance which has the concurrence of the state department of public health, is not prohibited by R 323.1156, R 323.1157, or R 323.1158.

(2) If the commission determines that an oil storage facility which has on hand less than 40,000 gallons of oil may be a hazard to the surface or groundwaters of this state, such facility may be subjected to these rules by a permit or order of determination of the commission.

History: 1954 ACS 75, p. 24, Eff. Mar. 22, 1973.

R 323.1162 Pollution incident prevention plan.

Rule 162. (1) The owner, operator or manager of an oil storage or on-land facility shall file with the commission within 180 days after the effective date of these rules, or 30 days before the date of first use in case of new construction, a pollution incident prevention plan setting forth:

(a) The procedures by which such person proposes to prevent pollution of the waters of this state from storage and use areas, manufacturing processes, treatment systems, and shipping of oil and materials.

(b) The emergency clean-up procedures to be used in case of a spill, discharge, seepage, runoff, or leakage of oil or polluting materials into the waters of this state.

(c) The type of surveillance employed by such person.

(d) The method by which inventories are made of oil and polluting materials from the time the oil or polluting material is received or manufactured until such time it is treated and discharged or shipped out by the oil storage or on-land facility.

(2) If the commission determines that a pollution incident prevention plan prepared pursuant to subrule (1) is incomplete or inadequate, it may return such plan to the owner, operator, or manager of an oil storage or on-land facility with its findings and recommendations and request modification thereof. The owner, operator, or manager of the oil storage or on-land facility shall modify and resubmit the pollution incident prevention plan to the commission within 30 days following the commission's request.

History: 1954 ACS 75, p. 24, Eff. Mar. 22, 1973.

R 323.1163 Oil spill clean-up cooperative members; change in status.

Rule 163. (1) If an oil storage facility which is a member of an approved oil spill clean-up cooperative withdraws from such cooperative, it shall notify the commission of its intention to withdraw and shall file a revised pollution incident prevention plan pursuant to R 323.1162 at least 30 days before the date of withdrawal.

(2) An oil storage facility shall not withdraw from the approved oil spill clean-up cooperative until the commission approves the revised pollution incident prevention plan submitted pursuant to subrule (1).

History: 1954 ACS 75, p. 24, Eff. Mar. 22, 1973.

R 323.1164 Pollution incident report.

Rule 164. The owner, operator, or manager of a vessel, oil storage facility, or an on-land facility which spills, or permits to be spilled, oil, salt, or polluting material shall immediately notify the commission and within 10 days after the spill shall file a report with the commission outlining the cause, its discovery, and the procedures taken to remove the oil, salt, or polluting material from the waters of this state. This rule does not supersede, rescind, or otherwise alter any other existing or future procedure, rule, or statute pertaining to pollution of the waters of this state.

History: 1954 ACS 75, p. 24, Eff. Mar. 22, 1973.

R 323.1169 Enforcement.

Rule 169. A person who violates any provision of this part is subject to the procedures and penalties prescribed in sections 7, 9, and 10 of the commission act.

History: 1954 ACS 75, p. 25, Eff. Mar. 22, 1973.

PART 6. CLEANING AGENTS AND WATER CONDITIONERS

R 323.1171 Definitions.

Rule 171. As used in this part:

(a) "Cleaning agent act" means Act No. 226 of the Public Acts of 1971, being §§323.231 to 323.236 of the Michigan Compiled Laws.

(b) "Constituent" means a compound or ingredient contained in the formula of a cleaning agent or water conditioner, other than phosphorus, identified by its common chemical name.

(c) "Person" means a manufacturer, processor, formulator, or packager who sells or distributes any cleaning agent or water conditioner for use in this state.

History: 1954 ACS 73, p. 21, Eff. Oct. 20, 1972.

R 323.1172 Exceptions.

Rule 172. The rules in this part apply to all cleaning agents and water conditioners as defined by the cleaning agent act, except:

(a) A cleanser, rinsing aid, or sanitizing agent intended primarily for use in an automatic or machine dishwasher.

(b) An industrial and commercial conversion coating agent, corrosion remover, paint remover, rust inhibitor, metal brightener, etchant, or other surface conditioner.

(c) A solvent cleaner or other similar product not normally used with water.

(d) A disinfectant or sanitizer used in institutions, hospitals, and health care facilities.

(e) A compound or product used in the manufacture or processing of foods and food products, including those used in dairy, beverage, egg, fish, poultry, meat, fruit, and vegetable processing facilities.

(f) A product intended primarily for personal use, including, but not limited to, bathing soaps, dentifrices, shampoos, cleansing creams, toothpastes, and other products for the care of the human body.

(g) A product subject to registration or control under federal or state law governing foods, drugs, cosmetics, insecticides, fungicides, and rodenticides.

(h) A product normally not used with water, such as a cleanser for windows, ovens, or other hard surfaces.

(i) A water softening chemical, anti-scale chemical, or corrosion inhibitor intended for use in circulatory systems, such as boilers, air conditioners, cooling towers, and hot water heating systems.

History: 1954 ACS 73, p. 21, Eff. Oct. 20, 1972.

R 323.1173 Statements of product constituents and restrictions.

Rule 173. (1) Before October 1, 1972, a person engaged in the sale or distribution of cleaning agents or water conditioners shall file with the commission a written statement setting forth the percentage of phosphorus by weight for each product, expressed as elemental phosphorus, and setting forth the chemical names of all constituents in all such products sold or distributed by a person in this state.

(2) After September 30, 1972, a person shall not sell or distribute a new, reformulated, or altered cleaning agent or water conditioner unless he first has filed with the commission:

(a) A written statement setting forth the percentage of phosphorus by weight, expressed as elemental phosphorus, and the chemical names of all constituents in such product not previously filed with the commission under subrule (1).

(b) A written statement that a cleaning agent or water conditioner is not likely to cause unlawful pollution or other conditions or injuries as described in sections 3 and 4 of the cleaning agent act.

(3) A person shall furnish additional information about any constituent contained in a cleaning agent or water conditioner, upon request by the commission, if the commission determines that the information is necessary to protect the waters of the state from unlawful pollution or other injuries as described in sections 3 and 4 of the cleaning agent act.

(4) After October 1, 1977, a person shall not sell or distribute for use in this state a household laundry detergent which contains phosphorus in any form in excess of 0.5% by weight, expressed as elemental phosphorus.

History: 1954 ACS 73, p. 22, Eff. Oct. 20, 1972; 1954 ACS 93, p. 25, Eff. Sept. 24, 1977.

R 323.1174 Confidentiality of information.

Rule 174. Information filed with the commission pursuant to R 323.1173 shall be used by the commission only as the information is necessary to implement the commission's function and duty as prescribed by the cleaning agent act. The information shall be treated as confidential trade secret information in accordance with section 22 of Act No. 306 of the Public Acts of 1969, as amended, being §24.222 of the Michigan Compiled Laws, and shall not be made available to the public except as provided therein.

History: 1954 ACS 73, p. 22, Eff. Oct. 20, 1972.

R 323.1175 Statements and determinations; proofs and consultation.

Rule 175. (1) A statement filed with the commission pursuant to R 323.1173 may be contested by the commission if it determines that a cleaning agent or water conditioner is causing or is likely to cause unlawful pollution or other injuries as defined in sections 3 and 4 of the cleaning agent act.

(2) In determining whether a cleaning agent or water conditioner is causing or is likely to cause unlawful pollution or other injuries as defined in the cleaning agent act, the commission may seek the counsel and advice of the director of the

department of public health on the health or safety of any users of the cleaning agent or water conditioner and of any state or federal agency or educational institution as to any harmful effect upon animals, aquatic life, or beneficial water uses.

(3) A contest asserted by the commission shall be noticed, heard, and determined in accordance with part 3 of these rules.

History: 1954 ACS 73, p. 22, Eff. Oct. 20, 1972.

R 323.1180 Commission requests; hearings; determinations.

Rule 180. The commission may request the reduction or removal of a constituent or chemical by a person if the commission believes that the use of the constituent or chemical in a cleaning agent or water conditioner, under conditions of intended or probable use, is likely to cause a water pollution or public health problem. The commission may issue an order of determination regulating or banning the product or constituent after hearing held in accordance with part 3 of these rules, unless procedure is otherwise prescribed in this part, if voluntary reduction or removal is not accomplished as requested.

History: 1954 ACS 73, p. 22, Eff. Oct. 20, 1972.

R 323.1181 Hearings, notices, and appearances.

Rule 181. (1) When the commission determines that a restriction on the nutrient content or other constituent of a cleaning agent or water conditioner is necessary to abate or prevent injury defined in sections 3 and 4 of the cleaning agent act, the commission shall notify the person affected by certified mail and set a date for a hearing on the facts and proposed action. The hearing shall be held in accordance with part 3 of these rules.

(2) An appearance at a hearing shall be made in person by a duly authorized agent or by counsel.

History: 1954 ACS 73, p. 23, Eff. Oct. 20, 1972.

PART 9. WASTEWATER REPORTING AND SURVEILLANCE FEES

R 323.1231 Definitions; A to C.

Rule 231. (1) "Act" means Act No. 245 of the Public Acts of 1929, as amended, being §§323.1 to 323.13 of the Michigan Compiled Laws, and the act which these rules implement.

(2) "Advisory committee" means the group of environmental specialists created under section 6b of the act.

(3) "Commission" means the water resources commission of the department of natural resources.

(4) "Critical materials" means organic and inorganic substances, elements or compounds which are listed in a register compiled by the commission.

History: 1954 ACS 69, p. 49, Eff. Nov. 1, 1971.
Editor's note: R 323.1231—R 323.1242 were transferred from R 323.41—R 323.52. See 1954 ACS 72, p. 37.

R 323.1232 Definitions; H to W.

Rule 232. (1) "Hazardous materials" means oil and salt, including, but not limited to, petroleum, gasoline, fuel oil, grease, sludge, oil refuse, oil mixed with waste, sodium chloride, and calcium chloride, in solid or liquid form.

(2) "Legislative appropriations conversion factor" means a factor which is used to adjust surveillance fees upward or downward, so that the total of annual surveillance fees will equal the legislative appropriation designated for industrial and commercial surveillance activities for a fiscal year.

(3) "Person" means an individual, partnership, association, corporation, or any commercial or industrial entity doing business in the state which discharges wastewaters, but does not include a municipal corporation or a governmental unit or agency thereof.

(4) "Sewer system" means enclosed pipes and conduits which conduct wastewater to a wastewater treatment facility and are owned or operated by county, metropolitan district, city, village or other public body created by or pursuant to state law.

(5) "Wastewater" means both liquid waste discharges resulting from industrial or commercial processes, including cooling and condensing waters and sanitary sewage from industrial or commercial facilities.

(6) "Waters of the state" means surface and underground waters, including lakes, rivers, streams, open drainage conduits, and all other watercourses and waters within the state and also the Great Lakes bordering thereon, except non-potable underground waters utilized incidental to gas and oil well operations that are subject to permit and surveillance under Act No. 61 of the Public Acts of 1939, as amended, being §§319.1 to 319.27 of the Michigan Compiled Laws.

History: 1954 ACS 69, p. 49, Eff. Nov. 1, 1971; 1954 ACS 77, p. 25, Eff. Oct. 19, 1973.

R 323.1233 Register of critical materials.

Rule 233. A register of critical materials as initially compiled by the commission shall be published during the month of October, 1971, by 1 of the methods prescribed by section 42 of Act No. 306 of the Public Acts of 1969, being §24.242 of the Michigan Compiled Laws. Copies shall be made available to the public upon request. The register may be revised annually by the commission upon receipt of advice from the advisory committee. A revision shall be published in the same manner as the initial register and shall become effective only on the next annual anniversary date thereof.

History: 1954 ACS 69, p. 49, Eff. Nov. 1, 1971; 1954 ACS 77, p. 26, Eff. Oct. 19, 1973.

R 323.1234 Wastewater reports; contents; forms.

Rule 234. (1) A report shall be filed under section 6b and section 13 of the act by every person doing business within this state who either discharges wastewater to the waters of the state, or who discharges wastewater in addition to sanitary sewage to a sewer system. The report shall be on forms provided by the commission and shall set forth in detail:

(a) Name, location, and nature of the enterprise or operation.

(b) Normal schedule of hours and days of operation of the enterprise.

(c) A fair estimate of the annual total number of gallons of wastewater which are to be discharged to the waters of the state or to any sewer system.

(d) Name of the watercourse or waters into which the wastewaters are discharged.

(e) A description of each point at which wastewaters enter the waters of the state, a sewer system, or are disposed of by percolation underground.

(f) A list of those materials used in and incidental to operation of the business or manufacturing enterprise, which appear on the register of critical materials.

(g) A list of those critical materials listed on the register, including the annual amounts thereof, which are to be disposed of as waste products or by-products to the waters of the state, or any sewer system.

(h) Other information as needed for implementation of sections 6b and 13 of the act.

(2) Not later than October 1 of the year for which reports are due, the commission shall mail a standardized reporting form and a register of critical materials to each person affected by section 6b and these rules.

History: 1954 ACS 69, p. 49, Eff. Nov. 1, 1971; 1954 ACS 77, p. 26, Eff. Oct. 19, 1973.

R 323.1235 Wastewater reports; filing and confidentiality.

Rule 235. (1) A wastewater report shall be filed annually with the commission not later than December 15. The reporting period is the calendar year in which the report is filed.

(2) An interim report shall be filed promptly when:

(a) The use of critical materials not previously reported is commenced during any year, or

(b) The amounts of critical materials used or discharged increase sufficiently to move the level of usage into a higher category on the annual critical materials report.

(3) A person doing business in more than 1 location shall file a separate report for each location.

(4) The information on the critical materials listed in an annual report as being used in and incidental to manufacturing operations shall be available to the public unless the release thereof would, in the opinion of the commission after petition by the person filing the report, fail to protect the confidentiality of proprietary manufacturing processes.

History: 1954 ACS 69, p. 50, Eff. Nov. 1, 1971; 1954 ACS 77, p. 26, Eff. Oct. 19, 1973.

R 323.1236 Surveillance fees calculation.

Rule 236. (1) The annual surveillance fee shall be calculated by the following formula: annual fee = $50.00 administrative fee + (graduated volume base fee × survey factor).

(2) A legislative appropriations conversion factor may be applied by the commission to all annual surveillance fees for the fiscal year to adjust the total amount of fees to be received to the legislative appropriation designated for industrial and commercial surveillance activities for that fiscal year.

(3) The maximum fee for each industrial or commercial location shall be $9,000.00.

History: 1954 ACS 69, p. 50, Eff. Nov. 1, 1971; 1954 ACS 77, p. 27, Eff. Oct. 19, 1973.

R 323.1237 Volume base fees.

Rule 237. The volume base fee shall be on a graduated basis as follows:

Average Wastewater Discharge Volume Based on Days When Discharge Occurs (Million Gallons Per Day)			Volume Base Fee
	less than	.002	$ 10.00
.002	but less than	.003	15.00
.003	but less than	.005	20.00
.005	but less than	.010	25.00
.010	but less than	.025	30.00
.025	but less than	.050	40.00
.050	but less than	.075	50.00
.075	but less than	.1	65.00
.1	but less than	.2	80.00
.2	but less than	.3	100.00

R 323.1238 Survey factor.

Rule 238. (1) Determination of the survey factor used in calculation of a surveillance fee shall be based upon the following subfactors:

(a) The flow variability of waste effluent flow.

(b) The volume of the waste effluent flow related to flow conditions in the receiving waters.

(c) The waste effluent as related to the critical nature of the receiving water as indicated by its protected designated uses for public water supplies, cold water intolerant fish, total body contact, warm water intolerant fish, industrial water use and commercial water use.

(d) The waste constituents to be monitored. This factor shall include the number of constituents to be monitored in addition to the relative costs of collection and analysis.

(e) The frequency of surveillance required as related to the presence of critical materials.

(f) The frequency of surveillance as related to the recent history of facility performance.

(g) The facility's provisions for the handling and containment of hazardous and critical materials.

(h) The number of locations at which wastewater is discharged from the facility.

(i) The difficulty of survey setup, including, but not limited to, the physical and geographical problems encountered in surveillance.

(j) The amount of surveillance to be conducted in the area where the wastewater is discharged.

(2) The survey factor shall not be less than 1.0.

History: 1954 ACS 69, p. 50, Eff. Nov. 1, 1971; 1954 ACS 77, p. 27, Eff. Oct. 19, 1973.

R 323.1239 Contested fees.

Rule 239. A person who contests a fee established by the commission shall be afforded opportunity for a hearing thereon in accordance with Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws, and the commission rules of procedure.

History: 1954 ACS 69, p. 51, Eff. Nov. 1, 1971.

R 323.1240 Notices of fees due.

Rule 240. On or before February 1 of each year, the commission shall notify each person owing a surveillance fee of the amount thereof which is due. The

notice shall set forth the administrative fee and the calculations used in establishing the total fee due. If an assessment is added to the administrative fee for wastewater discharges to a sewer system, the notice shall specify the substances in the waste which are likely to create injuries to the waters of the state after the treatment provided by the municipality or other government unit.

History: 1954 ACS 69, p. 51, Eff. Nov. 1, 1971; 1954 ACS 77, p. 28, Eff. Oct. 19, 1973.

R 323.1241 Exemptions from surveillance fees.

Rule 241. A person whose wastewater discharges are less than 2,000 gallons per day if made to the ground, or are less than 10,000 gallons per day if made to a sewer system, or consist only of sanitary sewage discharged to a sewer system, is exempt from payment of the annual surveillance fee on such discharges unless, in the opinion of the commission, they require surveillance by the state.

History: 1954 ACS 69, p. 51, Eff. Nov. 1, 1971; 1954 ACS 77, p. 28, Eff. Oct. 19, 1973.

R 323.1242 Violations.

Rule 242. (1) A person who fails to file timely an annual or interim report, falsifies or fails to provide any information required by R 323.1234, after being notified by certified mail thereof by the commission, shall have 10 days, after the date of mailing thereof, in which to file the report or corrected or supplemental information. Upon failure to comply, the commission may notify the person of the alleged violation and set a date for a hearing thereon to show cause why operation of the business or industry should not be enjoined. After the hearing, the commission shall determine if a violation exists and the action to be taken thereon.

(2) R 323.3, with reference to appearances, and R 323.6, with reference to the designation of a hearings officer, of the general rules of the commission apply to a hearing held under this rule.

(3) A person who does not pay the surveillance fee in full on or before March 1 of each year, commencing March 1, 1972, is subject to penalties specified in section 10 of the act.

History: 1954 ACS 69, p. 51, Eff. Nov. 1, 1971.
Editor's note: R 323.1231—R 323.1242 were transferred from R 323.41—R 323.52. See 1954 ACS 72, p. 37.

PART 10. TREATMENT PLANT OPERATORS

R 323.1251 Purpose.

Rule 251. Section 6a of Act No. 245 of the Public Acts of 1929, as added by Act No. 209 of the Public Acts of 1968 and amended by Act No. 129 of the Public Acts of 1972, being §323.206a of the Michigan Compiled Laws, requires that every industrial or commercial entity which discharges liquid wastes into any surface or ground waters or underground or on the ground other than through a public sanitary sewer shall have waste treatment or control facilities under the specific supervision and control of persons who have been certified by the water resources commission as being properly qualified to operate the facilities. These rules set forth the requirements for certification of such operators.

History: 1954 ACS 62, p. 14, Eff. May 18, 1970; 1954 ACS 77, p. 28, Eff. Sept. 21, 1973.
Editor's note: R 323.1251—R 323.1259 were transferred from R 323.21—R 323.29. See 1954 ACS 72, p. 37.

R 323.1252 Definitions.

Rule 252. (1) "Board" means the board of examiners established by the commission.

(2) "Certificate" means a document issued by the commission attesting that a person is properly qualified to operate or supervise the operation of certain designated waste treatment or control facilities.

(3) "Owner" means an industrial or commercial entity which discharges liquid wastes into any surface or ground waters or underground or on the ground other than through a public sanitary sewer.

(4) "Public sanitary sewer" means an enclosed pipe or conduit intended to carry wastewater from homes, businesses, and industries and is owned, operated, and maintained by a city, village, township, county, authority, or other municipal entity.

(5) "Waste treatment or control facilities" means any disposal system, including disposal wells, or any treatment works, equipment, machinery, or installation constructed, used, or placed in operation for the purpose of reducing or eliminating water pollution caused by industrial waste or any device or equipment for retaining, metering, regulating, or monitoring a wastewater discharge, except that this rule shall not apply to water, gas, or other material which is injected into a well to facilitate production of oil or gas, or water derived in association with oil or gas production and disposed of in a well, if the well is used either to facilitate production or for disposal purposes and is under permit by the state supervisor of wells.

History: 1954 ACS 62, p. 14, Eff. May 18, 1970; 1954 ACS 77, p. 28, Eff. Sept. 21, 1973.

R 323.1253 Classification of waste treatment or control facilities.

Rule 253. (1) Each waste treatment or control facility shall be classified by the commission as to type. The commission shall notify the owner of the waste treatment or control facility of its classification by issuing a certificate of classification. An owner who objects to the assigned classification may appeal to the commission in accordance with the commission's rules of procedure. Upon appeal, the commission shall schedule a hearing and request the owner to present evidence to support his claim. After the hearing, the commission shall determine the proper waste treatment or control facility classification.

(2) Classifications shall be of 3 types, described as physical, chemical, and biological. Each of these classifications shall be further subdivided into at least 3 subclassifications, with the more complex facilities assigned the higher numbers.

EXAMPLES OF WASTE TREATMENT
OR CONTROL FACILITIES CLASSIFICATIONS

A. PHYSICAL

Subclassification No. 1
- Plain sedimentation
- Screening
- Spray pond
- Skimming
- Gravity separation
- Flotation
- Impoundment, regulated discharge
- Impoundment, without discharge
- Land surface disposal
- Subsurface disposal
- Deep well injection

Subclassification No. 2
- Filtration
- Thermo control, cooling towers
- Incineration, land disposal
- Radioactivity monitoring
- Air flotation
- Gas stripping
- Centrifuging
- Discharge measuring and monitoring

Subclassification No. 3
- Wet oxidation
- Membrane filtration

B. CHEMICAL

Subclassification No. 1
- Sludge conditioning
- Neutralization
- Evaporation, condensation
- Adsorption
- Absorption

Subclassification No. 2
Chemical coagulation
Precipitation
Emulsion breaking
Ion exchange
Subclassification No. 3
Chemical oxidation, reduction
Chemical recovery

C. BIOLOGICAL
Subclassification No. 1
Extended aeration
Aerated lagoons
Natural stabilization basin
Subclassification No. 2
Disinfection
Trickling filters
Aerobic and anaerobic digestion
Subclassification No. 3
Activated sludge

History: 1954 ACS 62, p. 15, Eff. May 18, 1970; 1954 ACS 77, p. 29, Eff. Sept. 21, 1973.

R 323.1254 Board of examiners.

Rule 254. The commission shall appoint a 5-member board of examiners, of which 1 member shall be a member of the staff of the commission, 1 shall be a member of the staff of the Michigan department of public health, 1 shall be an owner of a commercial or industrial enterprise which operates a waste treatment facility or an employee of such an owner, 1 shall be a holder of a certificate to operate or supervise the operation of a waste treatment facility, and 1 shall be chosen at large. Of the members first appointed, 1 shall be appointed for a term of 1 year, 2 for terms of 2 years and 2 for terms of 3 years. Thereafter, each member shall be appointed for a term of 3 years. At its first meeting in each calendar year, the board shall select from its membership a chairman and such other officers as may be needed to conduct its business. Members of the board shall be reimbursed for their actual and necessary expenses in transacting board business.

History: 1954 ACS 62, p. 16, Eff. May 18, 1970.

R 323.1255 Applications and examinations.

Rule 255. (1) A person desiring to be certified in 1 or more of the classifications shall file an application with the commission at least 30 days before the established date of the examination on an application form provided by the commission. The information included therein shall constitute a part of the examination.

(2) The board, shall, under the direction of the commission, examine applicants for certification in order to determine their ability and qualifications, at such times and places as it designates and in accordance with the provisions of these rules. Examinations shall be held at least annually. Sixty days' notice of the examination date shall be given. The board, as a result of the examination and the requirements of the act, shall recommend to the commission the issuance or non-issuance of certificates.

(3) The commission may maintain reciprocal certification with other states.

History: 1954 ACS 62, p. 16, Eff. May 18, 1970.

R 323.1256 Qualifications for certification.

Rule 256. (1) The board may recommend for certification, following an oral examination and such other examinations, including an evaluation of the applicant's experience, as the board may require, persons with the following qualifications:

(a) Minimum requirements, all types of classification no. 1:

(i) The ability to read and write.

(ii) Comprehension of the principles and problems of management of the treatment process and facilities.

(iii) The ability to perform arithmetic calculations necessary to operate the waste treatment or control facility, and prepare the required report to the commission.

(b) Minimum requirements, all types of classification no. 2:

(i) The equivalent of a high school education with the equivalent of high school chemistry.

(ii) Comprehension of the principles and problems of management of the treatment process and facilities.

(iii) The ability to perform arithmetic calculations necessary to carry out the operation of the waste treatment or control facility, and prepare the required report to the commission.

(c) Minimum requirements, all types of classification no. 3:

(i) The equivalent of 2 years of college education in engineering, chemistry, biological sciences, or allied field. Graduation from high school and with at least 4 courses in post-high school level chemistry or biological sciences, or both, may be considered to be equivalent.

(ii) Comprehension of the principles and problems of management of the treatment process and facilities.

(2) The board may recommend for certification in an appropriate classification, without written examination, or with oral examinations at the board's option, persons having the following qualifications:

(a) Applicants who are registered professional engineers in Michigan and have at least 2 years' experience in the water pollution control or waste treatment field.

(b) Applicants who have a bachelor of science or higher degree in engineering, chemistry, biological sciences, or allied field and have at least 3 years' experience in the water pollution control or waste treatment field.

(c) Applicants who hold a classification no. 1 or no. 2 certificate, have at least 5 years' experience in the water pollution control or waste treatment field, have proved their competence in their present classification, and have successfully completed advanced courses in 1 or more of the following: chemistry, biological sciences, and waste treatment operation.

(3) Oral examinations, when held by the board, shall determine the overall knowledge of the applicant in regard to the operation of the type of facility the applicant will be responsible for, and the possible effects of discharge of untreated or inadequately treated waste upon the waters receiving the plant effluent.

(4) The commission may deny a certificate to a person who has given false information in his application or who has been guilty of fraudulent practices in his examination. This denial, or any other denial of a certificate, may be appealed from in accordance with the commission's rules of procedure.

History: 1954 ACS 62, p. 16, Eff. May 18, 1970; 1954 ACS 77, p. 30, Eff. Sept. 21, 1973.

R 323.1257 Renewal and revocation of certificates.

Rule 257. (1) A certificate is valid for 5 years from the next July 1 after the date of issuance. On or after January 1 of the year in which a certificate expires, the certified person may apply for renewal thereof. The commission may waive reexamination if the certified operator's operation record justifies such exceptions. Failure to apply for renewal shall result in termination of such certification. The commission shall notify the certified operator and the owner as to the action it has taken.

(2) If the certificate of an operator is not renewed within 30 days after its renewal date, the commission shall give notice of the nonrenewal to the owner

Digitized by Google

and the operator and 30 days thereafter certification shall be terminated unless application for renewal has been received in the interim.

(3) The commission may revoke the certificate of a person who, after a hearing, is adjudged incompetent or unable to properly perform the duties of operator in his classification, or who has practiced fraud or falsification or who has been negligent in the discharge of his duties. Notice of revocation shall be given to the owner and to the person whose certification is being revoked.

History: 1954 ACS 62, p. 17, Eff. May 18, 1970.

R 323.1258 Persons in responsible charge and changes.

Rule 258. (1) An owner shall designate a certified operator to be in responsible charge of the day-to-day operation of each waste treatment facility, and shall inform the commission of the designation. The owner may replace the designated operator with another properly certified operator at any time and shall notify the commission within 10 days after the replacement.

(2) A certified operator who changes his address or place of employment shall notify the commission thereof within 30 days after the change.

History: 1954 ACS 62, p. 17, Eff. May 18, 1970.

R 323.1259 Reports.

Rule 259. The person in responsible charge of a waste treatment or control facility shall file with the commission, each month or at such longer interval as the commission may designate, on forms provided by the commission, operating reports showing the effectiveness of the treatment facility operation and the quantity and quality of liquid wastes discharged into any surface or ground waters or underground or on the ground other than through a public sanitary sewer. When the person in responsible charge is not available to file the report, the owner may appoint a substitute suitable to the commission to file the report.

History: 1954 ACS 62, p. 17, Eff. May 18, 1970; 1954 ACS 77, p. 30, Eff. Sept. 21, 1973.
Editor's note: R 323.1251—R 323.1259 were transferred from R 323.21—R 323.29. See 1954 ACS 72, p. 37.

PART 11. CONSTRUCTION GRANTS FOR WASTEWATER TREATMENT WORKS

R 323.1271 Purpose.

Rule 271. It is the purpose of these rules to establish policies and procedures for determining the priority of 1 municipality over another to receive state and federal financial assistance for the construction of wastewater treatment works projects.

History: 1954 ACS 81, p. 28, Eff. Oct. 28, 1974.
Editor's note: Former R 323.1271—R 323.1286, deriving from 1954 ACS 72, pp. 37-41, and 1954 ACS 76, pp. 15-17, and pertaining to state grants for treatment works, were rescinded by 1954 ACS 81, p. 32. Notwithstanding the rescission of R 323.1271—R 323.1286, those rules continue to apply to projects which received grants pursuant to their provisions.

R 323.1272 Definitions; C to F.

Rule 272. As used in this part:

(a) "Commission" means the water resources commission of the department, or its designated agent.

(b) "Designated uses" means those uses described by part 4 of the General Rules of the commission, being R 323.1041 to R 323.1116 of the Michigan Administrative Code.

(c) "Director" means the director of the department.

(d) "EPA" means the United States environmental protection agency.

(e) "Federal act" means the federal water pollution control act (33 U.S.C. 1251 et seq.), as last amended by United States Public Law 93-243.

(f) "Finding by the commission" means a pollution abatement order; a stipulation for abatement of pollution; or a condition of a permit requiring new or increased pollution control facilities issued by the commission; or other action by the commission or the director which certifies a need for new or increased water pollution control facilities pursuant to the provisions of Act No. 245 of the Public Acts of 1929, as amended, being §§323.1 to 323.13 of the Michigan Compiled Laws, Act No. 98 of the Public Acts of 1913, as amended, being §§325.201 to 325.213 of the Michigan Compiled Laws, the state act, or the federal act.

History: 1954 ACS 81, p. 28, Eff. Oct. 28, 1974.

R 323.1273 Definitions; G to S.

Rule 273. As used in this part:

(a) "Great lakes and connecting waterways" means Lake Superior, Lake Michigan, Lake Huron, Lake Erie, the St. Marys river, the Detroit river, the St. Clair river, Lake St. Clair, and the Keweenaw waterway.

(b) "Project" means the scope of work for which state and federal grant assistance is awarded. For the purpose of this part, the scope of work shall be defined as step 1, step 2, or step 3 of treatment works construction or segments thereof.

(c) "Public health hazard" means a serious community or areawide hazard as determined by the commission based on evidence and documentation supplied by the applicant.

(d) "Seven day, 10-year drought flow" means the annual minimum average flow for 7 consecutive days which has a 90% chance of being equalled or exceeded in any year.

(e) "Sewage discharge" means the discharge of sanitary wastes from a residence, commercial establishment, industrial plant, or institution. The discharge may be in combination with industrial wastes or storm waters.

(f) "State act" means Act No. 329 of the Public Acts of 1966, as amended, being §§323.111 to 323.128 of the Michigan Compiled Laws.

(g) "Stream segment" means that portion of a river, stream, or lake of the state which makes up the receiving water for a wastewater discharge.

History: 1954 ACS 81, p. 28, Eff. Oct. 28, 1974.

R 323.1275 Grant application and hearing procedures.

Rule 275. (1) Grant applications shall be filed pursuant to the provisions of subsection (2) of section 16 of the state act on forms prescribed by EPA. The commission, at its discretion, may require separation or combination of applications or application amendments.

(2) The basic application (step 1, preparation of facilities plans and related elements) and amendments to the basic application for subsequent related projects (step 2, preparation of construction drawings and specifications; and step 3, fabrication and building of a treatment works) shall be filed in the same 3-step sequence in which the construction of treatment works is generally accomplished and shall meet the requirements prescribed by R 323.1276.

(3) Pre-application assistance, including, where appropriate, a pre-application conference, may be requested by the applicant from the commission or EPA.

History: 1954 ACS 81, p. 29, Eff. Oct. 28, 1974.

R 323.1276 Application contents and amendments.

Rule 276. (1) The basic grant application and subsequent application amendments shall include the items specified in the federal construction grant regulations. (Title 40, Chapter 1, subchapter B, Part 35, subpart E, Section 35.920-3(a)(b)(c)). A copy of these regulations shall be provided each prospective applicant along with the application forms.

(2) In addition to the items required by subrule (1), applications for step 1 grants shall include the following information:

(a) The proposed service area.

(b) The estimated existing population of the proposed service area and the basis of estimate.

(c) The estimated average daily sewage discharge and the basis of the estimate.

(d) The point of discharge to the surface or groundwaters of the state. In the case of a discharge to a surface water, the name thereof shall be provided.

History: 1954 ACS 81, p. 29, Eff. Oct. 28, 1974.

R 323.1278 Priority establishment; classification of step 1 projects.

Rule 278. Applications for step 1 grants shall be classified according to the nature of the waste discharge or the nature of the pollution problem to be corrected, or both, by a proposed project. The order of priority shall be classified as follows:

(a) Projects which are necessary to eliminate or correct a sewage discharge pursuant to a finding by the commission.

(b) Projects which will eliminate or correct documented serious public health hazards in sewered or unsewered communities.

(c) Projects which will permit the lifting of a sewer ban invoked pursuant to the provisions of Act No. 98 of the Public Acts of 1913, as amended.

(d) Projects which are necessary to correct a stormwater discharge pursuant to a finding by the commission.

(e) Projects which will correct a discharge of combined sewage.

(f) All other projects.

History: 1954 ACS 81, p. 29, Eff. Oct. 28, 1974.

R 323.1279 Priority establishment; project ranking within classes of step 1 grants.

Rule 279. (1) Projects classified in accordance with R 323.1278 shall be assigned priority points within classes subject to the following criteria and procedures:

(a) Population served ranking points. The present population to be served by each project shall be determined and listed in descending order of magnitude. The largest population shall be awarded n points where n is equal to the total number of applications. The second largest population shall be awarded n-1 points, and other projects in descending order down to the smallest population which shall be awarded 1 point.

(b) Designated use points. Priority points shall be assigned to each project based on the designated use of the surface receiving waters below the wastewater discharge. On-land disposal systems which are incapable of discharging to surface waters shall be assigned points for a groundwater discharge. Priority points shall be assigned as follows:

(i) Domestic water supply—groundwater discharge: 1.0 X n.

(ii) Domestic water supply—surface water discharge: 1.0 X n.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

(iii) Total body contact and coldwater fish species: .67 X n.

(iv) Total body contact and warmwater fish species: .5 X n.

(v) Partial body contact and coldwater fish species: .5 X n.

(vi) Partial body contact and warmwater fish species: .33 X n where n is equal to the total number of applications.

(c) Drought flow ratio ranking points. Priority points shall be assigned each project by first determining the ratio of either the annual average daily sewage discharge, or the monthly average daily sewage discharge during anticipated drought flow time periods, whichever is greater, to the 7-day, 10-year drought flow in the receiving waters immediately above the point of discharge. The ratios shall then be ranked in descending order with the largest ratio awarded n points, where n is equal to the total number of applications. The next largest ratio shall be awarded n-1 points and others in descending order down to the smallest ratio which shall be awarded 1 point. The 7-day, 10-year drought flow for the Great Lakes and the groundwaters of the state shall be considered to be infinite for purposes of this calculation. The drought flow of lakes other than the Great Lakes shall be considered to be the 7-day, 10-year drought flow of the main river or stream flowing out of the lake. If a lake has no outflowing river or stream, the lake shall be considered to have a 7-day, 10-year drought flow equal to zero.

(d) High quality effluent points. Each project shall be evaluated to determine if an effluent quality greater than secondary treatment with phosphorus removal is required. Secondary treatment is as defined in 40 C.F.R. 133, section 102, or any subsequent amendment thereto. All projects requiring greater than secondary treatment with phosphorus removal shall receive .5 times n points, where n is equal to the total number of applications listed. Projects which do not require more than secondary treatment with phosphorus removal shall have zero points added to their points total. Grant applications from a local governmental unit where no treatment facility currently exists shall be similarly evaluated to determine if the proposed treatment facility will require greater than secondary treatment with phosphorus removal.

(e) Great Lakes and connecting waterway discharge points. Priority points shall be assigned to each project which discharges wastewater directly to the Great Lakes or their connecting waterways. Projects discharging to the Great Lakes and their connecting waterways shall receive n points where n is equal to the total number of applications.

(f) Groundwater disposal points. Priority points shall be assigned to each project which proposes to use a disposal system which is incapable of discharging to surface waters. Those projects shall be assigned .5 X n points, where n is equal to the total number of applications.

(g) Segment priority points. Priority points shall be assigned to each project based on the stream segment priority ranking for the receiving waters as contained in the latest approved continuing planning process. The following formula shall be used to determine the priority points to be assigned:

Segment rank points = .01n (A—X)

Where n is equal to the total number of applications.

A is the total number of segments.

X is the segment rank for the area in which the project is located.

(2) The total priority points assigned to each project, within classes, shall be the sum of the points determined from the 7 factors defined in subrule (1). The ranking within each class shall be in numerically descending order with the project receiving the highest total points at the top of the ranking. Ties within classes shall be eliminated by assigning the higher ranking first to the project with

the larger population and second to projects with the greater daily wastewater discharge.

History: 1954 ACS 81, p. 29, Eff. Oct. 26, 1974.

R 323.1280 Priority establishment; assignment of total priority points to step 1 grant projects.

Rule 280. (1) Weighted factors shall be assigned to each of the classes described in R 323.1278 in accordance with the following schedule:

(a) Class—1 weighted factor 2.0.
(b) Class—2 weighted factor 1.8.
(c) Class—3 weighted factor 1.6.
(d) Class—4 weighted factor 1.4.
(e) Class—5 weighted factor 1.2.
(f) Class—6 weighted factor 1.0.

(2) Total priority points assigned to each project shall be the product of the weighted factor prescribed by subrule (1) derived from the classification of each project times the sum of 7 factors used to rank the projects within the assigned class.

History: 1954 ACS 81, p. 30, Eff. Oct. 26, 1974.

R 323.1283 Step 2 and step 3 grants.

Rule 283. (1) A yearly evaluation of treatment works projects which are included in a facilities plan and which otherwise conform to all applicable state and federal statutory and regulatory requirements shall precede the assignment or priority points. The evaluation shall establish single projects or a multiple number of projects which will provide a systematic solution to the cost-effective conclusions determined by each facilities plan.

(2) Projects which have been established by the evaluation of an approved facilities plan shall be classified according to class (a) of subsection (2) of section 12 of the state act.

(3) Priority point assignments for all projects in class (a) of subsection (2) of section 12 of the state act shall be in accordance with and subject to the procedures for the establishment of priorities for applications for step 1 grants as prescribed by R 323.1278 to R 323.1280.

History: 1954 ACS 81, p. 31, Eff. Oct. 26, 1974.

R 323.1284 Priority list establishment.

Rule 284. (1) Prior to January 1 of each year, the commission shall assign priority points to each step 1 application and each project eligible for a step 2 or step 3 application amendment.

(2) The listing of projects in order of priority shall be accomplished by assembling a single list of step 1, step 2, step 3 projects in numerically descending order using the total priority points assigned to each project, beginning with the project with the highest total priority points at the top. If 2 or more projects receive the same priority point total, the project which is assigned to the higher class shall be deemed to be higher in priority.

(3) Where 2 or more dependent projects of different priority ranking are proposed by 2 or more political subdivisions within the scope of 1 facilities plan, they shall be assigned the same priority as the highest ranked member of the group.

(4) Following preparation of the lists, the commission shall schedule and hold 1 or more public hearings for the purpose of affording applicants adequate

opportunity to comment and express their views thereon. After consideration of the comments and views expressed at the public hearings, the commission shall formally approve the lists and shall identify the applications and application amendments proposed for funding. Hearings conducted pursuant to this subrule shall be in accordance with and subject to Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws, and regulations promulgated by EPA pursuant to the federal act.

(5) Prior to January 15 of each year, the approved priority lists identifying the applications proposed for funding shall be submitted to both houses of the legislature and to the appropriations committees thereof.

History: 1954 ACS 81, p. 31, Eff. Oct. 26, 1974.

R 323.1285 Reservation of funds for step 1 grants.

Rule 285. (1) Commencing with fiscal year 1975 and continuing each fiscal year thereafter, the commission may reserve not more than 10% of each year's grant allotment to the state for the purpose of providing financial assistance to eligible municipalities for step 1 grants.

(2) The percentage of the state's grant allotment to be reserved for this purpose shall be determined annually by the commission after considering such factors as the total amount of grant funds available for allocation in relation to the needs for funding projects for step 2 and step 3 grant amendments.

(3) The number of projects approved annually for step 1 grants shall be sufficient to assure an orderly flow of projects for step 2 and step 3 grant amendments in subsequent fiscal years.

(4) If any reserved amounts are not fully utilized for step 1 grants, the excess amount may be utilized for the funding of step 2 or step 3 grant amendments in accordance with the approved project list.

History: 1954 ACS 81, p. 31, Eff. Oct. 26, 1974.

R 323.1286 Reservation of funds for grant increases.

Rule 286. (1) In developing the project priority list, the commission shall make provisions for grant increases for projects awarded grant assistance by providing for not less than 5% of each yearly federal allotment for those increases.

(2) If any reserved amounts are not fully utilized for grant increases, the excess amount may be utilized for the funding of step 2 or step 3 grant amendments in accordance with the approved project list.

History: 1954 ACS 81, p. 32, Eff. Oct. 26, 1974.

R 323.1287 Certification of applications to EPA.

Rule 287. (1) Except as hereinafter provided, certification of applications to EPA for step 1 grants or for step 2 or step 3 grant amendments shall be in accordance with and subject to subsections (4) and (5) of section 16 of the state act.

(2) Whenever 2 or more applications are received for step 1 projects which the commission determines fall within the scope of 1 facilities planning area, those projects shall not be certified to EPA until 1 applicant for the facilities planning area has been mutually agreed upon. If agreement cannot be reached, the commission shall designate the lead applicant. A facilities plan for an area may be prepared by 1 or more units of government or consultants, or both, but shall be compiled into a single facilities plan for the area upon completion of the studies by the designated lead applicant.

(3) Certification of an application for a step 1 grant, or approval of a facilities plan prepared with a step 1 grant, shall not constitute an obligation for subsequent funding of a step 2 or step 3 grant amendment by the commission or EPA or both.

History: 1954 ACS 81, p. 32, Eff. Oct. 26, 1974.

R 323.1288 Rescission.

Rule 288. (1) Part 11 of the general rules of the commission, being R 323.1271 to R 323.1286 of the Michigan Administrative Code, is rescinded, except that part 11 shall continue to apply to those projects which receive grants pursuant to the provisions of part 11.

(2) Part 12 of the general rules of the commission, being R 323.1291 to R 323.1306 of the Michigan Administrative Code is rescinded, except that part 12 shall continue to apply to projects previously funded under the provisions of Act No. 159 of the Public Acts of 1969, as amended, being §§323.401 to 323.412 of the Michigan Compiled Laws.

History: 1954 ACS 81, p. 32, Eff. Oct. 26, 1974.

PART 12. STATE GRANTS FOR COLLECTING SEWERS

R 323.1291—R 323.1306 Rescinded.

History: 1954 ACS 72, pp. 41-45, Eff. June 22, 1972; rescinded 1954 ACS 81, p. 32, Eff. Oct. 26, 1974.

Editor's note: Notwithstanding the rescission of R 323.1291—R 323.1306, those rules continue to apply to projects previously funded under the provisions of Act No. 159 of the Public Acts of 1969, as amended, being §323.401 et seq. of the Michigan Compiled Laws.

PART 13. FLOODPLAINS AND FLOODWAYS

R 323.1311 Definitions.

Rule 311. As used in this part:

(a) "A 100-year flood" means a flood which has a 1% chance of occurring or being exceeded in any given year.

(b) "Bridge" means a structure with a total clear span of more than 20 feet, measured along the centerline of the roadway over a stream, watercourse, or opening.

(c) "Commission" means the Michigan natural resources commission.

(d) "Culvert" means a structure, not classified as a bridge, which provides an opening under the roadway.

(e) "Department" means the Michigan department of natural resources.

(f) "Director" means the director of the Michigan department of natural resources.

(g) "Encroachment" means any structure, deposit, or fill in, along, across, or projecting into a floodplain, channel, or floodway.

(h) "Floodplain" means that area of land adjoining a river or stream which will be inundated by a 100-year flood.

(i) "Floodway" means the channel of a river or stream and those portions of the floodplain adjoining the channel which are reasonably required to carry and discharge a 100-year flood.

(j) "Harmful interference" means causing an unnaturally high stage or unnatural direction of flow on a river or stream which causes, or may cause, damage to property, a threat to life, a threat of personal injury, or a threat to water resources.

(k) "Water management division" means the Michigan department of natural resources' water management division.

History: 1954 ACS 72, p. 46, Eff. June 22, 1972; 1954 ACS 93, p. 25, Eff. Oct. 21, 1977.

R 323.1312 Exceptions.

Rule 312. This part does not apply to:

(a) A watershed, the total drainage area of which, measured from the downstream limits of the proposed site, is less than 2 square miles.

(b) An improvement proposed under Act No. 40 of the Public Acts of 1956, as amended, being §280.1 et seq. of the Michigan Compiled Laws.

(c) A flood control project designed by the U.S. army corps of engineers.

(d) A flood control project designed by the U.S. soil conservation service.

(e) Bridge or culvert replacements, upon certification by the owner or by the owner's engineering consultant that the replacement is designed with an equal or greater hydraulic capacity; that available information does not indicate the occurrence of harmful interference caused by the existing bridge or culvert and its approaches; and that deletion of existing auxiliary openings and road overflow areas are not planned.

(f) New bridges or culverts, upon certification by the owner or by the owner's engineering consultant that the bridge or culvert is designed to pass the 100-year flood as determined by the commission without causing harmful interference. Preliminary bridge or culvert plans, hydraulic waterway design calculations and construction methods, and procedures covering protection of natural resources shall be furnished with the certification to the department.

History: 1954 ACS 72, p. 46, Eff. June 22, 1972; 1954 ACS 93, p. 28, Eff. Oct. 21, 1977.

R 323.1313 Permit application; information.

Rule 313. (1) An application to the department for a permit to occupy, fill, or grade lands in a floodplain, streambed, or channel of a stream shall be in letter form or on an application form obtained from the water management division and signed by the person proposing the development or activity or his authorized representative, and shall be filed in duplicate with the water management division.

(2) An applicant for a permit to place an encroachment not excluded under R 323.1312 in a floodplain, channel, or floodway shall submit a site location and a property map showing limits of the proposed encroachment as it relates to the drainage course.

(3) The water management division may ask for the following information in order to analyze the effects that a proposed encroachment, acting alone or in combination with existing or future similar works, has on stage or discharge characteristics of the stream:

(a) A site development plan showing both existing and proposed conditions on a topographic map and containing the following information:

(i) Location map.

(ii) Property lines.

(iii) Road right-of-way, drainage, and utility easements.

(iv) Existing and proposed contours at sufficient intervals to adequately describe the existing features and the proposed alterations.

(v) Proposed bridges, culverts, and storm water outfalls. Plans or sketches shall be included to provide sufficient information for evaluation.

(vi) Proposed channel relocations and the limits of improvements and alterations.

(vii) Delineation of proposed cut and fill limits.

(viii) Approximate volume of cut and fill.

(ix) Proposed elevations of roads and buildings, including elevations of first floor and basement openings into building.

(b) River valley cross-sections at locations where the proposed alteration or occupation is most significant. The cross-sections shall show both existing conditions and the proposed occupation or alteration, and shall specify cut and fill side slopes. Representative photographs of the natural channel and overbank areas shall be included.

(c) A hydraulic report, based on backwater curve computations, which evaluates the effect of the proposed encroachment on stage and discharge characteristics for a range of discharges up to and including the 100-year flood discharge. The report shall be prepared by a registered professional engineer.

History: 1954 ACS 72, p. 47, Eff. June 22, 1972; 1954 ACS 93, p. 26, Eff. Oct. 21, 1977.

R 323.1314 Determination of floodplain and floodway limits.

Rule 314. (1) If published floodplain delineation reports are currently acceptable to the water management division, the 100-year flood identified in the reports shall be used to define the limits of the floodplain and the floodway. The study shall be modified to reflect the effects of future urbanization in the watershed whenever the water management division deems it appropriate.

(2) If floodplain delineation reports are not available, the water management division shall determine the 100-year frequency flood discharge. This determination shall reflect the effect of future urbanization in the watershed and shall be used to define the limits of the floodplain and the floodway.

History: 1954 ACS 72, p. 47, Eff. June 22, 1972; 1954 ACS 93, p. 27, Eff. Oct. 21, 1977.

R 323.1315 Criteria for determining permissibility of encroachments.

Rule 315. (1) An encroachment in the floodway which, acting alone or in combination with existing or future similar works, may cause harmful interference, shall not be approved.

(2) A bridge or culvert, constructed or reconstructed, shall be capable of passing the 100-year flood without causing harmful interference.

(3) An encroachment in the floodplain, landward of the floodway limits, which, acting alone or in combination with existing or future similar works, does not cause harmful interference may be permitted.

History: 1954 ACS 72, p. 47, Eff. June 22, 1972; 1954 ACS 93, p. 27, Eff. Oct. 21, 1977.

R 323.1329 Hearings.

Rule 329. When the department determines that a person has occupied lands in a floodplain or has undertaken or engaged in activity thereon or in a streambed or channel which harmfully interferes with the discharge or stage characteristics of a stream, the director may file a complaint with the commission which, acting on his complaint, shall appoint a hearings officer and set a date for the hearing on the facts. A notice of the hearing shall be sent by certified mail to the person responsible for the alleged violation. The notice shall contain a statement of the specific violation and measures which the commission deems appropriate to assure correction of the problem. Following the hearing, the hearings officer shall file with the commission a proposal for decision.

History: 1954 ACS 72, p. 47, Eff. June 22, 1972; 1954 ACS 93, p. 27, Eff. Oct. 21, 1977.

PART 14. SHORELANDS

R 323.1331—R 323.1345 Rescinded.

History: 1954 ACS 72, p. 48, Eff. June 22, 1972; rescinded 1954 ACS 78, p. 15, Eff. Jan. 12, 1974.

PART 15. IRON ORE BENEFICIATION

R 323.1351 Definition.

Rule 351. As used in this part, "beneficiation act" means Act No. 143 of the Public Acts of 1959, being §§323.251 to 323.258 of the Michigan Compiled Laws.

History: 1954 ACS 72, p. 49, Eff. June 22, 1972.

R 323.1352 Applications.

Rule 352. An application filed under the beneficiation act for a permit to drain, divert, control or use water for the operation of low grade iron ore mining property shall be in letter form, supplemented by maps, charts, and data, setting forth in detail the location of the mining property, the necessity for the proposed water use development, the waters to be affected thereby including information on the points of drainage, diversion, control or use, the natural conditions and variations of the waters involved and the effects thereon from the proposed development. The application shall be signed by the operator of the mining property or his duly authorized representative and shall be filed in duplicate with the executive secretary of the commission.

History: 1954 ACS 72, p. 49, Eff. June 22, 1972.

R 323.1353 Permits.

Rule 353. A permit issued under the beneficiation act for diversion or control of water is valid only during such times as the permittee maintains in proper operation devices to measure and record:

(a) The amount of water being diverted.

(b) The flow in streams below the diversion or control, if the permit is conditioned on reservation or maintenance of a specified minimum stream flow.

History: 1954 ACS 72, p. 49, Eff. June 22, 1972.

R 323.1354 Hearings.

Rule 354. (1) The 2 notices of hearings required by the beneficiation act shall be published at intervals of 1 week or more and the last notice shall be published 2 weeks before the scheduled hearing date.

(2) All evidence, including records and documents in possession of the commission of which it desires to avail itself, and excepting those materials excluded by section 22 of Act No. 306 of the Public Acts of 1969, shall be offered at the public hearing and made a part of record in a case brought under the beneficiation act. Documentary evidence may be received in the form of copies or excerpts or by incorporation by reference. A hearing may be continued as necessary to permit the submittal of additional evidence. A permit will not be issued in a case where the commission deems the evidence submitted to be insufficient for determining that its exercise would not unreasonably impair the interest of the public or of riparians in lands or waters or the beneficial use thereof and would not endanger the public health or safety.

(3) Procedures for hearings shall be those as provided in part 3 of the general rules.

History: 1954 ACS 72, p. 50, Eff. June 22, 1972.

PART 17. SOIL EROSION AND SEDIMENTATION CONTROL

R 323.1701 Definitions.

Rule 701. (1) As used in this part:

(a) "Accelerated soil erosion" means the increased loss of the land surface that occurs as a result of man's activities.

Digitized by Google
Original from UNIVERSITY OF MICHIGAN
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 16:05 GMT / http://hdl.handle.net/2027/mdp.49015002898261

(b) "Acceptable operating erosion and sediment control program" means a soil erosion and sedimentation control ordinance or a program formally approved by the commission, which in the commission's judgement is providing effective soil erosion and sedimentation control, inspection, enforcement and sediment pollution abatement or prevention.

(c) "Soil erosion control facility" means a facility or measure placed or constructed as necessary for the successful control or abatement of accelerated soil erosion.

(d) "Non-erosive velocity" means a speed of water movement which is not conducive to the development of accelerated soil erosion.

(e) "Sediment act" means Act No. 347 of the Public Acts of 1972, being §§282.101 to 282.117 of the Michigan Compiled Laws.

(f) "Stabilization" means the proper placement grading or covering of soil or rock to insure their resistance to soil erosion, sliding, or other earth movement.

(g) "Temporary soil erosion control measures" means interim control measures which are installed or constructed to control soil erosion and which are maintained after project completion.

(h) "Permanent soil erosion control measures" means those control measures which are installed or constructed to control soil erosion and which are maintained after project completion.

(2) The terms defined in the sediment act have the same meanings when used in these rules.

History: 1954 ACS 81, p. 32, Eff. Jan. 1, 1975.

R 323.1702 General requirements.

Rule 702. (1) Any earth changes identified in R 323.1705 shall be conducted in such a manner which will effectively reduce accelerated soil erosion and resulting sedimentation.

(2) All persons engaged in earth changes identified in R 323.1704 shall design, implement, and maintain acceptable soil erosion and sedimentation control measures in conformance with the sediment act, which effectively reduce accelerated soil erosion.

(3) Soil erosion and sedimentation control measures shall be set forth in a plan as prescribed by R 323.1703. The plan shall be made available for inspection at all times at the site of the earth change. The commission or its designated representative may require the county or local enforcing agency to file a copy of the plan with the commission.

(4) A state prescribed permit, as required by R 323.1705 and R 323.1706 shall be obtained and made available for inspection at the site of the earth change.

History: 1954 ACS 81, p. 33, Eff. Jan. 1, 1975.

R 323.1703 Soil erosion and sedimentation control plan requirements.

Rule 703. A soil erosion and sedimentation control plan shall be prepared for any earth change identified in R 323.1705. The plan shall be designed to effectively reduce accelerated soil erosion and sedimentation, and shall identify factors which may contribute to soil erosion or sedimentation or both. The plan shall include, but not be limited to, the following, unless other information is required by the county or local enforcing agency:

(a) A map or maps at a scale of not more than 200 feet to the inch or as otherwise determined by the county or local enforcing agency including a legal description and site location sketch which includes the proximity of any proposed

earth change to lakes or streams, or both; predominant land features; and contour intervals or slope description.

(b) A soils survey or a written description of the soil types of the exposed land area contemplated for the earth change.

(c) Details for proposed earth changes including:

(i) A description and the location of the physical limits of each proposed earth change.

(ii) A description and the location of all existing and proposed on-site drainage facilities.

(iii) The timing and sequence of each proposed earth change.

(iv) A description and the location of all proposed temporary soil erosion control measures.

(v) A description and the location of all proposed permanent soil erosion control measures.

(vi) A program proposal for the continued maintenance of all permanent soil erosion control facilities which remain after project completion, including the designation of the person responsible for the maintenance. Maintenance responsibilities shall become a part of any sales or exchange agreement for the land on which the permanent soil erosion control measures are located.

History: 1954 ACS 81, p. 33, Eff. Jan. 1, 1975.

R 323.1704 Permit requirements.

Rule 704. (1) A land owner or developer who contracts for, allows or engages in an earth change in this state shall obtain a permit from the appropriate enforcing agency prior to commencement of an earth change which is connected with any of the following land use activities which disturb 1 or more acres of land, or if the earth change is within 500 feet of a lake or stream of this state:

(a) Transportation facilities, including streets, highways, railroads, airports, common carrier pipelines, and mass transit facilities, except normal maintenance procedures, such as earth or gravel road leveling and minor repairs or alterations to rights-of-way not affecting a lake or stream.

(b) Subdivision or lot development as defined by section 102 of Act No. 288 of the Public Acts of 1967, being §560.102 of the Michigan Compiled Laws, mobile home parks and multiple housing, and the preparation of a site for a single family residence and except normal maintenance on landscaping activities, or both.

(c) Industrial or commercial development, except normal maintenance or landscaping activities, or both.

(d) Service facilities, including, but not limited to, shopping centers and schools, except normal maintenance or landscaping activities, or both.

(e) Recreational facilities, including, but not limited to, parks, campgrounds or trails, except normal maintenance or landscaping activities, or both.

(f) Utilities, including, but not limited to, underground pipelines or cables, except pole installation, service lines, and other earth changes of a minor nature, normal maintenance, and emergency repairs.

(g) Oil, gas, and mineral wells, except the installation of those wells under permit from the supervisor of wells and wherein the owner-operator is found by supervisor of wells to be in compliance with the conditions of the sediment act.

(h) Water impoundments and waterway construction or improvements.

(2) Exemptions provided in subrule (1) shall not be construed as exemptions from enforcement procedures pursuant to the sediment act or these rules, if the activities exempted by subrule (1) cause or result in a violation of the sediment act or these rules.

History: 1954 ACS 81, p. 33, Eff. Jan. 1, 1975.

R 323.1705 Permit exemptions.

Rule 705. Unless it is determined by the commission that an earth change project is creating a severe soil erosion or sedimentation problem, the requirements of R 323.1703 and R 323.1704 are not applicable to existing projects involving earth changes on which firm bids have been taken or awarded within 60 days of the effective date of these rules.

History: 1954 ACS 81, p. 34, Eff. Jan. 1, 1975.

R 323.1706 Application for permit.

Rule 706. (1) An application for a state prescribed permit shall be submitted to the appropriate enforcing agency by a person proposing to undertake an earth change. In case of land development, the application shall be submitted by the land owner, land developer, or, in his absence, an agent authorized by the land owner or developer.

(2) The application shall be accompanied by an approved soil erosion and sedimentation control plan and any other document which the appropriate enforcing agency may require.

(3) A state prescribed application form shall be provided to the applicant by the county or local enforcing agency.

(4) An authorized public agency is exempt from obtaining a permit from a county or local enforcing agency but shall notify the county or local enforcing agency of each proposed earth change.

History: 1954 ACS 81, p. 34, Eff. Jan. 1, 1975.

R 323.1707 Application review and permit procedures.

Rule 707. (1) The soil erosion and sedimentation control plan shall be reviewed and approved prior to application for a permit by a person designated by the county or local enforcing agency who is trained and experienced in soil erosion and sedimentation control methods and techniques.

(2) The appropriate enforcing agency shall approve, disapprove, or require modification of an application for an earth change permit within 30 calendar days following receipt of the application. Notification of approval shall be made by certified mail. If disapproved, the enforcing agency shall advise the applicant by certified mail of its reasons for disapproval and conditions required for approval. Notification of approval or disapproval by certified mail is not necessary if the applicant is given in person, in writing, approval or disapproval of the application. A permit given to the applicant either in person or by certified mail shall constitute approval.

(3) When an earth change is under the jurisdiction of 2 or more local or county enforcing agencies the commission shall act as the enforcing agency.

(4) A state prescribed permit shall be used by each county or local enforcing agency and shall include any additional provisions which may be required by the county or local enforcing agency. The permit shall be available on the site of the earth change for inspection.

(5) Upon a determination that a permit applicant has met all the requirements of these rules, the sediment act and the local ordinance, if applicable, the appropriate enforcing agency shall issue a permit for the proposed earth change.

History: 1954 ACS 81, p. 34, Eff. Jan. 1, 1975.

R 323.1708 Soil erosion and sedimentation control procedures and measures; general.

Rule 708. Soil erosion and sedimentation control procedures and measures prescribed by R 323.1709 and R 323.1710 shall be appropriately incorporated into

the soil erosion and sedimentation control plan and shall be applied to all earth changes identified therein, unless the person preparing the plan shows to the satisfaction of the appropriate enforcing agency that any alteration of the control procedures or measures, or the inclusion of other control procedures or measures, will prevent accelerated soil erosion and sedimentation during the earth change.

History: 1954 ACS 81, p. 35, Eff. Jan. 1, 1975.

R 323.1709 Earth change requirements.

Rule 709. (1) All earth changes shall be designed, constructed, and completed in such a manner which shall limit the exposed area of any disturbed land for the shortest possible period of time as determined by the county or local enforcing agency.

(2) Sediment caused by accelerated soil erosion shall be removed from runoff water before it leaves the site of the earth change.

(3) Any temporary or permanent facility designed and constructed for the conveyance of water around, through or from the earth change area shall be designed to limit the water flow to a non-erosive velocity.

(4) Temporary soil erosion control facilities shall be removed after permanent soil erosion measures have been implemented. All earth change areas shall be graded and stabilized with permanent soil erosion control measures pursuant to approved standards and specifications as prescribed by R 323.1710.

(5) Permanent soil erosion control measures for all slopes, channels, ditches or any disturbed land area shall be completed within 15 calendar days after final grading or the final earth change has been completed. When it is not possible to permanently stabilize a disturbed area after an earth change has been completed or where significant earth change activity ceases, temporary soil erosion control measures shall be implemented within 30 calendar days. All temporary soil erosion control measures shall be maintained until permanent soil erosion control measures are implemented.

History: 1954 ACS 81, p. 35, Eff. Jan. 1, 1975.

R 323.1710 Soil conservation district standards and specifications.

Rule 710. Current local soil conservation district soil erosion and sedimentation control standards and specifications or revisions thereof, as approved by the local or county enforcing agency in consultation with the local soil conservation district, shall be followed and utilized as they apply to an individual earth change which requires an erosion and sedimentation control plan.

History: 1954 ACS 81, p. 35, Eff. Jan. 1, 1975.

R 323.1711 Building permits.

Rule 711. (1) A local agency or general law township which issues building permits shall notify the county or local enforcing agency immediately upon receipt of an application for a building permit requiring an earth change which disturbs any land located within 500 feet of a lake or stream of this state.

(2) A local agency or general law township shall not issue a building permit to a person engaged in an earth change which requires a permit under the sediment act or these rules until the county or local enforcing agency has issued the required state prescribed permit for the earth change.

History: 1954 ACS 81, p. 35, Eff. Jan. 1, 1975.

R 323.1712 Enforcement.

Rule 712. The county or local enforcing agency shall issue a cease and desist order and shall revoke a permit upon its finding that there is a violation of the sediment act, these rules, or an approved local ordinance, or that there is a violation of a permit or an approved soil erosion and sedimentation control plan.

History: 1954 ACS 81, p. 36, Eff. Jan. 1, 1975.

R 323.1713 Periodic review.

Rule 713. The commission, in consultation with the department, shall conduct an ongoing comprehensive review and evaluation of all soil erosion and sedimentation control programs which operate under the sediment act and these rules. County and local enforcing agencies shall be notified by the commission as to the acceptability of their soil erosion and sedimentation control programs. The commission shall provide a public report of its findings of the review and evaluation of those enforcing agencies not in compliance and shall provide for public comment thereon at a regularly scheduled meeting thereof.

History: 1954 ACS 81, p. 36, Eff. Jan. 1, 1975.

R 323.1714 Availability of documents.

Rule 714. Copies of standards and specifications for soil erosion and sedimentation control, as referred to in R 323.1710, are published by statewide soil conservation districts and are available at each district office at a nominal cost.

History: 1954 ACS 81, p. 36, Eff. Jan. 1, 1975.

PART 21. WASTEWATER DISCHARGE PERMITS

R 323.2101 Purpose.

Rule 1101. (1) These rules are promulgated to implement the 1972 amendments to the commission act which authorized the initiation of a waste or waste effluent discharge permit system compatible with the national pollutant discharge elimination system (NPDES). The NPDES has been initiated by the federal Congress through the enactment of the federal water pollution control act amendments of 1972 (United States Public Law 92-500). The rules outline in general:

(a) The procedures by which all persons discharging wastes into the waters of the state shall apply for waste or waste effluent discharge permits as required by the commission act.

(b) Exceptions to procedural requirements.

(c) Public participation procedures and hearings on permit applications.

(d) Procedures by which permits are issued or denied by the commission.

(e) Appeals procedures.

(f) Permit conditions and monitoring of waste or wastewater discharges.

(2) The promulgation of these rules, in association with the commission act, as amended, provides sufficient authority to the state, upon approval by the United States environmental protection agency, to issue permits for waste or wastewater discharges under the NPDES pursuant to section 402(b) of the United States Public Law 92-500. The water resources commission is the state agency designated by state law to administer this program.

R 323.2102 Definitions; A to F.

Rule 1102. As used in this part:

(1) "Applicant" means a person applying to the commission for a state or national permit to discharge wastes or wastewaters into the waters of the state by an NPDES application form, a state permit application form, or a refuse act permit application form.

(2) "Application" means the uniform national NPDES application form, including subsequent additions, revisions, or modifications thereof promulgated by the administrator of EPA, and adopted for use by the commission, or a state permit application form, for application for a permit.

(3) "Discharge" means any discharge or discharge of any waste, waste effluent, wastewater, or pollutant, or any combination thereof, into any of the waters of the state or upon the ground.

(4) "Discharger" means any person who discharges any substance defined by section 6 of the commission act, any treated or untreated waste, waste effluent, wastewater or pollutant, or cooling waters into any of the waters of the state or upon the ground.

(5) "Draft permit" means a draft of a permit proposed to be issued by the commission, prepared by staff of the commission prior to public notice of an application for a permit by a discharger, which contains proposed effluent standards and limitations, proposed compliance schedules and other proposed conditions or restrictions deemed necessary by the commission for a discharge.

(6) "EPA" means the United States environmental protection agency.

(7) "Effluent standards and limitations" means all state or federal effluent standards and limitations on quantities, rates and concentrations of chemical, physical, biological and other constituents to which a waste or wastewater discharge may be subject under the federal act or the commission act, including, but not limited to, effluent limitations, standards of performance, toxic effluent standards and prohibitions, pretreatment standards, and schedules of compliance.

(8) "Executive secretary" means the executive secretary of the commission.

(9) "Fact sheet" means a description of a discharge available to the public prepared by the commission pursuant to the guidelines, which includes, but is not limited to, information on the location of the discharge, rate or frequency of the discharge, components of the discharge, proposed determinations of the commission regarding the discharge, the location and identification of uses of the receiving waters, water quality standards, and procedures for formulation of final determinations on the discharge by the commission.

(10) "Federal act" means United States Public Law 92-500, entitled the federal water pollution control act amendments of 1972 and rules and regulations promulgated thereunder.

History: 1954 ACS 77, p. 31, Eff. Oct. 17, 1973.

R 323.2103 Definitions; G to N.

Rule 1103. As used in this part:

(1) "Guidelines" means the federal guidelines promulgated by EPA entitled "Part 124—State Program Elements Necessary for Participation in the National Pollutant Discharge Elimination System," as published in 40 C.F.R. 124.

(2) "Industry" means a private person, corporation, firm, plant, or establishment which discharges waste or wastewater into the waters of the state.

(3) "Mailing list" means a permanent list of persons requesting notification and information on public hearings, permits and other NPDES forms, prepared and maintained by the commission pursuant to the guidelines, these rules, and Act No.

306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws.

(4) "Management agency" means an areawide waste treatment management agency designated by the governor pursuant to section 208(a) of the federal act.

(5) "Minor discharge" means a discharge of wastewater which has a total volume of less than 50,000 gallons on every day of the year, does not affect the waters of another state, and is not identified by the commission, the regional administrator, or by the administrator of EPA in regulations issued by him pursuant to section 307(a) of the federal act, as a discharge which is not a minor discharge, except that in the case of a discharge of less than 50,000 gallons on any day of the year which represents 1 of 2 or more discharges from a single person, municipality, or industry which in total exceeds 50,000 gallons on any day of the year, then no discharge from the facility is a minor discharge.

(6) "New source" means a building, structure, facility, or installation from which waste, pollutants, or wastewater is or may be discharged into the surface or ground waters of the state or on the ground, the construction of which is commenced after publication of proposed regulations by EPA prescribing a standard of performance under section 306(a) of the federal act which will be applicable to the source, if the standard is thereafter promulgated in accordance with section 306 of the federal act.

(7) "NPDES" means the national pollutant discharge elimination system established by the federal act.

(8) "NPDES form" means any issued permit and any uniform national form used by the commission, developed for use in the NPDES and prescribed in regulations promulgated by the administrator of EPA, including an NPDES application, a refuse act permit application, and a reporting form.

(9) "National permit" means an NPDES permit, or equivalent document or requirements, issued by the commission to a discharger pursuant to sections 5 and 7 of the commission act, for discharges into surface waters.

(10) "Noncompliance list" means a list of dischargers, prepared by the executive secretary pursuant to these rules and the guidelines for transmittal to the regional administrator, who fail or refuse to comply with a compliance schedule in a permit issued pursuant to the commission act.

History: 1954 ACS 77, p. 32, Eff. Oct. 17, 1973.

R 323.2104 Definitions; P to W.

Rule 1104. As used in this part:

(1) "Person" means an individual, partnership, association, corporation, industry, municipality, state agency, or interstate body.

(2) "Point source discharge" means a discharge which is released to the waters of the state by a discernible, confined and discrete conveyance, including, but not limited to, a pipe, ditch, channel, tunnel, conduit, well, discrete fissure, container, concentrated animal feeding operation or vessel or other floating craft, from which wastewater is or may be discharged.

(3) "Publicly owned treatment works" means a wastewater collection and treatment facility owned and operated by a municipality or a regional entity composed of 2 or more municipalities.

(4) "Refuse act permit application" means an application for a permit issued under authority of section 13 of the United States rivers and harbor act of March 3, 1899.

(5) "Regional administrator" means the EPA region V administrator.

(6) "Reporting form" means the uniform NPDES reporting form, including subsequent additions, revisions or modifications thereof promulgated by the administrator of EPA and adopted by the commission for use in administering these rules, or a state form prescribed by the commission for use in administering these rules, for reporting data and information to the commission by a discharger on monitoring and other conditions of permits.

(7) "State permit" means a permit or equivalent document or requirements issued by the commission to a discharger who discharges wastewater on the ground or into groundwaters.

(8) "Trade secret" means the whole or any portion or phase of any manufacturing proprietary process or method, not patented, which is secret, useful in compounding an article of trade having a commercial value, and the secrecy of which the owner has taken reasonable measures to prevent from becoming available to persons other than those selected by the owner to have access thereto for limited purposes. It shall not be construed for purpose of these rules to include any information relative to the quantum and character of waste products or their constituents discharged or sought to be discharged into waters of this state.

(9) "Vessel" means any contrivance used or capable of being used for navigation upon water, whether or not capable of self-propulsion, including foreign and domestic vessels engaged in commerce upon the waters of this state, passenger or other cargo carrying vessels, privately owned recreational watercraft or any other floating craft.

(10) "Waste" means any waste, wastewater, waste effluent or pollutant, including, but not limited to, any dredged spoil, solid waste, incinerator residue, sewage, garbage, sewage sludge, munitions, chemical wastes, biological materials, radioactive materials, heat, wrecked or discarded equipment, rock, sand, cellar dirt, and industrial, municipal, and agricultural waste, discharged into water.

(11) "Wastewater" means liquid waste discharges into the waters of the state resulting from industrial and commercial processes and municipal operations, including, but not limited to, cooling and condensing waters and sanitary sewage from industrial, commercial and municipal facilities.

History: 1954 ACS 77, p. 33, Eff. Oct. 17, 1973.

R 323.2106 Permit requirements of dischargers.

Rule 1106. (1) A person discharging wastes into the surface or groundwaters of the state or on the ground as a point source discharge, whether or not in compliance with an outstanding order of determination, final order of determination, or stipulation with the commission, shall promptly make application for and obtain from the commission a valid national or state permit pursuant to section 7 or 8 of the commission act and according to procedures and deadlines set forth in these rules.

(2) A person proposing a waste or wastewater discharge to the surface or groundwaters of the state shall apply at least 180 days prior to commencement of the discharge or any other time period before commencement of the discharge as determined and required by the commission, for a national or state permit on an appropriate application form supplied by the commission.

(3) A person discharging wastes into surface waters of the state shall apply to the commission for a national permit. A person discharging wastes on the ground or into groundwaters shall apply to the commission for a state permit. The procedures, forms, and deadlines required by these rules shall apply to applications for either national or state permits.

History: 1954 ACS 77, p. 33, Eff. Oct. 17, 1973.

R 323.2108 Permits; application and filing procedures.

Rule 1108. (1) An application for a permit shall be completed in accordance with and subject to guidelines promulgated by the administrator of EPA, entitled "National Pollutant Discharge Elimination System; Proposed Forms and Guidelines for Acquisition of Information From Owners and Operators of Point Sources," as published in 40 C.F.R. 126, and any subsequent revisions, additions, or modifications thereto, adopted by the commission for purposes of administering these rules.

(2) A person discharging waste or wastewater from more than 1 location shall file a separate application for each discharge location. A single application may be filed for multiple outfalls discharging from a single location, except that the discharge from each outfall shall be described separately in the application.

History: 1954 ACS 77, p. 34, Eff. Oct. 17, 1973.

R 323.2109 Permits; application exemptions.

Rule 1109. A person discharging or proposing to discharge the following types of wastes or wastewaters shall not be required to apply for a permit from the commission pursuant to the commission act or these rules:

(a) Human sewage discharged from vessels.

(b) Water, gas, and other materials injected into a well to facilitate production of oil or gas, or water derived in association with oil or gas production and disposal thereof in a well where authorized by the state supervisor of wells.

(c) A discharge directed solely to a publicly owned treatment works, but not from a publicly owned treatment works.

(d) Storm sewers not connected to wastewater treatment works, if the storm sewers are separate from sanitary sewers or other sewers discharging wastewater subject to a permit of the commission, unless a particular storm water discharge has been identified by the commission or the regional administrator as a significant contributor to pollution.

History: 1954 ACS 77, p. 34, Eff. Oct. 17, 1973.

R 323.2111 Refuse act permits; validity; additional requirements.

Rule 1111. A person who has filed an application for a refuse act permit prior to the date of enactment of the federal act is not required to file an application for a national or state permit pursuant to the commission act or these rules, unless otherwise determined necessary by the commission. A complete refuse act permit application may be deemed by the commission as meeting the requirements of the commission act and these rules and a permit may be issued based thereon unless additional information is required as prescribed in R 323.2112.

History: 1954 ACS 77, p. 34, Eff. Oct. 17, 1973.

R 323.2112 Permit applications; transmittal; deficiencies; additional data requirements.

Rule 1112. (1) Upon receipt of an application from a discharger for a national permit, the executive secretary shall transmit a copy thereof and any other applicable related NPDES forms to the regional administrator for his review and comment. Timely written comments thereon submitted to the commission by the regional administrator outlining any deficiencies or other changes he deems necessary to complete the national permit application or an incomplete refuse act permit application, shall be considered by the commission.

(2) If the commission has not received written comment on an application for a national permit from the regional administrator within 90 days after transmittal

thereto by the executive secretary, the commission shall assume that the regional administrator has no comment thereon and may direct the executive secretary to proceed with the processing of the application. A national permit shall not be issued by the commission to an applicant until comment is received from the regional administrator or until the expiration of the 90 days.

(3) The executive secretary, at his discretion or upon request of the regional administrator, may request of an applicant any additional information deemed necessary to complete or correct deficiencies in the application or to complete or correct deficiencies in a refuse act permit application, before processing the application or issuing or denying the issuance of a permit. A national permit or state permit shall not be issued by the commission until an application therefor is complete or any further information requested by the executive secretary is supplied.

(4) The commission shall take proper enforcement action as prescribed by the commission act against any person who fails to file a complete application, if deficiencies are not corrected or incomplete information is not supplied within 60 days to the executive secretary following his request by the applicant.

History: 1954 ACS 77, p. 34, Eff. Oct. 17, 1973.

R 323.2114 Permit applications and other NPDES forms; valid signatories.

Rule 1114. A state or national permit application form or any other NPDES form submitted to the executive secretary pursuant to these rules shall be signed as follows:

(1) For a corporation, by a principal executive officer of at least the level of vice president, or his designated representative, if the representative is responsible for the over-all operation of the facility from which the discharge described in the permit application or other NPDES form originates.

(2) For a partnership, by a general partner.

(3) For a sole proprietorship, by the proprietor.

(4) For a municipal, state, or other public facility, by either a principal executive officer, the mayor, village president, city, or village manager or other duly authorized employee.

History: 1954 ACS 77, p. 35, Eff. Oct. 17, 1973.

R 323.2115 Permits; tentative determinations and draft permits.

Rule 1115. (1) Prior to public notice pursuant to R 323.2117 of a national or state permit application or a refuse act permit application and when the executive secretary is satisfied that the application is complete, the staff of the commission shall make preliminary determinations on the application, including a proposed determination to issue or deny a state or national permit for the discharge described in the application.

(2) If the proposed determination is to issue a state or national permit, the following additional tentative determinations shall be made:

(a) Proposed effluent limitations shall be identified for the constituents proposed to be limited.

(b) A proposed schedule of compliance for meeting the proposed effluent limitations, including interim dates and requirements, if applicable.

(c) A description of any other proposed restrictions or other conditions determined necessary by the commission which will significantly affect the discharge described in the application, including pretreatment standards for discharges into publicly owned treatment works.

(3) The executive secretary shall prepare a draft permit based upon the tentative determinations made pursuant to subrules (1) and (2) for the national or state permit application or the refuse act application. The draft permit shall be mailed to the applicant and, in the case of a national permit, to the regional administrator before public notice of the application.

History: 1954 ACS 77, p. 35, Eff. Oct. 17, 1973.

R 323.2117 Public notice of permit application and preliminary determinations.

Rule 1117. (1) The executive secretary shall prepare and sign a public notice of an application for a national permit, or a state permit as deemed appropriate by the commission, and of the proposed determination to issue or deny a permit for the proposed or existing discharge identified in the application. The notice shall be circulated within the geographical area of the proposed or existing discharge in 1 or more of the following ways:

(a) Posting of the notice in the post office or other public buildings of the municipality nearest the premises of the applicant in which the discharge is or will be located.

(b) Posting of the notice at the entrance to the applicant's premises or nearby.

(c) Publishing the notice in 1 or more newspapers of general circulation in the area of the applicant, or if appropriate, in an applicable periodical.

(2) A copy of the notice shall be transmitted to the permit applicant and shall be available at the commission office in Lansing and at the commission district office nearest to the geographical location of the applicant. Any person may request in writing a copy of the notice which will be mailed to him.

History: 1954 ACS 77, p. 35, Eff. Oct. 17, 1973.

R 323.2118 Public notice; contents and information.

Rule 1118. A public notice of a state or national permit application shall contain:

(a) The date of posting or publication of the public notice.

(b) The address and telephone number of the commission office in Lansing and the commission district office nearest to the geographical location of the applicant.

(c) The name and address of the applicant.

(d) A concise description of the applicant's activities and operations which result in the discharge identified in the permit application.

(e) The name of the waterway to which the discharge is made or is proposed to be made, including the location of the proposed or existing discharge identified in the application.

(f) A statement of the commission's tentative determination to issue or deny the permit for the discharge identified in the application.

(g) A concise description of the procedures for the formulation of final determinations including information on the comment period prescribed in R 323.2119 or other means by which interested persons may comment on the tentative determinations.

(h) The address and telephone number of the commission office where more information on the application may be obtained or where copies of the draft permit prepared pursuant to R 323.2115, and fact sheets may be obtained and any other applicable NPDES forms and related documents may be inspected or copied.

R 323.2119 Public notice; comment period for interested persons.

Rule 1119. (1) Up to 30 days following the date of posting or publication of the public notice pursuant to R 323.2117, an interested person may submit his views in writing on the application or commission tentative determinations, or both, to the commission. The time for public comment may be extended by the executive secretary if he determines that an extension of time is necessary to facilitate additional public comment.

(2) All views submitted to the commission in writing by interested persons during the comment period shall be retained and considered in the formulation of final determinations by the commission on the permit application.

History: 1954 ACS 77, p. 36, Eff. Oct. 17, 1973.

R 323.2121 Fact sheets on permit applications.

Rule 1121. (1) For each state or national permit application which identifies an existing or proposed discharge of 500,000 gallons or more for any day of the year, the executive secretary shall prepare and make available a fact sheet with respect to the application described in the public notice, which shall contain information prescribed by R 323.2122.

(2) The executive secretary may prepare a fact sheet for any existing or proposed discharge identified in an application of less than 500,000 gallons for any day of the year, if he deems the discharge is of significant importance to warrant additional information for public comment.

(3) A copy of the fact sheet shall be available at the commission office in Lansing and at the commission district office nearest to the geographical location of the applicant. Any person may request in writing a copy of the fact sheet which will be mailed to him.

History: 1954 ACS 77, p. 36, Eff. Oct. 17, 1973.

R 323.2122 Fact sheets on permit applications; contents and information.

Rule 1122. The fact sheet prepared pursuant to R 323.2121 shall contain, but is not limited to, the following information:

(a) A sketch or detailed description of the location of the existing or proposed discharge described in the permit application.

(b) A quantitative description of the existing or proposed discharge including, but not limited to, its rate or frequency or average daily flow; its summer and winter temperatures in degrees Fahrenheit and mixing zone information, if the discharge is a thermal discharge subject to limitation under the federal act; its average daily discharge in pounds per day of any pollutants or other constituents subject to limitation under the commission act or the federal act or rules or regulations promulgated thereunder.

(c) The preliminary determinations made by the commission on the permit application pursuant to R 323.2115.

(d) A concise citation of water quality standards, effluent limitations and standards and mixing zones, if applicable, to be applied to the discharge, and the uses for which the receiving waters have been classified.

(e) A complete description of the procedures used by the commission to formulate final determinations on the application and existing or proposed discharges including the 30-day comment period on the public notice, procedures for requesting a public hearing on the application pursuant to R 323.2130 and other procedures to facilitate public comment and participation in the formulation of final determinations by the commission.

History: 1954 ACS 77, p. 36, Eff. Oct. 17, 1973.

R 323.2124 Public notices and fact sheets; mailing lists.

Rule 1124. (1) An interested person who desires to receive copies of all public notices or fact sheets, or both, on state or national permit applications for discharges in a geographical drainage area of the state as identified in subrule (2), may request that his name be placed on a permanent mailing list of the commission for the information. The request shall be made in writing to the commission office in Lansing and shall be renewed in December of each year. Failure to renew the request is just cause for the commission to remove a name from the mailing list.

(2) The written request of an interested person to the commission shall clearly identify the name of the person, the person's address, the documents desired, and the geographical drainage area of the state for which information is requested. A separate request shall be made for each of the following geographical drainage areas of the state:

(a) Lake Michigan and tributaries thereto, entire.
(b) Lake Michigan and tributaries thereto, Upper Peninsula.
(c) Lake Michigan and tributaries thereto, Lower Peninsula.
(d) Lake Superior and tributaries thereto.
(e) Lake Huron and tributaries thereto.
(f) Lake Erie and tributaries thereto.
(g) St. Mary's river.
(h) Detroit river, Lake St. Clair, and St. Clair river and tributaries thereto.

History: 1954 ACS 77, p. 37, Eff. Oct. 17, 1973.

R 323.2125 Public notices and fact sheets; notice to other governmental agencies.

Rule 1125. (1) Upon receipt of an application for a national permit which identifies an existing or proposed discharge into interstate waters and when the executive secretary determines that the discharge may affect the quality of the waters of any other state, he shall notify the appropriate state or interstate agency of the discharge and shall transmit a copy of the public notice and fact sheet on the application thereto. Upon request of the state or interstate agency, the executive secretary shall also transmit a copy of the application and the draft permit prepared pursuant to R 323.2115.

(2) A state or interstate agency notified by the executive secretary pursuant to subrule (1) shall have 45 days in which to comment on the existing or proposed discharge and may submit in writing to the commission and the regional administrator its views and recommendations. The views and recommendations submitted to the commission by another state or interstate agency may be incorporated into the national permit if determined necessary and desirable by the commission. If not incorporated into the national permit, the commission shall notify the state or interstate agency in writing and provide opportunity for hearing, if requested by the state or interstate agency.

(3) When a public notice on a national permit application for discharges into navigable waters is posted or published, the executive secretary shall transmit a copy of the notice and fact sheet thereon to the appropriate district engineer of the United States army corps of engineers for existing or proposed discharges identified therein, if such discharges are not minor discharges.

(4) If requested in writing thereby, the executive secretary shall mail a copy of a public notice or fact sheet, or both, for an application for a national or state permit, to any other federal, state, or local agency or affected Canadian provincial or federal agencies. The provisions of subrule (2) with regard to opportunity for

comment and hearings apply to the federal, state or local agencies or Canadian provincial or federal agencies.

History: 1954 ACS 77, p. 37, Eff. Oct. 17, 1973.

R 323.2126 Permit applications; notice to state public health department.

Rule 1126. The executive secretary shall transmit to the director of the state department of public health copies of draft permits and fact sheets for state or national permit applications and shall provide, by agreement, opportunity for review and comment thereon to assure compliance of the applicant with applicable health requirements.

History: 1954 ACS 77, p. 38, Eff. Oct. 17, 1973.

R 323.2127 Public access to NPDES forms and commission files and records.

Rule 1127. A copy of a state or national permit application, public notice, fact sheet, draft permit and other NPDES forms relating thereto, including written public comment thereon and other reports, files and information relating to the application not classified as confidential information by the executive secretary pursuant to R 323.2128, shall be available for public inspection and copying during normal business hours at the commission office in Lansing and an appropriate district office of the commission in the geographical area of the applicant. Document inspection and copying procedures shall be according to R 323.1015.

History: 1954 ACS 77, p. 38, Eff. Oct. 17, 1973.

R 323.2128 Confidential information.

Rule 1128. Upon determination by the commission that public disclosure of information contained on any NPDES form, except information concerning effluent data or information from the files and records of the commission not otherwise entitled to protection against disclosure by previous action of the commission or of EPA, would divulge information entitled to protection as trade secrets of the applicant, the commission shall label and otherwise handle the information as confidential and shall notify and forward the information to the regional administrator. In making its determination of entitlement to protection as a trade secret, the commission shall consider evidence submitted by the applicant. In the event of denial by the commission of entitlement to protection as a trade secret, the applicant, upon notification thereof, shall have 30 days in which to appeal the decision to the commission. If the commission determines, following appeal, that the information is not entitled to trade secret status the commission, not less than 30 days after the applicant is notified of the decision, shall release the information for inspection or copying pursuant to R 323.2127. Where EPA has previously accorded trade secret status to information of an applicant, the commission shall accept that finding as entitlement to trade secret status for the purpose of this rule. Unless otherwise determined by the regional administrator or the executive secretary, all information labeled by the commission as confidential shall not be available to the public for inspection or copying pursuant to R 323.2127, except that the information shall be made available at any time to the regional administrator or other authorized representative of the United States concerned with carrying out the commission act or the federal act, upon written request therefor.

R 323.2130 Permit applications; public hearings, determinations, and scheduling.

Rule 1130. (1) Within the 30-day comment period or other applicable comment period provided after posting or publishing of a public notice pursuant to R 323.2119, an applicant, any affected state or state or interstate agency or country, the regional administrator, or any other interested person or agency may file a petition with the commission for a public hearing on an application for a state or national permit. A petition for a public hearing shall indicate the reasons why a hearing is requested, the interest in or relationship of the petitioner to the application or existing or proposed discharge identified therein and specifically indicate which portions of the application or other NPDES form or information constitutes necessity for a public hearing. If the commission determines that a petition constitutes sufficient cause or that there is sufficient public interest in an application for a public hearing, it may direct the scheduling of a hearing thereon.

(2) A hearing shall be scheduled not less than 4 nor more than 8 weeks after the commission determines the necessity of the hearing in the geographical location of the applicant or, at the discretion of the executive secretary, at another appropriate location, and shall be noticed at least 30 days before the hearing in the same manner as the public notice on an application pursuant to R 323.2117 and R 323.2118. The notice of public hearing shall be transmitted to the applicant and shall be published in at least 1 newspaper of general circulation in the geographical area of the existing or proposed discharge identified on the permit application, and shall be mailed to any person or group upon request therefor. Notice shall be mailed to all persons and governmental agencies which received a copy of the notice or the fact sheet for the permit application.

(3) The commission may hold a single public hearing on related groups of permit applications.

History: 1954 ACS 77, p. 38, Eff. Oct. 17, 1973.

R 323.2131 Permit applications; public hearing notice; contents.

Rule 1131. A notice by the commission of a public hearing on an application shall contain in addition to the time and place of the hearing:

(a) The address and telephone number of the commission office in Lansing and the appropriate district office of the commission.

(b) The name and address of the applicant whose application will be considered at the public hearing.

(c) The name of the waterway to which a discharge, as identified on the application, is or will be made and a concise description of the location on the waterway of the discharge.

(d) Reference to the public notice posted and published for the application, including the identification numbers and dates of issuance thereof.

(e) A brief statement of the purpose of the public hearing.

(f) A concise description of the issues which have been identified by the petitioners requesting the public hearing.

(g) The address or addresses of commission offices where interested persons may inspect or obtain copies of a draft permit, fact sheet, or other applicable NPDES forms or other reports, files, or information relating to an application subject to public hearing, which has not been labeled confidential by the executive secretary pursuant to R 323.2128.

(h) A concise description of the nature of the public hearing and the issues to be heard, with reference to commission rules and procedures to be followed.

History: 1954 ACS 77, p. 39, Eff. Oct. 17, 1973.

R 323.2133 Permit applications; determinations; issuance; denial.

Rule 1133. (1) Following review of tentative determinations or modifications thereof made by the staff of the commission pursuant to R 323.2115, any comments on the permit application received by the commission from the regional administrator pursuant to R 323.2112, comments received from the public during the 30-day comment period following public notice of the permit application as provided by R 323.2117, other applicable recommendations or determinations and review of the public hearing record after a hearing on an application pursuant to R 323.2130, the commission shall make a final determination on the permit application and may issue or deny a state or national permit pursuant to section 5 of the commission act.

(2) An appeal to a final determination of the commission made pursuant to subrule (1), or to a condition of a permit issued or the denial of a permit pursuant to the commission act and the rules, shall be in accordance with and subject to section 8 of the commission act, and part 3 of the general rules of the commission, being R 323.1031 to R 323.1036 of the Michigan Administrative Code.

(3) When the commission issues a state or national permit to a discharger in possession of an order of determination or stipulation of the commission issued or entered into prior to April 15, 1973, the state or national permit conditions shall take precedence over all conditions of the order of determination or stipulation. If the commission denies the issuance of a state or national permit to a discharger in possession of an order of determination or stipulation of the commission, compliance with the conditions of the order of determination or stipulation is not a defense of the discharger's obligation as prescribed by the commission act.

(4) A national permit issued by the commission pursuant to the commission act and these rules is a state permit where the permit is issued for waste or wastewater discharges into the surface waters of the state. A state permit issued for a waste or wastewater discharge into groundwaters or on the ground is not a national permit required pursuant to the federal act.

History: 1954 ACS 77, p. 39, Eff. Oct. 17, 1973.

R 323.2134 Permits; transmittal to EPA.

Rule 1134. The executive secretary shall transmit all copies of national permits issued by the commission pursuant to the commission act and these rules to the regional administrator immediately following issuance. If a permit is denied, written notice thereof and the reasons therefor shall be transmitted to the regional administrator.

History: 1954 ACS 77, p. 40, Eff. Oct. 17, 1973.

R 323.2136 Terms and conditions of permits; prohibited discharges.

Rule 1136. A permit shall not be issued to a person proposing any of the following discharges:

(a) A discharge containing a radiological, chemical, or biological warfare agent or a high-level radioactive waste.

(b) A discharge containing a substance which the commission determines would substantially impair anchorage or navigation, or both.

(c) A point source discharge in conflict with an areawide waste treatment management plan or amendments thereto, prepared by a management agency pursuant to section 208(b) of the federal act, unless the commission finds such variance necessary to protect the public health, safety and welfare.

(2) An NPDES permit will not be issued to a person proposing any of the following discharges into waters subject to regulation under the federal act.

(a) A discharge containing a radiological, chemical, or biological warfare agent or a high-level radioactive waste;

(b) A discharge containing a substance which, as determined by the secretary of the army acting through the chief of engineers of the United States army corp of engineers, would substantially impair anchorage or navigation or both;

(c) A discharge to which the regional administrator objects in writing to the commission pursuant to R 323.2112, pursuant to any right to object provided the administrator of EPA in section 402(d) of the federal act; and

(d) A point source discharge in conflict with an areawide waste treatment management plan, or amendments thereto, prepared by a management agency pursuant to section 208(b) of the federal act unless otherwise approved by EPA.

History: 1954 ACS 77, p. 40, Eff. Oct. 17, 1973.

R 323.2137 Terms and conditions of permits; effluent standards and limitations.

Rule 1137. When applicable, a permit issued by the commission shall contain terms and conditions deemed necessary by the commission to insure compliance with at least the following effluent standards and limitations:

(a) Effluent limitations for publicly owned treatment works and other point source discharges when promulgated by the administrator of EPA pursuant to sections 301, 302, 307, and 308 of the federal act, in accordance with and subject to the date of compliance prescribed therein, if the limitations are not in conflict with the commission act or the federal act.

(b) Standards of performance, when promulgated by the administrator of EPA, for new sources within the categories defined in section 306 of the federal act.

(c) If the permit is for a discharge from a publicly owned treatment works, standards of performance, pretreatment standards or effluent limitations or prohibitions when promulgated by the administrator of EPA for toxic substances, monitoring and charges pursuant to sections 204(b), 307, and 308 of the federal act, if the standards, limitations, or prohibitions are not in conflict with the commission act or the federal act.

(d) Any other more stringent limitation deemed necessary by the commission to meet applicable water quality standards, treatment standards or schedules of compliance established pursuant to the commission act or rules promulgated pursuant thereto, or necessary to meet other federal law or regulation enacted or promulgated subsequent to these rules, or required to meet any applicable water quality standards including applicable requirements necessary to meet maximum daily loads established by and incorporated into the state's continuing planning process required pursuant to section 303 of the federal act.

History: 1954 ACS 77, p. 40, Eff. Oct. 17, 1973.

R 323.2138 Terms and conditions of permits; consistency with water quality standards.

Rule 1138. When a state or national permit is issued by the commission which contains any effluent standards or limitations set forth in R 323.2137, the commission shall verify that the discharge authorized by the issued permit will not violate applicable water quality standards. When a permit contains additional effluent limitations based upon applicable water quality standards, the commission shall prepare a waste load allocation ensuring that the discharge authorized by the issued permit is consistent with applicable water quality standards.

History: 1954 ACS 77, p. 40, Eff. Oct. 17, 1973.

R 323.2139 Terms and conditions of permits; requirements to comply with plans.

Rule 1139. The commission, if it deems necessary, may impose any further requirements under the terms and conditions of a state or national permit to comply with an areawide waste treatment management plan, or amendments thereto, prepared by a management agency pursuant to section 208(b) of the federal act.

History: 1954 ACS 77, p. 41, Eff. Oct. 17, 1973.

R 323.2140 Terms and conditions of permits; interim requirements.

Rule 1140. Prior to promulgation of regulations by the administrator of EPA relating to applicable effluent standards or limitations or standards of performance set forth in R 323.2137, the commission may impose any standard, limitation, or condition within a state or federal permit to ensure compliance with the commission act and the federal act.

History: 1954 ACS 77, p. 41, Eff. Oct. 17, 1973.

R 323.2141. Terms and conditions of permits; discharges from vessels.

Rule 1141. (1) If a national permit is issued pursuant to the commission act and these rules for the discharge of wastes from a vessel other than human sewage exempted by R 323.2109, the permit shall contain requirements in accordance with and subject to the applicable regulations promulgated by the secretary of the federal department in which the United States coast guard is operating, which establish specifications for transportation, handling, carriage, storage, and stowage of such wastes.

(2) The commission shall issue a national permit for the discharge of wastes from a vessel only when the permit is in conformance with Act No. 167 of the Public Acts of 1970, being §§323.331 to 323.342 of the Michigan Compiled Laws.

History: 1954 ACS 77, p. 41, Eff. Oct. 17, 1973.

R 323.2142 Terms and conditions of permits; other limitations and requirements.

Rule 1142. When issuing a state or national permit pursuant to the commission act and these rules, the commission shall specify therein, where applicable, average and maximum daily quantitative limitations for the level of wastewater constituents in terms of weight and if appropriate, average or maximum concentration limits for the wastes in the discharge authorized by the issued permit.

History: 1954 ACS 77, p. 41, Eff. Oct. 17, 1973.

R 323.2145 Terms and conditions of permits; schedules of compliance.

Rule 1145. (1) A person issued a state or national permit by the commission pursuant to R 323.2133 who is not in compliance with applicable effluent standards and limitations or other requirements conditioned therein at the time the permit is issued, shall be required to achieve compliance within a period of time as set forth by the commission, with effluent standards and limitations, with water quality standards, or with specific requirements or conditions set by the commission. The commission shall require compliance with terms and conditions of the permit in the shortest reasonable period of time as determined thereby or within a time schedule for compliance which shall be specified in the issued permit.

(2) If a time schedule for compliance specified in a state or national permit which is established by the commission pursuant to subrule (1) exceeds 9 months,

the time schedule shall provide for interim dates of achievement for compliance with certain applicable terms and conditions of the permit. Each interim date specified in the permit shall not exceed 9 months and, to the extent practicable, shall fall on March 31, June 30, September 30, or December 31.

History: 1954 ACS 77, p. 41, Eff. Oct. 17, 1973.

R 323.2146 Terms and conditions of permits; compliance reports by dischargers.

Rule 1146. Within 14 days after an interim date of compliance or the final date of compliance specified in a state or national permit, a permittee shall provide the commission with written notice of his compliance or noncompliance with the requirements or conditions specified to be completed by that date. Failure to submit the written notice to the commission is just cause for the commission to pursue enforcement action against the discharger pursuant to the commission act or these rules.

History: 1954 ACS 77, p. 41, Eff. Oct. 17, 1973.

R 323.2147 Noncompliance lists.

Rule 1147. (1) The executive secretary shall prepare and submit to the regional administrator, on or before February 28, May 31, August 31, and November 30, a list of all dischargers holding national permits which, as of 30 days prior to the date of the report, have submitted a report to the commission pursuant to R 323.2146 showing noncompliance with requirements set forth by the commission to be met on interim dates or on the final date of compliance specified in the permit and those which have not filed a timely report. The noncompliance list shall be available to the public at appropriate commission offices for inspection and copying and shall contain the following information:

(a) The name and address of each noncomplying permittee.

(b) A concise description of the nature of noncompliance.

(c) A description of proposed actions to be taken by the commission or the permittee to correct the noncompliance.

(d) Any other information deemed necessary by the executive secretary to explain or mitigate an instance of noncompliance.

(2) A discharger who fails or refuses to comply with an interim or final date of compliance specified in a state or national permit, may be deemed by the commission to be in violation of the permit and may be subject to enforcement action prescribed in the commission act or these rules.

History: 1954 ACS 77, p. 42, Eff. Oct. 17, 1973.

R 323.2149 Other terms and conditions of state and national permits.

Rule 1149. (1) As part of the condition for issuing a state or national permit by the commission pursuant to these rules, the commission shall be assured that:

(a) All discharges authorized by the permit are consistent with the terms and conditions of the permit and that the permittee will make all reasonable effort to meet any interim or final dates of compliance specified therein.

(b) Any facility expansion, production increases, process modifications, changes in discharge volume or other changes in operations or conditions of the permittee which may result in a new or increased discharge of waste or wastewater shall be reported to the commission by submission of a new application for a state or national permit pursuant to R 323.2108, or if the discharge does not violate effluent limitations specified in the permit, by submission to the executive secretary a notice of a new or increased discharge.

(c) The permittee shall allow any authorized commission representative to enter upon the permittee's premises at any reasonable time, upon presentation of credentials, to have access to and copy any applicable records, to inspect process facilities, treatment works, monitoring methods or equipment therefor or to sample any effluent of a discharge authorized by a permit.

(d) At all times the permittee shall maintain in good working order and operate as efficiently as possible any facilities or systems of control installed to achieve compliance with the terms and conditions of a permit.

(2) Before the commission issues a state or national permit for a discharge from the publicly owned treatment works, it shall secure assurance from the applicant that it will be notified of:

(a) Any new introduction of waste or wastewater constituents into the treatment works from a source which would be a new source as defined in section 306 of the federal act if the source were discharging wastewater constituents.

(b) Except as to categories and classes of point sources or discharges specified by the executive secretary, any new introduction of waste or wastewater constituents into the treatment works from a source which would be subject to section 301 of the federal act if the source were discharging waste or wastewater constituents.

(c) Any substantial change in volume or character of waste or wastewater constituents being introduced into such treatment works by a source discharging wastewater into the treatment works at the time of issuance of a permit.

(3) If a permit is issued by the commission for a discharge from a publicly owned treatment works, the permittee shall require any industrial user of the treatment works to comply with the requirements of sections 204(b), 307, and 308 of the federal act. To ensure compliance the permittee shall require of each industrial user subject to the requirements of section 307 of the federal act to submit periodic notice over intervals, not to exceed 9 months, of progress toward full compliance with section 307 requirements. The permittee shall forward a copy of the periodic notice to the executive secretary.

History: 1954 ACS 77, p. 42, Eff. Oct. 17, 1973.

R 323.2150 Duration of permits.

Rule 1150. A state or national permit issued pursuant to the commission act and these rules shall have a fixed term which shall not exceed 5 years. A person who wishes to continue to discharge waste or wastewater into the surface or groundwaters of the state or on the ground shall apply for reissuance of a permit pursuant to R 323.2151.

History: 1954 ACS 77, p. 43, Eff. Oct. 17, 1973.

R 323.2151 Review and reissuance of state and national permits.

Rule 1151. (1) At least 180 days prior to the expiration date of a state or national permit issued by the commission pursuant to the commission act and these rules, a permittee who wishes to continue the discharge of waste or wastewaters into the surface or groundwaters of the state or on the ground shall submit a written request to the commission for reissuance.

(2) After receipt of written request for reissuance of a state or national permit by a permittee, the commission shall review the request and before reissuing a permit shall be assured that:

(a) The permittee is in compliance with or has substantially complied with the terms, conditions, requirements, and schedules of compliance of the existing state or national permit.

(b) The commission has up-to-date information on the permittee's production levels, waste treatment practices, and the nature, contents, and frequency of the permittee's discharge. The information shall be available to the commission either through the submission of new NPDES forms by the permittee or by means of monitoring records or reports submitted thereto pursuant to R 323.2155.

(c) The discharge is consistent with applicable effluent standards and limitations, water quality standards, and other legally applicable requirements, including any additions to, or revisions or modifications of, the effluent standards and limitations, water quality standards, or other legally applicable requirements during the term of the permit.

(3) The commission shall follow the public notice and public participation procedures specified in R 323.2117 to R 323.2119 and R 323.2124 to R 323.2127 before any state or national permit is reissued pursuant to this rule.

(4) A copy of a national permit reissued by the commission shall be transmitted to the regional administrator with any other appropriate NPDES forms or other applicable information relating thereto.

History: 1954 ACS 77, p. 43, Eff. Oct. 17, 1973.

R 323.2153 Point source discharges; standards of performance.

Rule 1153. A facility, building, installation, or industry which discharges a point source discharge subject to a national permit and which is so constructed after October 18, 1972, to meet all applicable effluent standards of performance as required by the federal act, the commission act, or these rules, shall not be subject to any more stringent standard of performance for any wastewater constituent during a 10-year period beginning on the date of completion of construction or during the period of depreciation or amortization of the facility for the purposes of section 167 or 169, or both, of the internal revenue code of 1954, whichever period ends first, unless reallocation of effluent loads are necessitated in a discharge complex to meet water quality standards.

History: 1954 ACS 77, p. 43, Eff. Oct. 17, 1973.

R 323.2154 Monitoring of discharges authorized by permits; requirements.

Rule 1154. (1) The commission may set forth monitoring requirements of any discharge authorized by a state or national permit issued by it pursuant to these rules. In requiring any discharge monitoring, the commission shall specify the type of monitoring required, and the discharger shall obtain approval of the installation, use, and maintenance of monitoring equipment or methods to be employed therefor from the commission.

(2) A discharge authorized by a national permit which the regional administrator, by written request to the commission, requires to be monitored or which contains toxic waste or wastewater constituents for which an effluent standard or limitation has been established by the administrator of EPA pursuant to section 307(a) of the federal act, shall be monitored by the permittee for any or all of the following:

(a) The flow of the discharge in gallons per day or other volumes required by the commission.

(b) Waste or wastewater constituents subject to reduction or elimination under the terms and conditions of the permit.

(c) Specific waste or wastewater constituents which are determined by the executive secretary to have a significant effect on the quality of the waters of the state.

(d) Waste or wastewater constituents specified as subject to monitoring by the administrator of EPA in regulations promulgated pursuant to the federal act.

(e) Any other specific waste or wastewater constituents which the regional administrator may request in writing to be monitored.

(3) The frequency of monitoring of a waste or wastewater discharge required to be monitored pursuant to this rule shall be specified in a state or national permit when issued, except that the commission at any time may require additional monitoring by notification of the permittee in writing.

History: 1954 ACS 77, p. 43, Eff. Oct. 17, 1973.

R 323.2155 Monitoring of discharges authorized by permits; recording and reporting.

Rule 1155. (1) A permittee required to monitor a waste or wastewater discharge pursuant to R 323.2155, shall maintain records of all information resulting from such monitoring, including the date, place, and time of sampling; and dates analyses were performed; the person performing the analyses; the analytical techniques, procedures or methods used; and the results of such analyses. All records and results of monitoring activities and calibration and maintenance records shall be retained by the permittee a minimum of 3 years unless otherwise required or extended by the commission or the regional administrator.

(2) The commission may require a permittee to report periodically the results of all monitoring activities undertaken by him on an appropriate reporting form supplied by the commission. The commission shall notify the permittee of the frequency of reporting, but in no case shall the reporting frequency be less than at least once in a period of 1 year.

(3) Upon written request of the regional administrator, the commission shall transmit thereto any reporting form or other monitoring information required by this rule.

History: 1954 ACS 77, p. 44, Eff. Oct. 17, 1973.

R 323.2159 State and national permits; modification or revocation.

Rule 1159. (1) The commission may modify any term or condition, including a schedule of compliance, of a permit or may revoke a permit upon its finding that:

(a) There is a change in any condition that requires a temporary or permanent reduction or elimination of a permitted discharge or constituent thereof.

(b) The administrator of EPA issues a regulation prescribing a restriction or prohibition of a waste or wastewater constituent which is not covered by the terms and conditions of a permit or if the regulation is more stringent than any limitation imposed on a wastewater constituent in a permit.

(c) A modification of the terms and conditions of a permit or a time schedule thereon is necessary because of an act of God or other conditions beyond the control of the permittee.

(d) In the case of discharges from publicly owned treatment works, federal treatment works grant funds are not available or are not sufficient to allow construction of the treatment works in a time schedule set forth in the permit.

(e) There is a violation of any terms or conditions of the permit.

(f) The permittee has obtained a permit by misrepresentation or has failed to disclose all relevant facts to the commission.

(g) A toxic effluent standard or prohibition, including any schedule of compliance specified therein, is established pursuant to section 307(a) of the federal act for a toxic waste or wastewater constituent which is present in the permittee's

discharge and the standard or prohibition is more stringent than any limitation upon the waste or wastewater constituent in the permit.

(2) The commission shall notify the regional administrator of any change in status or condition of a permit, and he shall have an opportunity to object in writing thereto within 45 days before the effective date of the modification. Should the regional administrator object in writing, the objection shall be resolved before the modification is approved by the commission, unless the right to object is waived in writing by the regional administrator.

(3) A permittee who is affected by a modification of a permit by the commission shall be notified at least 90 days before the effective date of the modification and upon petition therefor, shall have a hearing thereon pursuant to subsection (a), section 8 of the commission act, and part 3 of the general rules of the commission, being R 323.1031 to R 323.1036 of the Michigan Administrative Code.

(4) If the commission modifies an effluent limitation or a schedule of compliance in a permit, notice of the modification shall be mailed to all persons on the commission mailing list for public notices and fact sheets as prescribed by R 323.2124, and any interested person may comment thereon within 30 days following the date of notification.

History: 1954 ACS 77, p. 44, Eff. Oct. 17, 1973.

R 323.2160 Enforcement.

Rule 1160. (1) A person who submits false information to the commission on an application, other NPDES form, or any other reporting form, or who violates any of these rules, a term, condition, or schedule of compliance contained within a valid state or national permit, or the commission act is subject to the remedies or penalties prescribed by sections 7 and 10 of the commission act.

(2) The commission shall notify the regional administrator of all violations of these rules, a valid permit or the commission act, and of the means by which the commission proposes to correct or require the correction of violations.

History: 1954 ACS 77, p. 45, Eff. Oct. 17, 1973.

DIVISION OF LAND RESOURCE PROGRAMS

AQUATIC NUISANCE CONTROL

(By authority conferred on the department of natural resources by section 1 of Act No. 58 of the Public Acts of 1959, as amended, being §323.221 of the Michigan Compiled Laws)

R 323.3101 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 58 of the Public Acts of 1959, as amended, being §§323.221 to 323.226 of the Michigan Compiled Laws.

(b) "Algae" means any of the group of nonvascular aquatic plants without true stems, flowers, leaves, and roots, either single-celled or colonial forms.

(c) "Aquatic nuisance" means any organism which lives or propagates, or both, within the aquatic environment and interferes with, or impairs the use or enjoyment of, the aquatic resources of the state.

(d) "Aquatic vegetation" means both algae and higher aquatic plants.

(e) "Certified applicator" means a commercial applicator certified by the Michigan department of agriculture pursuant to section 12 of Act No. 171 of the Public Acts of 1976, being §286.562 of the Michigan Compiled Laws.

Digitized by Google

(f) "Chemical" means any product designed to control aquatic vegetation, swimmers' itch, or other aquatic nuisances, including, but not limited to, chemical herbicides and other chemicals designed to eliminate nutrients from the water column, seal the bottom sediments, or limit the penetration of light through the water column, thereby restricting the growth of aquatic plants.

(g) "Department" means the Michigan department of natural resources.

(h) "Director" means the director of the department.

(i) "EPA" means the United States environmental protection agency.

(j) "FIFRA" means the federal insecticide, fungicide and rodenticide act, as amended, being 7 U.S.C. §§136 to 136(y).

(k) "Herbicide" means a chemical used to kill, or inhibit the growth of, plants and algae, which is registered with the EPA and the Michigan department of agriculture for use in the aquatic environment.

(l) "Higher aquatic plant" means any of a group of vascularized plants with true stems, flowers, leaves, and roots, which live in water and belong to the class angiospermae.

(m) "Pond" means a small body of standing water without a permanent or intermittent outlet, which has a surface area of not more than 10 acres, and is owned by a single individual or corporation.

(n) "Swimmers' itch" means the inflammation of a swimmer's skin resulting from an allergic reaction to the penetration of the skin by the immature stages of blood fluke parasites which live a part of their life cycle in certain aquatic snails.

(o) "Weekday" means all days of the week except Saturday, Sunday, memorial day, and July 4 (independence day).

History: 1954 ACS 95, p. 50, Eff. June 9, 1978.

R 323.3102 Persons required to obtain permit.

Rule 2. A person proposing a chemical treatment for the purpose of aquatic nuisance control of waters of the state, except ponds, shall obtain a permit from the department prior to treatment, pursuant to section 5 of the act.

History: 1954 ACS 95, p. 51, Eff. June 9, 1978.

R 323.3103 Permit; required information.

Rule 3. The department-issued permit shall include the name of the chemical to be applied, rate of application, maximum amount to be applied, procedures for the notification of the department, posting restrictions on water use, and location of the treatment.

History: 1954 ACS 95, p. 51, Eff. June 9, 1978.

R 323.3104 Registration of chemicals; use of certain chemicals prohibited.

Rule 4. (1) A chemical employed for aquatic nuisance control shall be registered with the EPA and the Michigan department of agriculture for the nuisance control activity for which it is proposed pursuant to section 12 of FIFRA and section 8 of Act No. 171 of the Public Acts of 1976, being §286.558 of the Michigan Compiled Laws.

(2) The director may prohibit the use of certain chemicals if they present a hazard or potential hazard to public health or the natural resources of the state. The department shall not issue permits authorizing the use of such chemicals. In addition, anyone operating under a permit shall cease the use of such chemicals upon notification by the department.

History: 1954 ACS 95, p. 51, Eff. June 9, 1978.

R 323.3105 Application for permit; notification of proposed treatment; treatment report form.

Rule 5. (1) An application for permit may be made by an individual, governmental unit, certified applicator, or a local lake association. If treatment is to be conducted by a certified applicator or a local lake association and is to involve the property of 5 or more riparian owners, a list of not less than 5 individual riparian owners involved in the treatment, as well as the name of the lake association, shall accompany the permit application.

(2) An application for permit on department forms with a drawing of the treatment area which clearly delineates the proposed treatment shall be submitted in duplicate to the department.

(3) A permit for the use of an aquatic herbicide to control higher aquatic plants shall only be issued between April 1 and August 20 of each year. A permit application postmarked after August 15 shall be returned to the applicant.

(4) A permit application for the control of swimmers' itch or algae may be submitted at any time during the summer season.

(5) A permit application proposing treatment of a body of water or a connecting watercourse which serves as a municipal water supply shall be submitted by the department to the department of public health for review prior to the issuance of a permit.

(6) The department shall either issue a permit, grant the permit in part, or deny the permit and provide the applicant with written reasons for denial, within 15 working days after receipt of a complete application. Action on permits requiring review by the department of public health may take up to 30 days.

(7) An occupant of an adjacent riparian dwelling, whose bottom lands are within the treated area or within 100 feet of the treated area, shall be given notice by the applicant of the proposed treatment in writing not less than 7 days prior to the treatment.

(8) The permittee shall complete and return the treatment report form provided by the department on or before November 1 of the year in which the permit is issued.

History: 1954 ACS 95, p. 51, Eff. June 9, 1978.

R 323.3106 Application of herbicides; permitted times.

Rule 6. (1) The application of herbicides to an area greater than 2 acres, or along more than 1,000 feet of shoreline, shall be conducted on a weekday or Saturday between sunrise and sunset until June 28, and only on weekdays thereafter.

(2) An aquatic herbicide which restricts body contact activities in treated water for more than 24 hours after treatment shall not be used after June 20 of any year without written approval of all riparian owners within 100 feet of the treated area.

History: 1954 ACS 95, p. 52, Eff. June 9, 1978.

R 323.3107 Conditions of permit.

Rule 7. As a condition of the permit, the department may require the permittee to do any of the following:

(a) Notify the department not less than 2 working days in advance of treatment.

(b) Proceed with treatment only if a department representative is present.

(c) Supply to the department or its representative a sample of the herbicide used prior to or during any herbicide treatment.

(d) Post the treated area prior to treatment according to precautions included on the permit and the posting guidelines in R 323.3110.

(e) Publish a notice in a local newspaper or make an announcement on a local radio station which outlines the chemical used, a description of the treated area, and the restrictions on the use of treated water.

History: 1954 ACS 95, p. 52, Eff. June 9, 1978.

R 323.3108 Denial of a permit.

Rule 8. The department shall deny a permit application in any of the following circumstances:

(a) The proposed use of a product is inconsistent with its label pursuant to FIFRA.

(b) The use of a product unregistered for that particular use by the Michigan department of agriculture pursuant to Act No. 171 of the Public Acts of 1976 and the EPA pursuant to FIFRA is proposed.

(c) The use of an aquatic herbicide, though strictly in accordance with the label and otherwise in compliance with these rules, is likely to result in economic loss, recreational damage, or a public health hazard.

(d) An application for chemical treatment of higher aquatic plants is postmarked after August 15.

(e) An application proposes treatment of too large a quantity of rooted aquatic vegetation of any 1 lake as determined by the department.

(f) If an applicant has committed 2 or more violations of other permits previously issued under the act, conditions of a permit, or these rules within 1 calendar year.

History: 1954 ACS 95, p. 52, Eff. June 9, 1978.

R 323.3109 Revocation of permit.

Rule 9. The department may revoke a permit issued under the act on notice by certified mail to the permittee in any of the following circumstances:

(a) The use of an aquatic herbicide, although otherwise in accordance with the label and these rules, is likely to result in economic loss, recreational damage, or a public health hazard.

(b) False information is provided on the permit application.

History: 1954 ACS 95, p. 52, Eff. June 9, 1978.

R 323.3110 Posting of treatment area.

Rule 10. For those permits which require prior posting of the treated area, signs shall be posted as follows:

(a) For treatment of areas less than 2 acres, signs incorporating the posting instructions on the permit shall be posted along the shoreline of the treatment area not more than 100 feet apart. To allow for drift of chemical from the treatment area, riparian lands adjacent to the area shall also be posted, if permitted by the riparian owners.

(b) For treatment of areas in excess of 2 acres, signs shall be posted as in subdivision (a). In addition, all access sites, boat launching areas, and private and public parks located on the body of water involved, shall be posted conspicuously, such as at the entrances, boat ramps, and bulletin boards, if permitted by their managers or owners. If these sites, launching areas, and parks are not to be treated or are not adjacent to a treated area, the signs shall clearly indicate the

location of the treatment area and shall outline the restrictions on the use of the water in that treatment area.

(c) Posting of signs shall be accomplished with a printed sign approved by the department, which shall include:

(i) The permit number.

(ii) The name, address, and telephone number of the person, organization, or certified applicator conducting the treatment.

(iii) The name of the chemical or chemicals and the restrictions on the use of treated water pursuant to the permit.

History: 1954 ACS 95, p. 52, Eff. June 9, 1978.
